**DECISION**

The Commission on State Mandates (Commission) heard and decided this Test Claim during a regularly scheduled hearing on May 28, 2021. Fernando Lemus appeared as the representative of and Lucia Gonzalez appeared as a witness for the County of Los Angeles (claimant). Chris Hill appeared on behalf of the Department of Finance (Finance).

The law applicable to the Commission’s determination of a reimbursable state-mandated program is article XIII B, section 6 of the California Constitution, Government Code sections 17500 et seq., and related case law.

The Commission adopted the Proposed Decision to partially approve the Test Claim by a vote of 6-0, as follows:

<b>Member</b>	<b>Vote</b>
Lee Adams, County Supervisor	Yes
Jeannie Lee, Representative of the Director of the Office of Planning and Research	Yes
Gayle Miller, Representative of the Director of the Department of Finance, Chairperson	Yes
Sarah Olsen, Public Member	Yes
Spencer Walker, Representative of the State Treasurer	Yes
Jacqueline Wong-Hernandez, Representative of the State Controller, Vice-Chairperson	Yes

## **Summary of the Findings**

This Test Claim, which was timely filed by the County of Los Angeles (claimant), addresses Statutes 2016, Chapter 781, which added Elections Code sections 21530 through 21535 to require the claimant to create, staff, and fund the independent County of Los Angeles Citizens Redistricting Committee (CRC) to adjust the boundary lines of the supervisorial districts in the County of Los Angeles in the year following the year of the decennial federal census.

Under prior law, the claimant's board of supervisors were required to perform the supervisorial redistricting.<sup>1</sup> Before adjusting the boundaries, the board was required to hold at least one public hearing on the proposed district lines prior to the public hearing at which the board votes to approve or deny the proposal.<sup>2</sup>

The Commission finds that the following activities required by Elections Code sections 21532 and 21534, as added by the test claim statute, mandate a new program or higher level of service on the claimant:

- The county shall create a CRC in each year ending in the number zero.<sup>3</sup>
- The elections official shall review the applications, select 60 applicants, publish the list of the 60 applicants, and create a subpool for each supervisorial district.<sup>4</sup>
- The Auditor-Controller randomly draws eight commissioners.<sup>5</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting and to provide access to the public.<sup>6</sup>

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities required by Elections Code sections 21532 and 21534 to be performed by the CRC mandate a new program or higher level of service on the claimant:

- The eight commissioners shall appoint six applicants to the CRC.<sup>7</sup>
- Conduct at least seven public hearings before drafting a map.<sup>8</sup>

<sup>1</sup> Elections Code section 21500 as added by Statutes 1994, chapter 920 and amended by Statutes 2015, chapter 732, section 36; Elections Code sections 21501-21506 as added by Statutes 1994, chapter 920; and Elections Code section 21507 as added by Statutes 2014, chapter 873.

<sup>2</sup> Elections Code section 21507 as added by Statutes 2014, chapter 873.

<sup>3</sup> Elections Code section 21532(a).

<sup>4</sup> Elections Code section 21532(e)-(g).

<sup>5</sup> Elections Code section 21532(g).

<sup>8</sup> Elections Code section 21534(c)(2).

- Post the draft map for public comment on the County website and conduct one public hearing on the draft map.<sup>9</sup>
- Comply with the Ralph M. Brown Act.<sup>10</sup>
- Make available to the public a calendar of all public hearings.<sup>11</sup>
- Arrange for the live translation of a hearing in an applicable language upon timely request.<sup>12</sup>
- Encourage county residents to participate in the redistricting.<sup>13</sup>
- Issue a report that explains the basis on which the CRC made its decisions.<sup>14</sup>

However, Elections Code sections 21530, 21533, and 21535 do not impose any state-mandated requirements on the claimant, but rather generally define terms and limit the hiring of consultants by the CRC to help with the adjustment of district boundaries. Although the claimant is required by Elections Code section 21534(c)(8) to provide reasonable funding to the CRC, which may include paying for a consultant hired by the CRC, the courts have made it clear that “[n]othing in article XIII B prohibits the shifting of costs between local governmental entities.”<sup>15</sup>

Moreover, the requirements imposed by Elections Code sections 21531 and 21534(a), (c)(9), and (d)(1)-(3) to adjust supervisorial boundary lines, adopt a redistricting plan every ten years; and to comply with the Public Records Act are not new and do not impose a new program or higher level of service on the claimant.<sup>16</sup>

The Commission also finds that all of the new state-mandated activities impose costs mandated by the state pursuant to Government Code section 17514, *except* for the activities required by Elections Code section 21534(c)(1) and (c)(4)(B) to comply with the Ralph M. Brown Act for the public hearings conducted by the CRC. These activities are expressly exempted from the reimbursement requirement by article XIII B, section 6(a)(4). Article XIII B, section 6(a)(4) states that “the Legislature may, but need not, provide a subvention of funds for the following

mandates: . . . Legislative mandates contained in statutes within the scope of paragraph (7) of subdivision (b) of Section 3 of Article I.” Article I, section 3(b) of the California Constitution requires local agencies to comply with the Ralph M. Brown Act, beginning with Government Code section 54950. The Brown Act applies to all local agencies and “any other local body created by state statute,” and therefore applies to the CRC.<sup>17</sup> Accordingly, the activities required by Elections Code section 21534(c)(1) and (c)(4)(B) to comply with the Ralph M. Brown Act do not impose costs mandated by the state pursuant to article XIII B, section 6(a)(4) of the California Constitution.

In conclusion, the Commission partially approves this Test Claim and finds that Elections Code sections 21532 and 21534 as added by the test claim statute impose a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution for the following activities:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>18</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>19</sup>
- At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>20</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC.<sup>21</sup>

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities mandated by Elections Code sections 21532 and 21534 impose a reimbursable state mandated program within the meaning of article XIII B, section 6 of the California Constitution on the claimant:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>22</sup>

- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>23</sup>
- Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>24</sup>
- Establish and make available to the public a calendar of all public hearings.<sup>25</sup>
- Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>26</sup>
- Take steps to encourage county residents to participate in the redistricting public review process.<sup>27</sup>
- Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>28</sup>

All other code sections added by the test claim statute and activities alleged to be mandated in the Test Claim are denied.

## II. Background

### A. A History of Redistricting in California

#### 1. The Creation of the California Citizens Redistricting Commission to Adjust District Lines for the State Assembly, Senate, and Board of Equalization, and for Congress.

Redistricting is the apportionment of legislative representation based on population.<sup>35</sup> The right to vote, guaranteed by the Fourteenth and Fifteenth Amendments of the United States Constitution, requires equal legislative representation through periodic redistricting.<sup>36</sup> Each state has the discretion to choose a specific methodology to use for redistricting,<sup>37</sup> however, the Fourteenth Amendment restricts the use of race as the predominant criterion in drawing district lines.<sup>38</sup>

The Voting Rights Act of 1965 was enacted by Congress to further protect the right to vote.<sup>39</sup> The Act prohibits states and their political subdivisions from using voting qualifications, prerequisites to voting, standards, practices, or procedures that result in the denial or abridgment of a citizen's right to vote on account of race, color, or membership in a "language minority group."<sup>40</sup> After the Supreme Court held that this provision prohibited only intentional discrimination,<sup>41</sup> Congress amended the Act to forbid any act having a disparate impact on minority voting strength. "Thus, after the 1982 amendment, the Voting Rights Act can be violated by both intentional discrimination in the drawing of district lines and facially neutral apportionment schemes that have the effect of diluting minority votes."<sup>42</sup>

California enacted its own Voting Rights Act<sup>43</sup> in 2002 which implements the equal protection<sup>44</sup> and the right to vote<sup>45</sup> guarantees in the California Constitution by proscribing “the dilution or the abridgment of the rights of voters who are members of a protected class.”<sup>46</sup>

California required the Legislature to adjust district lines for the Assembly, Senate, and Board of Equalization in the year following the federal census.<sup>47</sup> This process was fraught with partisan issues and gerrymandering for decades, however, solutions were slow in coming.<sup>48</sup> In the 1980s alone, California voters defeated four redistricting reform initiatives.<sup>49</sup> Finally, on November 4, 2008, California voters approved Proposition 11, the Voters FIRST Act, which amended Article XXI of the California Constitution taking the authority for the creation of district lines away from the Legislature and instead created the California Citizens Redistricting Commission to establish district lines for the Assembly, Senate, and Board of Equalization.<sup>50</sup> The 14 Commission members, chosen randomly by the State Auditor, are made up of five Democrats, five Republicans, and four members who are registered with neither of those political parties.<sup>51</sup> This entirely independent commission redistricting system was the first in the nation.<sup>52</sup> In 2010, the voters approved Proposition 20, the Voters FIRST Act for Congress, which further amended Article XXI giving the California Citizens Redistricting Commission the authority to establish district lines for U.S. congressional districts.<sup>53</sup>

## 2. Supervisorial Redistricting for the County of Los Angeles Under Prior Law.

Under the California Constitution, charter counties are not free to establish their own redistricting process.<sup>54</sup> As the County of Los Angeles is a charter county, it was obligated to follow the existing statutes regarding redistricting. Similar to the initial state system, supervisorial redistricting is performed by the legislative body of each county, the board of supervisors.<sup>55</sup>

In 2016, at the time that the test claim legislation was being considered, the process began after each decennial federal census. A county board of supervisors was required to adjust its supervisorial boundaries in compliance with the Voting Rights Act of 1965 so that the districts were nearly equal in population. The board was required to use the census data as a basis for the adjustment. The board had the option to consider the factors of topography; geography; cohesiveness, contiguity, integrity, and compactness of territory; and communities of interest.<sup>56</sup> The board also had the option to appoint an advisory committee of residents to study changing the boundaries. This committee would report its findings on the need for change of boundaries and the recommended changes to the board. These recommendations were advisory only.<sup>57</sup> Before adjusting the boundaries, the board was required to hold at least one public hearing on the proposed district lines prior to the public hearing at which the board votes to approve or deny the proposal.<sup>58</sup> If the board failed to complete the redistricting before the first day of November, a supervisorial redistricting commission, consisting of the county district attorney, the county assessor, and an elected county elections official, an elected county superintendent of schools, or the sheriff, was assembled to complete the redistricting.<sup>59</sup> Once established, the new district boundaries would take effect at the next election.<sup>60</sup> Between federal censuses, the board could redistrict based on a county census or use population estimates by the State Department of Finance, the county planning department, or county planning commission.<sup>61</sup> However, any person could bring suit claiming that the estimates did not reflect the current population more accurately than the most recent census data and seek declaratory relief from a court.<sup>62</sup>

<sup>62</sup> Elections Code section 21504 as added by Statutes 1994, chapter 920.

The claimant has had a history of racial discrimination in its supervisorial redistricting process.<sup>63</sup> In 1988, Hispanic groups in Los Angeles County, joined by the United States of America, filed a voting rights action seeking a redrawing of the districts for the Los Angeles County Board of Supervisors.<sup>64</sup> They alleged that the existing boundaries, which had been drawn after the 1980 census, were intentionally gerrymandered boundaries that diluted Hispanic voting strength. They sought redistricting in order to create a district with a Hispanic majority for the 1990 Board of Supervisors election.<sup>65</sup> The federal district court found “that the Board [of Supervisors] had engaged in intentional discrimination in redistrictings that it undertook in 1959, 1965 and 1971” and “the 1981 redistricting was calculated at least in part to keep the effects of those prior discriminatory reapportionments in place, as well as to prevent Hispanics from attaining a majority in any district in the future.”<sup>66</sup> The district court determined that the county’s district boundaries violated the federal Voting Rights Act of 1965.<sup>67</sup> The Ninth Circuit Court of Appeal affirmed the lower court’s decision and further found that the county had violated both the Voting Rights Act of 1965 and the equal protection guarantee of the 14th Amendment when drawing supervisorial districts.<sup>68</sup> The U.S. Supreme Court did not take up the county’s appeal.<sup>69</sup> The parties settled the matter by entering into a stipulation requiring the county to submit future redistricting plans to the U.S. Department of Justice for review. The stipulation terminated on December 31, 2002.<sup>70</sup> As a result of the court’s decision, a special election for supervisor was held in 1991 for the newly redrawn First Supervisorial District.<sup>71</sup> The 2010 redistricting plan, the first not to require review under the stipulation, was not challenged in court.<sup>72</sup>

**B. The Test Claim Statute, Statute 2016, Chapter 781, Added Sections 21530 through 21535 to the Elections Code to Establish an Independent Citizens Redistricting Commission for the County of Los Angeles.**

The test claim statute was characterized by the author as “a good government proposal for the citizens of Los Angeles County” which would “align the Los Angeles County Board of Supervisors’ redistricting policy with the statewide movement toward independent redistricting.”<sup>73</sup> Legislative history of the statute noted that the state of California has a redistricting commission as does the County of San Diego through legislation requested by the county.<sup>74</sup> Without such statutory authority, counties are powerless to create commissions on their own.<sup>75</sup> The legislative history concluded that the successful establishment of an independent redistricting commission in San Diego County, the second most populous county in California, boded well for the success of an independent commission in Los Angeles County, the state’s most populous county and “one of the most geographically and ethnically diverse counties in the state.”<sup>76</sup>

The test claim statute provides that the CRC will adjust the boundary lines of the supervisorial districts in the County of Los Angeles in the year following the year of the decennial federal census.<sup>77</sup> The 14-member CRC must be created no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>78</sup> The process for the selection of members is designed to produce a CRC that is independent from the influence of the board and is reasonably representative of the county’s diversity.<sup>79</sup> The members’ political party preferences must be as proportional as possible to the total number of voters who are registered with each political party in the county. At least one member must reside in each of the five existing supervisorial districts.<sup>80</sup> Members are required to meet all of the following qualifications:

- Be a resident of the county,
- Be a voter who has been continuously registered in the county who has not changed their political party affiliation for five or more years,
- Have voted in at least one of the last three statewide elections,

- Possess experience that demonstrates an ability to be impartial, and
- Possess experience that demonstrates an appreciation for the diverse demographics and geography of the county.<sup>81</sup>

Those individuals who meet the qualifications may submit an application to the county elections official who is required to review the applications and eliminate applicants who do not meet the qualifications.<sup>82</sup> During the selection process, the official is barred from communicating with a member of the board, or an agent for a member of the board, about any matter related to the nomination process or applicants. The official selects 60 of the most qualified applicants and makes public a list of their names for at least 30 days.<sup>83</sup> During this time, the official may eliminate any of the previously selected applicants if the official becomes aware that the applicant does not meet the qualifications.<sup>84</sup> After the 30 days, the official creates a subpool for each of the five existing supervisorial districts.<sup>85</sup> At a regularly scheduled meeting of the board, the Auditor-Controller of the county randomly draws to select one commissioner from each of the five subpools and then, randomly draws from all of the remaining applicants, without respect to subpools, to select three additional commissioners.<sup>86</sup> The eight selected commissioners review the remaining applicants and appoint six commissioners based on relevant experience, analytical skills, ability to be impartial, political party preference, and to ensure that the CRC reflects the county's diversity.<sup>87</sup>

The commissioners' terms expire upon the appointment of the first member of the succeeding CRC.<sup>88</sup> Nine commissioners are a quorum.<sup>89</sup> Each commissioner is a designated employee for purposes of conflicts of interest and is required to apply these statutes impartially to reinforce public confidence in the integrity of the process.<sup>90</sup> The CRC cannot retain a consultant — a

The CRC shall use the following criteria, in the order of priority, in its mapping process:

- (1) Districts shall comply with the United States Constitution and each district shall have a reasonably equal population with the other districts, except where deviation is required to comply with the federal Voting Rights Act of 1965<sup>93</sup> or allowable by law.
- (2) Districts shall comply with the federal Voting Rights Act of 1965.
- (3) Districts shall be geographically contiguous.
- (4) The geographic integrity of any city, local neighborhood, or local community of interest shall be respected in a manner that minimizes its division to the extent possible. A community of interest is defined as a contiguous population that shares common social and economic interests that should be included within a single district for effective and fair representation, but does not include political parties or candidates.
- (5) To the extent practicable, districts shall be drawn to encourage geographical compactness.<sup>94</sup>

The CRC shall not consider the place of residence of any incumbent or political candidate in the creation of a map; nor shall districts be drawn to favor or discriminate against an incumbent, political candidate, or political party.<sup>95</sup>

The CRC is required to comply with the Ralph M. Brown Act.<sup>96</sup> The CRC must establish a calendar of all public hearings and make it available to the public. ### III. Positions of the Parties

#### A. County of Los Angeles

The claimant alleges that the test claim statute results in state-mandated reimbursable costs incurred by two departments: the Registrar-Recorder/County Clerk (RR/CC) and the Commission Services Division of the Executive Office of the Board. Specifically, the claimant alleges that the following activities are imposed on the RR/CC:

- To educate and inform the public, through digital, print, radio, social, and earned media outreach on the importance of the Commission and how the public can apply and become a commission member<sup>111</sup>
- To create an application process, receive and review applications, and select the 60 most-qualified applicants.<sup>112</sup> The county Auditor-Controller is required to randomly select eight commissioners from those 60. Those eight commissioner choose the remaining six commissioners.<sup>113</sup>

And, once the CRC is formed, the claimant asserts that the county is mandated to:

- Provide reasonable funding and staffing for the Commission, so that the Commission may fulfill its obligations to redraw supervisorial districts, conduct public hearings, and encourage public participation in the process.<sup>114</sup>
- Take all reasonable steps to ensure that a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide the public with ready access to redistricting data and computer software equivalent to what is available to the Commission.<sup>115</sup>

Additionally, the claimant alleges that “Elections Code section 21533, enables the County to retain a consultant in order to advise the newly formed Commission on issues related to redistricting, provided that the consultant meets all of the qualification requirements of the Commission members.”<sup>116</sup>

The claimant alleges costs were first incurred on July 1, 2019.<sup>117</sup> The claimant incurred \$35,533.18 for the RR/CC staff meeting to create the application process and \$1,268.91 to design

and develop the application process, create internal working documents, and design and set up a website for the CRC.<sup>118</sup>

The claimant projects costs of \$100,000 for the RR/CC to review and track applications, answer phone calls, send emails, and direct the application process pursuant to Elections Code sections 21532(f)(1)(2) and 21532(e); \$250,000 to run a media campaign “to promote the application process and educate the public on the redistricting process” pursuant to Elections Code section 21532(b); \$5,000 to staff redistricting workshops pursuant to Elections Code sections 21532(a)-(e); and \$50,000 for County Counsel advice and miscellaneous expenses.<sup>119</sup>

The claimant also projects costs to the Commission Services Division of \$184,000 to find and reserve CRC meeting locations, schedule meetings, and prepare agendas, minutes, and supporting documents pursuant to Elections Code section 21534(c)(8); \$439,000 for a computerized database for CRC and public use pursuant to Elections Code section 21534(c)(7); and \$250,000 to launch and engage in a media campaign to encourage residents to participate in the redistricting public review process pursuant to Elections Code section 21534(c)(6).<sup>120</sup>

The claimant projects additional costs of \$4,620 to secure public address systems, audio equipment, translation services, and assisted-hearing devices at public hearings pursuant to Elections Code section 21534(c); and \$250,000 to “procure a consultant to guide the CRC and ensure it meets timelines for final map submission” pursuant to Elections Code section 21534(d)(1)(2).<sup>121</sup> The claimant projects a total of \$1,127,620 in costs for FY 2020-21.<sup>122</sup>

In its rebuttal to Finance’s comments, the claimant reasserts that the test claim statute mandates compliance with a new program.<sup>123</sup> The claimant also argues that the two cases relied upon by Finance are not applicable to defeat the Test Claim. Both *City of Anaheim v. State of California*<sup>124</sup> and *San Diego Unified School District v. Commission on State Mandates*<sup>125</sup> involve

increased costs in an existing program whereas, the test claim statute creates a new program with activities that were not required of the claimant prior to the enactment of the test claim statute.<sup>126</sup>

Finally, although the claimant agrees with the conclusion of the Draft Proposed Decision to approve the Test Claim, the claimant disagrees with the denial of reimbursement for the hiring of consultants. The claimant argues that the hiring of consultants is part of the requirement under Elections Code section 21534(c)(8) for the county to provide reasonable funding for the CRC. The claimant notes that Elections Code section 21533, which places a limit on who can be a consultant, demonstrates that the law “contemplates the engagement of consultants to support the CRC.”<sup>127</sup> Further, the claimant points to Elections Code section 21534(a), (b), and (d)(4), which requires the CRC to issue a report that explains the basis for the CRC’s decisions to ensure that the mapping process achieves compliance with the designated criteria, which are: the United States Constitution; the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10101 et seq.); geographic contiguity; geographic integrity of cities, neighborhoods, or communities of interest; and geographical compactness without regard to any incumbent, political candidate, or political party. As the claimant explains, “Each of the criteria set forth in (a) and (b) of Elections Code section 21534 requires an understanding of applicable law, legal and geographical concepts and practical applications, and subject matter expertise that compels the engagement of consultants in order to comply with the reporting requirements of Elections Code section 21534(d)(4).”<sup>128</sup> Moreover, the claimant states that the current CRC has already approved a solicitation for one consultant and is considering retaining another to perform the state-mandated activities. Thus the county must provide funding pursuant to Elections Code section 21534(c)(8) for consultants who are essential to the CRC in performing its work, which has been complicated by the delay in acquiring data due to the COVID-19 pandemic. To not provide reimbursement for such funding, places the CRC at risk not completing its redistricting and will leave the process open to legal challenge.<sup>129</sup>

#### **B. Department of Finance**

Finance asserts that the test claim statute is not a reimbursable state mandate as the costs are not the result of a new program or higher level of service, but rather are merely increased costs for redistricting; an activity for which the claimant has always been responsible. Finance requests that reimbursement should be denied under *City of Anaheim v. State of California*,<sup>130</sup> holding increased costs alone do not result in a reimbursable state mandate and *San Diego Unified School*

<sup>129</sup> Exhibit E, Claimant’s Comments on the Draft Proposed Decision, filed April 5, 2021, pages 2-3.

<sup>130</sup> *City of Anaheim v. State of California* (1987) 189 Cal.App.3d 1478.

*District v. Commission on State Mandates*,<sup>131</sup> holding reimbursement is not required if a statute merely implements a change that increases costs.<sup>132</sup>

Finance argues that certain costs alleged by the claimant are not mandated by the test claim statute. The claimant’s projected costs of \$250,000 for a media campaign by the RR/CC and \$250,000 for a media campaign by the board are not required by the text of the test claim statute. Rather, Elections Code section 21534(c)(6)(A)-(C) addresses the steps the claimant may take to inform the public including “(p)roviding information through media, social media, and public service announcements.”<sup>133</sup> Also, Elections Code section 21533(d)(1) and (2) sets forth the qualifications for a consultant, but the test claim statute does not require the claimant to retain a consultant and the claimed cost of \$250,000 for the consultant should be denied.<sup>134</sup>

#### **IV. Discussion**

Article XIII B, section 6 of the California Constitution provides in relevant part the following:

Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the state shall provide a subvention of funds to reimburse such local government for the costs of such programs or increased level of service....

The purpose of article XIII B, section 6 is to “preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are ‘ill equipped’ to assume increased financial responsibilities because of the taxing and spending limitations that articles XIII A and XIII B impose.”<sup>135</sup> Thus, the subvention requirement of section 6 is “directed to state-mandated increases in the services provided by [local government] ....”<sup>136</sup>

Reimbursement under article XIII B, section 6 is required when the following elements are met:

1. A state statute or executive order requires or “mandates” local agencies or school districts to perform an activity.<sup>137</sup>
2. The mandated activity constitutes a “program” that either:
  - a. Carries out the governmental function of providing a service to the public; or

- b. Imposes unique requirements on local agencies or school districts and does not apply generally to all residents and entities in the state.<sup>138</sup>
3. The mandated activity is new when compared with the legal requirements in effect immediately before the enactment of the test claim statute or executive order and it increases the level of service provided to the public.<sup>139</sup>
4. The mandated activity results in the local agency or school district incurring increased costs, within the meaning of section 17514. Increased costs, however, are not reimbursable if an exception identified in Government Code section 17556 applies to the activity.<sup>140</sup>

The Commission is vested with the exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6 of the California Constitution.<sup>141</sup> The determination whether a statute or executive order imposes a reimbursable state-mandated program is a question of law.<sup>142</sup> In making its decisions, the Commission must strictly construe article XIII B, section 6 of the California Constitution, and not apply it as an “equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities.”<sup>143</sup>

**A. The Test Claim Was Timely Filed Pursuant to Government Code Section 17551 and Section 1183.1(c) of the Commission’s Regulations Because the Test Claim Was Filed Within Twelve Months of the Claimant First Incurring Costs to Comply with the Test Claim Statute.**

Government Code section 17551(c) states: “test claims shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring costs as a result of a statute or executive order, whichever is later.” Section 1183.1(c) of the Commission’s regulations, effective April 1, 2020, clarifies that

any test claim or amendment filed with the Commission must be filed not later than 12 months (365 days) following the effective date of a statute or executive

The test claim statute became effective on January 1, 2017.<sup>145</sup> The claimant filed a declaration under penalty of perjury from the Finance Manager of the County Clerk's Office stating that the county first incurred costs to comply with the test claim statute on July 1, 2019.<sup>146</sup> The claimant filed this Test Claim on June 26, 2020, within 12 months of first incurring costs to comply with the test claim statute.<sup>147</sup>

**1. Elections Code Sections 21531, 21532, and 21534, as Added by the Test Claim Statute, Impose State-Mandated Requirements on the County of Los Angeles.**

The test claim statute divests the claimant's board of supervisors of the authority to adjust supervisorial district lines and establishes and vests the authority with the CRC. The claimant is required by the test claim statute to create the CRC as follows:

- The CRC shall be created no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>148</sup>
- The county elections official shall review the applications and eliminate applicants who do not meet the specified qualifications.<sup>149</sup>
- From the pool of qualified applicants, the county elections official shall select 60 of the most qualified applicants, taking into account the requirements described in Elections Code section 21532(c) — that the political party preferences of the CRC members shall be as proportional as possible to the total number of voters who are registered with each political party in the county. The county elections official shall make public the names of the 60 most qualified applicants for at least 30 days.
- Thereafter, the county elections official shall create a subpool for each of the five existing supervisorial districts of the board.<sup>150</sup>

- The board shall take all steps necessary to ensure that a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC members.<sup>152</sup>

In addition, the claimant is required to “provide for reasonable funding and staffing for the commission,”<sup>153</sup> and, thus, the requirements imposed on the CRC must be met at the expense of the claimant. These are as follows:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>154</sup>
- In the year following the year in which the decennial federal census is taken, the CRC shall adjust the boundary lines of the supervisorial districts of the board in accordance with this chapter.<sup>155</sup> The CRC shall establish single-member supervisorial districts for the board pursuant to a mapping process using the following criteria as set forth in the following order of priority:
  - (1) Districts shall comply with the United States Constitution and each district shall have a reasonably equal population with other districts for the board, except where deviation is required to comply with the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10101 et seq.) or allowable by law.
  - (2) Districts shall comply with the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10101 et seq.).
  - (3) Districts shall be geographically contiguous.
  - (4) The geographic integrity of any city, local neighborhood, or local community of interest shall be respected in a manner that minimizes its division to the extent possible without violating the requirements of paragraphs (1) to (3), inclusive. A community of interest is a contiguous population that shares common social and economic interests that should be included within a single district for purposes of

  - Post the map for public comment on the website of the County of Los Angeles.

- The CRC shall comply with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code) when conducting these public hearings.<sup>160</sup>

of the County of Los Angeles who are members of a language minority is greater than or equal to three percent of the total voting age residents of the county.<sup>163</sup>

- The CRC shall take steps to encourage county residents to participate in the redistricting public review process.<sup>164</sup>
- The CRC shall issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the criteria described in Elections Code section 21534(a) and (b).<sup>165</sup> Section 21534(a) is the criteria for the mapping process, listed above. Section 21534(b) states: “The place of residence of any incumbent or political candidate shall not be considered in the creation of a map. Districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party.”

In addition, Elections Code section 21534(c)(9) states that “All records of the commission relating to redistricting, and all data considered by the commission in drawing a draft map or the final map, are public records.” Thus, the CRC, at the claimant’s expense pursuant to Elections Code section 21534(c)(8), is required to comply with the Public Records Act pursuant to Government Code section 6250 et seq., upon receipt of a public records request for these documents.

These requirements are mandated by the state. The county has no discretion and is forced to comply with these requirements.<sup>166</sup>

Finance argues, however, that certain costs alleged by the claimant to encourage county residents to participate in the redistricting public review process are not mandated by the state. In particular, Finance questions the claimant’s projected costs of \$250,000 for a media campaign by the Registrar-Recorder/County Clerk and \$250,000 for a media campaign by the board, and asserts that these costs are not mandated by the test claim statute.<sup>167</sup> Finance’s interpretation of the statute is wrong. The statute states the following:

The commission shall take steps to encourage county residents to participate in the redistricting public review process. These steps may include:

(A) Providing information through media, social media, and public service announcements.

(B) Coordinating with community organizations.

(C) Posting information on the Internet Web site of the County of Los Angeles that explains the redistricting process and includes a notice of each public

hearing and the procedures for testifying during a hearing or submitting written testimony directly to the commission.<sup>168</sup>

The statute uses the term “may” regarding the types of steps that the CRC can take, but uses the word “shall” regarding the requirement for the CRC to take steps. So, while the CRC has the option of which steps to take, it has no choice but to take steps to encourage participation as mandated by the state.

Accordingly, Elections Code sections 21531, 21532, and 21534 impose state-mandated requirements on the claimant.

**2. Elections Code Sections 21530, 21533, and 21535 Do Not Impose Any Requirements or State-Mandated Costs on the Citizens Redistricting Commission or the Claimant and Thus the Costs Incurred to Comply with These Code Sections Are Not Eligible for Reimbursement.**

Elections Code sections 21530, 21533, and 21535 impose no requirements on the claimant. Elections Code section 21530 contains only definitions of “Board,” “Commission,” and “Immediate family member.”

Elections Code section 21533 sets forth the terms of office, rules for establishing a quorum, designates CRC members as employees for purposes of the conflict of interest code adopted by the County of Los Angeles, and imposes limits on the hiring of consultants by the CRC (by stating that “[t]he commission shall not retain a consultant who would not be qualified as an applicant pursuant to paragraph (4) of subdivision (d) of Section 21532.”) The claimant requests reimbursement for the costs incurred for consultants retained by the CRC and argues that having consultants is essential to the CRC completing its work timely, accurately, and in compliance with the requirements of Elections Code section 21534(a), (b), and (d)(4).<sup>169</sup> Elections Code section 21534(a) requires the CRC to establish single-member supervisorial districts every ten years for the board pursuant to a mapping process, which complies with the U.S. Constitution, the federal Voting Rights Act, and other requirements to ensure that the geographic compactness and the integrity of any city be respected. Elections Code section 21534(b) states the following: “The place of residence of any incumbent or political candidate shall not be considered in the creation of a map.” Districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party.” And section 21524(d)(4) requires the CRC to “issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.”

Elections Code section 21533, however, does not require the CRC to hire consultants and leaves that decision to the discretion of the CRC. Although the claimant is required by Elections Code section 21534(c)(8) to provide reasonable funding to the CRC, which may include paying for a consultant hired by the CRC to help with the adjustment of district boundaries, the courts have made it clear that “[n]othing in article XIII B prohibits the shifting of costs between local

governmental entities.”<sup>170</sup> In this respect, the *City of San Jose* case is instructive. *City of San Jose* involved the City’s request for reimbursement to comply with Government Code section 29550. Section 29550 states in relevant part: “Notwithstanding any other provision of law, a county may impose a fee upon a city, [or other local entity], for reimbursement of county expenses incurred with respect to the booking or other processing of persons arrested by an employee of that city, ... where the arrested persons are brought to the county jail for booking or detention.”<sup>171</sup> The court found that although the city may be required to incur costs it did not formerly incur if the county exercised its authority, the court could not read a mandate into language which is plainly discretionary.<sup>172</sup> The court also found that the financial and administrative responsibility associated with the operation of county jails and detention of prisoners was historically borne entirely by the county and not by the state and, therefore, the shift of costs to the city was from the county and not the state.<sup>173</sup>

Similarly, Elections Code section 21533 and the remaining test claim code sections do not mandate the CRC to hire consultants. If the CRC does hire consultants, it is required to comply with the limitation in Elections Code section 21533 to make sure the consultant would be qualified as a commission member of the CRC (“The commission shall not retain a consultant who would not be qualified as an applicant pursuant to paragraph (4) of subdivision (d) of Section 21532.”). And as explained in the next section, the requirements to adopt a redistricting proposal and adjust the supervisorial boundaries in accordance with the law every ten years, even with the help of consultants, are not new. Local agencies have long been required to perform these activities.<sup>174</sup>

Therefore, hiring consultants is not mandated by the state. The claimant, however, may request consultant costs for inclusion in the Parameters and Guidelines. If such a request is supported by substantial evidence in the record showing the activity to hire consultants is “reasonably necessary for the performance of the state-mandated program,” in accordance with Government Code section 17557(a), and California Code of Regulations, title 2, sections 1183.7(d) and 1187.5, the activity may be considered and approved.

