4. IDENTIFICATION OF STATUTES OR EXECUTIVE ORDERS

Please specify the subject statute or executive order that claimant alleges is not being fully reimbursed pursuant to the adopted parameters and guidelines.

Civil Code Sections 1834 and 1846; Food and Agriculture Code Sections 31108, 31752, 31752.5, 31753, 32001, and 32003. As Added or Amended by Statutes of 1998, Chapter 752 AND Amended Pursuant to Statutes 2004, Chapter 313 (AB 2224).

5. AMOUNT OF INCORRECT REDUCTION

Please specify the fiscal year and amount of reduction. More than one fiscal year may be claimed.

Fiscal Year	Amount of Reduction
see attach	
TOTAL: \$5,425,813.00	

6. NOTICE OF INTENT TO CONSOLIDATE

Please check the box below if there is intent to consolidate this claim.

Yes, this claim is being filed with the intent to consolidate on behalf of other claimants.

Sections 7 through 11 are attached as follows:

- 7. Written Detailed Narrative:** pages ___ to ___.
- 8. Documentary Evidence and Declarations:** Exhibit ___.
- 9. Claiming Instructions:** Exhibit ___.
- 10. Final State Audit Report or Other Written Notice of Adjustment:** Exhibit ___.
- 11. Reimbursement Claims:** Exhibit ___.

Sections 7 through 11 shall be included with each incorrect reduction claim submittal.

7. WRITTEN DETAILED NARRATIVE

Under the heading “7. Written Detailed Narrative,” please describe the alleged incorrect reduction(s). The narrative shall include a comprehensive description of the reduced or disallowed area(s) of cost(s).

8. DOCUMENTARY EVIDENCE AND DECLARATIONS

If the narrative describing the alleged incorrect reduction(s) involves more than discussion of statutes or regulations or legal argument and utilizes assertions or representations of fact, such assertions or representations shall be supported by testimonial or documentary evidence and shall be submitted with the claim under the heading “8. Documentary Evidence and Declarations.” All documentary evidence must be authenticated by declarations under penalty of perjury signed by persons who are authorized and competent to do so and be based upon the declarant's personal knowledge or information or belief.

9. CLAIMING INSTRUCTIONS

Under the heading “9. Claiming Instructions,” please include a copy of the Office of State Controller's claiming instructions that were in effect during the fiscal year(s) of the reimbursement claim(s).

10. FINAL STATE AUDIT REPORT OR OTHER WRITTEN NOTICE OF ADJUSTMENT

Under the heading “10. Final State Audit Report or Other Written Notice of Adjustment,” please include a copy of the final state audit report, letter, remittance advice, or other written notice of adjustment from the Office of State Controller that explains the reason(s) for the reduction or disallowance.

11. REIMBURSEMENT CLAIMS

Under the heading “11. Reimbursement Claims,” please include a copy of the subject reimbursement claims the claimant submitted to the Office of State Controller.

12. CLAIM CERTIFICATION

*Read, sign, and date this section and insert at the end of the incorrect reduction claim submission.**

This claim alleges an incorrect reduction of a reimbursement claim filed with the State Controller's Office pursuant to Government Code section 17561. This incorrect reduction claim is filed pursuant to Government Code section 17551, subdivision (d). I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this incorrect reduction claim submission is true and complete to the best of my own knowledge or information or belief.

BACKGROUND

On April 6, 2011, the State Controller's Office (hereinafter "SCO") issued its final audit report on the City of Los Angeles' (hereinafter "City") claims for costs incurred based on the Animal Adoption program. The SCO audited the costs claimed by the City for the period July 1, 1998, through June 30, 2008, excluding fiscal years 2003-04 and 2004-05. The SCO's findings are based on this Commission's statement of decision adopted on January 25, 2001; the initial set of parameters and guidelines (Ps & Gs) as corrected on March 20, 2002, which apply to the first six fiscal year claims audited (FY 1998-99 through 2005-06); and the January 26, 2006, amended Ps & Gs that were used to audit the last two fiscal years claims (FY 2006-07 and 2007-08).

The City claimed \$13,368,151 (\$13,390,008 less a \$21,857 penalty for filing late claims) for the Animal Adoption program. In its March 29, 2011, response to the draft audit report, the City provided its primary objections to the audit findings. After review of that letter, the SCO made no revisions. The final audit report concluded that \$7,942,338 is allowable and \$5,425,813 is unallowable. The City contends the SCO erred in the calculation of allowable costs and seeks redress from this Commission.

SCO FINDINGS AT ISSUE

The SCO's final audit report contained nine findings. The City contends the SCO erred in the following issues: (1) the SCO's retroactive application of the First District Court of Appeal decision in the matter of *Purifoy v. Howell* (2010)183 Cal.App.4th 166 which affects the allowable cost calculations the unallowable care and maintenance costs (Finding 3), the interpretation of the Ps & Gs as they apply to calculating the staffing requirements for shelters open Saturdays (Finding 4) and the use and application of many of the material and supplies associated with the necessary and prompt veterinary care costs (Finding 7). In addition, the City challenges the SCO's interpretation of the use of Proposition F funds on the construction of eligible new facilities and believes that the SCO's placed an unreasonable time limitation on the City regarding the audit and the release of the audit report.

ARGUMENT

I. Misapplication Of Purifoy v. Howell

Finding 3: Overstated Care and Maintenance Costs

SCO Finding: The city claimed \$3,110,161 for care and maintenance costs during the audit period. We determined that \$2,142,278 is allowable and \$967,883 is unallowable. The costs were unallowable because the city incorrectly reported annual expenditures attributed to the care and maintenance function, incorrectly calculated the yearly census of dogs and cats and other animals, and subsequently overstated the claimed costs per animal per day in each fiscal period. In addition, the city incorrectly calculated the number of eligible stray dogs and cats and other animals that died during the increased holding period or were ultimately euthanized. **The city also used an incorrect number of reimbursable days for this component.** (Emphasis added.)

During the pendency of the SCO audit, a decision came down from the First District Court of Appeal in the matter of *Purifoy v. Howell, supra*. At issue before the court was the definition of a business day for purposes of the animal holding period under the Hayden Bill. This holding period forms the basis for reimbursable activities under the Animal Adoption mandate. This Commission was silent as to the definition of business day. The court held that although the Hayden Bill requires animal shelters to hold animals longer or be open for business on a weekday evening or Saturday, Saturday is not a business day for the purposes of calculating how long to hold an animal before it can be released for adoption or disposal. While the decision, published on March 26, 2010, is likely applicable to all future claims, the SCO in seeking to apply the court's holding to current audits overlooks whether such application is proper. The City argues that it is not.

First, the SCO is jumping the gun. *Purifoy* is not a decision of the Commission nor is it a decision to which the Commission was a party. There has been no change to the Commission's Statement of Decision or Ps & Gs in the Animal Adoption mandate nor has there been any proposed amendment to the Ps & Gs or request for a new test claim decision, under the new test claim process. Thus, the effect of this decision on the Ps & Gs has not been addressed by this Commission and until that is the case, the 2002 and 2006 Ps & Gs remain in full force and effect. Moreover, were such a request brought before this Commission and the decision found applicable, the effective date of any change to the Ps & Gs or Statement of Decision would be the filing date of the request which would, in any case, not be retroactive back to 1998 as the SCO is now attempting.

Second, neither this Commission nor the courts would support retroactivity of *Purifoy*. In 1989, the California Supreme Court set forth the rule for retroactive application of judicial decisions in *Newman v. Emerson Radio Corp.* (1989) 48 Cal.3d 973, 978, which states: "The general rule that judicial decisions are given retroactive effect is basic in our legal tradition." The Court explains that the historic rationale for retroactivity lies in "the idea adhered to by Blackstone that "judges do not 'create,' but instead 'find' the law. A decision interpreting the law, therefore, does no more than declare what the law had always been."

This rule, however, has exceptions which favor prospective application and which reflect considerations of "fairness", "public policy" (*Newman v. Emerson Radio Corp.* (1989) 48 Cal.3d 973, 983-984.), and "hardship" (*Moradi-Shalal v. Fireman's Fund Ins. Companies* (1988) 46 Cal.3d 287, 305.) to the parties. As the Court defined a few years later:

Several factors are relevant in determining whether an exception to the general rule of retroactivity is warranted, including: "the reasonableness of the parties' reliance on the former rule, the nature of the change as substantive or procedural, retroactivity's effect on the administration of justice, and the purposes to be served by the new rule. [Citations.]" (*Camper v. Workers' Comp. Appeals Bd.* (1992) 3 Cal.4th 679, 688 [12 Cal.Rptr. 101].)¹

The SCO appears to have relied upon the general rule that *Purifoy* should be applied retroactively to the audit. The City argues it falls within the stated exceptions.

The parties' reliance on the old rule was reasonable: The purpose of the Hayden Bill was, in part, to ensure that shelters were open for business outside of normal working hours to allow owners to retrieve their pets. To that end, the Bill required shelters to remain open either later on a weekday or on Saturday. Thus as the shelter was open to

¹ See also, *Gentis v. Safeguard Business Systems, Inc.* (1998) 60 Cal.App.4th 1294, *Rose v. Hudson* (2007) 153 Cal.App.4th 641.

transact business, it was reasonable to assume Saturday was a business day. Local governments filed claims for reimbursement based upon this reliance. This Commission saw no issue with the term “business day”, the trial court found Saturday was a business day and SCO had presumed as much when beginning its audits. Moreover, trying to recreate what would have happened years ago if the current law had been in existence during the time the claim was filed will cause undue hardship on claimants who relied upon the old rule for calculating the date upon which an animal could be euthanized. Reliance on the old rule and the unforeseeability of change support prospective application.

The change is procedural: This new rule changes the manner in which shelters will do business by altering holding periods. Generally, substantive changes are applied retroactively while procedural changes are applied prospectively. This is due in part because procedural changes can determine the rights of the parties, especially in setting a statute of limitations. (*Camper v. Workers' Comp. Appeals Bd., supra*, at p. 689.)² Although the change is substantive on its face, in this case, the retroactive application of the law will affect the rights of claimants as reimbursement can only be had for those animals euthanized after the holding period. Extending the holding period years later means that reimbursement will be unavailable to claimants complying with the law as it was understood at the time. Ensuring recovery to claimants in procedural compliance with a mandate program supports prospective application.

Retroactive application will produce unjust results: Judicial decisions are routinely applied retroactively so as to resolve pending cases where the parties are similarly situated and all unfiled cases. In this instance, however, the decision is being applied retroactively to audits of claims which may date back over a decade. The new rule will not be dispositive as to all claimants and will ensure unequal application of the rule to only those who are being audited. The administration of justice in a consistent manner supports prospective application.

The new rule will extend holding periods: The purpose of the new rule set forth in *Purifoy* is to clarify statutory provisions to ensure that the spirit of the Hayden Bill, adequate time for owner retrieval of pets, is promoted. This objective is not compromised by prospective application of the new rule. (*Woods v. Young* (1991) 53 Cal.3d 315, 331.) The retroactive application will not increase the holding period for animals long ago retrieved.

Although the general rule is a judicial decision is given retroactive effect, the weighing of relevant factors balances in favor of an exception to the general rule and supports a prospective application of the *Purifoy* decision.

² See also, *Woods v. Young* (1991) 53 Cal.3d 315.

Were the above-stated analysis not enough to support the City's position, the Legislature has concurred through the enactment of AB 222³ which, *inter alia*, provided the following addition to Food and Agriculture Code section 31108:

(d) As used in this division, a "business day" includes any day that a public or private shelter is open to the public for at least four hours, excluding state holidays.

The analysis for the Senate Agriculture Committee⁴ explained the reason for the statutory change as follows:

According to the author's office, AB 222 clarifies the definition of "business day" when determining how long a shelter holds a dog or cat. A recent court decision on *Veena Purifoy, et. al., v. Glenn Howell, et. al.*, by the First Appellate District, Court of Appeals stated that Saturday is not a "business day" when determining the holding periods. Defining a business day as any day the shelter is open for at least four hours provides clarity to shelters and the public on shelter holding periods of dogs and cats.

The City submits that the above-stated argument provides sufficient reason for the Commission to reverse the SCO as to the retroactive application of the *Purifoy* case to the instant audit and reimburse any and all attendant costs.

II. Misinterpretation Of The Parameters And Guidelines

The City challenges the SCO's interpretation of the Ps & Gs in Finding 4 and 7. The provisions at issue are contained in original March 20, 2002, Ps & Gs which govern the reimbursement of costs for the period from January 1, 1998, to June 30, 2005. The amended Ps & Gs are not at issue here.

Finding 4: Overstated Holding Period Costs

SCO Finding: The city claimed \$3,886,965 for increased holding period costs for the audit period. We determined that \$1,841,233 is allowable and \$2,045,732 is unallowable. The unallowable costs occurred because the city overstated allowable hours and the number of allowable positions (\$2,172,695) and understated productive hourly rates (\$126,963).

The City objects to the SCO's determination that when the shelter is open to the public on Saturdays, only a portion of its staff time and costs are reimbursable. The City contends that the Animal Adoption mandate requires the local agency to be open on Saturdays for

³ Stats. 2011, ch. 97.

⁴ See attached.

normal business operations that are reasonably required by the Hayden Bill which is not limited to the redemption of animals.

In arguing that the City should not be reimbursed for all the staff present on Saturday, the SCO places too much emphasis on the choice of wording in the Ps & Gs concluding that the costs for only those staff members involved with making animals available for redemption should be reimbursable. The SCO mistakes the term “making the animal available for owner redemption” as a limitation on reimbursement rather than as a mere explanation for why the shelter is open for extended hours. Moreover, Food and Agriculture Code sections 31108, 31752 and 31753 set forth the requirement that the shelter be open on a weekday evening or a Saturday without any direction as to how that is to be accomplished. Finally, this Commission in its Statement of Decision left the implementation of this up to the shelters. The City should be allowed to staff its shelter as it sees fit to accomplish the goals set forth in statute. If the state wishes to set limits, it should do so not through the SCO but through the Legislature.

Finding 7: Overstated Necessary and Prompt Veterinary Care Costs

SCO Finding: The city claimed \$2,193,011 under the cost component of Necessary and Prompt Veterinary Care during the audit period. We determined that \$365,168 is allowable and \$1,827,843 is unallowable. The costs were unallowable because the city claimed estimated materials and supplies costs (\$488,137), claimed unsupported materials and supplies costs (\$608,849), claimed misstated and unallowable hours (\$732,515), and understated productive hourly rates (\$1,658).

The City challenges the SCO’s disallowance of some of the costs associated with Necessary and Prompt Veterinary Care in Finding 7. The provisions at issue are contained in original March 20, 2002, Ps & Gs which govern the reimbursement of costs for the period from January 1, 1998, to June 30, 2005. The amended Ps & Gs are not at issue here.

The City objects to the SCO’s determination that it did not submit the proper documentation to support the Necessary and Prompt Veterinary Care material and supply cost. During the audit, the SCO requested additional documentation for medical costs incurred and the City submitted expenses within expenditure account 3190 medical supplies (\$2,086,819).

III. Misinterpretation Of The Use Of Proposition F Funds

Issue 1: Proposition F and the Construction of New Facilities

SCO Issue: The city provided background information on this project for our review. After reviewing the information provided, we determined that the terms of Proposition F required that the city's taxpayers would fund the construction projects through additional levies made to their property taxes. The city's taxpayers have been and are still currently assessed property taxes in amounts specifically for the purpose of retiring the Proposition F bonds. Therefore, the city's taxpayers are funding both the entire bond principal and interest amounts. Accordingly, we determined that this non-discretionary revenue source was used to build the city's animal shelters and none of the city's discretionary general fund moneys were involved.

While the city performed the required analysis to determine that additional shelter space was needed to provide additional capacity in order to comply with the provisions of the Hayden Bill, restricted resources funded the construction costs for the additional capacity, not the city's general fund. Therefore, the city did not incur any increased costs to construct/remodel its animal shelters under Government Code section 17514.

The SCO's reliance on Government Code section 17514 is misplaced. The section states:

“Costs mandated by the state” means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

There is nothing in the statute that would raise any issue as to whether the costs mandated by the state were paid out of the general fund or any other funds.

The SCO is likely relying on the language of *Redevelopment Agency of the City of San Marcos v. Commission on State Mandates* (1997) 55 Cal.App.4th 976 in which the court, after much analysis, held:

[W]e conclude the same policies which support exempting tax increment revenues from article XIII B appropriations limits also support denying reimbursement under section 6 for this particular allocation of those revenues to the Housing Fund. Tax increment financing is not within the

scope of article XIII B. (*Brown v. Community Redevelopment Agency*, supra, 168 Cal.App.3d at pp. 1016-1020.) Section 6 "requires subvention only when the costs in question can be recovered solely from tax revenues." (*County of Fresno v. State of California*, supra, 53 Cal.3d at p. 487, original italics.) No state duty of subvention is triggered where the local agency is not required to expend its proceeds of taxes.

(*Id.* at p. 987.) And while this case, at first blush, appears to support the contentions of the SCO, it is limited in its application.

At issue before the court was whether the Low and Moderate Income Housing Fund program, which required a deposit of the tax increment financing for improving the supply of affordable housing, is a state mandate, that is, as the court partially framed the question (after a discussion on the tax and spend capabilities of redevelopment agencies): are the costs incurred as a result of the state mandate paid from general fund monies? The Animal Adoption program, however, has already been found to be a state mandate. So the issue before this Commission is whether all costs associated with a state mandated program must be paid solely from the general fund. The City argues the answer is, and must be, no.

The Hayden Bill, requiring an extended holding period for shelter animals, forced local government to expand its shelter capacities. The state provide no funding for such expansion and the City, along with other agencies, was required to come up with the funding by the best means available. For funding to cover the sizable expense of construction, the City had a bonding measure placed on the ballot. The City was free to use its general fund for construction; but nothing in the Constitution, statutes or case law says that any local government must exhaust all its general fund monies before seeking funding elsewhere. Moreover, the state legislature passed the unfunded mandate and the state should not be able to shirk its responsibility to reimburse the City simply because the City in its management of its financial obligations chose to have a bond initiative rather than empty its general fund.

IV. Unreasonable Time Limitation

The City maintains that it was denied necessary time to comply with the requirements of the audit due to the SCO's placing the audit on hold for staffing changes for nine months which left the City having to assemble documentation for a huge operation with less time than was provided by law

The audit began with an entrance conference held on April 28, 2009. The City staff worked closely with the SCO's auditing staff for a period of 7 months providing the requested documents and spending over 200 hours of City staff time. In November 2009, work on the audit was temporarily discontinued by the SCO when their Audit Manager

overseeing the project transferred to another unit within the SCO. The audit was then transferred to another Audit Manager and Auditor-In-Charge.

On July 19, 2010 a second entrance conference was held and the auditing staff resumed their fieldwork. This was a delay of 9 months stemming from the SCO auditor transition. The auditor requested documentation that required a significant amount of City resources in order to locate the information requested. The City provided an additional 250 hours of staff time to address these requests. Due to the size of the City's Animal Services Department, there were millions of line items to go through in order to locate some of the requested information that dated back as far as 12 years.

Adding to the frustration, some of the invoices had been destroyed as they exceeded the time limitation for record retention under the law.⁵ The current statute that dictates how long a City must keep their records for mandated claims submitted goes directly against the record retention policies of the City. The City cannot be expected to have to hold on to records from 1998 for an indeterminate amount of time and be forced to retain all detailed expenditures records. Such a record retention requirement would cause a burden that is both inefficient and unnecessary.

While the auditors did make several requests for the same information from the end of July through November, it would not have made any difference in the City's staffing resources that it could lend to review the amount of documents requested for a department the size of the City's Animal Services. The City had already spent over 450 staff hours in total towards this audit during a time when the City was undergoing significant staffing reductions and furloughs. It could not assign any additional resources without having a disruption in the services they provide. The administration of animal care and control services depends on efficiency and any inefficiency of any type leads to fewer adoptions, less revenue, less policing, and more euthanasia.

On January 12, 2011, the SCO held an exit conference with the representatives of the Animal Services Department and addressed each audit finding. During this exit conference, the SCO stated that it would be issuing the final audit report in early April. The Department acted in good faith to comply with all audit material requests. A short time after the exit meeting, the City lost Linda Barth, the Department's Assistant General Manager, who was the main contact person for the audit causing a further setback in the City's attempt to provide the remaining information requested.

The SCO issued their draft report on March 10, 2011. The City requested an additional 30 day extension to submit additional material and was granted only two days so that the State could file their audit report within the two year statute of limitations. The final audit report was issues on April 6, 2011.

⁵ Government Code section 34090 [requiring a retention period of two years].

The City maintains that had the audit not been placed on hold for 9 months, it would have had enough time to address all of the auditor's requests for additional information which would have resulted in fewer disallowances.

CONCLUSION

Based on the arguments presented above, the City requests that the Commission reverse the SCO's retroactive application of case law; correct the misinterpretation of the Ps & Gs in Findings 4, and 7; direct the SCO to recalculate the eligible costs; and award the City the corrected claim amount. In addition, the City requests that the Commission consider the arguments regarding the use of Proposition F funds and allow the City to file for all eligible reimbursable constructions costs retroactively.

Declaration of Ross Pool
In Support of
City of Los Angeles

I, Ross Pool, declare as follows:

1. I am employed by the City of Los Angeles and hold the position of Commission Secretary/Management Analyst II. I have worked for the City since September 10, 2001. I have personal knowledge of the facts herein and if called upon to testify, I could do so to the best of my knowledge.
2. The audit began on April 28, 2009, and for seven months the staff worked diligently on providing whatever the SCO required as part of the audit process. We calculated spending over 200 hours during this time.
3. In November 2009, the SCO stopped the audit for staff changes. I was told that their Audit Manager who had been working with the City had been transferred and another Audit Manager and Auditor-In-Charge had to take over.
4. The audit did not resume until July 19, 2010, when a second entrance conference was held and the staff began work again. Some of the documents requested were new and some were the same as had been requested before. An additional 250 hours of staff time was spent on the requests for information. Staff had to review thousand of documents, some dating back twelve years, to locate requested information. Even then, we were not able to locate everything as some documents had been destroyed because of document retention policies.
5. We were doing the best we could to provide the information for the audit but it was difficult. The City was undergoing significant staffing reductions and furloughs. The City lost Linda Barth, the Department's Assistant General Manager, who was our

main contact person for the audit. We couldn't assign any additional resources without having a disruption in the services.

6. On January 12, 2011, we met with the SCO for an exit conference. I was told that SCO would be issuing the final audit report in early April.
7. The SCO issued their draft report on March 10, 2011. We requested a 30 day extension to submit additional material. But, we were only granted two days because the SCO was running up on their two year statute of limitations.

I declare under penalty of perjury under the laws of the State of California that the information in this declaration is true and complete to the best of my own knowledge or information or belief.

Executed this 19th day of May 2014, at Los Angeles, California.

Ross Pool, Declarant

RECEIVED
May 19, 2014
*Commission on
State Mandates*

GENERAL CLAIMING INSTRUCTIONS

1. Introduction

The law in the State of California provides for the reimbursement of costs incurred by local agencies and school districts for costs mandated by the State. Costs mandated by the State means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service in an existing program.

An estimated claim show the cost to be incurred in the current fiscal year and a reimbursement claim details the cost actually incurred in the prior fiscal year. Both claim types are filed with the State Controller's Office (SCO). Annual claims of on-going programs must be filed by January 15. Claims for new programs must be filed within 120 days from the date on which claiming instructions are issued by the SCO for the program. A penalty is assessed for late claims. The SCO may audit the records of any local agency or school district to verify the actual amount of mandated costs and may reduce any claim, which is excessive or unreasonable.

When a program has been reimbursed for three or more fiscal years, the Commission on State Mandates (COSM) may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any change in the implicit price deflator. Claimants with an established entitlement receive an annual apportionment adjusted by any change in the price deflator and, under certain circumstances, by any change in workload. Claimants receiving an annual apportionment do not file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated in the state budget act, in the state mandates claims fund, or in special legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds are made available.

2. Types of Claims

There are three types of claims: Reimbursement, estimated, and entitlement. A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year or may file an estimated claim for mandated costs to be incurred during the current fiscal year. An entitlement claim may be filed for the purposes of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive automatic annual payments which is reflective of the current cost for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper or unreasonable. The claim must be filed with sufficient documentation to support the costs claimed. The types of documentation required to substantiate a claim are identified in the instructions for the program. The certification of claim, form FAM-27, must be signed and dated by the entity's authorized officer in order for the SCO to make payment on the claim.

A. Reimbursement Claim

A reimbursement claim is defined in GC § 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. The claim must include supporting documentation to substantiate the costs claimed.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal years of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual reimbursement claims must be filed by January 15 following the fiscal year in which costs were incurred for the program. A reimbursement claim must detail the costs actually incurred in the prior fiscal year.

Prior to January 1, 1990, if a claimant submitted an otherwise valid reimbursement claim after the filing deadline, the Controller was required to pay the claim in an amount equal to eighty percent (80%) of the amount that would have been paid had the claim been timely filed. Any reimbursement claim submitted more than one year after the deadline could not be paid. After January 1, 1990, the late penalty was changed by Chapter 589, Statutes of 1989. If a claim is filed after the deadline, the claim must be reduced by an amount of 10% of the approved costs, but not to exceed \$1,000. If a claim was filed more than one year after the filing deadline, the claim could not be paid.

As added by Chapter 643/99, on October 10, 1999, all initial claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty.

B. Estimated Claim

An estimated claim is defined in GC § 17522 as any claim filed with the SCO, during the fiscal year in which the mandated costs are to be incurred by the local agency, against an appropriation made to the SCO for the purpose of paying those costs.

An estimated claim may be filed in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times for estimated costs to be incurred during the current fiscal year. Annual estimated claims are due January 15 of the fiscal year in which the costs are to be incurred. Initial estimated claims are due on the date specified in the claiming instructions. Timely filed estimated claims are paid before those filed after the deadline.

After receiving payment for an estimated claim, the claimant must file a reimbursement claim by January 15 following the fiscal year in which costs were incurred. If the claimant fails to file a reimbursement claim, monies received for the estimated claims must be returned to the State.

C. Entitlement Claim

An entitlement claim is defined in GC § 17522 as any claim filed by a local agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should

be filed by January 15 to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs.

3. Minimum Costs for Claims

GC § 17564 provides that no claim shall be filed pursuant to GC §§ 17551 and 17561, unless such a claim exceeds two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds \$200, even if the individual school district's, direct service district's, or special district's claims do not each exceed \$200. The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the SCO, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

4. Filing Deadline for Claims

Initial reimbursement claims (first-time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date of issuance of the program's claiming instructions by the SCO. If the claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% penalty, but not to exceed \$1,000. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

Annual reimbursement claims for costs incurred during the previous fiscal year and estimated claims for costs to be incurred during the current fiscal year must be **filed with the SCO and postmarked on or before January 15**. Claims must include supporting data to show how the amount claimed was derived. Without this information, the claim cannot be accepted. If a reimbursement claim is filed after the deadline, the approved claim will be reduced by 10%, but not to exceed \$1,000. If a claim is filed more than one year after the deadline, the claim will not be accepted.

As added by Chapter 643/99, on October 10, 1999, all initial claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty.

Entitlement claims do not have a filing deadline. However, entitlement claims and supports documents should be filed by January 15 to permit an orderly processing of claims. Entitlement does not result in the claimant being reimbursed for costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

Claims should be rounded to the nearest dollar. Submit a signed, original form FAM-27, Claim for Payment, and all other forms and supporting documents (no copies necessary). Use the following mailing addresses:

If delivered by
U.S. Postal Service:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

If delivered by
Other delivery services:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
3301 C Street, Suite 500
Sacramento, CA 95816

5. Payment of Claims

In order for the SCO to authorize payment for a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed and dated by the entity's authorized representative.

Reimbursement and estimated claims are paid within 60 days of the filing deadline for the claim. A claim is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. The SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs. The 20 percent withhold is not subject to accrued interest.

In the event the amount appropriated by the Legislature is insufficient to pay in full all claims approved for the program, the claimant will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

The SCO reports the amounts of insufficient appropriation to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the budget act. If these funds cannot be appropriated on a timely basis in the budget act, this information is transmitted to the COSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balances of prorata will be paid.

6. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the COSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each county that has submitted reimbursement claims for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims (actual costs) for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the implicit deflator. The implicit deflator is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the COSM's approval.

Each county with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's costs. The amount of apportionment is adjusted annually for any change in the implicit deflator. If the mandated program was included in SMAS after January 1, 1988, the annual apportionments are adjusted for any change in both the implicit deflator and workload.

"Workload" means for cities and counties, change in population within their boundary; for special districts, changes in population of the county in which the largest percentage of the district's population is located.

In the event a county has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the county may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a county with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any nonrecurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year apportionments (programs combined) are made by November 30. The amount to be apportioned is the base year entitlement adjusted by annual changes in the implicit price deflator for costs of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the county determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based is set forth in section 17615.8 of the Government Code and requires the approval of the COSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Coroners	Ch. 498/77	88
Developmentally Disabled Adults: Conservatorship	Ch. 1304/80	67
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

7. Direct Costs

A. Direct Labor - Determine a Productive Hourly Rate

A productive hourly rate may be computed for each job title whose labor is directly related to the claimed reimbursable cost. A local agency has the option of using any of the following:

- Actual annual productive hours for each job title,
- The local agency's average annual productive hours or, for simplicity,
- An annual average of 1,800 * hours to compute the productive hourly rate.

If actual annual productive hours are chosen, show the factors affecting total hours worked.

The following method is used to convert a biweekly salary to an equivalent productive hourly rate for a 40 hours week.

$$(\text{Biweekly Salary} \times 26) / 1,800 * = \text{Equivalent Productive Hourly Rate}$$

If, for example, the salary for a particular job title was \$935.00 biweekly, the equivalent productive hourly rate would be:

$$(\$935 \times 26) / 1,800 * = \$13.51 \text{ Equivalent Productive Hourly Rate}$$

The same methodology may be used to convert weekly, monthly or other salary periods:

- Convert the salary to an annual rate.
- Divide by the allowable annual productive hours for that position.

* 1,800 annual productive hours include:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

B. Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Example: Average Productive Hourly Rate Computation

	<u>Average Time</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	<u>5.50 hrs</u>		<u>\$45.88</u>

Average Productive Hourly Rate is $\$45.88/5.50 \text{ hrs.} = \8.34

C. Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them. For example:

<u>Employer's Contribution</u>	<u>% of Salary</u>
Retirement	15.00%
Social Security	6.30%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>27.3%</u>

D. Materials and Supplies

Only expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the dollar amount claimed as cost. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied.

E. Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of

materials and supplies as shown in Table 1 or Table 2:

Table 1

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Average Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	0.40
			<u>\$0.64</u>

Table 2

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	2.00
		<u>\$9.50</u>

If the number of cases is 25, then the unit cost of supplies is \$0.38 per case.

F. Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is more economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, and hourly billing rate. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's statement, which includes an itemized list of costs for activities performed, must accompany the claim.

G. Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate is reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the cost of the rental.

H. Capital Outlay

Capital outlays for land, building, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement.

I. Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of person incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and cost of tolls and parking with receipts required for over \$10.00.

J. Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

8. Indirect Costs

GC § 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) Circular A-87. A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs must be supported by time records.

If indirect costs are claimed, local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of OMB Circular A-87 (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs (excluding fringe benefits) of employees, provided their services are required by a program. The use of the 10% rate may benefit small agencies where few supportive services are provided.

Direct costs are defined as "...those that can readily be identified with a single program or activity." Normally direct costs will include the salaries, benefits, and supplies that can be directly identified with a particular function.

For example, if a county auditor prepares warrants for other county departments, the direct costs of providing the service would include the salary and benefits of the persons in the auditor's office who actually work on the warrants, the cost of the paper on which warrants are written, and the salaries and benefits of a first-line supervisor. Indirect costs of the warrant writing service would include the cost of space, equipment, utilities, maintenance, supervision above first-line and administration of the auditor's office.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expense, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the OMB circular No. A-87, *Cost Principles for Grants to State and Local Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include those costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate for the program.

Page 13

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB A-87 and state laws).

Examples:

Contributions and donations: Costs of amusements; social activities and incidental costs relating thereto, such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB circular A-87. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

9. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of section 17561.

A. Example 1

This example shows how the offset against state mandated claims is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency

sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims cannot exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims is determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approved costs. In (2), the entire program cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625

3. If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claims is \$1,125. Therefore, the claimable mandated costs are \$375.

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal Programs

CETA, PL 93-203	Federal-Health – Administration
Federal Aid for Construction	Federal-Public Assistance – Administration
Federal Aid for Disaster	

State Programs

State Aid for Agriculture	State-Health – Administration
State Aid for Construction	State-Public Assistance - Administration
State Aid for Corrections	

10. Audit of Costs

All claims submitted to the SCO are reviewed to determine if the costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustment" within 30 days after payment of the claim. The notice will specify the claim component adjusted, the amounts adjusted, and the reason for the adjustment.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim is filed or last amended.

In those instances where no funds are appropriated for the program for the fiscal year in which the claim is made, the time for the SCO to initiate an audit commences from the date of the initial payment of the claim.

11. Reimbursable State Mandated Cost Programs

Local agencies may file claims with the SCO for the cost of complying with the following state mandated programs. An “x” indicates the agencies that are eligible to file claims for the given program. For your convenience, the programs are listed in alphabetical order by program name.

Program Number	Program Name	Counties	Cities	Special Districts

STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State; included in hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed

2. On the fractional day of travel at the end of a trip of more than 24 hours:

Trip ends at or after 8 a.m. - Breakfast may be claimed

Trip ends at or after 2 p.m. - Lunch may be claimed

Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

A. For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed

Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

A. Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.

B. When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.

C. When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- B.** Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- C.** Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 34 cents per mile. An employee who is required to use a specialized vehicle that has been modified to accommodate disabilities may claim 37 cents per mile.

GOVERNMENT CODE SECTIONS 17500-17616**GC §17500: Legislative findings and declarations**

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution and to consolidate the procedures for reimbursement of statutes specified in the Revenue and Taxation Code with those identified in the Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the federal government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements would result in substantial monetary penalties or loss of funds to public or private persons in the state. "Costs mandated by the federal government" does not include costs that are specifically reimbursed or funded by the federal or state government or programs or services, which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following:

(a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517: "Fund"

"Fund" means the State Mandates Claims Fund.

GC §17518: "Local agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17519: "School district"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special district"

"Special district" means any agency of the state, which performs governmental or proprietary functions within limited boundaries. "Special district" includes a redevelopment agency, a joint powers agency or entity, a county service area, a maintenance district or area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test claim"

"Test claim" means the first claim, including claims joined or consolidated with the first claim, filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first statute that appropriates funds for reimbursement of the mandate. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c)

"Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base year entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and per diem for specified members

There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every month. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting. (d) This section shall become operative on July 1, 1996.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper.

(c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice-chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission, which the commission may require.

GC §17530: Appointment of executive director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of executive director to employ necessary staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, inquiries, and hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated,

pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not applicable to hearing by commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of local agencies and school districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission hearing and decision upon claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of procedure by chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of procedure for receiving claims and providing hearings: Postponement of hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The hearing procedure shall provide for presentation of evidence by the claimant, the Department of Finance and any other affected department or agency, and any other interested person. The procedures shall ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. Hearing of a claim may be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) The procedures adopted by the commission pursuant to subdivision (a) shall include the following: (1) Provisions for acceptance of more than one claim on the same statute or executive order relating to the same statute or executive order filed with the commission, and, absent agreement by the test claimants to the contrary, to designate the first to file as the lead test claimant. (2) Provisions for consolidating test claims relating to the same statute or executive order filed with the commission with time limits that do not exceed 90 days from the initial filing for consolidating the test claims and for claimants to designate a single contact for information regarding the test claim. (3) Provisions for claimants to designate a single claimant for a test claim relating to the same statute or executive order filed with the commission, with time limits that do not exceed 90 days from the initial filing for making that designation. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is

complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's authority to expedite claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553 in order to expedite action on the claim. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for public hearing: Test claim form and procedure

(a) The commission, within 10 days after receipt of a test claim based upon a statute or executive order, shall set a date for a public hearing on the claim within 75 days. The test claim may be based upon estimated costs that a local agency or school district may incur as a result of the statute or executive order and may be filed at any time after the statute is enacted or the executive order is adopted. The claim shall be submitted in a form prescribed by the commission. After a hearing in which the claimant and any other interested organization or individual may participate, the commission shall determine if there are costs mandated by the state. (b) This section shall become operative on July 1, 1996.

GC §17556: Criteria for not finding costs mandated by the state

The commission shall not find costs mandated by the state as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district, which requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district which requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state that which had been declared existing law or regulation by action of the courts. (c) The statute or executive order implemented a federal law or regulation and resulted in costs mandated by the federal government, unless the statute or executive order mandates costs which exceed the mandate in that federal law or regulation. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute or executive order provides for offsetting savings to local agencies or school districts which result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties that were expressly included in a ballot measure approved by the voters in a statewide election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of amount to be subvned for reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17555, it shall determine the amount to be subvned to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. A local agency, school district, and the state may file a claim or request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. (b) In adopting parameters and guidelines, the commission may adopt an allocation formula or uniform allowance that would provide for reimbursement of each local agency or school district of a specified amount each year. (c) The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred, provided, however, that the commission shall not specify therein any fiscal year for which payment could be provided in the annual Budget Act. A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time prior to a commission hearing on the claim without affecting the original filing date as long as the amendment substantially relates to the original test claim.

GC §17558: Submission of parameters and guidelines to Controller: Transfer of claims; claiming instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the determination of the test claim pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller may request the assistance of other state agencies. The claiming instructions shall be derived from the statute or executive order creating the mandate and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17555 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies. (d) This section shall become operative on July 1, 1996.

GC §17558.5: Reimbursement claim: Audit; remittance advice and other notices of payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to audit by the Controller no later than two years after the end of the calendar year in which the reimbursement claim is filed or last amended. However, if no funds are appropriated for the program for the fiscal year for which the claim is made, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.

(b) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, and the reason for the adjustment. Remittance advises and other notices of payment action shall not constitute notice of adjustment from an audit or review. (c) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement. (d) This section shall become operative on July 1, 1996.

GC §17558.6: Legislative intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for filing reimbursement claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that detail the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of costs for state mandated programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies who would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17555 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until

the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case shall a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of claim with interest

(a) The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

(b) This section shall become operative on July 1, 1996.

GC §17561.6: Payment

(a) A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5. (b) This section shall become operative on July 1, 1996.

GC §17562: Review of costs of state-mandated local program

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of the cumulative effects of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to establish a method for regularly reviewing the costs of state-mandated local programs, by evaluating the benefit of previously enacted mandates. (b) (1) A statewide association of local agencies or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Local Government and the Senate Committee on Local Government specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 2229 or Section 2230 of

the Revenue and Taxation Code or Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the provisions of the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (c) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (b). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminates, or modifies any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment. (d) This section shall become operative on July 1, 1996.

GC §17563: Use of funds received for public purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of claims: Threshold amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds two hundred dollars (\$200) even if the individual school district's, direct service district's, or special district's claims do not each exceed two hundred dollars (\$200). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines.

GC §17565: Reimbursement of subsequently mandated costs

If a local agency or a school district, at its option, has been incurring costs, which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of appropriation: Proration of claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be

appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature, which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of claims submitted after deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims that were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and modification of claiming instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17575: Review of bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of bills on floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be

required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of bills on floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for new mandates to specify reimbursement requirements: Appropriations

(a) Any bill introduced or amended on and after January 1, 1985, for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, shall contain a section specifying that reimbursement shall be made from the fund pursuant to Section 17610 when the amount of the claim has been determined pursuant to Article 1 (commencing with Section 17550) of this chapter or that there is no mandate or that the mandate is being disclaimed and the reason therefor. (b) Any bill introduced or amended on and after January 1, 1985, may, but is not required to, contain an appropriation to provide reimbursement of costs mandated by the state.

GC §17581: Conditions for exemption from implementation of statute or executive order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities that benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17600: Report on number of mandates and their costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on claims denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17610: Costs paid from fund: Limit on costs

(a) The costs arising from a statute containing a statement that the statute mandates a new program or higher level of service and specifying that reimbursement shall be made from the fund shall, upon certification of the estimated statewide cost by the commission to the Controller, be paid from the fund, provided that the estimated statewide cost of the claim does not exceed one million dollars (\$1,000,000). The Controller shall receive, review, and pay reimbursement claims from the fund as the claims are received. Claims for initial reimbursement shall be filed with the Controller within 120 days from the date that the Controller issued claiming instructions on mandates funded by the fund. When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated cost. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount which would have been allowed had the claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). The Controller may withhold payment of any initial reimbursement claim filed after the filing deadline until the next deadline for funding claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. (b) For purposes of this section, "estimated statewide cost" means the total amount of funds estimated to be necessary to reimburse all eligible local agencies and school districts for costs incurred as a result of the mandate during the first 12-month period following the operative date of the mandate. (c) For purposes of this section, "costs arising from a statute" means the total amount of funds necessary to reimburse eligible local agencies and school districts for costs incurred as a result of complying with a mandate for the fiscal years specified in the parameters and guidelines in accordance with Section 17557.

GC §17612: Local government claims bills: Judicial review of funding deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates except where the costs have been or will be paid pursuant to Section 17610. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of augmentation for mandated costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17614: State Mandates Claims Fund

There is hereby created the State Mandates Claims Fund. Notwithstanding Section 13340, money in the fund is continuously appropriated without regard to fiscal years for the sole purpose of paying claims pursuant to Section 17610.

GC §17615: Legislative findings and intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionment to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of programs for inclusion in system

Notwithstanding the provisions of Section 2231 of the Revenue and Taxation Code, the commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving

reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of disbursement amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years, which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual recalculation of allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986-87 fiscal year, and each fiscal year thereafter, to establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvене that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for newly mandated program

(a) When a new mandate imposes costs which are funded either by legislation, in local government claims bills, or from the State Mandates Claim Fund, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request

of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure where no base year entitlement has been established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure where program is no longer mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure where program is modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of base year entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionment, but may be used to adjust future apportionment. (c) If the commission

determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of programs under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionment System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and verification by Controller

Notwithstanding the provisions of Section 2231 of the Revenue and Taxation **Code**, the Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionment based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2002-06A
ANIMAL ADOPTION

MAY 7, 2002

In accordance with Government Code Section (GC §) 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. It increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive necessary and prompt veterinary care.

On January 25, 2001, the COSM determined that Chapter 752/98 established costs mandated by the State according to the provisions listed in the attached P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a direct result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Initial Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. All claims must be filed with the SCO and be delivered or postmarked on or before **September 4, 2002**. Estimated claims for the 2001-02 fiscal year must also be delivered or postmarked on or before **September 4, 2002**. Thereafter, having received payment for an estimated claim, the claimant must file an annual reimbursement claim by January 15 of the following fiscal year. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. The claiming period for the reimbursable activities listed in **IV.**, beginning on page 3 of the P's and G's, are as follows:

- **IV. A. 1., 2., 3. - One Time Activities**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 1. - Acquisition of Additional Space and/or Construction of New Facilities (Food and Agriculture Code Sections {F & AC §§} 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 2. - Remodeling/Renovating Existing Facilities (F & AC §§ 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 3. - Care and Maintenance of Impounded Stray or Abandoned Dogs and Cats (F & AC §§ 31108 and 31752).**

Claiming Period - Fiscal years 1999-00 to 2000-01¹.

- **IV. B. 4. - Care and Maintenance of Impounded Stray or Abandoned Animals (F & AC § 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 5. - Agencies Using the Holding Period of Four Business Days after the Day of Impoundment (F & AC §§ 31108, 31752, and 31753).**

Animals Other than Cats and Dogs

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Impounded Dogs and Cats

Claiming Period - Fiscal year 1999-00 to 2000-01.

- **IV. B. 6. - Feral Cats (F & AC § 31752.5).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 7. - Lost and Found Lists (F & AC § 32001).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 8. - Maintaining Non-Medical Records (F & AC § 32003).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 9. - Necessary and Prompt Veterinary Care (Civil Code §§ 1834 and 1846).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

¹ Claiming period was previously listed as January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 10. - Procurement of Medical, Kennel, and Computer Equipment**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Costs for all initial reimbursement claims must be filed separately according to the fiscal year in which the costs were incurred. However, the initial claims will be considered as one claim for the purpose of computing the late claim penalty. Do not prorate the penalty among fiscal years. If the claims are late, the penalty should be applied to a single fiscal year.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline will not be accepted.**

B. Estimated Claims

Unless otherwise specified in the claiming instructions, local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC Section 17564 provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds \$200, even if the individual school district's, direct service district's, or special district's claims do not each exceed \$200. The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the SCO, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

Reimbursement of Claims

Initial reimbursement claims will only be reimbursed to the extent that expenditures can be supported and, if such information is unavailable, claims will be reduced. In addition, ongoing reimbursement claims must be supported by documentation as evidence of the expenditures. Examples of documentation may include, but are not limited to, employee time records that

identify mandate activities, payroll records, invoices, receipts, contracts, travel expense vouchers, purchase orders, and caseload statistics.

If a documented time study is the basis for claimed time spent in implementing the provisions of **IV. B. 3.** of the P's and G's, attach the time records with the claim. The Controller's Office will review the documented time study for precision and reliability. For information on the Time Study Method, refer to pages 7 and 8 of the P's and G's.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment," specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for two years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.htm.

Address for Filing Claims

Submit a signed, original form FAM-27, Claim for Payment, and all other forms and supporting documents (no copies necessary) to:

If delivered by
U.S. Postal Service:

Food and Agriculture Code Sections 31108, 31752, 31752.5, 31753, 32001, and 32003
As Added or Amended by Statutes of 1998, Chapter 752

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive “necessary and prompt veterinary care.”

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
 - (b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a

mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

Government Code section 17557, as amended by Statutes of 1998, Chapter 681 (which became effective on September 22, 1998), states that a test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. On December 22, 1998, the County of Los Angeles filed the test claim for this mandated program, establishing eligibility for reimbursement beginning on or after July 1, 1997.

However, except for the amendments to Food and Agriculture Code sections 31108 and 31752, Statutes of 1998, Chapter 752 became operative and effective on January 1, 1999. Therefore, except for the amendments to Food and Agriculture Code sections 31108 and 31752, the costs incurred for Statutes of 1998, Chapter 752 are eligible for reimbursement on or after January 1, 1999.

Section 21 of Statutes of 1998, Chapter 752 establishes an operative date of July 1, 1999 for the amendments to Food and Agriculture Code section 31108 (holding period for stray dogs) and Food and Agriculture Code sections 31752 (holding period for stray cats). Therefore, costs incurred for Food and Agriculture Code sections 31108 and 31752, as amended by Statutes of 1998, Chapter 752, are eligible for reimbursement on or after July 1, 1999.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years’ costs shall be submitted within 120 days of notification by the State Controller of the issuance of claiming instructions.

If the total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

IV. Reimbursable Activities

For each eligible claimant, all direct and indirect costs of labor, materials, supplies, fixed assets, contracted services, training and travel for the performance of the activities listed below are eligible for reimbursement.

Except as specified in Component (B)(3) and (4), reimbursement claims for the performance of the activities listed below shall be based on actual or estimated costs as provided in Government Code section 17560.

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from

reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board

meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or

abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- a. Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);

- c. Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished dogs and cats; and
- e. Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of dogs and cats.
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study

supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
4. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- a. Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and

- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by each reimbursable day (four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the

eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
5. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

6. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

7. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

8. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and
- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

9. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding

period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- a. Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and
- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injure cats and dogs (Pen. Code, § 597f, subd. (b));

- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, programs, activities, or functions and shall be supported by the following cost element information:

1. **Salaries and Benefits**

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed, specify the actual time devoted to each activity by each employee, and the productive hourly rate, and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages, and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer’s contributions to social security, pension plans, insurance, and worker’s compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities performed by the employee.

2. **Materials and Supplies**

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases

shall be claimed at the actual price after deducting cash discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contracts for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services. Attach consultant invoices to the claim.

4. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of traveler(s), purpose of travel, inclusive dates and times of travel, destination point(s), and travel costs.

5. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV (A) of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

6. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset that is used for the purposes of the mandated program is reimbursable.

B. Indirect Costs

Compensation for indirect costs is eligible for reimbursement. Indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) pursuant to the Office of Management and Budget (OMB) Circular A-87.

VI. Supporting Data

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., employee time records, cost allocation reports, invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, time studies, etc.) that show evidence of the validity of such costs and their relationship to this mandate. All documentation in support of claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.

VII. Offsetting Savings and Other Reimbursements

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section

31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. State Controller's Office Required Certification

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the state contained herein.

IX. Parameters and Guidelines Amendments

Pursuant to title 2, California Code of Regulations, section 1183.2, Parameters and Guidelines amendments filed before the deadline for initial claims as specified in the Claiming Instructions shall apply to all years eligible for reimbursement as defined in the original Parameters and Guidelines. A Parameters and Guidelines amendment filed after the initial claiming deadline must be submitted on or before January 15, following a fiscal year in order to establish eligibility for reimbursement for the fiscal year.

- (10) If filing an original reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended or a combined claim on behalf of districts within the county, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of reimbursement claim from form AA-1, line (11).
- (14) **Filing Deadline. Initial Claims of Ch. 752/98.** If the reimbursement claims for the period January 1, 1999, to June 30, 1999, and fiscal years 1999-00 through 2000-01 are filed after **September 4, 2002**, the claims must be reduced by a late penalty. Costs for all initial reimbursement claims must be filed separately according to the fiscal year in which the costs were incurred. However, the initial claims will be considered as one claim for the purpose of computing the late claim penalty. Do not prorate the penalty among the fiscal years. If the claims are late, the penalty should be applied to a single fiscal year. Enter either the product of multiplying the sum total of line (13) for all applicable FAM-27's by the factor 0.10 (10% penalty) or \$1,000, whichever is less.

In subsequent years, reimbursement claims must be filed by January 15 of the following fiscal year in which costs were incurred or the claims shall be reduced by a late penalty. Enter either the product of multiplying line (13) by the factor 0.10 (10% penalty) or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17) Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount in line (18) Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(f), means the information is located on form AA-1, line (04)(A)(1), column (f). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by a signed certification.**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED, ORIGINAL FORM FAM-27 WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS (NO COPIES NECESSARY) TO:

Address, if delivered by U.S. Postal Service:

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM AA-1
------------------------	---	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.
- Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim. If more than one department is reporting costs, each must have its own ICRP for the program.
- (07) Total Indirect Costs. Multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06).
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code § 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section (F & AC §) 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to F & AC § 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION COMPONENT/ACTIVITY COST DETAIL Instructions	FORM AA-2
---	--	----------------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than two years after the end of the calendar year in which the reimbursement claim was filed or last amended, whichever is later. If no funds are appropriated for the initial payment at the time the claims are filed, supporting documents must be retained for two years from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)

FILING A CLAIM

1. Introduction

The law in the State of California, (Government Code Sections 17500 through 17616), provides for the reimbursement of costs incurred by school districts for costs mandated by the State. Costs mandated by the State means any increased costs which a school district is required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

Estimated claims that show costs to be incurred in the current fiscal year and reimbursement claims that detail the costs actually incurred for the prior fiscal year may be filed with the State Controller's Office (SCO). Claims for on-going programs are filed annually by January 15. Claims for new programs are filed within 120 days from the date claiming instructions are issued for the program. A 10 percent penalty, (up to \$1,000 for continuing claims, no limit for initial claims), is assessed for late claims. The SCO may audit the records of any school district to verify the actual amount of mandated costs and may reduce any claim that is excessive or unreasonable.

When a program has been reimbursed for three or more years, the COSM may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement do not file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds are made available.

The instructions contained in this manual are intended to provide general guidance for filing a mandated cost claim. Since each mandate is administered separately, it is important to refer to the specific program for information relating to established policies on eligible reimbursable costs.

2. Types of Claims

There are three types of claims: Reimbursement, Estimated, and Entitlement. A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year or may file an estimated claim for mandated costs to be incurred during the current fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable. The claim must be filed with sufficient documentation to support the costs claimed. The types of documentation required to substantiate a claim are identified in the instructions for the program. The certification of claim, form FAM-27, must be signed and dated by the entity's authorized officer in order for the SCO to make payment on the claim.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. The claim must include supporting documentation to substantiate the costs claimed.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal years of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual reimbursement claims must be filed by January 15 following the fiscal year in which costs were incurred for the program. A reimbursement claim must detail the costs actually incurred in the prior fiscal year.

An actual claim for the 2002-03 fiscal year may be filed by January 15, 2004, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.

B. Estimated Claim

An estimated claim is defined in GC Section 17522 as any claim filed with the SCO, during the fiscal year in which the mandated costs are to be incurred by the local agency, against an appropriation made to the SCO for the purpose of paying those costs.

An estimated claim may be filed in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times for estimated costs to be incurred during the current fiscal year. Annual estimated claims are due January 15 of the fiscal year in which the costs are to be incurred. Initial estimated claims are due on the date specified in the claiming instructions. Timely filed estimated claims are paid before those filed after the deadline.

After receiving payment for an estimated claim, the claimant must file a reimbursement claim by January 15 following the fiscal year in which costs were incurred. If the claimant fails to file a reimbursement claim, monies received for the estimated claims must be returned to the State.

C. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a local agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs. Local mandates included in SMAS are listed in Section 2, number 6.

Once a mandate has been included in SMAS and the claimant has established a base year entitlement, the claimant will receive automatic payments from the SCO for the mandate. The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the implicit price deflator of costs of goods and services to governmental agencies, as determined by the State Department of Finance. For programs approved by the COSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three year base period is adjusted according to any changes by both the deflator and average daily attendance. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

A base year entitlement is determined by computing an average of the claimant's costs for any three consecutive years after the program has been approved for the SMAS process. The amount is first adjusted according to any changes in the deflator. The deflator is applied separately to each year's costs for the three years, which comprise the base year. The SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

3. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district, provides to the county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a direct service district or special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

4. Filing Deadline for Claims

Initial reimbursement claims (first-time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date of issuance of the program's claiming instructions by the SCO. If the initial reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% penalty. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

Annual reimbursement claims for costs incurred during the previous fiscal year and estimated claims for costs to be incurred during the current fiscal year must be filed with the SCO and postmarked on or before January 15. If the annual or estimated reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$1,000. Claims must include supporting data to show how the amount claimed was derived. Without this information, the claim cannot be accepted.

Entitlement claims do not have a filing deadline. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. Entitlement claims are used to establish a base year entitlement amount for calculating automatic annual payments. Entitlement does not result in the claimant being reimbursed for costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

5. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer.

Reimbursement and estimated claims are paid within 60 days of the filing deadline for the claim. A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. The SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs. The 20 percent withheld is not subject to accrued interest.

In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

The SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the COSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or parameters and guidelines, the determination of allowable and unallowable costs for mandates is based on the Parameters and Guidelines adopted by the COSM. The determination of allowable reimbursable mandated costs for unfunded mandates is made by the COSM. The SCO determines allowable reimbursable costs, subject to amendment by the COSM, for mandates funded by special legislation. Unless specified, allowable costs are those direct and indirect costs, less applicable credits, considered to be eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carry out the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the Parameters and Guidelines.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, for the purpose of claiming mandated costs, are unallowable and should not be claimed on the claim forms unless specified as reimbursable under the program. These expenses include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops general education, and travel costs.

6. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the COSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each county that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in IPD, which is applied separately to each year's costs for the three years that

comprise the base period. The base period means the three fiscal years immediately succeeding the COSM's approval.

