

ITEM 16 C
FINAL STAFF ANALYSIS
PROPOSED AMENDMENT TO PARAMETERS AND GUIDELINES

Statutes 1984, 2nd E.S, Chapter 1
Statutes 1987, Chapter 1118

Health Fee Elimination
05-PGA-69 (CSM-4206)

State Controller's Office, Requestor

EXECUTIVE SUMMARY

This is a request filed by the State Controller's Office (SCO) to amend the parameters and guidelines for the *Health Fee Elimination* program (CSM-4206) to add language regarding source documentation, and record retention requirements during the period a claim is subject to an audit. If the Commission on State Mandates (Commission) approves the SCO's request, the amendments would be effective for costs incurred beginning on July 1, 2005.

In 2003, upon recommendation from the Bureau of State Audits, direction from the Legislature, and an SCO request, the Commission adopted amendments to parameters and guidelines that clarified what source documentation claimants are required to retain to support the claims they file to obtain reimbursement for mandated programs, and records retention language that identifies the records that must be retained to support an audit initiated by the SCO. The adopted language, commonly referred to as "boilerplate language," has been included in all parameters and guidelines adopted since 2003. In addition, section 1183 of the Commission's regulations require parameters and guidelines to include instruction on claim preparation, notice of the SCO's authority to audit claims, and the amount of time documentation must be retained during the audit period.

The SCO is now requesting that parameters and guidelines adopted prior to 2003 be amended to also include the source documentation and records retention language.

This analysis pertains only to the request to amend the *Health Fee Elimination* program. The staff analyses for the other 48 programs will be presented separately.

There is one issue for the Commission's consideration:

- **Should the parameters and guidelines be amended to add the current "boilerplate language"?**

Staff finds that it is appropriate to approve the SCO's request to insert the source documentation and records retention language because it would conform the parameters and guidelines for the program with the parameters and guidelines adopted for other programs, and is consistent with section 1183.1 of the Commission's regulations. Therefore, staff included the language requested by the SCO.

Staff Recommendation

Staff recommends that the Commission:

- Adopt the SCO's proposed amendments to the parameters and guidelines for the *Health Fee Elimination* program, beginning on page 9.
- Authorize staff to make any non-substantive, technical corrections to the parameters and guidelines following the hearing.

STAFF ANALYSIS

State Controller's Office

Chronology

| | |
|------------|---|
| 01/22/1987 | Commission on State Mandates (Commission) adopts Statement of Decision |
| 08/27/1987 | Commission adopts parameters and guidelines |
| 05/25/1989 | Commission amends parameters and guidelines |
| 01/23/2003 | The Commission, upon the recommendation of the Bureau of State Audits, direction from the Legislature, and upon request from the State Controller's Office (SCO), adopts amendments to the <i>School Bus Safety II</i> parameters and guidelines to include "boilerplate language" that details the documentation necessary to support reimbursement claims. After this date, all adopted parameters and guidelines contain this language |
| 04/07/2006 | SCO requests the parameters and guidelines for 49 mandated programs adopted prior to 2003 also be amended to include boilerplate language, including the <i>Health Fee Elimination</i> program analyzed here |
| 04/27/2006 | Commission deems SCO's request for amendment of parameters and guidelines complete and issues for comment |
| 07/23/2009 | Commission reissues SCO's request for amendment of parameters and guidelines for comment |
| 08/18/2009 | Department of Finance files comments |
| 12/09/2009 | Commission staff issues draft staff analysis |

Background

This is a request filed by the State Controller's Office (SCO) to amend the parameters and guidelines for the *Health Fee Elimination* program (CSM-4206) to add language regarding source documentation, and record retention requirements during the period a claim is subject to an audit. If the Commission on State Mandates (Commission) approves the SCO's request, the amendments would be effective for costs incurred beginning on July 1, 2005.