Elections Code section 21535 provides for a period of ineligibility to hold elected or appointed public offices after their term on the CRC has ended and imposes no requirements on the claimant or the CRC.

Accordingly, Elections Code sections 21530, 21533, and 21535 do not impose any requirements or state-mandated costs on the CRC or the claimant and, thus, any costs incurred to comply with these code sections are not eligible for reimbursement.

**3. Many State-Mandated Activities Imposed by Elections Code Sections 21532 and 21534 Constitute a New Program or Higher Level of Service. However, the Requirements and Costs Imposed by Elections Code Sections 21531 and 21534(a), (c)(9), and (d)(1)-(3) to Adjust the Supervisorial Boundaries and Adopt a Redistricting Plan Every Ten Years, and Comply with the Public Records Act Are Not New and Do Not Impose a New Program or Higher Level of Service.**

For a statute to be subject to subvention, the mandated activity must constitute a “program” that either a) carries out the governmental function of providing a service to the public; or b) imposes unique requirements on local agencies or school districts and does not apply generally to all residents and entities in the state.<sup>175</sup> A mandated activity is new when the statute in question is compared with the legal requirements in effect immediately before the enactment of the statute and the activity increases the level of service provided to the public.<sup>176</sup>

- a. Elections Code Sections 21532 and 21534 Impose New Mandated Activities on the Claimant. However, the Requirements Imposed by Elections Code Sections 21531 and 21534(a), (c)(9), and (d)(1)-(3) to Adjust the Supervisorial Boundaries, Adopt a Redistricting Plan, and Comply with the Public Records Act Are Not New.

Under prior law, the claimant’s board of supervisors adjusted the district boundary lines every ten years.<sup>177</sup> As a result of the test claim statute, the claimant is now required to create the CRC to perform the supervisorial redistricting. The new mandated activities imposed on the claimant in forming the CRC are as follows:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>178</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>179</sup>

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>182</sup>

These requirements mandated by Elections Code sections 21532 and 21534(c)(7) to create the CRC, to ensure a computerized database is available for redistricting, and to provide the public ready access to the redistricting data and computer software equivalent to what is available to the CRC, were not required by prior law and are newly imposed on the claimant itself and through the CRC since the county board of supervisors is required by Elections Code section 21534(c)(8) to fund and provide staff for the CRC.

However, some of the activities required to adopt a plan and adjust boundary lines of the supervisorial districts every ten years are the same as prior law and are *not* new. The test claim statute requires:

- In the year following the year in which the decennial federal census is taken, the CRC shall adjust the boundary lines of the supervisorial districts of the board in accordance with this chapter.<sup>183</sup>
- The CRC shall establish single-member supervisorial districts for the board pursuant to a mapping process using the following criteria as set forth in the following order of priority:
  - (1) Districts shall comply with the United States Constitution and each district shall have a reasonably equal population with other districts for the board, except where deviation is required to comply with the federal Voting Rights Act of 1965 (52 U.S.C. (5) To the extent practicable, and where this does not conflict with paragraphs (1) to (4), inclusive, districts shall be drawn to encourage geographical compactness such that nearby areas of population are not bypassed for more distant areas of population.<sup>184</sup>

- The CRC shall adopt a redistricting plan adjusting the boundaries of the supervisorial districts and shall file the plan with the county elections official before August 15 of the year following the year in which each decennial federal census is taken.<sup>185</sup>
- All records of the CRC relating to redistricting, and all data considered by the CRC in drawing a draft map or the final map, are public records and subject to the Public Records Act.<sup>186</sup>

Under prior law, the claimant was also required to adopt a redistricting proposal and adjust the district boundaries every ten years. Prior law required the following:

- Following each decennial federal census, and using that census as a basis, the board shall adjust the boundaries of any or all of the supervisorial districts of the county so that the supervisorial districts shall be as nearly equal in population as may be and shall comply with the applicable provisions of Section 10301 of Title 52 of the United States Code, as amended. In establishing the boundaries of the supervisorial districts the board may give consideration to the following factors: (a) topography, (b) geography, (c) cohesiveness, contiguity, integrity, and compactness of territory, and (d) community of interests of the supervisorial districts.<sup>187</sup>
- Before adjusting the boundaries of a district pursuant to Section 21500, 21503, or 21504, or for any other reason, the board shall hold at least one public hearing on the proposal to adjust the boundaries of the district prior to the public hearing at which the board votes to approve or defeat the proposal.<sup>188</sup>

Both prior law and the test claim statute require adjustment of the boundaries of the supervisorial districts in the year following the federal census. Both set forth criteria that must be met, but the stated criteria are somewhat different. In comparing them, the first requirement under prior law and the test claim statute is equality of population in each district which is required by *Reynolds v. Sims*<sup>189</sup> where the U.S. Supreme Court held that “the Equal Protection Clause guarantees the opportunity for equal participation by all voters in the election of state legislators” and dilution of the vote “impairs basic constitutional rights under the Fourteenth Amendment.”<sup>190</sup> The

second requirement under prior law and the test claim statute is the same for both: compliance with the Voting Rights Act of 1965. The test claim statute includes three requirements — geographically contiguous districts; districting that respects the geographic integrity of cities, local neighborhoods, or local communities of interest; and geographically compact districts — similar to the prior law’s considerations of topography, geography, cohesiveness, contiguity, integrity, and compactness of territory, and communities of interest. Each of these, whether requirements or considerations, is a step toward ensuring compliance with the Voting Rights Act of 1965 and away from gerrymandering. Despite the small variance in language, both the prior law and the test claim statute set forth the process of redistricting using the mapping process to ensure compliance with the Voting Rights Act.

Thus, the requirements imposed by Elections Code sections 21531 and 21534(a) and (d)(1)-(3) to adjust the supervisorial boundaries and adopt a redistricting plan are not new.

In addition, the claimant was subject to the Public Records Act under prior law and, thus, the activity and costs to comply with the Public Records Act for the records of the CRC relating to redistricting, and all data considered by the CRC in drawing a draft map or the final map pursuant to Elections Code section 21534(c)(9), are not new. The Public Records Act defines “public records” broadly to include “any writing containing information relating to the conduct of the public’s business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics.”<sup>191</sup> Moreover, even if the Public Records Act requirements were found to be new, on June 3, 2014, before the test claim statute was enacted, voters approved Proposition 42, which added paragraph 7 to article I, section 3(b) to the California Constitution to require local agencies “to comply with the California Public Records Act (Chapter 3.5 (commencing with Section 6250).” Proposition 42 also amended section 6(a) of article XIII B of the California Constitution, by adding paragraph 4 to provide “that the Legislature may, but need not, provide a subvention of funds for . . . legislative mandates contained in statutes within the scope of paragraph (7) of subdivision (b) of section 3 of article I.” Thus, the costs would not be eligible for reimbursement in any event.

Nevertheless, the test claim statute mandates the CRC to conduct more hearings before adopting a redistricting plan than were required under prior law, and mandates some additional activities as part of the redistricting process.

Under prior law, the board of supervisors was required to have one public hearing before the hearing in which the board was scheduled to vote and adopt the proposal:

Before adjusting the boundaries of a district pursuant to Section 21601, 21603, or 21604, or for any other reason, the council shall hold at least one public hearing on the proposal to adjust the boundaries of the district prior to the public hearing at which the council votes to approve or defeat the proposal.<sup>192</sup>

The test claim statute mandates the CRC, at the expense of the claimant, to conduct at least eight more hearings before adopting the final plan and map, and mandates the CRC to perform the following additional activities as part of the redistricting process:

---

<sup>191</sup> Government Code section 6252 as last amended by Statutes 2015, chapter 537.

<sup>192</sup> Elections Code section 21507 as added by Statutes 2014, chapter 873.

- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>193</sup>
- Post the draft map for public comment on the website of the County of Los Angeles and conduct at least two more public hearings on the draft map (one more than prior law).<sup>194</sup>
- Comply with the Ralph M. Brown Act for these public hearings<sup>195</sup> and yet, notwithstanding the Ralph M. Brown Act, the CRC shall post the agenda for the public hearings at least seven days before the hearing.<sup>196</sup>
- Establish and make available to the public a calendar of all public hearings.<sup>197</sup>
- Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>198</sup>
- Take steps to encourage county residents to participate in the redistricting public review process.<sup>199</sup>
- Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>200</sup>

As indicated above, the hearings conducted by the CRC are subject to the Ralph M. Brown Act. The Ralph M. Brown Act requires local government to ensure that their meetings are noticed and open to the public. The Act requires that an agenda be posted 72 hours prior to the meeting in a location that is freely accessible to members of the public and on the local agency’s website, and which includes a brief general description of each item of business to be transacted or discussed.<sup>201</sup>

At least 72 hours before a regular meeting, the legislative body of the local agency, or its designee, shall post an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting, including

items to be discussed in closed session. A brief general description of an item generally need not exceed 20 words. The agenda shall specify the time and location of the regular meeting and shall be posted in a location that is freely accessible to members of the public and on the local agency's Internet Web site, if the local agency has one. If requested, the agenda shall be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof. The agenda shall include information regarding how, to whom, and when a request for disability-related modification or accommodation, including auxiliary aids or services, may be made by a person with a disability who requires a modification or accommodation in order to participate in the public meeting.<sup>202</sup>

The Ralph M. Brown Act applies to "legislative bodies" which includes "[t]he governing body of a local agency or *any other local body created by state or federal statute.*"<sup>203</sup> Thus, the Ralph M. Brown Act would have applied to the CRC whether or not the test claim statute stated as such. The Ralph M. Brown Act applied to all meetings held by the board of supervisors under prior law, including the public hearings on redistricting. But under prior law, the board of supervisors was only required to have one public hearing before the adoption of the redistricting plan.<sup>204</sup> Although the requirements of the Ralph M. Brown Act are not new on their face, the test claim statute mandates at least eight more hearings than were required under prior law. The Ralph M. Brown Act requirements associated with those additional required hearings are new and are newly imposed on the claimant by the state since the county board of supervisors is required by Elections Code section 21534(c)(8) to fund and provide staff for the CRC.

Similarly, the CRC is required by the test claim statute to arrange for the live translation of a hearing in an applicable language if a request for translation is made at least 24 hours before the hearing. Under existing law, the Dymally-Alatorre Bilingual Services Act places requirements on state and local government to provide services in languages other than English.<sup>205</sup> Specifically, local public agencies, "serving a substantial number of non-English-speaking people" are required to employ "qualified bilingual persons in public contact positions or as interpreters to assist those in such positions."<sup>206</sup> Local public agency is defined to include "a county, . . . or any board, commission or agency thereof, or any other local public agency."<sup>207</sup> Although the CRC is a separate entity from the claimant, it would still fall under the catch-all "any other local public agency" of the Dymally-Alatorre Bilingual Services Act. The Act does not specifically require translation services as set forth in the test claim statute for public hearings. Assuming, however, that the requirement to employ bilingual persons to act as

interpreters indirectly requires translation services at public hearings, the CRC is only required to provide such services to the extent that the CRC serves a “substantial number” of non-English speakers. The Act does not quantify a “substantial number” for local public agencies, but instead leaves the agency to make that determination.<sup>208</sup> The Act does provide that state agencies must provide services in languages other than English when the non-English speakers comprise five per cent or more of the population being served.<sup>209</sup> Even if this were applicable to the CRC, the test claim statute requires “the live translation of a hearing held pursuant to this chapter in an applicable language if a request for translation is made at least 24 hours before the hearing” where “an ‘applicable language’ means a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county.”<sup>210</sup> Although the requirements of the Dymally-Alatorre Bilingual Services Act are not new on their face, the test claim statute requires at least eight more hearings than were required under prior law and as part of those additional hearings, the CRC is required to arrange for the live translation of a hearing in an applicable language if a request for translation is made at least 24 hours before the hearing. These requirements are new and are newly mandated on the claimant since the county board of supervisors is required by Elections Code section 21534(c)(8) to fund and provide staff for the CRC.

Accordingly, Elections Code sections 21532 and 21534, as added by the test claim statute, impose the following new mandated activities on the claimant:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>211</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>212</sup>
- At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>213</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities mandated by Elections Code sections 21532 and 21534 are newly imposed on the claimant:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>215</sup>
- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>216</sup>
- Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>217</sup>
- Comply with the Ralph M. Brown Act for these public hearings.<sup>218</sup> This includes posting an agenda seven days prior to the hearing in a location that is freely accessible to members of the public and on the website, and which includes a brief general description of each item of business to be transacted or discussed in accordance with Government Code section 54954.2.
- Establish and make available to the public a calendar of all public hearings.<sup>219</sup>

b. The New Mandated Activities Imposed by Elections Code Sections 21532 and 21534 Are Unique to Government and Provide a Service to the Public and Therefore Impose a New Program or Higher Level of Service.

As set forth above, the test claim statute imposes new activities on the claimant necessary to create, staff, and fund the CRC. For the test claim statute to constitute a new program or higher level of service, it must either a) carry out the governmental function of providing a service to the public; or b) or impose unique requirements on local government that do not apply generally to all residents and entities in the state.<sup>223</sup> The term “program,” therefore, has “two alternative meanings,” and “only one of these [alternatives] is necessary to trigger reimbursement.”<sup>224</sup>

In this case, the test claim statute meets both alternative tests. The test claim statute carries out the government function of redistricting and requires an independent redistricting commission. The purpose of redistricting is protection of the voters’ rights under the U.S. Constitution, the California Constitution, and the federal and state Voting Rights Acts. Redistricting by the CRC serves the county residents by ensuring fair representation and that their vote is not diluted to favor any particular group or political party.<sup>225</sup> Further, the test claim statute only applies to the County of Los Angeles, a political subdivision of the State of California. It does not apply to any other residents or entities in the state. Thus, the test claim statute satisfies the requirement of being a new program or higher level of service.

Finance asserts that the test claim statute does not impose a new program or higher level of service, but rather merely increased costs for redistricting, an activity for which the claimant has always been responsible. Finance relies on *City of Anaheim v. State of California*,<sup>226</sup> holding increased costs alone do not result in a reimbursable state mandate and *San Diego Unified School District v. Commission on State Mandates*,<sup>227</sup> holding reimbursement is not required if a statute merely implements a change that increases costs.<sup>228</sup> Finance’s reliance on these cases is misplaced.

In *City of Anaheim v. State of California*, the city sought to obtain reimbursement from a change in law that required the Public Employees’ Retirement System (PERS) to increase pension

payments to retired public employees. The city claimed that it had to contribute to the fund at a higher rate as a result of PERS' compliance with the new law. The city's case failed because the change in law did not impose any mandated activities upon the city and the city experienced only increased costs in the absence of having to provide a new program or higher level of service.<sup>229</sup> Here, the test claim statute imposes a number of new mandated activities on the claimant as set forth above. There was no requirement in prior law that the claimant create the CRC charged with redistricting.

In *San Diego Unified School District v. Commission on State Mandates*, the school district sought to obtain reimbursement for the increased costs to comply with the requirements for mandatory and discretionary expulsion of students.<sup>230</sup> The court explained "that simply because a state law or order may *increase the costs* borne by local government *in providing services*, this does not necessarily establish that the law or order constitutes an *increased or higher level* of the resulting 'service to the public' under article XIII B, section 6, and Government Code section 17514."<sup>231</sup> With regard to discretionary expulsions, the court held that the statutes merely implemented federal law and, to the extent that the state added requirements, the costs to comply with them were de minimis and should be considered part of the underlying federal mandate.<sup>232</sup> *San Diego Unified* does not apply here. The test claim statute imposes a new state mandated program on the claimant to establish and fund an independent redistricting commission, which provides a service to the public, as explained above, by ensuring fair representation and that a vote is not diluted to favor any particular group or political party.

Accordingly, the new activities mandated by Elections Code Sections 21532 and 21534 constitute a new program or higher level of service.

**4. The Activities Mandated by Elections Code Section 21534(c)(1) and (c)(4)(B) to Comply with the Brown Act Do Not Impose Costs Mandated by the State Pursuant to Article XIII B, Section 6(a)(4) of the California Constitution. The Remaining New Activities Mandated by Elections Code Section 21532 and 21534 Impose Increased Costs Mandated by the State Pursuant to Article XIII B, Section 6, and Government Code Section 17514.**

Government Code section 17514 defines "costs mandated by the state" as any increased cost that a local agency or school district incurs as a result of any statute or executive order that mandates a new program or higher level of service. Government Code section 17564(a) further requires that no claim shall be made nor shall any payment be made unless the claim exceeds \$1,000.

<sup>232</sup> *San Diego Unified School District v. Commission on State Mandates* (2004) 33 Cal.4th 859, 889-890.

The claimant claims costs of \$35,533.18 “related to planning the CRC’s application and selection process” and \$1,268.91 for having “designed and developed the CRC application process, created internal working documents, and designed and set up a CRC website.”<sup>233</sup>

The application and selection process of the CRC is a requirement mandated on the claimant by the test claim statute. The costs incurred by this requirement far exceed the required \$1,000, and are supported by substantial evidence in the record.

Article XIII B, section 6(a)(4) of the California Constitution states, however, that:

Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates:

[¶]

(4) Legislative mandates contained in statutes within the scope of paragraph (7) of subdivision (b) of Section 3 of Article I.

And, Article I, section 3(b)(7) provides:

(7) In order to ensure public access to the meetings of public bodies and the writings of public officials and agencies, as specified in paragraph (1), each local agency is hereby required to comply with the *California Public Records Act* (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code) and the *Ralph M. Brown Act* (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code), and with any subsequent statutory enactment amending either act, enacting a successor act, or amending any successor act that contains findings demonstrating that the statutory enactment furthers the purposes of this section.<sup>234</sup>

The Ralph M. Brown Act applies to all local agencies and “any other local body created by state statute,” and therefore applies to the CRC.<sup>235</sup> Therefore, costs incurred to comply with the California Public Records Act and the Brown Act are specifically exempted from the subvention requirement by the California Constitution.

Therefore, there are *no* costs mandated by the state pursuant to article XIII B, section 6(a)(4), and reimbursement is not required for the following activities required by Elections Code sections 21534(c)(1); 21534(c)(4)(B):

<sup>233</sup> Exhibit A, Test Claim, filed June 26, 2020, page 20 and pages 28-30 (Declaration of Albert Navas, Departmental Finance Manager, Registrar-Recorder/County Clerk).

<sup>234</sup> Emphasis added.

<sup>235</sup> Government Code section 54952(a).

- Comply with the Ralph M. Brown Act when conducting the additional public hearings.<sup>236</sup> This includes posting an agenda seven days prior to the hearing in a location that is freely accessible to members of the public and on the website, and which includes a brief general description of each item of business to be transacted or discussed in accordance with Government Code section 54954.2.

Accordingly, the Commission finds that the following new state-mandated activities required by Elections Code sections 21532 and 21534 impose increased costs mandated by the state pursuant to article XIII B, section 6 and Government Code section 17514:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>237</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>238</sup>
- At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>239</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC.<sup>240</sup>

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities mandated by Elections Code sections 21532 and 21534 impose increased costs mandated by the state on the claimant:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>241</sup>
- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>242</sup>

- Establish and make available to the public a calendar of all public hearings.<sup>245</sup>
- Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>246</sup>
- Take steps to encourage county residents to participate in the redistricting public review process.<sup>247</sup>
- Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>248</sup>

## V. Conclusion

Based on the foregoing analysis, the Commission partially approves this Test Claim and finds that Elections Code sections 21532 and 21534 as added by the test claim statute impose a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution for the following activities:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>249</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>250</sup>

**DECISION**

The Commission on State Mandates (Commission) heard and decided the Decision and Parameters and Guidelines during a regularly scheduled hearing on December 3, 2021. Fernando Lemus and Eva Chu appeared on behalf of the County of Los Angeles (claimant). Chris Hill appeared on behalf of the Department of Finance (Finance).

The law applicable to the Commission’s determination of a reimbursable state-mandated program is article XIII B, section 6 of the California Constitution, Government Code sections 17500 et seq., and related case law.

The Commission adopted the Proposed Decision and Parameters and Guidelines by a vote of 7-0, as follows:

<b>Member</b>	<b>Vote</b>
Lee Adams, County Supervisor	Yes
Natalie Kuffel, Representative of the Director of the Office of Planning and Research	Yes
Gayle Miller, Representative of the Director of the Department of Finance, Chairperson	Yes
Renee Nash, School District Board Member	Yes
Sarah Olsen, Public Member	Yes
Yvette Stowers, Representative of the State Controller, Vice-Chairperson	Yes
Spencer Walker, Representative of the State Treasurer	Yes

## I. Summary of the Mandate

These Parameters and Guidelines address Statutes 2016, chapter 781, which added Elections Code sections 21530 through 21535 to require the County of Los Angeles (claimant) to create, staff, and fund the independent County of Los Angeles Citizens Redistricting Committee (CRC) to adjust the boundary lines of the supervisorial districts in the County of Los Angeles in the year following the year of the decennial federal census.

On May 28, 2021, the Commission on State Mandates (Commission) adopted the Test Claim Decision finding that Elections Code sections 21532 and 21534, as added by Statutes 2016, chapter 781, impose a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution for the following activities:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>1</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>2</sup>
- At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>3</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC.<sup>4</sup>

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities mandated by Elections Code sections 21532 and 21534 impose a reimbursable state mandated program within the meaning of article XIII B, section 6 of the California Constitution on the County of Los Angeles:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>5</sup>

<sup>2</sup> Elections Code section 21532(e)-(g).

<sup>3</sup> Elections Code section 21532(g).

<sup>4</sup> Elections Code section 21534(c)(7).

<sup>5</sup> Elections Code section 21532(h).

- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>6</sup>
- Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>7</sup>
- Establish and make available to the public a calendar of all public hearings.<sup>8</sup>
- Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>9</sup>
- Take steps to encourage county residents to participate in the redistricting public review process.<sup>10</sup>
- Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>11</sup>

The Commission denied all other code sections added by the test claim statute and activities alleged to be mandated in the Test Claim. Specifically, the Commission found that Elections Code sections 21530, 21533, and 21535 do *not* impose any state-mandated requirements on the claimant, but rather generally define terms and limit the hiring of consultants by the CRC to help with the adjustment of district boundaries. Although the claimant is required by Elections Code section 21534(c)(8) to provide reasonable funding to the CRC, which may include paying for a consultant hired by the CRC, the courts have made it clear that “[n]othing in article XIII B prohibits the shifting of costs between local governmental entities.”<sup>12</sup>

In addition, the requirements imposed by Elections Code sections 21531 and 21534(a), (c)(9), and (d)(1)-(3) to adjust supervisorial boundary lines, adopt a redistricting plan every ten years; and to comply with the Public Records Act are *not* new and do not impose a new program or higher level of service on the claimant.<sup>13</sup>

Finally, the Commission found that the activities required by Elections Code section 21534(c)(1) and (c)(4)(B) to comply with the Ralph M. Brown Act for the public hearings conducted by the CRC are *not* eligible for reimbursement pursuant to article XIII B, section 6(a)(4). Article XIII B, section 6(a)(4) states that “the Legislature may, but need not, provide a subvention of funds for the following mandates: . . . Legislative mandates contained in statutes within the scope of paragraph (7) of subdivision (b) of Section 3 of Article I.” Article I, section 3(b) of the California Constitution requires local agencies to comply with the Ralph M. Brown Act, beginning with Government Code section 54950. The Brown Act applies to all local agencies and “any other local body created by state statute,” and therefore applies to the CRC.<sup>14</sup>

## **II. Procedural History**

On May 28, 2021, the Commission adopted the Test Claim Decision.<sup>15</sup> On June 8, 2021, the Commission issued the Draft Expedited Parameters and Guidelines.<sup>16</sup> The claimant filed Comments on the Draft Expedited Parameters and Guidelines on July 29, 2021.<sup>17</sup> Commission staff issued the Draft Proposed Decision and Parameters and Guidelines on September 22, 2021.<sup>18</sup> The State Controller’s Office (Controller) filed comments on the Draft Proposed Decision and Parameters and Guidelines on October 12, 2021.<sup>19</sup> The claimant did not file comments on the Draft Proposed Decision and Parameters and Guidelines.

## **III. Positions of the Parties**

### **A. County of Los Angeles**

The claimant filed comments on the Draft Expedited Parameters and Guidelines, requesting reimbursement for additional activities conducted by the CRC’s executive director and consultants. The claimant explains that the CRC needs to be independent of the county and, therefore, the claimant contracted with an Executive Director, Gayla Kraetsch Hartsough of KH

Consulting Group, “to guide and support the CRC’s redistricting responsibilities without supervision by County personnel or the Board of Supervisors.”<sup>20</sup>

The claimant argues that the Executive Director’s activities are reasonably necessary as defined in California Code of Regulations, title 2, section 1183.7(d) to establish supervisorial districts within statutory constraints and to provide training to the CRC on topics necessary to comply with Elections Code section 21534.<sup>21</sup> The claimant states the following:

The necessity of an ED for implementation of the mandates stated in EC §§ 21532 and 21534 cannot be overstated. The ED is responsible for guiding and supporting the CRC in establishing five single-member supervisorial districts consistent with extensive requirements set forth in SB 958. The ED works with the CRC's Independent Legal Counsel to establish a comprehensive work plan of deliverables and activities with target dates to meet the delivery of the final redistricting report referenced in EC§ 21532(d)(3). (See Declaration of Gayla Kraetsch Hartsough.) In order to guide and support the CRC, the ED is charged with understanding all legal mandates and requirements that the CRC must accomplish and also determine what specific staff and technical support the CRC needs in order to successfully complete the mandated activities as set forth in SB 958 and have been deemed reimbursable by the Commission. (See Declaration of Gayla Kraetsch Hartsough.) Further, the ED provides oversight, guidance, staffing, and technical resources to support the CRC's mandate of meeting the redistricting guideline requirements in producing a final map and redistricting report by December 15, 2021.

The ED's activities are reasonably necessary to perform the requirements of the CRC pursuant to California Code of Regulations Section 1183. 7(d). The mandated activities under EC§ 21534 require the CRC to establish single-member supervisorial districts that comply with the United States Constitution, adhere to population equality as determined by the 2020 census, comply with the federal Voting Rights Act of 1965, assure geographic integrity of any city or local neighborhood and, to the extent practical, districts must be drawn to encourage geographical compactness. The ED's activities allow the CRC to receive training on topics necessary for compliance with EC§ 23154. (See Declaration of Gayla Kraetsch Hartsough.)<sup>22</sup>

Asserting that the requirements on the CRC far exceed the requirements on the board of supervisors under prior law, the claimant further argues that seeking the assistance of consultants is reasonable as follows:

---

<sup>20</sup> Exhibit C, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, page 2.

<sup>21</sup> Exhibit C, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, at page 3.

<sup>22</sup> Exhibit C, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, at pages 2-3.

The mandatory requirements and responsibilities of the CRC pursuant to SB 958 far exceeded what was required of the advisory commission in 2011 to prepare redistricting maps. (See Declaration of Gayla Kraetsch Hartsough, Table 1.) Upon consultation with the CRC, and in recognition of the need to engage necessary sub-consultants and subject matter experts to fulfill the requirements of SB 958, the ED proposed processes, procedures, and facilitated retention of the necessary consultants, including data and mapping analysis, technical assistance, administrative support, global information system (GIS) expertise, media strategy, and other contingency support services. (See Declaration of Gayla Kraetsch Hartsough.) The mandates in SB 958 substantially raised the redistricting bar in the County and placed significant responsibilities on the shoulders of the 14 unpaid citizen commissioners serving on the CRC, and it would be unreasonable for the CRC to not seek assistance of consultants, and unreasonable if the County refused to provide funding for consultants.<sup>23</sup>

The claimant asserts that *City of San Jose v. State of California* (1996) 45 Cal.App.4th 1802, as cited by the Commission in its Decision, “does not apply to the facts and law related to SB 958.”<sup>24</sup> The claimant explains that the case involved a shifting of costs between the state and local government. The case did not address a shifting of costs between local entities. The claimant concludes that the creation of supervisorial districts is unique to counties and the costs cannot be shifted to other local entities.<sup>25</sup>

The claimant’s comments conclude by requesting “that the Commission find the activities performed by the ED and sub-consultants are reasonably necessary to perform the mandated activities in EC§§ 21532(a) and (e) -(h) and 21534(c)(2), (c)(3)(A)-(B), (c)(4)(A), (c)(5)-(8), and (d)(4), and find that these costs should be included under the Parameters and Guidelines.”<sup>26</sup>

The Declaration of Executive Director Gayla Kraetsch Hartsough declares that her duties include: guiding the CRC in establishing supervisorial districts in compliance with law; working with independent legal counsel to establish a work plan of deliverables, guidelines, by-laws, Ad Hoc Working Groups, to delineate leadership roles; understanding all legal mandates and requirements that the CRC must meet; determining staffing and technical support for the CRC; and providing oversight, guidance, support staffing, and technical resources to meet the requirement of producing a final map and redistricting report by December 15, 2021. She also declares that she hired demographer consultants to assist the CRC in evaluating the need for a Racially Polarized Voting Subject Matter Expert to meet the requirements of Elections Code

section 21534(a) and (b). She, in coordination with legal counsel, have developed and executed an orientation and training plan for the CRC to meet its legal redistricting mandates where counsel provides training on the Brown Act, Rosenberg Rules of Order, ethics, and the California Public Records Act; and she focuses on training by identifying subject matter experts to speak on relevant topics (e.g. Voting Rights Act), guidance on meeting and hearing formats, mapping tools, and logistics. She further declares that she has proposed processes, procedures, and has facilitated the retention of necessary consultants. She is working with the CRC to design an approach to redistricting that can be built upon by future CRCs.<sup>27</sup>

The Declaration includes a table comparing the requirements under prior law with what Executive Director Hartsough describes as the “mandated requirements” under the test claim statute as follows:

- The Executive Director:
  - Designed a selection process for the additional six commissioners which included conducting and tabulating surveys of the applicants and facilitating the meetings to make the selection;
  - Worked with legal counsel to develop the CRC by-laws and facilitated the meetings until the by-laws were written and co-chairs were selected;
  - Served, along with staff and subcontractors, as liaisons with county departments and will work directly with commissioners to build maps;
  - Verified that applicants were still available and qualified to replace commissioners who have resigned;
  - Provided individualized onboarding training to replacement commissioners;
  - Established a website, a Facebook page, and a Twitter account for the CRC and sent email bulletins through GovDelivery to more than 7,000 email accounts;
  - Built an outreach toolkit for use by community-based organizations, cities, and other governmental entities and conducts ongoing meetings to engage them in the outreach process;
  - Works with community-based organizations to obtain input on methods to promote meetings and public hearings;
  - Coordinates the public hearing calendar;
  - Developed and implemented a Public Outreach Plan to increase public participation;
  - Coordinates speaking engagements for the commissioners;
  - Dedicates close to 100% of her time to the LA County CRC effort;

- Reviews and approves legal counsel’s unredacted invoices and submits redacted invoices to the county for payment; and
- Supports, along with staff and consultants, the Ad Hoc Working Groups including: Demography, Outreach, Education for Commissioners (Speakers’ Series), Values, and Selection of Replacement Commissioners.
- The county:
  - Provided the Esri software mapping tool, free of charge; and
  - Retained David Ely of Compass Demographics as its demographer to build data sets.
- The CRC:
  - Retained ARCBridge as its demographer to assist in fulfilling the CRC’s mandatory requirements;
  - Meets at least twice monthly for two to three hours totaling 108 hours in the last 12 months and each meeting requires four to six hours of preparation time for an additional 216 and 324 hours;
  - Will hold 12 or more public hearings with costs at each hearing for:
    - Preparing agenda, minutes, recordings, etc.,
    - Summarizing public input,
    - Translation services, and
    - Technical and administrative support;
  - Selected consultant, Thai V. Le, to be its Clerk, in addition to his other assignments to provide GIS and technical support, including coordination of the LA County mapping software, training plan, and roll out of the software;
  - Identified the need to retain subject matter experts to perform Racially Polarized Voting Analysis prior to developing map options;
- KH Consulting Group staff:
  - Handle the meeting logistics; and
  - Coordinate the commissioners’ IT issues with county systems (e.g., emails, mapping tools, website.)
- County Counsel retained independent legal counsel for the CRC.<sup>28</sup>

The table also includes an explanation that due to the pandemic, the meetings from December 2020 through July 2021 were virtual. Beginning in August 2021, meetings will be a hybrid of Webinars and in-person meetings and public hearings. The table in Ms. Hartsough’s Declaration

states that the “hybrid meeting model is more time consuming and complex to administer, as both the Webinar and in-person requirements must be met.”<sup>29</sup>

The Declaration concludes by stating that “the mandatory requirements and responsibilities of the LA County CRC necessitated the hiring of an Executive Director for the 14 unpaid citizen commissioners of the LA County CRC.”<sup>30</sup>

The claimant did not file comments on the Draft Proposed Decision and Parameters and Guidelines.