Each county with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, "workload" means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a county has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the county may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a county with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any nonrecurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the county determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based, is set forth in GC Section 17615.8 and requires the approval of the COSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

7. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Each claimed reimbursable cost must be supported by documentation as described in Section 12. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claim must include a computation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1 Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	Description:
$[(EAS + Benefits) \div APH] = PHR$	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
$[(\$26,000 + \$8,099) \div 1,800 \text{ hrs}] = 18.94$	PHR = Productive Hourly Rate

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to EAS, multiply the biweekly salary by 26. To convert a monthly salary to EAS, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

- 2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2 Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula:
Social Security & Medicare	7.65	$[(EAS \times (1 + FBR)) \div APH] = PHR$
Health & Dental Insurance	5.25	
Workers Compensation	3.25	$[(\$26,000 \times (1.3115)) \div 1,800] = \18.94
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 3, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, workmen's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered.
- The compensation paid and benefits received are appropriately authorized by the governing board.
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is \$45.88/5.50 hrs. = \$8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them.

For example:

<u>Employer's Contribution</u>	<u>% of Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1 Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2 Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances, is 25, then the unit cost of supplies is \$0.38 per reimbursable instance (\$9.50 / 25).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time

period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

8. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) Circular A-87. A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs must be supported by time records.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of OMB Circular A-87 (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs (excluding fringe benefits) of employees, provided their services are required by a program. The use of the 10% rate may benefit small agencies where few supportive services are provided.

Direct costs are defined as "those that can readily be identified with a single program or activity." Normally direct costs will include the salaries, benefits, and supplies that can be directly identified with a particular function.

For example, if a county auditor prepares warrants for other county departments, the direct costs of providing the service would include the salary and benefits of the persons in the auditor's office who actually work on the warrants, the cost of the paper on which warrants are written, and the salaries and benefits of a first-line supervisor. Indirect costs of the warrant writing service would include the cost of space, equipment, utilities, maintenance, supervision above first-line and administration of the auditor's office.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are

described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the OMB circular No. A-87, *Cost Principles for State, Local and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

**INDIRECT COST RATE PROPOSAL
PUBLIC DEFENDER'S OFFICE
INVESTIGATION PROGRAM
FISCAL YEAR 20__-20__**

Total	\$ 170,000 (E)	\$ 9,000	\$ 70,000	\$ 91,000	\$ 4,000	\$ 87,000
Total Allocable Indirect Costs			\$ 300,000 (F)			
Distribution of Allocable Indirect Costs						
Based on Salaries & Wages		\$ 15,000	\$ (300,000)	\$ 285,000	\$ 30,000	\$ 255,000
Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB A-87 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB circular A-87. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

9. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claims is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between

program costs and state mandated costs. The offset against state mandated claims cannot exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims is determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approved costs. In (2), the entire program cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claims is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal

and state local assistance programs includes, but is not limited to, the following funding sources:

Federal Programs

CETA, PL 93-203	Federal-Health – Administration
Federal Aid for Construction	Federal-Public Assistance – Administration
Federal Aid for Disaster	

State Programs

State Aid for Agriculture	State-Health – Administration
State Aid for Construction	State-Public Assistance - Administration
State Aid for Corrections	

Federal and State Funding Sources

The listing in Appendix C is not inclusive of all funding sources that should be offset against mandated claims but contains some of the more common ones. State school fund apportionments and federal aid for education, which are based on average daily attendance and are part of the general system of financing public schools as well as block grants which do not provide for specific reimbursement of costs (i.e., allocation formulas not tied to expenditures), should not be included as reimbursements from local assistance revenue sources.

Governing Authority

The costs of salaries and expenses of the governing authority, such as the school superintendent and governing board, are not reimbursable. These are costs of general government as described in the Office of Management and Budget Circular A-87, "Cost Principles for State, Local and Indian Tribal Governments".

10. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustments" detailing adjustments made by the SCO.

11. Audit of Costs

All claims submitted to the State Controller's Office (SCO) are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the Parameters and Guidelines (P's & G's) adopted by the Commission on State Mandates (COSM). If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to Government Code (GC) Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the

period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for three years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

12. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

13. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file an estimated or reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the claims. All supporting documents must be retained for a period of not less than three years after the reimbursement claim was filed or last amended.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

Community colleges have the option of using a federally approved rate (i.e., utilizing the cost accounting principles from the Office of Management and Budget Circular A-21) or form FAM-29C.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the county. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 is required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment, and all other forms and supporting documents **(To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)** Use the following mailing addresses:

14. RETENTION OF CLAIMING INSTRUCTIONS

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the School Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard/local/locreim/index/shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrstdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the COSM's P's and G's. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a school district is subject to audit by the State Controller no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, included in hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

- A.** For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:
1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
 2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- (l) For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A. Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B. When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C. When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- A.** Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- B.** Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 34 cents per mile. An employee who is required to use a specialized vehicle that has been modified to accommodate disabilities may claim 37 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17616

GC §17500: Legislative Findings and Declarations

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution and to consolidate the procedures for reimbursement of statutes specified in the Revenue and Taxation Code with those identified in the Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements would result in substantial monetary penalties or loss of funds to public or private persons in the state. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517: "Fund"

"Fund" means the State Mandates Claims Fund.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state which performs governmental or proprietary functions within limited boundaries. "Special district" includes a redevelopment agency, a joint powers agency or entity, a county service area, a maintenance district or area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim, including claims joined or consolidated with the first claim, filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first statute that appropriates funds for reimbursement of the mandate. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive Sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every month. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting. (d) This section shall become operative on July 1, 1996.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the

state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than three years following the date the mandate became effective, or in the case of mandates that became effective before January 1, 2002, the time limit shall be one year from the effective date of this subdivision. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The hearing procedure shall provide for presentation of evidence by the claimant, the Department of Finance and any other affected department or agency, and any other interested person. The procedures shall ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. Hearing of a claim may be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) The procedures adopted by the commission pursuant to subdivision (a) shall include the following: (1) Provisions for acceptance of more than one claim on the same statute or executive order relating to the same statute or executive order filed with the commission, and, absent agreement by the test claimants to the contrary, to designate the first to file as the lead test claimant. (2) Provisions for consolidating test claims relating to the same statute or executive order filed with the commission with time limits that do not exceed 90 days from the initial filing for consolidating the test claims and for claimants to designate a single contact for information regarding the test claim. (3) Provisions for claimants to designate a single claimant for a test claim relating to the same statute or executive order filed with the commission, with time limits that do not exceed 90 days from the initial filing for making that designation. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553 in order to expedite action on the claim. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) The commission, within 10 days after receipt of a test claim based upon a statute or executive order, shall set a date for a public hearing on the claim within 75 days. The test claim may be based upon estimated costs that a local agency or school district may incur as a result of the statute or executive order and may be filed at any time after the statute is enacted or the executive order is adopted. The claim shall be submitted in a form prescribed by the commission. After a hearing in which the claimant and any other interested organization or individual may participate, the commission shall determine if there are costs mandated by the state. (b) This section shall become operative on July 1, 1996.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district which requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district which requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state that which had been declared existing law or regulation by action of the courts. (c) The statute or executive order implemented a federal law or regulation and resulted in costs mandated by the federal government, unless the statute or executive order mandates costs which exceed the mandate in that federal law or regulation. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute or executive order provides for offsetting savings to local agencies or school districts which result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties which were expressly included in a ballot measure approved by the voters in a statewide election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvned for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17555, it shall determine the amount to be subvned to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. A local agency, school district, and the state may file a claim or request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. (b) In adopting parameters and guidelines, the commission may adopt an allocation formula or uniform allowance which would provide for reimbursement of each local agency or school district of a specified amount each year. (c) The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred, provided, however, that the commission shall not specify therein any fiscal year for which payment could be provided in the annual Budget Act. A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The

claimant may thereafter amend the test claim at any time prior to a commission hearing on the claim without affecting the original filing date as long as the amendment substantially relates to the original test claim.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the determination of the test claim pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller may request the assistance of other state agencies. The claiming instructions shall be derived from the statute or executive order creating the mandate and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17555 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies. (d) This section shall become operative on July 1, 1996.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. (b) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (c) The interest rate charged by the Controller on reduced claims shall be set at the Pooled Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (d) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the

provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17555 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any

local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case shall a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of Claim with Interest

(a) The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later. (b) This section shall become operative on July 1, 1996.

GC §17561.6: Payment

(a) A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5. (b) This section shall become operative on July 1, 1996.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by January 1 of each year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate to the statewide cost estimate adopted by the commission. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall identify mandates that significantly exceed the statewide cost estimate adopted by the commission. The Legislative Analyst shall make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association

or member shall submit a letter to the Chairs of the Assembly Committee on Local Government and the Senate Committee on Local Government specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 2229 or Section 2230 of the Revenue and Taxation Code or Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of Bills on Floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

(a) Any bill introduced or amended on and after January 1, 1985, for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, shall contain a section specifying that reimbursement shall be made from the fund pursuant to Section 17610 when the amount of the claim has been determined pursuant to Article 1 (commencing with Section 17550) of this chapter or that there is no mandate or that the mandate is being disclaimed and the reason therefor. (b) Any bill introduced or amended on and after January 1, 1985, may, but is not required to, contain an appropriation to provide reimbursement of costs mandated by the state.

GC §17581: Conditions for Exemption From Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption From Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district shall not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety II mandate (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17610: Costs Paid From Fund: Limit on Costs

(a) The costs arising from a statute containing a statement that the statute mandates a new program or higher level of service and specifying that reimbursement shall be made from the fund shall, upon certification of the estimated statewide cost by the commission to the Controller, be paid from the fund, provided that the estimated statewide cost of the claim does not exceed one million dollars (\$1,000,000). The Controller shall receive, review, and pay reimbursement claims from the fund as the claims are received. Claims for initial reimbursement shall be filed with the Controller within 120 days from the date that the Controller issued claiming instructions on mandates funded by the fund. When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated cost. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount which would have been allowed had the claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). The Controller may withhold payment of any initial reimbursement claim filed after the filing deadline until the next deadline for funding claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. (b) For purposes of this section, "estimated statewide cost" means the total amount of funds estimated to be necessary to reimburse all eligible local agencies and school districts for costs incurred as a result of the mandate during the first 12-month period following the operative date of the mandate. (c) For purposes of this section, "costs arising from a statute" means the total amount of funds necessary to reimburse eligible local agencies and school districts for costs incurred as a result of complying with a mandate for the fiscal years specified in the parameters and guidelines in accordance with Section 17557.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates except where the costs have been or will be paid pursuant to Section 17610. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17614: State Mandates Claims Fund

There is hereby created the State Mandates Claims Fund. Notwithstanding Section 13340, money in the fund is continuously appropriated without regard to fiscal years for the sole purpose of paying claims pursuant to Section 17610.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

Notwithstanding the provisions of Section 2231 of the Revenue and Taxation Code, the commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvened to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986 -87 fiscal year, and each fiscal year thereafter, to establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvene that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs which are funded either by legislation, in local government claims bills, or from the State Mandates Claim Fund, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by

changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the

commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

Notwithstanding the provisions of Section 2231 of the Revenue and Taxation Code, the Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2002-06A
ANIMAL ADOPTION

MAY 7, 2002

In accordance with Government Code Section (GC §) 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. It increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive necessary and prompt veterinary care.

On January 25, 2001, the COSM determined that Chapter 752/98 established costs mandated by the State according to the provisions listed in the attached P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a direct result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Initial Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. All claims must be filed with the SCO and be delivered or postmarked on or before **September 4, 2002**. Estimated claims for the 2001-02 fiscal year must also be delivered or postmarked on or before **September 4, 2002**. Thereafter, having received payment for an estimated claim, the claimant must file an annual reimbursement claim by January 15 of the following fiscal year. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. The claiming period for the reimbursable activities listed in **IV.**, beginning on page 3 of the P's and G's, are as follows:

- **IV. A. 1., 2., 3. - One Time Activities**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 1. - Acquisition of Additional Space and/or Construction of New Facilities (Food and Agriculture Code Sections {F & AC §§} 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 2. - Remodeling/Renovating Existing Facilities (F & AC §§ 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 3. - Care and Maintenance of Impounded Stray or Abandoned Dogs and Cats (F & AC §§ 31108 and 31752).**

Claiming Period - Fiscal years 1999-00 to 2000-01¹.

- **IV. B. 4. - Care and Maintenance of Impounded Stray or Abandoned Animals (F & AC § 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 5. - Agencies Using the Holding Period of Four Business Days after the Day of Impoundment (F & AC §§ 31108, 31752, and 31753).**

Animals Other than Cats and Dogs

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Impounded Dogs and Cats

Claiming Period - Fiscal year 1999-00 to 2000-01.

- **IV. B. 6. - Feral Cats (F & AC § 31752.5).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 7. - Lost and Found Lists (F & AC § 32001).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 8. - Maintaining Non-Medical Records (F & AC § 32003).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 9. - Necessary and Prompt Veterinary Care (Civil Code §§ 1834 and 1846).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

¹ Claiming period was previously listed as January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 10. - Procurement of Medical, Kennel, and Computer Equipment**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Costs for all initial reimbursement claims must be filed separately according to the fiscal year in which the costs were incurred. However, the initial claims will be considered as one claim for the purpose of computing the late claim penalty. Do not prorate the penalty among fiscal years. If the claims are late, the penalty should be applied to a single fiscal year.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline will not be accepted.**

B. Estimated Claims

Unless otherwise specified in the claiming instructions, local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC Section 17564 provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds \$200, even if the individual school district's, direct service district's, or special district's claims do not each exceed \$200. The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the SCO, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

Reimbursement of Claims

Initial reimbursement claims will only be reimbursed to the extent that expenditures can be supported and, if such information is unavailable, claims will be reduced. In addition, ongoing reimbursement claims must be supported by documentation as evidence of the expenditures. Examples of documentation may include, but are not limited to, employee time records that

identify mandate activities, payroll records, invoices, receipts, contracts, travel expense vouchers, purchase orders, and caseload statistics.

If a documented time study is the basis for claimed time spent in implementing the provisions of **IV. B. 3.** of the P's and G's, attach the time records with the claim. The Controller's Office will review the documented time study for precision and reliability. For information on the Time Study Method, refer to pages 7 and 8 of the P's and G's.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment," specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for two years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.htm.

Address for Filing Claims

Submit a signed, original form FAM-27, Claim for Payment, and all other forms and supporting documents (no copies necessary) to:

If delivered by
U.S. Postal Service:

Food and Agriculture Code Sections 31108, 31752, 31752.5, 31753, 32001, and 32003
As Added or Amended by Statutes of 1998, Chapter 752

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive “necessary and prompt veterinary care.”

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
 - (b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a

mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

Government Code section 17557, as amended by Statutes of 1998, Chapter 681 (which became effective on September 22, 1998), states that a test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. On December 22, 1998, the County of Los Angeles filed the test claim for this mandated program, establishing eligibility for reimbursement beginning on or after July 1, 1997.

However, except for the amendments to Food and Agriculture Code sections 31108 and 31752, Statutes of 1998, Chapter 752 became operative and effective on January 1, 1999. Therefore, except for the amendments to Food and Agriculture Code sections 31108 and 31752, the costs incurred for Statutes of 1998, Chapter 752 are eligible for reimbursement on or after January 1, 1999.

Section 21 of Statutes of 1998, Chapter 752 establishes an operative date of July 1, 1999 for the amendments to Food and Agriculture Code section 31108 (holding period for stray dogs) and Food and Agriculture Code sections 31752 (holding period for stray cats). Therefore, costs incurred for Food and Agriculture Code sections 31108 and 31752, as amended by Statutes of 1998, Chapter 752, are eligible for reimbursement on or after July 1, 1999.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years’ costs shall be submitted within 120 days of notification by the State Controller of the issuance of claiming instructions.

If the total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

IV. Reimbursable Activities

For each eligible claimant, all direct and indirect costs of labor, materials, supplies, fixed assets, contracted services, training and travel for the performance of the activities listed below are eligible for reimbursement.

Except as specified in Component (B)(3) and (4), reimbursement claims for the performance of the activities listed below shall be based on actual or estimated costs as provided in Government Code section 17560.

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from

reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board

meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or

abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- a. Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);

- c. Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished dogs and cats; and
- e. Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of dogs and cats.
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study

supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
4. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- a. Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and

- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by each reimbursable day (four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the

eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
5. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

6. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

7. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

8. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and
- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

9. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding

period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- a. Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and
- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injure cats and dogs (Pen. Code, § 597f, subd. (b));

- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, programs, activities, or functions and shall be supported by the following cost element information:

1. **Salaries and Benefits**

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed, specify the actual time devoted to each activity by each employee, and the productive hourly rate, and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages, and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer’s contributions to social security, pension plans, insurance, and worker’s compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities performed by the employee.

2. **Materials and Supplies**

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases

shall be claimed at the actual price after deducting cash discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contracts for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services. Attach consultant invoices to the claim.

4. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of traveler(s), purpose of travel, inclusive dates and times of travel, destination point(s), and travel costs.

5. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV (A) of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

6. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset that is used for the purposes of the mandated program is reimbursable.

B. Indirect Costs

Compensation for indirect costs is eligible for reimbursement. Indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) pursuant to the Office of Management and Budget (OMB) Circular A-87.

VI. Supporting Data

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., employee time records, cost allocation reports, invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, time studies, etc.) that show evidence of the validity of such costs and their relationship to this mandate. All documentation in support of claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.

VII. Offsetting Savings and Other Reimbursements

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section

31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. State Controller's Office Required Certification

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the state contained herein.

IX. Parameters and Guidelines Amendments

Pursuant to title 2, California Code of Regulations, section 1183.2, Parameters and Guidelines amendments filed before the deadline for initial claims as specified in the Claiming Instructions shall apply to all years eligible for reimbursement as defined in the original Parameters and Guidelines. A Parameters and Guidelines amendment filed after the initial claiming deadline must be submitted on or before January 15, following a fiscal year in order to establish eligibility for reimbursement for the fiscal year.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code §17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.

I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

------------------------------	--	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) If filing an estimated claim, enter an "X" in the box on line (03) Estimated.
- (04) If filing a combined estimated claim on behalf of districts within the county, enter an "X" in the box on line (04) Combined.
- (05) If filing an amended estimated claim, enter an "X" in the box on line (05) Amended.
- (06) Enter the fiscal year in which costs are to be incurred.
- (07) Enter the amount of the estimated claim. If the estimate exceeds the previous year's actual costs by more than 10%, complete form AA-1 and enter the amount from line (11).
- (08) Enter the same amount as shown on line (07).
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from form AA-1, line (11). The total claimed amount must exceed \$1,000.
- (14) Reimbursement claims must be filed by January 15 of the following fiscal year in which costs were incurred or the claims shall be reduced by a late penalty. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(g), means the information is located on form AA-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM AA-1
------------------------	---	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.
- Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code § 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section (F & AC §) 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to F & AC § 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION COMPONENT/ACTIVITY COST DETAIL Instructions	FORM AA-2
------------------------	--	----------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)

OFFICE OF THE STATE CONTROLLER

STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2005-11

ANNUAL REVISIONS- LOCAL AGENCIES

SEPTEMBER 30, 2005

Government Code Section (GC §) 17561 provides for the reimbursement of state mandated costs. Enclosed is information for updating the Mandated Cost Manual for Cities, Counties, and Special Districts. The manual contains all forms and instructions that are necessary for local agencies to file 2005-06 annual claims with the State Controller's Office (SCO).

Estimated claims for costs to be incurred during the 2005-06 fiscal year and reimbursement claims that detail the costs actually incurred in the 2004-05 fiscal year must be filed with the SCO. **Claims must be delivered or postmarked on or before January 17, 2006.** If the claim is filed after the deadline, but by January 15, 2007, the approved claim will be reduced by a late penalty of 10% not to exceed a maximum of \$1,000 for on-going claims. In order for a claim to be considered properly filed, the claim must include supporting documentation specified in the instructions to substantiate the costs claimed. In addition, the claimant must explain the functions performed by each employee for whom costs were claimed. Claims will not be accepted if filed more than one year after the deadline or without supporting documentation.

Amounts appropriated for the payment of program costs are shown beginning on page 6 under "Appropriations for the State Mandated Cost Programs for the 2004-05 and 2005-06 Fiscal Years." The fiscal years for which costs can be claimed for a mandated cost program are shown beginning on page 9 under "Reimbursable State Mandated Cost Programs." To prepare 2005-06 estimated claims and 2004-05 reimbursement claims, forms in the manual should be duplicated to meet the local agency's filing requirements. Claim amounts should be rounded to the nearest dollar.

Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms and supporting documents. **(To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**

Sacramento, CA 95816

MINIMUM CLAIM COST

GC §17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of special districts within their county if the combined claim exceeds \$1,000, even if the individual special district's claim does not each exceed \$1,000. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. Combined claims may be filed only when the county is the fiscal agent for the special districts. A combined claim must show the individual claim costs for each eligible special district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

ESTIMATED CLAIMS

Unless otherwise specified in the claiming instructions, claimants do not have to provide cost schedules and supporting documents with the estimated claim if the estimated amount does not exceed the prior fiscal year's actual costs by more than 10%. The claimant can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the prior fiscal year's actual costs by more than 10%, the claimant must complete claim forms as specified in the claiming instructions for the program and explain the reason for the increased costs. If the explanation to support the higher estimate is not provided with the claim, the claim will automatically be adjusted to 110% of the prior fiscal year's actual costs.

PROGRAM UPDATES FOR 2004-05 FISCAL YEAR

Ch. 486/75 Mandate Reimbursement Process

Ch. 486/75, Mandate Reimbursement Process, provides reimbursement for the cost of: (1) preparing and presenting successful test claims, and (2) preparing and submitting successful reimbursement claims to the SCO. With respect to preparing and submitting claims to the SCO, the 2004 State Budget Act (Ch. 208, Statutes of 2004), imposed in the 2004-05 fiscal year the same limitations as those imposed in the prior fiscal years. Claiming instructions and forms for Chapter 486/75, Mandate Reimbursement Process, were issued separately and are not included in this revision. Limitations on reimbursement for independent contractor costs are as follows:

"If a local agency contracts with an independent contractor for the preparation and submission of reimbursement claims, the costs reimbursable by the state for that purpose shall not exceed the lesser of (1) 10 percent of the amount of the claims prepared and submitted by the independent contractor, or (2) the actual costs that would necessarily have been incurred for that purpose if performed by employees of the local agency.

The maximum amount of reimbursement provided (in the above provision) may be exceeded only if the local agency establishes, by appropriate documentation, that the preparation and submission of these claims could not have been accomplished without the incurring of the additional costs claimed by the local agency."

Updates of Rates and Factors

The following rates are to be used for filing 2004-05 reimbursement claims. The 2004-05 rates are computed by adjusting the 2003-04 rate by the change in the Implicit Price Deflator (IPD) as determined by the State Department of Finance's report of April 2005, *National Deflators, State and Local Purchases*. The estimated change in the IPD for 2004-05 is 4.5%. For preparing the 2005-06 estimated claims, local agencies may use the program's 2004-05 rate or increase the 2004-05 rate by the estimated 2005-06 IPD change of 3.5% to determine 2005-06 estimated claim amounts. In the subsequent fiscal year, the estimated amount must be adjusted to actual cost.

- ◆ *Ch. 39/98, Redevelopment Agencies Tax Disbursement Reporting (Program No. 245)*

The uniform cost allowance per statement for the 2004-05 fiscal year is \$26.14.

- ◆ *Ch. 641/86, Open Meetings/Brown Act Reform (Program No. 219)*

The uniform cost allowance for the 2004-05 fiscal year is \$124.64.

- ◆ *Ch. 1242/77, Senior Citizens' Property Tax Postponement (Program No. 18)*

Counties with an established base year entitlement will receive an automatic payment through the State Mandate Apportionment System (SMAS) (See page 5 of the manual). The amount of increase for the 2004-05 apportionment is 4.5%. Counties without an established base year entitlement may file a 2004-05 reimbursement claim. The 2004-05 unit cost reimbursement rate for each document processed is \$13.08.

- ◆ *Ch. 921/87, Unitary Countywide Tax Rate (Program No. 90)*

The 2004-05 Implicit Price Deflator factor for adjusting the 1987-88 base year cost is 1.630.

- ◆ *Ch. 704/75, Voters Registration Procedures (Program No. 056)*

⁴ The 2005-06 State Budget Act (Chapter 38/39, Statutes of 2005) Item 8885-295-0001, Provision 3, suspends this program for the 2005-06 fiscal year.

⁵ Commission on State Mandates set aside the Parameters and Guidelines on May 26, 2005.

⁶ This program was suspended for the 2005-06 fiscal year.

PROGRAMS SUSPENDED FOR THE 2005-06 FISCAL YEAR

Pursuant to Government Code Section 17581, the following state mandated programs are identified in the 2005 State Budget Act, with a \$0 appropriation by the Legislature. Therefore, the following state mandated programs have been suspended for the 2005-06 fiscal year, and no 2005-06 claim shall be filed.

Item 8885-295-0001, Provision 3

Chapter	1123/77	Adult Felony Restitution

Chapter	1143/80	Regional Housing Needs Determination
Chapter	1297/94	Two-Way Traffic Signal Communications

AUDIT OF COSTS

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and that the claim was prepared in accordance with the SCO's claiming instructions and the Commission on State Mandate's Parameters and Guidelines (P's and G's). If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC §17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency is subject to audit by the State Controller no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

SOURCE DOCUMENTS

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

RETENTION OF CLAIMING INSTRUCTIONS

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Mandated Cost Manual to replace the old forms. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's Web site at www.sco.ca.gov/ard/local/locreim/index.shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to LRSDAR@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 34 cents per mile. An employee who is required to use a specialized vehicle that has been modified to accommodate disabilities may claim 37 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17617

GC §17500: Legislative Findings and Declarations

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517.5: "Cost Savings authorized by the state"

"Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17518.5: "Reasonable Reimbursement Methodology"

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agency and school district costs mandated by the state that meets the following conditions: (1) The total amount to be reimbursed statewide is equivalent to total estimated local agency and school district costs to implement the mandate in a cost-efficient manner. (2) For 50 percent or more of eligible local agency and school district claimants, the amount reimbursed is estimated to fully offset their projected costs to implement the mandate in a cost-efficient manner. (b) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years. (c) A reasonable reimbursement methodology may be developed by any of the following: (1) The Department of Finance. (2) The Controller. (3) An affected state agency. (4) A claimant. (5) An interested party.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or

area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the

discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive Sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every two months. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The procedures shall do all of the following: (1) Provide for presentation of evidence by the claimant, the Department of Finance and any other affected department

or agency, and any other interested person. (2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. (3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents: (1) A written narrative that identifies the specific sections of statutes or executive orders alleged to contain a mandate and shall include all of the following: (A) A detailed description of the new activities and costs that arise from the mandate. (B) A detailed description of existing activities and costs that are modified by the mandate. (C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate. (D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (F) Identification of all of the following: (i) Dedicated state funds appropriated for this program. (ii) Dedicated federal funds appropriated for this program. (iii) Other nonlocal agency funds dedicated for this program. (iv) The local agency's general purpose funds for this program. (v) Fee authority to offset the costs of this program. (G) Identification of prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate. (2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information or belief, and signed by persons who are authorized and competent to do so, as follows: (A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate. (B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs. (C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program. (3) (A) The written narrative shall be supported with copies of all of the following: (i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate. (ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. (iii) Administrative decisions and court decisions cited in the narrative. (B) State mandate determinations made by the Board of Control and the Commission on State Mandates and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement. (4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge or information or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) No later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and bills relating to that subject matter would have been heard.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts. (c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties that were expressly included in a ballot measure approved by the voters in a statewide or local election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvened for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvened to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. (b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology. (c)

The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act. (d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before January 15 following a fiscal year, shall establish reimbursement eligibility for that fiscal year. (e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim. (f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the adoption or amendment of parameters and guidelines pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. (b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. (c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled

Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and

school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of Claim with Interest

The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

GC §17561.6: Payment

A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by January 1 of each year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate to the statewide cost estimate adopted by the commission. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall identify mandates that significantly exceed the statewide cost estimate adopted by the commission. The Legislative Analyst shall make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines and claiming instructions.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17572: Amended Animal Adoption Parameters and Guidelines

(a) The commission shall amend the parameters and guidelines for the state-mandated local program contained in Chapter 752 of the Statutes of 1998, known as the Animal Adoption mandate (Case No. 98-TC-11), as specified below: (1) Amend the formula for determining the reimbursable portion of acquiring or building additional shelter space that is larger than needed to comply with the increased holding period to specify that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. (2) Clarify how the costs for care and maintenance shall be calculated. (3) Detail the documentation necessary to support reimbursement claims under this mandate, in consultation with the Bureau of State Audits and the Controller's office. (b) The parameters and guidelines, as amended pursuant to this section, shall apply to claims for costs incurred in fiscal years commencing with the 2005-06 fiscal year in which Chapter 752 of the Statutes of 1998 is not suspended pursuant to Section 17581. (c) Before funds are appropriated to reimburse local agencies for claims related to costs incurred in fiscal years commencing with the 2005-06 fiscal year pursuant to Sections 1834 and 1846 of the Civil Code, and Sections 31108, 31752, 31752.5, 31753, 32001, and 32003 of the Food and Agricultural Code, known as the Animal Adoption mandate, local agencies shall file reimbursement claims pursuant to the parameters and guidelines amended pursuant to this section, and the Controller's revised claiming instructions.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of Bills on Floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

GC §17581: Conditions for Exemption from Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption from Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district may not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being

one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995). (3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996). (4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made

sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986 -87 fiscal year, and each fiscal year thereafter, to

establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvene that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

The Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

GC §17617: Local Agency Payment

The total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2011-12 fiscal year.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2002-06A
ANIMAL ADOPTION
MAY 7, 2002

In accordance with Government Code Section (GC §) 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. It increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive necessary and prompt veterinary care.

On January 25, 2001, the COSM determined that Chapter 752/98 established costs mandated by the State according to the provisions listed in the attached P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a direct result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Initial Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. All claims must be filed with the SCO and be delivered or postmarked on or before **September 4, 2002**. Estimated claims for the 2001-02 fiscal year must also be delivered or postmarked on or before **September 4, 2002**. Thereafter, having received payment for an estimated claim, the claimant must file an annual reimbursement claim by January 15 of the following fiscal year. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. The claiming period for the reimbursable activities listed in **IV.**, beginning on page 3 of the P's and G's, are as follows:

- **IV. A. 1., 2., 3. - One Time Activities**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 1. - Acquisition of Additional Space and/or Construction of New Facilities (Food and Agriculture Code Sections {F & AC §§} 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 2. - Remodeling/Renovating Existing Facilities (F & AC §§ 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 3. - Care and Maintenance of Impounded Stray or Abandoned Dogs and Cats (F & AC §§ 31108 and 31752).**

Claiming Period - Fiscal years 1999-00 to 2000-01¹.

- **IV. B. 4. - Care and Maintenance of Impounded Stray or Abandoned Animals (F & AC § 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 5. - Agencies Using the Holding Period of Four Business Days after the Day of Impoundment (F & AC §§ 31108, 31752, and 31753).**

Animals Other than Cats and Dogs

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Impounded Dogs and Cats

Claiming Period - Fiscal year 1999-00 to 2000-01.

- **IV. B. 6. - Feral Cats (F & AC § 31752.5).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 7. - Lost and Found Lists (F & AC § 32001).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 8. - Maintaining Non-Medical Records (F & AC § 32003).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 9. - Necessary and Prompt Veterinary Care (Civil Code §§ 1834 and 1846).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

¹ Claiming period was previously listed as January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 10. - Procurement of Medical, Kennel, and Computer Equipment**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Costs for all initial reimbursement claims must be filed separately according to the fiscal year in which the costs were incurred. However, the initial claims will be considered as one claim for the purpose of computing the late claim penalty. Do not prorate the penalty among fiscal years. If the claims are late, the penalty should be applied to a single fiscal year.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline will not be accepted.**

B. Estimated Claims

Unless otherwise specified in the claiming instructions, local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC Section 17564 provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds \$200, even if the individual school district's, direct service district's, or special district's claims do not each exceed \$200. The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the SCO, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

Reimbursement of Claims

Initial reimbursement claims will only be reimbursed to the extent that expenditures can be supported and, if such information is unavailable, claims will be reduced. In addition, ongoing reimbursement claims must be supported by documentation as evidence of the expenditures. Examples of documentation may include, but are not limited to, employee time records that

identify mandate activities, payroll records, invoices, receipts, contracts, travel expense vouchers, purchase orders, and caseload statistics.

If a documented time study is the basis for claimed time spent in implementing the provisions of **IV. B. 3.** of the P's and G's, attach the time records with the claim. The Controller's Office will review the documented time study for precision and reliability. For information on the Time Study Method, refer to pages 7 and 8 of the P's and G's.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment," specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for two years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.htm.

Address for Filing Claims

Submit a signed, original form FAM-27, Claim for Payment, and all other forms and supporting documents (no copies necessary) to:

If delivered by

PARAMETERS AND GUIDELINES

Civil Code Sections 1834 and 1846;
Food and Agriculture Code Sections 31108, 31752, 31752.5, 31753, 32001, and 32003
As Added or Amended by Statutes of 1998, Chapter 752

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive “necessary and prompt veterinary care.”

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
 - (b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a

mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

Government Code section 17557, as amended by Statutes of 1998, Chapter 681 (which became effective on September 22, 1998), states that a test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. On December 22, 1998, the County of Los Angeles filed the test claim for this mandated program, establishing eligibility for reimbursement beginning on or after July 1, 1997.

However, except for the amendments to Food and Agriculture Code sections 31108 and 31752, Statutes of 1998, Chapter 752 became operative and effective on January 1, 1999. Therefore, except for the amendments to Food and Agriculture Code sections 31108 and 31752, the costs incurred for Statutes of 1998, Chapter 752 are eligible for reimbursement on or after January 1, 1999.

Section 21 of Statutes of 1998, Chapter 752 establishes an operative date of July 1, 1999 for the amendments to Food and Agriculture Code section 31108 (holding period for stray dogs) and Food and Agriculture Code sections 31752 (holding period for stray cats). Therefore, costs incurred for Food and Agriculture Code sections 31108 and 31752, as amended by Statutes of 1998, Chapter 752, are eligible for reimbursement on or after July 1, 1999.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years’ costs shall be submitted within 120 days of notification by the State Controller of the issuance of claiming instructions.

If the total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

IV. Reimbursable Activities

For each eligible claimant, all direct and indirect costs of labor, materials, supplies, fixed assets, contracted services, training and travel for the performance of the activities listed below are eligible for reimbursement.

Except as specified in Component (B)(3) and (4), reimbursement claims for the performance of the activities listed below shall be based on actual or estimated costs as provided in Government Code section 17560.

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from

reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board

meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or

abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- a. Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);

- c. Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished dogs and cats; and
- e. Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of dogs and cats.
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study

supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
4. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- a. Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and

- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by each reimbursable day (four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the

eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
5. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

6. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

7. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

8. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and
- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

9. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding

period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- a. Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and
- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injure cats and dogs (Pen. Code, § 597f, subd. (b));

- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, programs, activities, or functions and shall be supported by the following cost element information:

1. **Salaries and Benefits**

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed, specify the actual time devoted to each activity by each employee, and the productive hourly rate, and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages, and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer’s contributions to social security, pension plans, insurance, and worker’s compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities performed by the employee.

2. **Materials and Supplies**

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases

shall be claimed at the actual price after deducting cash discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contracts for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services. Attach consultant invoices to the claim.

4. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of traveler(s), purpose of travel, inclusive dates and times of travel, destination point(s), and travel costs.

5. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV (A) of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

6. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset that is used for the purposes of the mandated program is reimbursable.

B. Indirect Costs

Compensation for indirect costs is eligible for reimbursement. Indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) pursuant to the Office of Management and Budget (OMB) Circular A-87.

VI. Supporting Data

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., employee time records, cost allocation reports, invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, time studies, etc.) that show evidence of the validity of such costs and their relationship to this mandate. All documentation in support of claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.

VII. Offsetting Savings and Other Reimbursements

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section

31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. State Controller’s Office Required Certification

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller’s Office claiming instructions, for those costs mandated by the state contained herein.

IX. Parameters and Guidelines Amendments

Pursuant to title 2, California Code of Regulations, section 1183.2, Parameters and Guidelines amendments filed before the deadline for initial claims as specified in the Claiming Instructions shall apply to all years eligible for reimbursement as defined in the original Parameters and Guidelines. A Parameters and Guidelines amendment filed after the initial claiming deadline must be submitted on or before January 15, following a fiscal year in order to establish eligibility for reimbursement for the fiscal year.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code §17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.

I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Program 213	ANIMAL ADOPTION Certification Claim Form Instructions	FORM FAM-27
------------------------------	--	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) If filing an estimated claim, enter an "X" in the box on line (03) Estimated.
- (04) If filing a combined estimated claim on behalf of districts within the county, enter an "X" in the box on line (04) Combined.
- (05) If filing an amended estimated claim, enter an "X" in the box on line (05) Amended.
- (06) Enter the fiscal year in which costs are to be incurred.
- (07) Enter the amount of the estimated claim. If the estimate exceeds the previous year's actual costs by more than 10%, complete form AA-1 and enter the amount from line (11).
- (08) Enter the same amount as shown on line (07).
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from form AA-1, line (11). The total claimed amount must exceed \$1,000.
- (14) Reimbursement claims must be filed by January 15 of the following fiscal year in which costs were incurred or the claims shall be reduced by a late penalty. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(g), means the information is located on form AA-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM AA-1
------------------------	---	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.
- Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code § 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section (F & AC §) 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to F & AC § 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

------------------------	--	----------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim

FILING A CLAIM

1. Introduction

The law in the State of California (Government Code Sections 17500 through 17616) provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. Costs mandated by the State means any increased costs that local agencies are required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

Estimated claims that show costs to be incurred in the current fiscal year and reimbursement claims that detail the costs actually incurred for the prior fiscal year may be filed with the State Controller's Office (SCO). Claims for on-going programs are filed annually by January 15. Claims for new programs are filed within 120 days from the date claiming instructions are issued for the program. A 10 percent penalty (up to \$1,000 for continuing claims, no limit for initial claims) is assessed for late claims. The SCO may audit the records of any local agency to verify the actual amount of mandated costs and may reduce any claim that is excessive or unreasonable.

When a program has been reimbursed for three or more years, the COSM may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement are not required to file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

The instructions contained in this manual are intended to provide general guidance for filing a mandated cost claim. Since each mandate is administered separately, it is important to refer to the specific program for information related to established policies on eligible reimbursable costs.

2. Types of Claims

There are three types of claims: Reimbursement, estimated, and entitlement. A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year or may file an estimated claim for mandated costs to be incurred during the current fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment, which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable. The claim must be filed with sufficient documentation to support the costs claimed. The types of documentation required to substantiate a claim are identified in the instructions for the program. The certification of claim, form FAM-27, must be signed and dated by the entity's authorized officer in order for the SCO to make payment on the claim.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. The claim must include supporting documentation to substantiate the costs claimed.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal years of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual reimbursement claims must be filed by January 15 following the fiscal year in which costs were incurred for the program. A reimbursement claim must detail the costs actually incurred in the prior fiscal year.

An actual claim for the 2004-05 fiscal years may be filed by January 15, 2005, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.

B. Estimated Claim

An estimated claim is defined in GC Section 17522 as any claim filed with the SCO, during the fiscal year in which the mandated costs are to be incurred by the local agency, against an appropriation made to the SCO for the purpose of paying those costs.

An estimated claim may be filed in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times for estimated costs to be incurred during the current fiscal year. Annual estimated claims are due January 15 of the fiscal year in which the costs are to be incurred. Initial estimated claims are due on the date specified in the claiming instructions. Timely filed estimated claims are paid before those filed after the deadline.

After receiving payment for an estimated claim, the claimant must file a reimbursement claim by January 15 following the fiscal year in which costs were incurred. If the claimant fails to file a reimbursement claim, monies received for the estimated claims must be returned to the State.

C. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a local agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs. Local mandates included in SMAS are listed in Section 2, number 6.

Once a mandate has been included in SMAS and the claimant has established a base year entitlement, the claimant will receive automatic payments from the SCO for the mandate. The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the costs of goods and services to governmental agencies, as determined by the implicit price deflator issued by the State Department of Finance. For programs approved by the COSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three years base period is adjusted according to any changes by both the deflator and average daily attendance. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

A base year entitlement is determined by computing an average of the claimant's costs for any three consecutive years after the program has been approved for the SMAS process. The amount is first adjusted according to any changes in the deflator. The deflator is applied separately to each year's costs for the three years, which comprise the base year. The SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

3. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides to the county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

4. Filing Deadline for Claims

Initial reimbursement claims (first-time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date of issuance of the program's claiming instructions by the SCO. If the initial reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% penalty. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

Annual reimbursement claims for costs incurred during the previous fiscal year and estimated claims for costs to be incurred during the current fiscal year must be filed with the SCO and postmarked on or before January 15. If the annual or estimated reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$1,000. Claims must include supporting data to show how the amount claimed was derived. Without this information, the claim cannot be accepted.

Entitlement claims do not have a filing deadline. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. Entitlement claims are used to establish a base year entitlement amount for calculating automatic annual payments. Entitlement does not result in the claimant being reimbursed for costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

5. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer.

Reimbursement and estimated claims are paid within 60 days of the filing deadline for the claim. A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. The SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs. The 20 percent withheld is not subject to accrued interest.

In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

The SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the COSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or P's & G's, the determination of allowable and unallowable costs for mandates is based on the P's & G's adopted by the COSM. The determination of allowable reimbursable mandated costs for unfunded mandates is made by the COSM. The SCO determines allowable reimbursable costs, subject to amendment by the COSM, for mandates funded by special legislation. Unless specified, allowable costs are those direct and indirect costs, less applicable credits, considered to be eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carryout the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the P's & G's.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, for the purpose of claiming mandated costs, are unallowable and should not be claimed on the claim forms unless specified as reimbursable under the program. These expenses include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops general education, and travel costs.

6. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the COSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each county that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the COSM's approval.

Each county with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was

included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, "workload" means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a county has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the county may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a county with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the county determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based, is set forth in GC Section 17615.8 and requires the approval of the COSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

7. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Each claimed reimbursable cost must be supported by documentation as described in Section 12. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claim must include a computation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	Description:
$[(EAS + Benefits) \div APH] = PHR$	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
$[(\$26,000 + \$8,099) \div 1,800 \text{ hrs}] = 18.94$	PHR = Productive Hourly Rate

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to EAS, multiply the biweekly salary by 26. To convert a monthly salary to EAS, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

- 2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: $[(EAS \times (1 + FBR)) \div APH] = PHR$ $[(\$26,000 \times (1.3115)) \div 1,800] = \18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered.
- The compensation paid and benefits received are appropriately authorized by the governing board.
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming

costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is \$45.88/5.50 hrs. = \$8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them.

For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials

and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance (\$9.50/25).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

8. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) 2 CFR Part 225. A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of OMB 2 CFR Part 225 (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs (excluding fringe benefits) of employees, provided their services are required by a program. The use of the 10% rate may

benefit small agencies where few supportive services are provided.

Direct costs are defined as "those that can readily be identified with a single program or activity." Normally direct costs will include the salaries, benefits, and supplies that can be directly identified with a particular function.

For example, if a county auditor prepares warrants for other county departments, the direct costs of providing the service would include the salary and benefits of the persons in the auditor's office who actually work on the warrants, the cost of the paper on which warrants are written, and the salaries and benefits of a first-line supervisor. Indirect costs of the warrant writing service would include the cost of space, equipment, utilities, maintenance, supervision above first-line and administration of the auditor's office.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the

OMB 2 CFR Part 225, *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

**INDIRECT COST RATE PROPOSAL
PUBLIC DEFENDER'S OFFICE
INVESTIGATION PROGRAM
FISCAL YEAR 20__-20__**

Exhibit 1

(A) Description of Costs	Total Costs	(B) Excludable Unallowable Costs	(C) Allowable Indirect Costs	(D) Allowable Direct Costs	Identifiable Program Costs		
					Investigation PC 987.9	All Others

Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000	

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

9. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in GC Section 17518.5(a). For costs incurred prior to January 1, 2005, time study can only substitute for continuous records of actual time spend for a specific fiscal year if the program's P's & G's allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

P's & G's define reimbursable activities for each mandated cost program. (Some P's & G's refer to reimbursable activities as reimbursable components.) When employees work on multiple activities and/or programs, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards (which clarify documentation requirements discussed under the Reimbursable Activities section of recent P's & G's):

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs.
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's Ps & Gs, which are derived from the program's Statement of Decision. If a reimbursable activity in the Ps & Gs identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities.

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity.
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study.

- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations.
- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's P's & G's specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's P's & G's specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping requirements for those claims.

10. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approve costs. In (2), the entire program

Table of Contents

cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

CETA, PL 93-203	Federal-Health – Administration
Federal Aid for Construction	Federal-Public Assistance – Administration
Federal Aid for Disaster	

State Programs

State Aid for Agriculture	State-Health – Administration
State Aid for Construction	State-Public Assistance - Administration
State Aid for Corrections	

11. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustments" detailing adjustments made by the SCO.

12. Audit of Costs

All claims submitted to the State Controller's Office (SCO) are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission on State Mandates (COSM). If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to Government Code (GC) Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for three years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

13. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in 17518.5(a). For costs incurred prior to January 1, 2005, time study can substitute for continuous records of actual time spent for a specific fiscal year only if the program's Ps & Gs allows for the use of time studies.

14. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file an estimated or reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the

claims. All supporting documents must be retained for a period of not less than three years after the reimbursement claim was filed or last amended.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the entity. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 is required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment, and all other forms and supporting documents (**To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**) Use the following mailing addresses:

15. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard/local/locreim/index.shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

16. Retention of Claim Records and Supporting Documentation

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the COSM's P's and G's. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by local agency is subject to audit by the State Controller no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no

payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 34 cents per mile. An employee who is required to use a specialized vehicle that has been modified to accommodate disabilities may claim 37 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17617

GC §17500: Legislative Findings and Declarations

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517.5: "Cost Savings authorized by the state"

"Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17518.5: "Reasonable Reimbursement Methodology"

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agency and school district costs mandated by the state that meets the following conditions: (1) The total amount to be reimbursed statewide is equivalent to total estimated local agency and school district costs to implement the mandate in a cost-efficient manner. (2) For 50 percent or more of eligible local agency and school district claimants, the amount reimbursed is estimated to fully offset their projected costs to implement the mandate in a cost-efficient manner. (b) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years. (c) A reasonable reimbursement methodology may be developed by any of the following: (1) The Department of Finance. (2) The Controller. (3) An affected state agency. (4) A claimant. (5) An interested party.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or

area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the

discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive Sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every two months. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The procedures shall do all of the following: (1) Provide for presentation of evidence by the claimant, the Department of Finance and any other affected department

or agency, and any other interested person. (2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. (3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents: (1) A written narrative that identifies the specific sections of statutes or executive orders alleged to contain a mandate and shall include all of the following: (A) A detailed description of the new activities and costs that arise from the mandate. (B) A detailed description of existing activities and costs that are modified by the mandate. (C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate. (D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (F) Identification of all of the following: (i) Dedicated state funds appropriated for this program. (ii) Dedicated federal funds appropriated for this program. (iii) Other nonlocal agency funds dedicated for this program. (iv) The local agency's general purpose funds for this program. (v) Fee authority to offset the costs of this program. (G) Identification of prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate. (2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information or belief, and signed by persons who are authorized and competent to do so, as follows: (A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate. (B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs. (C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program. (3) (A) The written narrative shall be supported with copies of all of the following: (i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate. (ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. (iii) Administrative decisions and court decisions cited in the narrative. (B) State mandate determinations made by the Board of Control and the Commission on State Mandates and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement. (4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge or information or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) No later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and bills relating to that subject matter would have been heard.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts. (c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties that were expressly included in a ballot measure approved by the voters in a statewide or local election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvended for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvended to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. (b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology. (c)

The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act. (d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before January 15 following a fiscal year, shall establish reimbursement eligibility for that fiscal year. (e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim. (f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the adoption or amendment of parameters and guidelines pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. (b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. (c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled

Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and

school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of Claim with Interest

The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

GC §17561.6: Payment

A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by January 1 of each year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate to the statewide cost estimate adopted by the commission. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall identify mandates that significantly exceed the statewide cost estimate adopted by the commission. The Legislative Analyst shall make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines and claiming instructions.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17572: Amended Animal Adoption Parameters and Guidelines

(a) The commission shall amend the parameters and guidelines for the state-mandated local program contained in Chapter 752 of the Statutes of 1998, known as the Animal Adoption mandate (Case No. 98-TC-11), as specified below: (1) Amend the formula for determining the reimbursable portion of acquiring or building additional shelter space that is larger than needed to comply with the increased holding period to specify that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. (2) Clarify how the costs for care and maintenance shall be calculated. (3) Detail the documentation necessary to support reimbursement claims under this mandate, in consultation with the Bureau of State Audits and the Controller's office. (b) The parameters and guidelines, as amended pursuant to this section, shall apply to claims for costs incurred in fiscal years commencing with the 2005-06 fiscal year in which Chapter 752 of the Statutes of 1998 is not suspended pursuant to Section 17581. (c) Before funds are appropriated to reimburse local agencies for claims related to costs incurred in fiscal years commencing with the 2005-06 fiscal year pursuant to Sections 1834 and 1846 of the Civil Code, and Sections 31108, 31752, 31752.5, 31753, 32001, and 32003 of the Food and Agricultural Code, known as the Animal Adoption mandate, local agencies shall file reimbursement claims pursuant to the parameters and guidelines amended pursuant to this section, and the Controller's revised claiming instructions.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of Bills on Floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

GC §17581: Conditions for Exemption from Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption from Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district may not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being

one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995). (3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996). (4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made

sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986 -87 fiscal year, and each fiscal year thereafter, to

establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvene that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

The Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

GC §17617: Local Agency Payment

The total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2011-12 fiscal year.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2002-06A
ANIMAL ADOPTION
MAY 7, 2002

In accordance with Government Code Section (GC §) 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. It increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive necessary and prompt veterinary care.

On January 25, 2001, the COSM determined that Chapter 752/98 established costs mandated by the State according to the provisions listed in the attached P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a direct result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Initial Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. All claims must be filed with the SCO and be delivered or postmarked on or before **September 4, 2002**. Estimated claims for the 2001-02 fiscal year must also be delivered or postmarked on or before **September 4, 2002**. Thereafter, having received payment for an estimated claim, the claimant must file an annual reimbursement claim by January 15 of the following fiscal year. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. The claiming period for the reimbursable activities listed in **IV.**, beginning on page 3 of the P's and G's, are as follows:

- **IV. A. 1., 2., 3. - One Time Activities**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 1. - Acquisition of Additional Space and/or Construction of New Facilities (Food and Agriculture Code Sections {F & AC §§} 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 2. - Remodeling/Renovating Existing Facilities (F & AC §§ 31108, 31752, and 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 3. - Care and Maintenance of Impounded Stray or Abandoned Dogs and Cats (F & AC §§ 31108 and 31752).**

Claiming Period - Fiscal years 1999-00 to 2000-01¹.

- **IV. B. 4. - Care and Maintenance of Impounded Stray or Abandoned Animals (F & AC § 31753).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 5. - Agencies Using the Holding Period of Four Business Days after the Day of Impoundment (F & AC §§ 31108, 31752, and 31753).**

Animals Other than Cats and Dogs

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Impounded Dogs and Cats

Claiming Period - Fiscal year 1999-00 to 2000-01.

- **IV. B. 6. - Feral Cats (F & AC § 31752.5).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 7. - Lost and Found Lists (F & AC § 32001).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 8. - Maintaining Non-Medical Records (F & AC § 32003).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

- **IV. B. 9. - Necessary and Prompt Veterinary Care (Civil Code §§ 1834 and 1846).**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 and 2000-01.

¹ Claiming period was previously listed as January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

- **IV. B. 10. - Procurement of Medical, Kennel, and Computer Equipment**

Claiming Period - January 1, 1999, to June 30, 1999, and fiscal years 1999-00 to 2000-01.

Costs for all initial reimbursement claims must be filed separately according to the fiscal year in which the costs were incurred. However, the initial claims will be considered as one claim for the purpose of computing the late claim penalty. Do not prorate the penalty among fiscal years. If the claims are late, the penalty should be applied to a single fiscal year.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline will not be accepted.**

B. Estimated Claims

Unless otherwise specified in the claiming instructions, local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC Section 17564 provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds \$200, even if the individual school district's, direct service district's, or special district's claims do not each exceed \$200. The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the SCO, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

Reimbursement of Claims

Initial reimbursement claims will only be reimbursed to the extent that expenditures can be supported and, if such information is unavailable, claims will be reduced. In addition, ongoing reimbursement claims must be supported by documentation as evidence of the expenditures. Examples of documentation may include, but are not limited to, employee time records that

identify mandate activities, payroll records, invoices, receipts, contracts, travel expense vouchers, purchase orders, and caseload statistics.

If a documented time study is the basis for claimed time spent in implementing the provisions of **IV. B. 3.** of the P's and G's, attach the time records with the claim. The Controller's Office will review the documented time study for precision and reliability. For information on the Time Study Method, refer to pages 7 and 8 of the P's and G's.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment," specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for two years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.htm.

Address for Filing Claims

Submit a signed, original form FAM-27, Claim for Payment, and all other forms and supporting documents (no copies necessary) to:

If delivered by
U.S. Postal Service:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

If delivered by
other delivery services:

PARAMETERS AND GUIDELINES

Civil Code Sections 1834 and 1846;
Food and Agriculture Code Sections 31108, 31752, 31752.5, 31753, 32001, and 32003
As Added or Amended by Statutes of 1998, Chapter 752

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive “necessary and prompt veterinary care.”

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
 - (b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a

mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

Government Code section 17557, as amended by Statutes of 1998, Chapter 681 (which became effective on September 22, 1998), states that a test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. On December 22, 1998, the County of Los Angeles filed the test claim for this mandated program, establishing eligibility for reimbursement beginning on or after July 1, 1997.

However, except for the amendments to Food and Agriculture Code sections 31108 and 31752, Statutes of 1998, Chapter 752 became operative and effective on January 1, 1999. Therefore, except for the amendments to Food and Agriculture Code sections 31108 and 31752, the costs incurred for Statutes of 1998, Chapter 752 are eligible for reimbursement on or after January 1, 1999.

Section 21 of Statutes of 1998, Chapter 752 establishes an operative date of July 1, 1999 for the amendments to Food and Agriculture Code section 31108 (holding period for stray dogs) and Food and Agriculture Code sections 31752 (holding period for stray cats). Therefore, costs incurred for Food and Agriculture Code sections 31108 and 31752, as amended by Statutes of 1998, Chapter 752, are eligible for reimbursement on or after July 1, 1999.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years’ costs shall be submitted within 120 days of notification by the State Controller of the issuance of claiming instructions.

If the total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

IV. Reimbursable Activities

For each eligible claimant, all direct and indirect costs of labor, materials, supplies, fixed assets, contracted services, training and travel for the performance of the activities listed below are eligible for reimbursement.

Except as specified in Component (B)(3) and (4), reimbursement claims for the performance of the activities listed below shall be based on actual or estimated costs as provided in Government Code section 17560.