Test Claim Decision and Parameters and Guidelines

The test claim statutes repealed Education Code section 72244, which authorized California community college districts to provide for an optional health services program, and repealed section 72246, which authorized the districts to charge students a fee for providing the service. The test claim statutes instead required those districts that provided a for fee health services program in 1983-84 to now permanently provide the health services at the 1983-84 level for all future fiscal years, without charging the fee.

Rio Hondo Community College District filed a test claim on November 27, 1985 alleging that under the test claim statutes a program which was optional is now required, and thus imposes a new program or higher level of service on community college districts.

The Commission approved the test claim on September 25, 1986, concluding that the test claim statutes constituted a reimbursable state mandated program upon community college districts pursuant to section 6, article XIII B of the California Constitution by requiring the districts to provide a health services program while removing the authority to assess a health services fee.¹

The Commission adopted the parameters and guidelines for this program On August 27, 1987, and amended the parameters and guidelines on May 25, 1989.²

Boilerplate Language

On March 28, 2002, the Bureau of State Audits (BSA) issued an audit report on the *School Bus Safety II* program, stating that the parameters and guidelines do not impose sufficient requirements regarding the documentation required to support reimbursement claims, and thus, insufficient documentation was being submitted to support claims.³ The report recommended, among other things, that the Commission work with the SCO, other affected state agencies, and interested parties to make sure the language in the parameters and guidelines and the claiming instructions for the *School Bus Safety II* program reflects the Commission's intentions as well as the SCO's expectations regarding supporting documentation. On June 10, 2002, the SCO proposed that parameters and guidelines be amended to clarify what documentation is necessary to support reimbursement claims and what records must be retained to support audits initiated by the SCO.

Based on BSA's audit findings and recommendations, the Legislature enacted Statutes 2002, chapter 1167 (AB 2781) to direct the Commission to amend the parameters and guidelines in *School Bus Safety II*, to detail the documentation necessary to support reimbursement claims.

On January 23, 2003, upon recommendation from BSA, direction from the Legislature, and the SCO's request, the Commission adopted the following language regarding source documentation and records retention to the *School Bus Safety II* parameters and guidelines:⁴

Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or

¹ Exhibit A.

² Exhibit B.

³ Exhibit C.

⁴ The Commission also adopted other boilerplate language that is not relevant to this request.

declaration stating, “I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge.” Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

Record Retention

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.*

The Commission has included this language, commonly referred to as “boilerplate language,” in all parameters and guidelines adopted on or after January 23, 2003.

SCO Request to Amend Parameters and Guidelines

On April 7, 2006, the SCO requested that the parameters and guidelines for 49 mandated programs that were adopted prior to 2003 be amended to also include the boilerplate language regarding source documentation and records retention that was adopted by the Commission in 2003.⁵

The parameters and guidelines for the *Health Fee Elimination* program is one of the 49 programs the SCO is requesting be amended.

Comments on the Proposal

On April 27, 2006, the Commission issued the SCO’s request to amend the parameters and guidelines for comment. No comments were filed. On July 23, 2009, the Commission reissued the proposal for comment. On August 18, 2009, Department of Finance submitted comments.⁶

In its comments, Finance stated it was neutral on the proposal, because the request to include boilerplate language in the parameters and guidelines for the 49 programs would allow the Controller to complete audit related tasks more efficiently, and provide the claimant with more information and record retention requirements, as well as the statute of limitations for audits.

* This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

⁵ Exhibit D.

⁶ Exhibit E.

Commission staff issued the draft staff analysis on December 9, 2009.⁷ No other comments were filed.

Related Litigation (*Clovis Unified School Dist., et al. v. State Controller*)

This case involves a challenge by school districts and community college districts on reductions made by the State Controller's Office to reimbursement claims for several mandated programs.⁸ The school districts argue that reductions made on the ground that school districts do not have contemporaneous source documents are invalid.

