I. SUMMARY OF THE MANDATE

School District Fiscal Accountability Reporting

On October 26, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision finding that the School District Fiscal Accountability Reporting program (Education Code sections 42100, 42127, 42127.5, 42127.6, 42128, and 42131 and Government Code section 3540.2) requires some new activities, as specified below, which constitute new programs or higher levels of service within existing programs upon school districts and/or county offices of education within the meaning of article XIII B, section 6 of the California Constitution and impose costs mandated by the state pursuant to Government Code section 17514.

Accordingly, the Commission approved this test claim for the following specific new activities required to comply with the budget process:

School District Activities:

1. Sending a statement of receipts and expenditures for the preceding fiscal year to the county superintendent of schools, pursuant to Education Code section 42100.
2. Adjusting for the change in the deadline for adopting the revised school district budget, from on or before September 15, to on or before September 8, pursuant to Education Code section 42127.
3. Making available for public review, not later than 45 days after the Governor signs the annual State Budget Act, any revisions in revenues and expenditures made to the school district budget to reflect the funding made available by that State Budget Act, pursuant to Education Code section 42127.
4. Drafting a statement of correction when the school district incurs a negative balance, pursuant to Education Code section 42127.5.
5. Certifying in writing, either positively, qualifiedly, or negatively, within 45 days after the close of the period being reported, whether the school district is able to meet its financial obligations for the remainder of the fiscal year and, based on current forecasts, for the subsequent fiscal year, pursuant to Education Code section 42131.
6. Filing with the county superintendent of schools a copy of the financial obligation certification, and a copy of the report submitted to the school district governing board required by Education Code section 42130, pursuant to Education Code section 42131.
7. For those school districts with a qualified or negative financial certification, providing to the county superintendent of schools, the State Controller, and the State Superintendent of Public Instruction, no later than June 1 each year, financial statement projections of the school district's fund and cash balances through June 30 for the period ending April 30, pursuant to Education Code section 42131.
8. For those school districts with a qualified or negative financial certification, providing the county superintendent of schools with all information relevant to the financial impact of any collective bargaining agreement, in the format developed by the State Superintendent of Public Instruction, as specifically requested by the county office of education, pursuant to Government Code section 3540.2.

County Office of Education Activities:

14. Notifying the State Superintendent of Public Instruction in writing if a county superintendent of schools determines that a school district is unable to meet its financial obligations for the current or two subsequent fiscal years, or if the school district has a qualified or negative certification required by section 42131, pursuant to Education Code section 42127.6.
15. Notifying appropriate county officials that he or she shall not approve any warrants issued by the school district, whenever a school district has not made a budget or filed the interim reports required by section 42130, pursuant to Education Code section 42128.
16. Changing the school district financial certification to negative or qualified, as appropriate, if a county office of education receives a positive certification from the school district, when a negative or qualified certification should have been filed and providing notice of that action to the governing board of the school district and to the State Superintendent of Public Instruction, within 75 days after the close of the applicable reporting period, pursuant to Education Code section 42131.

[Employee Benefits Disclosure](#)

On February 22, 2001, the Commission determined that the *Employee Benefits Disclosure* program (CSM-4502) imposed a reimbursable state mandate on school districts, as follows:

Within 45 days of adopting a collective bargaining agreement, forwarding to the county superintendent of schools any revisions to the school district's current year budget that are necessary to fulfill the terms of that agreement with any additional costs reflected in interim fiscal reports or multiyear fiscal projects. (Ed. Code, § 42142.)

II. ELIGIBLE CLAIMANTS

Any "school district," as defined in Government Code section 17519, except for community colleges, which incurs increased costs as a result of this mandate, is eligible to claim reimbursement.

III. PERIOD OF REIMBURSEMENT

The period of reimbursement for this amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561 (d)(1), all claims for reimbursement of initial years' costs shall be submitted within 120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

~~Government Code section 17557, prior to its amendment by Statutes of 1998, chapter 681 (effective September 22, 1998), stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that fiscal year. The test claim for this mandate was submitted on December 22, 1997, therefore all mandated costs incurred on or after July 1, 1996 are reimbursable.~~

~~Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years' costs shall be submitted within 120 days of release of claiming instructions by the State Controller.~~

~~If the total costs for a given fiscal year do not exceed \$200, no reimbursement shall be allowed, except as otherwise provided for by Government Code section 17564.~~

IV. REIMBURSABLE ACTIVITIES

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are eligible for reimbursement:

A. Annual Statement of Receipts and Expenditures (Ed. Code, § 42100.)

School District Activities

C. Negative Fund or Cash Balances (Ed. Code, §§ 42127.5, 42127.6.)

School District Activities

- The governing board of any school district that reported a negative unrestricted fund balance or a negative cash balance in the annual report required by Education Code section 42127 or in the audited annual financial statements required by Education Code section 42120 shall include with the budget submitted in accordance with Education Code section 42127 and the interim certifications required by Education Code section 35015, a statement that identifies the reasons for the negative unrestricted fund balance or negative cash balance and the steps that have been taken to ensure that the negative balance will not occur at the end of the current fiscal year. (Ed. Code, § 42127.5.)