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from

reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board

meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. Average Daily Census is defined as the average number of impounded stray or

abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- a. Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);

- c. Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished dogs and cats; and
- e. Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of dogs and cats.
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study

supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
4. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- a. Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and

- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by each reimbursable day (four or six business days from the day after impoundment).
- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the

eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- i. Reflect an after-the-fact distribution of each employee's actual activity;
 - ii. Account for the total activity for which each employee is compensated;
 - iii. Account for the total labor hours of the month;
 - iv. Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - v. Document, by signature or initials and date, supervisor approval.
5. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

6. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

7. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

8. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and
- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

9. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding

period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- a. Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- b. Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- c. Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- d. Owner relinquished animals; and
- e. Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injure cats and dogs (Pen. Code, § 597f, subd. (b));

- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, programs, activities, or functions and shall be supported by the following cost element information:

1. **Salaries and Benefits**

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed, specify the actual time devoted to each activity by each employee, and the productive hourly rate, and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages, and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer’s contributions to social security, pension plans, insurance, and worker’s compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities performed by the employee.

2. **Materials and Supplies**

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases

shall be claimed at the actual price after deducting cash discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contracts for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services. Attach consultant invoices to the claim.

4. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of traveler(s), purpose of travel, inclusive dates and times of travel, destination point(s), and travel costs.

5. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV (A) of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

6. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset that is used for the purposes of the mandated program is reimbursable.

B. Indirect Costs

Compensation for indirect costs is eligible for reimbursement. Indirect costs are those that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) pursuant to the Office of Management and Budget (OMB) Circular A-87.

VI. Supporting Data

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., employee time records, cost allocation reports, invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, time studies, etc.) that show evidence of the validity of such costs and their relationship to this mandate. All documentation in support of claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.

VII. Offsetting Savings and Other Reimbursements

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section

31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. State Controller's Office Required Certification

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the state contained herein.

IX. Parameters and Guidelines Amendments

Pursuant to title 2, California Code of Regulations, section 1183.2, Parameters and Guidelines amendments filed before the deadline for initial claims as specified in the Claiming Instructions shall apply to all years eligible for reimbursement as defined in the original Parameters and Guidelines. A Parameters and Guidelines amendment filed after the initial claiming deadline must be submitted on or before January 15, following a fiscal year in order to establish eligibility for reimbursement for the fiscal year.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code §17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.

I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Program 213	ANIMAL ADOPTION Certification Claim Form Instructions	FORM FAM-27
------------------------------	--	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) If filing an estimated claim, enter an "X" in the box on line (03) Estimated.
- (04) If filing a combined estimated claim on behalf of districts within the county, enter an "X" in the box on line (04) Combined.
- (05) If filing an amended estimated claim, enter an "X" in the box on line (05) Amended.
- (06) Enter the fiscal year in which costs are to be incurred.
- (07) Enter the amount of the estimated claim. If the estimate exceeds the previous year's actual costs by more than 10%, complete form AA-1 and enter the amount from line (11).
- (08) Enter the same amount as shown on line (07).
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from form AA-1, line (11). The total claimed amount must exceed \$1,000.
- (14) Reimbursement claims must be filed by January 15 of the following fiscal year in which costs were incurred or the claims shall be reduced by a late penalty. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(g), means the information is located on form AA-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Address, if delivered by U.S. Postal Service:

(11) Total Claimed Amount	[Line (08) - {line (09) + line (10)}]	

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM AA-1
------------------------	---	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.
- Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code § 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section (F & AC §) 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to F & AC § 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION COMPONENT/ACTIVITY COST DETAIL Instructions	FORM AA-2
---	--	----------------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)

PROGRAMS SUSPENDED FOR THE 2006-07 FISCAL YEAR

Pursuant to Government Code Section 17581, the following state mandated programs are identified in the 2006 State Budget Act, with a \$0 appropriation by the Legislature. Therefore, the following state mandated programs have been suspended for the 2006-07 fiscal year, and no 2006-07 claim shall be filed.

FILING A CLAIM

1. Introduction

The law in the State of California (Government Code Sections 17500 through 17616) provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. Costs mandated by the State means any increased costs that local agencies are required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

Estimated claims that show costs to be incurred in the current fiscal year and reimbursement claims that detail the costs actually incurred for the prior fiscal year may be filed with the State Controller's Office (SCO). Claims for on-going programs are filed annually by January 15. Claims for new programs are filed within 120 days from the date claiming instructions are issued for the program. A 10 percent penalty (up to \$1,000 for continuing claims, no limit for initial claims) is assessed for late claims. The SCO may audit the records of any local agency to verify the actual amount of mandated costs and may reduce any claim that is excessive or unreasonable.

When a program has been reimbursed for three or more years, the COSM may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement are not required to file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

The instructions contained in this manual are intended to provide general guidance for filing a mandated cost claim. Since each mandate is administered separately, it is important to refer to the specific program for information related to established policies on eligible reimbursable costs.

2. Types of Claims

There are three types of claims: Reimbursement, estimated, and entitlement. A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year or may file an estimated claim for mandated costs to be incurred during the current fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment, which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable. The claim must be filed with sufficient documentation to support the costs claimed. The types of documentation required to substantiate a claim are identified in the instructions for the program. The certification of claim, form FAM-27, must be signed and dated by the entity's authorized officer in order for the SCO to make payment on the claim.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. The claim must include supporting documentation to substantiate the costs claimed.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal years of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual reimbursement claims must be filed by January 15 following the fiscal year in which costs were incurred for the program. A reimbursement claim must detail the costs actually incurred in the prior fiscal year.

An actual claim for the 2005-06 fiscal years may be filed by January 15, 2007, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.

B. Estimated Claim

An estimated claim is defined in GC Section 17522 as any claim filed with the SCO, during the fiscal year in which the mandated costs are to be incurred by the local agency, against an appropriation made to the SCO for the purpose of paying those costs.

An estimated claim may be filed in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times for estimated costs to be incurred during the current fiscal year. Annual estimated claims are due January 15 of the fiscal year in which the costs are to be incurred. Initial estimated claims are due on the date specified in the claiming instructions. Timely filed estimated claims are paid before those filed after the deadline.

After receiving payment for an estimated claim, the claimant must file a reimbursement claim by January 15 following the fiscal year in which costs were incurred. If the claimant fails to file a reimbursement claim, monies received for the estimated claims must be returned to the State.

C. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a local agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs. Local mandates included in SMAS are listed in Section 2, number 6.

Once a mandate has been included in SMAS and the claimant has established a base year entitlement, the claimant will receive automatic payments from the SCO for the mandate. The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the costs of goods and services to governmental agencies, as determined by the implicit price deflator issued by the State Department of Finance. For programs approved by the COSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three years base period is adjusted according to any changes by both the deflator and average daily attendance. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

A base year entitlement is determined by computing an average of the claimant's costs for any three consecutive years after the program has been approved for the SMAS process. The amount is first adjusted according to any changes in the deflator. The deflator is applied separately to each year's costs for the three years, which comprise the base year. The SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

3. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides to the county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

4. Filing Deadline for Claims

Initial reimbursement claims (first-time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date of issuance of the program's claiming instructions by the SCO. If the initial reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% penalty. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

Annual reimbursement claims for costs incurred during the previous fiscal year and estimated claims for costs to be incurred during the current fiscal year must be filed with the SCO and postmarked on or before January 15. If the annual or estimated reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$1,000. Claims must include supporting data to show how the amount claimed was derived. Without this information, the claim cannot be accepted.

Entitlement claims do not have a filing deadline. However, entitlement claims and supporting documents should be filed by January 15 to permit an orderly processing of claims. Entitlement claims are used to establish a base year entitlement amount for calculating automatic annual payments. Entitlement does not result in the claimant being reimbursed for costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

5. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer.

Reimbursement and estimated claims are paid within 60 days of the filing deadline for the claim. A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. The SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs. The 20 percent withheld is not subject to accrued interest.

In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

The SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the COSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or P's & G's, the determination of allowable and unallowable costs for mandates is based on the P's & G's adopted by the COSM. The determination of allowable reimbursable mandated costs for unfunded mandates is made by the COSM. The SCO determines allowable reimbursable costs, subject to amendment by the COSM, for mandates funded by special legislation. Unless specified, allowable costs are those direct and indirect costs, less applicable credits, considered to be eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carryout the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the P's & G's.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, for the purpose of claiming mandated costs, are unallowable and should not be claimed on the claim forms unless specified as reimbursable under the program. These expenses include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops general education, and travel costs.

6. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the COSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each county that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the COSM's approval.

Each county with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was

included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, "workload" means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a county has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the county may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a county with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the county determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based, is set forth in GC Section 17615.8 and requires the approval of the COSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

7. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Each claimed reimbursable cost must be supported by documentation as described in Section 12. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claim must include a computation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	Description:
$[(EAS + Benefits) \div APH] = PHR$	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
$[(\$26,000 + \$8,099) \div 1,800 \text{ hrs}] = 18.94$	PHR = Productive Hourly Rate

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to EAS, multiply the biweekly salary by 26. To convert a monthly salary to EAS, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

- 2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: [(EAS x (1 + FBR)) ÷ APH] = PHR [(\$26,000 x (1.3115)) ÷ 1,800] = \$18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered.
- The compensation paid and benefits received are appropriately authorized by the governing board.
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming

costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is \$45.88/5.50 hrs. = \$8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them.

For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials

and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance (\$9.50/25).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

8. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) 2 CFR Part 225. A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of OMB 2 CFR Part 225 (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs (excluding fringe benefits) of employees, provided their services are required by a program. The use of the 10% rate may

benefit small agencies where few supportive services are provided.

Direct costs are defined as "those that can readily be identified with a single program or activity." Normally direct costs will include the salaries, benefits, and supplies that can be directly identified with a particular function.

For example, if a county auditor prepares warrants for other county departments, the direct costs of providing the service would include the salary and benefits of the persons in the auditor's office who actually work on the warrants, the cost of the paper on which warrants are written, and the salaries and benefits of a first-line supervisor. Indirect costs of the warrant writing service would include the cost of space, equipment, utilities, maintenance, supervision above first-line and administration of the auditor's office.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the

OMB 2 CFR Part 225, *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

**INDIRECT COST RATE PROPOSAL
PUBLIC DEFENDER'S OFFICE
INVESTIGATION PROGRAM
FISCAL YEAR 20__-20__**

Roll Forward		10,000	0	10,000	0	0	0
Total		\$ 170,000 (E)	\$ 9,000	\$ 70,000	\$ 91,000	\$ 4,000	\$ 87,000
Total Allocable Indirect Costs			\$ 300,000 (F)				
Distribution of Allocable Indirect Costs							
Based on Salaries & Wages		\$ 15,000	\$ (300,000)	\$ 285,000	\$ 30,000	\$ 255,000	
Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000	

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	<u>\$1,000,000</u>

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

9. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in GC Section 17518.5(a). For costs incurred prior to January 1, 2005, time study can only substitute for continuous records of actual time spend for a specific fiscal year if the program's P's & G's allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

P's & G's define reimbursable activities for each mandated cost program. (Some P's & G's refer to reimbursable activities as reimbursable components.) When employees work on multiple activities and/or programs, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards (which clarify documentation requirements discussed under the Reimbursable Activities section of recent P's & G's):

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs.
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's Ps & Gs, which are derived from the program's Statement of Decision. If a reimbursable activity in the Ps & Gs identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities.

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity.
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study.

- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations.
- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's P's & G's specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's P's & G's specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping requirements for those claims.

10. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approve costs. In (2), the entire program

cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

- CETA, PL 93-203
- Federal Health – Administration
- Federal Aid for Construction
- Federal Public Assistance – Administration
- Federal Aid for Disaster

State Programs

- State Aid for Agriculture
- State Health – Administration
- State Aid for Construction
- State Public Assistance - Administration
- State Aid for Corrections

11. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustments" detailing adjustments made by the SCO.

12. Audit of Costs

All claims submitted to the State Controller’s Office (SCO) are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO’s claiming instructions and the P’s & G’s adopted by the Commission on State Mandates (COSM). If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to Government Code (GC) Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for three years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

13. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in 17518.5(a). For costs incurred prior to January 1, 2005, time study can substitute for continuous records of actual time spent for a specific fiscal year only if the program's Ps & Gs allows for the use of time studies.

14. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file an estimated or reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the

claims. All supporting documents must be retained for a period of not less than three years after the reimbursement claim was filed or last amended.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the entity. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 is required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment, and all other forms and supporting documents **(To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)** Use the following mailing addresses:

15. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard/local/locreim/index.shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

16. Retention of Claim Records and Supporting Documentation

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the COSM's P's and G's. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by local agency is subject to audit by the State Controller no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no

payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed

Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

Effective July 1, 2006, when an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 44.5 cents per mile. Effective January 1, 2007, reimbursement rate is 48.5 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17617

GC §17500: Legislative Findings and Declarations

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517.5: "Cost Savings authorized by the state"

"Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17518.5: "Reasonable Reimbursement Methodology"

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agency and school district costs mandated by the state that meets the following conditions: (1) The total amount to be reimbursed statewide is equivalent to total estimated local agency and school district costs to implement the mandate in a cost-efficient manner. (2) For 50 percent or more of eligible local agency and school district claimants, the amount reimbursed is estimated to fully offset their projected costs to implement the mandate in a cost-efficient manner. (b) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years. (c) A reasonable reimbursement methodology may be developed by any of the following: (1) The Department of Finance. (2) The Controller. (3) An affected state agency. (4) A claimant. (5) An interested party.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or

area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the

discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive Sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every two months. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The procedures shall do all of the following: (1) Provide for presentation of evidence by the claimant, the Department of Finance and any other affected department

or agency, and any other interested person. (2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. (3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents: (1) A written narrative that identifies the specific sections of statutes or executive orders alleged to contain a mandate and shall include all of the following: (A) A detailed description of the new activities and costs that arise from the mandate. (B) A detailed description of existing activities and costs that are modified by the mandate. (C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate. (D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (F) Identification of all of the following: (i) Dedicated state funds appropriated for this program. (ii) Dedicated federal funds appropriated for this program. (iii) Other nonlocal agency funds dedicated for this program. (iv) The local agency's general purpose funds for this program. (v) Fee authority to offset the costs of this program. (G) Identification of prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate. (2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information or belief, and signed by persons who are authorized and competent to do so, as follows: (A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate. (B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs. (C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program. (3) (A) The written narrative shall be supported with copies of all of the following: (i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate. (ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. (iii) Administrative decisions and court decisions cited in the narrative. (B) State mandate determinations made by the Board of Control and the Commission on State Mandates and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement. (4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge or information or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) No later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and bills relating to that subject matter would have been heard.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts. (c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties that were expressly included in a ballot measure approved by the voters in a statewide or local election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvened for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvened to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. (b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology. (c)

The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act. (d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before January 15 following a fiscal year, shall establish reimbursement eligibility for that fiscal year. (e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim. (f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the adoption or amendment of parameters and guidelines pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. (b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. (c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled

Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and

school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of Claim with Interest

The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

GC §17561.6: Payment

A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by January 1 of each year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate to the statewide cost estimate adopted by the commission. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall identify mandates that significantly exceed the statewide cost estimate adopted by the commission. The Legislative Analyst shall make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines and claiming instructions.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17572: Amended Animal Adoption Parameters and Guidelines

(a) The commission shall amend the parameters and guidelines for the state-mandated local program contained in Chapter 752 of the Statutes of 1998, known as the Animal Adoption mandate (Case No. 98-TC-11), as specified below: (1) Amend the formula for determining the reimbursable portion of acquiring or building additional shelter space that is larger than needed to comply with the increased holding period to specify that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. (2) Clarify how the costs for care and maintenance shall be calculated. (3) Detail the documentation necessary to support reimbursement claims under this mandate, in consultation with the Bureau of State Audits and the Controller's office. (b) The parameters and guidelines, as amended pursuant to this section, shall apply to claims for costs incurred in fiscal years commencing with the 2005-06 fiscal year in which Chapter 752 of the Statutes of 1998 is not suspended pursuant to Section 17581. (c) Before funds are appropriated to reimburse local agencies for claims related to costs incurred in fiscal years commencing with the 2005-06 fiscal year pursuant to Sections 1834 and 1846 of the Civil Code, and Sections 31108, 31752, 31752.5, 31753, 32001, and 32003 of the Food and Agricultural Code, known as the Animal Adoption mandate, local agencies shall file reimbursement claims pursuant to the parameters and guidelines amended pursuant to this section, and the Controller's revised claiming instructions.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of Bills on Floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

GC §17581: Conditions for Exemption from Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption from Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district may not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being

one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995). (3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996). (4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made

sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986 -87 fiscal year, and each fiscal year thereafter, to

establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvene that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

The Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

GC §17617: Local Agency Payment

The total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2011-12 fiscal year.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2006-11
ANIMAL ADOPTION 2005

April 3, 2006

In accordance with Government Code (GC) section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for filing claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's Parameters and Guidelines (P's & G's) by the Commission on State Mandates (COSM).

On January 25, 2001, the COSM determined that Chapter 752, Statutes of 1998, established costs mandated by the State according to the provisions listed in the P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, or joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Reimbursement Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. Costs incurred for this program are reimbursable for fiscal year 2005-06. Estimated claims for fiscal year 2005-06 must be filed on or before **August 1, 2006**. Actual reimbursement claims for fiscal year 2005-06 and estimated claims for fiscal year 2006-07 must be filed on or before **January 16, 2007**.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.**

B. Late Penalty

1. Initial Claims

AB 3000, enacted into law on September 30, 2002, amended the late penalty assessments on initial claims. Late initial claims submitted **on or after September 30, 2002**, are assessed a late penalty of 10% of the total amount of the initial claims **without limitation**.

2. Annual Reimbursement Claims

All late annual reimbursement claims are assessed a late penalty of 10% subject to the \$1,000 limitation regardless of when the claims were filed.

C. Estimated Claims

Unless otherwise specified in the claiming instructions local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07).

However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such claim exceeds one thousand dollars (\$1,000).

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs incurred to implement the mandated activities. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question.

Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts. Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. It may also include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

Certification of Claim

In accordance with the provisions of GC section 17561, an authorized representative of the claimant shall be required to provide a certification of claim stating: "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure section 2015.5, for those costs mandated by the State and contained herein.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to GC section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency pursuant to this chapter is subject to the initiation of an audit by the SCO no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the SCO to initiate an audit shall commence to run from the date of initial payment of the claim.

In any case, an audit shall be completed no later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. On-site audits will be conducted by the SCO as deemed necessary.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

Questions, or requests for hard copies of these instructions, should be faxed to Angie Lowi-Teng at (916) 323-6527 or e-mailed to **LRS DAR@sco.ca.gov**. Or, if you wish, you may call the Local Reimbursements Section at (916) 324-5729.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.shtml.

Address for Filing Claims

Claims should be rounded to the nearest dollar. Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms and supporting documents. **(To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive "necessary and prompt veterinary care."

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or

(b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

The period of reimbursement for the activities in this parameters and guidelines amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years’ costs shall be submitted within

120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) (8) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the

pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Formula for Proportionate Share of Actual Costs:

Where:

(A) = Shelter square footage, 1998

(B) = Total animal average daily census (ADC), 1998

(C) = Square footage per ADC, 1998 (=A/B)

(D) = Total dog/cat ADC, 1998

(E) = Shelter square footage, claim year

(F) = Total dog/cat ADC, claim year

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(I) = Eligible dog/cat square footage, claim year

For shelters that meet the conditions of to Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:¹

$$(I) = 2/5 \times C \times F$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(I) = 4/7 \times C \times F$$

(J) = Reduction in eligible square footage due to decline in total dog/cat population (cannot exceed 0)

For shelters that meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:²

$$(J) = [(F/5 - D/3 \times C \times D) / (D/3)]$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(J) = [(F/7 - D/3) \times C \times D] / (D/3)$$

(K) = Net eligible dog/cat square footage (cannot be less than 0)

$$(K = I+J)$$

(L) = Percentage of eligible dog/cat ADC, claim year (L = G/F)

(M) = Allowable dog/cat square footage (M = K x L)

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31573 (N = C x H)

(P) = Eligible percentage of acquisition/construction costs (cannot exceed 100%) [P = (M+N) / ((E-A)]

Statutes 2004, chapter 313 specifies that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. The mandate reimburses for costs required due to the

¹ In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

² In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

increased holding period required by Statutes 1998, chapter 752. In calculating net eligible dog/cat square footage, the formula recognizes that a decline in the number of animals sheltered may offset the effect of the increased holding period. For example, if the dog/cat average daily census does not change between the 1998 base year and the claim year, there is no additional square footage required.

The mandate reimburses only for costs attributable to eligible animals. Prior to Statutes 1998, chapter 752, shelters were required to hold dogs and cats for three days, whereas there was no required holding period for other animals. Therefore, the mandate reimbursable percentage formula separately calculates allowable square footage for dogs and cats, and allowable square footage for other animals specified by Food and Agricultural Code section 31753.

Acquisition/construction costs that are less than or equal to the cost of contract services for eligible animals are reimbursable.

Claimants may recalculate the eligible percentage of acquisition/construction costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.1, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the

holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;

- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holding period required by Statutes 1998, chapter 752; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes 1998, chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holder period required by Statutes 1998, chapter 752. This finding should include the cost to contract with existing shelters..

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire

holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Since the remodeling/renovation will not increase square footage to address existing overcrowding or future growth issues, the mandate reimbursable percentage formula for remodeling/renovation would exclude the eligible percentage of square footage factor.

Formula for proportionate share of actual remodeling/renovation costs:

(A) = Shelter square footage

(B) = Total animal average daily census (ADC), claim year

(C) = Square footage per ADC, claim year ($C = A/B$)

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(M) = Eligible dog/cat square footage, claim year

For shelters that meet the requirements of Food and Agricultural Code section 31108 (a)(1) or (2) for dogs, and section 31752 (a)(1) or (2) for cats, $M = 2/5 \times C \times G$.

For shelters that do not meet the requirements of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats, $M = 4/7 \times C \times G$.

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31753, claim year ($N = C \times H$)

(P) = Eligible percentage of remodeling/renovation costs

$[P = (M + N) / A]$

Claimants may recalculate the eligible percentage of remodeling/renovation costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The

determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.2, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities to comply with the increased holding period required by Statutes 1998, chapter 752.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished dogs and cats; and
- Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of all dogs and cats impounded at a facility. For purposes of claiming reimbursement under IV.B.3, average daily census is defined as the average number of all dogs and cats at a facility housed on any given day, in a 365-day period..
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die

during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

3. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by

each reimbursable day (four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

4. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

5. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

6. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

7. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and

- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

8. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);

- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injured cats and dogs (Pen. Code, § 597f, subd. (b));
- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates

attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB Circular A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections,

and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter³ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of

³ This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section 31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the revised parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the revised parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the revised parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code §17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.

I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

E-Mail Address			

Program 213	ANIMAL ADOPTION 2005 Certification Claim Form Instructions	FORM FAM-27
------------------------------	---	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) If filing an estimated claim, enter an "X" in the box on line (03) Estimated.
- (04) If filing a combined estimated claim on behalf of districts within the county, enter an "X" in the box on line (04) Combined.
- (05) If filing an amended estimated claim, enter an "X" in the box on line (05) Amended.
- (06) Enter the fiscal year in which costs are to be incurred.
- (07) Enter the amount of the estimated claim. If the estimate exceeds the previous year's actual costs by more than 10%, complete form AA-1 and enter the amount from line (11).
- (08) Enter the same amount as shown on line (07).
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from form AA-1, line (11). The total claimed amount must exceed \$1,000.
- (14) Estimated claims for fiscal year 2005-06 must be filed on or before **August 1, 2006**. Actual reimbursement claims for fiscal year 2005-06 and estimated claims for fiscal year 2006-07 must be filed on or before **January 16, 2007**. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(g), means the information is located on form AA-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Address, if delivered by U.S. Postal Service:

Program 213	ANIMAL ADOPTION 2005 CLAIM SUMMARY Instructions	FORM AA-1
------------------------	--	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.

 Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code section 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f, and other state funds, and federal funds. Fees and fines received pursuant to Food & Agriculture Code section 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION 2005 COMPONENT/ACTIVITY COST DETAIL INSTRUCTIONS	FORM AA-2
---	---	----------------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	
Salaries	Employee Name/Title	Hourly Rate	Hours Worked	Salaries = Hourly Rate x Hours Worked					
Benefits	Activities Performed	Benefit Rate		Benefits = Benefit Rate x Salaries					
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost x Quantity Used				
Contract Services	Name of Contractor Specific Tasks Performed	Hourly Rate	Hours Worked Inclusive Dates of Service			Cost = Hourly Rate x Hours Worked			Copy of Contract
Fixed Assets	Description of Equipment Purchased	Unit Cost	Usage				Cost = Unit Cost x Usage		Supporting Documentation
Travel and Training	Purpose of Trip Name and Title	Per Diem Rate	Days					Cost = Rate x Days or Miles	
Travel	Departure and Return Date	Mileage Rate Travel Cost	Miles Travel Mode					or Total Travel Cost	
Training	Employee Name/Title Name of Class		Dates Attended					Registration Fee	

- (05) Total line (04), columns (d) through (i) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the component/activity costs, number each page. Enter totals from line (05), columns (d) through (i) to form AA-1, block (04), columns (a) through (f) in the appropriate row.

FILING A CLAIM

1. Introduction

The law in the State of California (Government Code Sections 17500 through 17616) provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. Costs mandated by the State means any increased costs that local agencies are required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

Estimated claims that show costs to be incurred in the current fiscal year and reimbursement claims that detail the costs actually incurred for the prior fiscal year may be filed with the State Controller's Office (SCO). Claims for on-going programs are filed annually by February 15. Claims for new programs are filed within 120 days from the date claiming instructions are issued for the program. A 10 percent penalty (up to \$10,000 for continuing claims, no limit for initial claims) is assessed for late claims. The SCO may audit the records of any local agency to verify the actual amount of mandated costs and may reduce any claim that is excessive or unreasonable.

When a program has been reimbursed for three or more years, the COSM may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement are not required to file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

The instructions contained in this manual are intended to provide general guidance for filing a mandated cost claim. Since each mandate is administered separately, it is important to refer to the specific program for information related to established policies on eligible reimbursable costs.

2. Types of Claims

There are three types of claims: Reimbursement, estimated, and entitlement. A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year or may file an estimated claim for mandated costs to be incurred during the current fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment, which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable. The claim must be filed with sufficient documentation to support the costs claimed. The types of documentation required to substantiate a claim are identified in the instructions for the program. The certification of claim, form FAM-27, must be signed and dated by the entity's authorized officer in order for the SCO to make payment on the claim.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. The claim must include supporting documentation to substantiate the costs claimed.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal years of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual reimbursement claims must be filed by February 15 following the fiscal year in which costs were incurred for the program. A reimbursement claim must detail the costs actually incurred in the prior fiscal year.

An actual claim for the 2006-07 fiscal year may be filed by February 15, 2008, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.

B. Estimated Claim

An estimated claim is defined in GC Section 17522 as any claim filed with the SCO, during the fiscal year in which the mandated costs are to be incurred by the local agency, against an appropriation made to the SCO for the purpose of paying those costs.

An estimated claim may be filed in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times for estimated costs to be incurred during the current fiscal year. Annual estimated claims are due February 15 of the fiscal year in which the costs are to be incurred. Initial estimated claims are due on the date specified in the claiming instructions. Timely filed estimated claims are paid before those filed after the deadline.

After receiving payment for an estimated claim, the claimant must file a reimbursement claim by February 15 following the fiscal year in which costs were incurred. If the claimant fails to file a reimbursement claim, monies received for the estimated claims must be returned to the State.

C. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a local agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by February 15 to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs. Local mandates included in SMAS are listed in Section 2, number 6.

Once a mandate has been included in SMAS and the claimant has established a base year entitlement, the claimant will receive automatic payments from the SCO for the mandate. The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the costs of goods and services to governmental agencies, as determined by the implicit price deflator issued by the State Department of Finance. For programs approved by the COSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three years base period is adjusted according to any changes by both the deflator and average daily attendance. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

A base year entitlement is determined by computing an average of the claimant's costs for any three consecutive years after the program has been approved for the SMAS process. The amount is first adjusted according to any changes in the deflator. The deflator is applied separately to each year's costs for the three years, which comprise the base year. The SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

3. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim, to the county and the Controller, at least 180 days prior to the deadline for filing the claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

4. Filing Deadline for Claims

Initial reimbursement claims (first-time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date of issuance of the program's claiming instructions by the SCO. If the initial reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% penalty. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

Annual reimbursement claims for costs incurred during the previous fiscal year and estimated claims for costs to be incurred during the current fiscal year must be filed with the SCO and postmarked on or before February 15. If the annual or estimated reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$10,000. Claims must include supporting data to show how the amount claimed was derived. Without this information, the claim cannot be accepted.

Entitlement claims do not have a filing deadline. However, entitlement claims and supporting documents should be filed by February 15 to permit an orderly processing of claims. Entitlement claims are used to establish a base year entitlement amount for calculating automatic annual payments. Entitlement does not result in the claimant being reimbursed for costs incurred, but rather entitles the claimant to receive automatic payments from SMAS.

5. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer.

Pursuant to GC section 17561(d), reimbursement and estimated claims are paid by August 15 or 45 days after the date the appropriation for the claim is effective, whichever is later. A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment is made after the August 15 deadline or more than 45 days after the date the appropriation for the claim is effective, whichever is applicable. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. The SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs. The 20 percent withheld is not subject to accrued interest. In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

The SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the COSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or Ps & Gs, the determination of allowable and unallowable costs for mandates is based on the Ps & Gs adopted by the COSM. The determination of allowable reimbursable mandated costs for unfunded mandates is made by the COSM. The SCO determines allowable reimbursable costs, subject to amendment by the COSM, for mandates funded by special legislation. Unless specified, allowable costs are those direct and indirect costs, less applicable credits, considered to be eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carryout the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the Ps & Gs.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, for the purpose of claiming mandated costs, are unallowable and should not be claimed on the claim forms unless specified as reimbursable under the program. These expenses include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops general education, and travel costs.

6. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the COSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each county that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the COSM's approval.

Each county with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was

included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, "workload" means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a county has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the county may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a county with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the county determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based, is set forth in GC Section 17615.8 and requires the approval of the COSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

7. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Each claimed reimbursable cost must be supported by documentation as described in Section 12. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claim must include a computation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	Description:
$[(EAS + Benefits) \div APH] = PHR$	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
$[(\$26,000 + \$8,099) \div 1,800 \text{ hrs}] = 18.94$	PHR = Productive Hourly Rate

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to EAS, multiply the biweekly salary by 26. To convert a monthly salary to EAS, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

- 2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: $[(EAS \times (1 + FBR)) \div APH] = PHR$ $[(\$26,000 \times (1.3115)) \div 1,800] = \18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered.
- The compensation paid and benefits received are appropriately authorized by the governing board.
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming

costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is \$45.88/5.50 hrs. = \$8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them.

For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials

and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance (\$9.50/25).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

8. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) 2 CFR Part 225. A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of OMB 2 CFR Part 225 (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs (excluding fringe benefits) of employees, provided their services are required by a program. The use of the 10% rate may

benefit small agencies where few supportive services are provided.

Direct costs are defined as "those that can readily be identified with a single program or activity." Normally direct costs will include the salaries, benefits, and supplies that can be directly identified with a particular function.

For example, if a county auditor prepares warrants for other county departments, the direct costs of providing the service would include the salary and benefits of the persons in the auditor's office who actually work on the warrants, the cost of the paper on which warrants are written, and the salaries and benefits of a first-line supervisor. Indirect costs of the warrant writing service would include the cost of space, equipment, utilities, maintenance, supervision above first-line and administration of the auditor's office.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the

OMB 2 CFR Part 225, *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

INDIRECT COST RATE PROPOSAL
PUBLIC DEFENDER'S OFFICE
INVESTIGATION PROGRAM
FISCAL YEAR 20__-20__

(A) Description of Costs	Total Costs	(B) Excludable Unallowable Costs	(C) Allowable Indirect Costs	(D) Allowable Direct Costs	Identifiable Program Costs

Roll Forward	10,000	0	10,000	0	0	0
Total	\$ 170,000 (E)	\$ 9,000	\$ 70,000	\$ 91,000	\$ 4,000	\$ 87,000
Total Allocable Indirect Costs			\$ 300,000 (F)			
Distribution of Allocable Indirect Costs						
Based on Salaries & Wages		\$ 15,000	\$ (300,000)	\$ 285,000	\$ 30,000	\$ 255,000
Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	<u>\$1,000,000</u>

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

9. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in GC Section 17518.5(a). For costs incurred prior to January 1, 2005, time study can only substitute for continuous records of actual time spend for a specific fiscal year if the program's Ps & Gs allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

Ps & Gs define reimbursable activities for each mandated cost program. (Some Ps & Gs refer to reimbursable activities as reimbursable components.) When employees work on multiple activities and/or programs, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards (which clarify documentation requirements discussed under the Reimbursable Activities section of recent Ps & Gs):

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs.
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's Ps & Gs, which are derived from the program's Statement of Decision. If a reimbursable activity in the Ps & Gs identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities.

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity.
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study.

- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations.
- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's Ps & Gs specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's Ps & Gs specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping requirements for those claims.

10. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approve costs. In (2), the entire program

cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

- CETA, PL 93-203
- Federal Health – Administration
- Federal Aid for Construction
- Federal Public Assistance – Administration
- Federal Aid for Disaster

State Programs

- State Aid for Agriculture
- State Health – Administration
- State Aid for Construction
- State Public Assistance - Administration
- State Aid for Corrections

11. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustments" detailing adjustments made by the SCO.

12. Audit of Costs

All claims submitted to the State Controller’s Office (SCO) are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO’s claiming instructions and the Ps & Gs adopted by the Commission on State Mandates (COSM). If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to Government Code (GC) Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

On-site audits will be conducted by the SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for three years from the date of initial payment of the claim. Claim documentation shall be made available to the SCO on request.

13. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in 17518.5(a). For costs incurred prior to January 1, 2005, time study can substitute for continuous records of actual time spent for a specific fiscal year only if the program's Ps & Gs allows for the use of time studies.

14. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file an estimated or reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the

claims. All supporting documents must be retained for a period of not less than three years after the reimbursement claim was filed or last amended.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the entity. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 is required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment, and all other forms and supporting documents **(To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)** Use the following mailing addresses:

If delivered by
U.S. Postal Service:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

If delivered by
Other delivery services:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
3301 C Street, Suite 500
Sacramento, CA 95816

15. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard/local/locreim/index.shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

16. Retention of Claim Records and Supporting Documentation

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the COSM's P's and G's. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by local agency is subject to audit by the State Controller no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no

payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, the employee will be allowed to claim and be reimbursed 34 cents per mile. An employee who is required to use a specialized vehicle that has been modified to accommodate disabilities may claim 37 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17617

GC §17500: Legislative Findings and Declarations

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517.5: "Cost Savings authorized by the state"

"Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17518.5: "Reasonable Reimbursement Methodology"

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agency and school district costs mandated by the state that meets the following conditions: (1) The total amount to be reimbursed statewide is equivalent to total estimated local agency and school district costs to implement the mandate in a cost-efficient manner. (2) For 50 percent or more of eligible local agency and school district claimants, the amount reimbursed is estimated to fully offset their projected costs to implement the mandate in a cost-efficient manner. (b) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years. (c) A reasonable reimbursement methodology may be developed by any of the following: (1) The Department of Finance. (2) The Controller. (3) An affected state agency. (4) A claimant. (5) An interested party.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or

area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the

discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Open Meetings: Executive Sessions

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every two months. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The procedures shall do all of the following: (1) Provide for presentation of evidence by the claimant, the Department of Finance and any other affected department

or agency, and any other interested person. (2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. (3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents: (1) A written narrative that identifies the specific sections of statutes or executive orders alleged to contain a mandate and shall include all of the following: (A) A detailed description of the new activities and costs that arise from the mandate. (B) A detailed description of existing activities and costs that are modified by the mandate. (C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate. (D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (F) Identification of all of the following: (i) Dedicated state funds appropriated for this program. (ii) Dedicated federal funds appropriated for this program. (iii) Other nonlocal agency funds dedicated for this program. (iv) The local agency's general purpose funds for this program. (v) Fee authority to offset the costs of this program. (G) Identification of prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate. (2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information or belief, and signed by persons who are authorized and competent to do so, as follows: (A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate. (B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs. (C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program. (3) (A) The written narrative shall be supported with copies of all of the following: (i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate. (ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. (iii) Administrative decisions and court decisions cited in the narrative. (B) State mandate determinations made by the Board of Control and the Commission on State Mandates and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement. (4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge or information or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included. (c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) No later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and bills relating to that subject matter would have been heard.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that: (a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph. (b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts. (c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposed duties that were expressly included in a ballot measure approved by the voters in a statewide or local election. (g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvned for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvned to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. (b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology. (c)

The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act. (d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before January 15 following a fiscal year, shall establish reimbursement eligibility for that fiscal year. (e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim. (f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines to the Controller. All claims relating to a statute or executive order that are filed after the adoption or amendment of parameters and guidelines pursuant to Section 17557 shall be transferred to the Controller who shall pay and audit the claims from funds made available for that purpose. (b) Not later than 60 days after receiving the adopted parameters and guidelines from the commission, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the parameters and guidelines adopted by the commission. (c) The Controller shall, within 60 days after receiving revised adopted parameters and guidelines from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557 or after any decision or order of the commission pursuant to Section 17551. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. (b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. (c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled

Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b). (b) A local agency or school district may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (c) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between October 15 and January 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill which is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 17600 that includes the amounts awarded relating to these chaptered bills or executive orders. (c) The amount appropriated to reimburse local agencies and

school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section within 60 days after the filing deadline for claims for reimbursement or 15 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates contained in a claims bill.

GC §17561.5: Payment of Claim with Interest

The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

GC §17561.6: Payment

A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by January 1 of each year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate to the statewide cost estimate adopted by the commission. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall identify mandates that significantly exceed the statewide cost estimate adopted by the commission. The Legislative Analyst shall make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections 17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines and claiming instructions.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, the Controller shall transmit this information to the commission which shall include these amounts in its report to the Legislature pursuant to Section 17600 to assure that an appropriation sufficient to pay the claims is included in the local government claims bills or other appropriation bills. If the local government claims bills required by Section 17612 have been introduced in the Legislature, the Controller shall report directly to the chairperson of the respective committee in each house of the Legislature which considers appropriations to assure inclusion of a sufficient appropriation in the claims bills.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed one thousand dollars (\$1,000). In no case shall a reimbursement claim be paid which is submitted more than one year after the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17572: Amended Animal Adoption Parameters and Guidelines

(a) The commission shall amend the parameters and guidelines for the state-mandated local program contained in Chapter 752 of the Statutes of 1998, known as the Animal Adoption mandate (Case No. 98-TC-11), as specified below: (1) Amend the formula for determining the reimbursable portion of acquiring or building additional shelter space that is larger than needed to comply with the increased holding period to specify that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. (2) Clarify how the costs for care and maintenance shall be calculated. (3) Detail the documentation necessary to support reimbursement claims under this mandate, in consultation with the Bureau of State Audits and the Controller's office. (b) The parameters and guidelines, as amended pursuant to this section, shall apply to claims for costs incurred in fiscal years commencing with the 2005-06 fiscal year in which Chapter 752 of the Statutes of 1998 is not suspended pursuant to Section 17581. (c) Before funds are appropriated to reimburse local agencies for claims related to costs incurred in fiscal years commencing with the 2005-06 fiscal year pursuant to Sections 1834 and 1846 of the Civil Code, and Sections 31108, 31752, 31752.5, 31753, 32001, and 32003 of the Food and Agricultural Code, known as the Animal Adoption mandate, local agencies shall file reimbursement claims pursuant to the parameters and guidelines amended pursuant to this section, and the Controller's revised claiming instructions.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Amendment of Bills on Floor: Notification by Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

GC §17581: Conditions for Exemption from Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption from Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district may not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being

one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995). (3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996). (4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Immediately upon receipt of the report submitted by the commission pursuant to Section 17600, a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of these mandates. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, it shall make a declaration in the local government claims bill specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made

sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986 -87 fiscal year, and each fiscal year thereafter, to

establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvene that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

The Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

GC §17617: Local Agency Payment

The total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2011-12 fiscal year.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2006-11
ANIMAL ADOPTION 2005

April 3, 2006

In accordance with Government Code (GC) section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for filing claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's Parameters and Guidelines (P's & G's) by the Commission on State Mandates (COSM).

On January 25, 2001, the COSM determined that Chapter 752, Statutes of 1998, established costs mandated by the State according to the provisions listed in the P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, city and county, dependent special district, or joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this mandate, is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Reimbursement Claims

Initial reimbursement claims must be filed within 120 days from the issuance date of claiming instructions. Costs incurred for this program are reimbursable for fiscal year 2005-06. Estimated claims for fiscal year 2005-06 must be filed on or before **August 1, 2006**. Actual reimbursement claims for fiscal year 2005-06 and estimated claims for fiscal year 2006-07 must be filed on or before **January 16, 2007**.

In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline or without the requested supporting documentation will not be accepted.**

B. Late Penalty

1. Initial Claims

AB 3000, enacted into law on September 30, 2002, amended the late penalty assessments on initial claims. Late initial claims submitted **on or after September 30, 2002**, are assessed a late penalty of 10% of the total amount of the initial claims **without limitation**.

2. Annual Reimbursement Claims

All late annual reimbursement claims are assessed a late penalty of 10% subject to the \$1,000 limitation regardless of when the claims were filed.

C. Estimated Claims

Unless otherwise specified in the claiming instructions local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated amount does not exceed the previous fiscal year's actual costs by more than 10%. Claimants can simply enter the estimated amount on form FAM-27, line (07).

However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, claimants must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs. Future estimated claims filed with the SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. Claims filed timely will be paid before late claims.

Minimum Claim Cost

GC section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such claim exceeds one thousand dollars (\$1,000).

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs incurred to implement the mandated activities. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question.

Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts. Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. It may also include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

Certification of Claim

In accordance with the provisions of GC section 17561, an authorized representative of the claimant shall be required to provide a certification of claim stating: "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure section 2015.5, for those costs mandated by the State and contained herein.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to GC section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency pursuant to this chapter is subject to the initiation of an audit by the SCO no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the SCO to initiate an audit shall commence to run from the date of initial payment of the claim.

In any case, an audit shall be completed no later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. On-site audits will be conducted by the SCO as deemed necessary.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

Questions, or requests for hard copies of these instructions, should be faxed to Angie Lowi-Teng at (916) 323-6527 or e-mailed to **LRS DAR@sco.ca.gov**. Or, if you wish, you may call the Local Reimbursements Section at (916) 324-5729.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard/local/locreim/index.shtml.

Address for Filing Claims

Claims should be rounded to the nearest dollar. Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms and supporting documents. **(To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive "necessary and prompt veterinary care."

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or

(b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

The period of reimbursement for the activities in this parameters and guidelines amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years’ costs shall be submitted within

120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) (8) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the

pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Formula for Proportionate Share of Actual Costs:

Where:

(A) = Shelter square footage, 1998

(B) = Total animal average daily census (ADC), 1998

(C) = Square footage per ADC, 1998 (=A/B)

(D) = Total dog/cat ADC, 1998

(E) = Shelter square footage, claim year

(F) = Total dog/cat ADC, claim year

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(I) = Eligible dog/cat square footage, claim year

For shelters that meet the conditions of to Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:¹

$$(I) = 2/5 \times C \times F$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(I) = 4/7 \times C \times F$$

(J) = Reduction in eligible square footage due to decline in total dog/cat population (cannot exceed 0)

For shelters that meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:²

$$(J) = [(F/5 - D/3 \times C \times D) / (D/3)]$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(J) = [(F/7 - D/3) \times C \times D] / (D/3)$$

(K) = Net eligible dog/cat square footage (cannot be less than 0)

$$(K = I+J)$$

(L) = Percentage of eligible dog/cat ADC, claim year (L = G/F)

(M) = Allowable dog/cat square footage (M = K x L)

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31573 (N = C x H)

(P) = Eligible percentage of acquisition/construction costs (cannot exceed 100%) [P = (M+N) / ((E-A)]

Statutes 2004, chapter 313 specifies that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. The mandate reimburses for costs required due to the

¹ In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

² In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

increased holding period required by Statutes 1998, chapter 752. In calculating net eligible dog/cat square footage, the formula recognizes that a decline in the number of animals sheltered may offset the effect of the increased holding period. For example, if the dog/cat average daily census does not change between the 1998 base year and the claim year, there is no additional square footage required.

The mandate reimburses only for costs attributable to eligible animals. Prior to Statutes 1998, chapter 752, shelters were required to hold dogs and cats for three days, whereas there was no required holding period for other animals. Therefore, the mandate reimbursable percentage formula separately calculates allowable square footage for dogs and cats, and allowable square footage for other animals specified by Food and Agricultural Code section 31753.

Acquisition/construction costs that are less than or equal to the cost of contract services for eligible animals are reimbursable.

Claimants may recalculate the eligible percentage of acquisition/construction costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.1, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the

holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;

- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holding period required by Statutes 1998, chapter 752; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes 1998, chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holder period required by Statutes 1998, chapter 752. This finding should include the cost to contract with existing shelters..

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire

holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Since the remodeling/renovation will not increase square footage to address existing overcrowding or future growth issues, the mandate reimbursable percentage formula for remodeling/renovation would exclude the eligible percentage of square footage factor.

Formula for proportionate share of actual remodeling/renovation costs:

(A) = Shelter square footage

(B) = Total animal average daily census (ADC), claim year

(C) = Square footage per ADC, claim year ($C = A/B$)

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(M) = Eligible dog/cat square footage, claim year

For shelters that meet the requirements of Food and Agricultural Code section 31108 (a)(1) or (2) for dogs, and section 31752 (a)(1) or (2) for cats, $M = 2/5 \times C \times G$.

For shelters that do not meet the requirements of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats, $M = 4/7 \times C \times G$.

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31753, claim year ($N = C \times H$)

(P) = Eligible percentage of remodeling/renovation costs

$[P = (M + N) / A]$

Claimants may recalculate the eligible percentage of remodeling/renovation costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The

determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.2, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities to comply with the increased holding period required by Statutes 1998, chapter 752.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished dogs and cats; and
- Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of all dogs and cats impounded at a facility. For purposes of claiming reimbursement under IV.B.3, average daily census is defined as the average number of all dogs and cats at a facility housed on any given day, in a 365-day period..
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die

during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
 - b) Account for the total activity for which each employee is compensated;
 - c) Account for the total labor hours of the month;
 - d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - e) Document, by signature or initials and date, supervisor approval.
3. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by

each reimbursable day (four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

4. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

5. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

6. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

7. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and

- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

8. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);

- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injured cats and dogs (Pen. Code, § 597f, subd. (b));
- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates

attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB Circular A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections,

and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter³ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of

³ This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section 31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the revised parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the revised parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the revised parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code §17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.

I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Type or Print Name	Title	
(38) Name of Contact Person for Claim		Telephone Number () - Ext.
		E-Mail Address

Program 213	ANIMAL ADOPTION 2005 Certification Claim Form Instructions	FORM FAM-27
------------------------------	---	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) If filing an estimated claim, enter an "X" in the box on line (03) Estimated.
- (04) If filing a combined estimated claim on behalf of districts within the county, enter an "X" in the box on line (04) Combined.
- (05) If filing an amended estimated claim, enter an "X" in the box on line (05) Amended.
- (06) Enter the fiscal year in which costs are to be incurred.
- (07) Enter the amount of the estimated claim. If the estimate exceeds the previous year's actual costs by more than 10%, complete form AA-1 and enter the amount from line (11).
- (08) Enter the same amount as shown on line (07).
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from form AA-1, line (11). The total claimed amount must exceed \$1,000.
- (14) Estimated claims for fiscal year 2005-06 must be filed on or before **August 1, 2006**. Actual reimbursement claims for fiscal year 2005-06 and estimated claims for fiscal year 2006-07 must be filed on or before **January 16, 2007**. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), or \$1,000, whichever is less.
- (15) If filing a reimbursement claim and an estimated claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., AA-1, (04)(A)(1)(g), means the information is located on form AA-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 34.19% should be shown as 34. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Program 213	ANIMAL ADOPTION 2005 CLAIM SUMMARY Instructions	FORM AA-1
------------------------	--	----------------------

- (01) Enter the name of the claimant.
- (02) Type of Claim. Check a box, Reimbursement or Estimated, to identify the type of claim being filed. Enter the fiscal year of costs.
- Form AA-1 must be filed for a reimbursement claim. Do not complete form AA-1 if you are filing an estimated claim and the estimate does not exceed the previous fiscal year's actual costs by more than 10%. Simply enter the amount of the estimated claim on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, form AA-1 must be completed and a statement attached explaining the increased costs. Without this information the high estimated claim will automatically be reduced to 110% of the previous fiscal year's actual costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-1 should be completed for each department.
- (04) Reimbursable Components. For each reimbursable component, enter the total from form AA-2, line (05), columns (d) through (i) to form AA-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code section 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f, and other state funds, and federal funds. Fees and fines received pursuant to Food & Agriculture Code section 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (07) for the Estimated Claim or line (13) for the Reimbursement Claim.

Program 213	MANDATED COSTS ANIMAL ADOPTION 2005 COMPONENT/ACTIVITY COST DETAIL	FORM AA-2

Program 213	ANIMAL ADOPTION 2005 COMPONENT/ACTIVITY COST DETAIL INSTRUCTIONS	FORM AA-2
------------------------	---	----------------------

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate form AA-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Components. Check the box which indicates the cost component being claimed. Check only one box per form. A separate form AA-2 shall be prepared for each applicable component.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the component activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	
Salaries	Employee Name/Title	Hourly Rate	Hours Worked	Salaries = Hourly Rate x Hours Worked					
Benefits	Activities Performed	Benefit Rate		Benefits = Benefit Rate x Salaries					
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost x Quantity Used				
Contract Services	Name of Contractor Specific Tasks Performed	Hourly Rate	Hours Worked Inclusive Dates of Service			Cost = Hourly Rate x Hours Worked			Copy of Contract
Fixed Assets	Description of Equipment Purchased	Unit Cost	Usage				Cost = Unit Cost x Usage		Supporting Documentation
Travel and Training	Purpose of Trip Name and Title	Per Diem Rate	Days					Cost = Rate x Days or Miles	
Travel	Departure and Return Date	Mileage Rate Travel Cost	Miles Travel Mode					or Total Travel Cost	
Training	Employee Name/Title Name of Class		Dates Attended					Registration Fee	

- (05) Total line (04), columns (d) through (i) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the component/activity costs, number each page. Enter totals from line (05), columns (d) through (i) to form AA-1, block (04), columns (a) through (f) in the appropriate row.

FILING A CLAIM

1. Introduction

The law in the State of California, (GC Sections 17500 through 17617), provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. Costs mandated by the State means any increased costs which a local agency is required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

A reimbursement claim is defined in GC Section 17522 as any claim filed with SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. An actual claim for the 2007-08 fiscal year, may be filed by February 15, 2009, without a late penalty. If the filing deadline falls on a weekend or holiday, the filing deadline will be the next business day. However, since the 15th falls on a weekend in 2009, claims will be accepted without penalty if postmarked or delivered on before February 17th, 2009. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline will not be accepted by the SCO.

In order for a claim to be considered properly filed, it must include documentation to support the indirect cost rate. A full discussion of the indirect cost methods available to local agencies may be found in Section 8 of these instructions. Documentation to support actual costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 16 of these instructions.

When a program has been reimbursed for three or more years, the Commission on State Mandates (CSM) may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement do not need to file further claims for the program.

SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

These claiming instructions are issued to help claimants prepare paper, and electronic mandated cost claims, for submission to SCO. These instructions are based upon the State of California statutes, regulations, and parameters and guidelines (P's & G's) adopted by CSM. Since each mandate is administered separately, it is important to refer to the specific program for information relating to established policies on eligible reimbursable costs.

2. Local Government Electronic Claims (LGeC)

LGeC enables claimants and their consultants to securely prepare and submit mandated cost claims via the Internet. LGeC uses a series of data input screens to collect the information needed to prepare a claim and also provides a web service so claims can be uploaded in batch files. LGeC also incorporates an attachment feature so claimants can electronically attach supporting documentation if required. In order for a claim to be considered properly filed it must include a copy of the Indirect Cost Rate Proposal (ICRP) if the indirect cost rate exceeds ten

percent. All other documentation to support actual costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 16 of these instructions.

The LGeC system provides an easy and straightforward approach to the claiming process.

Filing claims using LGeC eliminates the manual preparation and submission of paper claims by the locals and the receiving, processing, key entry, verification, and storage of paper claims by SCO. LGeC also provides mathematical checks and automated error detection to reduce erroneous and incomplete claims, provides the state with an electronic workflow process, and stores the claims in an electronic format. Making the change from paper claims to electronic claims reduces the manual handling of paper claims and decreases the costs incurred by local entities for handling, postage, and storage of claims filed using the LGeC system.

In order to use the LGeC system you will need to obtain a user ID and password for each person who will access the LGeC system. To obtain a User ID and password you must file an application with the SCO. The application and instructions are available on the LGeC website located at <https://www.sco.ard/local/lgec/index.shtml>. Complete the application and other documents as requested and mail them to the SCO using the address provided on the form. The application will be processed and a User ID and password will be issued to each applicant to provide access to the LGeC system.

In addition, you may want to subscribe to an email distribution list to automatically receive timely, comprehensive information regarding mandated cost claim receipts, payments, test claims, guidelines, electronic claims, and other news and updates. You also will receive related audit reports and mandate information disseminated by other state agencies.

You can find more information about LGeC and the email distribution lists at <https://www.sco.ard/local/lgec/index.shtml>. This website provides access to the LGeC system, an application for User ID's and passwords, an instructional guide, FAQ's and additional help files. Questions about the information on this website may be directed to LRSDAR@sco.ca.gov, or to Angie Lowi Teng at the Division of Accounting and Reporting, Local Reimbursements Section, Local Government e-Claims, (916) 323-0706.

3. Types of Claims

What is the difference between a reimbursement and entitlement claim? A claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant, who has established a base year entitlement for a program, would receive an automatic annual payment which is reflective of the current costs for the program.

All claims received by SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with SCO by a Local Agency for reimbursement of costs incurred for which an appropriation is made for paying the claim.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal year(s) of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual ongoing reimbursement claims must be filed by February 15th following the fiscal year in which costs were incurred for the program. If the filing deadline falls on a weekend or holiday,

the filing deadline will be the next business day. Since February 15th falls on a weekend in 2009, claims will be accepted without penalty if postmarked or delivered on before February 17th, 2009. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline will not be accepted for reimbursement.

In order for a claim to be considered properly filed, it must include the Indirect Cost Rate Proposal (ICRP) to support the indirect cost rate if the indirect cost rate exceeds ten percent. A more detailed discussion of the indirect cost methods available to local agencies may be found in Section 8 of these instructions. Documentation to support actual costs must be kept on hand by the claimant and made available to the SCO upon request as explained in Section 16 of these instructions.

Estimated Claims

Pursuant to AB 8, Chapter 6, Statutes of 2008, the option to file estimated claims has been eliminated. Therefore, estimated claims filed on or after February 16, 2008, will not be accepted by SCO.

B. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a Local Agency with SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims should be filed by February 15, following the third fiscal year used to develop the entitlement claim, to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs.

The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the IPD of costs of goods and services to governmental agencies, as determined by the State Department of Finance. For programs approved by CSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three year base period is adjusted according to any changes by both the IPD and average daily attendance (ADA).

SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. The form FAM-43 is included in the claiming instructions for SMAS programs. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

4. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564.

5. Filing Deadline for Claims

Pursuant to GC Section 17561(d) initial reimbursement claims (first time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date SCO issues the claiming instructions for the program.

When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs.

All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty.

Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid.

In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates.

Pursuant to GC Section 17560, annual reimbursement claims (recurring claims) for costs incurred during the previous fiscal year must be filed with SCO and postmarked on or before February 15th following the fiscal year in which costs were incurred. If the filing deadline falls on a weekend or holiday, the filing deadline will be the next business day. Since February 15th falls on a weekend in 2009, claims will be accepted without penalty if postmarked or delivered on before February 17th, 2009.