#### **B. Department of Finance**

The Department of Finance did not file comments on the Draft Expedited Parameters and Guidelines or the Draft Proposed Decision and Parameters and Guidelines.

#### **C. State Controller’s Office**

On October 12, 2021, the Controller filed comments on the Draft Proposed Decision and Parameters and Guidelines recommending no changes to the Parameters and Guidelines.<sup>31</sup>

### **IV. Discussion**

#### **A. Eligible Claimants (Section II. of the Parameters and Guidelines)**

The test claim statute imposes reimbursable state-mandated activities only on the County of Los Angeles. Therefore, Section II. of the Parameters and Guidelines states as follows: “Only the County of Los Angeles is eligible to claim reimbursement.”

#### **B. Period of Reimbursement (Section III. of the Parameters and Guidelines)**

Government Code section 17557(e) states that a test claim shall be submitted on or before June 30 following a given fiscal year to establish eligibility for that fiscal year. The claimant filed the Test Claim on June 26, 2020, establishing eligibility for reimbursement for the 2018-2019 fiscal year. Therefore, costs incurred are reimbursable on or after July 1, 2018.

#### **C. Reimbursable Activities (Section IV. of the Parameters and Guidelines)**

Section IV. of the Parameters and Guidelines identifies the activities found by the Commission to impose reimbursable state-mandated activities.

The claimant also requests reimbursement for the cost of contracting with the Executive Director of the CRC, who “dedicates close to 100% of her time to the LA County CRC effort,”<sup>32</sup> and the consultants hired to help with the redistricting process. The claimant alleges the activities

performed by the Executive Director and the consultants are either “mandated” by the state or reasonably necessary to comply with “SB 958,” the bill that enacted the test claim statute; Statutes 2016, chapter 781.<sup>33</sup>

The Commission, however, did *not* approve the Test Claim on Statutes 2016, chapter 781 in its entirety. For example, the Commission found that the process of redistricting using the mapping process to ensure compliance with the Voting Rights Act was not new and did not impose a new program or higher level of service.<sup>34</sup> The Commission also found that hiring consultants was not mandated by the state.<sup>35</sup> Other activities such as compliance with the Brown Act and the Public Records Act were also denied as not imposing a new program or higher level of service, or costs mandated by the state.<sup>36</sup> Costs incurred to comply with the California Public Records Act and the Brown Act are specifically exempted from the subvention requirement by the California Constitution.<sup>37</sup> Commission decisions on test claims, including the Decision issued in this case, are final and binding.<sup>38</sup>

Parameters and Guidelines are required to be consistent with the Test Claim Decision. Pursuant to Government Code section 17557 and section 1183.7 of the Commission’s regulations, the Parameters and Guidelines must identify the activities mandated by the state and “may include proposed reimbursable activities that are reasonably necessary *for the performance of the state-mandated program.*”<sup>39</sup> According to the Commission’s regulations:

“Reasonably necessary activities” are those activities necessary to comply with the statutes, regulations and other executive orders found to impose a state-mandated program. Activities required by statutes, regulations and other executive orders that were not pled in the test claim may only be used to define reasonably necessary activities to the extent that compliance with the approved state-mandated activities would not otherwise be possible. Whether an activity is reasonably necessary is a mixed question of law and fact. All representations of fact to support any proposed reasonably necessary activities shall be supported by documentary evidence in accordance with section 1187.5 of these regulations.<sup>40</sup>

<sup>39</sup> Government Code section 17557(a). (Emphasis added.)

<sup>40</sup> California Code of Regulations, title 2, section 1183.7(d).

Any proposed reasonably necessary activity must be supported by substantial evidence in the record explaining why the proposed activity is necessary for the performance of the state-mandated program in accordance with Government Code sections 17557(a), 17559, and California Code of Regulations, title 2, sections 1183.7(d) and 1187.5. Section 1187.5 of the Commission's regulations requires that oral or written representations of fact shall be under oath or affirmation; and that all written representations of fact must be signed under penalty of perjury by persons who are authorized and competent to do so.

Therefore, the analysis below reviews the activities identified by the claimant and the evidence in the record to determine if they are consistent with the Commission's Test Claim Decision or are reasonably necessary to comply with the activities the Commission determined to be reimbursable state-mandated activities. If an activity is approved as mandated by the state or reasonably necessary to comply with the mandated program, then the claimant may be reimbursed for the direct costs to perform that activity, including any contract costs incurred, pursuant to Section V. of the Parameters and Guidelines.

**1. Several activities proposed by the claimant go beyond the scope of the mandate and are, therefore, denied.**

The claimant requests reimbursement for the following activities to build redistricting maps:

- The Executive Director served, along with staff and subcontractors, as liaisons with county departments and will work directly with commissioners to build maps.
- The county:
  - Provided the Esri software mapping tool, free of charge.
  - Retained David Ely of Compass Demographics as its demographer to build data sets.
- The CRC:
  - Retained ARCBridge as its demographer to assist in fulfilling the CRC's mandatory requirements.
  - Meets at least twice monthly for two to three hours totaling 108 hours in the last 12 months and each meeting requires four to six hours of preparation time for an additional 216 and 324 hours.
  - Identified the need to retain subject matter experts to perform Racially Polarized Voting Analysis prior to developing map options.<sup>41</sup>

The table in the Declaration of the Executive Director further states that:

- The Executive Director, along with staff and consultants, supports the Demography Ad Hoc Working Group.

---

<sup>41</sup> Exhibit C, Claimant's Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, pages 7, 9-10 (Declaration of Gayla Kraetsch Hartsough).

- The Commissioners selected consultant, Thai V. Le, to be its Clerk, in addition to his other assignments to provide GIS and technical support, including coordination of the LA County mapping software.
- The Commissioners identified the need to retain SMEs [subject matter experts] to perform Racially Polarized Voting (RPV) Analysis prior to developing map options and the final map.<sup>42</sup>

As explained in the Test Claim Decision, the process of redistricting using the mapping process to ensure compliance with the Voting Rights Act is not new and does not constitute a new program or higher level of service:

Despite the small variance in language, both the prior law and the test claim statute set forth the process of redistricting using the mapping process to ensure compliance with the Voting Rights Act.

¶

Thus, the requirements imposed by Elections Code sections 21531 and 21534(a) and (d)(1)-(3) to adjust the supervisorial boundaries and adopt a redistricting plan are not new.<sup>43</sup>

Thus, the coordination with county departments for map building, the use of a mapping tool, retaining demographers, meetings of the CRC for the redistricting process, supporting the Demography Ad Hoc Working Group, and analyses for mapping go beyond the scope of the mandated program and are not eligible for reimbursement.

In addition, the Executive Director declares that “[t]he LA County CRC will hold 12 or more public hearings to be responsive, combined with ongoing input from Communities of Interest (COI). With each public hearing comes additional costs for:

- Preparing agenda, minutes, recordings, etc.
- Summarizing public input
- Translation services
- Technical and administrative support for each hearing.”<sup>44</sup>

However, the test claim statute mandates only eight new hearings, not twelve or more. The CRC is required to “conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.”<sup>45</sup> Also, the CRC is required to post the draft map and “conduct at least two public

hearings to take place over a period of no fewer than 30 days.”<sup>46</sup> The number of hearings set forth in the test claim statute is nine. The phrase “at least” is synonymous with “at a minimum,” and therefore the state has mandated that the CRC conduct nine public hearings.<sup>47</sup> Under prior law, the Board of Supervisors was required to conduct one hearing prior to adopting the map.<sup>48</sup> Therefore, the Commission found that the CRC conducting eight new hearings, where seven occur before drafting a map and one occurs after the draft map is posted, is eligible for reimbursement as a state-mandated new program or higher level of service.<sup>49</sup> Any additional hearing conducted by the CRC goes beyond the scope of the mandate by the state and is not eligible for reimbursement.

In addition, preparing the agenda is required by the Brown Act and was denied by the Commission and, therefore this activity goes beyond the scope of the mandate.<sup>50</sup> Thus, Section IV.B.2. of the Parameters and Guidelines has been clarified to clarify the mandate as follows:

- b. Conduct ~~at least~~ seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>51</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting these hearings pursuant to article XIII B, section 6(a)(4) of the California Constitution. Thus, the following activities are not eligible for reimbursement: posting a notice and agenda (Government Code section 54954.2), mailing agenda items to the public (Government Code section 54954.1), and complying with the Americans with Disabilities Act for the hearing (54953.2).*

- c. Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>52</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting the hearing on the draft map pursuant to article XIII B, section 6(a)(4) of the California Constitution. Thus, the following activities are not eligible for reimbursement: posting a notice and agenda (Government Code section 54954.2), mailing agenda items to the public (Government Code section 54954.1), and complying with the Americans with Disabilities Act for the hearing (54953.2).*

- d. Establish and make available to the public a calendar of the ~~at~~ eight public hearings identified in Section IV.B.2.b. and c. of these Parameters and Guidelines.<sup>53</sup>

The Declaration of the Executive Director also states that training has been provided to CRC members on the Brown Act and the California Public Records Act.<sup>54</sup> Compliance with the Brown Act would be reasonably necessary for any mandate that requires holding a public meeting of a governmental body. So, too, compliance with the California Public Records Act would be reasonably necessary for any mandate that requires the creation of public records. However, as explained in the Commission’s Decision, the California Constitution *specifically exempts* from the subvention requirement costs incurred to comply with the California Public Records Act and the Brown Act, which the Commission therefore denies.<sup>55</sup>

**2. The claimant has not supported several proposed activities with substantial evidence in the record showing why they are reasonably necessary to comply with the limited state-mandated program and, therefore, the Commission denies these activities.**

The claimant did not support several activities listed in the table in the Executive Director’s Declaration with substantial evidence in the record showing why they are reasonably necessary to comply with the limited state-mandated program. These include the following activities relating to the retention of independent legal counsel for the CRC:

- County Counsel retained an Independent Legal Lawyer and firm to preserve the LA County CRC's independence. The Executive Director reviews and approves the Independent Legal Counsel’s unredacted invoices and submits redacted invoices to LA County for payment.
- The Executive Director worked with legal counsel to develop the CRC by-laws and facilitated the meetings until the by-laws were written and co-chairs were selected.<sup>56</sup>

The state-mandated activities performed by the CRC are limited to the following: conducting seven public hearings before drafting a map; posting the draft map for public comment and conducting one public hearing on the draft map; making a calendar available to the public of all public hearings; arranging for the live translation of a hearing in an applicable language if a request for translation is made at least 24 hours before the hearing; taking steps to encourage county residents to participate in the redistricting public review process; and issuing a report explaining the basis on which the CRC made its decision in achieving compliance with

redistricting.<sup>57</sup> As explained in the Test Claim Decision, reimbursement under article XIII B, section 6 is not required for the process of redistricting using the mapping process to ensure compliance with the Voting Rights Act.<sup>58</sup> Thus, if legal counsel is used to consult with the CRC or to create by-laws for the redistricting process itself, those costs are not eligible for reimbursement.

The Executive Director declares that providing the members with training on the Voting Rights Act is reasonably necessary to comply with the mandate. Executive Director's Declaration, however, only states that her "focus is on training, by identifying SMEs [Subject Matter Experts] to speak on topics of importance to the Commissioners (e.g., Voting Rights Act)...."<sup>59</sup> While the CRC is a new body and an understanding of the Voting Rights Act may be reasonably necessary to carry out the CRC members' mandated duties, there is no evidence in the record that the training was conducted for that purpose nor does the Declaration tie the training to the mandated activities or say why it is necessary for the performance of the mandate activities. The Executive Director's Declaration also states that she "coordinates our calendar for public hearings with the California CRC and other CRCs to avoid conflicting schedules for the public."<sup>60</sup> The Test Claim Decision approved reimbursement for the CRC to "establish and make available to the public a calendar of all public hearings" in accordance with Elections Code section 21534(c)(4)(A).<sup>61</sup> The evidence does not explain whether the activity of coordinating the calendar is the same as or associated with the reimbursable state-mandated activity of establishing the calendar and making it available to the public, and there is no explanation of what is meant by coordinating the calendar with "other CRCs" to avoid conflicting schedules.

Accordingly, the Commission finds that the claimant has not supported these proposed activities with substantial evidence in the record and therefore denies them.

**3. The Commission approves activities relating to establishing the CRC; replacing members who resign; providing one-time training for each CRC member on the Rules of Order for public hearings, and the ethics requirements of CRC members; and the activities to encourage county residents to participate in the redistricting public review process, finding them reasonably necessary to comply with the state-mandated program.**

The test claim statute mandates the creation of a 14-member CRC in each year ending in the number zero.<sup>62</sup> The claimant is mandated to select eight commissioners.<sup>63</sup> The eight

commissioners are then mandated to appoint six additional applicants to the CRC, so that the CRC has 14 members.<sup>64</sup> The Test Claim Decision approved reimbursement for the claimant and CRC to select the commissioners. Elections Code section 21533(c) states that nine members of the CRC shall constitute a quorum, and nine or more affirmative votes shall be required for any official action.

The Executive Director declares that the following activities are reasonably necessary for the CRC to select the six members of the commission:

- Designed a selection process for the additional six commissioners, building on input from the Commissioners, and supported the Selection of Replacement Commissioners Ad Hoc Working Group.
- Conducted and tabulated surveys of Commission evaluations of applicants.
- Facilitated four CRC meetings to select the final Commissioners.<sup>65</sup>

The Executive Director also declares that she was required to replace CRC members that have resigned to ensure a quorum, and the claimant requests reimbursement as follows:

To ensure a quorum, the LA County CRC has maintained 14 Commissioners. When one resigned, the Executive Director had to verify that target highly qualified applicants were still available, residents of LA County, and continued to have no conflicts of interest.<sup>66</sup>

The Commission finds that the Executive Director's Declaration, signed under penalty of perjury, is sufficient to support a finding that the activities identified to select the six members of the CRC and replace members that resign are reasonably necessary to comply with the state-mandated program to have a 14-member CRC.<sup>67</sup> The Test Claim Decision explains what is required by Elections Code 21532 to appoint a member:

The 14-member CRC must be created no later than December 31, 2020, and in each year ending in the number zero thereafter. [Citation omitted.] The process for the selection of members is designed to produce a CRC that is independent from the influence of the board and is reasonably representative of the county's diversity. [Citation omitted.] The members' political party preferences must be as proportional as possible to the total number of voters who are registered with each political party in the county. At least one member must reside in each of the five existing supervisorial districts. [Citation omitted.] Members are required to meet all of the following qualifications:

<sup>67</sup> Exhibit C, Claimant's Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, pages 5, 7-8 (Declaration of Gayla Kraetsch Hartsough).

- Be a resident of the county,
- Be a voter who has been continuously registered in the county who has not changed their political party affiliation for five or more years,
- Have voted in at least one of the last three statewide elections,
- Within the last 10 years, neither the applicant nor an immediate family member, has been appointed to, elected to, or have been a candidate for office; served as an employee of, or paid consultant for, an elected representative, candidate, or political party; or been a registered state or local lobbyist,
- Possess experience that demonstrates relevant analytical skills and an ability to comprehend and apply legal requirements,
- Possess experience that demonstrates an ability to be impartial, and
- Possess experience that demonstrates an appreciation for the diverse demographics and geography of the county. [Citation omitted.]

Those individuals who meet the qualifications may submit an application to the county elections official who is required to review the applications and eliminate applicants who do not meet the qualifications. [Citation omitted.]<sup>68</sup>

Elections Code section 21532(h)(2) then requires that the six appointees shall be chosen by the eight CRC members based on relevant experience, analytical skills, and ability to be impartial, and to ensure that the CRC reflects the county’s diversity, including racial, ethnic, geographic, and gender diversity. However, formulas or specific ratios shall not be applied for this purpose. The eight CRC members shall also consider political party preference, selecting applicants so that the political party preference of the members of the CRC complies with section 21532(c), which states the following:

The political party preferences of the commission members, as shown on the members’ most recent affidavits of registration, shall be as proportional as possible to the total number of voters who are registered with each political party in the County of Los Angeles or who decline to state or do not indicate a party preference, as determined by registration at the most recent statewide election. However, the political party or no party preferences of the commission members are not required to be exactly the same as the proportion of political party and no party preferences among the registered voters of the county. At least one commission member shall reside in each of the five existing supervisorial districts of the board.

Accordingly, the Parameters and Guidelines include the following reasonably necessary activities under Section IV.B.2. of the Parameters and Guidelines (Ongoing Activities):

---

<sup>68</sup> Exhibit A, Test Claim Decision, adopted May 28, 2021, pages 11-12.

- a. The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>69</sup>

Reimbursement for this activity includes the following:

- Design a selection process to appoint the six CRC members.
- Conduct and tabulate surveys of CRC member evaluations of the applicants for the six remaining seats.
- Facilitate CRC meetings to select the final six CRC members.
- Select replacement commissioners in accordance with Elections Code 21532 for CRC members that resign to ensure a 14-member commission and a quorum are maintained.<sup>70</sup>

The Executive Director further declares under penalty of perjury that providing the members with training on the Rosenberg Rules of Order for the CRC hearings, ethics, supporting the Education for Commissioners (Speakers' Series) and Values Ad Hoc Working Groups, and providing guidance on the format for the regular public hearings, are reasonably necessary to comply with the mandate.<sup>71</sup> The Commission finds that the Declaration supports the finding that providing *one-time* training on the Rosenberg Rules of Order and format of public hearings, and ethics requirements of CRC members, which pursuant to Elections Code section 21532, requires the member to be impartial and apply legal requirements, is reasonably necessary for the mandate to create the CRC and for the CRC to conduct the new mandated public hearings. However, as indicated in the analysis above, reimbursement is not required for the redistricting process itself, or for training on the Brown Act, the Public Records Act, or the Voting Rights Act. Moreover, the activity of supporting the Education for Commissioners (Speakers' Series) and Values Ad Hoc Working Groups is overly broad and not supported by evidence in the record that it is reasonably related to the mandated activities and, thus, is denied. Finally, the claimant made no request for training of CRC members on the mandated activities contained in the Test Claim statute.

Therefore, the Parameters and Guidelines authorize one-time reimbursement for training as follows:

- A. One time training for each CRC member on the Rosenberg Rules of Order and format of public hearings, and the ethics requirements of CRC members, which pursuant to Elections Code section 21532, requires the member to be impartial and apply legal requirements.<sup>72</sup>

<sup>72</sup> Exhibit C, Claimant's Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, pages 5-6, 8 (Declaration of Gayla Kraetsch Hartsough).

Reimbursement is **not** required to adjust supervisorial boundary lines and adopt a redistricting plan in accordance with the Voting Rights Act, or for training regarding the Ralph M. Brown Act, the California Public Records Act, or for any other activities not identified in Section I.V.B. of these Parameters and Guidelines.

In addition, the Commission found that the test claim statute imposes a reimbursable state-mandated activity to “take steps to encourage county residents to participate in the redistricting public review process.”<sup>73</sup> Elections Code section 21534(c)(6) provides examples of what the steps may include:

- (A) Providing information through media, social media, and public service announcements.
- (B) Coordinating with community organizations.
- (C) Posting information on the Internet Web site of the County of Los Angeles that explains the redistricting process and includes a notice of each public hearing and the procedures for testifying during a hearing or submitting written testimony directly to the commission.

In this respect, the Executive Director declares under penalty of perjury that the following activities were performed:

- Established a website, a Facebook page, and a Twitter account for the CRC and sent email bulletins through GovDelivery to more than 7,000 email accounts.
- Built an outreach toolkit for use by community-based organizations, cities, and other governmental entities and conducted ongoing meetings to engage them in the outreach process.
- Worked with community-based organizations to obtain input on methods to promote meetings and public hearings.
- Developed and implemented a Public Outreach Plan to increase public participation and supported the Outreach Ad Hoc Working Group.<sup>74</sup>

The Commission finds that the first three bulleted activities are consistent with the plain language of Elections Code section 21534(c)(6) and that the Executive Director’s Declaration supports the finding that the last bullet (to develop a public outreach plan) is reasonably necessary to comply with the mandate to “take steps to encourage county residents to participate in the redistricting public review process.”<sup>75</sup> Therefore, Section IV.B.2.f. of the Parameters and Guidelines authorizes reimbursement for the activities outlined in section 21534(c)(6) of the steps that can be taken to encourage county residents to participate in the redistricting public

review process, which the CRC performed, and the activity identified by the Executive Director to develop and implement a plan to increase public participation as follows:

- f. Take steps to encourage county residents to participate in the redistricting public review process. Reimbursement for this activity includes the following:
- Develop and implement a Public Outreach Plan to increase public participation.
  - Provide information through media, social media, and public service announcements.
  - Coordinate with community organizations.
  - Post information on the Internet Web site of the County of Los Angeles that explains the redistricting process and includes a notice of each public hearing and the procedures for testifying during a hearing or submitting written testimony directly to the CRC.<sup>76</sup>

#### **D. Claim Preparation and Submission (Section V. of the Parameters and Guidelines)**

Section V. of the Parameters and Guidelines (Claim Preparation and Submission) identifies the direct costs that are eligible for reimbursement, including: salaries and benefits, materials and supplies, contracted services, travel, training, and fixed assets. However, travel costs are not included in the Parameters and Guidelines because this activity was not approved in the Test Claim Decision and the claimant neither requested these costs as reasonably necessary to perform the mandated activities nor submitted evidence to support such a request. The paragraph on Training has been modified for consistency with the Commission's findings for this program as follows:

##### 5. Training

Report the cost of training, as specified in Section IV.A. of this document. Report the name and job classification of each employee, consultant, contractor, or CRC member preparing for, attending, or conducting training. Provide the title, subject, and purpose (related to the mandate of the training session), dates attended, and location. ## PARAMETERS AND GUIDELINES<sup>77</sup>

Elections Code Sections 21532(a) and (e)-(h) and  
21534(c)(2), (c)(3)(A)-(B), (c)(4)(A), (c)(5)-(8) and (d)(4) as Added by  
Statutes 2016, Chapter 781 (SB 958)

*County of Los Angeles Citizens Redistricting Commission*

19-TC-04

Reimbursement for this program begins July 1, 2018.

### I. SUMMARY OF THE MANDATE

These Parameters and Guidelines address Statutes 2016, chapter 781, which added Elections Code sections 21530 through 21535 to require the claimant to create, staff, and fund the independent County of Los Angeles Citizens Redistricting Committee (CRC) to adjust the boundary lines of the supervisorial districts in the County of Los Angeles in the year following the year of the decennial federal census.

On May 28, 2021, the Commission on State Mandates (Commission) adopted the Test Claim Decision finding that the test claim statute imposes a partially reimbursable state-mandated program upon the County of Los Angeles within the meaning of article XIII B, section 6 of the California Constitution and Government Code section 17514 for the following activities:

- The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>78</sup>
- The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>79</sup>
- At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>80</sup>
- The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC.<sup>81</sup>

---

<sup>77</sup> Please note that the Decision and Parameters and Guidelines is a single document and must be read as a whole. It is not intended to be separated and should be posted in its entirety.

<sup>79</sup> Elections Code section 21532(e)-(g).

<sup>80</sup> Elections Code section 21532(g).

<sup>81</sup> Elections Code section 21534(c)(7).

In addition, based on Elections Code section 21534(c)(8), which requires the claimant to provide reasonable funding and staffing to the CRC, the following activities mandated by Elections Code sections 21532 and 21534 and performed by the CRC impose a reimbursable state-mandated program on the claimant:

- The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>82</sup>
- Conduct at least seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>83</sup>
- Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>84</sup>
- Establish and make available to the public a calendar of all public hearings.<sup>85</sup>
- Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to three percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>86</sup>
- Take steps to encourage county residents to participate in the redistricting public review process.<sup>87</sup>
- Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>88</sup>

The Commission denied all other code sections added by the test claim statute and activities alleged to be mandated in the Test Claim. Specifically, the Commission found that Elections Code sections 21530, 21533, and 21535 do *not* impose any state-mandated requirements on the claimant, but rather generally define terms and limit the hiring of consultants by the CRC to help with the adjustment of district boundaries. Although the claimant is required by Elections Code section 21534(c)(8) to provide reasonable funding to the CRC, which may include paying for a

consultant hired by the CRC, the courts have made it clear that “[n]othing in article XIII B prohibits the shifting of costs between local governmental entities.”<sup>89</sup>

In addition, the requirements imposed by Elections Code sections 21531 and 21534(a), (c)(9), and (d)(1)-(3) to adjust supervisorial boundary lines, adopt a redistricting plan every ten years; and to comply with the Public Records Act are *not* new and do not impose a reimbursable new program or higher level of service on the claimant.<sup>90</sup>

Finally, the Commission found that the activities required by Elections Code section 21534(c)(1) and (c)(4)(B) to comply with the Ralph M. Brown Act for the public hearings conducted by the CRC are *not* eligible for reimbursement pursuant to article XIII B, section 6(a)(4). Article XIII B, section 6(a)(4) states that “the Legislature may, but need not, provide a subvention of funds for the following mandates: . . . Legislative mandates contained in statutes within the scope of paragraph (7) of subdivision (b) of Section 3 of Article I.” Article I, section 3(b) of the California Constitution requires local agencies to comply with the Ralph M. Brown Act, beginning with Government Code section 54950. The Brown Act applies to all local agencies and “any other local body created by state statute,” and therefore applies to the CRC.<sup>91</sup>

## II. ELIGIBLE CLAIMANTS

Only the County of Los Angeles is eligible to claim reimbursement.

## III. PERIOD OF REIMBURSEMENT

Government Code section 17557(e) states that a test claim shall be submitted on or before June 30 following a given fiscal year to establish eligibility for that fiscal year. The claimant filed the Test Claim on June 26, 2020, establishing eligibility for reimbursement for the 2018-2019 fiscal year. Therefore, costs incurred are reimbursable on or after July 1, 2018.

Reimbursement for state-mandated costs may be claimed as follows:

1. Actual costs for one fiscal year shall be included in each claim.
2. Pursuant to Government Code section 17561(d)(1)(A), all claims for reimbursement of initial fiscal year costs shall be submitted to the State Controller (Controller) within 120 days of the issuance date for the claiming instructions.
3. Pursuant to Government Code section 17560(a), a local agency may, by February 15 following the fiscal year in which costs were incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.

4. If revised claiming instructions are issued by the Controller pursuant to Government Code section 17558(c), between November 15 and February 15, a local agency filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim. (Gov. Code §17560(b).)
5. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by Government Code section 17564(a).
6. There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

#### IV. REIMBURSABLE ACTIVITIES

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event, or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, “I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct,” and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant that incurs increased costs, the following activities are reimbursable:

- A. One time training for each CRC member on the Rosenberg Rules of Order and format of public hearings, and the ethics requirements of CRC members, which pursuant to Elections Code section 21532, requires the member to be impartial and apply legal requirements.<sup>92</sup>

*Reimbursement is **not** required to adjust supervisorial boundary lines and adopt a redistricting plan in accordance with the Voting Rights Act, or for training regarding the Ralph M. Brown Act, the California Public Records Act, or any other activities not identified in Section IV.B. of these Parameters and Guidelines.*

## B. Ongoing Activities

1. Creation of the Citizens Redistricting Commission (CRC).<sup>93</sup>
  - a. The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>94</sup>
  - b. The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>95</sup>
  - c. At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners.<sup>96</sup>

2. Activities Performed by the CRC.<sup>98</sup> Based on Elections Code section 21534(c)(8), which requires the County of Los Angeles to provide reasonable funding and staffing to the CRC, the following activities mandated by the test claim statute and performed by the CRC are eligible for reimbursement:
  - a. The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>99</sup> Reimbursement for this activity includes the following:

---

<sup>93</sup> The county is required to form a CRC every ten years. (Elections Code section 21532(a).) The terms of the prior CRC members terminate with the appointment of the first member of the succeeding CRC. (Elections Code section 21533(b).) Therefore, the activities must be repeated with each new CRC.

<sup>94</sup> Elections Code section 21532(a).

<sup>95</sup> Elections Code section 21532(e)-(g).

<sup>96</sup> Elections Code section 21532(g).

<sup>97</sup> Elections Code section 21534(c)(7).

<sup>98</sup> Boundary lines of the supervisorial districts in the County of Los Angeles must be drawn in the year following the year of the decennial federal census. (Elections Code section 21531.) The terms of the prior CRC members terminate with the appointment of the first member of the succeeding CRC. (Elections Code section 21533(b).) Therefore, the activities must be repeated by each new CRC.

<sup>99</sup> Elections Code section 21532(h).

- Design a selection process to appoint the six CRC members.
  - Conduct and tabulate surveys of CRC member evaluations of the applicants for the six remaining seats.
  - Facilitate CRC meetings to select the final six CRC members.
  - Select replacement commissioners in accordance with Elections Code 21532 for CRC members that resign to ensure a 14-member commission and a quorum are maintained.<sup>100</sup>
- b. Conduct seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>101</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting these hearings pursuant to article XIII B, section 6(a)(4) of the California Constitution. Thus, the following activities are not eligible for reimbursement: posting a notice and agenda (Government Code section 54954.2), mailing agenda items to the public (Government Code section 54954.1), and complying with the Americans with Disabilities Act for the hearing (54953.2).*

- c. Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>102</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting the hearing on the draft map pursuant to article XIII B, section 6(a)(4) of the California Constitution. - d. Establish and make available to the public a calendar of the eight public hearings identified in Section IV.B.2.b. and c. of these Parameters and Guidelines.<sup>103</sup>

- e. Arrange for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to three percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing.<sup>104</sup>

## V. CLAIM PREPARATION AND SUBMISSION

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV., Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

### A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

#### 1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

#### 2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

#### 3. Contracted Services

---

<sup>105</sup> Elections Code section 21534(c)(6); Exhibit C, Claimant's Comments on the Draft Expedited Parameters and Guidelines, filed on July 29, 2021, pages 5, 8-9 (Declaration of Gayla Kraetsch Hartsough).

<sup>106</sup> Elections Code section 21534(d)(4).

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

#### 4. Fixed Assets

Report the purchase price paid for fixed assets (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

#### 5. Training

Report the cost of training, as specified in Section IV.A. of this document. Report the name and job classification of each employee, consultant, contractor, or CRC member preparing for, attending, or conducting training. Provide the title, subject, and purpose (related to the mandate of the training session), dates attended, and location. If the training encompasses subjects broader than what is identified in Section IV.A., only the pro-rata portion can be claimed. Report employee training time according to the rules of cost element A.1., Salaries and Benefits, and A.2., Materials and Supplies. Report the cost of consultants who conduct the training according to the rules of cost element A.3., Contracted Services.

### B. Indirect Cost Rates

Indirect costs are costs that are incurred for a common or joint purpose, benefiting more than one program, and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both: (1) overhead costs of the unit performing the mandate; and (2) the costs of the central government services distributed to the other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in 2 Code of Federal Regulations (CFR) part 225 (Office of Management and Budget (OMB) Circular A-87). Claimants have the option of using 10 percent of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) if the indirect cost rate claimed exceeds 10 percent.

If the claimant chooses to prepare an ICRP, both the direct costs (as defined and described in 2 CFR part 225, appendices A and B (OMB Circular A-87 attachments A & B) and the indirect costs shall exclude capital expenditures and unallowable costs (as defined and described in 2 CFR part 225, appendices A and B (OMB Circular A-87 attachments A & B)). However, unallowable costs must be included in the direct costs if they represent activities to which indirect costs are properly allocable.

The distribution base may be: (1) total direct costs (excluding capital expenditures and other distorting items, such as pass-through funds, major subcontracts, etc.); (2) direct salaries and wages; or (3) another base which results in an equitable distribution.

In calculating an ICRP, the claimant shall have the choice of one of the following methodologies:

1. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 attachments A & B) shall be accomplished by: (1) classifying a department's total costs for the base period as either direct or indirect; and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate which is used to distribute indirect costs to mandates. The rate should be expressed as a percentage that the total amount of allowable indirect costs bears to the base selected; or
2. The allocation of allowable indirect costs (as defined and described in OMB Circular A-87 attachments A & B) shall be accomplished by: (1) separating a department into groups, such as divisions or sections, and then classifying the division's or section's total costs for the base period as either direct or indirect; and (2) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate that is used to distribute indirect costs to mandates. The rate should be expressed as a percentage which the total amount of allowable indirect costs bears to the base selected.