Trial Court Ruling. On January 2, 2009, the Sacramento County Superior Court (Case No. 06CS00748) issued a clarification of ruling and on February 19, 2009, issued a Judgment and Writ, finding that reductions made by the Controller on the ground that claimants did not have contemporaneous source documents supporting their reimbursement claims were invalid as an underground regulation *if* the contemporaneous source document requirement was not in the Commission's parameters and guidelines. The court held that the Controller has no authority to reduce a claim on the ground that a claimant did not maintain contemporaneous source documents to support their claim, absent statutory or regulatory authority to require contemporaneous source documents, or language in the parameters and guidelines requiring it. Pursuant to Government Code section 17558, the Controller's claiming instructions shall be derived from the test claim decision and the adopted parameters and guidelines. Thus, the court granted declaratory relief and a writ of mandate requiring the Controller to set aside the reduction and pay the school district plaintiffs the amounts reduced on two mandated programs that did not have parameters and guidelines language requiring claimants to maintain contemporaneous source documents.

Court of Appeal Filings (Third District Court of Appeal, Case No. C061696). Notices of appeal and cross-appeal have been filed by the SCO, the community college districts, and the school districts and opening briefs have been filed. The appeal on the issue of the validity of the contemporaneous source documentation requirement remains pending.

Discussion

The proposed amendments to the parameters and guidelines raise the following issue for determination by the Commission:

Issue: Should the parameters and guidelines be amended to add the Commission's current "boilerplate language"?

In 2003, following recommendation from the BSA and direction from the Legislature, the SCO requested, and the Commission adopted amendments to parameters and guidelines that clarify what source documentation claimants are required to retain to support the claims they file to obtain reimbursement for mandated programs, and records retention language that identifies the records that must be retained to support an audit initiated by the SCO.

The adopted language, as detailed on pages 4 and 5 of this analysis, has been included in all parameters and guidelines adopted since 2003.

In addition, section 1183.1, subdivision (a) (5) and (6) require that the parameters and guidelines contain, among other things, the following:

⁷ Exhibit F.

⁸ The Commission is not a party to this action.

- Claim preparation. Instruction on claim preparation, including instruction for direct and indirect cost reporting, or application of a reasonable reimbursement methodology.
- Record retention. Notice of the Office of the State Controller's authority to audit claims and the amount of time supporting documents must be retained during period subject to audit.

The SCO is now requesting that parameters and guidelines adopted prior to 2003 be amended to also include the source documentation and records retention language. This analysis pertains to the parameters and guidelines for the *Health Fee Elimination* program.⁹

Inserting the source documentation and records retention boilerplate language would conform the parameters and guidelines for the *Health Fee Elimination* program with the parameters and guidelines adopted for other programs, and is consistent with section 1183.1 of the Commission's regulations.

Therefore, staff finds that it is appropriate to approve the SCO's request, and made the following modifications to the parameters and guidelines:

IV. *Period of Reimbursement*

Government Code section 17557, subdivision (d) states that a parameters and guidelines amendment filed on or before the claiming deadline following a fiscal year, shall establish reimbursement eligibility for that fiscal year. This amendment was filed on April 7, 2006, (after the claiming deadline) establishing reimbursement for fiscal year 2005-2006. Therefore, reimbursement for this amendment shall begin on July 1, 2005.

Staff clarified that the proposed amendments would be effective on July 1, 2005.

V. *Reimbursable Activities and Related Costs*

Staff inserted the following boilerplate language regarding source documentation, as requested by the SCO:

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge."

⁹ The SCO only requested that the portions of the boilerplate language regarding source documentation and records retention be added to the parameters and guidelines for the 49 programs. There are other sections of the boilerplate language regarding the remedies available before the Commission, and the legal and factual basis for the parameters and guidelines. Staff did not include these sections because the SCO did not request that they be included.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate

VII. *Records Retention*

At the request of the SCO, staff removed the existing language regarding supporting data, and replaced it with the following boilerplate language regarding records retention.

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.*

Staff Recommendation

Staff recommends that the Commission:

- Adopt the proposed amendments to parameters and guidelines for the *Health Fee Elimination* program, beginning on page 9.
- Authorize staff to make any non-substantive, technical corrections to the parameters and guidelines following the hearing.

* This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.