If the annual reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline cannot be accepted for reimbursement.

Entitlement claims do not have a filing deadline. However, entitlement claims should be filed by February 15th to permit orderly processing of the claims.

6. Payment of Claims

In order for SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer. When using the LGeC system the logon id and password of the authorized officer is used for the signature and is applied by the LGeC system when the claim is submitted. Pursuant to GC 17561(d), reimbursement claims are paid by August 15, or 45 days after the date the appropriation for the claim is effective, whichever is later. In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than 365 days after the adoption of the program's statewide cost estimate. SCO may withhold up to 20 percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs.

SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature, who consider appropriations in order to assure

appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to CSM which will include these amounts in its report to assure that an appropriation sufficient to pay the claims is included in the next local government claims bill or other appropriation bills. When the supplementary funds are made available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or P's & G's, the determination of allowable and unallowable costs for mandates is based on the P's & G's adopted by CSM. The determination of allowable reimbursable mandated costs for unfunded mandates is made by CSM. SCO determines allowable reimbursable costs, subject to amendment by CSM, for mandates funded by special legislation. Allowable costs are those direct and indirect costs, less applicable credits, considered eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carry out the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the P's & G's.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that should not be claimed as direct program costs unless specified as reimbursable under the program's P's & G's. These costs include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops, general education, and travel costs.

7. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the CSM.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each local agency that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the CSM's approval.

Each local agency with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, "workload" means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a local agency has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the local agency may file an entitlement claim for each of those missed years to establish a base year entitlement. An "entitlement claim" means any claim filed by a local agency with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30th. The amount to be apportioned is the base year

entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the local agency determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based, is set forth in GC Section 17615.8 and requires the approval of the CSM.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

8. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Documentation to support direct costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claim must include a computation of how these hours were computed. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	Description:
$[(EAS + Benefits) \div APH] = PHR$	EAS = Employee's Annual Salary APH = Annual Productive Hours
$[(\$26,000 + \$8,099) \div 1,800 \text{ hrs}] = 18.94$	PHR = Productive Hourly Rate

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to EAS, multiply the biweekly salary by 26. To convert a monthly salary to

EAS, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: $[(EAS \times (1 + FBR)) \div APH] = PHR$ $[(\$26,000 \times (1.3115)) \div 1,800] = \18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered.
- The compensation paid and benefits received are appropriately authorized by the governing board.
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is \$45.88/5.50 hrs. = \$8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the

actual price after deducting discounts, rebates and allowances received by local agencies. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2.

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance (\$9.50/25).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto miles traveled, and the cost of tolls and parking with receipts required for charges over \$10.00. Documentation to support these costs must be kept on hand by the claimant and made available to SCO upon request as explained in Section 17 of these instructions.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

9. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered "expenses related to general government" and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget (OMB) Circular A-87 (Title 2 CFR Part 225). A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of Office of Management and Budget OMB Circular A-87 (Title 2 CFR Part 225.) (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits. The use of the 10% rate may benefit small agencies where it is inefficient to prepare an ICRP.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP. The proposal must follow the provisions of the Office of Management and Budget (OMB) Circular A-87 (Title 2 CFR Part 225), *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

10. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in GC Section 17518.5(a). For costs incurred prior to January 1, 2005, time study can only substitute for continuous records of actual time spend for a specific fiscal year if the program's Ps & Gs allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

Ps & Gs define reimbursable activities for each mandated cost program. (Some Ps & Gs refer to reimbursable activities as reimbursable components.) When employees work on multiple activities and/or programs, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards (which clarify documentation requirements discussed under the Reimbursable Activities section of recent Ps & Gs):

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs.
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's Ps & Gs, which are derived from the program's Statement of Decision. If a reimbursable activity in the Ps & Gs identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities.

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity.
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study.

- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations.
- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's Ps & Gs specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's Ps & Gs specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping requirements for those claims.

11. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approve costs. In (2), the entire program

cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

- CETA, PL 93-203
- Federal Aid for Construction
- Federal Aid for Disaster
- Federal-Health – Administration
- Federal-Public Assistance – Administration

State Programs

- State Aid for Agriculture
- State Aid for Construction
- State Aid for Corrections
- State-Health – Administration
- State-Public Assistance - Administration

12. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. If any adjustments are made to a claim, the claimant will receive a "Notice of Claim Adjustments" detailing adjustments made by the SCO.

13. Audit of Costs

Pursuant to GC Section 17558.5, subdivision (b) The SCO may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with SCO’s claiming instructions and the P’s & G’s adopted by CSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days

after payment of the claim.

Pursuant to Government Code (GC) Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. All documents used to support the reimbursable activities, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

14. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct based upon personal knowledge." Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a "formula for reimbursing local agency and school district costs mandated by the state" that meets certain conditions specified in 17518.5(a).

15. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2 provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file a reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the claims. All supporting documents must be retained for a period of not less than three years after the reimbursement claim was filed or last amended.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and

are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the Local Agency. All applicable information from Form-1 must be carried forward onto this form in order for SCO to process the claim for payment. An original and one copy of the FAM-27 are required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment. **(To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)** Use the following mailing addresses:

16. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained permanently for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard/local/locreim/index.shtml.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

17. Retention of Claim Records and Supporting Documentation

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities must be retained during the period subject to audit. If the Controller has initiated an audit during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents must be made available to SCO on request.

[RETURN TO TABLE OF CONTENTS](#)

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, effective January 1, 2009, the employee will be allowed to claim and be reimbursed 55 cents per mile.

[RETURN TO TABLE OF CONTENTS](#)**B. GOVERNMENT CODE SECTIONS 17500-17617****GC §17500: Legislative Findings and Declarations**

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state-mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

GC §17510: Construction of Part

Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

GC §17511: "City"

"City" means any city whether general law or charter, except a city and county.

GC §17512: "Commission"

"Commission" means the Commission on State Mandates.

GC §17513: "Cost Mandated by the Federal Government"

"Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

GC §17514: "Costs Mandated by the State"

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

GC §17515: "County"

"County" means any chartered or general law county. "County" includes a city and county.

GC §17516: "Executive Order"

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following: (a) The Governor. (b) Any officer or official serving at the pleasure of the Governor. (c) Any agency, department, board, or commission of state government. "Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

GC §17517.5: "Cost Savings authorized by the state"

"Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

GC §17518: "Local Agency"

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

GC §17518.5: "Reasonable Reimbursement Methodology"

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agencies and school districts for costs mandated by the state, as defined in Section 17514. (b) A reasonable reimbursement methodology shall be based on cost information from a representative sample of eligible claimants, information provided by associations of local agencies and school districts, or other projections of local costs. (c) A reasonable reimbursement methodology shall consider the variation in costs among local agencies and school districts to implement the mandate in a cost-efficient manner. (d) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years. (e) A reasonable reimbursement methodology may be developed by any of the following: (1) The Department of Finance. (2) The Controller. (3) An affected state agency. (4) A claimant. (5) An interested party.

GC §17519: "School District"

"School district" means any school district, community college district, or county superintendent of schools.

GC §17520: "Special District"

"Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

GC §17521: "Test Claim"

"Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state, and includes a claim filed pursuant to Section 17574.

GC §17521.5: "Legislatively Determined Mandate"

"Legislatively determined mandate" means the provisions of a statute or executive order that the Legislature, pursuant to Article 1.5, has declared by statute to be a mandate for which reimbursement is required by Section 6 of Article XIII B of the California Constitution.

GC §17522: Definitions

(a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558. (b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose. (c) "Estimated reimbursement claim" means a claim filed with the Controller by a local agency or school district in conjunction with an initial reimbursement claim, annual reimbursement claim, or at other times, for estimated costs to be reimbursed during the current or future fiscal years, for which appropriations are made to the Controller for this purpose. (d) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

GC §17523: "Deflator"

"Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

GC §17524: "Base Year Entitlement"

"Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

GC §17525: Members: Term and Per Diem for Specified Members

(a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows: (1) The Controller. (2) The Treasurer. (3) The Director of Finance. (4) The Director of the Office of Planning and Research. (5) A public member with experience in public finance, appointed by the Governor and approved by the Senate. (6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category: (A) A city council member. (B) A member of a county or city and county board of supervisors. (C) A governing board member of a school district as defined in Section 17519. (b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following: (1) The member shall serve for a term of four years subject to renewal. (2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

GC §17526: Commission Meetings

(a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission. (b) The commission shall meet at least once every two months. (c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

GC §17527: Powers of Commission

In carrying out its duties and responsibilities, the commission shall have the following powers: (a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district. (b) To meet at times and places as it may deem proper. (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper. (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents. (e) To administer oaths. (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities. (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

GC §17528: Election of Officers

The members of the commission shall elect a chairperson and a vice chairperson of the commission.

GC §17529: Appointment of Attorney: Duties

The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission. The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

GC §17530: Appointment of Executive Director: Duties

The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

GC §17531: Authority of Executive Director to Employ Necessary Staff

The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

GC §17532: Quorum: Investigations, Inquiries, and Hearing

A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

GC §17533: Provisions not Applicable to Hearing by Commission

Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part.

GC §17550: Reimbursements of Local Agencies and Special Districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

GC §17551: Commission Hearing and Decision Upon Claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. (b) Except as provided in Sections 17573 and 17574, commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section. (c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later. (d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

GC §17552: Exclusivity of Procedure by Chapter

This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

GC §17553: Adoption of Procedure for Receiving Claims and Providing Hearings: Postponement of Hearings

(a) The commission shall adopt procedures for receiving claims filed pursuant to this article and Section 17574 for providing a hearing on those claims. The procedures shall do all of the following: (1) Provide for presentation of evidence by the claimant, the Department of Finance and any other affected department or agency, and any other interested person. (2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. (3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing. (b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents: (1) A written narrative that identifies the specific sections of statutes or executive orders and the effective date and register number of regulations alleged to contain a mandate and shall include all of the following: (A) A detailed description of the new activities and costs that arise from the mandate. (B) A detailed description of existing activities and costs that are modified by the mandate. (C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate. (D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed. (F) Identification of all of the following: (i) Dedicated state funds appropriated for this program. (ii) Dedicated federal funds appropriated for this program. (iii) Other non-local agency funds dedicated for this program. (iv) The local agency's general purpose funds for this program. (v) Fee authority to offset the costs of this program. (G) Identification of prior mandate determinations made by the Commission on State Mandates or a predecessor agency that may be related to the alleged mandate. (H) Identification of a legislatively determined mandate pursuant to Section 17573 that is on the same statute or executive order. (2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information or belief, and signed by persons who are authorized and competent to do so, as follows: (A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate. (B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs. (C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program. (D) If applicable, declarations describing the period of reimbursement and payments received for full reimbursement of costs for a legislatively determined mandate pursuant to Section 17573, and the authority to file a test claim pursuant to paragraph (1) of Section 17574. (3) (A) The written narrative shall be supported with copies of all of the following: (i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate. (ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. (iii) Administrative decisions and court decisions cited in the narrative. (B) State mandate determinations made by the Commission on State Mandates or a predecessor agency and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement. (4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge or information or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included.

(c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order. (d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

GC §17554: Commission's Authority to Expedite Claim

With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

GC §17555: Date for Public Hearing: Test Claim Form and Procedure

(a) No later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, and determining the amount to be subvended to local agencies and school districts for reimbursement pursuant to subdivision (a) of Section 17557, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and bills relating to that subject matter would have been heard.

GC §17556: Criteria for not Finding Costs Mandated by the State

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds any one of the following: (a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this subdivision. (b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts. (c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. (d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service. (e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate. (f) The statute or executive order imposes duties that are necessary to implement, reasonably within the scope of, or expressly included in, a ballot measure approved by the votes in a statewide or local election. This subdivision applies regardless of whether the statute or executive order was enacted or adopted before or after the date on which the ballot measure was approved by the voters. (g) The statute created a new crime or infraction, eliminated a

crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

GC §17557: Determination of Amount to be Subvened for Reimbursement: Parameters and Guidelines

(a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvened to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified. (b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology. (c) The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act. (d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before the claiming deadline following a fiscal year, shall establish reimbursement eligibility for that fiscal year. (e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim. (f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

GC §17557.1: Statement of Decision on Test Claim

(a) Notwithstanding any other provision of this part within 30 days of the commission's adoption of a statement of decision on a test claim, the test claimant and the Department of Finance may notify the executive director of the commission in writing of their intent to follow the process described in this section to develop a reasonable reimbursement methodology and statewide estimate of costs for the initial claiming period and budget year for reimbursement of costs mandated by the state in accordance with the statement of decision. The letter of intent shall include the date on which the test claimant and the Department of Finance will submit a plan to ensure that costs from a representative sample of eligible local agency or school district claimants are considered in the development of a reasonable reimbursement methodology. (b) This plan shall also include all of the following information: (1) The date on which the test claimant and Department of Finance will provide to the executive director an informational update regarding their progress in developing the reasonable reimbursement methodology. (2) The date on which the test claimant and Department of Finance will submit to the executive director the draft reasonable reimbursement methodology and proposed statewide estimate of costs for the initial claiming period and budget year. This date shall be no later than 180 days after the date the letter of intent is sent by the test claimant and Department of Finance to the executive

director. (c) At the request of the test claimant and Department of Finance, the executive director may provide for up to four extensions of this 180-day period. (d) The test claimant or Department of Finance may notify the executive director at any time that the claimant or Department of Finance no longer intends to develop a reasonable reimbursement methodology pursuant to this section. In this case, paragraph (2) of subdivision (a) of Section 17553 and Section 17557 shall apply to the test claim. Upon receipt of this notification, the executive director shall notify the test claimant of the duty to submit proposed parameters and guidelines within 30 days under subdivision (a) of Section 17557.

GC §17557.2: Broad Support Required; Joint Proposal Prior to Commission Hearing

(a) A reasonable reimbursement methodology developed pursuant to Section 17557.1 or a joint request for early termination of a reasonable reimbursement methodology shall have broad support from a wide range of local agencies or school districts. The test claimant and Department of Finance may demonstrate broad support from a wide range of local agencies or school districts in different ways including, but not limited to, obtaining endorsement by one or more statewide associations of local agencies or school districts and securing letters of approval from local agencies or school districts. (b) No later than 60 days before a commission hearing, the test claimant and Department of Finance shall submit to the commission joint proposal that shall include all of the following: (1) The draft reasonable reimbursement methodology. (2) The proposed statewide estimate of costs for the initial claiming period and budget year. (3) A description of the steps the test claimant and the Department of Finance undertook to determine the level of support by local agencies or school districts for the draft reasonable reimbursement methodology. (4) An agreement that the reasonable reimbursement methodology developed and approved under this section shall be in effect for a period of five years unless a different term is approved by the commission, or upon submission to the commission of a letter indicating the Department of Finance and test claimant's joint interest in early termination of the reasonable reimbursement methodology. (5) An agreement that, at the conclusion of the period established in paragraph (4), the Department of Finance and the test claimant will consider jointly whether amendments to the methodology are necessary. (c) The commission shall approve the draft reasonable reimbursement methodology if review of the information submitted pursuant to Section 17557.1 and subdivision (b) of this section demonstrates that the draft reasonable reimbursement methodology and statewide estimate of costs for the initial claiming period and budget year have been developed in accordance with Section 17557.1 and meet the requirements of subdivision (a). The commission thereafter shall adopt the proposed statewide estimate of costs for the initial claiming period and budget year. Statewide cost estimates adopted under this section shall be included in the report to the Legislature required under Section 17600 and shall be reported by the commission to the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, and the Department of Finance not later than 30 days after adoption. (d) Unless amendments are proposed pursuant to this subdivision, the reasonable reimbursement methodology approved by the commission pursuant to this section shall expire after either five years, any other term approved by the commission, or upon submission to the commission of a letter indicating the Department of Finance's and test claimant's joint interest in early termination of the reasonable reimbursement methodology. (e) The commission shall approved a joint request for early termination of a reasonable reimbursement methodology if the request meets the requirements of subdivision (a). If the commission approves a joint request for early termination, the commission shall notify the test claimant of the duty to submit proposed parameters and guidelines to the commission pursuant to subdivision (a) of Section 17557. (f) At least one year before the expiration of a reasonable reimbursement methodology, the commission shall notify the Department of Finance and the test claimant that they may do one of the following: (1) Jointly propose amendments to the reasonable reimbursement methodology by submitting the information described in paragraphs (1), (3), and (4) of subdivision (b), and providing an estimate of the mandate's annual cost for the subsequent budget year. (2) Jointly propose that the reasonable reimbursement methodology remain in effect. (3) Allow the reasonable reimbursement methodology to expire and notify the commission that the test claimant will submit proposed parameters and guidelines to the commission pursuant to subdivision (a) of Section 17557 to replace the reasonable reimbursement methodology. (g) The commission shall either approve the continuation of the reasonable reimbursement methodology or approve the jointly proposed amendments to the reasonable reimbursement methodology if the

information submitted in accordance with paragraph (1) of subdivision (d) demonstrates that the proposed amendments were developed in accordance with Section 17557.1 and meet the requirements of subdivision (a) of this section.

GC §17558: Submission of Parameters and Guidelines to Controller: Transfer of Claims; Claiming Instructions

(a) The commission shall submit the adopted parameters and guidelines or a reasonable reimbursement methodology approved pursuant to Section 17557.2 to the Controller. As used in this chapter, a “reasonable reimbursement methodology” approved pursuant to Section 17557.2 includes all amendments to the reasonable reimbursement methodology. When the Legislature declares a legislatively determined mandate in accordance with Section 17573 in which claiming instructions are necessary, the Department of Finance shall notify the Controller. (b) Not later than 60 days after receiving the adopted parameters and guidelines, a reasonable reimbursement methodology from the commission, or notification from the Department of Finance, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the adopted parameters and guidelines, reasonable reimbursement methodology, or statute declaring a legislatively determined mandate. (c) The Controller shall, within 60 days after receiving adopted parameters and guidelines, an amended reasonable reimbursement methodology from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557, Section 17557.2 or after any decision or order of the commission pursuant to Section 17557.2, or after any action by the Legislature pursuant to Section 17573. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

GC §17558.5: Reimbursement Claim: Audit; Remittance Advice and Other Notices of Payment

(a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. (b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. (c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review. (d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied. (e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

GC §17558.6: Legislative Intent

It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

GC §17559: Judicial Review

(a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied. (b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

GC §17560: Deadlines for Filing Reimbursement Claims

Reimbursement for state-mandated costs may be claimed as follows: (a) A local agency or school district may, by February 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year. (b) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between November 15 and February 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

GC §17561: Reimbursement of Costs for State Mandated Programs

(a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514 and for legislatively determined mandates in accordance with Section 17573. (b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows: (A) Any statute mandating these costs shall provide an appropriation therefor. (B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill that is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts. (2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill. (c) The amount appropriated to reimburse local agencies and school districts for costs mandated by the state shall be appropriated to the Controller for disbursement. (d) The Controller shall pay any eligible claim pursuant to this section by August 15 or 45 days after the date of the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows: (1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission, the

reasonable reimbursement methodology approved by the commission pursuant to Section 17557.2, or statutory declaration of a legislative determined and reimbursement methodology pursuant to Section 17573. (A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 or 17573 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions. (B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller. (C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, provided that the Controller (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, the application of a reasonable reimbursement methodology, or application of a legislatively enacted reimbursement methodology under Section 17573, and (ii) may reduce any claim that the Controller determines is excessive or unreasonable. (2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor, provided that the Controller (A) may audit (i) the records of any local agency or school district to verify the actual amount of the mandated costs, (ii) the application of a reasonable reimbursement methodology, or (iii) application of a legislatively enacted reimbursement methodology under Section 17573.(B) may reduce any claim that the Controller determines is excessive or unreasonable, and (C) shall adjust the payment to correct for any underpayments or overpayments which occurred in previous fiscal years. (3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates . (e) (1) Except as specified in paragraph (2), for the purposes of determining the state's payment obligation under paragraph (1) of subdivision (b) of Section 6 of Article XIII B of the Constitution, a mandate that is "determined in a preceding fiscal year to be payable by the state" means any mandate for which the commission adopted a statewide cost estimate pursuant to this part during a previous fiscal year or that were identified as mandates by a predecessor agency to the commission, or that the Legislature declared by statute to be a legislatively determined mandate, unless the mandate has been repealed or otherwise eliminated. (2) If the commission adopts a statewide cost estimate for a mandate during the months of April, May, or June, the state's payment obligation under subdivision (b) of Section 6 of Article XIII B shall commence one year after the time specified in paragraph (1).

GC §17561.5: Payment of Claim with Interest

The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim or, in the case of payment of a subsequent claim relating to that same statute or executive order, if payment is being made more than 60 days after the filing deadline for, or the actual date of receipt of, the subsequent claim, whichever is later. In those instances, interest shall begin to accrue as of the 366th day after adoption of the statewide cost estimate for an initial claim and as of the 61st day after the filing deadline for, or actual date of receipt of, the subsequent claim, whichever is later.

GC §17561.6: Payment

A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

GC §17562: Review of Costs of State-Mandated Local Programs

(a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs. (b) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by October 31 of each fiscal year beginning with the 2007-08 fiscal year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the annual cost of each mandate. In the preceding fiscal year to the amount determined to be payable by the state for that fiscal year. (2) The Controller shall submit a report to the Joint Legislative Budget Committee, the applicable fiscal committees, and the Director of Finance by April 30 of each fiscal year. This report shall summarize, by state mandate, the total amount of unpaid claims by fiscal year that were submitted before April 1 of that fiscal year. The report shall also summarize any mandate deficiencies or surpluses. It shall be made available in an electronic spreadsheet, and shall be used for the purpose of determining the state's payment obligation under paragraph (1) of subdivision (b) of Section 6 of Article XIII B of the California Constitution. (c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified. (d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall report total annual state costs for mandated programs and, as appropriate, provide an analysis of specific mandates and make recommendations on whether the mandate should be repealed, funded, suspended, or modified. (e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year. (2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst. (3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year. (f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following: (1) The reports and recommendations submitted pursuant to subdivision (e). (2) The reports submitted pursuant to Sections

17570, 17600, and 17601. (3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

GC §17563: Use of Funds Received for Public Purpose

Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

GC §17564: Filing of Claims: Threshold Amount

(a) No claim shall be made pursuant to Sections 17551, 17561, or 17573, nor shall any payment be made on claims submitted pursuant to Sections 17551 or 17561, or pursuant to a legislative determination under Section 17573, unless these claims exceed one thousand dollars (\$1,000), provided that a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim. (b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines or reasonable reimbursement methodology and claiming instructions. (c) Claims for direct and indirect costs filed pursuant to a legislatively determined mandate pursuant to Section 17573 shall be filed and paid in the manner prescribed in the Budget Act or other bill, or claiming instructions, if applicable.

GC §17565: Reimbursement of Subsequently Mandated Costs

If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

GC §17567: Insufficiency of Appropriation: Proration of Claims

In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose. In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act.

GC §17568: Payment of Claims Submitted After Deadline

If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount which would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed ten thousand dollars (\$10,000). In no case shall a reimbursement claim be paid which is submitted more than one year after

the deadline specified in Section 17560. Estimated claims which were filed by the deadline specified in that section shall be paid in full before payments are made on estimated claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay the estimated claims approved by the Controller, the Controller shall prorate those claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the commission or the Legislature in the same manner as described in Section 17566 in order to assure appropriation of funds sufficient to pay those claims.

GC §17570: Annual Report to Legislature

The Legislative Analyst shall review each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. Any recommendations by the Legislative Analyst to eliminate or modify the mandates shall be contained in the annual analysis of the Budget Bill prepared by the Legislative Analyst.

GC §17571: Review and Modification of Claiming Instructions

The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

GC §17575: Review of Bills

When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

GC §17576: Determination of Bills by the Legislative Counsel

Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

GC §17577: Amount of Estimates

The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

GC §17578: Amendment of Bills on Floor: Notification by Legislative Counsel

In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

GC §17579: Requirement for New Mandates to Specify Reimbursement Requirements: Appropriations

Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

GC §17581: Conditions for Exemption from Implementation of Statute or Executive Order

(a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) Within 30 days after enactment of the Budget Act, the Department of Finance shall notify local agencies of any statute or executive order, or portion thereof, for which operation of the mandate is suspended because reimbursement is not provided for that fiscal year pursuant to this section and Section 6 of Article XIII B of the California Constitution. (c) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency. (c) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203. (d) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

GC §17581.5 Exemption from Provisions of School Bus Safety II Mandate and School Crimes Reporting II Mandate

(a) A school district may not be required to implement or give effect to the statutes, or portion thereof, identified in subdivision (b) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply: (1) The statute or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution. (2) The statute, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements. (b) This section applies only to the following mandates: (1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997). (2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995). (3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996). (4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

GC §17600: Report on Number of Mandates and Their Costs

At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

GC §17601: Report on Claims Denied

The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

GC §17612: Local Government Claims Bills: Judicial Review of Funding Deletions

(a) Upon receipt of the report submitted by the commission pursuant to Section 17600, funding shall be provided in the subsequent Budget Act for costs incurred in prior years. No funding shall be provided for years in which a mandate is suspended. (b) The Legislature may amend, modify, or supplement the parameters and guidelines for mandates contained in the local government claims bill. If the Legislature amends, modifies, or supplements the parameters and guidelines, reasonable reimbursement methodology, and adopted statewide estimate of costs for the initial claiming period and budget year for mandates contained in the annual Budget Act. If the Legislature amends, modifies, or supplements the parameters and guidelines, reasonable reimbursement methodology, and adopted statewide estimate of costs for the initial claiming period and budget year, it shall make a declaration in a separate legislation specifying the basis for the amendment, modification, or supplement. (c) If the Legislature deletes from a local government claims bill funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement.

GC §17613: Authorization of Augmentation for Mandated Costs

(a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows: (1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill. (2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. (b) No authorization for an augmentation pursuant to this section may be made sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

GC §17615: Legislative Findings and Intent

The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming,

cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers. It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

GC §17615.1: Review of Programs for Inclusion in System

The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and 1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

GC §17615.2: Calculation of Disbursement Amounts

(a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval. (b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

GC §17615.3: Annual Recalculation of Allocation

Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986-87 fiscal year, and each fiscal year thereafter, to establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvене that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter. For purposes of this article, "workload" means, for school districts and county offices of

education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

GC §17615.4: Procedure for Newly Mandated Program

(a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate. (b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System. (c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

GC §17615.5: Procedure Where No Base Year Entitlement Has Been Established

(a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate. (b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

GC §17615.6: Procedure Where Program is No Longer Mandatory

If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

GC §17615.7: Procedure Where Program is Modified

If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

GC §17615.8: Review of Base Year Entitlement

(a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district. (b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments. (c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less. (d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

GC §17615.9: Review of Programs Under SMAS

The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

GC §17616: Audits and Verification by Controller

The Controller shall have the authority to do either or both of the following: (a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited. (b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

GC §17617: Local Agency Payment

The total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2011-12 fiscal year.

OFFICE OF THE STATE CONTROLLER

STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2006-11

ANIMAL ADOPTION 2005

April 3, 2006

Revised January 30, 2009

In accordance with Government Code (GC) section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for filing claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's Parameters and Guidelines (P's & G's) by the Commission on State Mandates (CSM).

On January 25, 2001, the CSM determined that Chapter 752, Statutes of 1998, established costs mandated by the State according to the provisions listed in the P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Eligible Claimants

Any city, county, or city and county, which incurs increased costs, as a direct result of this mandate is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Reimbursement Claims

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim.

An actual claim may be filed by February 15 following the fiscal year in which costs were incurred. If the filing deadline falls on a weekend or holiday, the filing deadline will be the next business day. Since the 15th falls on a weekend in 2009 claims for fiscal year 2007-08 will be accepted without penalty if postmarked or delivered on or before February 17, 2009. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. A claim filed more than one year after the deadline cannot be accepted for reimbursement.

In order for a claim to be considered properly filed, it must include the Indirect Cost Rate Proposal (ICRP) if the indirect cost rate exceeds 10%. A more detailed discussion of the ICRP may be found in Section 8 of the instructions.

Documentation to support actual costs must be kept on hand by the claimant and made available to the SCO upon request as explained in Section 17 of the instructions.

B. Estimated Claims

Pursuant to AB 8, Chapter 6, Statutes of 2008, the option to file estimated claims has been eliminated. Therefore, estimated claims filed on or after February 16, 2008, will not be accepted for reimbursement.

Minimum Claim Cost

GC section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (**\$1,000**), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds **\$1,000**, even if the individual direct service district's or special district's claim does not each exceed **\$1,000**. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a direct service district or special district provides a written notice of its intent to file a separate claim to the county and to the SCO, at least 180 days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities.

A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, notices of order of suspension or revocation, sworn reports, arrest reports, notices to appear, employee time records, or time logs, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, and declarations.

Declarations must include a certification or declaration stating, "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure section 2015.5.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

Certification of Claim

In accordance with the provisions of GC section 17561, an authorized representative of the claimant shall be required to provide a certification of claim stating: "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure section 2015.5, for those costs mandated by the State and contained herein.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the CSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

Pursuant to GC section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the SCO no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents shall be made available to the SCO on request.

Retention of Claiming Instructions

The claiming instructions and forms in this package should be retained permanently in your Mandated Cost Manual for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

Questions or requests for hard copies of these instructions should be faxed to Angie Teng at (916) 323-6527, or e-mailed to **LRS DAR@sc o.ca.gov**. Or, if you wish, you may call the Local Reimbursements Section at (916) 324-5729.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at <http://www.sco.ca.gov/ard/local/locreim/index.shtml>.

Address for Filing Claims

Claims should be rounded to the nearest dollar. Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms and supporting documents. **(To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)** Use the following mailing addresses:

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive "necessary and prompt veterinary care."

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or

(b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

The period of reimbursement for the activities in this parameters and guidelines amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years’ costs shall be submitted within

120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) (8) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the

pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Formula for Proportionate Share of Actual Costs:

Where:

(A) = Shelter square footage, 1998

(B) = Total animal average daily census (ADC), 1998

(C) = Square footage per ADC, 1998 (=A/B)

(D) = Total dog/cat ADC, 1998

(E) = Shelter square footage, claim year

(F) = Total dog/cat ADC, claim year

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(I) = Eligible dog/cat square footage, claim year

For shelters that meet the conditions of to Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:¹

$$(I) = 2/5 \times C \times F$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(I) = 4/7 \times C \times F$$

(J) = Reduction in eligible square footage due to decline in total dog/cat population (cannot exceed 0)

For shelters that meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:²

$$(J) = [(F/5 - D/3 \times C \times D) / (D/3)]$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(J) = [(F/7 - D/3) \times C \times D] / (D/3)$$

(K) = Net eligible dog/cat square footage (cannot be less than 0)

$$(K = I+J)$$

(L) = Percentage of eligible dog/cat ADC, claim year (L = G/F)

(M) = Allowable dog/cat square footage (M = K x L)

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31573 (N = C x H)

(P) = Eligible percentage of acquisition/construction costs (cannot exceed 100%) [P = (M+N) / ((E-A)]

Statutes 2004, chapter 313 specifies that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. The mandate reimburses for costs required due to the

¹ In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

² In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

increased holding period required by Statutes 1998, chapter 752. In calculating net eligible dog/cat square footage, the formula recognizes that a decline in the number of animals sheltered may offset the effect of the increased holding period. For example, if the dog/cat average daily census does not change between the 1998 base year and the claim year, there is no additional square footage required.

The mandate reimburses only for costs attributable to eligible animals. Prior to Statutes 1998, chapter 752, shelters were required to hold dogs and cats for three days, whereas there was no required holding period for other animals. Therefore, the mandate reimbursable percentage formula separately calculates allowable square footage for dogs and cats, and allowable square footage for other animals specified by Food and Agricultural Code section 31753.

Acquisition/construction costs that are less than or equal to the cost of contract services for eligible animals are reimbursable.

Claimants may recalculate the eligible percentage of acquisition/construction costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.1, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the

holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;

- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holding period required by Statutes 1998, chapter 752; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes 1998, chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holder period required by Statutes 1998, chapter 752. This finding should include the cost to contract with existing shelters..

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire

holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Since the remodeling/renovation will not increase square footage to address existing overcrowding or future growth issues, the mandate reimbursable percentage formula for remodeling/renovation would exclude the eligible percentage of square footage factor.

Formula for proportionate share of actual remodeling/renovation costs:

(A) = Shelter square footage

(B) = Total animal average daily census (ADC), claim year

(C) = Square footage per ADC, claim year ($C = A/B$)

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(M) = Eligible dog/cat square footage, claim year

For shelters that meet the requirements of Food and Agricultural Code section 31108 (a)(1) or (2) for dogs, and section 31752 (a)(1) or (2) for cats, $M = 2/5 \times C \times G$.

For shelters that do not meet the requirements of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats, $M = 4/7 \times C \times G$.

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31753, claim year ($N = C \times H$)

(P) = Eligible percentage of remodeling/renovation costs

$[P = (M + N) / A]$

Claimants may recalculate the eligible percentage of remodeling/renovation costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The

determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.2, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities to comply with the increased holding period required by Statutes 1998, chapter 752.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished dogs and cats; and
- Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of all dogs and cats impounded at a facility. For purposes of claiming reimbursement under IV.B.3, average daily census is defined as the average number of all dogs and cats at a facility housed on any given day, in a 365-day period..
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die

during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
 - b) Account for the total activity for which each employee is compensated;
 - c) Account for the total labor hours of the month;
 - d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
 - e) Document, by signature or initials and date, supervisor approval.
3. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by

each reimbursable day (four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

4. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

5. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

6. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

7. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and

- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

8. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);

- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injured cats and dogs (Pen. Code, § 597f, subd. (b));
- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates

attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB Circular A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections,

and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter³ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of

³ This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section 31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the revised parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the revised parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the revised parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

In accordance with the provisions of Government Code § 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.				
I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein; and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.				
The amounts for the Reimbursement Claim are hereby claimed from the State for payment of actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Program 213	ANIMAL ADOPTION Certification Claim Form Instructions	FORM FAM-27
------------------------------	--	------------------------------

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) Leave blank.
- (04) Leave blank.
- (05) Leave blank.
- (06) Leave blank.
- (07) Leave blank.
- (08) Leave blank.
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim from Form-1.1, line (11). The total claimed amount must exceed \$1,000.
- (14) Reimbursement claims must be filed by **February 15** of the following fiscal year in which costs were incurred or the claims will be reduced by a late penalty. Enter zero if the claim was timely filed, otherwise, enter the product of multiplying line (13) by the factor 0.10 (10% penalty), not to exceed \$10,000.
- (15) If filing a reimbursement claim or a claim was previously filed for the same fiscal year, enter the amount received for the claim. Otherwise, enter a zero.
- (16) Enter the result of subtracting line (14) and line (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (28) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (28) for the reimbursement claim, e.g., Form-1, (04)(A)(1)(g), means the information is located on Form-1, block (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 35.19% should be shown as 35. **Completion of this data block will expedite the payment process.**
- (37) Read the statement "Certification of Claim." If it is true, the claim must be dated, signed by the agency's authorized officer, and must include the person's name and title, typed or printed. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the person to contact if additional information is required.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS AND SUPPORTING DOCUMENTS TO:

Address, if delivered by U.S. Postal Service:

(11) Total Claimed Amount	[Line (08) - {(line (09) + line (10))}]	

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM 1
------------------------	---	-------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year of costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form-1 should be completed for each department.
- (04) Reimbursable Activities. For each reimbursable activity, enter the total from Form-2, line (05), columns (d) through (i) to Form-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Total Indirect Costs. If the 10% flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by the Indirect Cost Rate, line (06). If an ICRP is submitted and both salaries and benefits were used in the distribution base for the computation of the indirect cost rate, then multiply the sum of Total Salaries, line (05)(a), and Total Benefits, line (05)(b), by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements. Reimbursement received from any source shall be identified and deducted from this claim. Sources shall include, but are not limited to, rewards received under authority of Civil Code section 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f, and other state funds, and federal funds. Fees and fines received pursuant to Food & Agriculture Code section 30652 shall be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION ACTIVITY COST DETAIL INSTRUCTIONS	FORM 2
---	--	--

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form-2 should be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Activities. Check the box which indicates the cost activity being claimed. Check only one box per form. A separate Form -2 shall be prepared for each applicable activity.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the activity box "checked" in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit shall be from the date of initial payment of the claim. Such documents shall be made available to the State Controller's Office on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	
Salaries	Employee Name/Title	Hourly Rate	Hours Worked	Salaries = Hourly Rate x Hours Worked					
Benefits	Activities Performed	Benefit Rate		Benefits = Benefit Rate x Salaries					
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost x Quantity Used				
Contract Services	Name of Contractor Specific Tasks Performed	Hourly Rate	Hours Worked Inclusive Dates of Service			Cost = Hourly Rate x Hours Worked			Copy of Contract
Fixed Assets	Description of Equipment Purchased	Unit Cost	Usage				Cost = Unit Cost x Usage		Supporting Documentation
Travel and Training	Purpose of Trip Name and Title	Per Diem Rate	Days					Cost = Rate x Days or Miles	
Travel	Departure and Return Date	Mileage Rate Travel Cost	Miles Travel Mode					or Total Travel Cost	
Training	Employee Name/Title Name of Class		Dates Attended					Registration Fee	

- (05) Total line (04), columns (d) through (i) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the activity costs, number each page. Enter totals from line (05), columns (d) through (i) to Form-1, block (04), columns (a) through (f) in the appropriate row.

*Commission on
State Mandates*

FILING A CLAIM

1. Introduction

The law in the State of California (Government Code Sections 17500 through 17616) provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. These are costs that local agencies are required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

A reimbursement claim is defined in GC Section 17522 as any claim filed with SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. An actual claim for the 2008-09 fiscal year, may be filed by February 16, 2010, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline will not be accepted by the SCO.

In order for a claim to be considered properly filed, it must include documentation to support the indirect cost rate. A full discussion of the indirect cost methods available to local agencies may be found in Section 8 of these instructions.

When a program has been reimbursed for three or more years, the Commission may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement are not required to file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

These claiming instructions are issued to help claimants prepare paper, and electronic mandated cost claims, for submission to SCO. These instructions are based upon the State of California statutes, regulations, and parameters and guidelines (P's & G's) adopted by the Commission. Since each mandate is administered separately, it is important to refer to the specific program for information relating to established policies on eligible reimbursable costs.

2. Local Government Electronic Claims (LGeC)

LGeC enables claimants and their consultants to securely prepare and submit mandated cost claims via the Internet. LGeC uses a series of data input screens to collect the information needed to prepare a claim and also provides a web service so claims can be uploaded in batch files. LGeC also incorporates an attachment feature so claimants can electronically attach supporting documentation if required. In order for a claim to be considered properly filed it must include a copy of the Indirect Cost Rate Proposal (ICRP) if the indirect cost rate exceeds ten percent.

The LGeC system provides an easy and straightforward approach to the claiming process. Filing claims using LGeC eliminates the manual preparation and submission of paper claims by the locals and the receiving, processing, key entry, verification, and storage of paper claims by the SCO. LGeC also provides mathematical checks and automated error detection to reduce erroneous and incomplete claims, provides the state with an electronic workflow process, and

stores the claims in an electronic format. Making the change from paper claims to electronic claims reduces the manual handling of paper claims and decreases the costs incurred by local entities for handling, postage, and storage of claims filed using the LGeC system.

In order to use the LGeC system you will need to obtain a user ID and password for each person who will access the LGeC system. To obtain a User ID and password you must file an application with the SCO. The application and instructions are available on the LGeC Web site located at http://www.sco.ca.gov/ard_lgec.html. Complete the application and other documents as requested and mail them to the SCO using the address provided on the form. The SCO will process the application and issue a User ID and password to each applicant.

In addition, you may want to subscribe to an email distribution list to automatically receive timely, comprehensive information regarding mandated cost claim receipts, payments, test claims, guidelines, electronic claims, and other news and updates. You also will receive related audit reports and mandate information disseminated by other state agencies.

You can find more information about LGeC and the email distribution lists at http://www.sco.ca.gov/ard_lgec.html. This Web site provides access to the LGeC system, an application for User ID's and passwords, an instructional guide, frequently ask questions (FAQ's) and additional help files. Questions may be directed to LRS DAR@sco.ca.gov, or you may call Local Reimbursements Section, Local Government e-Claims at (916) 324-5729.

3. Types of Claims

Claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment, which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal year(s) of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual ongoing reimbursement claims must be filed by February 15th following the fiscal year in which costs were incurred for the program. Claims for fiscal year 2008-09 will be accepted without late penalty if postmarked or delivered on before February 16th, 2010. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the claim. Claims filed more than one year after the deadline will not be accepted for reimbursement.

In order for a claim to be considered properly filed, it must include the Indirect Cost Rate Proposal (ICRP) to support the indirect cost rate if the indirect cost rate exceeds ten percent. A more detailed discussion of the indirect cost methods available to local agencies may be found in Section 2, Filing a Claim, Page 11 of these instructions.

B. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a Local Agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by February 15, following the third fiscal year used to develop the entitlement claim, to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs.

The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the IPD of costs of goods and services to governmental agencies, as determined by the State Department of Finance. For programs approved by CSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three year in base period is adjusted according to any changes by both the IPD and average daily attendance (ADA).

SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. The form FAM-43 is included in the claiming instructions for SMAS programs. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

4. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides to the county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

5. Filing Deadline for Claims

Pursuant to GC Section 17561(d) initial reimbursement claims (first time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date SCO issues the claiming instructions for the program.

When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs.

All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty.

Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid.

In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates.

Pursuant to GC Section 17560, annual reimbursement claims (recurring claims) for costs incurred during the previous fiscal year must be filed with SCO and postmarked on or before February 15th following the fiscal year in which costs were incurred. Claims for fiscal 2008-09 will be accepted without penalty if postmarked or delivered on before February 16, 2010.

If the annual reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline cannot be accepted for reimbursement.

Entitlement claims do not have a filing deadline. However, entitlement claims should be filed by February 15th to permit orderly processing of the claims.

6. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer. When using the LGeC system the logon id and password of the authorized officer is used for the signature and is applied by the LGeC system when the claim is submitted. Pursuant to GC 17561(d), reimbursement claims are paid by October 15 or sixty days after the date the appropriation for the claim is effective, whichever is later. In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than one year after the adoption of the program's statewide cost estimate. SCO may withhold up to twenty percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs.

SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each House of the Legislature, who consider appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the Commission which will include these amounts in its report to assure that an appropriation is sufficient to pay the claims that was included in the next local government claims bill or other appropriation bills. When the supplementary funds become available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or P's & G's, the determination of allowable and unallowable costs for mandates is based on the P's & G's adopted by the Commission. The

determination of allowable reimbursable mandated costs for unfunded mandates is made by the Commission. SCO determines allowable reimbursable costs, subject to amendment by the Commission, for mandates funded by special legislation. Allowable costs are those direct and indirect costs, less applicable credits, considered eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carry out the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the P's & G's.
3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, should not be claimed as direct program costs unless specified as reimbursable under the program's P's & G's. These costs include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops, general education, and travel costs.

7. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the Commission.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each local agency that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the Commission's approval.

Each local agency with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, workload means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a local agency has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the local agency may file an entitlement claim for each of those missed years to establish a base year entitlement. An entitlement claim means any claim filed by a local agency with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30th. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the local agency determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based is set forth in GC Section 17615.8 and requires the approval of the Commission.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66
Senior Citizens Property Tax Postponement	Ch. 1242/77	18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

8. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claimant must maintain documentation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula: $[(EAS + Benefits) \div APH] = PHR$ $[(\$26,000 + \$8,099)] \div 1,800 \text{ hrs} = 18.94$	Description: EAS = Employee's Annual Salary APH = Annual Productive Hours PHR = Productive Hourly Rate
---	--

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to Annual Salary, multiply the biweekly salary by 26. To convert a monthly salary to Annual Salary, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.
2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: $[(EAS \times (1 + FBR)) \div APH] = PHR$ $[(\$26,000 \times (1.3115)) \div 1,800] = \18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.
- Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:
- The amount of compensation is reasonable for the service rendered.
 - The compensation paid and benefits received are appropriately authorized by the governing board.
 - Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
 - The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is $\$45.88 \div 5.50 \text{ hrs.} = \8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them. For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the

number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance ($\$9.50 \div 25$).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The

contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

9. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered expenses related to general government and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) Circular A-87 (Title 2 CFR Part 225). A

cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of Office of Management and Budget OMB Circular A-87 (Title 2 CFR Part 225.) (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits. The use of the 10% rate may benefit small agencies where it is inefficient to prepare an ICRP.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee

Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the Office of Management and Budget (OMB) Circular A-87 (Title 2 CFR Part 225), *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

**INDIRECT COST RATE PROPOSAL

Total	\$ 170,000 (E)	\$ 9,000	\$ 70,000	\$ 91,000	\$ 4,000	\$ 87,000
Total Allocable Indirect Costs			\$ 300,000 (F)			
Distribution of Allocable Indirect Costs						
Based on Salaries & Wages		\$ 15,000	\$ (300,000)	\$ 285,000	\$ 30,000	\$ 255,000
Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

10. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a formula for reimbursing local agency and school district costs mandated by the state that meets certain conditions specified in GC Section 17518.5(a). These costs can only be substituted for continuous records of actual time spend for a specific fiscal year if the program's P's & G's allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

P's & G's define reimbursable activities for each mandated cost program. When employees work on multiple activities, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards:

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs;
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's parameters and guidelines, which are derived from the program's Statement of Decision. If a reimbursable activity in the parameters and guidelines identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities;

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity;
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study;
- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations;

- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's P's & G's specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's P's & G's specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping

requirements for those claims.

11. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approved costs. In (2), the entire program cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

CETA, PL 93-203	Federal-Health – Administration
Federal Aid for Construction	Federal-Public Assistance – Administration
Federal Aid for Disaster	

State Programs

State Aid for Agriculture	State-Health – Administration
State Aid for Construction	State-Public Assistance - Administration
State Aid for Corrections	

12. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. Claimants will receive a *Notice of Claim Adjustments* detailing adjustments made by the SCO.

13. Audit of Costs

Pursuant to GC Section 17558.5, Subdivision (b), the SCO may conduct a field review of any claim after it has been submitted, prior to the reimbursement of the claim to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with SCO’s claiming instructions and the P’s & G’s adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

14. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure Section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, an RRM can be used for reimbursing local agency that meets certain conditions specified in 17518.5(a).

15. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2 provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file a reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the claims.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the entity. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 are required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment. **To expedite the payment process, please sign the FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

16. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard_mancost.html.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

17. Retention of Claim Records and Supporting Documentation

Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by local agency pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit will be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities must be retained during the period subject to audit. If the Controller has initiated an audit during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents shall be made available to SCO on request.

A. STATE OF CALIFORNIA TRAVEL EXPENSE GUIDELINES

Travel Program Effective January 31, 2002

The travel reimbursement program continues to be subject to the Internal Revenue Service (IRS) requirements for an accountable plan. There are no flat rate reimbursements. All items are to be claimed for the actual amount of expense, up to the maximum allowed. If the provisions below do not require submission of a receipt for a given item of expense, it is the employee's responsibility to retain receipts and other records of the expense and have them available for audit.

Lodging and meals that are provided by the State, including hotel expenses, conference fees, or transportation costs such as airline tickets; or otherwise provided shall not be claimed for reimbursement.

Employees may be reimbursed for actual expenses for breakfast, lunch, dinner, and incidentals for each 24 hours of travel, as follows:

Breakfast	up to	\$ 6.00
Lunch	up to	10.00
Dinner	up to	18.00
Incidentals	up to	6.00

Incidental expenses include, but are not limited to, expenses for laundering and pressing of clothing and tips for services such as porters and baggage handlers. Incidentals do not include taxicab fares, lodging taxes, or the cost of telegrams or telephone calls.

Lodging

All lodging reimbursements require a receipt from a commercial lodging establishment such as a hotel, motel, bed and breakfast inn, or campground that caters to the general public. No lodging will be reimbursed without a valid receipt. Employees who stay with friends or relatives are not eligible for lodging reimbursement, but may claim their actual expenses for meals and incidentals.

Short-Term Travel

A. For continuous short-term travel of more than 24 hours but less than 31 days, the employee will be reimbursed for actual costs up to the maximum for each meal, incidental, and lodging expense for each completed 24 hours of travel, beginning with the traveler's time of departure and return as follows:

1. On the first day of travel at the beginning of a trip of more than 24 hours:
 - Trip begins at or before 6 a.m. - Breakfast may be claimed
 - Trip begins at or before 11 a.m. - Lunch may be claimed
 - Trip begins at or before 5 p.m. - Dinner may be claimed
2. On the fractional day of travel at the end of a trip of more than 24 hours:
 - Trip ends at or after 8 a.m. - Breakfast may be claimed
 - Trip ends at or after 2 p.m. - Lunch may be claimed
 - Trip ends at or after 7 p.m. - Dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expenses may be claimed or reimbursed more than once on any given date or during any 24-hour period.

- B.** For continuous travel of less than 24 hours, the employee will be reimbursed for actual expenses, up to a maximum as follows:

Travel begins at or before 6 a.m. and ends at or after 9 a.m. - Breakfast may be claimed
Travel begins at or before 4 p.m. and ends at or after 7 p.m. - Dinner may be claimed

If the trip extends overnight, receipted lodging may be claimed. No lunch or incidentals may be claimed on a trip of less than 24 hours.

Short-Term Travel Maximum Lodging Reimbursement Rate

- A.** Statewide except as in (B) and (C) below, actual receipted lodging up to \$84 plus tax.
- B.** When required to conduct state business and obtain lodging in the counties of Los Angeles and San Diego, reimbursement will be for actual receipted lodging, to a maximum of \$110 plus tax.
- C.** When required to conduct state business and obtain lodging in the counties of Alameda, San Francisco, San Mateo, and Santa Clara, reimbursement will be for actual receipted lodging, to a maximum of \$140 plus tax.

Long-Term Travel

Actual expenses for long-term meals and receipted lodging will be reimbursed when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

A. Full Long-Term Travel

To qualify for full long-term travel reimbursement, the employee on a long-term field assignment must meet the following criteria:

- a) The employee continues to maintain a permanent residence at the primary headquarters, and either,
- b) The permanent residence is occupied by the employee's dependents, or
- c) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

The employee who is living at the long-term location may claim either:

1. Reimbursement for actual individual expense, substantiated by receipts for lodging, water, sewer, gas, and electricity, up to a maximum of \$1,130 per calendar month while on the long-term assignment, and actual expenses up to \$10 for meals and incidentals, for each period of 12 to 24 hours and up to \$5 for actual meals and incidentals for each period of less than 12 hours at the long-term location, or
2. Long-term subsistence rates of \$24 for actual meals and incidentals, \$24 for receipted lodging for travel of 12 hours up to 24 hours, and either \$24 for actual meals or \$24 for receipted lodging for travel less than 12 hours when the employee incurs expenses in one location comparable to those arising from the use of establishments catering to long-term visitors.

B. Partial Long-Term Travel

An employee on long-term field assignment who does not maintain a separate residence in the headquarters area may claim long-term subsistence rates of up to \$12 for actual meals and incidentals and \$12 for receipted lodging for travel of 12 hours up to 24 hours at the long-term location, and either \$12 for actual meals or \$12 for receipted lodging for travel less than 12 hours at the long-term location.

Receipts

Receipts or vouchers shall be submitted for every item of expense of \$25 or more.

- a) Receipts are required for every item of transportation and business expense incurred as a result of conducting state business except for actual expenses as follows:
 1. Railroad and bus fares of less than \$25, when travel is wholly within the State of California.
 2. Street car, ferry fares, bridge and road tolls, local rapid transit system, taxi, shuttle, or hotel bus fares, and parking fees of \$10 or less for each continuous period of parking or each separate transportation expense noted in this item.
 3. Telephone, telegraph, tax, or other business charges related to state business of \$5 or less.
 4. In the absence of a receipt, reimbursement will be limited to the non-receipted amount above.
- b) Reimbursement will be claimed only for the actual and necessary expenses noted above. Regardless of the above exceptions, the approving officer may require additional certification and/or explanation in order to determine that an expense was actually and reasonably incurred. In the absence of a satisfactory explanation, the expense shall not be allowed.

Mileage

When an employee is authorized by his/her appointing authority or designee to operate a privately owned vehicle on state business, effective January 1, 2009, the employee will be allowed to claim and be reimbursed 55 cents per mile.

B. GOVERNMENT CODE SECTIONS 17500-17617

17500. The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for the costs of state mandated local programs has not provided for the effective determination of the state's responsibilities under Section 6 of Article XIII B of the California Constitution. The Legislature finds and declares that the failure of the existing process to adequately and consistently resolve the complex legal questions involved in the determination of state-mandated costs has led to an increasing reliance by local agencies and school districts on the judiciary and, therefore, in order to relieve unnecessary congestion of the judicial system, it is necessary to create a mechanism which is capable of rendering sound quasi-judicial decisions and providing an effective means of resolving disputes over the existence of state-mandated local programs. It is the intent of the Legislature in enacting this part to provide for the implementation of Section 6 of Article XIII B of the California Constitution. Further, the Legislature intends that the Commission on State Mandates, as a quasi-judicial body, will act in a deliberative manner in accordance with the requirements of Section 6 of Article XIII B of the California Constitution.

Government Code Sections 17510-17524

17510. Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this part. The definition of a word applies to any variants thereof and the singular tense of a word includes the plural.

17511. "City" means any city whether general law or charter, except a city and county.

17512. "Commission" means the Commission on State Mandates.

17513. "Costs mandated by the federal government" means any increased costs incurred by a local agency or school district after January 1, 1973, in order to comply with the requirements of a federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact that law or regulation to meet specific federal program or service requirements imposed upon the state would result in substantial monetary penalties or loss of funds to public or private persons in the state whether the federal law was enacted before or after the enactment of the state law, regulation, or executive order. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

17514. "Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

17515. "County" means any chartered or general law county. "County" includes a city and county.

17516. "Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following:

- (a) The Governor.
- (b) Any officer or official serving at the pleasure of the Governor.
- (c) Any agency, department, board, or commission of state government.

"Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs

unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

17517.5. "Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

17518. "Local agency" means any city, county, special district, authority, or other political subdivision of the state.

17518.5. (a) "Reasonable reimbursement methodology" means a formula for reimbursing local agencies and school districts for costs mandated by the state, as defined in Section 17514.

(b) A reasonable reimbursement methodology shall be based on cost information from a representative sample of eligible claimants, information provided by associations of local agencies and school districts, or other projections of local costs.

(c) A reasonable reimbursement methodology shall consider the variation in costs among local agencies and school districts to implement the mandate in a cost-efficient manner.

(d) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years.

(e) A reasonable reimbursement methodology may be developed by any of the following:

- (1) The Department of Finance.
- (2) The Controller.
- (3) An affected state agency.
- (4) A claimant.
- (5) An interested party.

17519. "School district" means any school district, community college district, or county superintendent of schools.

17520. "Special district" means any agency of the state that performs governmental or proprietary functions within limited boundaries. "Special district" includes a county service area, a maintenance district or area, an improvement district or improvement zone, or any other zone or area. "Special district" does not include a city, a county, a school district, or a community college district.

County free libraries established pursuant to Chapter 6 (commencing with Section 19100 of Part 11 of the Education Code, areas receiving county fire protection services pursuant to Section 25643 of the Government Code, and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code shall be considered "special districts" for all purposes of this part.

17521. "Test claim" means the first claim filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state, and includes a claim filed pursuant to Section 17574.