## **VI. RECORD RETENTION**

Pursuant to Government Code section 17558.5(a), a reimbursement claim for actual costs filed pursuant to this chapter<sup>107</sup> is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV., must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

## **VII. OFFSETTING REVENUES AND REIMBURSEMENTS**

Any offsetting revenue the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, service fees collected, federal funds, other state funds, and other funds that are not the claimant's proceeds of taxes shall be identified and deducted from this claim.

---

<sup>107</sup> This refers to title 2, division 4, part 7, chapter 4 of the Government Code.

## **VIII. STATE CONTROLLER'S CLAIMING INSTRUCTIONS**

Pursuant to Government Code section 17558(b), the Controller shall issue claiming instructions for each mandate that requires state reimbursement not later than 90 days after receiving the adopted parameters and guidelines from the Commission, to assist local governments in claiming costs to be reimbursed. The claiming instructions shall be derived from these parameters and guidelines and the decisions on the test claim and parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561(d)(1), issuance of the claiming instructions shall constitute a notice of the right of the eligible claimants to file reimbursement claims, based upon parameters and guidelines adopted by the Commission.

## **IX. REMEDIES BEFORE THE COMMISSION**

Upon request of an eligible claimant, the Commission shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557(d), and California Code of Regulations, title 2, section 1183.17.

## **X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES**

The decisions adopted for the test claim and parameters and guidelines are legally binding on all parties and interested parties and provide the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record. The administrative record is on file with the Commission.

**STAFF ANALYSIS**

**Summary of the Mandate, Eligible Claimants, and Period of Reimbursement**

Elections Code sections 21532 and 21534, as added by Statutes 2016, chapter 781 (SB 958), require the County of Los Angeles to create, staff, and fund the independent County of Los Angeles Citizens Redistricting Committee (CRC) to adjust the boundary lines of the supervisorial districts in the County of Los Angeles in the year following the year of the decennial federal census.

The Commission adopted the Test Claim Decision on May 28, 2021, and the Decision and Parameters and Guidelines on December 3, 2021, approving reimbursement for the only eligible claimant, the County of Los Angeles.

The initial reimbursement period is July 1, 2018, through June 30, 2021 (fiscal years 2018-2019, 2019-2020, and 2020-2021). The County of Los Angeles was required to file initial claims with the State Controller's Office (Controller) by October 27, 2022. Late initial reimbursement claims may be filed until October 27, 2023, but will incur a 10 percent late filing penalty of the total amount of the initial claim without limitation.<sup>1</sup>

### **Reimbursable Activities**

The Commission approved the following reimbursable activities for this program:

- A. One time training for each CRC member on the Rosenberg Rules of Order and format of public hearings, and the ethics requirements of CRC members, which pursuant to Elections Code section 21532, requires the member to be impartial and apply legal requirements.<sup>2</sup>

*Reimbursement is **not** required to adjust supervisorial boundary lines and adopt a redistricting plan in accordance with the Voting Rights Act, or for training regarding the Ralph M. Brown Act, the California Public Records Act, or any other activities not identified in Section IV.B. of these Parameters and Guidelines.*

- B. Ongoing Activities

1. Creation of the Citizens Redistricting Commission (CRC).<sup>3</sup>
  - a. The county shall create a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter.<sup>4</sup>
  - b. The elections official shall review the applications and eliminate applicants who do not meet the specified qualifications, select 60 of the most qualified applicants, publish the list of qualified applicants for 30 days, and create a subpool for each of the five existing supervisorial districts of the board.<sup>5</sup>
  - c. At a regularly scheduled meeting of the board, the Auditor-Controller conducts a random drawing to select one commissioner from each of the five subpools, then

<sup>3</sup> The county is required to form a CRC every ten years. (Elections Code section 21532(a).) The terms of the prior CRC members terminate with the appointment of the first member of the succeeding CRC. (Elections Code section 21533(b).) Therefore, the activities must be repeated with each new CRC.

another random drawing from all of the remaining applicants to select three additional commissioners.<sup>6</sup>

- d. The board shall take all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC.<sup>7</sup>
2. Activities Performed by the CRC.<sup>8</sup> Based on Elections Code section 21534(c)(8), which requires the County of Los Angeles to provide reasonable funding and staffing to the CRC, the following activities mandated by the test claim statute and performed by the CRC are eligible for reimbursement:
    - a. The eight selected commissioners shall review the remaining names in the subpools of applicants and shall appoint six additional applicants to the CRC.<sup>9</sup> Reimbursement for this activity includes the following:
      - Design a selection process to appoint the six CRC members.
      - Conduct and tabulate surveys of CRC member evaluations of the applicants for the six remaining seats.
      - Facilitate CRC meetings to select the final six CRC members.
      - Select replacement commissioners in accordance with Elections Code 21532 for CRC members that resign to ensure a 14-member commission and a quorum are maintained.<sup>10</sup>
    - b. Conduct seven public hearings before drafting a map, to take place over a period of no fewer than 30 days, with at least one public hearing held in each supervisorial district.<sup>11</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting these hearings pursuant to article XIII B, section 6(a)(4) of the California Constitution. Thus, the following activities are not eligible for reimbursement:*

<sup>7</sup> Elections Code section 21534(c)(7).

<sup>8</sup> Boundary lines of the supervisorial districts in the County of Los Angeles must be drawn in the year following the year of the decennial federal census. (Elections Code section 21531.) In addition, the county is required to form a CRC every ten years. (Elections Code section 21532(a).) The terms of the prior CRC members terminate with the appointment of the first member of the succeeding CRC. (Elections Code section 21533(b).) Therefore, the activities must be repeated by each new CRC.

*posting a notice and agenda (Government Code section 54954.2), mailing agenda items to the public (Government Code section 54954.1), and complying with the Americans with Disabilities Act for the hearing (54953.2).*

- c. Post the draft map for public comment on the website of the County of Los Angeles and conduct one public hearing on the draft map (in addition to the one hearing required under prior law, which is not reimbursable).<sup>12</sup>

*Reimbursement is **not** required to comply with the Ralph M. Brown Act when conducting the hearing on the draft map pursuant to article XIII B, section 6(a)(4) of the California Constitution. Thus, the following activities are not eligible for reimbursement: posting a notice and agenda (Government Code section 54954.2), mailing agenda items to the public (Government Code section 54954.1), and complying with the Americans with Disabilities Act for the hearing (54953.2).*

- d. Establish and make available to the public a calendar of the eight public hearings identified in Section IV.B.2.b. and c. of these Parameters and Guidelines.<sup>13</sup>

- f. Take steps to encourage county residents to participate in the redistricting public review process. Reimbursement for this activity includes the following:
- Develop and implement a Public Outreach Plan to increase public participation.
  - Provide information through media, social media, and public service announcements.
  - Coordinate with community organizations.
  - Post information on the Internet Web site of the County of Los Angeles that explains the redistricting process and includes a notice of each public hearing and the procedures for testifying during a hearing or submitting written testimony directly to the CRC.<sup>15</sup>

- g. Issue a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>16</sup>

**Offsetting Revenues and Reimbursements**

The Parameters and Guidelines specify that any offsetting revenue the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, service fees collected, federal funds, other state funds, and other funds that are not the claimant’s proceeds of taxes shall be identified and deducted from this claim.<sup>17</sup> The County identified no offsetting revenue.

**Statewide Cost Estimate**

Staff reviewed two unaudited reimbursement claims submitted by the County of Los Angeles compiled by the Controller and developed the Statewide Cost Estimate based on the assumptions and methodology discussed herein. Although the potential initial reimbursement period covered three fiscal years, the County first began incurring costs on July 1, 2019.<sup>18</sup> Thus, the County only filed claims for fiscal years 2019-2020 and 2020-2021. Table 1 and Table 2, below, summarize the costs for the initial reimbursement period and the cost estimates for the period that includes the next decennial federal census, respectively.

Assumptions

1. The test claim statute imposes requirements solely on the County of Los Angeles. Thus, the County is and will remain the only eligible claimant.
2. The amount claimed for the initial reimbursement period may increase if amended claims are filed.
3. Actual costs may be lower following an audit by the Controller because the claims appear to include some activities that were denied by the Commission. Specifically, the County claimed the costs of the following activities that were denied by the Commission:

- the costs of the Esri software license in the amount of \$39,500.<sup>19</sup>
- the costs of Thai Le to provide GIS support in the amount of \$1,387.50.<sup>20</sup>

The Commission denied reimbursement for these activities because mapping has always been part of redistricting and is not a new activity.<sup>21</sup>

- costs for independent counsel to attend ten meetings of the CRC, from December 14, 2020 through May 26, 2021, under activities B.1.a., B.2.d., and B.2.f. in the amount of \$10,472.50.<sup>22</sup>

The Commission denied reimbursement for the meetings of the CRC because the meetings go beyond the scope of the mandated program.<sup>23</sup> Thus, the costs of meetings are not eligible for reimbursement.

- costs of independent counsel to the CRC under activity B.1.d. in the amount of \$51,335.50. Activity B.1.d. requires the County Board of Supervisors to ensure a complete and accurate computerized database is available for redistricting and to provide the public ready access.<sup>24</sup>

The Commission denied reimbursement for the activities of County Counsel to retain independent counsel for the CRC to preserve the independence of the CRC and to develop the CRC's by-laws because these activities were not supported by substantial evidence in the record.<sup>25</sup>

The claimed amounts for what appears to be denied activities total \$102,695.50, which could reduce the initial claims to \$965,113. This will need to be reviewed and determined by the State Controller.

4. The test claim statute requires the County of Los Angeles to create, staff, and fund a CRC at the time of each federal census.<sup>26</sup> The current commissioners' terms expire upon the

appointment of the first member of the succeeding CRC.<sup>27</sup> However, the mandated activities end when the CRC issues a final map and a final report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act.<sup>28</sup> This report, issued on December 15, 2021, sets forth the CRC’s compliance with the test claim statute to establish boundary lines for the five supervisorial districts in the County including: the selection of CRC members,<sup>29</sup> public outreach to ensure community involvement,<sup>30</sup> public hearings on the proposed maps,<sup>31</sup> and the application of the redistricting criteria to the final map.<sup>32</sup> The reimbursable activities were completed and culminated in the adoption of a final map and the final report. Although the current CRC has completed its redistricting, it recommended that it continue meeting to improve the process by incorporating lessons learned to provide future CRCs a head start,<sup>33</sup> which might involve: 1) implementing a robust outreach and engagement plan<sup>34</sup> and 2) continuously educating the public regarding the Voting Rights Act and redistricting criteria.<sup>35</sup> The reimbursable activities listed under Activity B.2.f., above, regarding outreach and providing information to the public are limited to encouraging county residents to participate in the “redistricting public review process.”<sup>36</sup> Redistricting is the apportionment of legislative representation based on population as based upon the results of the federal census.<sup>37</sup> Thus, in the years between the federal censuses, there is no ongoing redistricting process or public review process.<sup>38</sup> Therefore, the current CRC, acting on its lessons learned, would not be performing any reimbursable activities.

5. For the initial claiming period, the County received applications for CRC membership on September 8, 2020, and the first eight CRC members were chosen on November 24, 2020.<sup>39</sup> In its final report, the current CRC recommended that the first eight members should be chosen no later than September 1 of the year in which the census takes place or, if the subsequent CRC is to select its own Executive Director or independent legal counsel, then the first eight members should be chosen no later than June 1.<sup>40</sup> If this recommendation is followed and the process takes the same amount of time as it did during the initial claiming period, then the applications would need to be received by June 16, 2030, to choose the members by September 1, or by March 9, 2030, to choose the members by June 1. Thus, the County would begin incurring costs for the mandated activities under the next redistricting process by choosing the CRC in fiscal year 2029-2030. No costs are reimbursable between the issuance of the first final report, and the creation of the next CRC in fiscal year 2029-2030.

## Methodology

### ***A. Initial Reimbursement Period Cost Estimate:***

The statewide cost estimate for the initial reimbursement period totals **\$965,114 - \$1,067,809**.

**Activity A.1.:** Activity A.1. consists of one-time training for each CRC member on the Rosenberg Rules of Order and format of public hearings, and the ethics requirements of CRC members. The costs for Activity A.1. are the costs actually claimed for that activity: \$0.

**Activity B.1.a.:** Activity B.1.a. consists of creating a CRC no later than December 31, 2020, and in each year ending in the number zero thereafter. The high end of the costs for Activity B.1.a. are the costs actually claimed for that activity. The low end assumes an audit by the Controller disallows costs for denied activities: \$190,173 - \$195,572.

**Activity B.1.b.:** Activity B.1.b. consists of the elections official reviewing the applications and eliminating applicants who do not meet the specified qualifications. Then, the elections official selects 60 of the most qualified applicants, publishes the list of qualified applicants for 30 days, and creates a subpool for each of the five existing supervisorial districts of the board. The costs for Activity B.1.b. are the costs actually claimed for that activity: \$18,066.

**Activity B.1.c.:** Activity B.1.c. consists of the Auditor-Controller, at a regularly scheduled meeting of the board of supervisors, conducting a random drawing to select one commissioner from each of the five subpools, then another random drawing from all of the remaining applicants to select three additional commissioners. The costs for Activity B.1.c. are the costs actually claimed for that activity: \$11,195.

**Activity B.1.d.:** Activity B.1.d. consists of the board of supervisors taking all steps necessary to ensure a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide to the public ready access to redistricting data and computer software equivalent to what is available to the CRC. The high end of the costs for Activity

<sup>40</sup> Exhibit X, LA County CRC Resolution Adopting a Redistricting Report, page 88.

B.1.d. are the costs actually claimed for that activity. The low end assumes an audit by the Controller disallows costs for denied activities: \$271,544 - \$362,379.

**Activity B.2.a.:** Activity B.2.a. consists of the eight commissioners selected by the Auditor-Controller reviewing the remaining names in the subpools of applicants and appointing six additional applicants to the CRC which includes the following activities:

- Designing a selection process,
- Conducting and tabulating surveys of CRC member evaluations of the applicants,
- Facilitating the CRC meetings to select the final six CRC members, and
- Selecting replacement commissioners for CRC members that resign.

The costs for Activity B.2.a. are the costs actually claimed for that activity: \$3,584.

**Activity B.2.b.:** Activity B.2.b. consists of the CRC conducting seven public hearings — over no fewer than 30 days and at least one in each supervisorial district — before drafting a map. The costs for Activity B.2.b. are the costs actually claimed for that activity: \$62,074.

**Activity B.2.c.:** Activity B.2.c. consists of the CRC posting the draft map for public comment on the website of the County of Los Angeles and conducting one public hearing on the draft map. The costs for Activity B.2.c. are the costs actually claimed for that activity: \$0.

**Activity B.2.d.:** Activity B.2.d. consists of the CRC establishing and making available to the public a calendar of the eight public hearings. The high end of costs for Activity B.2.d. are the costs actually claimed for that activity. The low end assumes an audit by the Controller disallows costs for denied activities: \$52,579 - \$54,780.

**Activity B.2.e.:** Activity B.2.e. consists of the CRC arranging for the live translation of a hearing in an applicable language (defined as “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to three percent of the total voting age residents of the county”) if a request for translation is made at least 24 hours before the hearing. The costs for Activity B.2.e. are the costs actually claimed for that activity: \$0.

**Activity B.2.f.:** Activity B.2.f. consists of the CRC taking steps to encourage county residents to participate in the redistricting public review process, which includes:

- Develop and implement a Public Outreach Plan to increase public participation.
- Provide information through media, social media, and public service announcements.
- Coordinate with community organizations.
- Post information on the Internet Web site of the County of Los Angeles that explains the redistricting process and includes a notice of each public hearing and the procedures for testifying during a hearing or submitting written testimony directly to the CRC.

The high end of the costs for Activity B.2.f. are the costs actually claimed for that activity. The low end assumes an audit by the Controller disallows costs for denied activities: \$355,899 - \$360,159.

**Activity B.2.g.:** Activity B.2.g. consists of the CRC issuing a report that explains the basis on which the CRC made its decisions in achieving compliance with the redistricting criteria required to comply with the Voting Rights Act. The costs for Activity B.2.g. are the costs actually claimed for that activity: \$0.

**Indirect Costs:** The indirect costs actually claimed are \$0.

**Offsetting Revenues:** The total offsetting revenues actually claimed are \$0.

**Late Filing Penalties:** The penalties are \$0 because the initial claims were not assessed a late filing penalty.

***B. No Costs Are Projected for Fiscal Year 2021-2022:***

As noted above, the test claim statute requires the County to create, staff, and fund a CRC at the time of each federal census to address the redistricting of the supervisorial districts of the County. The current CRC has fulfilled its mission and has issued its report. The next federal census will be in 2030 at which time the members of the new CRC will be chosen. Thus, the County will not incur reimbursable costs until fiscal year 2029-2030. Accordingly, the Commission projects no costs to the State in fiscal year 2021-2022 and then costs similar to those in this estimate, plus the implicit price deflator, for the 2029-2030 and 2030-2031 fiscal years.

**Draft Proposed Statewide Cost Estimate**

On December 9, 2022, Commission staff issued the Draft Proposed Statewide Cost Estimate.<sup>41</sup>

**Staff Recommendation**

Staff recommends that the Commission adopt this Statewide Cost Estimate of \$965,114 - \$1,067,809 for the Initial Claim Period (Fiscal Years 2018-2019, 2019-2020, and 2020-2021) and \$0 for fiscal year 2021-2022. Staff also estimates \$0 in reimbursable costs for fiscal years 2022-2023 through 2028-2029. Then, staff estimates that the county will next incur reimbursable costs totaling \$965,114 - \$1,067,809 plus the implicit price deflator for fiscal years 2029-2030 and 2030-2031 combined, for the next round of redistricting.

# 2021 MEETINGS AND HEARINGS

Effective December 28, 2020, the CRC had its full complement of 14 Commissioners to begin its work with the necessary quorum to meet, starting in 2021. The 14 Commissioners are necessary to establish a quorum of 9 members and conduct the business of the Commission; in addition, 9 “yes” votes are necessary to pass any action.

## PUBLIC COMMENT

You may provide live public comments on the day of the meeting, workshop, or public hearing. You may also provide written public comments for meetings and public hearings through the [General Public Comment Form](#).

[<https://publiccomment.redistricting.lacounty.gov/>]

Written public comments submitted by 5:00 PM (PST) the day **before** a scheduled regular meeting, workshop, or public hearing will be posted to the Los Angeles County Citizen Redistricting Commission website and available to the Commissioners before the meeting. Written public comments submitted **after** this 5:00 PM (PST) deadline will be uploaded to the website after the meeting. *For special meetings scheduled at different times, written public comments submitted at least 26 hours before the start time will be posted to the Los Angeles County Citizen Redistricting Commission website and available to the Commissioners before the meeting. Written public comments submitted less than 26 hours before the start time, including during the special meeting, will be posted after the meeting.*

You may still submit communities of interest input even after public hearings. **The suggested deadline to submit communities of interest input is September 30, 2021.** Though the Los Angeles Citizens Redistricting Commission will accept public input through the date it adopts final maps, submitting communities of interest comments by this date will ensure they are received and reviewed before the Commission begins its map drawing process.

Final Report  
December 15, 2021

# LOS ANGELES COUNTY REDISTRICTING 2021

December 15, 2021

On behalf of the inaugural County of Los Angeles Citizens Redistricting Commission (LA County CRC), our staff, and the many people and organizations who took part in this process, we are pleased to present our final report on the 2021 Los Angeles County supervisorial redistricting process and maps.

We are the first redistricting body to draw new supervisorial district maps for Los Angeles County in a process that is completely independent of the Board of Supervisors (BOS). As such, the 14 members of the CRC were selected without input from the BOS. Our final map cannot be altered or rejected by the elected Supervisors. The Commission reflects a fair representation of the County's demographic diversity, based on race, ethnicity, gender, age, and political party. There were multiple Commissioners from each of the existing supervisorial districts and we reasonably represented most areas of our vast County. Despite our varying backgrounds, the Commissioners were united in our commitment to serve the County's population as we began our collective journey on January 13, 2021.

Among our first orders of business were to adopt bylaws and core values by which to govern ourselves. We created Ad Hoc Working Groups to focus on key issues, which evolved and changed as we dove deeper into the redistricting process. Our early efforts focused on public outreach and education for ourselves and the communities. We provided numerous presentations to a variety of organizations. We also relied on the expertise of Commission-selected consultants in key critical areas, such as the Federal Voting Rights Act and demography.

Limited by the impact of COVID-19, our meetings and hearings were held virtually on Zoom and recorded for on-demand playback on YouTube. To try to bridge the digital divide, we also held in-person public hearings in every supervisorial district to gather testimony directly from residents of the County, making those hearings also available online in a hybrid manner. We also held a public hearing in the Spanish language, a first of its kind for the County.

# LOS ANGELES COUNTY REDISTRICTING 2021

Our accountability to the 10 million residents of Los Angeles County is to create maps that allow them to have fair representation and increase the likelihood that their needs would be recognized and addressed by their elected County representatives. Because the LA County CRC could draw only five districts with approximately two million residents each, this process was not easy. In conducting our work, the Commission leaned on its values of inclusion and equity while pursuing our mission with transparency and integrity.

We believe that as a Commission, we have done our best to address important but often conflicting public input. There were tradeoffs that had to be made, and we approached those tradeoffs judiciously. Any tweak to a proposed District had an impact on another part of the County. Fashioning a map that has to take into consideration the needs of 88 cities, 122 unincorporated communities, more than 100 Los Angeles City neighborhoods, and dozens of Communities of Interest (COIs) identified during public hearings was truly daunting. But it also presented a unique opportunity and challenge that this independent Commission relished.

As with any complex journey of this magnitude, we experienced serious and unanticipated issues along the way. The long delay of the release by the U.S. Bureau of the Census of its 2020 census data, issues with the mapping software, and other challenges required the Commission to be nimble. These challenges significantly truncated our timeline for developing maps.

We thank the Commissioners and staff for their dedication and willingness to meet almost daily in the final two weeks to complete our mission by the December 15, 2021, statutory deadline.

We hereby submit the Commission's final map and accompanying final report documenting in detail this unique endeavor. It has been a great privilege for us to serve as Co-Chairs of this first-ever County of Los Angeles Citizens Redistricting Commission.

Sincerely,

Daniel Mark Mayeda, Co-Chair

## A.1 – OVERVIEW

In 2016, the California Legislature passed [Senate Bill 958](#), requiring the County of Los Angeles to assemble the Los Angeles County Citizens Redistricting Commission (LA County CRC) following the 2020 Federal Census. The LA County CRC's role is to establish the boundary lines of five single-member Supervisorial Districts (SDs) of the County of Los Angeles Board of Supervisors (BOS), following each Federal decennial Census.

The LA County CRC is to be independent from the influence of the BOS and reasonably representative of the County's diversity. As an independent commission, the LA County CRC's approved map is the final map and cannot be redrawn by the BOS.

This Final Report is pursuant to Elections Code Section 21534, subdivision (d)(4). This report is divided into three parts:

- **Part A (this part)** – provides an executive summary, presents the final supervisorial map, and shares lessons learned for future LA County CRCs
- **Part B: Year in Review** – documents the process, starting with the formation of the LA County CRC and how it was organized. It outlines public outreach efforts, community of interest (COI) Public Hearings during the summer, the mapping database and software, selection of mapping options for Public Hearings, and Public Hearings on the map options that led to the adoption of the final map.
- **Part C: Appendices** – presents additional background information and reports on the process, such as LA County CRC-approved documents (e.g., Public Outreach Plan, calendar); racially polarized voter (RPV) analysis performed; lists of the Census tracts and blocks assigned to each SD; and assigned staff support.

### REDISTRICTING CONTEXT

Los Angeles County is the most populous county in the United States with a population greater than 10 million people. It is home to 25% of California's population and has a population greater than 41 individual U.S. states. It is the largest non-state level government entity in the United States, and the third largest metropolitan economy in the world. It covers 4,000 square miles and consists of 88 cities and 122 unincorporated areas that include 10% of the County's population. The City of Los Angeles alone has 4 million people and is divided into 35 planning areas, 99 Neighborhood Councils, and 15 City Council Districts.

# LOS ANGELES COUNTY REDISTRICTING 2021

California is one of eight states that uses a non-partisan approach to redistricting. The California Citizens Redistricting Commission (California CRC) proved this approach could work in 2011 and implemented it again in 2021. The County of Los Angeles is one of at least 10 local jurisdictions in California using this approach for the first time in 2021 and is the largest county in the nation to adopt this independent approach at the local level. Thus, the LA County CRC's approach can serve as a model for other local and state jurisdictions in the coming years.

Population shifts over time may result in unequal district populations. Therefore, every 10 years, the district lines must be redrawn to make each SD reasonably even in population again, based on the latest Census data. In Los Angeles County for 2021, this requirement translates into about 2 million people per SD. Drawing the boundaries is called "redistricting."

## CHALLENGES

The difficulties and growing pains that come with 2021 being the first year a LA County CRC was created were only compounded by further challenges of historic proportion.

### 2020 Census Data Delays

Because of the COVID-19 pandemic, the U.S. Bureau of the Census (U.S. Census Bureau) conducted the 2020 Census online for the first time in U.S. history and could not conduct the usual in-person follow-up surveys to capture the current population count more accurately. Moreover, the COVID-19 pandemic caused the U.S. Census Bureau to extend the deadline to complete the Census survey to October 2020, which affected its timeline for delivering the Census data.

In December 2020, the U.S. Census Bureau reported that it would "*...continue to process the data collected and plan to deliver a complete and accurate state population count for apportionment in early 2021, as close to the statutory deadline as possible.*"<sup>1</sup> The U.S. Census Bureau added the caveats that the reporting schedule was not "static" and that "projected dates [were] fluid."

The U.S. Census Bureau did not release the 2020 Census data until August 2021, however. The late arrival of the Census data delayed much of the work of the LA County CRC, including delays with inputting the data into the County of Los Angeles software program. The County of Los Angeles finally uploaded this Census data into

<sup>1</sup> <https://www.Census.gov/newsroom/press-releases/2020/2020-Census-update-apportionment.html>

# LOS ANGELES COUNTY REDISTRICTING 2021

the mapping software so that the LA County CRC could train the public on the software and so the public could submit preliminary draft maps in August 2021.

## California Census Data Adjustments for In-State Incarcerated Individuals

Another first was the implementation of a new statute (Elec. Code § 21003) that requires Census data be adjusted for the in-state incarcerated population. Specifically, if incarcerated individuals were in-state residents before incarceration, they are to be counted based on their last known place of residence, and not in the location of their incarceration. The State did not release that adjustment – referred to as the Public Law (P.L) Census data – until September 20, 2021. In a typical decennial redistricting cycle, such data would have been released no later than 90 days following the release of the Census data, which is July 1 in a year in which the Census data is released on April 1. The deferred release, more than 11 weeks late, caused further delays in drafting potential redistricting maps.

Elections Code sections 21534, subdivision (d)(1) and 21508, subdivision (d)(3) required the LA County CRC to wait a minimum of one week after the Public Law Census data was released before it could release its own draft maps. Because of the delay in the release of the Census data, described next, this wait period was not possible.

## Mapping Software

Another first was the use of more user-friendly mapping software that was cloud-based and accessible electronically using a browser. This software allowed users to simply create a username and password and have access to both the free software and datasets required for redistricting purposes. A decade ago, this technology was not possible. Users would have had to have larger computers that could handle downloading the redistricting software and large data files. Typically, they would have had to have a background in Geographic Information Systems (GIS).

Instead, the cloud-based software permitted many more interested members of the public to participate in LA County CRC training workshops, view online training videos, and build their own redistricting maps without the need for sophisticated software or hardware. In total, 113 maps were submitted as of December 11, 2021, when the LA County CRC selected their Final Map, pending Formal Resolution.

The LA County CRC identified refinements and upgrades needed to the mapping software. By the time the Public Law Census data was uploaded into the upgraded software, the launch date of the official mapping software with the official datasets for redistricting purposes was October 7, 2021, leaving little time before the final map had to be submitted by December 15, 2021.

# LOS ANGELES COUNTY REDISTRICTING 2021

## COVID-19 Pandemic

The LA County CRC also had to perform its mission in the midst of the worst health pandemic in a century. On December 11, 2020, when the LA County CRC was being formed, Los Angeles County reported 20,671 cases in the prior 7 days. Residents were on edge about the potential spread of COVID-19.

Therefore, the COVID-19 pandemic required that the majority of LA County CRC meetings and Public Hearings be held virtually (i.e., access via the “Zoom”<sup>2</sup> webinar program). The LA County CRC held 56 meetings virtually, including 5 in a hybrid format where the public could attend either in person or virtually. Both the virtual and hybrid formats were “firsts” for any commission in County of Los Angeles history.

Exacerbating the challenges was that a number of the Commissioners, staff, and their family members contracted COVID-19. Moreover, the Commissioners had limited opportunities to interact with each other in person – an important factor in building working relationships and working efficiently.

Despite these challenges, the Commissioners soldiered on, working overtime with staff, and were able to meet their deadlines.

## Commissioner Workload

When the Commissioners applied to serve on the LA County CRC, they anticipated a 6-month process with possibly meeting twice a month. In addition to their career and family obligations, and stress associated with the COVID-19 pandemic, these dedicated Commissioners embarked on a 12-month process with many more meetings and Public Hearings than anticipated.

For example, between November 1, 2021, and December 12, 2021, approximately 1,676 individuals attended the 14 meetings/Public Hearings held via webinar while another 1,587 watched the Public Hearings and meetings on YouTube<sup>3</sup>, for a total of 3,263 viewers. The Commissioners and staff listened to 599 members of the public make oral presentations and reviewed 3,800 written comments submitted during that same period.

## Time Periods for Public Input and LA County CRC Deliberations

Based on the delay in the release of the Public Law 2020 Census data, both the public and the LA County CRC had a truncated timeline to submit and review official maps, using that official data. Despite the shortened

timeline, the public submitted 31 official maps between October 7, 2021, and October 28, 2021. The LA County CRC identified four map options for the initial Public Hearings by October 28, 2021.

The public continued to submit maps and refinements to the map options during the Public Hearings that started on November 7, 2021. Before the final map was adopted, the LA County CRC had reviewed 113 maps and promoted 18 maps for public input at Public Hearings and subsequent regular and special meetings.

Finally, the LA County CRC had a short timeframe after the last Public Hearing on December 7, 2021, to submit the final map by December 15, 2021.

## **Public Interest in County Supervisorial Redistricting Overshadowed by Other Redistricting Efforts**

The level of public engagement was not as robust as desired. Residents were confused by redistricting efforts being conducted by various jurisdictions. Within Los Angeles County during 2021, there were four major, concurrent redistricting commissions operating: the City of Los Angeles, Los Angeles Unified School District, the City of Long Beach, and the BOS. Simultaneously, the California CRC was focused on its statewide redistricting efforts, which included drawing districts within Los Angeles County for the U.S. Congress, California State Senate, and California State Assembly. Simultaneously, other smaller cities in Los Angeles County (e.g., Bellflower and Downey) were performing their own redistricting.

As a result, residents who were aware of the importance of redistricting had to set priorities regarding on which redistricting process to focus. In addition, the LA County CRC routinely received comments meant for the City of Los Angeles redistricting boundaries for the City Council Districts. Staff took the time to help redirect such members of the public to the right venue so they could make their voices heard.

Despite the importance of the SDs to the residents of Los Angeles County, supervisorial redistricting often took second place to local City Council Districts. Specific community-based organizations (CBOs) were intimately involved throughout the process. Their staff and stakeholders attended meetings, gave public testimony, and monitored the work of the LA County CRC to ensure transparency. Some also submitted maps.

The non-independent commissions garnered significant media attention because of some of the controversial steps in their process. For example, the City of Los Angeles redistricting efforts were performed by an advisory and non-independent commission. This commission had high turnover, received considerable public input (and outrage), and became even more politicized when the Los Angeles City Council rejected the commission's maps and decided to appoint its own ad hoc redistricting committee to redraw the Los Angeles City Council Districts, which they approved on December 8, 2021.

# LOS ANGELES COUNTY REDISTRICTING 2021

In light of that media attention, the LA County CRC was not in the limelight, but nevertheless conducted its work in a transparent way. Moreover, the LA County CRC worked hard to ensure the lines were drawn to keep COIs together.