County Office of Education Activities

- If at any time during the fiscal year the county superintendent of schools determines that a school district may be unable to meet its financial obligations for the current or two subsequent fiscal years or if a school district has a qualified certification pursuant to Education Code section 42131, the superintendent shall notify the governing board of the school district and the State Superintendent of Public Instruction in writing of that determination and the basis for the determination. (Ed. Code, § 42127.6, subd. (a).)

(Ed. Code, § 42127, subd. (h).)

E. Certification of Ability to Meet Fiscal Year Obligations (Ed. Code, § 42131.)

School District Activities

- Within 45 days after the close of the period being reported, the governing board of each school district shall certify, in writing, whether or not the school district is able to meet its financial obligations for the remainder of the fiscal year and, based on

current forecasts, for the subsequent two fiscal years.¹ The certifications shall be classified as positive, qualified, or negative as prescribed by the State Superintendent of Public Instruction, and shall be based on the financial and budgetary reports required by Education Code section 42130 and additional financial information known by the governing board at the time of the certification. (Ed. Code, § 42131, subd. (a)(2).)

- The school district shall file a copy of each certification and a copy of the financial and budgetary status report submitted pursuant to Education Code section 42130 with the county superintendent of schools (Ed. Code, § 42131, subd. (a)(2).)

County Office of Education Activities

- When a county office of education receives a positive certification that a school district is able to meet its financial obligations, the county office of education shall review the positive certification to determine whether a negative or qualified certification should have been filed. (Ed. Code, § 42131, subd. (a)(2).)
- When a county office of education determines that a positive certification should have been filed as a negative or qualified certification, the county superintendent of schools shall change the certification to negative or qualified, as appropriate, and, no later than 75 days after the close of the period being reported, shall provide notice of that action to the governing board of the school district and to the State Superintendent of Public Instruction. (Ed. Code, § 42131, subd. (a)(2).)
- Within 75 days after the close of each reporting period, each county superintendent of schools shall report to the State Controller and the State Superintendent of Public Instruction as to whether the governing board of each school district under his or her jurisdiction has submitted the certification required by Education Code section 42131, subdivision (a). That report shall account for all districts under the jurisdiction of the county office of education and indicate the type of certification filed by each district. (Ed. Code, § 42131, subd. (c).)

F. Qualified and Negative Certifications (Ed. Code, § 42131, subd. (e), Gov. Code, § 3540.2.)

School District Activities

- No later than June 1, the governing board of each school district filing a qualified or negative certification for the second report required under Education Code section 42130, or classified as qualified or negative by the county superintendent of schools, shall provide to the county superintendent of schools, the State Controller, and the State Superintendent of Public Instruction financial statement projections of the district's fund and cash balances through June 30 for the period ending April 30. (Ed. Code, § 42131, subd. (e).)

¹ Commonly referred to as multiyear projections.

- A school district with a qualified or negative certification shall provide the county superintendent of schools, upon request, with all information relevant to provide an understanding of the financial impact of any final collective bargaining agreement reached pursuant to Education Code section 3543.2. (Gov. Code, § 3540.2, subd. (d).)

County Office of Education Activities

- At the time of the certification, the county office of education shall submit copies of any certification in which the governing board is unable to certify unqualifiedly that these financial obligations will be met and a copy of the financial and budgetary status report submitted to the governing board pursuant to Education Code section 42130 to the State Controller and the State Superintendent of Public Instruction, together with a completed transmittal form provided by the State Superintendent of Public Instruction. (Ed. Code, § 42131, subd. (a)(2).)

(Ed. Code, § 42131, subd. (a)(2).)

G. Neglect or Refusal to Make a Budget (Ed. Code, § 42128.)

County Office of Education Activities

- If the governing board of any school district neglects or refuses to make a school district budget as prescribed by chapter 6, article 2 of the Education Code (beginning with Education Code section 42120), or neglects to file interim financial and budgetary reports pursuant to Education Code section 42130, then the county superintendent of schools shall notify the appropriate county official that he or she shall not approve any warrants issued by the school district.

H. Collective Bargaining Budget Revisions

School District Activities

Within 45 days of adopting a collective bargaining agreement, the superintendent of the school district shall forward to the county superintendent of schools any revisions to the school district's current year budget that are necessary to fulfill the terms of that agreement. Any additional costs to the school district that may result from the terms of the collective bargaining agreement shall be reflected in interim fiscal reports or multi-year fiscal projections. (Ed. Code, § 42142.)

H I. Training

Train staff on implementing the reimbursable activities listed in section IV, activities A through G-H, of these parameters and guidelines. (One-time activity for each employee.)

V. CLAIM PREPARATION AND SUBMISSION

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. Attach a copy of the contract to the claim. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the dates when services were performed and itemize all costs for those services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the

rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs, and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the J-380 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

County offices of education must use the J-580 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter² is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

² This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

VII. OFFSETTING SAVINGS AND REIMBURSEMENTS

Any offsetting savings the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, services fees collected, federal funds, and other state funds, shall be identified and deducted from this claim.

VIII. STATE CONTROLLER'S CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the adopted parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The claiming instructions shall be derived from the test claim decision and the parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(1), issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

IX. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

~~B.—Record Keeping~~

~~Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to audit by the State Controller no later than two years after the end of the calendar year in which the reimbursement claim is filed or last amended.* See the State Controller's claiming instructions regarding retention of required documentation during the audit period.~~