17521.5. "Legislatively determined mandate" means the provisions of a statute or executive order that the Legislature, pursuant to Article 1.5, has declared by statute to be a mandate for which reimbursement is required by Section 6 of Article XIII B of the California Constitution.

17522. (a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558.

(b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose.

(c) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

17523. "Deflator" means the Implicit Price Deflator for the Costs of Goods and Services to Governmental Agencies, as determined by the Department of Finance.

17524. "Base year entitlement" means that amount determined to be the average for the approved reimbursement claims of each local agency or school district for the three preceding fiscal years adjusted by the change in the deflator. A base year entitlement shall not include any nonrecurring or initial startup costs incurred by a local agency or school district in any of those three fiscal years. For those mandates which become operative on January 1 of any year, the amount of the "approved reimbursement claim" for the first of the three years may be computed by annualizing the amount claimed for the six-month period of January through June in that first year, excluding nonrecurring or startup costs.

Government Code Sections 17525-17533

17525. (a) There is hereby created the Commission on State Mandates, which shall consist of seven members as follows:

(1) The Controller.

(2) The Treasurer.

(3) The Director of Finance.

(4) The Director of the Office of Planning and Research.

(5) A public member with experience in public finance, appointed by the Governor and approved by the Senate.

(6) Two members from the following three categories appointed by the Governor and approved by the Senate, provided that no more than one member shall come from the same category:

(A) A city council member.

(B) A member of a county or city and county board of supervisors.

(C) A governing board member of a school district as defined in Section 17519.

(b) Each member appointed pursuant to paragraph (5) or (6) of subdivision (a) shall be subject to both of the following:

(1) The member shall serve for a term of four years subject to renewal.

(2) The member shall receive per diem of one hundred dollars (\$100) for each day actually spent in the discharge of official duties and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of duties as a member of the commission.

17526. (a) All meetings of the commission shall be open to the public, except that the commission may meet in executive session to consider the appointment or dismissal of officers or employees of the commission or to hear complaints or charges brought against a member, officer, or employee of the commission.

(b) The commission shall meet at least once every two months.

(c) The time and place of meetings may be set by resolution of the commission, by written petition of a majority of the members, or by written call of the chairperson. The chairperson may, for good cause, change the starting time or place, reschedule, or cancel any meeting.

17527. In carrying out its duties and responsibilities, the commission shall have the following powers:

(a) To examine any document, report, or data, including computer programs and data files, held by any local agency or school district.

- (b) To meet at times and places as it may deem proper.
- (c) As a body or, on the authorization of the commission, as a committee composed of one or more members, to hold hearings at any time and place it may deem proper.
- (d) Upon a majority vote of the commission, to issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports, and documents.
- (e) To administer oaths.
- (f) To contract with other agencies or individuals, public or private, as it deems necessary, to provide or prepare services, facilities, studies, and reports to the commission as will assist it in carrying out its duties and responsibilities.
- (g) To adopt, promulgate, amend, and rescind rules and regulations, which shall not be subject to the review and approval of the Office of Administrative Law pursuant to the provisions of the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2.
- (h) To do any and all other actions necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted to it.

17528. The members of the commission shall elect a chairperson and a vice chairperson of the commission.

17529. The commission may appoint as attorney to the commission an attorney at law of this state, who shall hold office at the pleasure of the commission. The attorney shall represent and appear for the commission in all actions and proceedings involving any question under this part or under any order or act of the commission.

The attorney shall advise the commission and each member of the commission, when so requested, in regard to all matters in connection with the powers and duties of the commission and the members thereof. The attorney shall generally perform all duties and services as attorney to the commission which the commission may require.

17530. The commission shall appoint an executive director, who shall be exempt from civil service and shall hold office at the pleasure of the commission. The executive director shall be responsible for the executive and administrative duties of the commission and shall organize, coordinate, supervise, and direct the operations and affairs of the commission and expedite all matters within the jurisdiction of the commission. The executive director shall keep a full and true record of all proceedings of the commission, issue all necessary process, writs, warrants, and notices, and perform other duties as the commission prescribes.

17531. The executive director may employ those officers, examiners, experts, statisticians, accountants, inspectors, clerks, and employees as the executive director deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred upon the commission by law.

17532. A majority of the commissioners shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his or her or their behalf, by an examiner designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, shall be deemed to be the finding, opinion, and order of the commission.

17533. Notwithstanding Section 11425.10, Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 does not apply to a hearing by the commission under this part. 17550-17571 17550. Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

17551. (a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

(b) Except as provided in Sections 17573 and 17574, commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section.

(c) Local agency and school district test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later.

(d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

17552. This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

17553. (a) The commission shall adopt procedures for receiving claims filed pursuant to this article and Section 17574 and for providing a hearing on those claims. The procedures shall do all of the following:

(1) Provide for presentation of evidence by the claimant, the Department of Finance, and any other affected department or agency, and any other interested person.

(2) Ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission.

(3) Permit the hearing of a claim to be postponed at the request of the claimant, without prejudice, until the next scheduled hearing.

(b) All test claims shall be filed on a form prescribed by the commission and shall contain at least the following elements and documents:

(1) A written narrative that identifies the specific sections of statutes or executive orders and the effective date and register number of regulations alleged to contain a mandate and shall include all of the following:

(A) A detailed description of the new activities and costs that arise from the mandate.

(B) A detailed description of existing activities and costs that are modified by the mandate.

(C) The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate.

(D) The actual or estimated annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed.

(E) A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed.

(F) Identification of all of the following:

(i) Dedicated state funds appropriated for this program.

(ii) Dedicated federal funds appropriated for this program.

(iii) Other nonlocal agency funds dedicated for this program.

(iv) The local agency's general purpose funds for this program.

(v) Fee authority to offset the costs of this program.

(G) Identification of prior mandate determinations made by the Commission on State Mandates or a predecessor agency that may be related to the alleged mandate.

(H) Identification of a legislatively determined mandate pursuant to Section 17573 that is on the same statute or executive order.

(2) The written narrative shall be supported with declarations under penalty of perjury, based on the declarant's personal knowledge, information, or belief, and signed by persons who are authorized and competent to do so, as follows:

(A) Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate.

(B) Declarations identifying all local, state, or federal funds, or fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs.

(C) Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program. Specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program.

(D) If applicable, declarations describing the period of reimbursement and payments received for full reimbursement of costs for a legislatively determined mandate pursuant to Section 17573, and the authority to file a test claim pursuant to paragraph (1) of subdivision (c) of Section 17574.

(3) (A) The written narrative shall be supported with copies of all of the following:

(i) The test claim statute that includes the bill number or executive order, alleged to impose or impact a mandate.

(ii) Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate.

(iii) Administrative decisions and court decisions cited in the narrative.

(B) State mandate determinations made by the Commission on State Mandates or a predecessor agency and published court decisions on state mandate determinations made by the Commission on State Mandates are exempt from this requirement.

(4) A test claim shall be signed at the end of the document, under penalty of perjury by the claimant or its authorized representative, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge, information, or belief. The date of signing, the declarant's title, address, telephone number, facsimile machine telephone number, and electronic mail address shall be included.

(c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order.

(d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have 30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission.

17554. With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553. The authority granted by this section includes the consolidation of claims and the shortening of time periods.

17555. (a) Not later than 30 days after hearing and deciding upon a test claim pursuant to subdivision (a) of Section 17551, and determining the amount to be subvended to local agencies and school districts for reimbursement pursuant to subdivision (a) of Section 17557, the commission shall notify the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, the Department of Finance, and the Controller of that decision. (b) For purposes of this section, the "appropriate policy committee" means the policy committee that has jurisdiction over the subject matter of the statute, regulation, or executive order, and in which bills relating to that subject matter would have been heard.

17556. The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds any one of the following:

(a) The claim is submitted by a local agency or school district that requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or

school district that requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this subdivision.

(b) The statute or executive order affirmed for the state a mandate that had been declared existing law or regulation by action of the courts.

(c) The statute or executive order imposes a requirement that is mandated by a federal law or regulation and results in costs mandated by the federal government, unless the statute or executive order mandates costs that exceed the mandate in that federal law or regulation. This subdivision applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued.

(d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

(e) The statute, executive order, or an appropriation in a Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate.

(f) The statute or executive order imposes duties that are necessary to implement, reasonably within the scope of, or expressly included in, a ballot measure approved by the voters in a statewide or local election. This subdivision applies regardless of whether the statute or executive order was enacted or adopted before or after the date on which the ballot measure was approved by the voters.

(g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

17557. (a) If the commission determines there are costs mandated by the state pursuant to Section 17551, it shall determine the amount to be subvented to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 30 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 30-day period at any time prior to its adoption of the parameters and guidelines. If proposed parameters and guidelines are not submitted within the 30-day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 30-day period is justified.

(b) In adopting parameters and guidelines, the commission may adopt a reasonable reimbursement methodology.

(c) The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for costs incurred. However, the commission may not specify in the parameters and guidelines any fiscal year for which payment could be provided in the annual Budget Act.

(d) A local agency, school district, or the state may file a written request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines. A parameters and guidelines amendment submitted within 90 days of the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, shall apply to all years eligible for reimbursement as defined in the original parameters and guidelines. A parameters and guidelines amendment filed more than 90 days after the claiming deadline for initial claims, as specified in the claiming instructions pursuant to Section 17561, and on or before the claiming deadline following a fiscal year, shall establish reimbursement eligibility for that fiscal year.

(e) A test claim shall be submitted on or before June 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year. The claimant may thereafter amend the test claim at any time, but before the test claim is set for a hearing, without affecting the original filing date as long as the amendment substantially relates to the original test claim.

(f) In adopting parameters and guidelines, the commission shall consult with the Department of Finance, the affected state agency, the Controller, the fiscal and policy committees of the Assembly and Senate, the

Legislative Analyst, and the claimants to consider a reasonable reimbursement methodology that balances accuracy with simplicity.

17557.1. (a) Notwithstanding any other provision of this part, within 30 days of the commission's adoption of a statement of decision on a test claim, the test claimant and the Department of Finance may notify the executive director of the commission in writing of their intent to follow the process described in this section to develop a reasonable reimbursement methodology and statewide estimate of costs for the initial claiming period and budget year for reimbursement of costs mandated by the state in accordance with the statement of decision. The letter of intent shall include the date on which the test claimant and the Department of Finance will submit a plan to ensure that costs from a representative sample of eligible local agency or school district claimants are considered in the development of a reasonable reimbursement methodology.

(b) This plan shall also include all of the following information:

(1) The date on which the test claimant and Department of Finance will provide to the executive director an informational update regarding their progress in developing the reasonable reimbursement methodology.

(2) The date on which the test claimant and Department of Finance will submit to the executive director the draft reasonable reimbursement methodology and proposed statewide estimate of costs for the initial claiming period and budget year. This date shall be no later than 180 days after the date the letter of intent is sent by the test claimant and Department of Finance to the executive director.

(c) At the request of the test claimant and Department of Finance, the executive director may provide for up to four extensions of this 180-day period.

(d) The test claimant or Department of Finance may notify the executive director at any time that the claimant or Department of Finance no longer intends to develop a reasonable reimbursement methodology pursuant to this section. In this case, paragraph (2) of subdivision (a) of Section 17553 and Section 17557 shall apply to the test claim. Upon receipt of this notification, the executive director shall notify the test claimant of the duty to submit proposed parameters and guidelines within 30 days under subdivision (a) of Section 17557.

17557.2. (a) A reasonable reimbursement methodology developed pursuant to Section 17557.1 or a joint request for early termination of a reasonable reimbursement methodology shall have broad support from a wide range of local agencies or school districts. The test claimant and Department of Finance may demonstrate broad support from a wide range of local agencies or school districts in different ways, including, but not limited to, obtaining endorsement by one or more statewide associations of local agencies or school districts and securing letters of approval from local agencies or school districts.

(b) No later than 60 days before a commission hearing, the test claimant and Department of Finance shall submit to the commission a joint proposal that shall include all of the following:

(1) The draft reasonable reimbursement methodology.

(2) The proposed statewide estimate of costs for the initial claiming period and budget year.

(3) A description of the steps the test claimant and the Department of Finance undertook to determine the level of support by local agencies or school districts for the draft reasonable reimbursement methodology.

(4) An agreement that the reasonable reimbursement methodology developed and approved under this section shall be in effect for a period of five years unless a different term is approved by the commission, or upon submission to the commission of a letter indicating the Department of Finance and test claimant's joint interest in early termination of the reasonable reimbursement methodology.

(5) An agreement that, at the conclusion of the period established in paragraph (4), the Department of Finance and the test claimant will consider jointly whether amendments to the methodology are necessary.

(c) The commission shall approve the draft reasonable reimbursement methodology if review of the information submitted pursuant to Section 17557.1 and subdivision (b) of this section demonstrates that the draft reasonable reimbursement methodology and statewide estimate of costs for the initial claiming period and budget year have been developed in accordance with Section 17557.1 and meet the requirements of subdivision (a). The commission thereafter shall adopt the proposed statewide estimate of costs for the initial claiming period and budget year. Statewide cost estimates adopted under this section shall be included in the report to the Legislature required under Section 17600 and shall be reported by the commission to the appropriate Senate and Assembly policy and fiscal committees, the Legislative Analyst, and the Department of Finance not later than 30 days after adoption.

(d) Unless amendments are proposed pursuant to this subdivision, the reasonable reimbursement methodology approved by the commission pursuant to this section shall expire after either five years, any other term approved by the commission, or upon submission to the commission of a letter indicating the Department of Finance's and test claimant's joint interest in early termination of the reasonable reimbursement methodology.

(e) The commission shall approve a joint request for early termination of a reasonable reimbursement methodology if the request meets the requirements of subdivision (a). If the commission approves a joint request for early termination, the commission shall notify the test claimant of the duty to submit proposed parameters and guidelines to the commission pursuant to subdivision (a) of Section 17557.

(f) At least one year before the expiration of a reasonable reimbursement methodology, the commission shall notify the Department of Finance and the test claimant that they may do one of the following:

(1) Jointly propose amendments to the reasonable reimbursement methodology by submitting the information described in paragraphs (1), (3), and (4) of subdivision (b), and providing an estimate of the mandate's annual cost for the subsequent budget year.

(2) Jointly propose that the reasonable reimbursement methodology remain in effect.

(3) Allow the reasonable reimbursement methodology to expire and notify the commission that the test claimant will submit proposed parameters and guidelines to the commission pursuant to subdivision (a) of Section 17557 to replace the reasonable reimbursement methodology.

(g) The commission shall either approve the continuation of the reasonable reimbursement methodology or approve the jointly proposed amendments to the reasonable reimbursement methodology if the information submitted in accordance with paragraph (1) of subdivision (d) demonstrates that the proposed amendments were developed in accordance with Section 17557.1 and meet the requirements of subdivision (a) of this section.

17558. (a) The commission shall submit the adopted parameters and guidelines or a reasonable reimbursement methodology approved pursuant to Section 17557.2 to the Controller. As used in this chapter, a "reasonable reimbursement methodology" approved pursuant to Section 17557.2 includes all amendments to the reasonable reimbursement methodology. When the Legislature declares a legislatively determined mandate in accordance with Section 17573 in which claiming instructions are necessary, the Department of Finance shall notify the Controller.

(b) Not later than 60 days after receiving the adopted parameters and guidelines, a reasonable reimbursement methodology from the commission, or notification from the Department of Finance, the Controller shall issue claiming instructions for each mandate that requires state reimbursement, to assist local agencies and school districts in claiming costs to be reimbursed. In preparing claiming instructions, the Controller shall request assistance from the Department of Finance and may request the assistance of other state agencies. The claiming instructions shall be derived from the test claim decision and the adopted parameters and guidelines, reasonable reimbursement methodology, or statute declaring a legislatively determined mandate.

(c) The Controller shall, within 60 days after receiving amended parameters and guidelines, an amended reasonable reimbursement methodology from the commission or other information necessitating a revision of the claiming instructions, prepare and issue revised claiming instructions for mandates that require state reimbursement that have been established by commission action pursuant to Section 17557, Section 17557.2, or after any decision or order of the commission pursuant to Section 17559, or after any action by the Legislature pursuant to Section 17573. In preparing revised claiming instructions, the Controller may request the assistance of other state agencies.

17558.5. (a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced.

(b) The Controller may conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim.

(c) The Controller shall notify the claimant in writing within 30 days after issuance of a remittance advice of any adjustment to a claim for reimbursement that results from an audit or review. The notification shall specify the claim components adjusted, the amounts adjusted, interest charges on claims adjusted to reduce the overall reimbursement to the local agency or school district, and the reason for the adjustment. Remittance advices and other notices of payment action shall not constitute notice of adjustment from an audit or review.

(d) The interest rate charged by the Controller on reduced claims shall be set at the Pooled Money Investment Account rate and shall be imposed on the dollar amount of the overpaid claim from the time the claim was paid until overpayment is satisfied.

(e) Nothing in this section shall be construed to limit the adjustment of payments when inaccuracies are determined to be the result of the intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the claimant or inability to reach agreement on terms of final settlement.

17558.6. It is the intent of the Legislature that the Commission on State Mandates review its process by which local agencies may appeal the reduction of reimbursement claims on the basis that the reduction is incorrect in order to provide for a more expeditious and less costly process.

17558.7. (a) If the Controller reduces a claim approved by the commission, the claimant may file with the commission an incorrect reduction claim pursuant to regulations adopted by the commission.

(b) A claimant eligible to file an incorrect reduction claim may file a consolidated incorrect reduction claim on behalf of other claimants whose claims for reimbursement under the same mandate are alleged to have been incorrectly reduced if all of the following apply:

(1) The method, act, or practice that the claimant alleges led to the reduction has led to similar reductions of other parties' claims, and all of the claims involve common questions of law or fact.

(2) The common questions of law or fact among the claims predominate over any matter affecting only an individual claim.

(3) The consolidation of similar claims by individual claimants would result in consistent decision making by the commission.

(4) The claimant filing the consolidated claim would fairly and adequately protect the interests of the other claimants.

(c) A claimant that seeks to file a consolidated incorrect reduction claim shall, at the time it files an incorrect reduction claim, on a form provided by the commission, notify the commission of its intent to file a consolidated incorrect reduction claim.

(d) Within 10 days after receipt of an incorrect reduction claim and notice of intent to consolidate, the commission shall request that the Controller provide the commission and the claimant with a list of claimants for whom the Controller has reduced similar claims under the same mandate. Upon receipt of this list from the Controller, the claimant may notify the claimants on the list and other interested parties of its intent to file a consolidated incorrect reduction claim.

(e) Within 30 days of receipt of the notice of intent to consolidate from the original claimant, on a form provided by the commission, any other eligible claimant shall file with the commission its notice of intent to join the consolidated incorrect reduction claim, which shall include a copy of the remittance advice or other notice from the Controller of the claim reduction, and one copy of the reimbursement claims for which an incorrect reduction is alleged.

(f) The commission shall notify each claimant that files an intent to join the consolidated incorrect reduction claim that it may opt out of the consolidated claim and not be bound by any determination made on that consolidated claim. A claimant may opt out of a consolidated claim no later than 15 days after the state agency files comments on the consolidated claim. A claimant that opts out of the consolidated claim, in order to preserve its right to challenge a reduction made by the Controller on that same mandate, shall file an individual incorrect reduction claim pursuant to commission requirements, no later than one year after opting out or within the statute of limitations under the commission's regulations.

(g) The commission shall adopt regulations establishing procedures for receiving a consolidated incorrect reduction claim pursuant to this section and for providing a hearing on a consolidated claim.

17558.8. (a) The commission may, on its own initiative, consolidate incorrect reduction claims filed with the commission by different claimants under the same mandate if all of the following apply:

(1) The same method, act, or practice is alleged to have led to the reduction in each claim, and all of the claims involve common questions of law or fact.

(2) The common questions of law or fact among the claims predominate over any matter affecting only an individual claim.

(3) The consolidation of similar claims by individual claimants would result in consistent decision making by the commission.

(b) The commission shall adopt regulations establishing procedures for consolidation of incorrect reduction claims pursuant to this section and for providing a hearing on a consolidated claim.

17559. (a) The commission may order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. The power to order a reconsideration or amend a test claim decision shall expire 30 days after the statement of decision is delivered or mailed to the claimant. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of the 30-day period, the commission may grant a stay of that expiration for no more than 30 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied.

(b) A claimant or the state may commence a proceeding in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure to set aside a decision of the commission on the ground that the commission's decision is not supported by substantial evidence. The court may order the commission to hold another hearing regarding the claim and may direct the commission on what basis the claim is to receive a rehearing.

17560. Reimbursement for state-mandated costs may be claimed as follows:

(a) A local agency or school district may, by February 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.

(b) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between November 15 and February 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

17561. (a) The state shall reimburse each local agency and school district for all "costs mandated by the state," as defined in Section 17514 and for legislatively determined mandates in accordance with Section 17573.

(b) (1) For the initial fiscal year during which these costs are incurred, reimbursement funds shall be provided as follows:

(A) Any statute mandating these costs shall provide an appropriation therefor.

(B) Any executive order mandating these costs shall be accompanied by a bill appropriating the funds therefor, or alternatively, an appropriation for these costs shall be included in the Budget Bill for the next succeeding fiscal year. The executive order shall cite that item of appropriation in the Budget Bill or that appropriation in any other bill that is intended to serve as the source from which the Controller may pay the claims of local agencies and school districts.

(2) In subsequent fiscal years appropriations for these costs shall be included in the annual Governor's Budget and in the accompanying Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (a) of Section 17551 shall be included in the annual Governor's Budget and in the accompanying Budget Bill.

(c) The amount appropriated to reimburse local agencies and school districts for costs mandated by the state shall be appropriated to the Controller for disbursement.

(d) The Controller shall pay any eligible claim pursuant to this section by October 15 or 60 days after the date the appropriation for the claim is effective, whichever is later. The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of these mandates are not payable to state agencies, or to state agencies that would otherwise collect the costs of these mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows:

(1) For initial reimbursement claims, the Controller shall issue claiming instructions to the relevant local agencies and school districts pursuant to Section 17558. Issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the commission, the reasonable reimbursement methodology approved by the commission pursuant to Section 17557.2, or statutory declaration of a legislatively determined mandate and reimbursement methodology pursuant to Section 17573.

(A) When claiming instructions are issued by the Controller pursuant to Section 17558 for each mandate determined pursuant to Section 17551 or 17573 that requires state reimbursement, each local agency or school district to which the mandate is applicable shall submit claims for initial fiscal year costs to the Controller within 120 days of the issuance date for the claiming instructions.

(B) When the commission is requested to review the claiming instructions pursuant to Section 17571, each local agency or school district to which the mandate is applicable shall submit a claim for reimbursement within 120 days after the commission reviews the claiming instructions for reimbursement issued by the Controller.

(C) If the local agency or school district does not submit a claim for reimbursement within the 120-day period, or submits a claim pursuant to revised claiming instructions, it may submit its claim for reimbursement as specified in Section 17560. The Controller shall pay these claims from the funds appropriated therefor, except the Controller may take either of the following actions:

(i) Audit the records of any local agency or school district to verify the actual amount of the mandated costs, the application of a reasonable reimbursement methodology, or application of a legislatively enacted reimbursement methodology under Section 17573.

(ii) Reduce any claim that the Controller determines is excessive or unreasonable.

(2) In subsequent fiscal years each local agency or school district shall submit its claims as specified in Section 17560. The Controller shall pay these claims from funds appropriated therefor except as follows:

(A) The Controller may audit any of the following:

(i) Records of any local agency or school district to verify the actual amount of the mandated costs.

(ii) The application of a reasonable reimbursement methodology.

(iii) The application of a legislatively enacted reimbursement methodology under Section 17573.

(B) The Controller may reduce any claim that the Controller determines is excessive or unreasonable.

(C) The Controller shall adjust the payment to correct for any underpayments or overpayments that occurred in previous fiscal years.

(3) When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs. All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty. Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid. In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates.

(e) (1) Except as specified in paragraph (2), for the purposes of determining the state's payment obligation under paragraph (1) of subdivision (b) of Section 6 of Article XIII B of the Constitution, a mandate that is "determined in a preceding fiscal year to be payable by the state" means any mandate for which the commission adopted a statewide cost estimate pursuant to this part during a previous fiscal year or that were identified as mandates by a predecessor agency to the commission, or that the Legislature declared by statute to be a legislatively determined mandate, unless the mandate has been repealed or otherwise eliminated.

(2) If the commission adopts a statewide cost estimate for a mandate during the months of April, May, or June, the state's payment obligation under subdivision (b) of Section 6 of Article XIII B shall commence one year after the time specified in paragraph (1).

17561.5. The payment of an initial reimbursement claim by the Controller shall include accrued interest at the Pooled Money Investment Account rate, if the payment is being made more than 365 days after adoption of the statewide cost estimate for an initial claim. Interest shall begin to accrue as of the 366th

day after adoption of the statewide cost estimate for the initial claim. Payment of a subsequent claim that was reported to the Legislature pursuant to paragraph (2) of subdivision (b) of Section 17562 shall include accrued interest at the Pooled Money Investment Account rate for any unpaid amount remaining on August 15 following the filing deadline. Interest shall begin to accrue on August 16 following the filing deadline.

17561.6. A budget act item or appropriation pursuant to this part for reimbursement of claims shall include an amount necessary to reimburse any interest due pursuant to Section 17561.5.

17562. (a) The Legislature hereby finds and declares that the increasing revenue constraints on state and local government and the increasing costs of financing state-mandated local programs make evaluation of state-mandated local programs imperative. Accordingly, it is the intent of the Legislature to increase information regarding state mandates and establish a method for regularly reviewing the costs and benefits of state-mandated local programs.

(b) (1) The Controller shall submit a report to the Joint Legislative Budget Committee and fiscal committees by October 31 of each fiscal year beginning with the 2007-08 fiscal year. This report shall summarize, by state mandate, the total amount of claims paid per fiscal year and the amount, if any, of mandate deficiencies or surpluses. This report shall be made available in an electronic spreadsheet format. The report shall compare the estimated annual cost of each mandate in the preceding fiscal year to the amount determined to be payable by the state for that fiscal year.

(2) The Controller shall submit a report to the Joint Legislative Budget Committee, the applicable fiscal committees, and the Director of Finance by April 30 of each fiscal year. This report shall summarize, by state mandate, the total amount of unpaid claims by fiscal year that were submitted before April 1 of that fiscal year. The report shall also summarize any mandate deficiencies or surpluses. It shall be made available in an electronic spreadsheet, and shall be used for the purpose of determining the state's payment obligation under paragraph (1) of subdivision (b) of Section 6 of Article XIII B of the California Constitution.

(c) After the commission submits its second semiannual report to the Legislature pursuant to Section 17600, the Legislative Analyst shall submit a report to the Joint Legislative Budget Committee and legislative fiscal committees on the mandates included in the commission's reports. The report shall make recommendations as to whether the mandate should be repealed, funded, suspended, or modified.

(d) In its annual analysis of the Budget Bill and based on information provided pursuant to subdivision (b), the Legislative Analyst shall report total annual state costs for mandated programs and, as appropriate, provide an analysis of specific mandates and make recommendations on whether the mandate should be repealed, funded, suspended, or modified.

(e) (1) A statewide association of local agencies or school districts or a Member of the Legislature may submit a proposal to the Legislature recommending the elimination or modification of a state-mandated local program. To make such a proposal, the association or member shall submit a letter to the Chairs of the Assembly Committee on Education or the Assembly Committee on Local Government, as the case may be, and the Senate Committee on Education or the Senate Committee on Local Government, as the case may be, specifying the mandate and the concerns and recommendations regarding the mandate. The association or member shall include in the proposal all information relevant to the conclusions. If the chairs of the committees desire additional analysis of the submitted proposal, the chairs may refer the proposal to the Legislative Analyst for review and comment. The chairs of the committees may refer up to a total of 10 of these proposals to the Legislative Analyst for review in any year. Referrals shall be submitted to the Legislative Analyst by December 1 of each year.

(2) The Legislative Analyst shall review and report to the Legislature with regard to each proposal that is referred to the office pursuant to paragraph (1). The Legislative Analyst shall recommend that the Legislature adopt, reject, or modify the proposal. The report and recommendations shall be submitted annually to the Legislature by March 1 of the year subsequent to the year in which referrals are submitted to the Legislative Analyst.

(3) The Department of Finance shall review all statutes enacted each year that contain provisions making inoperative Section 17561 or Section 17565 that have resulted in costs or revenue losses mandated by the state that were not identified when the statute was enacted. The review shall identify the costs or revenue losses involved in complying with the statutes. The Department of Finance shall also review all statutes

enacted each year that may result in cost savings authorized by the state. The Department of Finance shall submit an annual report of the review required by this subdivision, together with the recommendations as it may deem appropriate, by December 1 of each year.

(f) It is the intent of the Legislature that the Assembly Committee on Local Government and the Senate Committee on Local Government hold a joint hearing each year regarding the following:

(1) The reports and recommendations submitted pursuant to subdivision (e).

(2) The reports submitted pursuant to Sections 17570, 17600, and 17601.

(3) Legislation to continue, eliminate, or modify any provision of law reviewed pursuant to this subdivision. The legislation may be by subject area or by year or years of enactment.

17563. Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

17564. (a) No claim shall be made pursuant to Sections 17551, 17561, or 17573, nor shall any payment be made on claims submitted pursuant to Sections 17551 or 17561, or pursuant to a legislative determination under Section 17573, unless these claims exceed one thousand dollars (\$1,000). However, a county superintendent of schools or county may submit a combined claim on behalf of school districts, direct service districts, or special districts within their county if the combined claim exceeds one thousand dollars (\$1,000) even if the individual school district's, direct service district's, or special district's claims do not each exceed one thousand dollars (\$1,000). The county superintendent of schools or the county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school, direct service, or special district. These combined claims may be filed only when the county superintendent of schools or the county is the fiscal agent for the districts. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a school district, direct service district, or special district provides to the county superintendent of schools or county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

(b) Claims for direct and indirect costs filed pursuant to Section 17561 shall be filed in the manner prescribed in the parameters and guidelines or reasonable reimbursement methodology and claiming instructions.

(c) Claims for direct and indirect costs filed pursuant to a legislatively determined mandate pursuant to Section 17573 shall be filed and paid in the manner prescribed in the Budget Act or other bill, or claiming instructions, if applicable.

17565. If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.

17567. In the event that the amount appropriated for reimbursement purposes pursuant to Section 17561 is not sufficient to pay all of the claims approved by the Controller, the Controller shall prorate claims in proportion to the dollar amount of approved claims timely filed and on hand at the time of proration. The Controller shall adjust prorated claims if supplementary funds are appropriated for this purpose.

In the event that the Controller finds it necessary to prorate claims as provided by this section, the Controller shall immediately report this action to the Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each house of the Legislature which considers appropriations in order to assure appropriation of these funds in the Budget Act.

17568. If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount that would have been allowed had the reimbursement claim been timely filed, provided that the amount of this reduction shall not exceed ten thousand dollars (\$10,000). In no case shall a reimbursement claim be paid that is submitted more than one year after the deadline specified in Section 17560.

17571. The commission, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs. If the commission determines that the claiming instructions do not conform to the parameters and guidelines, the commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the commission.

17575-17581.5 17575. When a bill is introduced in the Legislature, and each time a bill is amended, on and after January 1, 1985, the Legislative Counsel shall determine whether the bill mandates a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution. The Legislative Counsel shall make this determination known in the digest of the bill and shall describe in the digest the basis for this determination. The determination by the Legislative Counsel shall not be binding on the commission in making its determination pursuant to Section 17555.

17576. Whenever the Legislative Counsel determines that a bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Department of Finance shall prepare an estimate of the amount of reimbursement which will be required. This estimate shall be prepared for the respective committees of each house of the Legislature which consider taxation measures and appropriation measures and shall be prepared prior to any hearing on the bill by any such committee.

17577. The estimate required by Section 17576 shall be the amount estimated to be required during the first fiscal year of a bill's operation in order to reimburse local agencies and school districts for costs mandated by the state by the bill.

17578. In the event that a bill is amended on the floor of either house, whether by adoption of the report of a conference committee or otherwise, in such a manner as to mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution, the Legislative Counsel shall immediately inform, respectively, the Speaker of the Assembly and the President of the Senate of that fact. Notification from the Legislative Counsel shall be published in the journal of the respective houses of the Legislature.

17579. Any bill introduced or amended for which the Legislative Counsel has determined the bill will mandate a new program or higher level of service pursuant to Section 6 of Article XIII B of the California Constitution shall contain a section specifying that reimbursement shall be made pursuant to this chapter or that the mandate is being disclaimed and the reason therefor.

17581. (a) No local agency shall be required to implement or give effect to any statute or executive order, or portion thereof, during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply:

(1) The statute or executive order, or portion thereof, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of local agencies pursuant to Section 6 of Article XIII B of the California Constitution.

(2) The statute or executive order, or portion thereof, or the commission's test claim number, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered to have been specifically identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it is specifically identified in the language of a provision of the item providing the appropriation for mandate reimbursements.

(b) Within 30 days after enactment of the Budget Act, the Department of Finance shall notify local agencies of any statute or executive order, or portion thereof, for which operation of the mandate is suspended because reimbursement is not provided for that fiscal year pursuant to this section and Section 6 of Article XIII B of the California Constitution.

(c) Notwithstanding any other provision of law, if a local agency elects to implement or give effect to a statute or executive order described in subdivision (a), the local agency may assess fees to persons or

entities which benefit from the statute or executive order. Any fee assessed pursuant to this subdivision shall not exceed the costs reasonably borne by the local agency.

(d) This section shall not apply to any state-mandated local program for the trial courts, as specified in Section 77203.

(e) This section shall not apply to any state-mandated local program for which the reimbursement funding counts toward the minimum General Fund requirements of Section 8 of Article XVI of the Constitution.

17581.5. (a) A school district shall not be required to implement or give effect to the statutes, or a portion of the statutes, identified in subdivision (c) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply:

(1) The statute or a portion of the statute, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts pursuant to Section 6 of Article XIII B of the California Constitution.

(2) The statute, or a portion of the statute, or the test claim number utilized by the commission, specifically has been identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered specifically to have been identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it specifically is identified in the language of a provision of the item providing the appropriation for mandate reimbursements.

(b) Within 30 days after enactment of the Budget Act, the Department of Finance shall notify school districts of any statute or executive order, or portion thereof, for which reimbursement is not provided for the fiscal year pursuant to this section.

(c) This section applies only to the following mandates:

(1) The School Bus Safety I (CSM-4433) and II (97-TC-22) mandates (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997).

(2) The School Crimes Reporting II mandate (97-TC-03; and Chapter 759 of the Statutes of 1992 and Chapter 410 of the Statutes of 1995).

(3) Investment reports (96-358-02; and Chapter 783 of the Statutes of 1995 and Chapters 156 and 749 of the Statutes of 1996).

(4) County treasury oversight committees (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

(5) Grand jury proceedings mandate (98-TC-27; and Chapter 1170 of the Statutes of 1996, Chapter 443 of the Statutes of 1997, and Chapter 230 of the Statutes of 1998).

(6) Sexual Harassment Training in the Law Enforcement Workplace (97-TC-07; and Chapter 126 of the Statutes of 1993).

Government Code Sections 17600-17602

17600. At least twice each calendar year the commission shall report to the Legislature on the number of mandates it has found pursuant to Article 1 (commencing with Section 17550) and the estimated statewide costs of these mandates. This report shall identify the statewide costs estimated for each mandate and the reasons for recommending reimbursement.

17601. The commission shall report to the Legislature on January 15, 1986, and each January 15 thereafter, on the number of claims it denied during the preceding calendar year and the basis on which the particular claims were denied.

17602. On or before January 15, 2007, and on or before each January 15 thereafter, the commission shall report to the Legislature the number of individual and consolidated incorrect reduction claims decided during the preceding calendar year and whether and why the reduction was upheld or overturned.

Government Code Sections 17612-17613

17612. (a) Upon receipt of the report submitted by the commission pursuant to Section 17600, funding shall be provided in the subsequent Budget Act for costs incurred in prior years. No funding shall be provided for years in which a mandate is suspended.

(b) The Legislature may amend, modify, or supplement the parameters and guidelines, reasonable reimbursement methodology, and adopted statewide estimate of costs for the initial claiming period and budget year for mandates contained in the annual Budget Act. If the Legislature amends, modifies, or supplements the parameters and guidelines, reasonable reimbursement methodology, and adopted statewide estimate of costs for the initial claiming period and budget year, it shall make a declaration in separate legislation specifying the basis for the amendment, modification, or supplement.

(c) If the Legislature deletes from the annual Budget Act funding for a mandate, the local agency or school district may file in the Superior Court of the County of Sacramento an action in declaratory relief to declare the mandate unenforceable and enjoin its enforcement for that fiscal year.

17613. (a) The Director of Finance may, upon receipt of any report submitted pursuant to Section 17567, authorize the augmentation of the amount available for expenditure to reimburse costs mandated by the state, as defined in Section 17514, as follows:

(1) For augmentation of (A) any schedule in any item to reimburse costs mandated by the state in any budget act, or (B) the amount appropriated in a local government claims bill for reimbursement of the claims of local agencies, as defined by Section 17518, from the unencumbered balance of any other item to reimburse costs mandated by the state in that budget act or another budget act or in an appropriation for reimbursement of the claims of local agencies in another local government claims bill.

(2) For augmentation of (A) any schedule in any budget act item, or (B) any amount appropriated in a local government claims bill, when either of these augmentations is for reimbursement of mandated claims of school districts, as defined in Section 17519, when the source of this augmentation is (A) the unencumbered balance of any other scheduled amount in that budget act or another budget act, or (B) an appropriation in another local government claims bill, when either of these appropriations is for reimbursement of mandate claims of school districts. This paragraph applies only to appropriations that are made for the purpose of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution.

(b) No authorization for an augmentation pursuant to this section may be made sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

Government Code Sections 17615-17617

17615. The Legislature finds and declares that the existing system for reimbursing local agencies and school districts for actual costs mandated by the state on an annual claim basis is time consuming, cumbersome, and expensive at both the local and state levels. The Controller must process voluminous claims with all claims subject to a desk audit and selected claims also subject to a field audit. Local agencies are required to maintain extensive documentation of all claims in anticipation of such an audit. The volume of these records is substantial and will continue to grow with no relief in sight as new programs are mandated. The cost to local agencies and school districts for filing claims, and for maintaining documentation and responding to the Controller's audits is substantial. The current administrative cost to both state and local governments represents a significant expenditure of public funds with no apparent benefit to the taxpayers.

It is the intent of the Legislature to streamline the reimbursement process for costs mandated by the state by creating a system of state mandate apportionments to fund the costs of certain programs mandated by the state.

17615.1. The commission shall establish a procedure for reviewing, upon request, mandated cost programs for which appropriations have been made by the Legislature for the 1982-83, 1983-84, and

1984-85 fiscal years, or any three consecutive fiscal years thereafter. At the request of the Department of Finance, the Controller, or any local agency or school district receiving reimbursement for the mandated program, the commission shall review the mandated cost program to determine whether the program should be included in the State Mandates Apportionment System. If the commission determines that the State Mandates Apportionment System would accurately reflect the costs of the state-mandated program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

17615.2. (a) Notwithstanding Section 17561, after November 30, 1985, for those programs included in the State Mandates Apportionment System, after approval by the commission, there shall be disbursed by the Controller to each local agency and school district which has submitted a reimbursement claim for costs mandated by the state in the 1982-83, 1983-84, and the 1984-85 fiscal years, or any three consecutive fiscal years thereafter, an amount computed by averaging the approved reimbursement claims for this three-year period. The amount shall first be adjusted according to any changes in the deflator. The deflator shall be applied separately to each year's costs for the three years which comprise the base period. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1985 and the Budget Act for any subsequent fiscal year thereafter.

For purposes of this article, "base period" means the three fiscal years immediately succeeding the commission's approval.

(b) When the Controller has made payment on claims prior to commission approval of the program for inclusion in the State Mandates Apportionment System, the payment shall be adjusted in the next apportionment to the amount which would have been subvended to the local agency or school district for that fiscal year had the State Mandates Apportionment System been in effect at the time of the initial payment.

17615.3. Notwithstanding Section 17561, by November 30, 1986, and by November 30 of each year thereafter, for those programs included in the State Mandates Apportionment System, the Controller shall recalculate each allocation for each local agency and school district for the 1985-86 fiscal year, by using the actual change in the deflator for that year. That recalculated allocation shall then be adjusted by the estimated change in the deflator for the 1986-87 fiscal year, and each fiscal year thereafter, to establish the allocation amount for the 1986-87 fiscal year, and each fiscal year thereafter. Additionally, for programs approved by the commission for inclusion in the State Mandates Apportionment System on or after January 1, 1988, the allocation for each year succeeding the three-year base period shall be adjusted according to any changes in both the deflator and workload. The Controller shall then subvене that amount after adjusting it by any amount of overpayment or underpayment in the 1985-86 fiscal year, and each fiscal year thereafter, due to a discrepancy between the actual change and the estimated change in the deflator or workload. Funds for these purposes shall be available to the extent they are provided for in the Budget Act of 1986 and the Budget Act for any subsequent fiscal year thereafter.

For purposes of this article, "workload" means, for school districts and county offices of education, changes in the average daily attendance; for community colleges, changes in the number of full-time equivalent students; for cities and counties, changes in the population within their boundaries; and for special districts, changes in the population of the county in which the largest percentage of the district's population is located.

17615.4. (a) When a new mandate imposes costs that are funded either by legislation or in local government claims bills, local agencies and school districts may file reimbursement claims as required by Section 17561, for a minimum of three years after the initial funding of the new mandate.

(b) After actual cost claims are submitted for three fiscal years against such a new mandate, the commission shall determine, upon request of the Controller or a local entity or school district receiving reimbursement for the program, whether the amount of the base year entitlement adjusted by changes in the deflator and workload accurately reflects the costs incurred by the local agency or school district. If the commission determines that the base year entitlement, as adjusted, does accurately reflect the costs of the program, the commission shall direct the Controller to include the program in the State Mandates Apportionment System.

(c) The Controller shall make recommendations to the commission and the commission shall consider the Controller's recommendations for each new mandate submitted for inclusion in the State Mandates Apportionment System. All claims included in the State Mandates Apportionment System pursuant to this section are also subject to the audit provisions of Section 17616.

17615.5. (a) If any local agency or school district has an established base year entitlement which does not include costs for a particular mandate, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, adjusted pursuant to Section 17615.3 by changes in the deflator and workload, or entitlement claims covering a minimum of three consecutive years, after which time its base year entitlement may be adjusted by an amount necessary to fund the costs of that mandate.

(b) If any local agency or school district has no base year entitlement, but wishes to begin claiming costs of one or more of the mandates included in the State Mandates Apportionment System, that local agency or school district may submit reimbursement claims for a minimum of three consecutive years, or entitlement claims covering the preceding three consecutive years, which shall be adjusted pursuant to Sections 17615.2 and 17615.3 by changes in the deflator and workload, after which time a base year entitlement may be established in an amount necessary to fund the costs of the mandate or mandates.

17615.6. If a local agency or school district realizes a decrease in the amount of costs incurred because a mandate is discontinued, or made permissive, the Controller shall determine the amount of the entitlement attributable to that mandate by determining the base year amount for that mandate for the local agency or school district plus the annual adjustments. This amount shall be subtracted from the annual subvention which would otherwise have been allocated to the local agency or school district.

17615.7. If a mandated program included in the State Mandates Apportionment System is modified or amended by the Legislature or by executive order, and the modification or amendment significantly affects the costs of the program, as determined by the commission, the program shall be removed from the State Mandate Apportionment System, and the payments reduced accordingly. Local entities or school districts may submit actual costs claims for a period of three years, after which the program may be considered for inclusion in the State Mandates Apportionment System, pursuant to the provisions of Section 17615.4.

17615.8. (a) The commission shall establish a procedure for reviewing, upon request, any apportionment or base year entitlement of a local agency or school district.

(b) Local agencies and school districts which request such a review shall maintain and provide those records and documentation as the commission or its designee determines are necessary for the commission or its designee to make the required determinations. With the exception of records required to verify base year entitlements, the records may not be used to adjust current or prior apportionments, but may be used to adjust future apportionments.

(c) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state does not accurately reflect the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission shall direct the Controller to adjust the apportionment accordingly. For the purposes of this section, an apportionment or a base year entitlement does not accurately reflect the costs incurred by a local agency or school district if it falls short of reimbursing, or overreimburses, that local agency's or school district's actual costs by 20 percent or by one thousand dollars (\$1,000), whichever is less.

(d) If the commission determines that an apportionment or base year entitlement for funding costs mandated by the state accurately reflects the costs incurred by the local agency or school district for all mandates upon which that apportionment is based, the commission may, in its discretion, direct the Controller to withhold, and, if so directed, the Controller shall withhold the costs of the commission's review from the next apportionment to the local agency or school district, if the commission review was requested by the local agency or school district.

17615.9. The commission shall periodically review programs funded under the State Mandate Apportionments System to evaluate the effectiveness or continued statewide need for each such mandate.

17616. The Controller shall have the authority to do either or both of the following:

(a) Audit the fiscal years comprising the base year entitlement no later than three years after the year in which the base year entitlement is established. The results of such audits shall be used to adjust the base year entitlements and any subsequent apportionments based on that entitlement, in addition to adjusting actual cost payments made for the base years audited.

(b) Verify that any local agency or school district receiving funds pursuant to this article is providing the reimbursed activities.

17617. The total amount due to each city, county, city and county, and special district, for which the state has determined that reimbursement is required under paragraph (2) of subdivision (b) of Section 6 of Article XIII B of the California Constitution, shall be appropriated for payment to these entities over a period of not more than 15 years, commencing with the Budget Act for the 2006-07 fiscal year and concluding with the Budget Act for the 2020-21 fiscal year.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2006-11
ANIMAL ADOPTION

April 3, 2006

Revised October 26, 2009

In accordance with Government Code (GC) Section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for filing claims for the Animal Adoption (AA) program. These claiming instructions are issued subsequent to adoption of the program's Parameters and Guidelines (P's & G's) by the Commission on State Mandates (Commission).

On January 25, 2001, the Commission determined that Chapter 752, Statutes of 1998, established costs mandated by the State according to the provisions listed in the P's & G's which are included as an integral part of the claiming instructions.

Eligible Claimants

Any city or county, that incurs increased costs, as a direct result of this mandate is eligible to claim reimbursement of these costs.

A. Filing Deadlines for Reimbursement Claims

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim.

An actual claim may be filed by February 15 following the fiscal year in which costs were incurred. Claims for fiscal year 2008-09 will be accepted without penalty if postmarked or delivered on or before **February 16, 2010**. **A claim filed more than one year after the deadline cannot be accepted for reimbursement.**

This program was suspended by the Legislature for the 2009-2010 fiscal year pursuant to Budget Item 8885-295-0001, Schedule (3)(c). **Consequently, no claims may be filed with the SCO for fiscal year 2009-2010.**

B. Late Penalty

1. Initial Claims

Late initial claims are assessed a late penalty of 10% of the total amount of the initial claims without limitation.

2. Annual Reimbursement Claims

Late annual reimbursement claims are assessed a late penalty of 10% of the claim amount; \$10,000 maximum penalty.

Minimum Claim Cost

GC Section 17564(a) provides that no claim may be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (**\$1,000**), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds **\$1,000**, even if the individual direct service district's or special district's claim does not each exceed **\$1,000**. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a direct service district or special district provides a written notice of its intent to file a separate claim to the county and to the SCO, at least one hundred and eighty days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, notices of order of suspension or revocation, sworn reports, arrest reports, notices to appear, employee time records, or time logs, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, and declarations. Declarations must include a certification or declaration stating: "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure Section 2015.5.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, Subdivision (a), a reimbursement claim for actual costs filed by a claimant is subject to audit by the SCO no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit will be completed no later than two years after the date that the audit is commenced.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents must be made available to the SCO on request.

Retention of Claiming Instructions

All documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or last amended regardless of the year of costs incurred. When no funds were appropriated for initial claims at the time the claim was filed, supporting documents must be retained for three years from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and must be made available to the SCO on request.

Questions, or requests for hard copies of these instructions, should be faxed to LRSDAR at (916) 323-6527 or e-mailed to LRSDAR@sco.ca.gov or you may call the Local Reimbursements Section at (916) 324-5729. Future mandated costs claiming instructions and forms can be found on the Internet at www.sco.ca.gov/ard_mancost.html.

Address for Filing Claims

Claims should be rounded to the nearest dollar. Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms. **To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive "necessary and prompt veterinary care."

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or

(b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

The period of reimbursement for the activities in this parameters and guidelines amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years’ costs shall be submitted within

120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) (8) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the

pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Formula for Proportionate Share of Actual Costs:

Where:

(A) = Shelter square footage, 1998

(B) = Total animal average daily census (ADC), 1998

(C) = Square footage per ADC, 1998 (=A/B)

(D) = Total dog/cat ADC, 1998

(E) = Shelter square footage, claim year

(F) = Total dog/cat ADC, claim year

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(I) = Eligible dog/cat square footage, claim year

For shelters that meet the conditions of to Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:¹

$$(I) = 2/5 \times C \times F$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(I) = 4/7 \times C \times F$$

(J) = Reduction in eligible square footage due to decline in total dog/cat population (cannot exceed 0)

For shelters that meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:²

$$(J) = [(F/5 - D/3 \times C \times D) / (D/3)]$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(J) = [(F/7 - D/3) \times C \times D] / (D/3)$$

(K) = Net eligible dog/cat square footage (cannot be less than 0)

$$(K = I+J)$$

(L) = Percentage of eligible dog/cat ADC, claim year (L = G/F)

(M) = Allowable dog/cat square footage (M = K x L)

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31573 (N = C x H)

(P) = Eligible percentage of acquisition/construction costs (cannot exceed 100%) [P = (M+N) / ((E-A)]

Statutes 2004, chapter 313 specifies that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. The mandate reimburses for costs required due to the

¹ In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

² In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

increased holding period required by Statutes 1998, chapter 752. In calculating net eligible dog/cat square footage, the formula recognizes that a decline in the number of animals sheltered may offset the effect of the increased holding period. For example, if the dog/cat average daily census does not change between the 1998 base year and the claim year, there is no additional square footage required.

The mandate reimburses only for costs attributable to eligible animals. Prior to Statutes 1998, chapter 752, shelters were required to hold dogs and cats for three days, whereas there was no required holding period for other animals. Therefore, the mandate reimbursable percentage formula separately calculates allowable square footage for dogs and cats, and allowable square footage for other animals specified by Food and Agricultural Code section 31753.

Acquisition/construction costs that are less than or equal to the cost of contract services for eligible animals are reimbursable.

Claimants may recalculate the eligible percentage of acquisition/construction costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.1, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the

holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;

- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holding period required by Statutes 1998, chapter 752; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes 1998, chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holder period required by Statutes 1998, chapter 752. This finding should include the cost to contract with existing shelters..

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire

holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Since the remodeling/renovation will not increase square footage to address existing overcrowding or future growth issues, the mandate reimbursable percentage formula for remodeling/renovation would exclude the eligible percentage of square footage factor.

Formula for proportionate share of actual remodeling/renovation costs:

(A) = Shelter square footage

(B) = Total animal average daily census (ADC), claim year

(C) = Square footage per ADC, claim year ($C = A/B$)

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(M) = Eligible dog/cat square footage, claim year

For shelters that meet the requirements of Food and Agricultural Code section 31108 (a)(1) or (2) for dogs, and section 31752 (a)(1) or (2) for cats, $M = 2/5 \times C \times G$.

For shelters that do not meet the requirements of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats, $M = 4/7 \times C \times G$.

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31753, claim year ($N = C \times H$)

(P) = Eligible percentage of remodeling/renovation costs

$[P = (M + N) / A]$

Claimants may recalculate the eligible percentage of remodeling/renovation costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The

determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.2, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities to comply with the increased holding period required by Statutes 1998, chapter 752.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished dogs and cats; and
- Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of all dogs and cats impounded at a facility. For purposes of claiming reimbursement under IV.B.3, average daily census is defined as the average number of all dogs and cats at a facility housed on any given day, in a 365-day period..
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die

during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

3. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by

each reimbursable day (four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

4. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

5. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

6. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

7. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and

- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

8. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);

- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injured cats and dogs (Pen. Code, § 597f, subd. (b));
- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates

attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB Circular A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections,

and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter³ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of

³ This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section 31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the revised parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the revised parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the revised parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code Section 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Article 4, Chapter 1 of Division 4 of Title 1 Government Code.

I further certify that there was no application other than from the claimant, nor any grants or payments received for reimbursement of costs claimed herein and claimed costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the parameters and guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amount for this reimbursement is hereby claimed from the State for payment of actual costs set forth on the attached statements.

I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

ANIMAL ADOPTION
Certification Claim Form
Instructions for Form FAM-27

FORM
FAM-27

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) to (08) Leave blank.
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim as shown in the attached Form-1 line (11). The total claimed amount must exceed \$1,000.
- (14) Reimbursement claims must be filed by **February 15** of the following fiscal year in which costs were incurred or the claims must be reduced by a late penalty. Enter zero if the claim was timely filed. Otherwise, enter the penalty amount as a result of the calculation formula as follows:
- Late Initial Claims: FAM-27 line(13) multiplied by 10%, without limitation; or
 - Late Annual Reimbursement Claims: FAM-27, line (13) multiplied by 10%, late penalty not to exceed \$10,000.
- (15) Enter the amount of payment, if any, received for the claim. If no payment was received, enter zero.
- (16) Enter the net claimed amount by subtracting the sum of lines (14) and (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., Form-1, (04)(A)(1)(g), means the information is located on form Form-1, line (04)(A)(1), column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 35.19% should be shown as 35. **Completion of this data block will expedite the payment process.**
- (37) Read the statement of Certification of Claim. The claim must be dated, signed by the agency's authorized officer, and must type or print name, title, telephone number and email address. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the agency contact person for the claim. If claim is prepared by external consultant, type or print the name of the consulting firm, telephone number, and e-mail address.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS TO:

Address, if delivered by U.S. Postal Service:

Program 213	ANIMAL ADOPTION CLAIM SUMMARY Instructions	FORM 1
------------------------	---	-------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year of costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form 1 must be completed for each department.
- (04) Reimbursable Activities. For each reimbursable activity, enter the total from Form-2, line (05) columns (d) through (i) to Form-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Local agencies have the option of using the flat rate of 10% of direct labor costs or using a department's indirect cost rate proposal (ICRP) in accordance with the Office of Management and Budget OMB Circular A-87 (Title 2 CFR Part 225). If the flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by 10%. If an ICRP is submitted, multiply applicable costs used in the distribution base for the computation of the indirect cost rate, by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings realized by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements/Offsetting Revenue. Reimbursement received from any source must be identified and deducted from this claim. Sources may include, but are not limited to offsetting revenues from Form 3, lines (04) and (05), rewards received under authority of Civil Code Section 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to Food & Agriculture Code Section 30652 must be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION ACTIVITY COST DETAIL INSTRUCTIONS	FORM 2
---	--	--

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form-2 must be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Activities. Check the box which indicates the cost activity being claimed. Check only one box per form. A separate Form -2 must be prepared for each applicable activity.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the activity box checked in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit will be from the date of initial payment of the claim. Such documents must be made available to the SCO on request.

Object/ Sub object Accounts	Columns									Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	
Salaries	Employee Name/Title	Hourly Rate	Hours Worked	Salaries = Hourly Rate x Hours Worked

---------------	-----------------------------------

(03) Is your agency providing animal shelter services under contract with another entity?	Yes <input type="checkbox"/> No <input type="checkbox"/>
---	---

(04) If yes, list each entity, the amount received, and any mandate-related offsetting revenue below:

	(a)	(b)
Name of Entity	Amount Received	Offsetting Revenue
Total (Include column (b) total on Form 1, line 10)		

(05) The amount reported as offsetting revenue should also be reported by the contracting entity as reimbursable mandated costs. List other mandated-related offsetting revenue not identified above.