## MAJOR COMMISSIONER WORK EFFORTS

### Public Engagement Process

Despite these challenges, extensive public input led to the adoption of the Final Map. The unpaid Commissioners devoted hundreds of hours to the redistricting efforts, which entailed:

- 56 regular and special meetings and Commissioner workshops, including 16 Public Hearings and 1 press conference ([see website for meetings](#))
- 9 Ad Hoc Working Groups working on various issues, involving public outreach, Bylaws and values development, and selection of a replacement Commissioner (see Part B, Chapter B.2, that describes the Ad Hoc Working Groups' charters and memberships)
- 12 COI Public Hearings, exceeding the minimum of 7 required COI Public Hearings by more than 60%
- 4 Public Hearings to review map options, doubling the minimum of the 2 statutorily required Public Hearings (does not include time preparing and reviewing public input for the Public Hearings)
- Dozens of workshops and presentations made
- Hundreds of pages of written public comment read, including:
  - Many hours of public oral comments from LA County CRC meetings
  - Thousands of written public comments, emails, and letters submitted throughout the year on agenda items or as general comments
  - Formal written letters from CBOs, Chambers of Commerce, governments (e.g., city councils, Councils of Governments (COGs)), and others
- Review of 113 Official District Draft Maps submitted after October 28th, 2021, and using the datasets uploaded to the mapping software with the official Public Law Census datasets

### COI Maps

A COI is a contiguous population that shares common social and economic interests that should be included within a single district for purposes of its effective and fair representation. COIs shall not include relationships with political parties, incumbents, or political candidates.

# LOS ANGELES COUNTY REDISTRICTING 2021

After completing 12 COI Public Hearings between June and September 2021, the LA County CRC developed three different maps that displayed COIs, based on public input to date. These COI map models were an effort to codify the major communities described during the 12 Public Hearings. Because the LA County CRC received conflicting viewpoints at times, three COI models were necessary. Appendix C.6 contains more details about the process for developing these COI models.

## Community of Interest (COI) Groupings: Models A, B, C

COI Model A: Presented on 10/13/21

COI Model B: Developed on 10/18/21

COI Model C: Developed on 10/18/21

These COI models were useful reference tools as the LA County CRC began to consider draft SD maps and make the final SD map selection.

### Subject Matter Experts and Staff Resources

KH Consulting Group (KH) was retained to provide support services for the LA County CRC, including an Executive Director, GIS/Technical support, media strategy, and contracting services for demographer, mapping, and RPV analysis.

The LA County CRC selected subcontractors for KH to retain to provide the following services:

- Subject matter experts in the Voting Rights Act of 1965 (VRA) and RPV analysis
- ARCBridge to provide mapping and demography services

The final SD map is described next in Chapter A.2.

# LOS ANGELES COUNTY **REDISTRICTING 2021**

## **A.2 – FINAL SUPERVISORIAL DISTRICT MAP**

The Commission adopted its final map on December 15, 2021, by Resolution No. 21-04. The final map had to provide for five Supervisorial Districts (SDs), reasonably equal in size or about 2 million people per SD. The Commission had no authority to change the number of SDs. Any such change would require voter approval in the future.

### **REDISTRICTING CRITERIA**

This chapter explains how the Commission achieved compliance with the criteria specified in Elections Code section 21534, subdivisions (a) and (b). The LA County CRC used the following criteria in order of priority:

1. Districts shall comply with the United States Constitution and each district shall have a reasonably equal total population with other districts except where deviation is required to comply with the federal Voting Rights Act of 1965.
2. Districts shall comply with the federal Voting Rights Act of 1965 (52 U.S.C. § 10101 et seq.).
3. Districts shall be geographically contiguous.
4. The geographic integrity of any city, local neighborhood, or local community of interest shall be respected in a manner that minimizes its division to the extent possible without violating the requirements of paragraphs (1) to (3), inclusive. A community of interest is a contiguous population that shares common social and economic interests that should be included within a single district for purposes of its effective and fair representation. Communities of interest shall not include relationships with political parties, incumbents, or political candidates.
5. To the extent practicable, and where it does not conflict with paragraphs (1) to (4), districts shall be drawn to encourage geographical compactness such that nearby areas of population are not bypassed for more distant areas of population.

Additionally, the place of residence of any incumbent or political candidate shall not be considered in the creation of a map. And districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party.

### **FINAL MAP**

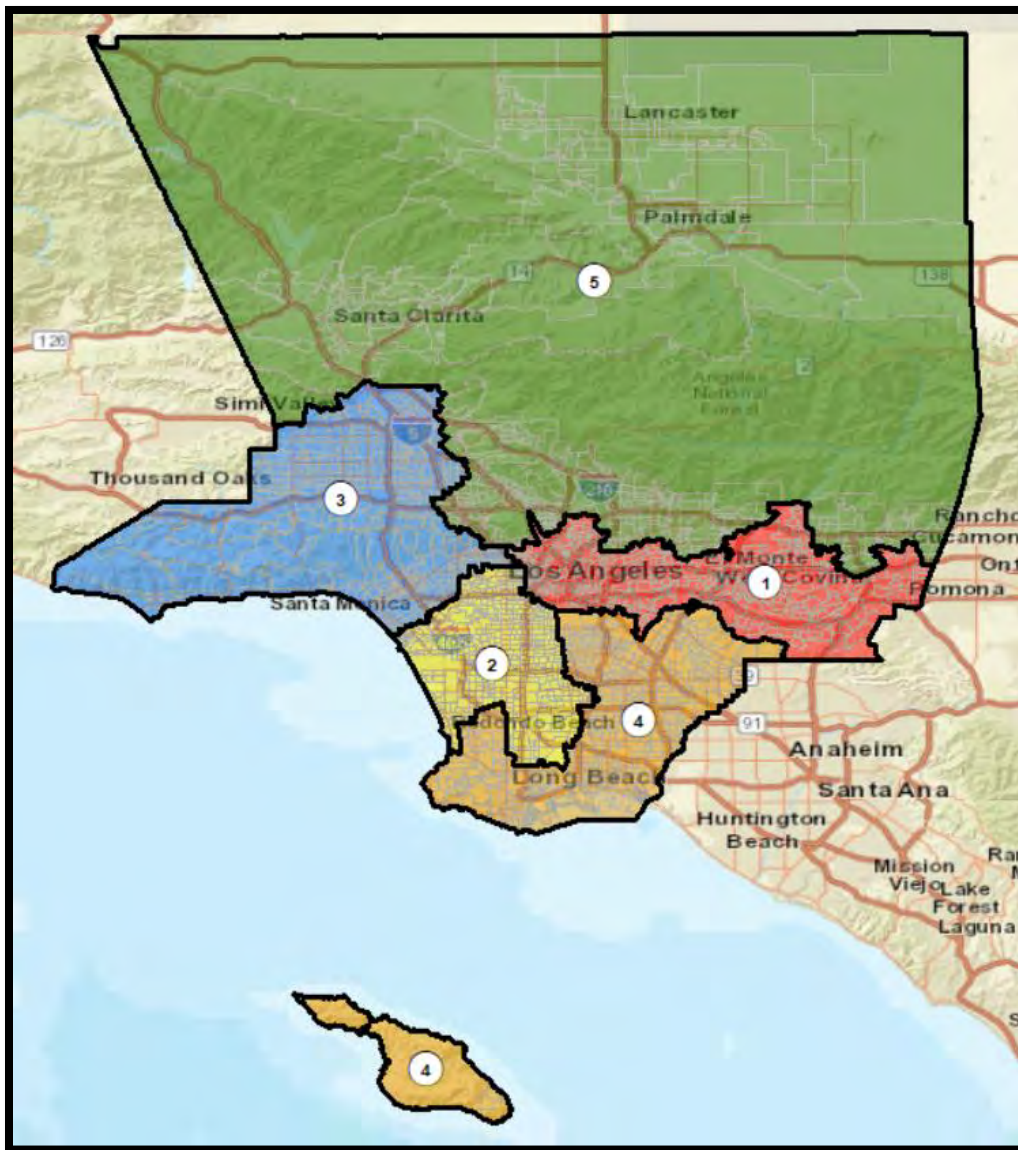

Based on such criteria, the Commission adopted the following final map:

# LOS ANGELES COUNTY REDISTRICTING 2021

The map is based on the GIS shapefile approved by the Commission, which can be found on the Commission's website at [https://redistricting.lacounty.gov/final\\_map\\_and\\_submissions/](https://redistricting.lacounty.gov/final_map_and_submissions/).

NOTE: If there are any discrepancies between the GIS shapefile approved by the Commission and this Report, the GIS shapefile controls.

## Reasonably Equal Population

The LA County CRC established five SDs reasonably equal in total population, with a total deviation between the highest and lowest population districts of 9.32% (maximum deviation). Table A.2-1 displays the deviation, by SD.

## Constitutional and VRA Compliance

Before drawing any maps, the Commission retained experts to conduct an analysis of racially polarized voting in County of Los Angeles supervisorial elections. In summary, the analysis revealed no legally cognizable racially polarized voting in supervisorial elections. The full report of such analysis is included in Appendix C.9

Additionally, the Commissioner's VRA subject matter expert analyzed the final map, including SD1, and concluded it complied with constitutional requirements and did not violate the VRA. The full report of such analysis is included in Appendix C.10.

## Geographic Contiguity

All five SDs are geographically contiguous. No territory is interrupted by other land or water, except for Santa Catalina Island and San Clemente Island in SD 4. Santa Catalina is connected to Los Angeles County by ferry lines via San Pedro and Long Beach, both of which are in SD 4. San Clemente Island is owned and operated by the United States Navy and public access is restricted as a result. From its station on Santa Catalina Island, the Los Angeles County Sheriff's Department provides law enforcement services to San Clemente Island. Based on this connection, San Clemente is included in the same SD as Santa Catalina Island.

## Geographic Integrity of Communities of Interest

### Geographic Units Used

As elaborated on further in Part B, Chapter B.5, the LA County CRC used two geographic devices to minimize the splitting of cities and unincorporated areas.

**Countywide Statistical Areas (CSAs).** The [Countywide Statistical Areas \(CSA\)](#) project was developed to provide a common geographic boundary for reporting departmental statistics for cities and unincorporated areas. The City of Los Angeles' neighborhoods were identified by the City of Los Angeles Bureau of Engineering. CSAs differ from the more informal "Community" geographies because:

- They represent geographies comprised of Census block groups split by cities.
- They must cover the entire unincorporated and incorporated areas of Los Angeles County.

# LOS ANGELES COUNTY REDISTRICTING 2021

- There can be no holes or overlapping areas.

The CSAs originally were created using Census Block Groups split by cities (e.g., "Split Block Groups") as a geographic building block. A [full listing of the 348 CSAs](#) is posted on the LA County CRC website. They include the 87 cities, 139 [CSAs within the City of Los Angeles](#), and the 122 unincorporated areas.

**Redistricting Data Units (RDUs).** The County developed and used RDUs for redistricting to:

- Reflect the administrative and governmental jurisdictions within the County
- Align with U.S. Census Bureau geographies, which is required to provide population figures for the redistricting process
- Bring clarity to city and unincorporated area boundaries

**RDUs** are primarily census tracts, split along city boundaries, from which data have been compiled for use in the redistricting software.

The tract, block group, block, and RDU geographies are nested. The totals for each level of geography add up to the total population of the County.

Census data Levels	Actual	Rounded
Blocks	91,626	92,000
Block Groups	6,591	6,600
Tracts	2,498	2,500
RDU at Block Group level with CSAs	7,029	7,000
RDU at Tract Level with CSAs	2,957	3,000
CSAs	348	350

## Split CSAs and Neighborhood Councils in Los Angeles City

Throughout the process, the Commission worked to minimize splitting communities of interest in the final map. The SD map drafted in 2011 split 25 CSAs, or about 7% of the 348 CSAs in the County and split 25 of the 99 neighborhood councils. The final adopted map improves over the base map and reduces the CSA splits to 11, or about 3% of all CSAs, and splits 17 Neighborhood Councils.

Table A.2-11: Number of Split Cities/CSAs and LA City Neighborhood Councils

Splits	County Statistical Areas (CSAs)		Los Angeles City Neighborhood Councils (NCs)	
	Number	Percent	Number	Percent
Total Number	348		99

# LOS ANGELES COUNTY REDISTRICTING 2021

Splits	County Statistical Areas (CSAs)		Los Angeles City Neighborhood Councils (NCs)	
Number Split in 2021	11	3%	17	17%

The Commission could not avoid splitting the City of Los Angeles, which contains a population of about 4 million, too many to include in one SD. As a result, the Commission placed the City of Los Angeles in multiple SDs, based on public testimony regarding communities of interest (COIs) and other factors including, but not limited to, geographic, demographic, socio-economic, cultural, and environmental factors to list but a few. CSAs within the City of Los Angeles that are split are described later, by SD.

The LA County CRC also evaluated the Final Map option against the COIs identified during the 12 COI Public Hearings held, described further in Part B, Chapter B.4. Because of conflicting viewpoints presented by the public during the Public Hearings, the Commissioners developed three COI models. In all three COI models, the 2021 Final Map outperforms the 2011 SD map.

Table A.2-12: Number of Split Cities/CSAs, LA City Neighborhood Councils, and COIs

COI Alignment	COI Model A		COI Model B		COI Model C	
	Number	Percent	Number	Percent	Number	Percent

2021 Not Aligned with COI Model	9	33%	8	30%	10	37%

## Geographic Compactness

Of the five criteria enumerated in Elections Code section 21534, subdivision (a), geographic compactness has the lowest priority. Geographic compactness is to be achieved “to the extent practicable” where it does not conflict with the first four criteria.

The Commission’s demographer evaluated submitted maps using the Polsby-Popper Compactness Score. The Polsby–Popper test is a widely used mathematical compactness measure of a geographic shape that measures the degree of compactness – or gerrymandering – of districts. A district's Polsby–Popper score will always fall within 0 to 1, with a score of 0 indicating complete lack of compactness and a score of 1 indicating maximum compactness. The supervisory map drafted in 2011 had three SDs with a score of at least .2. The Commission’s adopted map has three SDs with a score of at least .3 (SD 2, SD 3, and SD 5).

The Final Map achieves such compactness by not bypassing nearby populations to reach more distant areas of population, except where doing so conflicted with other, higher-priority criteria.

# LOS ANGELES COUNTY **REDISTRICTING 2021**

## **Incumbents/Candidates/Political Parties**

The Commission did not consider the residence of any incumbent or candidate in drawing SD 1. Nor did it draw any SDs for purposes of discriminating against or favoring an incumbent, candidate, or political party. For example, the Commission was not presented with any data regarding the political affiliation of registered voters in any proposed SD. Similarly, the Commission neither asked for nor was presented with any maps depicting the residences of incumbents or candidates. At no point during any of the Commissioners' deliberations did they discuss the residences of incumbents other than to note that such consideration was prohibited by the Elections Code. At no point during any of the Commissioners' deliberations did they discuss discriminating against or favoring an incumbent, candidate, or political party other than to note that the Elections Code prohibited such considerations in drafting the map.

Unincorporated - Northeast San Gabriel	1	19.80%	5	80.20%

Note: The only RDU split is RDU0529, which is split in SD 1 and SD 3. It has 2 blocks in Census tract 190510 – Block number 1000 and 1003. The area is bounded by N. Serrano Avenue on the right, West Sunset Boulevard on the south, North Western Avenue on the left, and Hollywood Boulevard on the north.

That portion of the City of La Verne south of Bonita Avenue, which is nearest to and most impacted by the Fairplex, was assigned to SD 1 to keep it with the remainder of the Fairplex complex in a single SD. The reason for the split was based on the public's input that one supervisor should represent the Fairplex. The portion of the City of La Verne was added because of traffic problems affecting the nearby residences and businesses. In this way, a single supervisor could address those concerns as well.

Almost all of the Hollywood neighborhood in the City of Los Angeles is in SD 3, with only a small portion of the neighborhood on its eastern border that is part of historic Thai Town placed in SD 1 to keep historic Thai Town mostly whole.

The Los Angeles neighborhood of Pico-Union was split to keep two RDUs that are part of historic Koreatown in SD 2 to keep Koreatown whole. The portion that is north of West Pico Boulevard and west of South Hoover Street is assigned to SD 2. The remainder of Pico-Union is assigned to SD 1.

Unincorporated Northeast San Gabriel is actually two discontinuous areas labeled as Northeast San Gabriel North and Northeast San Gabriel South. That portion known as Northeast San Gabriel North is adjacent to San Marino, East Pasadena, Arcadia, and Temple City, all of which are in SD 5. For that reason, Northeast San Gabriel North is placed with them in SD 5. That portion known as Northeast San Gabriel South is placed in SD 1 with San Gabriel and Rosemead, its neighbors to the south and east.

The City of Whittier, assigned to SD 4, owns a portion of the Whittier Narrows, which is not contiguous with the City of Whittier or within its corporate boundaries. This Whittier Narrows area is assigned to SD 1 to keep it whole with the remainder of the Whittier Narrows complex in SD 1.

## Geographic Compactness

SD 1 achieves compactness by not bypassing nearby populations to reach more distant areas of population.

## Incumbents/Candidates/Political Parties

The Commission did not consider the residence of any incumbent or candidate in drawing SD 1. Nor did it draw SD 1 for purposes of discriminating against or favoring an incumbent, candidate, or political party. For

example, the Commission was not presented with any data regarding the political affiliation of registered voters in any proposed SD. Similarly, the Commission neither asked for nor was presented with any maps depicting the residences of incumbents or candidates. At no point during any of the Commissioners' deliberations did they discuss the residences of incumbents other than to note that such consideration was prohibited by the Elections Code. At no point during any of the Commissioners' deliberations did they discuss discriminating against or favoring an incumbent, candidate, or political party other than to note that the Elections Code prohibited such considerations in drafting the map.

## Constitutional and VRA Compliance

Before drawing any maps, the Commission retained experts to conduct an analysis of racially polarized voting in County of Los Angeles supervisorial elections. In summary, the analysis revealed no legally cognizable racially polarized voting in supervisorial elections. The full report of such analysis is included in Appendix C.9

Additionally, the Commissioner’s VRA subject matter expert analyzed the final map, including SD1, and concluded it complied with constitutional requirements and did not violate the VRA. The full report of such analysis is included in Appendix C.10.

## Geographic Contiguity

The portion that is north of West Pico Boulevard and west of South Hoover Street is assigned to SD 2. The remainder of Pico-Union is assigned to SD 1.

The initial Map F, submitted by the People’s Bloc, included the Los Angeles County Museum of Art as part of SD 2. Considerable public testimony was provided in support of the northern extension of SD 2. As a result:

- The City of Los Angeles neighborhood of Crestview was divided along La Cienega Boulevard. The portion east of La Cienega was assigned to SD 2 and the part west of La Cienega was assigned to SD 3.
- The City of Los Angeles neighborhood of South Carthay was divided along La Cienega Boulevard. The portion east of La Cienega was assigned to SD 2 and the part west of La Cienega was assigned to SD 3.

# LOS ANGELES COUNTY REDISTRICTING 2021

The City of Los Angeles neighborhood of Venice was divided so that the southeastern portion of the neighborhood nearest the Ballona Wetlands was kept whole with the Ballona Wetlands area in SD 2. The remaining portion of Venice was assigned to SD 3 to remain with its neighboring beach city to the north, Santa Monica.

## Geographic Compactness

SD 2 achieves compactness by not bypassing nearby populations to reach more distant areas of population.

Almost all of the Hollywood neighborhood in the City of Los Angeles is in SD 3, with only a small portion of the neighborhood on its eastern border that is part of historic Thai Town placed in SD 1 to keep historic Thai Town mostly whole.

The Commissioners evaluated various economic “engines” within proposed districts when evaluating map options. An outgrowth of that discussion was an interest in grouping communities with significant entertainment industry activity together so that more of the entertainment industry could be combined into a supervisorial district. In creating such a district, the following geographic alignments were made:

- The City of Los Angeles neighborhood of Hollywood Hills was divided along the Mulholland Drive and Outpost Drive. The area southwest of Mulholland Drive and west of Outpost Drive is assigned to SD 3. The area east of Mulholland Drive and Outpost Drive is assigned to SD 5 alongside neighboring Universal City, Burbank, and Studio City.
- The City of Los Angeles neighborhood of North Hollywood was divided with its southeastern portion assigned to SD 5 to be kept with other areas with entertainment industry activity such as Universal City, the part of Studio City containing the CBS Radford lot, and Burbank. The northwest portion was assigned to SD 3.
- A small portion of the City of Los Angeles neighborhood of Sherman Oaks is assigned to SD 5 to be kept with other areas with active entertainment industry activity, including such as portions of North

Hollywood, the part of Studio City containing the CBS Radford lot, and Burbank. The portion assigned to SD 5 is bounded on the north by Riverside Drive, on the south by Moorpark Street, on the east by Laurel Canyon Boulevard, and on the west by Whitsett Avenue. The remainder of Sherman Oaks is assigned to SD 3.

- The City of Los Angeles neighborhood of Studio City is divided along Laurel Canyon Boulevard. The portion east of Laurel Canyon Boulevard is assigned to SD 5 to be kept with other areas with active entertainment industry activity such as Universal City, portions of North Hollywood, and Burbank. The portion west of Laurel Canyon Boulevard is assigned to SD 3.

The City of Los Angeles neighborhood of Sun Valley was divided such that most of its area west of San Fernando Road is assigned to SD 5. The Commissioner received repeated public input from the foothill communities, abutting the Verdugo Mountains, Angeles National Forest, and Big Tujunga Wash, including Lake View Terrace, Shadow Hills, and La Tuna Canyon. They shared interests in horse-keeping in an agrarian setting and had worked to develop mitigation and response plans for fire protection and flood evacuation. The area generally west of San Fernando Road is assigned to SD 3 to be kept with the neighboring communities of interest of Pacoima and San Fernando.

The City of Los Angeles neighborhood of Venice was divided so that the southeastern portion of the neighborhood nearest the Ballona Wetlands was kept whole with the Ballona Wetlands area in SD 2. The remaining portion of Venice was assigned to SD 3 to remain with its neighboring beach city to the north, Santa Monica.

## Geographic Compactness

SD 3 achieves compactness by not bypassing nearby populations to reach more distant areas of population.

## Incumbents/Candidates/Political Parties

The Commission did not consider the residence of any incumbent or candidate in drawing SD 3. Nor did it draw SD 3 for purposes of discriminating against or favoring an incumbent, candidate, or political party. ## Geographic Contiguity

Except for Santa Catalina Island and San Clemente Island, SD 4 is geographically contiguous as its territory is not interrupted by other land or water. Santa Catalina is connected to Los Angeles County by ferry lines via San Pedro and Long Beach, both of which are in SD 4. San Clemente Island is owned and operated by the United States Navy and public access is restricted as a result. Nor did it draw SD 4 for purposes of discriminating against or favoring an incumbent, candidate, or political party. For example, the Commission was not presented with any data regarding the political affiliation of registered voters in any proposed SD. Similarly, the Commission neither asked for nor was presented with any maps depicting the residences of incumbents or candidates. At no point during any of the Commissioners' deliberations did they discuss the residences of incumbents other than to note that such consideration was prohibited by the Elections Code. At no point during any of the Commissioners' deliberations did they discuss discriminating against or favoring an incumbent, candidate, or political party other than to note that the Elections Code prohibited such considerations in drafting the map.

## Supervisorial District 5

SD 5 is depicted in the map below:

## Population and Demographics

Table A.2-29 displays SD 5’s total population, VAP, and CVAP.

Table A.2-29: SD 5’s Racial Profile by Total Population, VAP, and CVAP

## Constitutional and VRA Compliance

Before drawing any maps, the Commission retained experts to conduct an analysis of racially polarized voting in County of Los Angeles supervisorial elections. In summary, the analysis revealed no legally cognizable racially polarized voting in supervisorial elections. The full report of such analysis is included in Appendix C.9

Additionally, the Commissioner’s VRA subject matter expert analyzed the final map, including SD1, and concluded it complied with constitutional requirements and did not violate the VRA. The full report of such analysis is included in Appendix C.10.

## Geographic Contiguity

SD 5 is geographically contiguous as its territory is not interrupted by other land or water.

## Geographic Integrity of Communities of Interest

Table A.2-30 lists the incorporated cities and the neighborhoods of the City of Los Angeles that are assigned to SD 5 and kept whole.

That portion of the City of La Verne south of Bonita Avenue, which is nearest to and most impacted by the Fairplex, was assigned to SD 1 to keep it with the remainder of the Fairplex complex in a single SD. The reason for the split was based on the public's input that one supervisor should represent the Fairplex. The portion of the City of La Verne was added because of traffic problems affecting the nearby residences and businesses. In this way, a single supervisor could address those concerns as well.

# LOS ANGELES COUNTY REDISTRICTING 2021

Unincorporated Northeast San Gabriel is actually two discontinuous areas labeled as Northeast San Gabriel North and Northeast San Gabriel South. That portion known as Northeast San Gabriel North is adjacent to San Marino, East Pasadena, Arcadia, and Temple City, all of which are in SD 5. For that reason, Northeast San Gabriel North is placed with them in SD 5. That portion known as Northeast San Gabriel South is placed in SD 1 with San Gabriel and Rosemead, its neighbors to the south and east.

The Commissioners evaluated various economic “engines” within proposed districts when evaluating map options. An outgrowth of that discussion was an interest in grouping communities with significant entertainment industry activity together so that more of the entertainment industry could be combined into a supervisorial district. In creating such a district, the following geographic alignments were made:

- The City of Los Angeles neighborhood of Hollywood Hills was divided along the Mulholland Drive and Outpost Drive. The area southwest of Mulholland Drive and west of Outpost Drive is assigned to SD 3. The area east of Mulholland Drive and Outpost Drive is assigned to SD 5 alongside neighboring Universal City, Burbank, and Studio City.
- The City of Los Angeles neighborhood of North Hollywood was divided with its southeastern portion assigned to SD 5 to be kept with other areas with active entertainment industry activity such as Universal City, the part of Studio City containing the CBS Radford lot, and Burbank. The northwest portion was assigned to SD 3.
- A small portion of the City of Los Angeles neighborhood of Sherman Oaks is assigned to SD 5 to be kept with other areas with active entertainment industry activity, including such as portions of North Hollywood, the part of Studio City containing the CBS Radford lot, and Burbank. The portion assigned to SD 5 is bounded on the north by Riverside Drive, on the south by Moorpark Street, on the east by Laurel Canyon Boulevard, and on the west by Whitsett Avenue. The remainder of Sherman Oaks is assigned to SD 3.
- The City of Los Angeles neighborhood of Studio City is divided along Laurel Canyon Boulevard. The portion east of Laurel Canyon Boulevard is assigned to SD 5 to be kept with other areas with active entertainment industry activity such as Universal City, portions of North Hollywood, and Burbank. The portion west of Laurel Canyon Boulevard is assigned to SD 3.

The City of Los Angeles neighborhood of Sun Valley was divided such that most of its area west of San Fernando Road is assigned to SD 5. The Commissioner received repeated public input from the foothill communities, abutting the Verdugo Mountains, Angeles National Forest, and Big Tujunga Wash, including Lake View Terrace, Shadow Hills, and La Tuna Canyon. They shared interests in horse-keeping in an agrarian setting and had worked to develop mitigation and response plans for fire protection and flood evacuation. The area

# LOS ANGELES COUNTY REDISTRICTING 2021

generally west of San Fernando Road is assigned to SD 3 to be kept with the neighboring communities of interest of Pacoima and San Fernando.

## Geographic Compactness

SD 5 achieves compactness by not bypassing nearby populations to reach more distant areas of population.

## Incumbents/Candidates/Political Parties

The Commission did not consider the residence of any incumbent or candidate in drawing SD 5. Nor did it draw SD 5 for purposes of discriminating against or favoring an incumbent, candidate, or political party. For example, the Commission was not presented with any data regarding the political affiliation of registered voters in any proposed SD. Similarly, the Commission neither asked for nor was presented with any maps depicting the residences of incumbents or candidates. At no point during any of the Commissioners' deliberations did they discuss the residences of incumbents other than to note that such consideration was prohibited by the Elections Code. At no point during any of the Commissioners' deliberations did they discuss discriminating against or favoring an incumbent, candidate, or political party other than to note that the Elections Code prohibited such considerations in drafting the map.

## A.3 – LESSONS LEARNED

Los Angeles County is large, complex, and diverse, and has a greater population than most U.S. states. It is the hope that the LA County CRC can serve as a role model for future independent redistricting commissions by demonstrating that citizens can successfully redistrict the five Supervisorial Districts (SDs) of Los Angeles County. The LA County CRC hopes that the success can lay the groundwork for independent redistricting to become the prevailing practice throughout the country, not just California.

The LA County CRC was successful despite the COVID-19 pandemic and Census data delays, pioneering new ways of performing redistricting analysis, including new technologies. The LA County CRC had to adjust to virtual and hybrid meeting formats, interpret new State legislation with little guidelines, and develop new protocols for implementing redistricting efforts. The LA County CRC humbly proffer some lessons learned, which are presented in two groupings:

- Lessons learned for future LA County CRCs or other redistricting commissions
- Lessons learned for the County of Los Angeles governmental agencies

### Lessons Learned for Future LA County CRCs

#### ***Lesson 1. Future LA County CRCs should retain subject matter expertise for performing RPV analysis.***

The LA County CRC retained expertise early in the SD mapping process to perform RPV analysis to establish a baseline assessment of the current SDs and review the SD final map before it was adopted. Future LA County CRCs should continue this practice.

#### ***Lesson 2. Future LA County CRCs should modify the public COI input format by asking the public to define the geographic areas before describing the nature of the COIs. They should also explore new surveying techniques to gather more quantitative data on COIs.***

The LA County CRC used COI questions that the California CRC used in 2011 and 2021 for consistency. The LA County CRC too often found that residents went to great lengths to describe the social, culture, and economic aspects of their COIs – both in writing and oral public comments – but dedicated little time to precisely defining the geographic locations of their COI.

On the basis of these LA County CRC's experiences, these requests should be reordered and consolidated as follows:

# LOS ANGELES COUNTY REDISTRICTING 2021

- Clearly describe the geographic location of the COI being described (city names, streets bordering it, significant locations in the neighborhood, etc.)
- List the other COIs that are most similar to your COI and with which you would like to be in the same SD with; explain why or why not
- Describe the resources (e.g., universities, fairgrounds, ports, airports, commercial areas, parks) that your COI shares with the COIs that are similar
- List the nearby COIs that are most dissimilar to your COI and that you would prefer not to be in the same SD with; explain why or why not
- Describe your COI, including:
  - a. The economic and social interests that bind your COI together
  - b. Why your COI should be kept together for fair and effective representation
  - c. How your COI comes together to advocate for important services, better schools, roads, or health centers in your neighborhood

In addition, during the coming years, new and better ways to collect quantitative data on COIs will become available. For example, some organizations are using geospatial mobility data to analyze interactions among people who live near each other at various times of the day. Researchers can then apply algorithms to define COIs. Future redistricting commissioners should explore this approach and others for gaining more robust COI information versus relying on the testimony of a small percent of the public who have the incentive and time to attend and speak.<sup>4</sup>

### *Lesson 3. Future LA County CRCs should revisit and update LA County CRC values and Bylaws.*

The LA County CRC created not only values, but also strong Bylaws by which to govern itself. Both were useful throughout the process regarding Commissioner conduct and adherence to both. The LA County CRC values are:

- **Accountability:** We are accountable to the process and each other to serve all the constituents of Los Angeles County.
- **Transparency:** We are committed to openness in all aspects of the redistricting process.
- **Objectivity:** We are careful, intentional, fair-minded, and impartial and will actively resist undue influence in establishing SD boundaries in an equitable manner.

<sup>4</sup> <https://electionlawblog.org/?p=126158>

# LOS ANGELES COUNTY REDISTRICTING 2021

- **Integrity:** We are honest, truthful, ethical, principled, respectful, and professional.
- **Inclusion & Equity:** We seek to create and foster a true sense of belonging and eliminate potential barriers by being purposeful, deliberate, and effective in comprehensive public outreach, engagement, and feedback.

The Bylaws were particularly useful and guided the LA County CRC on such issues as filling vacancies, communications, conduct, and meeting protocol (see Appendix C.1).

#### ***Lesson 4. Future LA County CRCs should implement a robust outreach and engagement plan, and strongly consider hiring an outreach and engagement coordinator/manager.***

The importance of outreach and engagement is inherent in the LA County CRC value of “Inclusion and Equity.” In addition, engagement underlies the entire redistricting process. A county-level commission of this importance should have more resources and County of Los Angeles support to:

- Implement a robust outreach plan
- Communicate the process and relevancy of redistricting to the public and key community organizations and groups
- Ensure outreach efforts are early and that ongoing contact with the public is sustained
- Launch a media campaign earlier in the process, starting with the COI Public Hearings
- Use social media texting to reach more individual residents

In February 2021, the LA County CRC approved an Outreach Plan, building on the approach for outreach developed during the 2020 Census. This approach focused on CBOs, cities and governmental agencies, and other organizations so that they would in turn reach out to their stakeholders.

