Implementing a PBIP is every day, all day long throughout the student's school day.

Now, the focus would be according to as long as the student remained at our school.

For example, the new FAA/PBIP I did in 06-07 began in March of 07 (last day of school). The existing PBIP ran from March 07 to March 07, at which time he went to nonpublic.

Please indicate the time it took for you to complete this survey: 4 Hrs. (to research by planners, etc. would be an inordinate amt. of time spent away from directly serving clients. Although we/I understand the importance of this request in the budget crisis and continuing rise in Autism and related disorders, to investigate the specifics of the questions on p.4 & 5 would require

researching and analyzing consultant planners, etc. and unfortunately with only one week to submit the information, it is an unreasonable request. More time should have been allotted for these very detailed queries.

Thank you very much for taking the time to complete this survey.

Adendum to Declaration

To Whom It May Concern,

While completing the PBIP Survey during the 2006-07 school year, an error was inadvertently made on the Data Collection For Certificated Positions form. In the box requesting the annual work days for the Behavior Specialist, the number 114 was incorrectly entered. The correct number of work days was 214. I did not see that mistake until just recently reviewing the survey in order to sign the declaration of accuracy. This portion of the survey was sent to the business office for completion (as they had the information about salary and benefits) and I did not notice the error when I signed the original survey.

Therefore, I am signing under penalty of perjury, that at the time I completed and signed that survey, I believed it to be correct; only after review 4 years later did I see the error of days mentioned above.

Declarations of R.Michael Lenahan and Linda Grundhoffer

DECLARATION OF R. MICHAEL LENAHAN

I, R. Michael Lenahan, declare as follows:

1. I have personal knowledge of the facts stated herein. If called as a witness, I could and would competently testify to these facts.
2. I am a financial consultant on CSM-4464, the Behavioral Intervention Plans Test Claim before the Commission on State Mandates. My relevant professional experience and my role as a BIP mandate consultant are explained in more detail in my previous declaration attached to Co-Claimants' December 16, 2010 Revised Proposed Parameters and Guidelines.
3. Linda Grundhoffer and I were consultants retained by Fagen Friedman & Fulfrost to compile the data in the Hughes Bill Cost Survey in 2007-2008. Ms. Grundhoffer and I divided the work, each of us assuming primary responsibility for certain SELPAs. I was primarily responsible for compiling the data for the following SELPAs: Clovis, Fresno County, Fresno Unified, Lodi Area, Marin County, South County, San Joaquin County, Solano County, Tehama County, West Orange County, and Tuolumne County. Then, together, we worked with Department of Finance staff, who had completed a similar compilation, to resolve discrepancies and ensure the final numbers for all SELPAs were as accurate as possible. We ultimately agreed with the Department of Finance to the numbers in the "reconciled spreadsheets."
4. Amended Exhibit 2D herein contains a true and correct copy of the "reconciled spreadsheets."

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

EXECUTED on August 14, 2012 in Walnut Creek, California.

*Notes on Organization:

- Within each SELPA, the surveys are organized by survey “level” as follows: SELPA, District, BICM. While most SELPAs contain all three levels, some contain only one or two levels. This is intentional, accurately reflecting the survey returns.

**As Mono and Inyo have the same SELPA Director, we combined the data from both SELPAs in Inyo’s reconciled spreadsheets. Therefore, Mono does not have its own reconciled spreadsheets. Please note, however, that Mono reported zero costs.