Type of Revenue	Offsetting Revenue
Total (Include column (b) total on Form 1, line 10)	

(06) Is another entity providing animal shelter services under contract for your agency?	Yes <input type="checkbox"/> No <input type="checkbox"/>
--	---

If yes, identify the entity and list the amount paid to the other entity.

Name of Entity	Amount Paid
Total	

Program 213	ANIMAL ADOPTION Instructions for SUMMARY OF SERVICES PROVIDED UNDER CONTRACT	FORM 3
------------------------------	---	-------------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year of costs.
- (03) Indicate whether or not your agency is providing contracted animal shelter services for another agency.
- (04) (a) If the answer to line (03) is "Yes" – List the names of the contracting agencies for whom you are providing services. Record the full amount of the contract in column (a), Amount Received.
- (b) Record in column (b) the amount of the contract, if any, that is used to fund mandate-related activities. The total amount shown for line (04)(b) should be reported on Form 1, line (10), as offsetting revenue.
- Note: Any amount shown as mandate-related offsetting revenue in column (b) can be claimed by the identified agencies on a mandated cost claim.**
- (05) List any other mandate-related offsetting revenue not already identified on line (04) above.
- (06) Indicate whether or not your agency is contracting with another agency for animal control services.
- (07) If the answer to line (06) is "Yes", list the name of the agency and the contract amount.

FILING A CLAIM

RECEIVED
May 19, 2014
*Commission on
State Mandates*

1. Introduction

The law in the State of California (Government Code Sections 17500 through 17616) provides for the reimbursement of costs incurred by local agencies for costs mandated by the State. These are costs that local agencies are required to incur after July 1, 1980, as a result of any statute enacted after January 1, 1975, or any executive order implementing such statute which mandates a new program or higher level of service of an existing program.

A reimbursement claim is defined in GC Section 17522 as any claim filed with SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim. An actual claim for the 2009-10 fiscal year, may be filed by February 15, 2011, without a late penalty. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline will not be accepted by the SCO.

In order for a claim to be considered properly filed, it must include documentation to support the indirect cost rate. A full discussion of the indirect cost methods available to local agencies may be found in Section 8 of these instructions.

When a program has been reimbursed for three or more years, the Commission may approve the program for inclusion in the State Mandates Apportionment System (SMAS). For programs included in SMAS, the SCO determines the amount of each claimant's entitlement based on an average of three consecutive fiscal years of actual costs adjusted by any changes in the Implicit Price Deflator (IPD). Claimants with an established entitlement receive an annual apportionment adjusted by any changes in the IPD and, under certain circumstances, by any changes in workload. Claimants with an established entitlement are not required to file further claims for the program.

The SCO is authorized to make payments for costs of mandated programs from amounts appropriated by the State Budget Act, by the State Mandates Claims Fund, or by specific legislation. In the event the appropriation is insufficient to pay claims in full, claimants will receive prorated payments in proportion to the dollar amount of approved claims for the program. Balances of prorated payments will be made when supplementary funds become available.

2. Local Government Electronic Claims (LGeC)

LGeC enables claimants and their consultants to securely prepare and submit mandated cost claims via the Internet. LGeC uses a series of data input screens to collect the information needed to prepare a claim and also provides a web service so claims can be uploaded in batch files. LGeC also incorporates an attachment feature so claimants can electronically attach supporting documentation if required. In order for a claim to be considered properly filed it must include a copy of the Indirect Cost Rate Proposal (ICRP) if the indirect cost rate exceeds ten percent.

The LGeC system provides an easy and straightforward approach to the claiming process. Filing claims using LGeC eliminates the manual preparation and submission of paper claims by the locals and the receiving, processing, key entry, verification, and storage of paper claims by the SCO. LGeC also provides mathematical checks and automated error detection to reduce erroneous and incomplete claims, provides the state with an electronic workflow process, and stores the claims in an electronic format. Making the change from paper claims to electronic claims reduces the manual handling of paper claims and decreases the costs incurred by local entities for handling, postage, and storage of claims filed using the LGeC system.

In order to use the LGeC system you will need to obtain a User ID and password for each person who will access the LGeC system. To obtain a User ID and password you must file an application with the SCO. The application and instructions are available on the LGeC Web site located at

http://www.sco.ca.gov/ard_lgec.html. Complete the application and other documents as requested and mail them to the SCO using the address provided on the form. The SCO will process the application and issue a User ID and password to each applicant.

In addition, you may want to subscribe to an email distribution list to automatically receive timely, comprehensive information regarding mandated cost claim receipts, payments, test claims, guidelines, electronic claims, and other news and updates. You also will receive related audit reports and mandate information provided by other state agencies.

You can find more information about LGeC and the email distribution lists at http://www.sco.ca.gov/ard_lgec.html. This Web site provides access to the LGeC system, an application for User ID's and passwords, an instructional guide, frequently ask questions (FAQ's) and additional help files. Questions may be directed to LRSDAR@sco.ca.gov, or you may call Local Reimbursements Section, Local Government e-Claims at (916) 324-5729.

3. Types of Claims

Claimant may file a reimbursement claim for actual mandated costs incurred in the prior fiscal year. An entitlement claim may be filed for the purpose of establishing a base year entitlement amount for mandated programs included in SMAS. A claimant who has established a base year entitlement for a program would receive an automatic annual payment, which is reflective of the current costs for the program.

All claims received by the SCO will be reviewed to verify actual costs. An adjustment of the claim will be made if the amount claimed is determined to be excessive, improper, or unreasonable.

A. Reimbursement Claim

A reimbursement claim is defined in GC Section 17522 as any claim filed with the SCO by a local agency for reimbursement of costs incurred for which an appropriation is made for the purpose of paying the claim.

Initial reimbursement claims are first-time claims for reimbursement of costs for one or more prior fiscal year(s) of a program that was previously unfunded. Claims are due 120 days from the date of issuance of the claiming instructions for the program by the SCO. The first statute that appropriates funds for the mandated program will specify the fiscal years for which costs are eligible for reimbursement.

Annual ongoing reimbursement claims must be filed by February 15th following the fiscal year in which costs were incurred for the program. Claims for fiscal year 2009-10 will be accepted without late penalty if postmarked or delivered on before February 15th, 2011. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$10,000. However, initial reimbursement claims will be reduced by a late penalty of 10% with no limitation. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the claim. Claims filed more than one year after the deadline will not be accepted for reimbursement.

In order for a claim to be considered properly filed, it must include the Indirect Cost Rate Proposal (ICRP) to support the indirect cost rate if the indirect cost rate exceeds ten percent. A more detailed discussion of the indirect cost methods available to local agencies may be found in Section 2, Filing a Claim, Page 11 of these instructions.

B. Entitlement Claim

An entitlement claim is defined in GC Section 17522 as any claim filed by a Local Agency with the SCO for the sole purpose of establishing or adjusting a base year entitlement for a mandated program that has been included in SMAS. An entitlement claim should not contain nonrecurring or initial start-up costs. There is no statutory deadline for the filing of entitlement claims. However, entitlement claims and supporting documents should be filed by February 15,

following the third fiscal year used to develop the entitlement claim, to permit an orderly processing of claims. When the claims are approved and a base year entitlement amount is determined, the claimant will receive an apportionment reflective of the program's current year costs.

The automatic apportionment is determined by adjusting the claimant's base year entitlement for changes in the IPD of costs of goods and services to governmental agencies, as determined by the State Department of Finance. For programs approved by CSM for inclusion in SMAS on or after January 1, 1988, the payment for each year succeeding the three year in base period is adjusted according to any changes by both the IPD and average daily attendance (ADA).

SCO will perform this computation for each claimant who has filed claims for three consecutive years. If a claimant has incurred costs for three consecutive years but has not filed a claim in each of those years, the claimant may file an entitlement claim, form FAM-43, to establish a base year entitlement. The form FAM-43 is included in the claiming instructions for SMAS programs. An entitlement claim does not result in the claimant being reimbursed for the costs incurred, but rather entitles the claimant to receive automatic payments from SMAS. Annual apportionments for programs included in the system are paid on or before November 30 of each year.

4. Minimum Claim Amount

For initial claims and annual claims filed on or after September 30, 2002, if the total costs for a given year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by GC Section 17564. Combined claims may be filed only when the county is the fiscal agent for the special districts. The county shall determine if the submission of a combined claim is economically feasible and shall be responsible for disbursing the funds to each special district. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides to the county and to the Controller, at least 180 days prior to the deadline for filing the claim, a written notice of its intent to file a separate claim.

GC Section 17564(a) provides that no claim shall be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (\$1,000), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds \$1,000, even if the individual direct service district's or special district's claim does not each exceed \$1,000. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a special district provides a written notice of its intent to file a separate claim to the county and to the SCO at least 180 days prior to the deadline for filing the claim.

5. Filing Deadline for Claims

Pursuant to GC Section 17561(d) initial reimbursement claims (first time claims) for reimbursement of costs of a previously unfunded mandated program must be filed within 120 days from the date SCO issues the claiming instructions for the program.

When paying a timely filed claim for initial reimbursement, the Controller shall withhold 20 percent of the amount of the claim until the claim is audited to verify the actual amount of the mandated costs.

All initial reimbursement claims for all fiscal years required to be filed on their initial filing date for a state-mandated local program shall be considered as one claim for the purpose of computing any late claim penalty.

Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed. The Controller may

withhold payment of any late claim for initial reimbursement until the next deadline for funded claims unless sufficient funds are available to pay the claim after all timely filed claims have been paid.

In no case may a reimbursement claim be paid if submitted more than one year after the filing deadline specified in the Controller's claiming instructions on funded mandates.

Pursuant to GC Section 17560, annual reimbursement claims (recurring claims) for costs incurred during the previous fiscal year must be filed with SCO and postmarked on or before February 15th following the fiscal year in which costs were incurred. Claims for fiscal 2009-10 will be accepted without penalty if postmarked or delivered on before February 15, 2011.

If the annual reimbursement claim is filed after the deadline, but within one year of the deadline, the approved claim must be reduced by a 10% late penalty, not to exceed \$10,000. Amended claims filed after the deadline will be reduced by 10% of the increased amount not to exceed \$10,000 for the total claim. Claims filed more than one year after the deadline cannot be accepted for reimbursement.

Entitlement claims do not have a filing deadline. However, entitlement claims should be filed by February 15th to permit orderly processing of the claims.

6. Payment of Claims

In order for the SCO to authorize payment of a claim, the Certification of Claim, form FAM-27, must be properly filled out, signed, and dated by the entity's authorized officer. When using the LGeC system the logon id and password of the authorized officer is used for the signature and is applied by the LGeC system when the claim is submitted. Pursuant to GC 17561(d), reimbursement claims are paid by October 15 or sixty days after the date the appropriation for the claim is effective, whichever is later. In the event the amount appropriated by the Legislature is insufficient to pay the approved amount in full for a program, claimants will receive a prorated payment in proportion to the amount of approved claims timely filed and on hand at the time of proration.

A claimant is entitled to receive accrued interest at the pooled money investment account rate if the payment was made more than 60 days after the claim filing deadline or the actual date of claim receipt, whichever is later. For an initial claim, interest begins to accrue when the payment is made more than one year after the adoption of the program's statewide cost estimate. SCO may withhold up to twenty percent of the amount of an initial claim until the claim is audited to verify the actual amount of the mandated costs.

SCO reports the amounts of insufficient appropriations to the State Department of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Chairperson of the respective committee in each House of the Legislature, who consider appropriations in order to assure appropriation of these funds in the Budget Act. If these funds cannot be appropriated on a timely basis in the Budget Act, this information is transmitted to the Commission which will include these amounts in its report to assure that an appropriation is sufficient to pay the claims that was included in the next local government claims bill or other appropriation bills. When the supplementary funds become available, the balance of the claims will be paid.

Unless specified in the statutes, regulations, or P's & G's, the determination of allowable and unallowable costs for mandates is based on the P's & G's adopted by the Commission. The determination of allowable reimbursable mandated costs for unfunded mandates is made by the Commission. SCO determines allowable reimbursable costs, subject to amendment by the Commission, for mandates funded by special legislation. Allowable costs are those direct and indirect costs, less applicable credits, considered eligible for reimbursement. In order for costs to be allowable and thus eligible for reimbursement, the costs must meet the following general criteria:

1. The cost is necessary and reasonable for proper and efficient administration of the mandate and not a general expense required to carry out the overall responsibilities of government.
2. The cost is allocable to a particular cost objective identified in the P's & G's.

3. The cost is net of any applicable credits that offset or reduce expenses of items allocable to the mandate.

The SCO has identified certain costs that, should not be claimed as direct program costs unless specified as reimbursable under the program's P's & G's. These costs include, but are not limited to, subscriptions, depreciation, memberships, conferences, workshops, general education, and travel costs.

7. State Mandates Apportionment System (SMAS)

Chapter 1534, Statutes of 1985, established SMAS, a method of paying certain mandated programs as apportionments. This method is utilized whenever a program has been approved for inclusion in SMAS by the Commission.

When a mandated program has been included in SMAS, the SCO will determine a base year entitlement amount for each local agency that has submitted reimbursement claims, (or entitlement claims), for three consecutive fiscal years. A base year entitlement amount is determined by averaging the approved reimbursement claims, (or entitlement claims), for 1982-83, 1983-84, and 1984-85 years or any three consecutive fiscal years thereafter. The amounts are first adjusted by any change in the IPD, which is applied separately to each year's costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the Commission's approval.

Each local agency with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The amount of apportionment is adjusted annually for any change in the IPD. If the mandated program was included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and workload.

For cities and counties, workload means a change in population within their boundaries; for special districts, a change in population of the county in which the largest percentage of the district's population is located.

In the event a local agency has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the local agency may file an entitlement claim for each of those missed years to establish a base year entitlement. An entitlement claim means any claim filed by a local agency with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement shall not include any non-recurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30th. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the local agency determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based is set forth in GC Section 17615.8 and requires the approval of the Commission.

The following programs are placed in SMAS:

Program Name	Chapter/Statute	Program Number
Conservatorship: Developmentally Disabled Adults	Ch. 1304/80	67
Coroners	Ch. 498/77	88
Mentally Retarded Defendants: Diversion	Ch. 1253/80	66

Senior Citizens Property Tax Postponement

Ch. 1242/77

18

Listed are state mandated local programs and counties that are entitled to receive automatic apportionments in those fiscal years in which the program is funded.

Counties of:	Ch. 498/77 Coroners	Ch. 1242/77 Senior Citizens Property Tax Postponement	Ch. 1253/80 Mentally Retarded Defendants: Diversion	Ch. 1304/80 Developmentally Disabled Adults: Conservatorship

8. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Costs that are typically classified as direct costs are:

(1) Employee Wages, Salaries, and Fringe Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classification, hours worked on the mandate, and rate of pay. The claimant may, in-lieu of reporting actual compensation and fringe benefits, use a productive hourly rate:

(a) Productive Hourly Rate Options

A local agency may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee
- The weighted-average annual productive hours for each job title, or
- 1,800* annual productive hours for all employees

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claimant must maintain documentation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays
- Vacation earned
- Sick leave taken
- Informal time off
- Jury duty
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual fringe benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and fringe benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula: $[(EAS + Benefits) \div APH] = PHR$ $[(\$26,000 + \$8,099)] \div 1,800 \text{ hrs} = 18.94$	Description: EAS = Employee's Annual Salary APH = Annual Productive Hours PHR = Productive Hourly Rate
---	--

- As illustrated in Table 1, if you assume an employee's compensation was \$26,000 and \$8,099 for annual salary and fringe benefits, respectively, using the "Salary + Benefits Method," the productive hourly rate would be \$18.94. To convert a biweekly salary to Annual Salary, multiply the biweekly salary by 26. To convert a monthly salary to Annual Salary, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.
2. A claimant may also compute the productive hourly rate by using the "Percent of Salary Method."

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Fringe Benefits as a Percent of Salary		Step 2: Productive Hourly Rate
Retirement	15.00 %	Formula: [(EAS x (1 + FBR)) ÷ APH] = PHR [(\$26,000 x (1.3115)) ÷ 1,800] = \$18.94
Social Security & Medicare	7.65	
Health & Dental Insurance	5.25	
Workers Compensation	3.25	
Total	31.15 %	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
FBR = Fringe Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.
- Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include employer's contributions for social security, pension plans, insurance, worker's compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:
- The amount of compensation is reasonable for the service rendered.
 - The compensation paid and benefits received are appropriately authorized by the governing board.
 - Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees.
 - The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level job position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at the higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under

normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the claiming instructions allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	<u>Time Spent</u>	<u>Productive Hourly Rate</u>	<u>Total Cost by Employee</u>
Employee A	1.25 hrs	\$6.00	\$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		\$45.88
Average Productive Hourly Rate is $\$45.88 \div 5.50 \text{ hrs.} = \8.34			

(d) Employer's Fringe Benefits Contribution

A local agency has the option of claiming actual employer's fringe benefit contributions or may compute an average fringe benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and fringe benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each fringe benefit is computed, total them. For example:

<u>Employer's Contribution</u>	<u>% to Salary</u>
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	<u>28.65%</u>

(e) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies purchased to perform a particular mandated activity are expected to be reasonable in quality, quantity and cost. Purchases in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases shall be claimed at the actual price after deducting discounts, rebates and allowances received by local agencies.

(f) Calculating a Unit Cost for Materials and Supplies

In those instances where the claiming instructions suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Cost Per Unit</u>	<u>Amount of Supplies Used Per Activity</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper	0.02	4	\$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	<u>0.40</u>
			<u>\$0.64</u>

Table 2: Calculating a Unit Cost for Materials and Supplies

<u>Supplies</u>	<u>Supplies Used</u>	<u>Unit Cost of Supplies Per Activity</u>
Paper (\$10.00 for 500 sheet ream)	250 Sheets	\$5.00
Files (\$2.50 for box of 25)	10 Folders	1.00
Envelopes (\$3.00 for box of 100)	50 Envelopes	1.50
Photocopies (\$0.05 per copy)	40 Copies	<u>2.00</u>
		<u>\$9.50</u>

If the number of reimbursable instances are 25, then the unit cost of supplies is \$0.38 per reimbursable instance ($\$9.50 \div 25$).

(g) Contract Services

The cost of contract services is allowable if the local agency lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must give the name of the contractor; explain the reason for having to hire a contractor; describe the mandated activities performed; give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate shall not exceed the rate specified in the claiming instructions for the mandated program. The contractor's invoice, or statement, which includes an itemized list of costs for activities performed, must accompany the claim.

(h) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the claiming instructions for the particular mandate. Equipment rentals used solely for the mandate, are reimbursable to the extent such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must explain the purpose and use for the equipment, the

time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the prorata portion of the rental costs can be claimed.

(i) Capital Outlay

Capital outlays for land, buildings, equipment, furniture and fixtures may be claimed if the claiming instructions specify them as allowable. If they are allowable, the claiming instructions for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the prorata portion of the purchase price used to implement the reimbursable activities can be claimed.

(j) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the claiming instructions may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the State Board of Control travel standards. When claiming travel expenses, the claimant must explain the purpose of the trip, identify the name and address of the persons incurring the expense, the date and time of departure and return for the trip, description of each expense claimed, the cost of transportation, number of private auto mileage traveled, and the cost of tolls and parking with receipts required for charges over \$10.00.

(k) Documentation

It is the responsibility of the claimant to make available to the SCO, upon request, documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

9. Indirect Costs

GC Section 17564(b) provides that claims for indirect costs shall be filed in the manner prescribed by the SCO. Indirect costs (or overhead) are those costs incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular program without efforts disproportionate to the result achieved. Indirect costs may include both (1) the overhead costs for the unit performing the mandate and (2) the costs of central government services distributed through the central service cost allocation plan and not otherwise treated as a direct cost.

Previously, the costs of elected officials were considered expenses related to general government and, thus, were unallowable for reimbursement purposes. Recent interpretation has moved in the opposite direction, except for those items of cost, which are unallowable in the cost principles set forth in Office of Management and Budget Circular (OMB) Circular A-87 (Title 2 CFR Part 225). A cost that is necessary for proper and efficient administration of a program and is identifiable to that program is eligible for consideration as allocable indirect costs. Allocable costs for time spent on programs, must be supported by time record.

Local agencies have the option of using 10% of direct labor as indirect costs or claiming indirect costs through a department's Indirect Cost Rate Proposal (ICRP) for the program prepared in accordance with the provisions of Office of Management and Budget OMB Circular A-87 (Title 2 CFR Part 225.) (Refer to the Appendix-Costs Computation: Indirect Costs). An ICRP must be

prepared if the claim for indirect costs is in excess of 10% of direct salaries; the ICRP must be submitted with the claim.

A. Fixed 10% Rate Method

Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits. The use of the 10% rate may benefit small agencies where it is inefficient to prepare an ICRP.

Direct Costs Incurred By	On Behalf of	
<u>Auditor</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Warrant Writing:</u>		
A. Salary of employee working	\$5,000	\$1,000
B. Benefits of above	800	200
C. Cost of paper	350	100
D. First-line supervision (salaries)	3,000	500
E. Indirect cost 10% of A + D	<u>800</u>	<u>150</u>
Total amount charged to benefited departments for warrant writing services	<u>\$9,950</u>	<u>\$1,950</u>
Direct Costs Incurred By	On Behalf of	
<u>Building & Grounds Department</u>	<u>Welfare Administration</u>	<u>Health Department</u>
<u>Maintenance of Buildings:</u>		
A. Salary of employees performing maintenance	\$1,000	\$500
B. Benefits of above	200	100
C. Cleaning supplies	250	150
D. First-line supervision (salaries)	500	200
E. Indirect cost 10% of A + D	<u>150</u>	<u>70</u>
Total amount charged to benefited departments for building maintenance services	<u>\$2,100</u>	<u>\$1,020</u>

Any local agency using this method for claiming costs must submit a statement similar to the example above and with supporting data. The cost data required for desk audit purposes are described in the claiming instructions for that mandated program under Salaries and Employee Benefits, Materials and Supplies, Contract Services, Travel Expenses, etc.

B. Indirect Cost Rate Proposal Method

If a local agency elects not to utilize the 10% fixed rate method but wants to claim indirect costs, it must prepare an ICRP for the program. The proposal must follow the provisions of the Office of Management and Budget (OMB) Circular A-87 (Title 2 CFR Part 225), *Cost Principles for State, Local, and Indian Tribal Governments*. The development of the indirect cost rate

proposal requires that the indirect cost pool include only those costs which are incurred for a common or joint purpose that benefit more than one cost objective. The indirect cost pool may only include costs that can be shown to provide benefits to the program. In addition, total allocable indirect costs may only include costs, which cannot be directly charged to an identifiable cost center (i.e., program).

A method for preparing a departmental indirect cost rate proposal for programs is presented as Exhibit 1. Only this format is acceptable under the SCO reimbursement requirements. If more than one department is involved in the reimbursement program, each department must have their own indirect cost rate proposal for the program.

**INDIRECT COST RATE PROPOSAL

Total	\$ 170,000 (E)	\$ 9,000	\$ 70,000	\$ 91,000	\$ 4,000	\$ 87,000
Total Allocable Indirect Costs			\$ 300,000 (F)			
Distribution of Allocable Indirect Costs						
Based on Salaries & Wages		\$ 15,000	\$ (300,000)	\$ 285,000	\$ 30,000	\$ 255,000
Totals	\$ 3,140,000	\$ 1,001,000	\$ 0	\$ 2,139,000	\$ 170,000	\$ 1,969,000

(1) Notes to Exhibit 1

- (a) The department's ICRP plan for the distribution of costs to programs must follow the same format as shown on Exhibit 1. Specifically, there must be columns as follows: Description of Costs, Total Cost, Excludable and Unallowable Costs (may be combined or separated), Allowable Indirect Costs, and Allowable Direct Costs (which are further allocated to identifiable programs and other). No other format will be accepted.
- (b) Excluded costs are all costs that are unallowable and unallocable according to specific guidelines (OMB 2 CFR Part 225 and state laws).

Examples:

Contributions and donations: Cost of amusement; social activities and related incidental costs such as meals, beverages, lodging, rentals, transportation and gratuities; and pass through revenues to another unit or organization.

- (c) Allocable indirect costs are costs that are not identifiable to a specific program or cost pool and indirectly benefit all cost pools.
- (d) Direct costs are costs that benefit a specific program or cost pool.
- (e) Overhead costs are distributed to the department in the cost allocation plan, which was prepared in accordance with the OMB 2 CFR Part 225. Use the same year's cost allocation plan for developing the ICRP as the year for which the ICRP is being prepared. Do not include a roll forward adjustment when the program is in its initial year.
- (f) Distribution base for the computation of the indirect cost rate is total salaries and wages.

Total Allocable Direct Costs (direct S&W)	\$950,000
Excluded and Unallowable Costs (direct S&W)	50,000
Distribution Base	\$1,000,000

Therefore, the Indirect Cost Rate for Penal Code 987.9 Program is:

$$\text{ICRP} = \frac{\text{Allowable Indirect Costs}}{\text{Total Salaries and Wages}} = \frac{\$300,000}{\$1,000,000} = 30.00\%$$

10. Time Study Guidelines

Background

For costs incurred on or after January 1, 2005, a reasonable reimbursement methodology can be used as a formula for reimbursing local agency and school district costs mandated by the state that meets certain conditions specified in GC Section 17518.5(a). These costs can only be substituted for continuous records of actual time spend for a specific fiscal year if the program's P's & G's allow for the use of time studies.

Two methods are acceptable for documenting employee time charged to mandated cost programs: Actual Time Reporting and Time Study, which are described below. Application of time study results is restricted. As explained in Time Study Results below, the results may be projected toward a maximum of two years provided the claimant meets certain criteria.

Actual Time Reporting

P's & G's define reimbursable activities for each mandated cost program. When employees work on multiple activities, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards:

- They must reflect an after-the-fact (contemporaneous) distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for time distribution.

Time Study

In certain cases, a time study may be used to substitute for continuous records of actual time spent on multiple activities and/or programs. An effective time study requires that an activity be a task that is repetitive in nature. Activities that require a varying level of effort are not appropriate for time studies.

Time Study Plan

A time study plan is necessary before conducting the time study. The claimant must retain the time study plan for audit purposes. The plan needs to identify the following:

- Time period(s) to be studied – The plan must show that all time periods selected are representative of the fiscal year, and the results can be reasonably projected to approximate actual costs;
- Activities and/or programs to be studied – For each mandated program included, the time study must separately identify each reimbursable activity defined in the mandated program's parameters and guidelines, which are derived from the program's Statement of Decision. If a reimbursable activity in the parameters and guidelines identifies separate and distinct sub-activities, these sub-activities must also be treated as individual activities;

For example, sub-activities (a), (b), and (c) under Reimbursable Activity (B)(1) of the local agency's Domestic Violence Treatment Services: Authorization and Case Management program relate to information to be discussed during victim notification by the probation department and therefore are not separate and distinct activities. These sub-activities do not have to be separately studied.

- Process used to accomplish each reimbursable activity – Use flowcharts or similar analytical tools and/or written desk procedures to describe the process for each activity;
- Employee universe – The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study;
- Employee sample selection methodology – The plan must show that employees selected are representative of the employee universe, and the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations;

- Time increments to be recorded – The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) might be used for employees performing only a few functions that change very slowly over time. Very small increments (a number of minutes) may be needed for employees performing more short-term tasks.

Random moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed contemporaneously;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities and/or programs performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee (electronic signatures are acceptable) and be supported by corroborating evidence, which validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Time study results must be summarized to show how the time study supports the costs claimed for each activity. Any variations from the procedures identified in the original time study plan must be documented and explained

Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant may not apply time study results retroactively.

- Annual Reimbursement Claims – Claimants may use time studies to support costs incurred on or after January 1, 2005. Claimants may not use time studies for the period July 1, 2004, through December 31, 2004, unless (1) the program's P's & G's specifically allows time studies, and (2) the time study is prepared based on mandated activity occurring between July 1, 2004, and December 31, 2004.
- Initial Claims –When filing an initial claim for new mandated programs, claimants may only use time study results for costs incurred on or after January 1, 2005. Claimants may not use time studies to support costs incurred before January 1, 2005, unless (1) the program's P's & G's specifically allows time studies, and (2) the claimant prepares separate time studies for each fiscal year preceding January 1, 2005, based on mandated activity occurring during those years.

When projecting time study results, the claimant must certify that there have been no significant changes between years in either (1) the requirements of each mandated program activity or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain corroborating evidence that validates the mandated activity was actually performed. Time study results used to support subsequent years' claims are subject to the recordkeeping

requirements for those claims.

11. Offset Against State Mandated Claims

When part or all the costs of a mandated program are specifically reimbursable from non-local agency sources (e.g., state, federal, foundation, etc.), only that portion of any increased costs payable from local agency funds is eligible for reimbursement under the provisions of Government Code Section 17561.

A. Example 1

This example shows how the offset against state mandated claim is determined for local agencies receiving block grant revenues not based on a formula allocation. Listed below are six situations, which may occur at a local agency level. For hypothetical program costs of \$100,000: (1) through (4) show intended funding at 100% from non-local agency sources and (5) through (6) show cost sharing on a 50/50 basis with the local agency. Of the \$100,000 program cost, \$2,500 is the cost of state mandated activity. Offset against state mandated claims is the amount of actual non-local agency funding which exceeds the difference between program costs and state mandated costs. The offset against state mandated claims can not exceed the amount of state mandated costs. In (4), non-local revenues were fully realized to cover the entire cost of the program, including the state mandate activity; therefore, the offset against state mandated claims is \$2,500. In (1), non-local revenues were less than expected. Non-local agency funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and \$2,500 is claimable as mandated costs. In (5), the local agency is sharing 50% of the program cost. Since non-local revenues of \$50,000 were fully realized, the offset against state mandated claims is \$1,250.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
A.	Block Grants (funding not based on a formula allocation)				
1.	\$100,000	\$95,000	\$2,500	\$-0-	\$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	If in (5) the non-local matching share is less than the amount expected, for example \$49,000, the offset against state mandated claims is \$250. Therefore, the claimable mandated costs are \$2,250.				

* Local agency share is \$50,000 of the program costs.

B. Example 2

This example shows how the offset against state mandated claims are determined for local agencies receiving special project funds based on approved actual costs. Non-local revenues for special projects must be applied proportionately to approve costs. In (2), the entire program cost was approved. Since the non-local agency source covers 75% of the program cost, it also proportionately covered 75% of the \$2,500 state mandated costs, or \$1,875.

	<u>Program Costs</u>	<u>Actual Non-Local Agency Funding</u>	<u>State Mandated Costs</u>	<u>Offset Against State Mandated Claims</u>	<u>Claimable Mandated Costs</u>
B.	Special Projects (funding based on approved actual costs)				
1.	\$100,000	\$100,000	\$2,500	\$2,500	\$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	If in (2) the non-local matching share is less than the amount expected, because only \$60,000 of the program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to \$1,500. The offset against state mandated claim is \$1,125. Therefore, the claimable mandated costs are \$375.				

** Local agency share is \$25,000 of the program costs.

With respect to local agencies, the offset against state mandated claims for applicable federal and state local assistance programs includes, but is not limited to, the following funding sources:

Federal and State Funding Sources

Governing Authority

Federal Programs

CETA, PL 93-203	Federal-Health – Administration
Federal Aid for Construction	Federal-Public Assistance – Administration
Federal Aid for Disaster	

State Programs

State Aid for Agriculture	State-Health – Administration
State Aid for Construction	State-Public Assistance - Administration
State Aid for Corrections	

12. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. Claimants will receive a *Notice of Claim Adjustments* detailing adjustments made by the SCO.

13. Audit of Costs

Pursuant to GC Section 17558.5, Subdivision (b), the SCO may conduct a field review of any claim after it has been submitted, prior to the reimbursement of the claim to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with SCO’s claiming instructions and the P’s & G’s adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

14. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification stating, "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure Section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

For costs incurred on or after January 1, 2005, an RRM can be used for reimbursing local agency that meets certain conditions specified in 17518.5(a).

15. Claim Forms and Instructions

A claimant may submit a computer generated report in substitution for Form-1 and Form-2 provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated and used by the claimant to file a reimbursement claim. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Component/Activity Cost Detail

This form is used to segregate the detail costs by claim component. In some mandates, specific reimbursable activities have been identified for each component. The expenses reported on this form must be supported by the official financial records of the claimant and copies of supporting documentation, as specified in the claiming instructions, must be submitted with the claims.

B. Form-1, Claim Summary

This form is used to summarize direct costs by component and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the entity. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 are required.

Submit a signed original and one copy of form FAM-27, Claim for Payment. **To expedite the payment process, please sign the FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

Use the following mailing addresses:

If delivered by
U.S. Postal Service:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

If delivered by

3301 C Street, Suite 700
Sacramento, CA 95816

16. Retention of Claiming Instructions

For your convenience, the revised claiming instructions in this package have been arranged in alphabetical order by program name. These revisions should be inserted in the Local Mandated Cost Manual and the old forms they replace should be removed. The instructions should then be retained for future reference, and the forms should be duplicated to meet your filing requirements. Annually, updated forms and any other information or instructions claimants may need to file claims, as well as instructions and forms for all new programs released throughout the year will be placed on the SCO's web site at www.sco.ca.gov/ard_mancost.html.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, send e-mail to lrsdar@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

17. Retention of Claim Records and Supporting Documentation

Pursuant to GC Section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by local agency pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit will be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities must be retained during the period subject to audit. If the Controller has initiated an audit during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents shall be made available to SCO on request.

DEPARTMENT OF PERSONNEL ADMINISTRATION RULES**Moving and Relocation Expenses****Effective January 1, 2010****599.714.1 Scope**

(a) Whenever a permanent state officer or employee is required by any appointing power because of a change in assignment promotion or other reason related to his/her duties, to change his/her place of residence, such officer, agent or employee shall receive reimbursement of his/her actual and necessary moving and relocation expenses incurred by him/her both before and after and by reason of such change of residence, subject to the provisions and limitations of this article.

(b) For the purposes of this article, a move occurs on the official reporting date to the new headquarters, and when a change in residence is reasonable to be required. Relocation shall be paid, when the following conditions are met:

(1) The officer's or employees officially designated headquarters is changed for the advantage of the State, which includes the following:

(A) A promotion offered by any appointing authority, not including those movements that the employee could make through transfer, reinstatement, or reemployment eligibility; or

(B) An involuntary transfer initiated by and at the discretion of the appointing authority,

(C) Any involuntary transfer required to affect a mandatory reinstatement following:

(I) Termination of a career executive or exempt appointment

(II) Leave of absence

(III) Rejection from probation

(D) Any involuntary transfer required to affect a mandatory reinstatement following the expiration or involuntary termination of a temporary appointment, limited term appointment, or training and development assignment when:

(I) the employee did not relocate to accept the appointment or assignment, or

(II) the employee did relocate, at State expense, to accept the appointment or assignment

(2) The move must be a minimum of 50 miles plus the number of miles between the old residence and the old headquarters.

(3) Relocations that meet the above criteria will be fully reimbursed to the extent and limitations in this article.

(c) A change of residence is not deemed reasonable to be required for voluntary transfers or permissive reinstatements, with or without a salary increase, in response to general requests which specify that moving and relocation expenses will not be paid, or for any non-promotional transfer which is primarily for the benefit of the officer or employee.

(d) When an appointment does not meet the criteria in (a) and (b) the appointing power may, at his/her discretion, determine in advance that it is in the best interest of the State to reimburse all or part of the actual reasonable and necessary relocation expenses provided in this article as an incentive to recruit employees to positions that are designated by the appointing power as difficult to fill or because of outstanding qualifications of the appointee, or due to unusual and unavoidable hardship to the employee by reason of the change of residence.

(1) Relocations that meet this criteria shall be reimbursed only for the items in this article specifically authorized by the appointing power, and may be subject to further limitations designated by the appointing power.

(2) Upon determination that any reimbursement will be made, the appointing power shall:

(A) Determine which provisions will apply to the relocation and establish any additional limitations to those provisions such as dollar limits, weight limits, or time limits.

(B) Notify the employee in writing, of specific allowable reimbursements prior to the move.

(e) Requirements and limitations specified in this article may not be waived or exceeded by the appointing power.

(f) Unauthorized relocation expenses and relocation expenses incurred prior to receipt of a written notice of allowable relocation expenses are the responsibility of the employee.

599.715.1 Reimbursement for Miscellaneous Expenses-Excluded Employees

An officer or employee who is required to change his/her place of residence according to Section 599.714.1 may receive reimbursement for up to \$200 for miscellaneous expenses upon submission of documentation of the payment of all such expenses and certification that the expenses were related to dissolution of the old household and/or the establishment of a new household and were not otherwise reimbursed.

(a) Reimbursement for the installation and/or connection of appliances or antennas purchased after the change of residence shall be allowed provided no claim is made for installation and/or connection of a similar item in the movement of household goods, and installation and/or connection occurs within sixty days of the establishment of a new residence.

(b) Deposits are not reimbursable.

NOTE: Authority cited: Sections 19815.4(d), 19816 and 19820, Government Code. Reference: Section 19841, Government Code.

599.716.1 Reimbursement for Sale of a Residence

(a) Whenever an officer or employee is required, as defined in Section 599.714, to change his/her officially designated headquarter and such change requires the settlement of a lease on the employee's old residence, the officer or employee shall receive the actual and necessary costs of settlement of the unexpired lease to a maximum of one year.

(b) Reimbursement shall not be allowed if it is determined that the officer or employee knew or reasonably should have known that a transfer according to Section 599.714 was imminent before entering into a lease agreement.

(c) Claims for settlement of a lease shall be documented and itemized and submitted within six months following the new reporting date except that the Director of the Department of Personnel Administration may grant an extension of not more than three months upon receipt of evidence warranting such extension prior to the expiration of the six-months period.

(1) The claim may be a signed agreement between the officer or employee and the lessor or it may be made unilaterally by the officer or employee.

(2) In no event shall the final settlement by the State exceed one year's rent nor shall it include any costs, deposits or fees.

599.717.1 Settlement of a Lease-Excluded Employee

(a) Whenever an officer or employee is required, as defined by Section 599.714.1(a) to change his/her place of residence and such change requires the settlement of a lease on the employee's old residence, the officer or employee shall receive the actual and necessary cost of settlement of the unexpired lease to a maximum of one year. In no event shall the lease settlement include any costs, deposits or fees.

(1) Reimbursement shall not be allowed if it is determined that the officer or employee knew or reasonably should have known that a transfer according to Section 599.714.1 was imminent before entering into a lease agreement.

(2) Claims for settlement of a lease shall include a lease agreement signed by both the employee and the lessor, and shall be itemized and submitted within nine months following the new reporting date.

(b) If an employee is required under 599.714.1(a) to change his/her place of residence and such notice to the employee is insufficient to provide the employee the notice period required by a month to month rental agreement, reimbursement may be claimed for the number of days penalty paid by the employee to a maximum of 30 calendar days.

(1) Reimbursements shall not be allowed for days that the employee failed to notify the landlord after notification by the employer of the reassignments.

(2) Claims shall be accompanied by a copy of the rental agreement, an itemized receipt for the penalty and the name and address of the individual or company to which the rental penalty has been paid.

(c) No reimbursement shall be made for forfeiture of cleaning or security deposits, or for repair, replacement, or damages of rental property.

599.718.1 Expenses for Moving Household Effects

(a) For the purpose of these regulations, household or personal effects include items such as furniture, clothing, musical instruments, household appliances, food, and other items that are usual or necessary for the maintenance of one household.

(b) Household effects shall not include items connected to a for-profit business, items from another household, items that are permanently affixed to the property being vacated or items that would normally be discarded or recycled.

(c) At the discretion of the appointing power, other items may be considered household effects based on a consideration of the estimated cost of the move and a review of the items listed on the inventory. Expenses related to moving items other than those described in (a) that have not been approved by the appointing power shall be the responsibility of the employee.

NOTE: Authority cited: Sections 19815.4(d), 19816 and 19820, Government Code, Reference: Section 19841.

599.719.1 Reimbursement for Moving Household Effects

Reimbursements shall be allowed for the cost of moving an employee's effects either via commercial household goods carrier or by the employee. Reimbursements under this rule shall not exceed the cost of moving the employee's household goods from the old residence to the new headquarters plus 50 miles unless the appointing authority determines that a longer move is in the best interest of the State. Any additional expense associated with an interstate or intercountry move shall be approved in advance by the appointing power. No reimbursement will be allowed for the hiring of casual labor.

(a) When the employee retains a commercial mover, reimbursement for actual and necessary expenses incurred by a commercial mover under this article for the packing, insurance, one pickup, transportation, storage-in-transit (not including warehouse handling charges except when required by interstate tariffs), one delivery, unpacking, and installation at the new location of an employee's household effects shall be allowed subject to the following:

(1) Weight of household effects for which expenses may be reimbursed shall not exceed 5,000 kilograms (11,000 pounds).

(2) Duration of storage-in-transit for which charges may be reimbursed shall not exceed 60 calendar days unless a longer period of storage is approved in advance by the appointing authority based on hardship to the employee.

(3) Rates at which reimbursement is allowed shall not exceed the minimum rates, at the minimum declared valuation, established by the California Public Utilities Commission for household goods carriers, unless a higher rate is approved by the Department of General Services.

(4) Cost of insurance for which reimbursement is allowed shall not exceed the cost of insurance coverage at \$2.00 valuation for each pound of household effects shipped by household goods carrier.

(5) Claims for exceptions to the 11,000 pounds statutory limit will be considered by the appointing authority up to a maximum of 23,000 pounds, only when it has been determined that every reasonable effort had been made to conform to the limit. Exceptions to the number of pick-ups and deliveries may be made by the appointing power when it is reasonably necessary and in the best interest of the state.

(b) When the employee does not retain a commercial mover, reimbursement shall be allowed as follows for expenses related to the movement by the employee of his/her household effects in a truck or trailer.

(1) Rental of a truck or trailer from a commercial establishment. When not included in the truck rental rate, the cost of gasoline, rental of furniture, dolly, packing cartons and protective pads will be reimbursed. If the total costs exceed \$1,000 the claim must be accompanied by at least one written commercial rate quote. Reimbursement will be made at the rate (including gasoline) which results in the lowest cost; or

(2) Mileage reimbursement at the rates provided in Section or 599.631.1 (b) for noncommercial privately owned motor vehicles used in transporting the employee's household effects.

(3) Reimbursement for more than one trip by the method described in (b)(1) or (2) above may be allowed if the employee's agency has determined that the total cost would be less than the cost of movement by a commercial household goods carrier.

(c) If household goods are moved exclusively in the employee's personal vehicle, reimbursement for mileage may be claimed at the State mileage rate. No other mileage or moving expense shall be allowed.

(d) All claims for the reimbursement of the movement of household goods require receipts. Unless an exception is granted by the appointing authority, claims shall be submitted no later than 2 years and 60 days from the effective date of appointment or 15 days prior to voluntary separation, whichever is first.

599.720.1 Reimbursement for Movement of a Mobile Home

For the movement of a mobile home, which contains the household effects of an officer or employee, and has served as the employee's residence at the previous location at the time of notification of relocation, reimbursement will be allowed as follows:

(a) Where transportation of the trailer coach is by a commercial mobile home transporter and receipts are submitted:

(1) For tolls, taxes, charges, fees, or permits fixed by the State or local authority required for the transportation or assembly or trailer coaches actually incurred by the employee.

(2) Charges for disassembly and assembly of the trailer, including but not limited to, disassembly and assembly of trailer, skirt, awnings, porch, the trailer coach itself, and other miscellaneous documented, itemized expenses related to the dissolution of the old household and/or the establishment of the new household, up to \$2,500 unless an exception is approved by the appointing power.

(3) Reimbursement will be allowed for the actual cost supported by voucher and installation of wheels and axles necessary to comply with the requirements of Chapter 5, Article 1 of the California Vehicle Code.

(4) Three competitive bids shall be obtained and reimbursement will be approved at the lowest bid. Based on information documenting the attempt to obtain three bids as provided by the employee, the appointing power may waive the three-bid requirement.

(5) Reimbursement received under this section precludes any additional reimbursement for miscellaneous expenses under Section 599.715.1.

(6) Movement of the trailer coach at rates exceeding the minimum rates established by the California Public Utilities Commission for mobile home transporters:

(7) Charges at P. U. C. minimum rates to obtain permits identified above:

(8) Storage-in-transit for up to 60 calendar days at P. U. C. minimum rates, unless an extension is approved by the appointing authority.

(b) Where transportation of the coach is by an employee, expenses may be claimed for a one-way trip by submitting gasoline receipts.

(c) Reimbursement will not be allowed for :

(1) Purchase of parts and materials except for those items necessary to comply with the minimum requirements of the California Administrative Code, Title 25, Chapter 5.

(2) Repairs including tires and tubes, and breakdown in transit.

(3) Costs associated with maintenance or repair of the trailer coach.

(4) Costs for separate shipment of household goods carrier unless that is determined to be the most economical method of transport.

(5) Costs associated with the movement or handling of permanent structures.

(d) All claims related to the movement of a trailer coach and the household goods therein require receipts and shall be submitted no later than 2 years and 60 days from the effective date of appointment, or 15 days prior to the voluntary separation, whichever is first. No extension will be granted.

599.722.1 Relocation Subsistence Reimbursement and Mileage

(a) If eligible under Section 599.714(a), an officer or employee shall be reimbursed for actual lodging, supported by a receipt, and meal and incidental expenses in accordance with and not to exceed the rate established in Section 599.619(a)(1) and (2), while locating a permanent residence at the new location. Employees who do not furnish receipts for lodging may be reimbursed for noncommercial meals and noncommercial lodging in accordance with 599.619(b). A permanent residence is typically an abode that is purchased, or rented on a monthly basis, of a type that provides long-term living accommodations, where any utilities are hooked up (gas, electric, cable, phone), and mail is delivered.

(1) Reimbursement may be claimed for up to 60 days, except an extension of up to 30 days may be granted when the Appointing power has determined in advance that the delay of change of residence is a result of unusual and unavoidable circumstances that are beyond the control of the officer or employee. The maximum reimbursement to be received by said officer, or employee shall not exceed the equivalent dollar amount of 60 days of full meals, incidentals, and receipted lodging.

(2) Interruptions in relocation caused by sick leave, vacation or other authorized leaves of absence shall be reimbursable at the option of the employee providing the employee remains at the new location and is actively seeking a permanent residence.

(3) The relocation subsistence reimbursement shall terminate immediately upon establishment of a permanent residence. The appointing power shall determine when a permanent residence has been established.

(4) Partial days shall count as full days for the purpose of computing the 60-day period.

(b) Upon approval of the Appointing Power, meals and/or lodging expenses, for up to fourteen days, arising from trips to the new location for the sole purpose of locating housing shall be reimbursed in accordance with Section 599.619(a)(1) and (2), or 599.619(c)(1) or 599.619(d). Claims for reimbursement of meals/lodging expenses in this item are limited to those incurred after receipt of formal written authorization for relocation and prior to the effective date of appointment.

The period claimed should be included in the computation of the 60-day relocation period.

(c) Reimbursement for travel from the old residence to the new headquarters may be claimed one way one time and shall not exceed the mileage rate allowed in 599.631(a).

Note: Authority cited: Section 3539.5, Government Code. Reference: Section 19841, Government Code.

599.724.1 Payment of Claims for Moving and Relocation Expenses

(a) The Department of Personnel Administration shall be responsible for prescribing any specific procedures necessary for effective and economical operation of this article. Claims shall be made on authorized forms, scheduled in the normal manner and submitted through regular channels to the State Controller for payment. All claims must be substantiated by invoices, receipts, or other evidence for each item claimed.

(b) Agencies may contract directly with the carrier for movement of household effects of officers and employees at state expense, subject to the same restrictions as if the shipment was arranged by the officer or employee and reimbursed by the State.

(c) If the change in residence results in the salary of the officer or employee being paid by a different appointing power, all allowable moving and relocation expenses shall be paid by the new appointing power except where the old appointing power agrees to pay all or part of the expenses allowable under this Article.

(d) Each department shall be responsible for insuring that upon notice to the employee of an impending move a copy of these rules shall be given to the officer or employee.

(e) When exceptions have been granted by an appointing authority, the written justification of those exceptions shall be maintained with the applicable claims.

599.619 Reimbursement for Meals and Lodging

The employee on travel status shall be reimbursed actual expenses for receipted lodging, and for meals and incidentals as provided in this section, unless directed to travel under the provision of 599.624.1. Lodging and/or meals provided by the State or included in hotel expenses or conference fees, or in transportation costs such as airline tickets, or otherwise provided shall not be claimed for reimbursement. Snacks and continental breakfasts, such as rolls, juice and coffee, are not considered to be meals. The circumstances of travel will determine the rate allowed.

(a) Short-term Travel. Reimbursement for short-term subsistence will be authorized only when the traveler incurs expenses arising from the use of reasonable, moderately priced commercial lodging and meal establishments, such as hotels, motels, bed and breakfast inns, campgrounds, restaurants, cafes, diners, etc., that cater to the general public. Employees who stay with friends or relatives may claim meals only in accordance with the rates and time frames set forth below. Lodging receipts are required. The short-term rate is intended for trips of such duration that weekly or monthly rates are not obtainable and will be discontinued after the 30th consecutive day assigned to one location unless an extension has been previously documented and approved by the appointing power. In extending short-term travel, the appointing power shall consider the expected remaining length of travel assignment.

(1) In computing reimbursement for continuous short-term travel of more than 24 hours and less than 31 consecutive days, the employee will be reimbursed for actual costs up to the maximum allowed for each meal, incidental, and lodging expense for each complete 24 hours of travel, beginning with the traveler's time of departure and return, as follows:

(A) On the first day of travel on a trip of 24 hours or more:

- Trip begins at or before 6am: breakfast may be claimed on the first day
- Trip begins at or before 11am: lunch may be claimed on the first day
- Trip begins at or before 5pm: dinner may be claimed on the first day

(B) On the fractional day of travel at the end of the trip of more than 24 hours:

- Trip ends at 8 am: breakfast may be claimed
- Trip ends at or after 2pm: lunch may be claimed
- Trip ends at or after 7pm: dinner may be claimed

If the fractional day includes an overnight stay, receipted lodging may be claimed. No meal or lodging expense may be claimed or reimbursed more than once on any given date or during any 24-hour period.

(C) Reimbursement shall be for actual expenses, subject to the following maximum rates:

Meals:

Breakfast	\$ 6.00
Lunch	\$10.00
Dinner	\$18.00
Incidentals	\$ 6.00

Receipts for meals must be maintained by the employee as substantiation that the amount claimed was not in excess of the amount of actual expense. The term incidentals includes but is not limited to expenses for laundry, cleaning and pressing of clothing, and fees and tips for services, such as for porters and baggage carriers. It does not include taxicab fares, lodging taxes or the costs of telegrams or telephone calls.

Lodging

Statewide, with receipts. Actual up to \$84.00 plus tax

When employees are required to do business and obtain lodging in the Counties of Los Angeles and San Diego and an actual lodging up to \$110.00 plus tax.

When employees are required to do business and obtain lodging in the Counties of Alameda, San Francisco, San Mateo and Santa Clara, actual lodging up to \$140.00 plus tax.

If lodging receipts are not submitted, reimbursement will be for actual expenses for meals/incidentals only at the rates and time frames set forth in this section.

(2) In computing reimbursement for continuous travel of less than 24 hours, actual expenses, up to the maximums in (C) above, will be reimbursed for breakfast and/ or dinner and/ or lodging in accordance with the following time frames:

Travel begins at or before 6 a.m. and ends at or after 9 a.m.: Breakfast may be claimed

Travel begins at or before 4 p.m. and ends at or after 7 p.m.: Dinner may be claimed

If the trip of less than 24 hours includes an overnight stay, receipted lodging may be claimed.

No lunch or incidentals may be reimbursed on travel of less than 24 hours.

(b) Long-term Travel. Reimbursement for long-term meals and receipted lodging will be authorized when the traveler incurs expenses in one location comparable to those arising from the use of commercial establishments catering to the long-term visitor. Meals and/or lodging provided by the State shall not be claimed for reimbursement. With approval of the appointing power and upon meeting the criteria in (3) below, an employee on long-term field assignment who is living at the long-term location may claim either:

(1) \$24.00 for meals and incidentals and up to \$24.00 for receipted lodging for travel of 12 hours up to 24 hours; either \$24.00 for meals or up to \$24.00 for receipted lodging for travel less than 12 hours, or

(2) Reimbursement for actual individual expense, substantiated by receipts for lodging, utility, gas, and electricity, up to a maximum of \$1,130.00 per calendar month while on a long term assignment, and \$10.00 for incidentals, without receipts, for each period of 12 to 24 hours; \$5.00 for meals and incidentals for periods of less than 12 hours at the long term location.

(3) To claim expenses under either (1) or (2) above, the employee must meet the following criteria:

(A) The employee continues to maintain a permanent residence at the primary headquarters and

(B) The permanent residence is occupied by the employee's dependents, or

(C) The permanent residence is maintained at a net expense to the employee exceeding \$200 per month.

(D) The employee must submit substantiating evidence of these conditions to the appointing power in accordance with its requirements.

(4) Employees who do not meet the criteria to claim (1) or (2) above may claim \$12.00 for meals and incidentals and \$12.00 for receipted lodging for every 12 to 24 hours at the long term location; \$12.00 for meals or \$12.00 receipted lodging for periods of less than 12 hours at the long term location.

(5) With the approval of the appointing power, the reimbursement of long term lodging may continue when the employee is away from the long term location on short term business travel or other absences from the location as approved by the appointing authority.

(c) Out-of-State Travel. Out-of-State travel is any kind of travel outside the State of California for the purpose of conducting business outside the State of California. For short-term out-of-state travel, employees will be reimbursed for actual lodging expenses, supported by receipt, and will be reimbursed for meal and incidental expenses as defined in section 599.619(a). Failure to furnish lodging receipts will limit reimbursement to meals only at the rates specified in (a). Long-term out-of-

state travel will be reimbursed according to Section 599.619(c).

(d) Out-of-Country Travel. For short-term out-of-country travel, employees will be reimbursed for actual lodging expenses, supported by a receipt, and will be reimbursed for actual meal and incidental expenses subject to maximum rates in accordance with the published Government meal and incidental rates for foreign travel for the dates of travel. Failure to furnish lodging receipts will limit reimbursement to meals only in accordance with the published Government meals and incidental rates for foreign travel. Long-term out-of-country travel will be reimbursed according to Section 599.619(a) through (c).

(e) Exceptions to reimburse in excess of the maximum lodging rate cited in (a) of this rule may be granted by the Appointing Power only in an emergency, or when there is no lodging available at the State maximum rate or when it is cost effective. The Appointing Power shall document the reasons for each exception and shall keep this documentation on file for three calendar years from the date of the exception.

NOTE: Authority cited; sections 3539.5, 19815.4(d), 19816 and 19820, Government Code. Reference: Sections 3527(b) and 11030, Government Code.

599.631 TRANSPORTATION BY PRIVATELY OWNED AUTOMOBILE

(a) Where the employee is authorized to use a privately owned automobile on official state business the reimbursement rate shall be up to 50 cents per mile. Claims for reimbursement for private vehicle expenses must include the vehicle license number and the name of each state officer, employee, or board, commission, or authority, member transported on the trip. No reimbursement of transportation expense shall be allowed any passenger in any vehicle operated by another state officer, employee, or member.

(1) Expenses arriving from travel between home and headquarters or garage shall not be allowed, except as provided in 599.626(d)(2) or 599.626.1(c), regardless of the employee's normal mode of transportation.

(2) When a trip is commenced or terminated at a claimant's home on a regularly scheduled work day, the distance traveled shall be computed from either his or her residence or headquarters, whichever shall result in the lesser distance except as provided in 599.626.1(c).