In December 2020, at that start of the LA County CRC, there were 50 individuals who had signed up on the email distribution list. By December 2021, the distribution list had grown to 9,500 emails, still a small number given the population of Los Angeles County. Routine bulletins were sent out to these individuals and organizations, and the LA County CRC was reliant on them to spread the word. Some organizations did a better job than others.

The LA County CRC outreach efforts evolved into three phases. These phases should be integrated into the next Outreach Plan:

- **Phase 1.** In the beginning, the Commissioners must focus on education – what is redistricting and how it impacts communities.
- **Phase 2.** As organizations and community groups become increasingly interested in redistricting, they need to learn more about how to communicate and provide public input to the LA County CRC.

# LOS ANGELES COUNTY REDISTRICTING 2021

- Phase 3. A final phase should focus on community input and understanding of the mapping reiterative process. The community's understanding of how to stay current as the process and maps evolve is important.

An outreach plan should also go beyond simply using media and find ways that are effective in all five SDs, taking into consideration the diverse ethnic communities in Los Angeles County.

During 2021, most groups in the process represented business groups (e.g., chambers) or community-based alliances. A few of these groups developed and submitted their own maps, including the People's Bloc, a coalition of 27 CBOs. The LA County CRC observed that many organizations and individuals who might have an interest were not involved, possibly because they did not understand the importance of engagement or knew how to engage in the process.

To be most effective, future LA County CRCs should hire an outreach coordinator/manager to provide outreach to key communities, CBOs, and other groups to ensure more engagement throughout the redistricting process. Although Commissioners participated in a number of discussions and workshops, additional staff resources are needed. This staff position would be responsible for working directly with CBOs and other groups to coordinate presentations and support for workshops. The intended outcome is to increase engagement by helping more people understand the importance of SD redistricting and their role in the process.

The County of Los Angeles could help support this outreach effort further by routinely putting banners across its website about upcoming LA County CRC Public Hearings, reaching out to other cities to request that they promote residents to sign up, etc. The City of Los Angeles could also do more to help get the word out to its Neighborhood Councils through EmpowerLA.

## ***Lesson 5. Future LA County CRCs should continuously educate the public regarding the VRA and redistricting criteria.***

At the start of each COI Public Hearing, the LA County CRC provided a 10-minute overview of the redistricting process, including a summary of the VRA and redistricting mapping criteria. This overview was important because the public needed to understand the redistricting criteria for establishing SD boundaries. Repeating it was important because new people were attending each Public Hearing.

As time progressed and the LA County CRC began reviewing submitted maps, more members of the public became engaged. Many of these members of the public had not attended the COI Public Hearings and were not schooled in redistricting. As a result, many public comments were couched in racial terms with specified

# LOS ANGELES COUNTY REDISTRICTING 2021

racial targets, instead of COI descriptions. This situation drove home the need for ongoing education of the public about the redistricting criteria.

## ***Lesson 6. Future LA County CRCs should establish a process for discussing and refining map options before final map adoption.***

The LA County CRC was new and different approaches were tried in developing and discussing map options. Commissioners and staff reviewed the maps submitted by the public and other Commissioners. Commissioners submitted revised maps to capture modifications that they wanted to put before their colleagues and the public. When the LA County CRC was focused on one and only one map after Public Hearing No. 4, the Co-Chairs used a round robin approach where Commissioners described their suggested map modifications.

At the second to last meeting (December 12, 2021), the LA County CRC made modifications to the draft final map that were adopted by motions. Some Commissioners believe it would have been helpful to have clearly defined the process at the outset so that adequate discussions could take place. Moreover, more time should have been given for public comment on the modifications proposed; however, given the challenges with the timing of this redistricting year, such time had to be truncated.

Having an agreed upon process well in advance of the meeting to finalize the draft final map for submission as the final map, pending resolution, is important to ensure that all voices are heard.

## ***Lesson 7. The current LA County CRC should continue to meet to develop guidelines for future LA County CRCs.***

With hindsight and experience, the current LA County CRC should continue to meet and improve the redistricting process by incorporating lessons learned to develop a more effective and efficient redistricting process. These meetings can help the next and successive LA County CRCs to get a head start and move more effectively to implement their redistricting plans, while continuing to improve the redistricting process each time.

# LOS ANGELES COUNTY REDISTRICTING 2021

## Lessons Learned for the County of Los Angeles Departments

### ***Lesson 8. The County of Los Angeles should ensure the Commissioners have adequate staffing, budget, and technological support.***

#### Staffing Decisions

The County of Los Angeles and the LA County CRC should determine how to staff future LA County CRCs – either with County of Los Angeles staff, outside expertise selected by the County of Los Angeles, outside expertise selected by the Commissioners, or some combination of both, which was the case in 2021.

As background, the LA County CRC needed staff to get established – to develop Bylaws, prepare meeting agendas, coordinate training programs, prepare public outreach plans, etc. It would have been useful if the Commissioners had had greater input regarding the firms and individuals selected to staff the LA County CRC. That said, other CRCs in the State that solicited such input relied on county staff to get set up and took much longer to get established.

Prior to the formation of the LA County CRC, the County of Los Angeles decided not to staff the LA County CRC with County staff to reinforce its independence. County staff wanted to build an arms-length relationship between the LA County CRC and the County of Los Angeles. Therefore, the County of Los Angeles retained the services of two private firms:

- County of Los Angeles County Counsel retained Colantuono, Highsmith & Whatley, PC to provide legal services for the LA County CRC.
- The County of Los Angeles’s Executive Office used a master list of pre-approved consulting firms maintained by the Chief Executive Officer to retain the services of KH. KH responded to a Statement of Work (SOW).

Both firms were brought on in early December 2020 and informed that the full LA County CRC had to be put into place by December 31, 2021. This late start necessitated a compact schedule of 4 meetings with the 8 randomly selected Commissioners, including one on December 26 and 28, to select the other 6 Commissioners from the remaining 52 highly qualified applicants (see Chapter B.1 on the “Formation of Independent Commission” for details).

When the full LA County CRC met for the first time on January 13, 2021, an Agenda item was “Consent Under California Professional Rule of Responsibility No. 1.8.6 to Independent Legal Counsel’s Representation of the Commission” regarding approval of Holly O. Whatley, Esq., as the LA County CRC’s Independent Legal Counsel.

# LOS ANGELES COUNTY REDISTRICTING 2021

KH's President, Gayla Kraetsch Hartsough, Ph.D., presented her firm qualifications in February 2020, outlining the firm's work with performing management audits and performance reviews on behalf of various county and city agencies (e.g., County of Los Angeles Civil Grand Jury). Her team resources included:

- Gayla Kraetsch Hartsough as the Executive Director
- Thai V. Le for his Geographic Information System (GIS) and technical expertise (Note: The Commissioners later appointed him as the LA County CRC Clerk.)
- Carlos De Alba for marketing media strategy
- KH support staff

At that same meeting, the Project Manager from the Executive Office reviewed the budget with the LA County CRC Commissioners.

#### Additional Subject Matter Experts

The Commissioners reviewed the proposals and credentials of the other subject matter experts and had KH contract with them on their behalf, including:

- ARCBridge Consulting & Training Inc., Priti Mathur, Mapping and Demographic Analysis and ESRI Mapping Software Consulting Services
- Bruce Adelson, Esq., Federal Compliance Consulting LLC, for VRA expertise
- Dr. Jonathan N. Katz, California Institute of Technology, for RPV Analysis

#### Budget

KH established the budget, based on the SOW and requirements outlined in California Senate Bill 958. The actual work scope far exceeded the expectations outlined in the SOW – both in terms of time, frequency of meetings, number of Public Hearings, technical GIS support required of the Commissioners and public, and related matters. The staffing budget should have been greater and included an individual devoted to outreach, described in Lesson 4.

In addition, the \$100,000 media budget should have been increased significantly, given the highly competitive media market in Los Angeles County.

The County of Los Angeles developed a budget for providing internal support for the LA County CRC, including the website, mapping software, and email services, among other services. The email system was clunky for Commissioners to access and its use became burdensome. Consequently, emails were distributed via both their @crc.lacounty.gov email and personal emails for effective (but not efficient) communication. The County of Los Angeles should address this shortcoming.

# LOS ANGELES COUNTY REDISTRICTING 2021

## Technological Support

Some of the Commissioners struggled with the technology necessary to participate in webinars and analysis of maps. The County of Los Angeles should consider providing increased technology support to future LA County CRCs, including possibly the loan of County equipment, to enable Commissioners to participate fully. Moreover, efforts should be made to ensure Commissioners have adequate bandwidth to participate fully.

***Lesson 9. The County of Los Angeles should draw the names of the initial eight Commissioners earlier (in the year in which the decennial Federal Census is taken), especially if the Commissioners are to select their own Executive Director and/or Independent Legal Counsel***

Despite the challenges and limitations faced by the LA County CRC, the Commissioners successfully developed the SD map for 2021-2030. An earlier swearing in, however, is needed. If the Commissioners could be onboarded earlier, it would allow the time required to:

- Establish the new Commission
- Consider its selection of its Legal Counsel and Executive Director
- Receive additional critical training, elaborated on later in this lesson
- Evaluate consultants, including a demographer and a subject matter expert with knowledge of the VRA and RPV
- Schedule Public Hearings based on a reasonable timeline
- Review map options and hone the final map

## Earlier Swearing In and Selection of Legal Counsel and Executive Director

The County of Los Angeles should draw the names of the initial eight Commissioners no later than September 1 in the year in which the decennial federal Census is taken (e.g., for the 2031 redistricting cycle, by September 1, 2030). If the LA County CRC is to select its own Executive Director and/or independent Legal Counsel, then the County of Los Angeles should draw the names no later than June 1 (e.g., for the 2031 redistricting cycle, by June 1, 2030).

From the time the original eight names were drawn on November 24, 2020, the LA County CRC took approximately three full months to accomplish the initial tasks necessary for formation including, but not limited to, selection of the remaining six Commissioners; approval of Bylaws and values; selection of Co-Chairs; training on the Brown Act, conflict-of-interest laws, and Public Records Act; formation of Ad Hoc Working Groups to tackle discrete tasks.

This time, while necessary, deferred the LA County CRC's start on the core task of redistricting. The deadline should be no later than June 1 if the LA County CRC is permitted to select its Executive Director and Independent Legal Counsel. That process will likely entail preparation of a Request for Proposal (RFP),

# LOS ANGELES COUNTY REDISTRICTING 2021

evaluation of proposal responses, interviews with finalists, and negotiation of the contract. As a result, the process will increase the time required to establish a fully staffed and functioning LA County CRC by an estimated 90 to 120 days.

As it was, the County of Los Angeles retained the Independent Legal Counsel and Executive Director with her team of a GIS technical expert, marketing and media strategist, and support staff in early December 2021 with the mandate to convene the eight randomly selected Commissioners immediately so they could select the other six Commissioners by December 31, 2021.

#### Additional Training

Having an earlier swear-in date will enable Commissioners to receive additional critical training to:

- Understand Los Angeles County and COIs, including the many political jurisdictions and boundaries for cities, unincorporated areas, and communities within the City of Los Angeles, including Neighborhood Councils.
  - In addition, such training will increase the Commissioners' awareness of what it means to live in an unincorporated area versus a city in Los Angeles County.
- Understand the implications of changing district lines on COIs
- Interpret data (e.g., VAP, CVAP, and socio-economic, environmental, other demographics metrics).
- Understand the social determinants of health and health outcomes throughout Los Angeles County
- Build a knowledge base of the community assets in the various SDs

#### Additional Time for Analyzing Maps

This additional time will also be vital for reviewing map options and selecting the final SD map. The LA County CRC would have benefitted from more time to consider different map iterations before selecting a final SD map.

***Lesson 10. The Los Angeles County Registrar-Recorder/County Clerk (RR/CC) should inform Commissioner applicants about the time commitment and consider some form of compensation given the demands on their time.***

The RR/CC should make sure applicants understand the time commitment for serving as redistricting commissioners, as it is considerable. The LA County CRC Commissioners were dedicated and made the time, despite the added responsibilities of family, work, and health during the COVID-19 pandemic. A Commissioner should anticipate devoting between one to two days per month to redistricting. For this redistricting effort:

# LOS ANGELES COUNTY REDISTRICTING 2021

- During the first six months, Commissioners averaged two meetings per month, combined with Ad Hoc Working Group meetings in between. This effort equated to approximately one full working day per month.
- During the next three months, Commissioners dedicated approximately three hours for each of the 12 COI Public Hearings. Each of the Public Hearings required preparation time to review the agenda and public comments to submitted.
- During the last three months, Commissioners' workload increased as they reviewed the many maps submitted, conducted four additional Public Hearings, and met to hone the final map. The Commissioners' meetings lasted four or more hours and increased in frequency to meeting five times in the last week.

The County of Los Angeles should assess what other state redistricting commissions or grand juries are paid and develop plans to cover meeting time, mileage, and parking for meetings.

***Lesson 11. The County of Los Angeles should work with the redistricting mapping software vendor to develop software enhancements that meet the Commissioners' and public's needs well in advance of the redistricting process.***

The County of Los Angeles Internal Services Department (ISD) should issue a Request for Qualifications (RFQ) from multiple vendors to see what features are available. ISD should work with the selected vendor ahead of time to ensure the needed enhancements are built into the software well in advance of the redistricting process, including such important software features as:

- User-friendly software
- Multiple levels of user-sophistication options for the public, ranging from novice to sophisticated demographer (e.g., a simplified version without all of the bells-and-whistles, as well as a "pro" version with multiple data layers and capabilities)
- Improved visuals on par with other GIS maps (e.g., Google, Waze, MapQuest) that display streets, terrain, and landmarks with clarity
- Provision of software earlier in the process to work out kinks ahead of time
- The ability for users to start with either Census blocks or RDUs
  - The current software only allows one of the two options.
  - Moreover, while using RDUs as the basic geographic unit facilitates initial map drawing, the software should also include lower-level geographies, including Census blocks and tracks.

# LOS ANGELES COUNTY REDISTRICTING 2021

***Lesson 12. The County of Los Angeles should negotiate with the California Senate to modify the conflict-of-interest restrictions so that a broader pool of potential bidders who can provide mapping and consulting services.***

The California Senate Bill's conflict-of-interest provisions narrowed the pool of demographers who could bid on the mapping and demographic consulting services Request for Proposal (RFP), prepared by the LA County CRC. Although there were multiple qualified firms that could do the work, the LA County CRC only received three bids.

It is critical that the demographer have intimate knowledge of the communities in Los Angeles County, which is important for redistricting. Demographers need to understand the complexities of Los Angeles County's historic COIs, Neighborhood Councils, unincorporated areas, and geography and topography.

***Lesson 13. The County of Los Angeles should adopt new technological advancements for conducting hybrid public meetings.***

The County of Los Angeles and the LA County CRC should continue to adopt new technological advancements in conducting hybrid public meetings – an anticipated trend in the coming years. Hybrid meetings allow the public to attend either remotely (via webinar or other platforms) or in person.

Because of the COVID-19 pandemic, this LA County CRC pioneered new approaches out of necessity, including convening both virtual and hybrid meetings in compliance with the Brown Act, expanding access to meetings through multiple platforms and social media, and holding the first press conference in front of the Hall of Administration since the COVID-19 pandemic started in March 2020. Some future considerations are to:

- Adopt a hybrid meeting format which allows:
  - Individuals who cannot drive or do not want to drive to in-person meetings to still have access to meetings
  - Individuals to use their phones to call in and provide their public comments
  - Individuals to attend in person
  - Individuals and communities, who struggle with the digital barrier, to attend in person or at other sites
- Continue to record live meetings on YouTube or other similar channels because many individuals who could not attend the meetings later viewed the recorded meetings

# LOS ANGELES COUNTY REDISTRICTING 2021

- Select sites for the in-person/hybrid meetings in communities where there may have been substantial technological barriers to access the meetings virtually

## ***Lesson 14. The County of Los Angeles should approach the California Legislature to establish an integrated approach with shared software and databases across the State.***

During the redistricting process, LA County CRC staff became involved in forming a coalition of GIS redistricting experts from other California cities and counties who were experiencing similar challenges with the software. Together, they were able to resolve shared problems with the software vendor.

On a statewide level, the California Legislature should consider the development of an integrated database and common software for redistricting purposes across the State. In this way:

- It would be more cost-effective than having every city, county, school district, water district, and other governmental jurisdiction procure their own software, build databases, train the public in its use, etc.
- It would be easier for the public to learn one mapping tool for all California redistricting initiatives versus learning multiple GIS systems that are used frequently in the same geographic vicinity (e.g., most recently, redistricting efforts for the County of Los Angeles, City of Los Angeles, City of Long Beach, and Los Angeles Unified School District.)
- It might bring greater clarity about the differences among the various redistricting initiatives, many of which overlap.

## ***Lesson 15. The County of Los Angeles should explore a ballot measure and legislative changes to increase the number of Board of Supervisors***

Although beyond the scope of the LA County CRC, the Commissioners received frequent input regarding the size of the SDs and the benefits of increasing the number of County Supervisors. Editorials on this topic appeared in the media throughout the year.

The currently large SDs of two million residents are extremely heterogeneous. The concerns of smaller COIs are easily overwhelmed by the concerns of larger COIs. It is difficult to manage a SD of two million people, particularly given the diversity of Los Angeles County in terms of COIs, geography, and infrastructure. Members of the public indicated that they thought increasing the number of SDs would enable:

- Supervisors to be more responsive to their communities' needs
- Individual COIs to have greater opportunities to have their voices heard

# LOS ANGELES COUNTY REDISTRICTING 2021

## B.1 – FORMATION OF INDEPENDENT COMMISSION

### PAST PRACTICES

In the past, the BOS appointed an advisory Boundary Redistricting Committee (BRC) to study proposed changes to the Supervisorial District (SD) boundaries. The BOS could make revisions before adopting the final redistricted boundaries. The five SDs established in 2011 are displayed in the map.

### INDEPENDENT COMMISSION TODAY

Today, the LA County CRC is independent of the BOS. In 2016, the California Legislature passed Senate Bill 958 requiring the County of Los Angeles to assemble an independent citizens redistricting commission following the 2020 Federal Decennial Census.

Based on the U.S. Census Bureau 2020 population data and applicable legal requirements, the LA County CRC's responsibility is to define how the SDs will be drawn to account for population and demographic changes since the 2010 Census.

### Selection of the Commissioners

The selection of the LA County CRC Commissioners was a three-phased process:

# LOS ANGELES COUNTY REDISTRICTING 2021

## Phase 1. Applications to the Registrar-Recorder/County Clerk (RR/CC)

During 2020, the LA County CRC was in the process of being formed. The County of Los Angeles Registrar-Recorder/County Clerk (RR/CC) received 741 applications and identified 533 that were qualified (e.g., Los Angeles County residents and registered voters), which they then scored to establish a pool of 60 qualified applicants. The applications of these qualified applicants are available by candidates' first names at: [LA County CRC Applications](#)

## Phase 2. Auditor-Controller Random Drawing of the 8 Commissioners

The County of Los Angeles Auditor-Controller (Auditor-Controller) conducted a random drawing at the BOS' meeting on November 24, 2020, selecting one Commissioner from each of the five existing SDs and three Commissioners randomly drawn from the remaining 55 applicants. The following Commissioners were selected through this random drawing:

- Commissioner Jean Franklin
- Commissioner David Adam Holtzman
- Commissioner Daniel Mark Mayeda
- Commissioner Nelson Obregon
- Commissioner Priscilla Orpinela-Segura
- Commissioner Hailes Horacio Soto
- Commissioner Brian Mark Stecher, PhD
- Commissioner John Patrick Kevin Vento

## Phase 3. Selection of the Six Remaining Commissioners

The randomly selected eight Commissioners met at four posted special meetings during December 2020 to select the remaining six Commissioners from the remaining 52 most qualified applicants. The following Commissioners were selected through this process:

- Commissioner Mark Mendoza
- Commissioner Apolonio Morales
- Commissioner Saira Soto
- Commissioner Priya Sridharan
- Commissioner Carolyn Williams
- Commissioner Doreena Wong

Effective December 28, 2020, the CRC had its full complement of 14 Commissioners to begin its work with the necessary quorum to meet, starting in 2021.

Appendix C.2 contains the report on the [selection process](#) in 2020.

# LOS ANGELES COUNTY REDISTRICTING 2021

## Replacement of a Commissioner Who Resigned

In April 2021, Commissioner Priya Sridharan resigned. Commissioner Mary Kenney was selected to replace her in May 2021. Appendix C.3 outlines the process for making the selection of her replacement. The report is also available at: [LA County CRC Commissioner Replacement Process](#).

## COMMISSIONERS

The LA County CRC has two Co-Chairs – Daniel Mayeda and Carolyn Williams – approved by a quorum vote of the Commissioners. Their [biographies and emails](#) are posted on the LA County CRC website. The 14 Commissioners today are:

Commissioner Jean Franklin  
Commissioner David Holtzman  
Commissioner Mary Kenney  
Co-Chair Daniel Mayeda  
Commissioner Mark Mendoza  
Commissioner Apolonio Morales  
Commissioner Nelson Obregon

Commissioner Priscilla Orpinela-Segura  
Commissioner Hailes Soto  
Commissioner Saira Soto  
Commissioner Brian Stecher  
Commissioner John Vento  
Co-Chair Carolyn Williams  
Commissioner Doreena Wong

## B.2 – COMMISSION ORGANIZATION

### OATH OF OFFICE

The County of Los Angeles Executive Office led the swearing in ceremony for the Commissioners on January 13, 2021. Here is the Oath of Office they took:

*I, (state your name), during such times as I hold the office of the County of Los Angeles Citizens Redistricting Commission do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion and that I will well and faithfully discharge the duties upon which I am about to enter.*

### INITIAL TRAINING

During the January 2021 regular meetings, Holly O. Whatley, Esq., CRC Independent Legal Counsel, covered:

- Brown Act requirements
- Conflict of Interest
- Public Records Act (PRA)
- Requirement to complete AB 1234 Ethics training online within 60 days
- Election Code

### BYLAWS

The LA County CRC developed its bylaws during January and February 2021 and decided to follow [Rosenberg's Rules of Order](#). The [revised bylaws](#) were expanded to include social/interactive and non-interactive media on October 27, 2021. Resolutions passed, discussed later regarding virtual meetings, are also posted with the bylaws.

The Senate Bill 958 requires that the LA County CRC have a quorum of 9 members to conduct the business of the Commission; 9 members to vote on any official actions; and 9 “yes” votes to pass any action.

### VALUES

The Commission adopted the following values:

# LOS ANGELES COUNTY REDISTRICTING 2021

- **Accountability:** We are accountable to the process and each other to serve all the constituents of Los Angeles County.
- **Transparency:** We are committed to openness in all aspects of the redistricting process.
- **Objectivity:** We are careful, intentional, fair-minded, and impartial and will actively resist undue influence in establishing SD boundaries in an equitable manner.
- **Integrity:** We are honest, truthful, ethical, principled, respectful, and professional.
- **Inclusion & Equity:** We seek to create and foster a true sense of belonging and eliminate potential barriers by being purposeful, deliberate, and effective in comprehensive public outreach, engagement, and feedback.

## TIMELINE

Because of COVID-19, there was uncertainty regarding when the 2020 Census data would be released, so the target dates were in flux until May 2021 when the U.S. Census Bureau indicated it would release legacy data by mid-August 2021. Key milestones were:

Appendix C.4 contains the details of the [Calendar of the Year](#). The timeline was aggressive in light of:

- The delayed availability of the Census data
- The added delay in receiving the Census data adjusted for the incarcerated population on September 20, 2021
- The impact of COVID-19 restrictions and precautions necessarily throughout the redistricting process

The LA County CRC and its Ad Hoc Working Group on Legislation reached out to the California State legislation to extend the deadline beyond December 15, 2021, on multiple occasions:

# LOS ANGELES COUNTY REDISTRICTING 2021

- June 29, 2021: Letter to Senator Steven M. Glazer, State Capitol, regarding support for Senate Bill (SB) 594 (As Amended S/3/2021) if amended
- August 22, 2021: Letter to Senator Steven M. Glazer, State Capitol, Opposition to SB 594 (as amended 8/16/2021) unless amended
- August 24, 2021: Co-Chair Daniel Mayeda's oral testimony before the California Assembly Elections Committee on SB 594

The State legislation rejected all requests.

## MEETING AND PUBLIC HEARING FORMATS

### Virtual and Hybrid Meetings

Because of COVID-19 and for the safety of the public, the Commissioners, and staff, the LA County CRC meetings and business were conducted virtually, except for five Communities of Interest (COI) Public Hearings held in a hybrid format (a combination of virtual and in-person model) in August and September 2021 (see Chapter B.4 on the COI Public Hearings).

### Governor's Executive Order

The meetings were conducted using video conferencing and electronic means, consistent with Governor Newsom's Executive Order N-29-20, regarding the COVID-19 pandemic. The Governor extended the Executive Order through September 30, 2021.

### Resolutions

In September 2021, new legislation allowed legislative bodies to continue to conduct teleconference meetings after September 30, 2021, if certain criteria are met and findings are made regarding health and safety issues. The LA County CRC passed a total of three resolutions to continue remote teleconference meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Brown Act.

### Bob Hope Patriotic Hall

The LA County CRC identified Bob Hope Patriotic Hall; 1816 S. Figueroa St., Los Angeles, CA 90015 as the site for hybrid meetings and Public Hearings because of its central location, seating capacity, safety protocols in light of COVID-19, and access to public transportation. The LA County CRC held a special meeting at Patriotic Hall on September 14, 2021, and then decided to defer holding additional hybrid meetings for the balance of the year because of COVID-19 safety concerns.

## Regular and Special Meetings

The LA County CRC regular meetings were scheduled for the second and fourth Wednesday of every month, starting at 7:00 p.m. By October 2021, the number of meetings increased to weekly meetings. By December 2021, the Commissioners held six meetings over a two-week period to deliberate on potential maps, map modifications, and the adoption of the final map.

The public had multiple means for accessing meetings.

## B.3 – PUBLIC OUTREACH

### PUBLIC OUTREACH PLAN

Appendix C.5 contains the [Public Outreach Plan](#), adopted in February 2021 and posted on the LA County CRC website. Its contents are:

- I. Overview: Plan Purpose and Redistricting Overview
- II. Public Access and Outreach: Website, Other CRC Communication Vehicles, Building on Existing Organizational Networks, Media Outlets and Media Buys
- III. Public Involvement: Overview, Threshold Languages, Timetable, Redistricting Map Submissions, Metrics

### THRESHOLD LANGUAGES

Threshold languages are defined as: *“a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county.”* As a result, the threshold languages in Los Angeles County are:

- |                    |                      |

During the course of the year, the California Secretary of State identified additional threshold languages (Arabic, Armenian, Hmong, Persian, Punjabi, and Syriac) for Los Angeles County as a result of a lawsuit.<sup>1</sup>

One in three Angelenos are foreign born.<sup>2</sup> In Los Angeles County, approximately 25% of the population is characterized as having Limited English Proficiency (LEP). These 12 threshold languages represent 96% of Los Angeles County's LEP population. The remaining 4% of the LEP population speak more than 100 different languages and represent approximately 97,000 residents.

County of Los Angeles commissions normally request 72-hours notification for interpreter services for regular and special meetings. The Election Code requires that the CRC provide interpreter services within 24-hours notification for the Public Hearings in the Summer 2021 and the Public Hearings in November-December 2021.

## WEBSITE

The LA County CRC quickly put together a website that was launched in late January 2021, available at: <https://redistricting.lacounty.gov/> The website was also tested to ensure ADA compliance and access on phones and tablets.

The major tabs on the homepage website are :

- About Us, Meetings
- Community Outreach
- Making a Redistricting Map
- Want to Know More?<sup>3</sup>

<sup>3</sup> By law, the 2011 redistricting website had to be available through September 2021. The 2021 LA County CRC website had a link to the 2011 website to meet this requirement under "Want to Know More?".

# LOS ANGELES COUNTY REDISTRICTING 2021

Individuals can sign up on the website for alerts and bulletins about upcoming meetings and Public Hearings. Although the LA County CRC recognized the limitations of Google Translate, the LA County CRC used it to increase the accessibility to the website via more than 100 language options.

## Branding

For consistency, meeting information, reports, PowerPoint presentations, and promotional materials carried the LA County CRC logo and website graphics. The logo and graphics were designed with a friendly motif that was less bureaucratic than other governmental entities.

## GovDelivery

The LA County CRC relied on the County's GovDelivery system for disseminating bulletins about upcoming regular and special meetings, workshops, presentations, mapping options, and Public Hearings. Building the email database consisted of such contacts as:

- Los Angeles County 2020 Census
- CRC sign-ups
- City managers, clerks, mayors, and council members
- 2011 Border Redistricting Committee outreach

# LOS ANGELES COUNTY REDISTRICTING 2021

- Media outlets

The number of emails on our list serve grew from 50 in December 2020 to more than 9,500 by December 2021.

## FACT SHEET AND OUTREACH TOOLKIT

The Ad Hoc Working Group – Outreach developed a one-page Fact Sheet and [outreach toolkit](#), which were available in English and most of the County's threshold languages.

### Redistricting Fact Sheet

**A first in Los Angeles County history!** An independent Los Angeles County Citizens Redistricting Commission (LA County CRC) will redraw the supervisorial districts for the next 10 years.

#### What You Need to Know

##### *How This Redistricting Process Differs From Past Practices*

In the past, the Board of Supervisors had the final say before adopting the final redistricted boundaries. Today, the LA County CRC is designed to be independent from the influence of the Board and reflect the County's diversity.

##### *Redistricting Overview*

Our work involves adopting supervisorial districts that are about equal in population – about 2 million people per district – based on U.S. Census data. Other considerations are fairness regarding race and ethnicity; not splitting cities, neighborhoods, and communities of interest; and having compact districts.

##### *Why Redistricting Matters*

At the local level, periodic redistricting can help to:

- Ensure our County's diverse population and communities have opportunities to have their voices heard
- Enable voters to elect representatives of their choosing and not draw supervisorial districts in such a way as to dilute fair opportunities
- Have Supervisors be responsive to the preferences and needs of residents through:
  - Public policies to improve lives
  - Public services and resources (e.g., public health and medical centers, social services, parks, sheriff, municipal services to unincorporated areas and contract cities... and many more)

We want a transparent and inclusive process. Have your voice heard by:

- Attending our regular meetings
- Sharing your thoughts at our Public Forums and Public Hearings
- Submitting written public comments
- Preparing and submitting maps for consideration
- Letting others know about redistricting

## WORKSHOPS

### LA County CRC-Sponsored Workshops

The Ad Hoc Working Group – Outreach conducted two workshops in April 2021. The purpose of these workshops was to inform and engage organizations in outreach and redistricting. The workshops targeted the following groups:

- April 6 at 5:00-6:00 pm: CBOs & Faith Based Organizations (FBOs)
- April 20 at 5:00-6:00 pm: Cities, government agencies, educational systems

During the workshops, the Commissioners focused on how the organizations could participate and assist with outreach, particularly during the Public Hearings, to solicit input from COIs and later to provide input on the November-December Public Hearings on map options.

The Executive Director routinely met with CBOs to update them on the LA County CRC's activities and planned next steps to solicit input and help promote the Commission with their respective stakeholders. She also conducted a workshop in October 2021 about:

- The LA County CRC's timeline for the November-December Public Hearings
- Process for submitting maps for consideration by the LA County CRC

As elaborated on in Chapter B.5 on the mapping software and datasets, the LA County CRC also provided videos and workshops on how to use the mapping software. Virtual workshops were held on:

- August 2021 when the preliminary Census data were released
- October 2021 when the Public Law Census data adjusted for the incarcerated population and updated software were available
- October 2021 in Spanish, using the Public Law Census data and updated software
- October 2021 in English, using the Public Law Census data and updated software

### Media Coverage and Outreach

As of December 12, 2021, more than 20 news articles that cite the LA County CRC are posted on the website under [Redistricting in the News](#).

Because of the limited size of the media budget, the media buy was deferred and used to promote the November-December Public Hearings on the map options. The media buys were combinations of on-air radio spots, social media Zoom interviews (KPWR-FM / KDAY-FM), one on-air interview (KIRN-AM), social media, digital banner ads, radio streaming, on-air radio spots, and print ads.

## B.4 – COMMUNITY OF INTEREST (COI) PUBLIC HEARINGS

### COMMUNITY OF INTEREST (COI) DEFINITION

According to the California CRC, “A community of interest is a contiguous population that shares common social and economic interests that should be included within a single district for purposes of its effective and fair representation. Communities of interest shall not include relationships with political parties, incumbents, or political candidates.”