(3) However, if the employee commences or terminates travel on a regularly scheduled day off, mileage may be computed from his or her residence.

(b) Where the employee's use of a privately owned automobile is authorized for travel to or from a common carrier terminal, and the automobile is not parked at the terminal during the period of travel, the employee may claim double the number of miles between the terminal and the employee's headquarters of residence, whichever is less, at a rate defined in section 599.631(a), while the employee occupies the automobile for the distance between the terminal and his or her residence or headquarters. If the employee commences or terminates travel one hour before or after his/her regularly scheduled work day, or on a regularly scheduled day off, mileage may be computed from his/her residence.

(c) All ferry, bridge, or toll charges while on state business will be allowed with any required receipts.

(d) All necessary parking charges while on state business will be allowed, with any required receipts, for:

(1) Day parking on trips away from the headquarters office and employee's primary residence.

(2) Overnight parking on trips away from the headquarters and employee's primary residence, except that parking shall not be claimed if expense-free overnight parking is available.

(3) Day parking adjacent to either headquarters office, a temporary job site, or training site, but only if the employee had other reimbursable private or state automobile expenses for the same day. An employee may not prorate weekly or monthly parking fees.

(e) Gasoline, maintenance, and automobile repair expenses will not be allowed.

(f) The mileage reimbursement rates include the cost of maintaining liability insurance at the minimum amount prescribed by a law and collection insurance sufficient to cover the reasonable value of the automobile, less a deductible. When a privately owned automobile operated by a state officer, agent, or employee is damaged by collision or is otherwise accidentally damaged, reimbursement for repair or the deductible to a maximum of \$500.00 will be allowed if:

- (1) The damage occurred while the automobile was used on official business by permission or authorization of the employing agency; and
 - (2) The automobile was damaged through no fault of the state officer, agent, or employee; and
 - (3) The amount claimed is an actual loss to the state officer, agent, or employee, and is not recoverable directly from or through the insurance coverage of any party involved in the accident; and
 - (4) The loss claimed does not result from a decision of a state officer, agent, or employee not to maintain collision coverage; and
 - (5) The claim is processed in accordance with the procedures prescribed by the Department of Personnel Administration.
- (g) Specialized Vehicles. An employee with a physical disability who must operate a motor vehicle on official state business and who can operate only specially equipped or modified vehicles may claim a rate of 34 cents per mile without certification and up to 37 cents per mile with certification. Where travel is authorized to and from a common carrier terminal, as specified in section 599.631(b) the employee may compute the mileage as defined in Section 599.631(b). Supervisors approving these claims must determine the employee's need for the use of such vehicles.

AUTHORIZED RELOCATION EXPENSES

Per Diem - Employees may claim up to 60 days while at the new location until a new permanent residence is found. Specific per diem allowance for excluded employees are attached. Extensions of the per diem may be granted by the Department of Personnel Administration if the employee suffers unusual hardship. Requests for extensions must be submitted to the Relocation Liaison, on a Std. 256 prior to the expiration of the 60 day period. The Relocation Liaison will review the Std. 256 for completeness then forward to the Department of Personnel Administration.

Shipment of Household Goods - The State will pay for the packing, transportation, insurance, storage-in-transit, unpacking and installation of employee's household effects. The employer will issue the relocating employee a "Moving Service Authorization" which the employee will give to a NY licensed mover. The Moving Service Authorization authorizes the mover to bill the State directly. There is no actual dollar limitation, (the State only pays minimum tariff rates), however there is an 11,000 pound weight limit. If the mover estimates the weight of the household goods to be more than 11,000 pounds, the employee should immediately submit a Std. 256 with the mover's estimate to the Relocation Liaison. The Department of Personnel Administration may approve excess weight provided the employee requests the exception in advance of the actual move.

The State will not pay for the shipment of the following prohibited items:

Automobiles other motor vehicles farm tractor, implements and equipment trailers with or without other property boats all animals, livestock, or pets belongings which are not the property of the immediate family of the officer or employee belongings related to commercial enterprises engaged in by the officer or employee firewood, fuels bricks, sand ceramic wall tile wire fence or other building materials wastepaper and rags.

Storage in Transit - The State will pay for the storage of household goods for up to 60 days. Storage is limited to 11,000 pounds of household goods unless the excess weight has been previously approved by DPA. The storage company should bill the State directly using the authorization of the Moving Service Authorization. Miscellaneous items taken out of storage prior to the moving company delivering all household goods is not reimbursable and must be paid by the employee.

Sale of Residence - The State will pay for certain costs associated with the sale of the employee's dwelling which was his/her residence at the time of notification of the transfer.

Reimbursable costs are:

Brokerage Commission, Escrow fees, Title insurance, Prepayment penalties, Local taxes, charges or fees required to consummate the sale. Miscellaneous sellers costs up to \$200.00.

Nonreimbursable Costs are:

Seller's Points, Property tax, Repair work and re-inspection fees.

Excluded employees have two years from the reporting date at the new headquarters to submit a claim for

reimbursement of seller's costs. There is no extension of the time limit for Non-represented employees.

Settlement of a Lease - The State will pay for the settlement of a lease which was entered into prior to notification of the transfer. Claims for payment of the lease settlement must be submitted within 9 months from the reporting date at the new headquarters.

Movement of a Trailer Coach - The State will pay for the actual cost of transporting the mobile home to the new location plus up to \$2,500 for disassembly and assembly of the trailer. Request for reimbursement in excess of \$2,500 must be submitted to DPA on a Std. 256 prior to the move; approval will only be given for the lowest of three bids. Household goods must be shipped in the mobile home unless DPA approves a separate shipment.

Miscellaneous - There is a \$200.00 miscellaneous allowance with documentation and certification, which is intended to assist the employee in establishing the new household. This allowance should be used to pay utility installation fees, appliance hook-up fees and the like. It is appropriate to use this allowance for cable hook-up. This allowance may not be used to satisfy deposit requirements. The allowance may not be claimed if moving a mobile home; hook-up, etc., are included in the mobile home set-up charge.

Mileage - The employee may be reimbursed 50 cents per mile for one vehicle to make one-way trip between the old residence and the new residence effective January 1, 2010. Anything over locating cents is considered taxable income.

Private car mileage for the purpose of locating housing at the new location is not reimbursable.

EXPENSES INCURRED PRIOR TO THE OFFICIAL TRANSFER CANNOT BE CLAIMED.

OFFICE OF THE STATE CONTROLLER
STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2010-17
ANIMAL ADOPTION
NOVEMBER 15, 2010

Reimbursable Period: July 1, 2009 through July 27, 2009

In accordance with Government Code (GC) Sections 17560 and 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of state mandated cost programs. The following are claiming instructions and forms that eligible claimants must use for filing claims for the Animal Adoption program. These claiming instructions are issued subsequent to adoption of the program's Parameters and Guidelines (P's & G's) by the Commission on State Mandates (Commission). The P's & G's are included as an integral part of the claiming instructions.

On January 25, 2001, the Commission determined that Chapter 752, Statutes of 1998, established costs mandated by the State according to the provisions listed in the P's & G's which are included as an integral part of the claiming instructions.

Requirements, Limitations, and Exceptions

Refer to exclusions listed in the P's & G's as follows: Page 10 – 12, for Care and Maintenance; page 15 for Population Exclusions; and page 16 for Veterinary Exclusions.

Eligible Claimants

Any city, county, dependent special district, or joint powers authority comprised of a city, county, and/or city and county that incurs increased costs, as a direct result of this mandate is eligible to claim reimbursement of these costs.

Filing Deadlines

A. Reimbursement Claims

Costs incurred for compliance with this mandate are reimbursable for the period **July 1, 2009 through July 27, 2009**. Claims must be filed with the SCO and be delivered or postmarked on or before **February 15, 2011**. Claims filed after **February 15, 2011**, are subject to a late penalty. **Claims filed more than one year after the applicable deadlines will not be accepted.**

B. Late Penalty

1. Initial Claims

Late initial claims are assessed a late penalty of 10% of the total amount of the initial claims without limitation.

2. Annual Reimbursement Claims

Annual reimbursement claims must be filed by February 15 of the following fiscal year in which costs were incurred or the claims will be reduced by a late penalty.

Late annual reimbursement claims are assessed a late penalty of 10% of the claim amount; \$10,000 maximum penalty.

Minimum Claim Cost

GC Section 17564(a) provides that no claim may be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars (**\$1,000**), provided that a county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds **\$1,000**, even if the individual direct service district's or special district's claim does not each exceed **\$1,000**. The county shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each direct service district or special district. These combined claims may be filed only when the county is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible district. All subsequent claims based upon the same mandate shall only be filed in the combined form unless a direct service district or special district provides a written notice of its intent to file a separate claim to the county and to the SCO, at least one hundred and eighty days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, notices of order of suspension or revocation, sworn reports, arrest reports, notices to appear, employee time records, or time logs, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, and declarations. Declarations must include a certification or declaration stating: "I certify, (or declare), under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of the Code of Civil Procedure Section 2015.5.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

Audit of Costs

All claims submitted to the SCO are subject to review to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a "Notice of Claim Adjustment" specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, Subdivision (a), a reimbursement claim for actual costs filed by a claimant is subject to audit by the SCO no later than three years after the date that the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit will commence to run from the date of initial payment of the claim.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents must be made available to the SCO on request.

Retention of Claim Documentation

All documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or last amended regardless of the year of costs incurred. If no funds were appropriated for initial claims at the time the claim was filed, supporting documents must be retained for three years from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and must be made available to the SCO on request.

Address for Filing Claims

Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms. **To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

Animal Adoption

I. Summary of the Mandate

The test claim legislation was enacted in an attempt to end the euthanasia of adoptable and treatable animals. Generally, the test claim legislation increased the holding period for stray and abandoned dogs, cats, and other specified animals; required the verification of the temperament of feral cats; required the posting of lost and found lists; required the maintenance of records for impounded animals; and required that impounded animals receive "necessary and prompt veterinary care."

The Commission partially approved this test claim, pursuant to article XIII B, section 6 of the California Constitution and Government Code section 17514, for the *increased costs* in performing the following activities only:

1. Providing care and maintenance during the increased holding period for impounded dogs and cats that are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment (Food & Agr. Code, §§ 31108, 31752);
2. Providing care and maintenance for four business days from the day after impoundment, as specified below in 3 (a) and 3 (b), or six business days from the day after impoundment, for impounded rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, or tortoises legally allowed as personal property that are ultimately euthanized (Food & Agr. Code, § 31753);
3. For dogs, cats, and other specified animals held for four business days after the day of impoundment, either:
 - (a) Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or

(b) For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed (Food & Agr., Code §§ 31108, 31752, and 31753);

4. Verifying whether a cat is feral or tame by using a standardized protocol (Food & Agr. Code, § 31752.5);
5. Posting lost and found lists (Food & Agr. Code, § 32001);
6. Maintaining records on animals that are not medically treated by a veterinarian, but are either taken up, euthanized after the holding period, or impounded (Food & Agr. Code, § 32003); and
7. Providing “necessary and prompt veterinary care” for abandoned animals, other than injured cats and dogs given emergency treatment, that are ultimately euthanized (Civ.Code, §§ 1834 and 1846).

II. Eligible Claimants

Any city, county, city and county, dependent special district, and joint powers authority comprised of a city, county, and/or city and county that incurs increased costs as a result of this reimbursable state mandated program is eligible to claim reimbursement of those costs.

III. Period of Reimbursement

The period of reimbursement for the activities in this parameters and guidelines amendment begins on July 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A local agency may file an estimated reimbursement claim by January 15 of the fiscal year in which costs are to be incurred, and, by January 15 following that fiscal year shall file an annual reimbursement claim that details the costs actually incurred for that fiscal year; or it may comply with the provisions of subdivision (b).
2. A local agency may, by January 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
3. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between October 15 and January 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years’ costs shall be submitted within

120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. Reimbursable Activities

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. One Time Activities

1. Develop policies and procedures to implement the reimbursable activities listed in Section IV (B) of these parameters and guidelines.
2. Train staff on the reimbursable activities listed in Section IV (B) of these parameters and guidelines. (One-time per employee.)
3. Develop or procure computer software for the maintenance of records on animals specified in Section IV (B) (8) of these parameters and guidelines to the extent these costs are not claimed as an indirect cost under Section V (B) (8) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in Section IV (B) (8), only the

pro rata portion of the activity that is used for compliance with Section IV (B) (8) is reimbursable.

B. Ongoing Activities

1. Acquisition of Additional Space and/or Construction of New Facilities

Beginning January 1, 1999 - Acquiring additional space by purchase or lease and/or construction of new facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, acquire, and/or build facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Formula for Proportionate Share of Actual Costs:

Where:

(A) = Shelter square footage, 1998

(B) = Total animal average daily census (ADC), 1998

(C) = Square footage per ADC, 1998 (=A/B)

(D) = Total dog/cat ADC, 1998

(E) = Shelter square footage, claim year

(F) = Total dog/cat ADC, claim year

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(I) = Eligible dog/cat square footage, claim year

For shelters that meet the conditions of to Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:¹

$$(I) = 2/5 \times C \times F$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(I) = 4/7 \times C \times F$$

(J) = Reduction in eligible square footage due to decline in total dog/cat population (cannot exceed 0)

For shelters that meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:²

$$(J) = [(F/5 - D/3 \times C \times D) / (D/3)]$$

For shelters that do not meet the conditions of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats:

$$(J) = [(F/7 - D/3) \times C \times D] / (D/3)$$

(K) = Net eligible dog/cat square footage (cannot be less than 0)

$$(K = I+J)$$

(L) = Percentage of eligible dog/cat ADC, claim year (L = G/F)

(M) = Allowable dog/cat square footage (M = K x L)

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31573 (N = C x H)

(P) = Eligible percentage of acquisition/construction costs (cannot exceed 100%) [P = (M+N) / ((E-A)]

Statutes 2004, chapter 313 specifies that costs incurred to address preexisting shelter overcrowding or animal population growth are not reimbursable. The mandate reimburses for costs required due to the

¹ In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

² In order to select this option claimants must either make the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or (b) Have fewer than three full-time employees or are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

increased holding period required by Statutes 1998, chapter 752. In calculating net eligible dog/cat square footage, the formula recognizes that a decline in the number of animals sheltered may offset the effect of the increased holding period. For example, if the dog/cat average daily census does not change between the 1998 base year and the claim year, there is no additional square footage required.

The mandate reimburses only for costs attributable to eligible animals. Prior to Statutes 1998, chapter 752, shelters were required to hold dogs and cats for three days, whereas there was no required holding period for other animals. Therefore, the mandate reimbursable percentage formula separately calculates allowable square footage for dogs and cats, and allowable square footage for other animals specified by Food and Agricultural Code section 31753.

Acquisition/construction costs that are less than or equal to the cost of contract services for eligible animals are reimbursable.

Claimants may recalculate the eligible percentage of acquisition/construction costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Acquiring additional space and/or construction of new facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board that acquiring additional space and/or constructing new facilities is necessary for the increased holding period required by Statutes of 1998, Chapter 752 because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized. The determination by the governing board shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.1, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in a given year under the

holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;

- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Remodeling existing facilities is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holding period required by Statutes 1998, chapter 752; and
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes 1998, chapter 752 is not feasible or is more expensive than acquiring additional space and/or constructing new facilities to comply with the increased holder period required by Statutes 1998, chapter 752. This finding should include the cost to contract with existing shelters..

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

2. Remodeling/Renovating Existing Facilities

Beginning January 1, 1999 - Remodeling/renovating existing facilities to provide appropriate or adequate shelter necessary to comply with the mandated activities during the increased holding period for impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that die during the increased holding period or are ultimately euthanized.

Eligible claimants are only entitled to reimbursement for the proportionate share of actual costs required to plan, design, remodel and/or renovate existing facilities in a given fiscal year based on the pro rata representation of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that are held during the *increased* holding period specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines and die during the increased holding period or are ultimately euthanized, to the total population of animals housed in the facility (including those animals that are excluded from reimbursement, as specified in Sections IV (B) (3) and (4) of these Parameters and Guidelines) during the entire

holding period required by Food and Agriculture Code sections 31108, 31752 and 31753.

Since the remodeling/renovation will not increase square footage to address existing overcrowding or future growth issues, the mandate reimbursable percentage formula for remodeling/renovation would exclude the eligible percentage of square footage factor.

Formula for proportionate share of actual remodeling/renovation costs:

(A) = Shelter square footage

(B) = Total animal average daily census (ADC), claim year

(C) = Square footage per ADC, claim year ($C = A/B$)

(G) = Eligible dog/cat ADC, claim year

(H) = Eligible other animal ADC, claim year

(M) = Eligible dog/cat square footage, claim year

For shelters that meet the requirements of Food and Agricultural Code section 31108 (a)(1) or (2) for dogs, and section 31752 (a)(1) or (2) for cats, $M = 2/5 \times C \times G$.

For shelters that do not meet the requirements of Food and Agricultural Code section 31108(a)(1) or (2) for dogs, and section 31752(a)(1) or (2) for cats, $M = 4/7 \times C \times G$.

(N) = Allowable square footage for other animals specified by Food and Agricultural Code section 31753, claim year ($N = C \times H$)

(P) = Eligible percentage of remodeling/renovation costs

$[P = (M + N) / A]$

Claimants may recalculate the eligible percentage of remodeling/renovation costs each year, based on current animal population statistics. However, claimants may only claim allowable costs that have not been claimed in previous fiscal years.

Supporting Documentation Submitted with the Initial and Subsequent Reimbursement Claims

Remodeling/renovating existing facilities is reimbursable only to the extent that an eligible claimant submits, with the initial and/or subsequent reimbursement claim, documentation reflecting the following:

A determination by the governing board or a delegated representative that remodeling/renovating existing facilities is necessary because the existing facilities do not reasonably accommodate impounded stray or abandoned dogs, cats and other specified animals that are ultimately euthanized for the increased holding period required by Statutes of 1998, Chapter 752. The

determination by the governing board or delegated representative shall include all of the following findings:

- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 that were impounded in 1998. For purposes of claiming reimbursement under section IV.B.2, average Daily Census is defined as the average number of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 housed on any given day, in a 365-day period;
- The average daily census of impounded stray or abandoned dogs, cats, and other animals specified in Statutes of 1998, Chapter 752 in a given year under the holding periods required by Food and Agriculture Code sections 31108, 31752, and 31753, as added or amended by Statutes of 1998, Chapter 752;
- Existing facilities are not appropriately configured and/or equipped to comply with the increased holding period required by Statutes of 1998, Chapter 752;
- Contracting with existing private or public shelters in the area to house the increase of impounded stray or abandoned dogs, cats, or other animals specified in Statutes of 1998, Chapter 752 is not feasible or is more expensive than remodeling/renovating existing facilities to comply with the increased holding period required by Statutes 1998, chapter 752.

Documentation requirements may be satisfied in whole or in part by staff agenda items, staff reports, minutes of governing board meetings, transcripts of governing board meetings, certification by the governing board or declaration from the delegated representative describing the findings and determination, and/or a resolution adopted by the governing board pursuant to Food and Agriculture Code section 31755, as added by Statutes of 1999, Chapter 81 (Assembly Bill 1482).

3. Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, §§ 31108, 31752)

Beginning July 1, 1999 - Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats:

- Stray or abandoned dogs and cats that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn stray or abandoned dogs and cats that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned dogs and cats too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished dogs and cats; and
- Stray or abandoned dogs and cats that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method – Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all dogs and cats impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of all dogs and cats impounded at a facility. For purposes of claiming reimbursement under IV.B.3, average daily census is defined as the average number of all dogs and cats at a facility housed on any given day, in a 365-day period..
 - c) Multiply the average daily census of dogs and cats by 365 = yearly census of dogs and cats.
 - d) Divide the total annual cost of care by the yearly census of dogs and cats = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs and cats that die

during the increased holding period or are ultimately euthanized, by each reimbursable day (the difference between three days from the day of capture, and four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned dogs and cats are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day (i.e., dog-day, cat-day, etc.), the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

3. Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or are Ultimately Euthanized (Food & Agr. Code, § 31753)

Beginning January 1, 1999 - Providing care and maintenance for four or six business days from the day after impoundment for impounded stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Exclusions

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);
- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Methods for Claiming Costs

Eligible claimants may elect one of following two methods to claim costs for the care and maintenance of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized:

- Actual Cost Method –Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period.
 - a) Determine the total annual cost of care and maintenance for all animals specified in Food and Agriculture Code section 31753 that are impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
 - b) Determine the average daily census of the animals specified in Food and Agriculture Code section 31753.
 - c) Multiply the average daily census of the animals specified in Food and Agriculture Code section 31753 by 365 = yearly census of animals specified in Food and Agriculture Code section 31753.
 - d) Divide the total annual cost of care by the yearly census of animals specified in Food and Agriculture Code section 31753 = cost per animal per day.
 - e) Multiply the cost per animal per day, by the number of impounded stray or abandoned animals specified in Food and Agriculture Code section 31753 that die during the increased holding period or are ultimately euthanized, by

each reimbursable day (four or six business days from the day after impoundment).

- Time Study Method – Under the time study method, a random sample of impounded stray or abandoned animals are observed to determine the amount of time to provide care and maintenance during a reimbursable day.

The time study shall be developed using one representative month each quarter and be supported with actual source documentation. Time studies shall be conducted on a more frequent basis if there are significant variations of time expended from month to month. The time study shall identify hours devoted to each specific category. If the time study supports a fixed-cost approach such as an animal day, the eligible claimant shall document the analysis supporting the method used.

Time records used to support the time study shall:

- a) Reflect an after-the-fact distribution of each employee's actual activity;
- b) Account for the total activity for which each employee is compensated;
- c) Account for the total labor hours of the month;
- d) Be signed and dated by the employee not later than the end of the pay period that follows the pay period covered by the report; and
- e) Document, by signature or initials and date, supervisor approval.

4. Agencies Using the Holding Period of Four Business Days After the Day of Impoundment (Food & Agr. Code, §§ 31108, 31752, 31753)

Beginning January 1, 1999 - For impounded animals specified in Food and Agriculture Code section 31753, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Beginning July 1, 1999 - For impounded dogs and cats, either:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full-time employees or that are not open during all regular weekday business hours, establishing a procedure to enable owners to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

5. Feral Cats (Food & Agr. Code, § 31752.5)

Beginning January 1, 1999 - Verifying whether a cat is feral or tame by using a standardized protocol within the first three days of the required holding period if an apparently feral cat has not been reclaimed by its owner or caretaker.

6. Lost and Found Lists (Food & Agr. Code, § 32001)

Beginning January 1, 1999 - Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the local agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

7. Maintaining *Non-Medical* Records (Food & Agr. Code, § 32003)

Beginning January 1, 1999 - Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and

- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

The cost of software license renewal contracts, to the extent these costs are not claimed as an indirect cost under these parameters and guidelines, is eligible for reimbursement under Section V (A) (2) of these parameters and guidelines. If the computer software is utilized in some way that is not directly related to the maintenance of records specified in this section, only the pro rata portion of the software license renewal contract that is used for compliance with this section is reimbursable.

8. “Necessary and Prompt Veterinary Care” (Civ. Code, §§ 1834 and 1846)

Beginning January 1, 1999 - Providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized, during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and/or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury (Food & Agr. Code, § 17006);

- Newborn animals that need maternal care and have been impounded without their mothers (Food & Agr. Code, § 17006);
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal. (Pen. Code, §§ 597.1, subd. (e), 597f, subd. (d));
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Veterinary Care Exclusions

Eligible claimants are *not* entitled to reimbursement for providing the following veterinary procedures:

- Emergency treatment given to injured cats and dogs (Pen. Code, § 597f, subd. (b));
- Administration of rabies vaccination to dogs (Health & Saf. Code, § 121690);
- Implantation of microchip identification;
- Spay or neuter surgery and treatment;
- Euthanasia.

10. Beginning January 1, 1999 - Procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in Section IV (B) of these parameters and guidelines, to the extent these costs are not claimed as an indirect cost under Section V (B) of these parameters and guidelines. If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV (B), only the pro rata portion of the activity that is used for the purposes of the mandated program is reimbursable.

V. Claim Preparation and Submission

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

6. Training

Report the cost of training an employee to perform the reimbursable activities, as specified in Section IV of this document. Report the name and job classification of each employee preparing for, attending, and/or conducting training necessary to implement the reimbursable activities. Provide the title, subject, and purpose (related to the mandate of the training session), dates

attended, and location. If the training encompasses subjects broader than the reimbursable activities, only the pro-rata portion can be claimed. Report employee training time for each applicable reimbursable activity according to the rules of cost element A.1, Salaries and Benefits, and A.2, Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3, Contracted Services.

B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the Office of Management and Budget (OMB) Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10%.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in OMB Circular A-87 Attachments A and B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in OMB Circular A-87 Attachments A and B). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.), (2) direct salaries and wages, or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) classifying a department's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 Attachments A and B) shall be accomplished by (1) separating a department into groups, such as divisions or sections,

and then classifying the division's or section's total costs for the base period as either direct or indirect, and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount allowable indirect costs bears to the base selected.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter³ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS

Any offsetting savings that the claimant experiences as a direct result of this mandate must be deducted from the costs claimed. Additionally, reimbursement for this mandate received from any source shall be identified and deducted from this claim. These sources shall include, but not be limited to, rewards received under the authority of Civil Code section 1845; licensing fees and fines received and applied pursuant to Food and Agriculture Code section 30652, Government Code section 28502, and Penal Code section 597f; other state funds, and federal funds. The fees and fines received pursuant to Food and Agriculture Code section 30652 shall be deducted from the claim according to the priority specified in the statute and stated below:

- First, to pay fees for the issuance of dog license tags pursuant to Food and Agriculture Code section 30652, subdivision (a);
- Second, in accordance with Food and Agriculture Code section 30652, subdivision (b), any excess revenue held after the payment of dog license tags shall be applied to the fees, salaries, costs, expenses, or any or all of them for the enforcement of Division 14 of the Food and Agriculture Code, including Food and Agriculture Code section 31108, and all ordinances that are made pursuant to Division 14. Costs incurred under Food and Agriculture Code section 31108 are specified in Section IV (B) (1), (2), (3), and (5), and Section IV (A) of

³ This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

these parameters and guidelines. Any or all excess revenue must be applied to the costs incurred under Food and Agriculture Code section 31108 before any revenue can be applied to subdivisions (c) and (d) of Food and Agriculture Code section 30652.

VIII. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the revised parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the revised parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the revised parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code Section 17560 and 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Article 4, Chapter 1 of Division 4 of Title 1 Government Code.

I further certify that there was no application other than from the claimant, nor any grants or payments received for reimbursement of costs claimed herein and claimed costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the parameters and guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amount for this reimbursement is hereby claimed from the State for payment of actual costs set forth on the attached statements.

I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

ANIMAL ADOPTION
CLAIM FOR PAYMENT
INSTRUCTIONS

FORM
FAM-27

- (01) Enter the payee number assigned by the State Controller's Office.
- (02) Enter your Official Name, County of Location, Street or P. O. Box address, City, State, and Zip Code.
- (03) to (08) Leave blank.
- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim as shown in the attached Form-1 line (11). The total claimed amount must exceed \$1,000.
- (14) Initial claims must be filed as specified in the claiming instructions. Annual reimbursement claims must be filed by **February 15** of the following fiscal year in which costs were incurred or the claims must be reduced by a late penalty. Enter zero if the claim was timely filed. Otherwise, enter the penalty amount as a result of the calculation formula as follows:
- Late Initial Claims: FAM-27 line(13) multiplied by 10%, without limitation; or
 - Late Annual Reimbursement Claims: FAM-27, line (13) multiplied by 10%, late penalty not to exceed \$10,000.
- (15) Enter the amount of payment, if any, received for the claim. If no payment was received, enter zero.
- (16) Enter the net claimed amount by subtracting the sum of lines (14) and (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.
- (19) to (21) Leave blank.
- (22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., Form-1, (04) A. 1. (g), means the information is located on Form-1, line (04) A. 1., column (g). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 35.19% should be shown as 35. **Completion of this data block will expedite the payment process.**
- (37) Read the statement of Certification of Claim. The claim must be dated, signed by the agency's authorized officer, and must type or print name, title, telephone number and email address. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**
- (38) Enter the name, telephone number, and e-mail address of the agency contact person for the claim. If claim is prepared by external consultant, type or print the name of the consulting firm, telephone number, and e-mail address.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS TO:

(10) Less: Other Reimbursements/Offsetting Revenue	
(11) Total Claimed Amount	[Line (08) - {(line (09) + line (10))}]

Program 213	ANIMAL ADOPTION CLAIM SUMMARY INSTRUCTIONS	FORM 1
------------------------	---	-------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year of costs.
- (03) Department. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form 1 must be completed for each department.
- (04) Reimbursable Activities. For each reimbursable activity, enter the total from Form-2, line (05), columns (d) through (i) to Form-1, block (05), columns (a) through (f) in the appropriate row. Total each row.
- (05) Total Direct Costs. Total columns (a) through (g).
- (06) Indirect Cost Rate. Indirect costs may be computed as 10% of direct labor costs, excluding fringe benefits, without preparing an ICRP. If an indirect cost rate of greater than 10% is used, include the Indirect Cost Rate Proposal (ICRP) with the claim.
- (07) Local agencies have the option of using the flat rate of 10% of direct labor costs or using a department's indirect cost rate proposal (ICRP) in accordance with the Office of Management and Budget OMB Circular A-87 (Title 2 CFR Part 225). If the flat rate is used for indirect costs, multiply Total Salaries, line (05)(a), by 10%. If an ICRP is submitted, multiply applicable costs used in the distribution base for the computation of the indirect cost rate, by the Indirect Cost Rate, line (06). If more than one department is reporting costs, each must have its own ICRP for the program.
- (08) Total Direct and Indirect Costs. Enter the sum of Total Direct Costs, line (05)(g), and Total Indirect Costs, line (07).
- (09) Less: Offsetting Savings. If applicable, enter the total savings realized by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.
- (10) Less: Other Reimbursements/Offsetting Revenue. Reimbursement received from any source must be identified and deducted from this claim. Sources may include, but are not limited to offsetting revenues from Form 3, lines (04) and (05), rewards received under authority of Civil Code Section 1845, licensing fees and fines received and applied pursuant to Food and Agriculture Code Section 30652, Government Code Section 28502, and Penal Code Section 597f, and other state funds, and federal funds. Fees and fines received pursuant to Food & Agriculture Code Section 30652 must be deducted according to the priority specified on page 15 of the P's and G's.
- (11) Total Claimed Amount. From Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to form FAM-27, line (13) for the Reimbursement Claim.

Program 213	ANIMAL ADOPTION ACTIVITY COST DETAIL	FORM 2

- (01) Claimant. Enter the name of the claimant. If more than one department has incurred costs for this mandate, give the name of each department. A separate Form-2 must be completed for each department.
- (02) Fiscal Year. Enter the fiscal year for which costs were incurred.
- (03) Reimbursable Activities. Check the box which indicates the cost activity being claimed. Check only one box per form. A separate Form -2 must be prepared for each applicable activity.
- (04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the activity box checked in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, travel and training expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit will be from the date of initial payment of the claim. Such documents must be made available to the SCO on request.

ANIMAL ADOPTION PROGRAM

Chapter 752, Statutes of 1998,
and Chapter 313, Statutes of 2004

*July 1, 1998, through June 30, 2008,
excluding July 1, 2003, through June 30, 2005*

JOHN CHIANG
California State Controller

April 2011

JOHN CHIANG
California State Controller

April 6, 2011

The Honorable Antonio R. Villaraigosa
Mayor of the City of Los Angeles
200 North Main Street, Suite 303
Los Angeles, CA 90012

Dear Mayor Villaraigosa:

The State Controller's Office audited the costs claimed by the City of Los Angeles for the legislatively mandated Animal Adoption Program (Chapter 752, Statutes of 1998, and Chapter 313, Statutes of 2004) for the period of July 1, 1998, through June 30, 2008, excluding July 1, 2003, through June 30, 2005.

The city claimed \$13,368,151 (\$13,390,008 less a \$21,857 penalty for filing a late claim) for the mandated program. Our audit disclosed that \$7,942,338 is allowable and \$5,425,813 is unallowable. The costs are unallowable primarily because the city claimed ineligible costs, claimed estimated costs, claimed unsupported costs, understated the number of non-medical records, understated the annual animal census data, overstated the number of eligible animals, understated productive hourly rates, and misstated indirect cost rates. The State paid the city \$8,303,862. The amount paid exceeds allowable costs claimed by \$361,524.

If you disagree with the audit findings, you may file an Incorrect Reduction Claim (IRC) with the Commission on State Mandates (CSM). The IRC must be filed within three years following the date that we notify you of a claim reduction. You may obtain IRC information at the CSM's Web site at www.csm.ca.gov/docs/IRCForm.pdf.

If you have any questions, please contact Jim L. Spano, Chief, Mandated Cost Audits Bureau, at (916) 323-5849.

Sincerely,

Audit Report

Summary

The State Controller's Office (SCO) audited the costs claimed by the City of Los Angeles for the legislatively mandated Animal Adoption Program (Chapter 752, Statutes of 1998, and Chapter 313, Statutes of 2004) for the period of July 1, 1998, through June 30, 2008, excluding July 1, 2003, through June 30, 2005.

The city claimed \$13,368,151 (\$13,390,008 less a \$21,857 penalty for filing a late claim) for the mandated program. Our audit disclosed that \$7,942,338 is allowable and \$5,425,813 is unallowable. The costs are unallowable primarily because the city claimed ineligible costs, claimed estimated costs, claimed unsupported costs, understated the number of non-medical records, understated the annual animal census data, overstated the number of eligible animals, understated productive hourly rates, and misstated indirect cost rates. The State paid the city \$8,303,862. The amount paid exceeds allowable costs claimed by \$361,524.

Background

Food and Agriculture Code sections 31108, 31752-31753, 32001, and 32003 (added and amended by Chapter 752, Statutes of 1998) attempted to end the euthanasia of adoptable and treatable animals. It expressly identifies the state policy that "no adoptable animal should be euthanized if it can be adopted into a suitable home" and that "no treatable animal should be euthanized." The legislation increases the holding period for stray and abandoned dogs, cats, and other specified animals. It also requires public or private shelters to:

- Verify the temperament of feral cats;
- Post lost and found lists;
- Maintain records for impounded animals; and
- Ensure that impounded animals receive necessary and prompt veterinary care.

On January 25, 1981, the Commission on State Mandates (CSM) determined that Chapter 752, Statutes of 1998, imposed a state mandate reimbursable under Government Code section 17561.

The program's parameters and guidelines establish the state mandate and define reimbursement criteria. The CSM adopted the parameters and guidelines on February 28, 2002, corrected them on March 20, 2002, and last amended them on January 26, 2006. In compliance with Government Code section 17558, the SCO issues claiming instructions to assist local agencies and school districts in claiming mandated program reimbursable costs.

For fiscal year (FY) 2003-04, the Legislature suspended the Animal Adoption Program.

Objective, Scope, and Methodology

We conducted the audit to determine whether costs claimed represent increased costs resulting from the Animal Adoption Program for the period of July 1, 1998, through June 30, 2008, excluding July 1, 2003, through June 30, 2005.

Our audit scope included, but was not limited to, determining whether costs claimed were supported by appropriate source documents, were not funded by another source, and were not unreasonable and/or excessive.

We conducted this performance audit under the authority of Government Code sections 12410, 17558.5, and 17561. We did not audit the city's financial statements. We conducted the audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

We limited our review of the city's internal controls to gaining an understanding of the transaction flow and claim preparation process as necessary to develop appropriate auditing procedures.

Conclusion

Our audit disclosed instances of noncompliance with the requirements outlined above. These instances are described in the accompanying Summary of Program Costs (Schedule 1) and in the Findings and Recommendations section of this report.

For the audit period, the City of Los Angeles claimed \$13,368,151 (\$13,390,008 less a \$21,857 penalty for filing a late claim) for costs of the Animal Adoption Program. Our audit disclosed that \$7,942,338 is allowable and \$5,425,813 is unallowable.

For the FY 1998-99 claim, the State paid the city \$759,353. Our audit disclosed that \$314,199 is allowable. The State will offset \$445,154 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 1999-2000 claim, the State paid the city \$2,081,935. Our audit disclosed that \$1,125,848 is allowable. The State will offset \$956,087 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 2000-01 claim, the State paid the city \$2,172,046. Our audit disclosed that \$1,337,003 is allowable. The State will offset \$835,043 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 2001-02 claim, the State made no payment to the city. Our audit disclosed that \$1,040,998 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling \$1,040,998, contingent upon available appropriations.

For the FY 2002-03 claim, the State made no payment to the city. Our audit disclosed that \$865,501 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling \$865,501, contingent upon available appropriations.

For the FY 2005-06 claim, the State paid the city \$1,463,827. Our audit disclosed that \$1,143,476 is allowable. The State will offset \$320,351 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 2006-07 claim, the State paid the city \$1,826,701. Our audit disclosed that \$1,065,939 is allowable. The State will offset \$760,762 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 2007-08 claim, the State made no payment to the city. Our audit disclosed that \$1,049,374 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling \$1,049,374, contingent upon available appropriations.

**Views of
Responsible
Officials**

We issued a draft audit report on March 10, 2011. Brenda Barnette, General Manager, responded by letter dated March 29, 2011 (Attachment), expressing general disagreement with the audit process without responding to any specific audit findings.

Restricted Use

This report is solely for the information and use of the City of Los Angeles, the California Department of Finance, and the SCO; it is not intended to be and should not be used by anyone other than these specified parties. This restriction is not intended to limit distribution of this report, which is a matter of public record.

Findings and Recommendations

FINDING 1— Overstated training costs

The city claimed \$34,145 for training costs during the audit period. We determined that \$24,705 is allowable and \$9,440 is unallowable. The costs were unallowable because the city overstated training hours for new employees (\$15,309) and understated productive hourly rates (\$5,869).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and Benefits:			
1998-99	\$ 9,468	\$ 563	\$ (8,905)
1999-2000	5,357	3,897	(1,460)
2000-01	3,521	2,572	(949)
2001-02	3,070	2,261	(809)
2002-03	1,130	550	(580)
2005-06	2,735	4,590	1,855
2006-07	5,936	5,625	(311)
2007-08	2,928	4,647	1,719
Total	<u>\$ 34,145</u>	<u>\$ 24,705</u>	<u>\$ (9,440)</u>

Overstated Training Hours

The city claimed training hours for Chameleon software for all newly hired employees within the Training Costs component. During our fieldwork, the Animal Services Department provided a sample training agenda to showcase the multitude of topics covered during the training process. The department pro-rated a portion of the training time and claimed three- and two-hour increments in different fiscal periods attributed to the portion of training related to Chameleon software. The department provided a list of all new hires throughout the audit period. We calculated allowable hours based on the list of new hires provided by the department.

We concluded that the three- and two-hour training increments claimed were reasonable. However, we noted that the number of new employees reported on the claims was misstated. Subsequently, we determined that the city overstated 39 hours spent on training activities during the first four years of the audit period and understated 24 hours spent on training activities during the last four years of the audit period. As a result, allowable costs were overstated by \$15,309 during the audit period.

Misstated Productive Hourly Rates

The city incorrectly calculated employee productive hourly rates during the audit period. The rates were calculated based on budgeted information rather than the actual payroll. We recalculated all productive hourly rates for all classifications of employees based on the actual annual payroll information.

During fieldwork, we received and were able to analyze the actual payroll summaries for all classifications of employees included in the claims for the last three years of the audit period fiscal year (FY) 2005-06 through FY 2007-08). However, the actual payroll information was not available for the earlier five years of the audit period. We used a consumer price index to deflate the amounts paid for labor in prior years. Our analysis revealed that the claimed productive hourly rates were generally understated. We used the revised rates in our calculations of allowable costs for all cost components. For the Training cost component, we determined that allowable costs were understated by \$5,869.

Summary of Productive Hourly Rate Adjustments by Reimbursable Components

The productive hourly rate calculation noted previously also affected the following reimbursable components:

<u>Reimbursable Component</u>	<u>Audit Adjustment</u>
Training	\$ 5,869
Computer software	1,707
Increased holding period	126,963
Lost and found lists	3,097
Non-medical records	35,708
Veterinary care	1,658
Total	<u>\$ 175,002</u>

The program's parameters and guidelines allow reimbursement for the one-time activity of providing training to staff on reimbursable activities.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city's response under "Other Issues."

**FINDING 2—
Overstated computer
software costs**

The city claimed \$525,513 for computer software costs during the audit period. We determined that \$270,771 is allowable and \$254,742 is unallowable (\$56,259 for salaries and benefits and \$198,483 for materials and supplies). The material and supply costs were unallowable because the city did not pro-rate computer equipment and software costs attributed to the mandated activities (\$164,849), claimed unsupported costs (\$41,889), claimed unallowable invoices (\$37,991), and did not claim allowable costs of \$46,246. The salary and benefit costs were unallowable because the city did not pro-rate the Chameleon maintenance hours attributed to the mandated activities (\$57,966) and understated productive hourly rates (\$1,707).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and benefits:			
1998-99	\$ 1,855	\$ 1,062	\$ (793)
1999-2000	5,237	2,997	(2,240)
2000-01	4,655	3,110	(1,545)
2001-02	5,453	3,138	(2,315)
2002-03	34,826	17,413	(17,413)
2005-06	30,522	15,261	(15,261)
2006-07	33,385	16,693	(16,692)
Total salaries and benefits	<u>115,933</u>	<u>59,674</u>	<u>(56,259)</u>
Materials and supplies:			
1999-2000	126,659	42,456	(84,203)
2000-01	140,538	51,203	(89,335)
2001-02	118,383	69,438	(48,945)
2002-03	24,000	12,000	(12,000)
2005-06	—	12,000	12,000
2006-07	—	12,000	12,000
2007-08	—	12,000	12,000
Total materials and supplies	<u>409,580</u>	<u>211,097</u>	<u>(198,483)</u>
Total	<u>\$ 525,513</u>	<u>\$ 270,771</u>	<u>\$ (254,742)</u>

Chameleon System Screens Analysis

The Los Angeles Animal Services Department purchased Chameleon software for FY 1999-2000. All of the city's shelters use the Chameleon system to maintain animal records. The Chameleon database has various screens that contain options for storing animal information. Some screens relate to the mandated activities and some do not.

The department performed an analysis of its Chameleon software system to determine the extent the system was used for mandated activities. In this analysis, the department identified the following 10 screens and the approximate percentages of those screens as they relate to the entire software system:

1. Animal Window – 11%
2. Kennel Window – 20%
3. Cham Cam – 4%
4. Person Window – 7%
5. Tag / Link Window – 10%

6. Receipt Window – 13%
7. Treatment and To Do Window – 15%
8. Activity and Dispatch Windows – 10%
9. Memo Window – 5%
10. Other Windows – 5%

In suggesting percentages for each of the screens, the department took into consideration how much time, on average, shelter staff spends noting information in each screen, how often these screens get updated, and the approximate amount of information contained within each screen.

Per discussions with the department's staff, we determined that 5 of the 10 screens identified above have a direct relation to the mandated activities. The mandate-related screens are as follows:

1. Animal Window
2. Kennel Window
3. Cham Cam
4. Person Window
5. Memo Window

We determined that the mandate-related windows comprise approximately 50% of the total Chameleon screens and information contained in those screens. We applied this 50% pro-rata percentage to all allowable costs in our calculations. Subsequently, we concluded that the city overstated allowable computer equipment costs totaling \$164,849 and overstated salary and benefit costs totaling \$57,966 during the audit period.

Misstated and Unsupported Computer Equipment Costs

The city was unable to provide invoices for all computer purchases claimed throughout the audit period. The unsupported portion of the costs totaled \$41,889. In addition, the city claimed unallowable costs totaling \$37,991 for FY 2000-01. The unallowable costs consisted of one license-renewal fee that was claimed twice in the same fiscal year and one invoice containing generic software licenses that were unrelated to Chameleon software. In addition, the city did not include in its claims additional costs totaling \$46,246 for FY 2001-02 and FY 2005-06 through FY 2007-08. The additional amount includes additional invoices totaling \$10,246 for computer hardware for FY 2001-02 and Chameleon licensing fees totaling \$36,000 for FY 2005-06 through FY 2007-08.

Understated Productive Hourly Rates

As identified in Finding 1, the city generally understated employee productive hourly rates. We applied the adjusted rates and determined that allowable costs for this component were understated by \$1,707.

The parameters and guidelines allow reimbursement for developing or procuring computer software for the maintenance of specified animal records. In addition, the parameters and guidelines state that if the computer software is used in a way that is not directly related to the

maintenance of animal records, then only the pro-rata portion of the activity that is used for compliance with the mandated program is reimbursable.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city's response under "Other Issues."

**FINDING 3—
Overstated care and
maintenance costs**

The city claimed \$3,110,161 for care and maintenance costs during the audit period. We determined that \$2,142,278 is allowable and \$967,883 is unallowable. The costs were unallowable because the city incorrectly reported annual expenditures attributed to the care and maintenance function, incorrectly calculated the yearly census of dogs and cats and other animals, and subsequently overstated the claimed costs per animal per day in each fiscal period. In addition, the city incorrectly calculated the number of eligible stray dogs and cats and other animals that died during the increased holding period or were ultimately euthanized. The city also used an incorrect number of reimbursable days for this component.

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed			Amount Allowable			Audit Adjustment
	Dogs/Cats	Other Animals	Total Claimed	Dogs/Cats	Other Animals	Total Allowable	
Care and maintenance:							
1998-99	\$ 186,383	\$ 5,510	\$ 191,893	\$ —	\$ 3,156	\$ 3,156	\$(188,737)
1999-2000	577,369	40,450	617,819	375,062	7,031	382,093	(235,726)
2000-01	463,535	13,107	476,642	487,021	7,157	494,178	17,536
2001-02	686,106	21,184	707,290	307,530	7,358	314,888	(392,402)
2002-03	291,737	12,018	303,755	228,809	5,642	234,451	(69,304)
2005-06	244,197	37,227	281,424	233,359	15,318	248,677	(32,747)
2006-07	193,875	99,093	292,968	196,262	17,929	214,191	(78,777)
2007-08	194,118	44,252	238,370	231,063	19,581	250,644	12,274
Total	\$ 2,837,320	\$ 272,841	\$ 3,110,161	\$ 2,059,106	\$ 83,172	\$ 2,142,278	\$(967,883)

The care and maintenance formula calculations of claimed, allowable, and unallowable costs by fiscal year are presented in Schedule 2—Summary of Care and Maintenance Costs.

During our review, we noted the following issues:

- The city did not use actual expenditure amounts relating to care and maintenance to calculate the cost per animal per day. Instead, the city used budgeted expenditure amounts that were not actual costs. In addition, the costs that the city reported were not pro-rated to the portion of the costs relating to the care and maintenance functions.
- The city did not use accurate annual animal census information to calculate the cost per animal per day.
- The city overstated the cost per animal per day in each fiscal year of the audit period.
- The city did not use the accurate number of eligible dogs and cats and other animals that died during the increased holding period or were ultimately euthanized. This error occurred primarily because the city did not account for all animal population exclusions noted in the parameters and guidelines.
- The city did not use the correct number of reimbursable increased holding period days to calculate claimed costs.

Our analysis of each issue identified in this list is presented below in the same order as listed above.

Total Annual Expenditures Related to Care and Maintenance

The city did not use the actual expenditure amounts relating to care and maintenance that it incurred to calculate the cost per animal per day. Instead, the city used budgeted expenditure amounts that were not actual costs and were not pro-rated to the portion of the costs relating to the care and maintenance functions.

The following table summarizes claimed, allowable, and unallowable expenditure amounts used for the calculation of care and maintenance costs:

Fiscal Year	Amount Claimed	Amount Allowable		
		Salaries, Benefits and Indirect Cost	Materials and Supplies	Audit Adjustment
Care and maintenance expenditures:				
1998-99	\$ 3,398,931	\$ 4,294,154	\$ 103,013	\$ 998,236
1999-2000	4,304,979	4,801,703	136,599	633,323
2000-01	4,890,106	5,299,831	74,446	484,171
2001-02	6,899,953	4,792,766	131,473	(1,975,714)
2002-03	6,257,289	4,405,861	141,952	(1,709,476)
2005-06	10,487,509	6,775,244	223,754	(3,488,511)
2006-07	11,585,706	8,687,989	329,620	(2,568,097)
2007-08	12,856,179	10,432,321	539,706	(1,884,152)
Total	\$ 60,680,652	\$ 49,489,869	\$ 1,680,563	\$ (9,510,220)

Labor Costs Related to Care and Maintenance (Salaries, Benefits, and Indirect Costs)

During the course of the audit, we requested that the city provide the actual salary amounts paid to those employee classifications directly involved with the care and maintenance function. We also requested the duty statements for such classifications to assist us in determining the percentage of daily workload that was devoted to caring and maintaining animals. The Animal Services Department provided a list of personnel who participate in the care and maintenance functions. The department also provided information relating to the involvement level of each classification and submitted job duty statements that supported the its proposed pro-rated percentages.

As proposed by the department, we used the following employee classifications and percentages of their annual salary, benefit, and related indirect costs to calculate labor costs relating to the Care and Maintenance cost component for each fiscal year:

- Animal Care Technicians (80%)
- Animal Care Technician Supervisor (40%)

We used actual annual payroll information for each employee classification for the last three years of the audit period (FY 2005-06 through FY 2007-08). However, the actual payroll information was not

available for the earlier five years of the audit period. We used a consumer price index to deflate the amounts paid for labor in these prior years.

Materials and Supplies Costs Related to Care and Maintenance

Subsequent to the issuance of the draft audit report, the city submitted documentation supporting actual materials and supplies expenditures incurred for care and maintenance activities. The city submitted summary reports containing year end expenditures by vendor for two accounts:

1. Account 4580 – Animal Food
2. Account 6020 – Shelters Operating Supplies

For the audit period, the year end expenses submitted totaled \$2,488,030 for both accounts. We examined the detailed spreadsheets with expenditures by vendor in both accounts to determine whether any of the submitted costs could be potentially included in our calculation of allowable care and maintenance costs. Of the \$2,488,030 in costs submitted, we concluded that costs totaling \$1,680,563 were allowable. Accordingly, we included these costs in the care and maintenance formula calculations.

The following table summarizes the amounts submitted, allowable, and audit adjustment by fiscal year:

<u>Fiscal Year</u>	<u>Amount Claimed</u>	<u>Amount Allowable</u>	<u>Audit Adjustment</u>
Account 4580 – Animal Food:			
1998-99	\$ 79,175	\$ 79,175	\$ —
1999-2000	118,361	112,034	(6,327)
2000-01	48,325	48,325	—
2001-02	71,335	71,335	—
2002-03	76,695	76,695	—
2005-06	115,602	107,736	(7,866)
2006-07	178,828	178,828	—
2007-08	288,067	288,067	—
Total animal food	<u>976,388</u>	<u>962,195</u>	<u>(56,259)</u>
Account 6020 – Operating supplies			
1998-99	148,213	23,838	(124,375)
1999-2000	89,209	24,565	(64,644)
2000-01	126,057	26,121	(99,936)
2001-02	136,362	60,138	(76,224)
2002-03	125,345	65,257	(60,088)
2005-06	200,587	116,018	(84,569)
2006-07	325,315	150,792	(174,523)
2007-08	360,554	251,639	(108,915)
Total operating supplies	<u>1,511,642</u>	<u>718,368</u>	<u>(793,274)</u>
Total	<u>\$ 2,488,030</u>	<u>\$ 1,680,563</u>	<u>\$ (807,467)</u>

Expenses Unrelated to the function of caring and maintaining animals:

During fieldwork, we discussed with department staff the reimbursable criteria for this cost component. With the department's assistance, we identified specific types of materials and supplies expenditures that

might be allowable under the component of care and maintenance. The department's staff agreed that allowable expenditures for this component would primarily include animal food and cleaning supplies.

Upon our review of the city's additional documentation, we concluded that some expenditures were unallowable under the Care and Maintenance cost component. We excluded any expenses that were unrelated to the function of caring and maintaining the animals. The examples of unallowable expenses include the following:

- Office supplies, such as calculators, staples, office furniture, etc.
- Printing supplies, such as paper and ink
- Film processing and camera expenses
- Shooting range expenses
- Cell phone expenses
- Relocation expenses
- Expenses for animal traps
- Expenses for license tags
- Magazine subscription expenses
- Laboratory services
- Diagnostic services
- Medical waste disposal services
- Medical expenses
- Petty cash funds
- Bank card payment expenditures for the department's administrative purchases

During fieldwork and status meetings, we discussed the types of vendors and allowable expenses that could be included in our calculation of allowable care and maintenance costs. We determined that allowable expenses by vendor included the following:

- Newco Distributors – Account 4580, Vendor ID #000022807
- Empire Cleaning Supply – Account 6020, Vendor ID #000001138
- Gale Supply Co (Cleaning Supplies) – Account 6020, Vendor ID #000001313
- Animal Health and Sanitary Supply (Cleaning Supplies) – Account 6020, Vendor ID #000041889
- C Specialties Inc (Animal Care Products) – Account 6020, Vendor ID #000038437
- BJ Enterprises (food storage supplies) – Account 6020, Vendor ID #000022709
- Animal Care – Account 6020, Vendor ID #000029262

Additional Allowable Care and Maintenance Costs Resulting from New Information

We incorporated the additional materials and supplies costs identified above into our calculations of allowable care and maintenance costs. After adding the allowable materials and supplies costs into the care and maintenance formula, additional allowable care and maintenance costs total \$61,229 for the audit period.

The following table summarized the revised allowable amounts for care and maintenance expenses by fiscal year:

Fiscal Year	Previous Allowable Amount			Revised Allowable Amount			Audit Adjustment
	Dogs/Cats	Other Animals	Total Allowable Amount	Dogs/Cats	Other Animals	Total Revised Allowable Amount	
Care and maintenance:							
1998-99	\$ —	\$ 3,081	\$ 3,081	\$ —	\$ 3,156	\$ 3,156	\$ 75
1999-2000	364,573	6,834	371,407	375,062	7,031	382,093	10,686
2000-01	480,423	7,060	487,483	487,021	7,157	494,178	6,695
2001-02	299,445	7,165	306,610	307,530	7,358	314,888	8,278
2002-03	221,567	5,463	227,030	228,809	5,642	234,451	7,421
2005-06	225,970	14,833	240,803	233,359	15,318	248,677	7,874
2006-07	189,039	17,269	206,308	196,262	17,929	214,191	7,883
2007-08	219,708	18,619	238,327	231,063	19,581	250,644	12,317
Total	\$ 2,000,725	\$ 80,324	\$ 2,081,049	\$ 2,059,106	\$ 83,172	\$ 2,142,278	\$ 61,229

The revised care and maintenance formula calculations of claimed, allowable, and unallowable costs by fiscal year are also presented in Schedule 2—Summary of Care and Maintenance Costs.

Annual Animal Census Data

The yearly census refers to the total number of days that all animals were housed in the city's shelters. The Animal Services Department was able to provide the actual animal census information from its Chameleon tracking system for FY 2000-01 through FY 2007-08. For the earlier two years, for which Chameleon statistics were not available, we were able to use the average data from animal statistics available for FY 2000-01 and FY 2001-02.

Exclusions

The only two exclusions noted in this category were the animals that came in Dead on Arrival (DOA) or Missing. We did not count DOA animals as part of the annual census because no costs were incurred to care for them. In addition, we did not count Missing animals as part of the annual census because their holding period was unknown.

Input Errors

During our analysis of the annual census information, we noted some data input errors relating to dates. Some animal entries showed a negative holding period or extraordinarily long holding periods (e.g., exceeding ten years). Because these input errors were very obvious, we either eliminated these animals from the population or changed the incoming or outgoing dates.