The LA County CRC asked the public to describe their communities, including:

- The economic and social interests that bind your community together
- Why your community should be kept together for fair and effective representation
- Where your community is located
- What nearby areas do they want to or not want to be grouped with

The LA County CRC provided additional guidance, based on the COI questions developed by the California CRC, for defining a COI; some suggestions were:

- Begin with your city or unincorporated area: Mention the street names and significant locations in your neighborhood to help identify the parameters of your community.
- What are your shared interests?
- What brings you together?
- What is important to your community?
- Are there nearby areas you want to be in a district with?
- Nearby areas you don't want to be in a district with? Why or why not?
- Has your community come together to advocate for important services, better schools, roads, or health centers in your neighborhood?

## 12 COI PUBLIC HEARINGS

Senate Bill 958 requires a minimum of seven Public Hearings with at least one held in each SD. Because of COVID-19, the LA County CRC was not required to do on-site Public Hearings; however, but to ensure the public had access to the Commission to present their public input, the Commissioners opted for the hybrid model.

In total, the LA County CRC conducted 12 Public Hearings, including:

- 1 hybrid (in-person/virtual) in each of the 5 SDs
- 1 in Spanish with interpreters for the English-speaking attendees

The LA County CRC designed and provided a form for the public to use to provide COI input:

<https://forms.gle/2SDZSxEuKNZ3ZU1KA> All

### Initial 10 Public Hearing Process and Format

The LA County CRC adopted a regional or zone approach for the initial 10 Public Hearings. In this way, the Commissioners could receive input from COIs that covered a smaller geographic area than the 5 SDs. The LA County CRC also wanted the geographical areas to differ from the existing SDs since the Commissioners wanted a fresh look at the districts.

Nine geographic zones were developed for the COI Public Hearings. The basis for the 9 zones were the County's 8 Service Planning Areas (SPAs), used primarily for planning, statistical tracking, and provision of health and social services.<sup>4</sup> Some adjustments were made to even the populations (e.g., San Fernando Valley and Santa Clarita Valley were assigned to separate zones). The LA County CRC provided [an interactive zone map](#) to help interested attendees to find the location nearest their zip code.

## Two Additional Hybrid COI Public Hearings

According to the statute governing our Commission in Elec. Code, § 21534 (2)(B):

*“(B) In the event any state or local health order prohibits large gatherings, the commission may modify the location of the hearings, including use of virtual hearings that use technology to permit remote viewing and participation, to the extent required to comply with public health requirements. If the commission modifies the location of a hearing, it shall provide opportunities to view and listen to proceedings by video, to listen to proceedings by phone, and to provide public comment by phone and in writing with no limitation on the number of commenters. The commission shall, to the greatest extent practicable, provide an opportunity for in-person participation for at least one hearing in each supervisorial district. Methods for providing in-person participation may include, but are not limited to, setting up multiple rooms with audiovisual connections to the hearing, allowing community members*

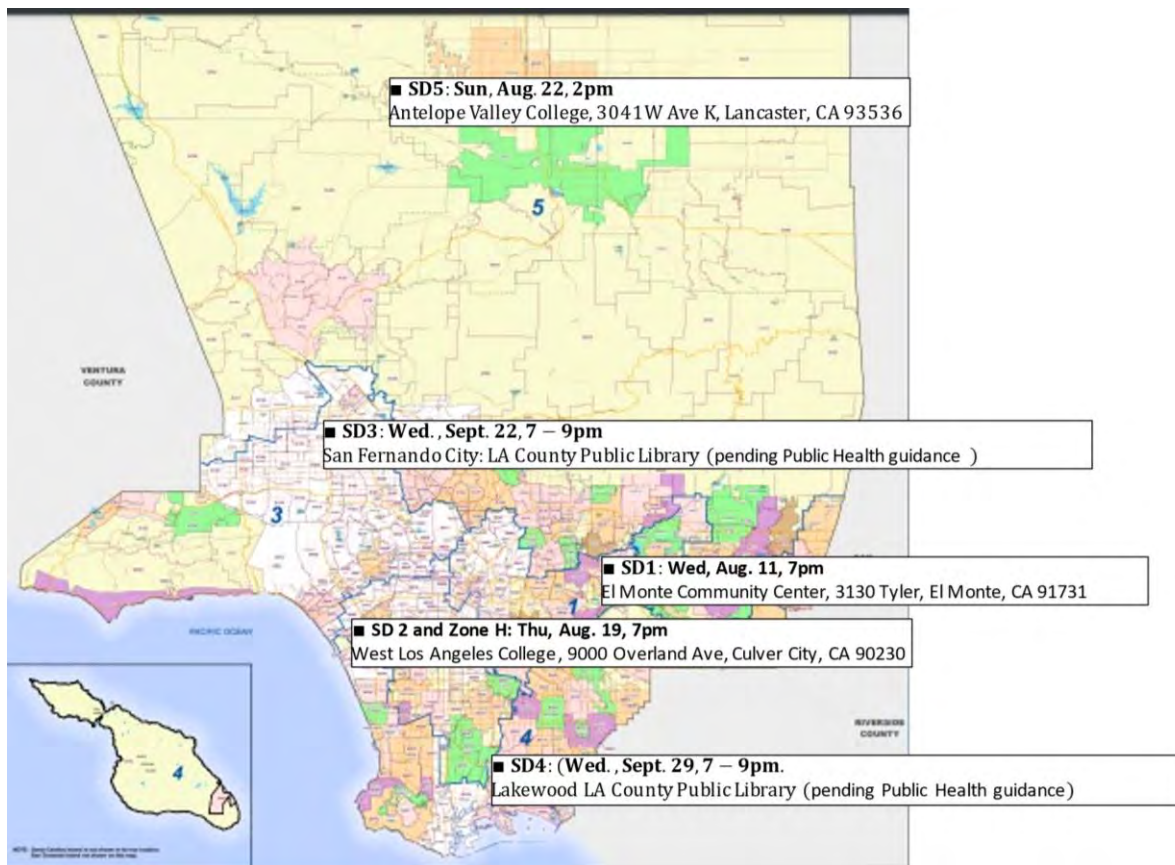

# LOS ANGELES COUNTY REDISTRICTING 2021

*to make appointments to make public comment, providing personal protective equipment, or holding hearings in outdoor spaces.”*

In July 2021, the COVID-19 situation seemed to be in decline and the Commissioners requested the LA County CRC staff to design a hybrid approach to the Public Hearings scheduled for August 2021. The LA County CRC also decided to add 2 more Public Hearings for September 2021. In this way, the LA County CRC met the requirement of at least one in-person COI Public Hearing conducted in each of the current five SDs.

Care was given that the hybrid Public Hearing sites be accessible for the handicapped, parking, and public transportation. In addition, specific communities were identified where there were likely digital barriers for accessing Public Hearings virtually: El Monte, Bellflower, and San Fernando City. The other two locations were at community colleges – West Los Angeles College and Antelope Valley College – because they had the technology to handle hybrid meeting formats.

## Health Safety Protocols

The L.A. County Health Officer Order was modified to align with the State on masking guidance, requirements for workplaces to adhere to Cal/OSHA standards, and sector-specific protocols that remained in place for indoor K-12 schools, day cares, camps, and high-risk congregate settings. Currently, Cal/OSHA standards continue to require distancing and masking for all employees.

# LOS ANGELES COUNTY REDISTRICTING 2021

The LA County CRC was the first County commission to conduct meetings in a hybrid format in history. To conduct such hybrid Public Hearings required special consideration, particularly since County facilities had not yet opened to the public at that time.

Steps were taken to ensure adherence to Los Angeles County Department of Public Health (LACPDH) protocols. Masks were required, and care was given to endure safe-distance seating of the Commissioners and the public. At the two public library settings, there were limitations on the number of Commissioners and public who could be in the space.

The County of Los Angeles “re-opened” with the rest of the State on June 15, 2021. Changing conditions in the County due to the rapid spread of the Delta variant of COVID-19 prompted new LACPDH restrictions. Effective as of Sunday, July 18, 2021, LACPDH Health Orders required all persons, regardless of vaccination status, to wear masks/facial coverings at all indoor public settings.

At the start of each hybrid COI Public Hearing, the LA County CRC Clerk outlined the safety protocols:<sup>5</sup>

  - *An individual who had unprotected contact with the patient’s body fluids and/or secretions (e.g., being coughed or sneezed on, sharing utensils or saliva, or providing care without wearing appropriate protective equipment)*

## **COI INPUT AND COI MAPS**

### **Public COI Map Input**

COI input through October 3, 2021 is posted in a sortable Excel Spreadsheet on the LA County CRC website on the orange bar: [CLICK HERE TO VIEW COI INPUT](#) COI input received after October 3, 2021 was posted with the scheduled special and regular meetings and Public Hearings. The LA County CRC also posted input from the [California CRC](#) so the public could review public testimony made before that commission that might pertain to the County of Los Angeles SDs.

Overall, the LA County CRC reviewed:

- Hundreds of pages of written public comment
- 500 submissions regarding COIs
- 50 formal written letters from CBOs, governments (e.g., city councils, COGs), and others
- 20 COI maps submitted by the public for the LA County CRC’s consideration. They are displayed as [“Public’s Submitted Communities of Interest Maps”](#) on the LA County CRC website.

# LOS ANGELES COUNTY REDISTRICTING 2021

## Commissioner COI Models

In October 2021, the LA County CRC formed five teams of two to three Commissioners each to analyze COI input and develop hypotheses about the COI patterns described in the written and oral public testimonies. Each zone was reviewed by two teams. The Commissioners' team meetings were recorded.

The Executive Director summarized the input from the COI teams in a report, "[Summary of Community of Interest \(COI\) Hypotheses](#)." The report also includes links to the recorded team meetings; the report is posted on the website and appears in Appendix C.6.

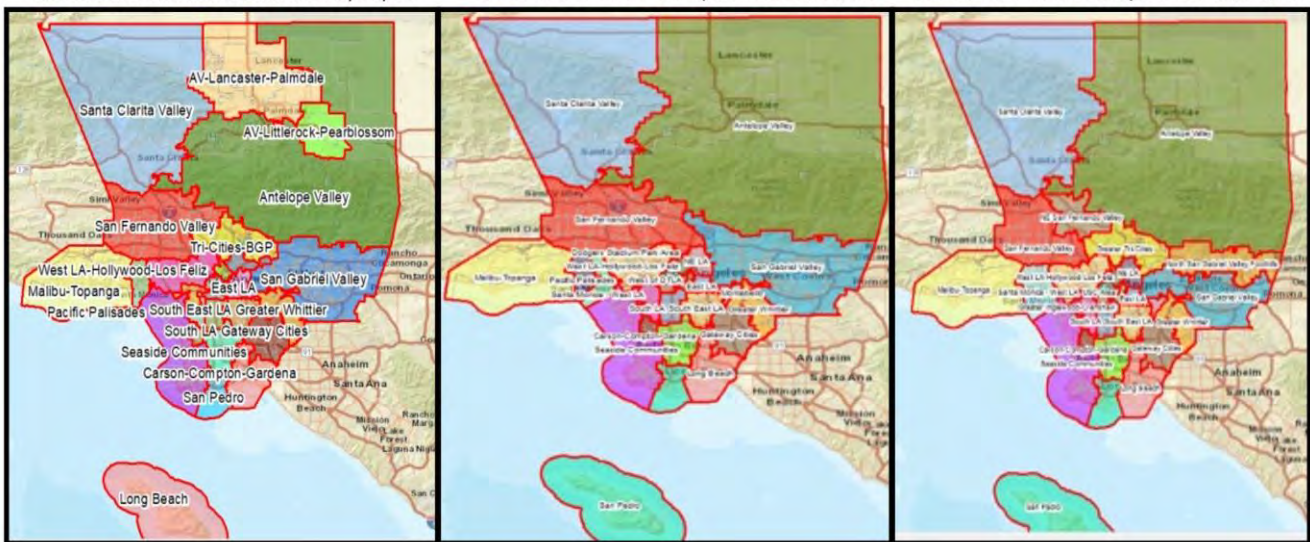

On the basis of this input, the LA County CRC formed an Ad Hoc Working Group to create visualizations of the COI input. The full LA County CRC reviewed the models at two public meetings. The outcome was three COI Models that depicted public input:

## Community of Interest (COI) Groupings: Models A, B, C

COI Model A: Presented on 10/13/21

COI Model B: Developed on 10/18/21

COI Model C: Developed on 10/18/21

Details of each COI model are available at:

- [COI Model A](#)
- [COI Model B](#)
- [COI Model C](#)

The models reflect the diverse viewpoints received (e.g., keep the San Gabriel Valley together; separate the foothills from the rest of the San Gabriel Valley; keep the Tri-Cities of Pasadena, Glendale; and Burbank together; or group Burbank with the San Fernando Valley).

## B.5 – MAPPING DEMOGRAPHER, SOFTWARE AND DATABASES

### SELECTION OF DEMOGRAPHIC AND MAPPING CONSULTING SERVICES

The LA County CRC issued a [Request for Proposal/Statement of Work \(RFP/SOW\)](#) which is in Appendix C.7. The criteria for evaluating the proposal were:

Criteria for Evaluating Proposals	Weightings
Ethics Requirements (If the Proposer fails this requirement, the bid cannot be considered.) <sup>6</sup>	Pass/Fail
Proposers' Plans to meet RFP Objectives and Tasks	
Task 1 – Redistricting Mapping Planning	10%
Task 2 – Public Involvement in Redistricting Mapping	10%
Task 3 – Review of Public-Submitted Maps	10%
Task 4 – Preparation of Line drawings of LA County	10%
Proposers' Proposed Timeline to Satisfy Redistricting Deadlines Realistically	10%
Proposers' Firm and Team Capabilities	30%
Proposers' Project Costs and Hourly Rates	20%

The LA County CRC received three proposals. The Ad Hoc Working Group – Demography evaluated the proposals and submitted two finalists for the full Commission's consideration: ARCBridge Consulting & Training Inc. and National Demographics Corporation (NDC). The Commission listened to oral presentations of both firms. NDC withdrew its proposal. The Commission selected ARCBridge.

### CENSUS DATA

According to the U.S. Census Bureau:

<sup>6</sup> California Elections Code Sections 21533(d) & 21532(d)(4)

# LOS ANGELES COUNTY REDISTRICTING 2021

*“The 2020 Census counted every person living in the United States and the five U.S. territories. It marked the 24<sup>th</sup> census in U.S. history and the first time that households were invited to respond to the census online.”<sup>7</sup>*

## Delayed Release of 2020 Census

In December 2020, the U.S. Census Bureau reported that it would:

*“...continue to process the data collected and plan to deliver a complete and accurate state population count for apportionment in early 2021, as close to the statutory deadline as possible.”<sup>8</sup>*

Unfortunately, that was not the case. The release date of the 2020 Census was a moving target in 2021 because of a) COVID-19; and b) the extension of the Census deadline. The Census data were finally released in August 2021.

## Official California Public Law (P.L. 94-171) Census

In 2012, the voters of California passed a proposition to adjust the Census data for the in-state incarcerated population. Specifically, if incarcerated individuals were in-state residents prior to incarceration, they are to be counted in their last known residences' district population (Elec. Code § 21003). This redistricting cycle was the first year for implementing P.L. 94-171. Specifically:

*P.L. 94-171 redistricting data is a tabulation from the decennial census that includes counts of population by race and ethnicity (Hispanic or Latino origin); voting age; housing occupancy status; and group quarters population, all at the census block level. The California Citizens Redistricting Commission and many local jurisdictions, including cities and counties are required by law to use the official redistricting dataset provided by the Statewide Database. This dataset is different from the data that the U.S. Census Bureau provides in that it has reallocated data from incarcerated persons that were enumerated in facilities under the control of the California Department of Corrections and Rehabilitation to their last known residential address.*

The LA County CRC had to wait for the official Census data to be adjusted for the incarcerated population by the Statewide Database at the University of California, Berkeley. It was released on September 20, 2021.

The GIS-Demography Team at ISD prepared a report on the impact of the adjusted Census data for the incarcerated population. [This report is posted on LA County CRC website:](#) (pages 4-7).

## Total Population, VAP, and CVAP Data

The 2020 Census data is the source to use for determining the total population to ensure the map options and adopted final map are within 10% population deviation among the five districts. Two other population data points are also used:

- Voter Age Population (VAP), based on 2020 Census data
- Citizen Voting Age Population (CVAP) based on the 2019 American Community Survey (ACS)

VAP and CVAP inform the analysis of whether a proposed map complies with the Federal Voting Rights Act of 1965 (VRA). Consideration of 2019 ACS is appropriate for that evaluation. Chapter B.7 elaborates further on the VAP and CVAP data sets, including limitations in the accuracy of the CVAP.

## U.S. Department of Justice Ethnic Categories

The LA County CRC used the ethnic categories developed by the U.S. Department of Justice (DOJ):

Latino (LAT)	Everyone who responded affirmatively to Hispanic Origin question regardless of race
--------------	---

The following categories are Not Hispanic or Latino:

White (WHI)	Single race White alone
Black (BLK)	Single race Black and 2 race Black and White
American Indian (AIN)	Single race AIN and 2 race AIN and White
Asian (ASI)	Single race Asian and 2 race Asian and White
Hawaiian Pacific Islander (HPI)	Single race HPI and 2 race HPI and White
Other Race (OTH)	Single race Other and 2 race Other and White
Multi Minority Race (MMR)	All multi race categories except those assigned above.

The mapping software provides the DOJ ethnic categories for Adjusted Population (**POP\_A20**), Adjusted Voting Age Population (**VAP\_A20**), and unadjusted Citizen Voting Age Population from 2019 CVAP tabulation (**CVAP\_D19**). The variable names combine the ethnic prefix and the universe suffixes.

## CITIES AND UNINCORPORATED AREAS

### Countywide Statistical Areas (CSAs)

The [Countywide Statistical Areas \(CSA\)](#) project was developed to provide a common geographic boundary for reporting departmental statistics for cities and unincorporated areas. The City of Los Angeles' neighborhoods

# LOS ANGELES COUNTY REDISTRICTING 2021

were identified by the City of Los Angeles Bureau of Engineering. CSAs differ from the more informal “Community” geographies because:

- They represent geographies comprised of Census block groups split by cities.
- They must cover the entire unincorporated and incorporated areas of Los Angeles County.
- There can be no holes or overlapping areas.

The CSAs originally were created using Census Block Groups split by cities (e.g., "Split Block Groups") as a geographic building block. These boundaries are subsequently updated as needed based on the cities’ annexation/deannexation records.

CSAs are named according to the following recommended naming conventions:

- All names will be assumed to begin with “Unincorporated” (e.g., Unincorporated El Camino Village) for the unincorporated areas. They will not be part of the Statistical Geography Name (so the name of the Statistical Area would be “El Camino Village”).
- Names will not contain “Island,” referring to a small unincorporated area surrounded by incorporated cities. Such small unincorporated areas also begin their names with “Unincorporated” to distinguish them from any surrounding cities. There may be one or more exceptions for certain small areas (e.g., “Bandini Islands”).
- A forward slash implies an undetermined boundary between two areas within a statistical geography (e.g., Westfield/Academy Hills or View Park/Windsor Hills).
- Certain established names may include hyphens (e.g., Florence-Firestone).
- Aliases may be defined in parentheses (e.g., Unincorporated Long Beach (Bonner/Carson Park)).

A [full listing of the 348 CSAs](#) is posted on the LA County CRC website. They include the 88 cities, 139 [CSAs within the City of Los Angeles](#), and the 122 unincorporated areas.

## Redistricting Data Units (RDUs)

County staff provided the Commissioners with an overview of the 2011 redistricting experiences and introduced the use of Redistricting Data Units or Redistricting Units (RDUs) at the [May 29, 2021, LA County CRC meeting](#).<sup>9</sup> The County developed and used RDUs for the 2001 and 2011 redistricting to:

- Reflect the administrative and governmental jurisdictions within Los Angeles County

<sup>9</sup> <https://www.youtube.com/watch?v=oyil3dHOLFz> (Note: The panel starts at 14 minutes 47 seconds.)

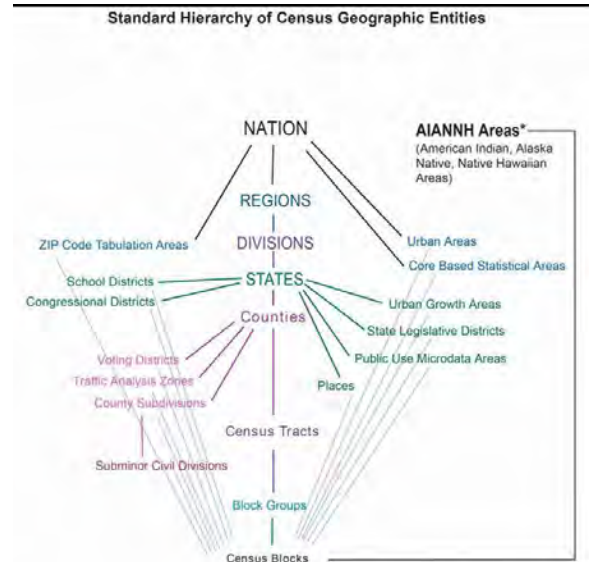

# LOS ANGELES COUNTY REDISTRICTING 2021

- Align with U.S. Census Bureau geographies, which is required to provide population figures for the redistricting process
- Bring clarity to city and unincorporated area boundaries

Today, County of Los Angeles departments use RDUs for regional planning, delivery of municipal services to unincorporated areas and contract cities, and County operations. RDUs also minimize the problem of cities and unincorporated areas being unintentionally split between two SDs.

RDUs are primarily census tracts, split along city boundaries, from which data have been compiled for use in the redistricting software.

In addition to aligning census geographies with incorporated city boundaries, the RDUs also delineate the boundaries of the named unincorporated areas in Los Angeles County that represent about 1 million residents. The unincorporated areas in Los Angeles County cover more than 2,600 square miles, represent 66% of the County's land, and more than 1 million residents (10% of the county's population). The unincorporated areas are socially and economically diverse.<sup>10</sup> They can be small (a few blocks); large, such as East Los Angeles with more than 150,000 residents; or sparsely populated (high desert). Without RDUs, users of the software might unknowingly bifurcate unincorporated areas since the U.S. Census Bureau does not reflect certain unincorporated areas as contiguous names.

The U.S. Census Bureau is obligated to protect the privacy of people. Blocks are the smallest unit of geography. In sparsely populated areas, such as North County in Los Angeles County, the blocks are large because few people live there. In densely populated areas, the blocks are small.

**The tract, block group, block, and RDU geographies are nested.** The totals for each level of geography add up to the total population of the County.

Census data Levels	Actual	Rounded
Blocks	91,626	92,000
Block Groups	6,591	6,600

<sup>10</sup> [https://planning.lacounty.gov/view/unincorporated\\_los\\_angeles\\_county/](https://planning.lacounty.gov/view/unincorporated_los_angeles_county/)

# LOS ANGELES COUNTY REDISTRICTING 2021

Census data Levels	Actual	Rounded
Tracts	2,498	2,500
RDU at Block Group level with CSAs	7,029	7,000
RDU at Tract Level with CSAs	2,957	3,000
CSAs	348	350

The Ad Hoc Working Group for Demography further discussed the pros and cons of RDUs, including the complexities of manipulating 92,000 Blocks versus 3,000 RDUs during August 2021.

The County's demographer, David Ely of Compass Demographics, described the datasets built into the mapping software at the [September 29, 2021, LA County CRC meeting](#).<sup>11</sup> He outlined the data sets, being built into the software, including the importance of each data set for redistricting purposes:

- RDUs, which reflect existing city and unincorporated area boundaries, including CSAs, and reduces the number of geographic areas to manipulate from 90,000 Census blocks to 3,000 RDUs
- Adjusted population and VAP total, presented based on DOJ categories
- Unadjusted CVAP by the United States Department of Justice (DOJ) categories
- 2020 Voter Registration Total and by surname matched categories
- Socio-Economic Data from the American Community Survey (ACS), 2019, including:
  - Language spoken at home, just Spanish, Asian Language, and Other
  - Renter/owner occupied
  - Income Categories
  - Education Categories
  - Poverty

The LA County CRC used the RDUs as the building block for redistricting. In the few instances where necessary to accomplish the Commission's intent, RDUs were divided at the Block level.

## Los Angeles City Neighborhood Councils

Corresponding to the City of Los Angeles Department of Neighborhood Empowerment (DONE), the 99 [Neighborhood Councils](#) in the City of Los Angeles was another consideration. They lie within the City of Los Angeles but do not follow the CSA boundaries. Although most of the City of Los Angeles has a Neighborhood Council, there are some residential areas that opted not to be part of DONE. Based on the rules that a geographic unit should not have overlaps and gaps.

<sup>11</sup> <https://www.youtube.com/watch?v=eALiuxsOV2w> (Note: David Ely's presentation starts at 6 minutes 20 seconds.)

# LOS ANGELES COUNTY REDISTRICTING 2021

Therefore, for the City of Los Angeles, the Neighborhood Council file was overlaid on the Block Groups and boundaries assigned using the centroid of the block group; therefore, while the names of the CSAs in the City of Los Angeles match the neighborhood file, the boundaries are not the same.

## MAPPING SOFTWARE

The County of Los Angeles contracted with Esri to supply the redistricting mapping software. The County provided this free, web-based, mapping software so that:

- Individuals and community groups could participate in the redistricting process.
- The public could prepare and submit Redistricting Map Plans for the CRC's consideration.

The software was first made available as a soft launch in August 2021 so users could become familiar with it and participate in training sessions.

Personalized help was made available in English, Spanish, Mandarin, Farsi, Hindi, Korean, and Vietnamese. Interpreters were provided for additional languages, as requested.

The official launch of the [redistricting mapping software](#) and datasets was on October 7, 2021.

ARCBridge conducted two training workshops for the Commissioners and the public in August 2021, using the preliminary software and Census data.

Once the Public Law Census data adjusted for the incarcerated population, RDUs, and updated software were available, the LA County CRC provided two additional workshops in October 2021, on how to use the mapping software:

- One workshop in English by ARCBridge
- One workshop in Spanish, conducted by GIS bilingual staff from the County of Los Angeles

## B.6 – SELECTION OF MAP OPTIONS FOR PUBLIC HEARINGS

This chapter reviews the legal requirements and criteria for developing viable map options and describes the various maps submitted and reviewed by the LA County CRC.

### CURRENT SUPERVISORIAL DISTRICTS

The map displays the current geographic boundaries for the five SDs, drawn in 2011.

# LOS ANGELES COUNTY REDISTRICTING 2021

## LEGAL REQUIREMENTS AND MAPPING CRITERIA

According to the U.S. Constitution, 52 U.S.C. § 10301, Cal. Election Code § 21534, the LA County CRC must adopt SD lines using the following criteria, listed in order of priority:

1. Each district shall [comply with the United States Constitution and](#) be reasonably equal in total resident population to the other districts, except where deviation is required to comply with the VRA or allowable by law.
2. Districts shall comply with the VRA.
3. Districts shall be geographically contiguous.
4. The geographic integrity of city, local neighborhood, or community of interest shall be respected in a manner that minimizes its division.
5. To the extent practicable, and where it does not conflict with numbers 1-4 above, districts shall be drawn to encourage geographic compactness.

Besides the above criteria, districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party.

## PRELIMINARY MAPS AND COI MAPS

Prior to the release of the Public Law Census data, the public had submitted 7 preliminary maps for the [5 SDs and 20 COI maps](#), which are posted on the LA County CRC website. In addition to the 20 COI maps are the three COI Models that the LA County CRC developed (see Chapter B.4 for details).

## PUBLIC SUBMITTED OFFICIAL MAPS

In total, the public submitted 31 official redistricting maps that met the minimum requirements for redistricting purposes by October 28, 2021. These [31 redistricting maps](#) are posted on the LA County CRC.

## COMMISSION REDISTRICTING INITIAL MAPPING OPTIONS

The LA County CRC reviewed the 31 public submitted maps, including maps prepared by Commissioners, on October 26, 27, 28, 2021. The Commissioners were able to build redistricting maps, having:

- Received extensive training on the mapping criteria, including the VRA
- Listened to and read the COI input during the 12 COI Public Hearings

# LOS ANGELES COUNTY REDISTRICTING 2021

- Reviewed more than a thousand public comments throughout the redistricting process at that point in time
- Completed the mapping software training

The Commissioner-prepared maps were not posted until October 25, 2021, to allow time for the public to submit maps without the influence of Commissioner-created maps.

ARCBridge completed a Scorecard that displayed metrics about each map option submitted (see final Scorecard at the end of this chapter).

## Map Options Considered for Initial Public Hearing

On October 28, 2021, 31 maps had been submitted to the LA County CRC. The Commissioners focused on which map options to put forth as starting points for the November-December Public Hearings. Three Commissioner-prepared maps – Maps 020, 021, and 022 – were withdrawn from consideration. The Commissioners then could share up to three of their top map preferences. An “X” means they liked the map, but it was not among their top 3. No Commissioner had more than 3 ratings.

# LOS ANGELES COUNTY REDISTRICTING 2021

Maps 012, 015, 018, and 023 had the highest ratings initially. The Commissioners explained individually the logic behind their selected top 3 map choices and related considerations. The Commissioners discussed other maps that were comparable to each other.

The Commissioners made individual motions to adopt maps. Motions were made for six of the maps; four of the maps were approved by a quorum of the LA County CRC.

- Map 012 Prepared by the People's Block (Passed)
- Map 018 Prepared by Commissioner Brian Stecher (Passed)
- Map 023 Prepared by MALDEF (Passed)
- Map 015 Prepared by Faraz Aqil (Failed)
- Map 001 Prepared by Josh Rasmussen (Failed)
- Map 019 Prepared by Commissioner Brian Stecher (Passed)

The LA County CRC relabeled the initial maps options as Maps A, B, C, and D:

1. Map A (formerly Map 012)
2. Map B (formerly Map 018)
3. Map C (formerly Map 023)
4. Map D (formerly Map 019)

The four approved map options were posted on the map hub on the LA County CRC website at: [CLICK HERE](#).

Chapter B.8 describes the Public Hearings on map options.

## RACIALLY POLARIZED VOTING (RPV) ANALYSIS

Other than constitutional compliance and ensuring a reasonably equal population among districts, compliance with the VRA has a higher priority than all other criteria listed in Elections Code Section 21534. Section 2 of the VRA prohibits electoral practices, including redistricting plans, that result in the denial or abridgment of the right of any citizen to vote on account of race or color, or membership in one of the language minority groups specified in Section 4(f)(2) of the VRA. Given the high priority placed on VRA compliance in establishing a map, the LA County CRC retained the services of Federal Compliance Consulting LLC (FCC) to perform RPV analysis. The team included:

- Bruce Adelson, Esq., Federal Compliance Consulting LLC; Instructor of Family Medicine, Georgetown University School of Medicine; Adjunct Professor of Law, University of Pittsburgh School of Law
- Dr. Jonathan N. Katz, Kay Sugahara Professor of Social Sciences and Statistics, Division of the Humanities and Social Sciences, California Institute of Technology

Dr. Katz and Bruce Adelson made multiple presentations to the Commission before it adopted the final map. The team's conclusions regarding racially polarized voting in Los Angeles County Supervisorial elections is set forth in their report in Appendix C.9. Mr. Adelson also opined on the final map's compliance with the VRA.

## B.8 – PUBLIC HEARINGS ON MAP OPTIONS

### PUBLIC HEARING REQUIREMENTS

The Elections Code requires that, after the LA County CRC draws a draft map, it must conduct at least 2 Public Hearings over no fewer than 30 days. The LA County CRC conducted 4 Public Hearings over a 30-day period.

In addition, the LA County CRC posted draft maps from the public as they came in. After each Public Hearing, the Commissioners made changes to some of the original proposed maps. The modified maps were posted in advance of any Public Hearings as they (or the one map if it is only one) evolved.

Throughout the year, in addition to posting all agenda on the LA County CRC website, the Executive Office posted agendas physically on the front doors to the Hall of Administration. The public could obtain hard copies of the agenda and maps inside the Hall of Administration.

LA County CRC followed the County's protocols for posting agenda during the COVID-19 pandemic.

The Agenda and map options were posted at the Hall of Administration. Hard copies were available inside the building.

### PUBLIC HEARING OVERVIEW

Public engagement and participation in the Public Hearings and meetings grew. Between November 1, 2021, and December 12, 2021, the LA County CRC held 14 meetings, including 4 Public Hearings. The LA County CRC conducted its special meetings similar to the Public Hearings in that the Commissioners continued to receive public input on map options under consideration.

Table B.8-1 displays participation rates during this time period for the 14 meetings for a total of 54 hours, averaging 4 hours in duration. Seven of the minutes lasted more than 3 hours; four meetings lasted more than 4 hours.

# LOS ANGELES COUNTY REDISTRICTING 2021

Approximately 1,676 individuals attended these 14 meetings/Public Hearings via the webinar and 1,587 watched the Public Hearings and meetings on YouTube, for a total of 3,263 viewers. The Commissioners and staff listened to 599 members of the public make oral presentations. The Commissioners and staff reviewed 3,800 written comments submitted during that same time period.