Our review of the Chameleon animal information indicated that the city understated the annual animal census in each fiscal year of the audit period.

The following table summarizes the claimed, allowable, and revised animal census information by fiscal year:

Fiscal Year	Total Claimed	Animal Census Allowable			Total Allowable	Audit Adjustment
		Dogs/Cats	Birds	Other Animals		
Annual animal census:						
1998-99	258,420	—	—	—	476,517	218,097
1999-2000	258,420	—	—	—	476,517	218,097
2000-01	322,295	405,287	21,792	28,009	455,088	132,793
2001-02	272,290	418,756	37,926	41,263	497,945	225,655
2002-03	449,730	407,574	13,821	28,781	450,176	446
2005-06	509,248	415,652	17,307	82,353	515,312	6,064
2006-07	655,576	525,522	15,520	165,449	706,491	50,915
2007-08	799,326	695,980	34,574	86,304	816,858	17,532
Total	3,525,305	2,868,771	140,940	432,159	4,394,904	869,599

Cost Per Animal Per Day

The actual cost formula requires the eligible annual cost of care to be divided by the yearly census to arrive at an average cost per animal per day. The cost per animal per day is then multiplied by the eligible number of animals and the number of increased holding period days.

We used the audited annual expenditures and the annual animal census information to calculate the allowable cost per animal per day. We concluded that the city overstated the cost per animal per day in each fiscal period, as shown in the table below.

Fiscal Year	Cost Claimed	Cost Allowable	Audit Adjustment
Cost per animal per day:			
1998-99	\$ 13.12	\$ 9.23	\$ (3.89)
1999-2000	16.66	10.37	(6.29)
2000-01	15.17	11.81	(3.36)
2001-02	25.34	9.89	(15.45)
2002-03	13.91	10.11	(3.80)
2005-06	20.59	13.58	(7.01)
2006-07	17.67	12.77	(4.90)
2007-08	16.08	12.43	(2.65)

Eligible Animal Population

We determined the eligible animal population for dogs and cats and other animals by analyzing the Chameleon database information and taking into account all exclusions per the requirement of the mandated program. The following animals were excluded from the population of eligible animals:

- Dogs and cats and other animals that were owner-surrendered or previously owned (only stray animals were included in the eligible population);
- Dogs, cats, and other animals that were ultimately adopted, transferred, rescued, or redeemed (only those animals with the outcome of “died” or “euthanized” were reviewed);

- Dogs, cats, and other animals that went missing from their kennels, were stolen, or escaped;
- Dogs, cats, and other animals that were DOA;
- Dogs, cats, and other animals that were euthanized as requested by owners or if euthanasia was required / requested (“Dispo Req” or “Euth Req”);
- Dogs, cats, and other animals that were euthanized for humane reasons (usually on day 1);
- Dogs, cats, and other animals that were suffering from a serious illness or severe injury (usually euthanized on day 1 or died on day 1);
- Newborn animals that need maternal care and were impounded without their mothers (usually died or were euthanized within the first few days; the excluded categories included “Unweaned” or “8 weeks unsustainable”);
- Ineligible other animals such as rodents, livestock, or wild animals;
- Ineligible birds, such as pigeons, doves, ducks, chickens, owls, pheasants, mallards, and gamefowls;
- Dogs and cats that died in the shelter’s kennels outside of increased holding period (days 1, 2, 3, and day 7 and beyond), as per the requirements of the mandate. (Local agencies are eligible to receive reimbursement to care for dogs and cats that *died during the increased holding period* [days 4, 5, and 6]);
- “Other” animals that died in the shelters’ kennels on day 7 and beyond (after the increased holding period). (Local agencies are eligible to receive reimbursement to care for other animals that *died during the increased holding period* [days 2, 3 through 6]); and
- Dogs, cats, and other animals that were euthanized during the holding period as per the requirements of the mandate. The agencies are eligible to receive reimbursement to care for dogs and cats and other animals that were *euthanized after the holding period* (day 7 of the holding period and beyond).

Our review of the Chameleon database revealed that the city overstated eligible animal populations in each fiscal period.

The following table summarizes the claimed, allowable, and unallowable animals for the audit period by fiscal year:

Fiscal Year	Animals Claimed			Animals Allowable			Audit Adjustment
	Dogs/ Cats	Other Animals	Total Claimed	Dogs/ Cats	Other Animals	Total Allowable	
Eligible animals:							
1998-99	7,103	105	7,208	—	56	56	(7,152)
1999-2000	17,328	607	17,935	12,056	113	12,169	(5,766)
2000-01	15,278	216	15,494	13,746	101	13,847	(1,647)
2001-02	13,538	209	13,747	10,365	124	10,489	(3,258)
2002-03	10,484	216	10,700	7,544	93	7,637	(3,063)
2005-06	5,930	452	6,382	5,728	188	5,916	(466)
2006-07	5,486	1,402	6,888	5,123	234	5,357	(1,531)
2007-08	6,036	688	6,724	5,735	243	5,978	(746)
Total	81,183	3,895	85,078	60,297	1,152	61,449	(23,629)

Increased Holding Period Days

The parameters and guidelines identify the number of reimbursable days for dogs and cats to be the difference between three days from the day of capture and four business days from the day after impoundment. For other animals, the parameters and guidelines identify the number of reimbursable days to be four business days from the day after impoundment.

Determining the exact number of reimbursable days is often difficult. Depending on the impound day, each animal will have a different holding period requirement. For example, for a dog impounded at noon on Monday, the “old” law (prior to 1999) requires the city to hold the dog until noon on Thursday (72 hours); the current law requires the city to hold the dog until closing on Friday (which is 4 business days following impoundment). Under the current law, the holding period was increased by 1 day and 5 hours (or 29 hours). However, for the dog impounded at noon on Friday, the “old” law requires the city to hold the dog until noon on Monday (72 hours); and the current law requires the city to hold the dog until closing on Friday (which is 4 business days following impoundment). Under the current law, the holding period was increased by 4 days and 5 hours (or 101 hours).

This calculation takes into consideration that the required holding period does not include either Saturday or Sunday as a business day, which is consistent with the Appellate Court decision dated March 26, 2010, in the case of *Purifoy et al v. Howell*. We also took into consideration the operating schedules of the city’s shelters; some shelters are closed on Mondays. In such cases, we did not count Monday as a business day.

To determine the number of reimbursable days for all of the city’s shelters, we analyzed every possible impound option (e.g., Monday impound, Tuesday impound, Wednesday impound, etc.) and determined the average increased holding period for dogs and cats to be 3 days and the average increased holding period for other “eligible” animals to be 6 days.

The following chart summarizes the formula:

Care and Maintenance Formula for Dogs and Cats

$$\begin{array}{l} \text{Cost per animal} \times \text{Eligible dogs and cats} \times \text{Number of Increased Days} \\ \text{per day} \qquad \qquad \qquad \text{(died days 4,5,6)} \qquad \qquad \text{(3 days for dogs and cats)} \\ \qquad \qquad \qquad \qquad \qquad \qquad \text{(euthanized days 7 and on)} \end{array}$$

Care and Maintenance Formula for Other Animals

$$\begin{array}{l} \text{Cost per animal} \times \text{Eligible Animals} \times \text{Number of Increased Days} \\ \text{per day} \qquad \qquad \qquad \text{(died days 2,3,4,5,6)} \qquad \qquad \text{(6 days for other)} \\ \qquad \qquad \qquad \qquad \qquad \qquad \text{(euthanized days 7 and on)} \end{array}$$

The parameters and guidelines (section IV.B.3–Care and Maintenance for Impounded Stray or Abandoned Dogs and Cats that Die During the Increased Holding Period or Are Ultimately Euthanized) identify the following reimbursable activities:

Beginning July 1, 1999 – Providing care and maintenance during the increased holding period for impounded stray or abandoned dogs and cats that die during the increased holding period or are ultimately euthanized. The increased holding period shall be measured by calculating the difference between three days from the day of capture and four or six business days from the day after impoundment.

The parameters and guidelines (section IV.B.4–Care and Maintenance for Impounded Stray or Abandoned Animals Specified in Food and Agriculture Code Section 31753 that Die During the Increased Holding Period or Are Ultimately Euthanized) also state:

Beginning January 1, 1999 – For providing care and maintenance for . . . stray or abandoned rabbits, guinea pigs, hamsters, pot-bellied pigs, birds, lizards, snakes, turtles, and tortoises legally allowed as personal property that die during the increased holding period or are ultimately euthanized.

Eligible claimants are *not* entitled to reimbursement for the care and maintenance of the following population of dogs and cats and other animals:

- Stray or abandoned dogs, cats, and other animals that are irremediably suffering from a serious illness or severe injury,
- Newborn stray or abandoned dogs, cats, and other animals that need maternal care and have been impounded without their mothers,
- Stray or abandoned dogs, cats, and other animals too severely injured to move or when a veterinarian is not available and it would be more humane to dispose of the animal,
- Owner-relinquished dogs, cats, and other animals, and
- Stray or abandoned dogs, cats, and other animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Eligible claimants may elect one of two methods, actual cost method or time study method, to claim costs for the care and maintenance of impounded stray or abandoned dogs, cats, and other animals that die during the increased holding period or are ultimately euthanized. The city elected to use the actual cost method to claim these costs.

Under the actual cost method, actual reimbursable care and maintenance costs per animal per day are computed for an annual claim period. The computation method is as follows:

1. Determine the total annual cost of care and maintenance for all dogs, cats, and other animals impounded at a facility. Total cost of care and maintenance includes labor, materials, supplies, indirect costs, and contract services.
2. Determine the average daily census of all dogs, cats, and other animals. For purposes of claiming reimbursement under IV.B.3, "average daily census" is defined as the average number of all dogs and cats at a facility housed on any given day, in 365-day period and the average number of all other animals at a facility housed on any given day, in a 365-day period.
3. Multiply the average daily census of dogs, cats, and other animals by 365 = the yearly census of dogs and cats and the yearly census of other animals.
4. Divide the total annual cost of care by the yearly census of dogs and cats = cost per dog and cat per day and yearly census of other animals = cost per other animal per day.
5. Multiply the cost per animal per day, by the number of impounded stray or abandoned dogs, cats, and other animals that die during the increase holding period or are ultimately euthanized by each reimbursable day. The reimbursable day for cats and dogs is the difference between three days from the day of capture, and four or six business days from the day after impoundment.

Care and Maintenance Formula

The parameters and guidelines provide for a formula-driven methodology to determine allowable mandated costs for the care and maintenance of dogs and cats and other animals. The use of this method requires claimants to calculate the total amount of eligible costs incurred to provide care and maintenance for the animals housed in its shelter. This total is divided by the annual census of animals housed in the shelter to determine a cost per animal per day. The next element of the formula is adding the number of stray and abandoned animals that died of natural causes during the holding period plus those animals that were euthanized after the required holding period. This total number of animals is then multiplied by the cost per animal per day. The resulting amount represents allowable costs for providing care and maintenance.

The mandate is reimbursing claimants for costs associated with animals that were not relinquished, redeemed, adopted, or released to a nonprofit agency—animals for which the local agency was unable to assess fees to recover such costs.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not respond to this finding. However, the city provided additional supporting documentation subsequent to the issuance of the draft audit report.

SCO's Comment

The finding amount decreased by \$61,229—from \$1,029,112 to \$967,883 based on the additional information provided. The recommendation remains unchanged.

**FINDING 4—
Overstated increased
holding period costs**

The city claimed \$3,886,965 for increased holding period costs for the audit period. We determined that \$1,841,233 is allowable and \$2,045,732 is unallowable. The unallowable costs occurred because the city overstated allowable hours and the number of allowable positions (\$2,172,695) and understated productive hourly rates (\$126,963).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and benefits:			
1998-99	\$ 337,191	\$ 90,266	\$ (246,925)
1999-2000	754,105	201,949	(552,156)
2000-01	784,231	211,205	(573,026)
2001-02	805,160	213,025	(592,135)
2002-03	115,785	218,413	102,628
2005-06	246,783	295,417	48,634
2006-07	550,209	308,794	(241,415)
2007-08	293,501	302,164	8,663
Total	<u>\$ 3,886,965</u>	<u>\$ 1,841,233</u>	<u>\$ (2,045,732)</u>

Misstated Allowable Hours and Employee Positions

The city claimed hours for Animal Care Technicians, Animal Care Technician Supervisors, Animal Control Officers, and Clerk Typists for working on one of the weekend days. The city, however, did not take into account the difference between the regular staffing needs and the increased staffing needs to comply with the requirement of this component. As a result, the city overstated the number of eligible employee positions and did not properly calculate the number of reimbursable hours per each position. This resulted in overstated costs totaling \$2,172,695 during the audit period.

Hours of Operation

The city provided documentation identifying the hours of operation for its animal shelters. All shelters in the city operate on the same schedule and stay open to the public six days a week (excluding Mondays), from 8 am until 5 pm. Thus, as per the requirement of the mandate, each shelter makes animals available for owner redemption or adoption on either of the weekend days. We concluded that reimbursement is allowable for the increased and eligible staffing on Saturdays.

Staffing Requirements

For agencies using the holding period of four business days after the day of impoundment, we needed to determine the additional costs incurred to have the impounded animals available for owner redemption or adoption. In order to determine the additional staffing requirements, we inquired about the number of employees and classifications of staff members working when the shelter is closed to the public (Mondays) and the staffing needed to comply with the mandate and stay open during the increased hours (Saturdays).

When the shelter is closed to the public, animals must still be cared for and fed. Usually, most of the staff members whose duties include caring for animals would be at the shelters regardless of whether the shelters were open to the public or not. Therefore, as the main duties of these employees are to care and maintain animals, these positions are generally not reimbursable for this cost component.

However, some positions are reimbursable under this component depending on the increased staffing needs on those days when the shelter is open to the public. To demonstrate the increased staffing requirements for Saturdays, the city provided monthly working schedules for each shelter. After reviewing these schedules, we determined that the following additional employees were needed to comply with the mandate requirement and stay open during one weekend day.

- Animal Care Technicians (10 positions, 9 hours each)
- Animal Care Technician Supervisor (1 position, 9 hours)
- Front Counter Clerks (10 positions, 8 hours each)

Allowable Annual Hours

Starting with FY 1999-2000, we calculated allowable annual hours the same way for every year using the following formula:

$$\text{Allowable weekly hours per classification} \times \text{Number of positions} \times 52 \text{ weeks}$$

The following table summarizes the annual hours per employee classification needed to perform the mandated activities:

<u>Employee Classification</u>	<u>Number of Eligible Employees</u>	<u>Allowable Weekly Hours</u>	<u>Allowable Annual Hours</u>
Animal Care Technicians	10	9	4,680
ACT Supervisor	1	9	468
Front Counter Clerks	10	8	4,160
			<u>9,308</u>

The FY 1998-99 reimbursement period for this cost component began in January 1999. Accordingly, we reduced allowable annual hours by half for this fiscal period.

Understated Productive Hourly Rates

As identified in Finding 1, the city generally understated employee productive hourly rates. We applied the adjusted rates and determined that allowable costs for this component were understated by \$126,963.

The parameters and guidelines (section IV.B.5—Using the Holding Period of Four Business Days After the Day of Impoundment) state that the following activities are reimbursable beginning January 1, 1999, for impounded animals specified in Food and Agriculture Code section 31753 (“other animals”), and beginning July 1, 1999, for impounded dogs and cats:

- Making the animal available for owner redemption on one weekday evening until at least 7:00 p.m., or one weekend day; or
- For those local agencies with fewer than three full time employees or that are not open during all regular weekday business hours, establishing a procedure to enable the owner to reclaim their animals by appointment at a mutually agreeable time when the agency would otherwise be closed.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city's response under "Other Issues."

**FINDING 5—
Overstated lost and
found lists costs**

The city claimed \$195,493 for the Lost and Found Lists cost component during the audit period. We determined that \$79,114 is allowable and \$116,379 is unallowable. The costs were unallowable because the city claimed estimated hours in the first four years of the audit period (\$77,428), claimed unsupported Web project development costs (\$44,699), understated allowable hours due to rounding errors in the time study (\$2,651), and understated employee productive hourly rates (\$3,097).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and benefits:			
1998-99	\$ 12,655	\$ 3,852	\$ (8,803)
1999-2000	26,185	8,615	(17,570)
2000-01	30,373	9,008	(21,365)
2001-02	54,530	9,087	(45,443)
2002-03	9,371	9,318	(53)
2005-06	12,237	12,600	363
2006-07	13,016	13,364	348
2007-08	12,206	13,270	1,064
Total salaries and benefits	<u>170,573</u>	<u>79,114</u>	<u>(91,459)</u>
Materials and supplies:			
2001-02	24,920	—	(24,920)
Total	<u>\$ 195,493</u>	<u>\$ 79,114</u>	<u>\$ (116,379)</u>

Estimated and Unsupported Costs

The city claimed estimated hours for Clerk Typists for FY 1998-99 through FY 2001-02. The estimated salary and benefit costs totaled \$77,428. Furthermore, the city also claimed unsupported costs for the creation of its Web site for FY 2001-02 totaling \$19,779 for salaries and benefits and \$24,920 for materials and supplies. The city did not provide any documentation to support claimed costs nor document the pro-rated portion of these costs attributed to the mandated activity of Lost and Found Lists.

Time Study

Starting with FY 2002-03, the city started claiming hours based on a time study that it conducted for this cost component. The time study recorded the time increments for the Clerk Typists to print out and display the stray sheets and inventory of stray animals for the public to review. The time study results showed that it takes an average of 11.63 minutes each day for Clerk Typists to perform this activity at each of the city's shelters. The city claimed 11 minutes per clerk (one clerk per each shelter) for this component starting in FY 2002-03. Our review of the time study revealed rounding errors in the city's favor. We calculated allowable hours using 11.63 minutes for one Clerk Typists per day at each of the six shelters. We applied the results of the time study for all years in the audit period.

Using the methodology described above, we calculated allowable annual hours totaling 424.50 per fiscal year, as shown in the table below. For FY 1998-99, reimbursement begins in January 1999, so we used half of total hours allowable for this fiscal year.

<u>Employee Classification</u>	<u>Number of Eligible Employees</u>	<u>Allowable Daily Minutes</u>	<u>Allowable Annual Hours</u>
Front Counter Clerks	6	11.63	424.50

The city understated allowable hours from the time study due to the rounding errors. As a result, allowable costs were understated by \$2,651 for the audit period.

Understated Productive Hourly Rates

As identified in Finding 1, the city generally understated employee productive hourly rates. We applied the adjusted rates and determined that allowable costs for this component were understated by \$3,097.

The parameters and guidelines (section IV.B.7–Lost and Found Lists) identify the following reimbursable activities:

Beginning January 1, 1999 – Providing owners of lost animals and those who find lost animals with all of the following:

- Ability to list the animals they have lost or found on “lost and found” lists maintained by the agency;
- Referrals to animals listed that may be the animals the owner or finders have lost or found;
- The telephone numbers and addresses of other pounds and shelters in the same vicinity;
- Advice as to means of publishing and disseminating information regarding lost animals; and
- The telephone numbers and addresses of volunteer groups that may be of assistance in locating lost animals.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City’s Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city’s response under “Other Issues.”

**FINDING 6—
Understated non-medical
records costs**

The city claimed \$468,667 for the Maintaining Non-Medical Records cost component during the audit period. We determined that \$1,065,219 is allowable and the city underclaimed costs in the net amount of \$596,552. The costs were misstated because the city claimed overstated and unallowable time increments per non-medical record during the first three years of the audit period (\$237,933), understated the number of eligible animal records (\$814,940), overstated hours spent by the Systems Analyst classification performing mandated activities (\$16,163), and understated productive hourly rates (\$35,708).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and benefits:			
1998-99	\$ 47,236	\$ 56,834	\$ 9,598
1999-2000	140,516	127,181	(13,335)
2000-01	126,793	135,995	9,202
2001-02	26,714	131,162	104,448
2002-03	23,921	124,455	100,534
2005-06	30,738	155,122	124,384
2006-07	20,871	156,162	135,291
2007-08	51,878	178,308	126,430
Total	<u>\$ 468,667</u>	<u>\$ 1,065,219</u>	<u>\$ 596,552</u>

Overstated and Unallowable Costs

In the first three years of the audit period (FY 1998-99 through FY 2000-01), the city claimed 20 minutes per animal record for Veterinary Assistants to record information relating to the health of animals. However, recording animal health information is not a reimbursable activity and is, therefore, unallowable. The unallowable costs in the first three years of the audit period totaled \$237,933.

Time Study

In the latter five years of the audit period (FY 2001-02, FY 2002-03, and FY 2005-06 through FY 2007-08), the city claimed 5 minutes per non-medical animal record for the Animal Care Technicians to input animal intake information based on the results of the time study. The city then applied the 5-minute increments from the time study to the number of records processed for euthanized animals. After reviewing the time study results, we concluded that the 5-minute increments were reasonable and well-supported. We applied the 5-minute increments per non-medical record in all fiscal years of the audit period, including the first three years during which the hours were unallowable.

Involvement Level of Various Employee Classifications

The city's time study documented that record-keeping was performed by the Animal Care Technicians. However, during audit fieldwork, the city provided intake animal statistics supporting the involvement level of

Animal Care Technicians and Animal Control Officers with this activity. These intake statistics segregated the intake procedures and record-keeping activities performed by these two employee classifications.

The intake statistics reports documented that about 23% of animals are brought in from the field, and that Animal Control Officers perform the intake record-keeping for this population of animals. The Animal Care Technicians perform intake record-keeping for the remaining 77% of the animal population. We used these statistics in our calculations of allowable costs.

Understated Non-Medical Records

Allowable animal records for this cost component include any non-medical record that was created for any animal impounded throughout the audit period. We were able to retrieve this information from the Chameleon database by checking the number of animals that came into the city's shelters during each fiscal year. After analyzing the Chameleon data, we concluded that the city understated the number of eligible records in all fiscal years of the audit period. The city understated the records because it claimed only the records for animals that died or were euthanized. However, the mandated program allows reimbursement for maintaining non-medical records for all impounded animals.

We were able to retrieve Chameleon intake information dating back to FY 2000-01. Chameleon statistics were not available for the first two years of the audit period. To determine the eligible number of records for FY 1998-99 and FY 1999-00, we calculated an average number of animal records processed during FY 2000-01 and FY 2001-02. For FY 1998-99, we used half of this average because reimbursement begins in January 1999 for this component.

After calculating the actual number of intake records, we concluded that the city under-claimed the total number of animal records processed by 356,909 during the audit period, resulting in understated allowable costs totaling \$814,940 during the audit period.

The following table summarizes the claimed, allowable, and understated records for the audit period by fiscal year:

<u>Fiscal Year</u>	<u>Records Claimed</u>	<u>Records Allowable</u>	<u>Audit Adjustment</u>
Non-Medical Records			
1998-99	7,136	32,447	25,311
1999-2000	17,935	64,893	46,958
2000-01	15,494	66,343	50,849
2001-02	13,747	63,443	49,696
2002-03	11,960	58,717	46,757
2005-06	11,135	54,102	42,967
2006-07	7,127	52,580	45,453
2007-08	7,175	56,093	48,918
Total	<u>91,709</u>	<u>448,618</u>	<u>356,909</u>

Senior Systems Analyst Time

For FY 2007-08, the city claimed 25% of the Senior Systems Analyst's total annual productive hours as time spent to maintain the Chameleon database. According to the Systems Analyst, claimed hours were spent on general oversight and maintenance of the animal database. However, claimed hours did not account for the 50% share of the Chameleon software that is used for non-mandated activities. Accordingly, we pro-rated claimed hours by 50%, which resulted in overstated costs totaling \$16,163 for FY 2007-08.

Understated Productive Hourly Rates

As stated in Finding 1, the city generally understated employee productive hourly rates. We applied the adjusted rates and determined that allowable costs for this component were understated by \$35,708.

The parameters and guidelines (section IV.B.8—Maintaining Non-Medical Records) identify the following reimbursable activities:

Beginning January 1, 1999 – Maintaining non-medical records on animals that are either taken up, euthanized after the holding period, or impounded. Such records shall include the following:

- The date the animal was taken up, euthanized, or impounded;
- The circumstances under which the animal is taken up, euthanized, or impounded;
- The names of the personnel who took up, euthanized, or impounded the animal; and
- The final disposition of the animal, including the name of the person who euthanized the animal or the name and address of the adopting party.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city's response under "Other Issues."

**FINDING 7—
Overstated necessary
and prompt
veterinary care costs**

The city claimed \$2,193,011 under the cost component of Necessary and Prompt Veterinary Care during the audit period. We determined that \$365,168 is allowable and \$1,827,843 is unallowable. The costs were unallowable because the city claimed estimated materials and supplies costs (\$488,137), claimed unsupported materials and supplies costs (\$608,849), claimed misstated and unallowable hours (\$732,515), and understated productive hourly rates (\$1,658).

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Salaries and benefits:			
1998-99	\$ —	\$ 25,409	\$ 25,409
1999-2000	—	56,834	56,834
2000-01	—	67,504	67,504
2001-02	179,750	51,839	(127,911)
2002-03	143,387	38,753	(104,634)
2005-06	262,640	40,823	(221,817)
2006-07	212,421	40,429	(171,992)
2007-08	297,827	43,577	(254,250)
Total salaries and benefits	1,096,025	365,168	(730,857)
Materials and supplies:			
1998-99	50,984	—	(50,984)
1999-2000	129,149	—	(129,149)
2000-01	308,004	—	(308,004)
2001-02	65,114	—	(65,114)
2002-03	83,002	—	(83,002)
2005-06	117,278	—	(117,278)
2006-07	178,953	—	(178,953)
2007-08	164,502	—	(164,502)
Total materials and supplies	1,096,986	—	(1,096,986)
Total	\$ 2,193,011	\$ 365,168	\$ (1,827,843)

Salary and Benefit Costs

The city did not claim any labor costs in the first three years of the audit period (FY 1998-99 through FY 2000-01). Starting in FY 2001-02, the city began claiming costs for Veterinarians and Veterinary Technicians to perform various activities. The claimed hours were based on a time study that recorded increments of time to perform various medical procedures. We reviewed the city's initial time study and determined that it was inadequate.

The initial time study focused on recording non-routine medical procedures as opposed to repetitive activities. Non-routine procedures are not appropriate for a time study because they are unique in nature and in the duration of time spent. Furthermore, non-routine medical procedures are reimbursable only for medical services performed during the required holding period for animals that either died during the holding period or were euthanized after the required holding period. Thus, these types of non-recurring expenses would need to be examined on a case-by-case basis to determine eligibility for reimbursement.

Our review also indicated that included in the time study were some emergency treatments, microchip implantation procedures, and euthanasia procedures, all of which are excluded activities under this cost component.

The two repetitive tasks that are appropriate for a time study under this cost component are (1) performing an initial physical examination to determine the animal's baseline health status and classification as adoptable, treatable, or non-rehabilitatable and (2) administering wellness vaccines to treatable or adoptable animals. We advised the city that it should perform a new time study to capture time spent on these two repetitive and eligible procedures.

Allowable Time Study

During the course of the audit, the city performed a new time study. The new time study included the following activities (usually performed by Veterinary Technicians):

- Performing the initial physical examination;
- Administering of wellness vaccine upon animal's intake (excluding rabies vaccines);
- Administering other routine medications upon animal's intake (flea, tic, etc.); and
- Inputting animal medical statistics into the Chameleon database about animal's baseline health (not a reimbursable activity).

Out of the four activities noted above, the first two are reimbursable under this component as applied to the eligible animal population. The third activity, administering routine medications to eligible animals, is also reimbursable, but would normally be claimed under the Care and Maintenance cost component. Considering the agency's procedure that Veterinary Technicians perform all three activities at the same time, we decided to allow the third activity under this component as well.

However, the fourth activity, input of medical information into Chameleon, is outside the scope of this component. Noting the animals' baseline health and medical information in the Chameleon software is not a reimbursable activity. We worked with representatives of the city's Animal Services Department to segregate the time study results per each individual activity. We were able to calculate a 10-minute time increment per animal that accounted for time spent on the three reimbursable activities noted above. Subsequently, we used the 10-minute increments to calculate allowable costs for this component by applying it to the eligible population of animals per the Chameleon database.

Our analysis revealed that the city misstated salary and benefit costs for this component by \$732,515 during the audit period.

Materials and Supplies

During the audit period, the city claimed estimated materials and supplies costs (\$488,137) and claimed unsupported materials and supplies costs (\$608,849). The estimated costs occurred in the first three years of the audit period (FY 1998-99 through FY 2000-01), when the city estimated that 3% of the operating costs were attributable to the component of Necessary and Prompt Veterinary Care. In the latter five years of the audit period (FY 2001-02, FY 2002-03, and FY 2005-06 through FY 2007-08), the city claimed materials and supplies costs that were not supported, and we were unable to determine what portion of the cost might have been attributed to reimbursable activities.

Understated Productive Hourly Rates

As identified in Finding 1, the city generally understated employee productive hourly rates. We applied the adjusted rates and determined that allowable costs for this component were understated by \$1,658.

The parameters and guidelines (section IV.B.9–Necessary and Prompt Veterinary Care) identify the following reimbursable activities:

Beginning January 1, 1999 – For providing “necessary and prompt veterinary care” for stray and abandoned animals, other than injured cats and dogs given emergency treatment, that die during the holding period or are ultimately euthanized during the holding periods specified in Statutes of 1998, Chapter 752.

“Necessary and prompt veterinary care” means all reasonably necessary medical procedures performed by a veterinarian or someone under the supervision of a veterinarian to make stray or abandoned animals “adoptable.” The following veterinary procedures, if conducted, are eligible for reimbursement:

- An initial physical examination of the animal to determine the animal’s baseline health status and classification as “adoptable,” “treatable,” or “non-rehabilitatable.”
- A wellness vaccine administered to “treatable” or “adoptable” animals.
- Veterinary care to stabilize and or relieve the suffering of a “treatable” animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a “treatable” animal or that is likely to adversely affect the animal’s health in the future, until the animal becomes “adoptable.”

Population Exclusions

Eligible claimants are *not* entitled to reimbursement for providing “necessary and prompt veterinary care” to the following population of animals:

- Animals that are irremediably suffering from a serious illness or severe injury . . . ;
- Newborn animals that need maternal care and have been impounded without their mothers . . . ;

- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal . . . ;
- Owner-relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not directly address this audit finding in its response. However, the city submitted documentation subsequent to the issuance of the draft report, providing expenditure amounts for veterinary materials and supplies. The city submitted summary reports containing year end expenditures by vendor for Account 3190 – Medical Supplies. For the audit period, the expenses submitted totaled \$2,086,819.

SCO's Comment

The finding and recommendation remain unchanged.

We examined the detailed spreadsheets containing expenditures by vendor to determine whether any of the submitted costs were allowable costs under the Necessary and Prompt Veterinary Care cost component.

During fieldwork, we discussed with the department's staff the reimbursable criteria for this component. We specifically addressed all of the exclusions and limitations noted in the parameters and guidelines. In order for veterinary materials and supplies to be reimbursable, the department needed to show what specific materials and supplies were expended for the eligible population of animals. Further, the department needed to show that these medical expenditures took place as a result of treatments occurring during the holding period days for those eligible animals.

We concluded that we are unable to consider the medical expenses submitted for reimbursement, because the city did not determine what portion of the costs actually related to the eligible animals and allowable treatments that took place during the required holding period.

**FINDING 8—
Overstated procuring
equipment costs**

The city claimed \$78,179 for procuring equipment costs for FY 2002-03. We determined that \$12,932 is allowable and \$65,247 is unallowable. The unallowable costs occurred because the city claimed unsupported costs (\$52,316) and did not pro-rate allowable computer equipment costs proportionate to the share attributed to the mandated activities (\$12,931).

The parameters and guidelines (section IV.B.10–Procuring Equipment) state that:

If the medical, kennel, and computer equipment is utilized in some way not directly related to the mandated program or the population of animals listed in Section IV(B), only the pro rata portion of the activity that is used for purposes of the mandated program is reimbursable.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City’s Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city’s response under “Other Issues.”

**FINDING 9—
Overstated indirect
costs**

The city claimed \$2,897,874 for indirect costs during the audit period. We determined that \$2,162,775 is allowable and the net amount of \$735,099 is unallowable (overstated by \$1,229,323 and understated by \$494,224). The overstatement of \$1,229,322 occurred as a result of the unallowable salaries identified in audit Findings 1 through 8. The city also understated indirect costs totaling \$494,223 because it understated its indirect cost rates in FY 1998-99, FY 1999-2000, and FY 2000-01.

The following table summarizes the claimed, allowable, and unallowable costs for the audit period by fiscal year:

Fiscal Year	Amount Claimed	Amount Allowable	Audit Adjustment
Indirect costs:			
1998-99	\$ 108,071	\$ 133,057	\$ 24,986
1999-2000	276,908	299,826	22,918
2000-01	297,289	362,228	64,939
2001-02	701,641	268,017	(433,624)
2002-03	160,758	197,216	36,458
2005-06	479,470	358,986	(120,484)
2006-07	518,942	298,681	(220,261)
2007-08	354,795	244,764	(110,031)
Total	<u>\$ 2,897,874</u>	<u>\$ 2,162,775</u>	<u>\$ (735,099)</u>

Unallowable Indirect Costs Related to Unallowable Salaries

As a result of the unallowable salaries identified in Findings 1 through 8, related indirect costs totaling \$1,229,322 are also unallowable.

Understated Indirect Cost Rates

The city understated its indirect cost rates in FY 1998-99, FY 1999-2000, and FY 2000-01. The rates were understated because the city used incorrect rates from the annual citywide Cost Allocation Plans (CAP).

The City Controller prepares annual CAPs, which provide details for approved fringe benefit rates and indirect cost rates for each of the city's departments. The rates indicated in each CAP are approved by the U.S. Department of Health and Human Services under the contract with the city's cognizant federal agency, the U.S. Department of Housing and Urban Development. The city uses these approved rates to prepare claims for various programs, grants, and contracts.

As per the CAP instructions, the indirect cost rates consist of two separate rates: the central services rate and the departmental administration and support rate. Both overhead rates should be combined and applied to direct salaries, excluding fringe benefits, and overtime.

However, the Animal Services Department did not combine the two overhead rates in the first three years of the audit period, and thus understated the rates for those fiscal years, as noted in the table:

Category	Fiscal Year		
	1998-99	1999-2000	2000-01
Claimed indirect cost rates	30.82%	37.13%	39.31%
Allowable indirect cost rates:			
Central services rate	56.25%	56.14%	66.61%
Department administration and support rate	30.82%	37.13%	39.31%
Total allowable rate	87.07%	93.27%	105.92%
Audit adjustment	56.25%	56.14%	66.61%

The understated rates resulted in underclaimed indirect costs totaling \$494,223 as noted in the following table:

Category	Fiscal Year			Total
	1998-99	1999-2000	2000-01	
Rate claimed	30.82%	37.13%	39.31%	
Rate allowable	87.07%	93.27%	105.92%	
Difference	56.25%	56.14%	66.61%	
Allowable salaries	× \$ 152,816	× \$ 321,460	× \$ 341,982	
Audit adjustment	\$ 85,959	\$ 180,469	\$ 227,795	\$ 494,223

The parameters and guidelines (section V.B.–Claim Preparation and Submission, Indirect Cost Rates) state that compensation for indirect costs is eligible for reimbursement using the procedure provided in the Office of Management and Budget Circular A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal if the indirect cost rate exceeds 10%.

Recommendation

We recommend that the city ensure that claimed costs include only eligible costs, are based on actual costs, and are properly supported.

City's Response

The city did not provide a response to this specific finding. However, the city did comment on the audit process and the audit findings in general. See the city's response under "Other Issues."

OTHER ISSUES

In its response dated March 29, 2011, the city commented on the audit process and the audit findings in general.

**ISSUE 1—
Proposition F and
construction of new
facilities**

The city did not claim any costs during the audit period under the Acquisition of Additional Space and/or Construction of New Facilities cost component. During audit fieldwork, the city inquired about the eligibility of costs it incurred for the construction and renovation of animal shelters under the mandated program.

During the audit period, the city constructed new animal shelters and underwent renovation work on existing animal shelters. These improvements have been an ongoing project for the City of Los Angeles that involved a ballot measure in the November 2000 general election. In that general election, the voters passed Proposition F, which allowed the city to issue bonds for the purposes of constructing new animal shelter facilities and fire stations.

The city provided background information on this project for our review. After reviewing the information provided, we determined that the terms of Proposition F required that the city's taxpayers would fund the construction projects through additional levies made to their property taxes. The city's taxpayers have been and are still currently assessed property taxes in amounts specifically for the purpose of retiring the Proposition F bonds. Therefore, the city's taxpayers are funding both the entire bond principal and interest amounts. Accordingly, we determined that this non-discretionary revenue source was used to build the city's animal shelters and none of the city's discretionary general fund moneys were involved.

While the city performed the required analysis to determine that additional shelter space was needed to provide additional capacity in order to comply with the provisions of the Hayden Bill, restricted resources funded the construction costs for the additional capacity, not the city's general fund. Therefore, the city did not incur any increased costs to construct/remodel its animal shelters under Government Code section 17514.

City's Response

First, there should not seem to be any dispute whether there was a cost mandated by the State. The costs are clearly identified as reimbursable costs in the Controller's claiming instructions for the Hayden Bill which meets all the requirements of Section 17514 above.

The Controller's issue seems to be, are these local revenues or "proceeds of taxes." The state has the right to preclude the City from being reimbursed for state, federal or grant funds, but not for local revenues which are proceeds of taxes.

On January 31, 2001, the Los Angeles City Council adopted a resolution providing for the issuance and sale of the City of Los Angeles General Obligation Bonds authorized by the voters by Proposition F, in an aggregate principal amount not to exceed \$201.3 million for a variety of local projects and services. The Council identified up to \$36.5 million for animal shelter facilities. These are clearly local revenues and to the extent the funds are used to pay for state mandate programs, there should be reimbursed by the state.

A similar issue was contested in *Redevelopment Agency v. Commission on State Mandates* (1997) 55 Cal.App.4th 976. The court set forth the following analysis:

The California Supreme Court's summary of the history and substance of the law applicable to state mandates, commented: "Through adoption of Proposition 13 in 1978, the voters added article XIII A to the California Constitution, which 'imposes a limit on the power of state and local governments to adopt and levy taxes. [Citation.]' [Citation.] The next year, the voters added article XIII B to the Constitution, which 'impose[s] a complementary limit on the rate of growth in governmental spending.' [Citation.] These two constitutional articles 'work in tandem, together restricting California governments' power both to levy and to spend for public purposes.' [Citation.] Their goals are 'to protect residents from excessive taxation and government spending. [Citation.]' [Citation.]" (*County of San Diego v. State of California*, supra, 15 Cal.4th at pp. 80-81.)

* * *

In *County of San Diego v. State of California*, supra, 15 Cal.4th at page 81, the Supreme Court explained that section 6 represents recognition that together articles XIII A and XIII B severely restrict the taxing and spending powers of local agencies. The purpose of the section is to preclude the state from shifting financial responsibility for governmental functions to local agencies, which are ill equipped to undertake increased financial responsibilities because they are subject to taxing and spending limitations under articles XIII A and XIII B. (*County of San Diego v. State of California*, supra, at p. 81.)

* * *

In *County of Placer v. Corin* (1980) 113 Cal.App.3d 443, 451 [170 Cal.Rptr. 232], the court defined "proceeds of taxes" in this way: "Under article XIII B, with the exception of state subventions, the items that make up the scope of 'proceeds of taxes' concern charges levied to raise general revenues for the local entity. 'Proceeds of taxes,' in addition to 'all tax revenues' includes 'proceeds ... from ... regulatory licenses, user charges, and user fees [only] to the extent that such proceeds exceed the costs reasonably borne by such entity in providing the regulation, product or service....' (§ 8, subd. (c).) (Italics added.) Such 'excess' regulatory or user fees are but taxes for the raising of general revenue for the entity. [Citations.] Moreover, to the extent that an assessment results in revenue above the cost of the improvement or is of general public benefit, it is no longer a special assessment but a tax. [Citation.] We conclude 'proceeds of taxes' generally contemplates only those impositions which raise general tax revenues for the entity." (Italics added.) (Id. at 980- 984.)

In summary, the courts have held, and the Commission will follow suit in holding, that Proposition F funds are clearly proceeds of taxes and local revenue and to the extent they were used to pay for state mandated costs associated with the increased cost of building animal shelters due to the Hayden bill, should be reimbursed by the State.

SCO's Comment

The draft report contains our response to the city's request to consider reimbursement for animal shelter construction costs under the section entitled "Other Issues." In our response, we stated that such costs were not reimbursable because the construction costs incurred were funded entirely by the city's taxpayers via property tax assessments. However, the city attached to its draft report response a legal argument suggesting that such costs should be reimbursable under the mandated program. We submitted the city's legal arguments to SCO legal counsel for follow-up. Based upon our legal counsel's guidance, we will revisit this issue if necessary.

**ISSUE 2—
Audit findings and the
audit process**

The city provided three separate documents (Attachment) in response to the draft audit report. These documents consisted of:

- Letter to State Controller John Chiang from Brenda Barnette, General Manager of Animal Control Services
- Bullet Point List containing various comments related to the audit, and
- Summary of Department’s Response to Finding 8 – Prop F costs

Our comments related to the city’s response concerning Proposition F is noted above. We will address our comments to the first two responses provided by the city below.

Letter to Controller John Chiang

The letter from Animal Services Department General Manager Brenda Barnette contains a number of allegations about the SCO audit process that misrepresent what occurred during the course of audit fieldwork. Ms. Barnette was not directly involved in the audit process. We documented the actual sequence of events that transpired during the audit process, as described below. Our comments relate to the main points that appear in Ms. Barnette’s letter to the Controller.

“Unreasonable time constraints imposed . . . on the Department.”

City’s Response

Due to the unreasonable time constraints imposed by the State on the Department, substantial and delinquent demand made by the State that the City provide detailed documentation for audit periods as long as 12 years, and strong likelihood that the [sic] with sufficient and fair notice to the City the actual reimbursement to the City would be closer to the actual amounts billed, the Department of Animals Services recommends that the City of Los Angeles direct the State of California to immediately and fully reimburse all amounts claimed by the Department of Animal Services that have not been paid by the State.

SCO’s Comment

The audit began with an entrance conference held on April 28, 2009. In November 2009, further work on the audit was temporarily discontinued when the Audit Manager overseeing the project transferred to another unit within the SCO. Subsequently, the audit was transferred to another Audit Manager and Auditor-In-Charge (AIC) for completion.

This new audit group met with Animal Services Department representatives and their mandated cost consultant on July 19, 2010, to resume fieldwork for the audit. At that time, the city was given notice that a final audit report would be issued no later than April 2011, nine months later. We provided department representatives with a status report documenting where things stood with the audit as of that date. During the next four days, the SCO Audit Manager visited four of the city’s animal shelters to gather information on how the city operated its animal shelters, while the AIC worked with department employees to gather information in support of claimed costs.

Subsequent to the July 19, 2010 meeting, the city's mandated cost consultant was no longer involved in the audit process (i.e., did not participate in any audit discussions with department representatives nor had any contact with SCO auditors with questions or concerns about the audit as it progressed).

At the end of this first week (July 22, 2010), we conducted another status meeting with department representatives to address some of the issues we noted and request documents to support training costs, computer software costs, care and maintenance costs (labor as well as materials and supplies), increased holding period costs, lost-and-found lists costs, non-medical records, and necessary and prompt veterinary care costs. We then discussed each cost component in detail with the department staff and discussed which types of expenditures would be reimbursable. We addressed the criteria for reimbursement found in the program's parameters and guidelines, and possible audit findings.

We also discussed in detail the support needed for care and maintenance expenditures and even identified the city's expenditure accounts that probably contained the information (expenditure account 6020 – Operating Expenses, and account 4580 – Animal Food Expenses). When we asked about actual expenditure information, department representatives had no knowledge of any actual expenditure information that was available. We were informed that the department only worked with budgeted information. We suggested that the department contact the City Controller's Office for actual cost data.

Over the weeks that followed, we maintained constant contact with department representatives via telephone and e-mail. The AIC revisited the department during the week of October 19, 2010, for a second week of fieldwork. At that time, we provided department representatives with a detailed write-up of our preliminary findings to date. This handout also provided a list of documentation still needed to complete calculations for training, computer equipment and software license renewal, care and maintenance, lost-and-found lists, and veterinary care.

At the conclusion of this additional week of fieldwork, we conducted another status meeting with department representatives addressing the progress made that week. We provided the department another detailed handout containing information relating to the lack of documentation for some of the cost components. We again addressed the missing documents related to the care and maintenance expenses we previously requested. The department staff stated they were still working on retrieving expenditure amounts from accounts 6020 – Operating Supplies, and 4580 – Animal Food. The department stated it was still in the process of determining the proration of time attributed to the function of care and maintenance by some key employee classifications. At this point, the city still was not able to provide any supporting documentation for part of lost-and-found lists costs, all veterinary care costs, and part of the computer software costs.

On October 28, 2010, per the department's request, we sent a document containing details about our analysis of the city's Chameleon database information. We addressed that our calculations were based on the raw animal data provided by the department from its system. We provided details of our calculations for the annual census of animals and the number of eligible animals per each fiscal year in the audit period. We also provided a list of the excluded animals that we noted during our review of the animal data. To date, the city has not provided any objections to our analysis of its Chameleon data.

On November 23, 2010, we made another attempt to request documentation that had not yet been provided. This included the expenditure amounts for care and maintenance costs, veterinary expenditures relating to reimbursable activities, and the proration analysis for the Chameleon software that relates to the mandated activities. All of these items were originally requested in July 2010.

On January 12, 2011, we held an exit conference with representatives of the Animal Services Department and addressed each audit finding in detail. The city's mandated cost consultant did not attend this meeting. We discussed how we calculated the allowable costs and noted the documentation that was still needed, primarily the actual cost information supporting materials and supplies expenditures for care and maintenance. At the exit conference, we advised department representatives again that we would be issuing a final report no later than early April. We also explained that even though a final report was issued, we would still consider additional information that the city provided and adjust the final audit report as appropriate.

A short time after the exit meeting, we were advised that Linda Barth, our main contact person for the audit, and the Department's Assistant General Manager, had left the department. The department did not provide any more documentation to us after the exit meeting, up to the issuance of the draft report on March 10, 2011.

As noted above, we have worked extensively with city representatives to determine allowable costs to the maximum extent possible.

“The claims filed by the City were submitted timely and were properly documented.”

City's Response

Full reimbursement is proper because the claims filed by the City were submitted timely (except as noted), and were properly documented according to all of the State's guidelines and rules in place at the time each request for reimbursement was submitted.

SCO's Comment

The city did not provide supporting documentation for all of its costs claimed, consistent with the rules in place when the claims were filed. The documentation requirements for the city's mandated cost claims are contained within the parameters and guidelines adopted by the CSM on February 28, 2002, and amended on January 26, 2006. The parameters

and guidelines require that all costs claimed be traceable to source documents that show evidence of the validity of such costs and their relationship to this mandate.

The city is responsible for maintaining documentation for the period the claims were subject to audit. However, the department representatives indicated to us that some of the supporting documentation has been destroyed, specifically invoices supporting materials and supplies costs related to animal care and maintenance activities.

“The audit [must] be reopened to [reconsider] Prop F funds.”

City’s Response

If the audit must be closed to meet a statutory deadline, we additionally request that the audit be reopened to allow adequate time to consider acceptance of offset allowance for Prop F funds expended on facility construction and other expenditures to comply with the Hayden Bill.

SCO’s Comment

As noted previously in our comments above, we advised department representatives that we would welcome any additional documentation subsequent to the issuance of the final audit report that supports additional allowable costs. We also advised that we would adjust the audit results as appropriate and reissue the audit report.

In light of the city’s legal argument related to Prop F funds, we have requested further guidance from our legal counsel. We will adjust the audit results as appropriate based on the guidance that we receive concerning this issue.

“The State’s audit [was] untimely, lack[ed] proper notification, and [is] contrary to the general purposes of good government.”

City’s Response

For all the reasons stated in the attached, the Department recommends that the city reject the State’s audit as untimely, lacking proper notification, and contrary to the general purposes of good government, and as a result, reject the audit findings.

SCO’s Comment

Our audit was conducted in accordance with *Generally Accepted Auditing Standards*. These standards require that we obtain sufficient and relevant evidence that adequately supports the audit findings and conclusions. We did this. As noted above, the audit was performed within the statutory time period and the city was provided proper notification of audit issues. As noted in our audit report, the city filed its mandate claims with significant errors and omissions.

“Audit process . . . should support the good faith and honest efforts of local agencies to comply with the mandate.”

City’s Response

Rather than reducing the burden on local animal care and control agencies of implementing a valuable State-mandated law, the Hayden Bill, the entire audit process by the State Controller’s Office is resulting in numerous large financial penalties to local jurisdictions for following the rules of the State and, therefore, for supporting the mandates of the Hayden Bill in good faith, and for reporting expenses honestly. The State Mandates reimbursement process, including the audit, should accomplish just the opposite, that is, it should support the good faith and honest efforts of local agencies to comply with the mandate.

SCO’s Comment

Our audit determined whether costs claimed represent increased costs resulting from the mandated program. The city is not entitled to mandated reimbursement for costs not allowable under the parameters and guidelines.

A city’s good faith and honest effort is not relevant in determining costs reimbursable under the mandate.

Bullet Point List of Comments Related to the Audit

The city provided a list of 31 bullet points related to our audit of its claims filed under the Animal Adoption Program for the audit period. Many of these bullet points contain comments that are unrelated to the audit findings, but rather are comments related to the audit process. Some of the city’s comments were already addressed in our comments related to the letter sent to the Controller by General Manager Barnette. Some of the bullet points have nothing to do with the audit findings; therefore we did not respond to them. The city’s bullet points are not numbered. Our responses below follow the same general headings used by the city.

Deadline

City’s Response

- The State Controller’s Office (State) extended the deadline for providing the Department’s response to the by two days to allow submission of additional material when the Department has requested 30 days. The State’s refusal to allow the time requested by the Department is based on the State’s April 6, 2011 deadline to file the audit in order to stay within the two-year statute of limitations that an audit must be completed within two years of initiation.
- The State’s refusal to allow additional time requested by the Department as allowed in the guidelines is attributable to the State’s delay, not that of the Department. The Department was initially contacted by the State Controller’s Office almost two years ago to schedule the audit. The entrance conference was held and for seven months the State auditors met with Department staff and documents were requested and provided. The Department provided over 200 hours to the audit. In November 2009, the State discontinued contact with the Department. In about June 2010 the Department was contacted by the State again, a new State auditor was assigned. A second entrance conference was held and the State periodically contacted the Department to request information. The

Department provided at least 250 hours in support of this audit. Over 450 hours has been allocated by the Department to support the continuous audit process mostly because of the continual demand of the State auditors for exact detailed information of expenditures including vendor, year, and detailed description of each line item expenditure included in the request for reimbursement.

- The Department has acted in good faith to comply with all audit requests. In a few minor cases, the State auditor agreed to accept some samples of invoices instead of full and complete detailed verification.
- The State issued the draft audit in March, 2011. As of today, the State auditor is still determining methods to allocate various costs among what the State determines to be eligible and ineligible costs.

SCO's Comment

We advised Animal Services Department representatives in July 2010 that actual cost information was needed to support materials and supplies costs for care and maintenance. We also informed the city that it would have 15 days to respond to the draft report findings and that we would issue a final audit report no later than April 2011. The city did not respond to our e-mails and telephone calls and did not take an active role in supporting these allowable costs until after the issuance of the draft audit report on March 10, 2011. All of the additional information provided by the city should have been available at the beginning of the audit in April 2009.

We also advised city representatives that even after we issued a final report, the audit findings could be updated and a revised report would be issued based upon new information that became available.

The SCO has devoted significant hours of employee time to this project, so there is a considerable amount of involvement by both parties. Contrary to the city's comments, we are not still determining methods to allocate costs for our audit findings. Instead, we were waiting for the city to supply the information that we requested long ago so that we could put it into the actual cost formula to determine allowable care and maintenance costs. We reviewed the additional documentation the city provided after the issuance of the draft report. As a result, allowable costs increased by \$61,229.

Additional Information Submitted or Eligible

City's Response

- The Department is providing additional detailed information to the State auditors as part of its response to the draft audit in the format and level of detail acceptable to the State auditors covering expenditures for medical supplies, cleaning supplies, animal food, staff training, and Prop F costs.
- Information for just the medical supplies, cleaning supplies, and animal food in a linked spreadsheet contains 4.5 million bits of information. These three accounts cover categories of expenditures that are essential for maintenance of animals. Additional information could be provided for other qualifying expenditures in other accounts, such as Account 4460, Private Vet Care, but there are not sufficient time or staff resources to continue to provide millions of items of information going back 12 years

for yet-to-be determined eligibility criteria. Some spay/neuter surgeries for adopted animals are required by the Hayden Bill. Also, details for purchases of eligible cleaning and maintenance supplies from accounts other than Account 6020 have not been calculated due to lack of time and staff resources.

- The Department has requested that the State consider reimbursement for medical supplies. (Account 3190) The State auditors had determined these costs were not eligible, but per our request, agreed to consider them. The State Controller has not yet developed a method to allocate these costs among their determination of what are eligible and ineligible costs. Today the Department is submitting detailed statements of expenditures by year and by line item for medical supplies for the audit period. Stray animals taken to the shelter have unknown medical conditions until they are given a check up and examined by a veterinarian. Animals are given two vaccinations, and medication for deworming and flea control. This treatment is standard. If the animal is ill, additional treatment or medications could include IV fluid, splints, X-rays, or other treatment. The State auditors have yet to develop a formula for allocation of these costs.
- The State auditor has agreed that cleaning and other supplies (Account 6020) would be considered if expenses are determined to be eligible and if the Department is able to provide detailed records of expenditure by vendor and by invoice line item for all years audited. The Department was able to verify the largest vendors. These records are being submitted to the State Controller today.
- The State auditor has agreed that animal food (Account 4580) would be considered if the Department is able to provide detailed records of expenditure by vendor and by invoice line item for all years audited. These records are being submitted today.
- The State auditors rejected Department costs incurred in 2000 to provide initial training of staff for use of a new central database system called Chameleon purchased by the Department to comply with the requirements of the Hayden Bill. The Department was required by the State auditors to provide a list of all employees in the Department in the year 2000 who received the training in order to be reimbursed for it – a 10 years after the training was provided. No prior request to maintain these employee records was provided to the City. The Department was able to retrieve the records but only after considerable expense and time.

SCO's Comment

We understand the eligible and ineligible activities under this mandated program. We communicated this information to Animal Services Department personnel multiple times.

During the audit process, Animal Services Department representatives had a difficult time obtaining actual cost information from the city's accounting system. As an alternative, we suggested that they prepare a list of costs expended by vendor. We noted that if the city could provide sample invoices from these vendors, we could verify that the costs incurred for these vendors were for care and maintenance activities. The city could then prepare cumulative reports of expenditures for these vendors, which we would in turn accept for the entire audit period, rather than requiring invoices or other supporting documents. This is what department representatives have now provided. Based on the additional supporting documentation provided, we revised the audit finding amount for Finding 3—Unallowable Care and Maintenance costs, as appropriate.

The city states that “The State auditors rejected Department costs incurred in 2000 to provide initial training of staff for use of a new central database system called Chameleon purchased by the Department to comply with the requirements of the Hayden Bill.” However, this statement is incorrect. In the draft audit report, allowable training costs for FY 1999-2000 totaled \$3,897. This represented costs for training 51 new employees identified by the department, although no support was provided other than a training agenda being used currently within the city’s animal shelters for newly hired staff. Subsequent to the issuance of the draft report, the city requested that we consider allowing 2-3 hours to train all 282 employees on payroll within the Animal Services Department. However, the city has no documentation available to support that any of these employees actually received any training concerning the requirements of the Hayden Bill.