## Public Hearing No. 1

The first Public Hearing was held labeled pm Maps A, B, C, and D on Sunday, November 7, 2021, at 1:00 p.m. Each of the four mapmakers provided an overview of their proposed maps and responded to Commissioners' questions. The Commissioners listened to public comments and then directed ARCBridge to make minor adjustments or "tweaks" to the maps, based on the public input.

## Public Hearing No. 2

The second Public Hearing was held on Wednesday, November 17, 2021, at 6:30 p.m. The LA County CRC identified six map options, labeled Maps A-1, B-1, C-1, D-1, E, and F. Maps E and F were modifications of Map A-1. The Commissioners listened to public comments and then identified their top two map preferences (marked as "1"), including potential contenders (X) and the addition of other maps submitted (OP 044, OP 051, and OP 053).

The Commissioners discussed the rationale for their choices for continuation at a subsequent special meeting on November 22, 2021.

# LOS ANGELES COUNTY **REDISTRICTING 2021**

## **Public Hearing No. 3**

Public Hearing No. 3 entailed the Commissioners listening to public comment – 100 public speakers – on the three maps under consideration. On the basis of the public testimony, the Commissioners agreed that the two Ad Hoc Working Groups for the map options should reconvene, and address issues raised by the public.

## **Public Hearing No. 4**

Because of the lengthy testimony – 114 public speakers – the Commissioners decided to wait to discuss the map options until their scheduled special meetings. The Ad Hoc Working Groups were to incorporate the public input from Public Hearing No. 4 into their analyses.

The Ad Hoc Working Groups prepared one map option each, which they presented at the next special meeting. One of the map options involved consolidation of two of the earlier maps into one map option. These two map options became the basis for further refinements.

## **FINAL MAP SELECTION**

The final map is described in Chapter A.2.

Districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party. (Elections Code section 21534, subd. (b).)

**Section 3.03 Public Records.** All records of the Commission related to redistricting and all data considered by the Commission in drawing the draft and final maps are public records. (Elections Code section 21534, subd. (d)(1).)

Commissioners may use their personal email address for outgoing email related to Commission business only if the Commissioner also copies their official email address in all such correspondence. Each Commissioner shall promptly forward all email related to Commission business sent to their personal email address to their official Commission email address unless the incoming email copied the Commissioner's official email address in the first instance.
- (b) **Representing the Commission.** The Co-Chairs are the only official spokespersons for the Commission unless this responsibility is delegated in writing by the Co-Chairs or by a

vote of nine (9) Commissioners. Except as provided in this paragraph, no Commissioner shall make any statement or take any action taken on behalf of or in the name of the Commission. This does not prevent Commissioners from disseminating information in the name of the Commission regarding the time, place, or agendas of upcoming Commission meetings or hearings.

(c) **Communications Outside of Open Meetings or Hearings.**

- (1) **Prohibition Regarding LA County Supervisors.** Except during a public meeting, workshop or hearing, a Commissioner shall not intentionally communicate with a member of the Board, an agent for a member of the Board, or any of a Board member's immediate family members regarding redistricting of Los Angeles County supervisorial districts (other than the time, place, or agendas of upcoming Commission meetings or hearings). A Commissioner shall promptly summarize and report any such communication that arises unintentionally to the Clerk of the Commission.
- (2) **Prohibition Regarding All Other Parties.** Except during a public meeting, workshop or hearing, a Commissioner shall not intentionally communicate with a member of the public, organization, or interest group regarding the specific placement of supervisorial district boundaries in Los Angeles County. A commissioner shall promptly summarize and report any such communication that arises unintentionally to the Clerk of the Commission. Nothing in this subsection shall be construed as prohibiting a Commissioner from communicating outside of a public meeting, workshop or hearing with a member of the public, an organization, or an interest group regarding best practices, accessibility, education, and outreach.
- (3) **Reporting Requirement for Other Communications.** Except during a public meeting, workshop, or hearing, if a Commissioner directly communicates with anyone other than another Commissioner, LA County CRC staff, legal counsel, consultants retained by the Commission or experts to learn about general redistricting principles, regarding a redistricting matter that might come before the Commission other than the specific placement of district boundaries (which is covered in subparagraph (2) above), the Commissioner shall promptly forward originals or copies of all involved written or electronic communications to the Clerk of the Commission. For unrecorded verbal or other communication, a Commissioner shall promptly prepare a written summary of the communication and transmit the summary to the Clerk.
- (4) **Full Commission Awareness of Communications.** The Clerk of the Commission shall electronically distribute copies of, or links to, all reports or other materials the Clerk receives pursuant to paragraph (1)-(3) above to all Commissioners and post a copy of each communication or report on a Commission-approved website within one full business day of receipt.
- (5) **Log of Communications.** The Clerk of the Commission shall keep and post on a Commission-approved website a log of all substantive communications regarding

redistricting or administrative matters received by the Commission or Commissioners outside of public meetings or hearings. This log shall include at least the following: the name of the person or organization communicated with, date of communication, and a general description of where the communication or a summary thereof can be located on a Commission-approved website.

- (d) **Information Regarding Meetings/Hearings.** Nothing in this Section (4.08) prevents Commissioners from disseminating information regarding the time, place, or agendas of upcoming Commission meetings or hearings, and Commissioners are not required to report or disclose such communications under subsections (1)-(3) above.
- (e) **Internet/Social Media.** Commissioners should keep in mind the provisions of Section 4.04 and are encouraged to use caution when communicating about redistricting on any internet platform or social media website, including the use of any digital icons that express emotion.

## APPENDIX C.2 – COMMISSIONER SELECTION PROCESS

This Executive Director report outlines the process for selecting the County of Los Angeles Citizens Redistricting Commission (LA County CRC) Commissioners. The LA County CRC did not become an official commission until all 14 Commissioners were selected by the State's required deadline of December 31, 2020.

### OVERVIEW

The LA County CRC was established by State legislation (Senate Bill (SB) 958), effective January 1, 2017.<sup>1,2</sup> LA County CRC's role is to redraw Supervisorial District boundaries following the Federal census.

The Commission is required to reflect the County's diversity, including racial, ethnic, geographic, and gender diversity. The applicants are required to demonstrate they possess the following experience:

- Analytical skills relevant to the redistricting process and voting rights
- An ability to comprehend and apply the applicable State and Federal legal requirements
- Ability to be impartial
- An appreciation for the diverse demographics and geography of Los Angeles County

The political party preferences of the LA County CRC Commissioners are not required to be exactly the same as the proportion of political party preferences among the registered voters of Los Angeles County; however, they must be as proportionate as possible.

### SELECTION PROCESS

The selection process involved three phases, involving different review groups to reinforce the LA County CRC's independence from the BOS:

- Phase 1 – Screening of applications by the County of Los Angeles Registrar-Recorder/County Clerk (RR/CC) to identify the pool of 60 most qualified applicants

---

<sup>1</sup> SB 958, Lara; Stats. 2016, Ch. 781

<sup>2</sup> The law governing the LA County CRC and the once-a-decade selection of its members is codified in Division 21, Chapter 6.3 (commencing with Section 21530) of the State Elections Code.

# LOS ANGELES COUNTY REDISTRICTING 2021

- Phase 2 – Random selection of eight Commissioners from the RR/CC’s pool of 60 most qualified applicants by the County of Los Angeles Auditor-Controller
- Phase 3 – Selection of the final six Commissioners from the remaining 52 most qualified applicants by the eight randomly selected Commissioners

## Phase 1 – Applications and Development of the 60 Most Qualified Applicant Pool

RR/CC received 741 applications by September 8, 2020. The RR/CC reviewed the applications and narrowed the applicant pool to 533 qualified applicants, based on specific requirements of Los Angeles County residency, voter registration, and election participation. The RR/CC separated demographic information from the review of subjective questions to eliminate potential bias. The RR/CC then assigned RR/CC staff to independently review the applications.

RR/CC identified the pool of 60 most qualified applicants, averaging 12 applicants per Supervisorial District. The purpose of the 30-day review period was to allow the public to identify any applicants who might not be qualified, based on the Election Code qualification requirements. The RR/CC submitted these names to the Auditor-Controller after the 30-day public review period.

Attachment A-1 lists the [RR/CC’s 60 most qualified applicants](#).

## Phase 2 – Random Selection of Eight Commissioners

The Auditor-Controller conducted random drawings during the BOS’ meeting on November 24, 2020, selecting 1 Commissioner from each of the 5 existing Supervisorial Districts and 3 Commissioners randomly drawn from RR/CC’s remaining 55 most qualified applicants.

Here is the link to view the live random drawing from a bingo-style drum:

## Phase 3 – Selection of Six Additional Commissioners

In accordance with Elections Code section 21550(g), the 8 randomly selected Commissioners reviewed the RR/CC’s remaining 52 applicants with the goal of selecting 6 additional Commissioners. To accomplish this goal, the Commissioners met during four public special meetings between December 14, 2020, and December 28, 2020. Recordings of each of these LA County CRC meetings can be viewed at:

- December 14, 2020, meeting: <https://youtu.be/lpwG3X1ad8U>

- December 26, 2020, meeting: <https://youtu.be/DVFWpSkyUME>
- December 28, 2020, meeting: <https://youtu.be/gISNsypnVMY>

At each public special meeting, the Commissioners received public comments regarding the process, RR/CC’s list of most qualified applicants, and future considerations.

### December 14, 2020, Special Meeting

The Commissioners considered five options for evaluating the remaining 52 applicants. They opted to use a holistic approach in which they read applications and rated applicants in terms of the applicants' overall analytical skills relevant to redistricting/voting rights, State and Federal legal requirements, impartiality, and appreciation of LA County’s diverse demographics and geography. They agreed to:

- Ensure applicants had at least two Commissioners review their applications; each Commissioner reviewed 12 to 13 applications randomly assigned to him/her/them.
- Provide latitude to Commissioners to evaluate more of the RR/CC’s most qualified applicants if they wanted to

The Commissioners agreed to apply a 10-point scale, displayed in Table 1, that distinguished gradations of the holistic criterion among the remaining 52 applicants.

## December 21, 2020, Special Meeting

The Commissioners acknowledged the valued experiences of the remaining 52 applicants. On average, the Commissioners each reviewed 27 applications for a total of 215 application reviews. Applications had an average of 4 Commissioner reviews.

Overall, 12 applicants (23% of the subpool) scored ratings of 8.0 or above; another 11 applicants (21% of the subpool) were in the 7.0 to 7.9 ratings range, as displayed in Table 2.

Table 2: Distributing of Commissioners' Ratings

Commissioners' Ratings	Remaining 52 Applicants	
	Number	Percent
8.0 or above	12	23%
7.0-7.9	11	21%
6.0-6.9	15	29%
5.0-5.9	5	10%
4.0 or below	9	17%
<b>Total</b>	<b>52</b>	<b>100%</b>

The Commissioners initially focused on the applicants rated 7.0 and above on the 10-point rating scale to see if they could meet the other criteria within this group.

The LA County CRC application that each applicant submitted to RR/CC has a privacy waiver that allows the County to disclose the applicant's city and supervisorial district but does not permit release of their physical or mailing addresses. As a result, the LA County CRC Executive Director was able to obtain city or unincorporated area information for the 60 most qualified applicants for the December 21, 2020, meeting. The Attachment lists the location of the RR/CC's most qualified applicants (**cities or unincorporated areas are in green**).

Once the Commissioners reviewed these new data points, the Commissioners agreed to expand their discussions and deliberations of the remaining 52 qualified applicants to ensure the Los Angeles County political party affiliation and geographic and demographic diversity requirements were met. For example, some of the remaining 52 applicants rated 7.0 or higher resided in neighborhoods that were the same as or adjacent to the 8 Commissioners.

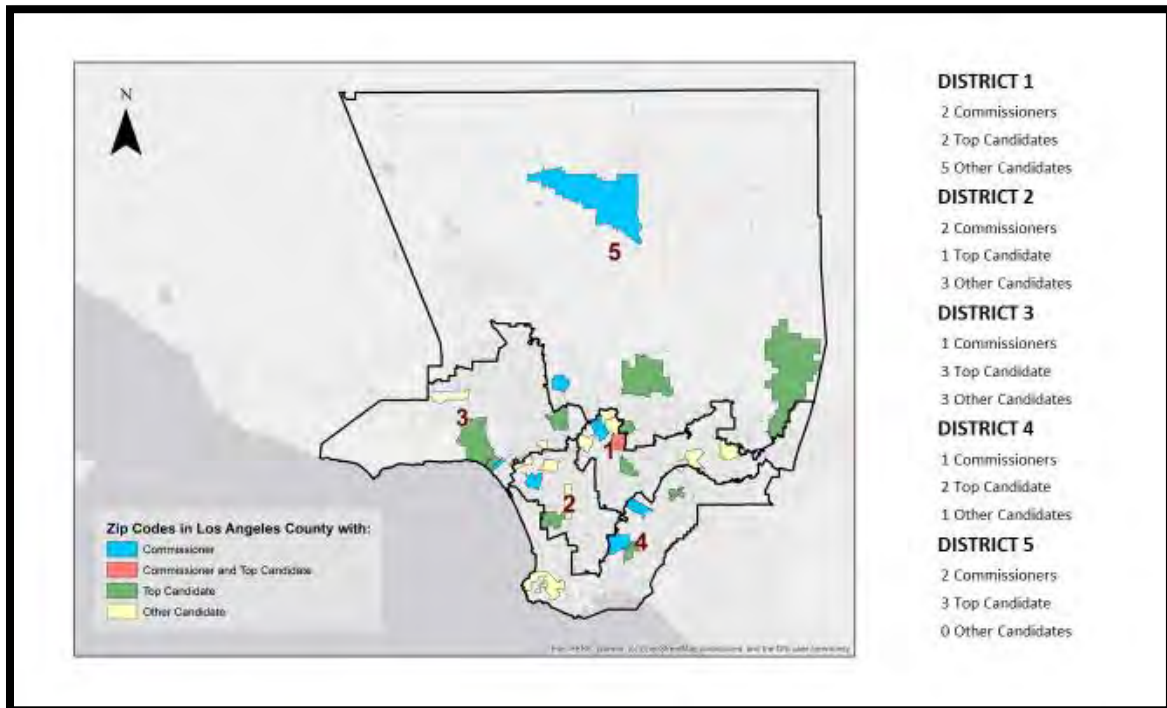

# LOS ANGELES COUNTY REDISTRICTING 2021

## December 26, 2020, Special Meeting

The Commissioners analyzed a series of maps that LA County CRC staff developed that indicated the geographic location of the eight Commissioners and most qualified applicants under consideration.

This discussion led to the Commissioners refining their list of applicants and agreeing to each develop their own individual "Slate of 6" to share at the next meeting.

## December 28, 2020, Special Meeting

The Commissioners shared their rationales for their Slates of 6. After further deliberations, a commissioner made a motion for a proposed Slate of 6, which was seconded and approved by a vote of seven to one among the Commissioners.

Table 3 lists the 14 Commissioners, listed alphabetically by last name.

## SELECTED COMMISSIONERS' DEMOGRAPHICS

The Attachment presents additional information, including the Commissioners' political party affiliations, demographics, and geographic distribution.

### Political Party Preference

The California Election Code requires that:

*"The commission shall consist of 14 members. The political party preferences of the commission members, as shown on the members' most recent affidavits of registration, shall be as proportional as possible to the total number of voters who are registered with each political party in the County of Los Angeles or who decline to state or do not indicate a party preference, as determined by registration at the most recent statewide election. However, the political party or no party preferences of the commission members are not required to be exactly the same as the proportion of political party and no party preferences among the registered voters of the county."<sup>3</sup>*

<sup>3</sup> Elections Code § 21532(c).

# LOS ANGELES COUNTY REDISTRICTING 2021

As of January 5, 2021, RR/CC reports that Los Angeles County has 5.8-million registered voters.<sup>4</sup> Table 4 displays the political party affiliations of registered voters in Los Angeles County.

Table 4: Number of Registered Voters by Political Party Affiliation in Los Angeles County<sup>5</sup>

Unknown/Other	75,192	1.293%	1%
	5,813,167	100.000%	Approx. 100%

The Attachment lists the political party preferences (in purple) of the RR/CC's 60 most qualified applicants. Among the remaining 52 applicants, there was one Green Party member and none from the American Independent, Libertarian, or Peace & Freedom Parties.

The Commissioners discussed whether it would be unfair or unconstitutional to eliminate qualified applicants at this phase simply for being in a small party preference group. They then decided to follow the lead of the California Citizen Redistricting Commission and consider Not Democrat/Not Republican party preference

<sup>4</sup> Overall, 73% of the Los Angeles County population is over age 18 (n=7.3 million); thus, 79% of the eligible population are registered voters.

voters as a single group.<sup>6</sup> This “NDR” category includes all registered voters who are not registered as preferring either the Democratic or the Republican parties.

Table 5 displays the calculations the Commissioners used for considering political party affiliation makeup of the LA County CRC, considering three groups: Democrat, Republican, and NDR.

The Commissioners then focused on balancing the LA County CRC’s political party affiliation, based on this new breakdown and displayed in Table 6.

## Reflection of LA County Diversity and Demographics

The law governing the Commission states that the Commission member:

<sup>6</sup> See California Constitution, Article XXI, Sec. 2(c)(2).

# LOS ANGELES COUNTY REDISTRICTING 2021

*“...selection process is designed to produce a commission that is independent from the influence of the board and reasonably representative of the county’s diversity.”<sup>7</sup>*

It requires that the first eight Commissioners appoint the final six Commissioners:

*“...based on relevant experience, analytical skills, and ability to be impartial, and to ensure that the commission reflects the county’s diversity, including racial, ethnic, geographic, and gender diversity,” without applying “formulas or specific ratios.”<sup>8</sup>*

To comply with the law, the eight Commissioners did not use such statistics to generate specific ratios or to develop or apply formulas. Commission staff prepared the next summary tables (Table 7 Through Table 10) after the final selection of Commission members.

Los Angeles County population demographics used for assessing this reflection in this report are based on the U.S. Census Bureau’s most recent estimates: <https://www.census.gov/quickfacts/fact/table/losangelescountycalifornia#> (July 1, 2019).

The Attachment lists the demographic information (in blue).

## Age Ranges

The Commissioners range in age from 31 to 73 years. In Los Angeles County, approximately 27% of the population is under age 18 and, therefore, not eligible to register to vote. Another 59% of the Los Angeles County population is between ages 18 and 64; 14% are age 65 or older.

Approximately 71% of the Commissioners are between age 30 and 64; 29% of the Commissioners are age 65 or older, as displayed in Table 7.

## APPENDIX C.3 – FILLING A VACANCY PROCESS

This document supplements the “Commissioner Selection Process” report because of the resignation of former Commissioner Priya Sridharan on April 17, 2021, and her replacement by Commissioner Mary Kenney, effective May 19, 2021, on the County of Los Angeles Citizens Redistricting Commission (LA County CRC).

Please go to our website at <https://redistricting.lacounty.gov/> for additional details:

- LA County CRC’s purpose to redraw Supervisorial District boundaries following the Federal census and related information
- Commissioner Selection Process report available at: <https://redistricting.lacounty.gov/wp-content/uploads/2021/03/CRC-Selection-Process-210127-FINAL-rev-2.pdf>

### PROCESS TO FILL VACANCY

The selection process involved the Co-Chairs Carolyn Williams and Dan Mayeda convening an Ad Hoc Working Group of three other Commissioners who volunteered: Commissioners Mark Mendoza, Saira Soto, and John Vento. Thus constituted, the Ad Hoc Working Group consisted of members who are registered Democrat, Republican, and Neither Democrat nor Republican (NDR). It also reflected a mixture of races/ethnicities and genders.

Because the vacancy created an increased imbalance in gender, the Ad Hoc Working Group focused on the remaining highly qualified applicants who were female. They each selected up to 5 top candidates, many of whom appeared on multiple lists. The Co-Chairs directed the Executive Director, Gayla Kraetsch Hartsough, to reach out to the tentative list of 7 top candidates who appeared on more than one Working Group member’s list to confirm:

- Their continued interest and availability

9 This report also outlines related State legislation (Senate Bill (SB) 958), effective January 1, 2017. The law governing the LA County CRC and the once-a-decade selection of its members is codified in Division 21, Chapter 6.3 (commencing with Section 21530) of the State Elections Code.

# LOS ANGELES COUNTY REDISTRICTING 2021

- Their continued residency in Los Angeles County
- Their continued lack of any conflict of interest as per the Senate Bill requirements

Three of these candidates were eliminated from consideration because of potential conflicts of interest or residency changes.

This Ad Hoc Working Group engaged in a vigorous two-hour discussion to review the remaining candidates and ultimately reached consensus on their top candidate who they wished to put forward to the full Commission for approval: Mary Kenney. Co-Chair Williams reached out to Ms. Kenney to alert her that her name would be put forth at the May 12, 2021, regular meeting of the LA County CRC.

At the May 12, 2021, regular meeting, Co-Chair Mayeda outlined the process and Co-Chair Williams presented the qualifications and criteria that the Ad Hoc Working Group considered in recommending Mary Kenney to fill the Commissioner vacancy.

A motion was made and seconded. The motion was passed to appoint Mary Kenney as a Commissioner. She took her Oath of Office at a Special Meeting on May 19, 2021.

## UPDATE ON COMMISSIONERS' DEMOGRAPHICS

With the addition of Commissioner Kenney, the demographics of the LA County CRC changed but continue to reflect the County's demographic profile.

### Political Party Preference

The political party preferences of the LA County CRC Commissioners are not required to be exactly the same as the proportion of political party preferences among the registered voters of Los Angeles County; however, they must be as proportionate as possible.<sup>10</sup> With the resignation of Commissioner Priya Sridharan and

<sup>10</sup> The California Elections Code § 21532(c) requires that: "The commission shall consist of 14 members. The political party preferences of the commission members, as shown on the members' most recent affidavits of registration, shall be as proportional as possible to the total number of voters who are registered with each political party in the County of Los Angeles or who decline to state or do not indicate a party preference, as determined by registration at the most recent statewide election. replacement by Commissioner Mary Kenney, the LA County CRC’s political party affiliations changed from 8 Democrats to 7 Democrats and from 2 Republicans to 3 Republicans, as displayed in Table 1. As Table 1 reveals, the final political party preferences in the Commission are as proportionate as reasonably possible to the registered voters in Los Angeles County.

12 Elections Code § 21523(b) governing the Commission states that the Commission member: “...selection process is designed to produce a commission that is independent from the influence of the board and reasonably representative of the county’s diversity.”

## Race/Ethnicity Representation

Table 2 displays the Commissioners' current racial/ethnic makeup with the change in Commissioners, compared to Los Angeles County. As Table 2 reveals, the final racial/ethnic makeup of the Commission is reasonably reflective of the County's diversity in terms of race and ethnicity.

## APPENDIX C.5 – OUTREACH PLAN

### I – INTRODUCTION

The Los Angeles County Citizens Redistricting Commission (LA County CRC) is charged with developing the 2021 Decennial Redistricting Plan. Redistricting is important to:

- Provide fair and effective representation for all the people of the County
- Enhance the opportunity of all voters to elect candidates of their choice
- Meet the requirements of applicable laws

The U.S. Census Bureau provides a snapshot of how many people there are and where they live. Every ten years, the United States attempts to count every person in the country in its Decennial Census, as mandated in the U.S. Constitution (Article I, Section 2). Because of COVID-19, the end date for the 2020 Decennial Census was extended to October 15, 2020.

#### Public Outreach Plan Purpose

The purpose of this Public Outreach Plan is to promote and urge participation by Los Angeles County residents in this important task through:

- A County Redistricting Website: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov)
- Community outreach, including public hearings and workshops (Chapter II)
- A process for developing and submitting Redistricting Plans (Chapter III)
- A review process and public access to view submitted Redistricting Plans (Chapter III)

Chapter III also presents a Timetable for the public outreach and access initiative.

#### Overview

##### What is redistricting?

Every ten years, supervisorial districts must be redrawn so that each district is substantially equal in population. This process, called redistricting, is important in ensuring that each BOS Supervisor represents about the same number of constituents. In the County of Los Angeles, the LA County CRC is responsible for drawing these supervisorial districts. Redistricting is done using Census data, which is usually released around

# LOS ANGELES COUNTY REDISTRICTING 2021

March 31, 2021, but is expected to be delayed until June or July 2021 due to the COVID-19 pandemic. For the County of Los Angeles, the redistricting process must be completed by December 15, 2021.

## Why is redistricting important?

Redistricting determines which neighborhoods and communities are grouped together into a supervisorial district for purposes of electing a Board of Supervisor member. Our independent redistricting commission, made up of members of the public, are responsible for redrawing the next district map for our supervisorial districts. You have an opportunity to share how you think district boundaries should be drawn to best represent your community.

## How is redistricting different this time?

In the past, the BOS appointed an advisory Boundary Redistricting Committee (BRC) to study proposed changes to the boundaries. The BOS could make revisions before adopting the final redistricted boundaries.

Today, the Los Angeles County Citizens Redistricting Commission (LA County CRC) is independent of the BOS. In 2016, the California Legislature passed Senate Bill 158 requiring Los Angeles County to assemble an independent Citizens Redistricting Commission, following the Federal Decennial Census. The LA County CRC consists of 14 Commissioners. The LA County CRC is assisted in its work by staff, consultants, subject matter experts, and independent legal counsel.

## How can the public participate safely in redistricting, given the COVID-19 pandemic?

The COVID-19 pandemic has affected everyone's lives, including how to effectively reach out to communities interested in redistricting.

The LA County CRC wants active public participation for input and dissemination of redistricting information. Individuals can sign up for meeting information at: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov)

The public can attend and speak at virtual LA County CRC meetings and public hearings and submit maps with proposed Supervisorial District boundaries. The LA County CRC meetings and public hearings are also broadcasted live and recorded at: <https://www.youtube.com/LACountyRedistricting/>

## How will LA County CRC work with trusted Community-Based Organizations (CBOs) to reach Los Angeles County's diverse communities?

The LA County CRC welcomes participation from individuals as well as organizations.

# LOS ANGELES COUNTY REDISTRICTING 2021

This Public Outreach Plan builds on lessons learned from the 2020 Census outreach during COVID-19. The LA County CRC outreach strategy is to build on County of Los Angeles departments, the 88 cities in the County, unincorporated areas, and other interested and trusted community-based organizations (CBOs).

The LA County CRC will provide toolkits in the County's 12 threshold languages, including:

- Ready-to-use talking points
- Electronic handouts and flyers
- Text to send messages via Twitter, Facebook, and other social media platforms

The LA County CRC will also reach out to local ethnic media outlets that routinely engage diverse communities.

### Where can Los Angeles County residents find information about LA County CRC?

Other LA County CRC information is available through:

- LA County CRC website: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov)
- Videos recordings of LA County CRC meetings and public hearings at: <https://www.youtube.com/LACountyRedistricting/>
- Webinars of the 7 public hearings in the Spring 2021 and 2 public hearings in the Fall 2021
- Webinars on redistricting, mapping tools, and proposed redistricting map options

### How will delays in the issuance of the 2020 Census data affect public outreach?

The deadline to complete the 2020 Census was extended. This extension directly affects redistricting efforts, particularly the availability of 2020 Census data. In turn, the delivery of the 2020 Census data will affect the amount of time available to analyze and develop redistricting maps – by the public and the Commissioners.

The LA County CRC Commissioners must approve the final Redistricting Plan and maps by December 15, 2021.

- The U.S. Census Bureau anticipates a release date of September 30, 2021, of the 2020 Census data.

COMMUNITY-BASED ORGANIZATIONS (CBOs) ARE TYPICALLY LOCAL NON-PROFIT GROUPS THAT WORK TO GENERATE IMPROVEMENTS WITHIN A COMMUNITY ON THE LOCAL LEVEL. CBOs MAY INCLUDE COMMUNITY, NONPROFIT, FAITH-BASED (CHURCHES AND RELIGIOUS GROUPS), LGBTQIA+, AND RACIAL/ETHNIC ORGANIZATIONS, AMONG OTHERS.

# LOS ANGELES COUNTY REDISTRICTING 2021

- The State of California will then need 30 days to adjust the 2020 Census data to reflect actual residency of incarcerated individuals.

It is important that the LA County CRC outreach efforts begin this Spring to build momentum and increase involvement so that the public is ready to prepare and submit redistricting maps when the U.S. Bureau of the Census releases 2020 Census data.

For more information on LA County CRC and redistricting, go to: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov)

# LOS ANGELES COUNTY REDISTRICTING 2021

## II – PUBLIC ACCESS AND OUTREACH

Consistent with the commitment to promote public participation in the redistricting process, this Public Outreach Plan seeks to ensure the widest practicable participation and dissemination of pertinent redistricting information and materials.

### LA County CRC Redistricting Website

The LA County CRC Redistricting Website will be the primary source to disseminate all redistricting information and materials, including online redistricting software for the public to develop and submit Redistricting Plans for LA County CRC consideration.

The LA County CRC redistricting website is: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov). Information posted includes:

- “Home Page,” which provides an Introduction, sign-up for more information, and privacy/terms and addresses such questions as:
  - What is Redistricting?
  - Why is Redistricting important?
  - What criteria will be used for drawing district lines?
  - How can the public participate in Redistricting?
- “About Us,” including the Selection Process, Commissioners, Bylaws and Values, and Commission Staff
- “Meetings,” including:
  - 2021 Virtual Meetings
  - 2020 Meetings to Select Commissioners
  - Calendar for the Year
- “Community Outreach”
  - Public Outreach Plan
  - Spring Public Hearings
  - Fall Public Hearings
  - Press Releases

# LOS ANGELES COUNTY REDISTRICTING 2021

- “Making a Redistricting Map,” including the current SD map and information about training and use of the mapping software
- “Want to Know More?” listing Legal Resources, Frequently Asked Questions, and Glossary of Terms

Users can access different foreign languages by using Google translator on the website.

The LA County CRC will initially have a soft launch of the website to announce its regular meetings, which will allow time to refine it. The hard launch of the website will occur in the Spring 2021 to promote the workshops and public hearings for widespread participation.

## Other LA County CRC Communication Vehicles

In addition to the LA County CRC website, the public can contact LA County CRC by:

- Mail: Los Angeles County Citizens Redistricting Commission, P.O. Box 56447, Sherman Oaks, CA 91413
- Telephone: (818) 907-0397
- Email to the LA County CRC Executive Director: [ghartsough@crc.lacounty.gov](mailto:ghartsough@crc.lacounty.gov)
- County of Los Angeles Executive Office: [CommServ@bos.lacounty.gov](mailto:CommServ@bos.lacounty.gov) for submission of written public comments

## Building on Existing Organizational Networks

Given the rapid ramp up and the short timeframe for redistricting, the LA County CRC’s best strategy is to work with agencies and organizations interested in redistricting that already have established networks and distribution channels.

To facilitate their involvement, the LA County CRC staff will:

- Build on the Census 2020, County departmental, CBO, business, and related networks
- Develop toolkits in multiple languages for promoting redistricting events
- Recruit a broad cross-section of organizations with distribution channels that can promote accessibility to the redistricting process and activities both through traditional channels and in languages beyond English

# LOS ANGELES COUNTY REDISTRICTING 2021

## Toolkits

LA County CRC will develop toolkits in multiple languages for cities, agencies, and organizations to use to distribute redistricting information via their social networks (e.g., Twitter, Instagram, Facebook, WeChat), websites, pop-up events, and email.

## Target Networks

The table lists the target networks, form of engagement, and contact resources. The Attachment lists many of these organizations as a starting point for public outreach. These organizations, among others, will be added through GovDelivery to ensure they receive timely information about LA County CRC meetings, workshops, public hearings, mapping opportunities, and other bulletins and updates.

These organizations will receive:

- Emailed notifications of LA County CRC agenda, meetings, public hearings, workshops, redistricting plan submission process, and other related information
- Toolkits in multiple languages to share with their databases and networks and post on their websites, Facebook pages, and other social media
- Invitation to the Outreach Workshops proposed for Spring 2021

## Outreach Workshops

LA County CRC staff will organize two Outreach workshops this spring (probably March), prior to the outreach efforts of the first 7 public hearings.

- Outreach Workshop #1: Community-Based Organizations.** Outreach Workshop #1 will focus on engaging CBOs. Given COVID-19, the contacts for some of these organizations may have changed and will need to be confirmed.
- Outreach Workshop #2: Cities, County Departments, and Other Governmental Agencies.** Outreach Workshop #2 will involve the 88 cities, educational enterprises, County departments, and other governmental agencies so they are on board in supporting the LA County CRC's redistricting efforts.

The purpose of these two Outreach Workshops is to:

- Identify the organizations that are the "influencers"
- Solicit their input to refine the LA County CRC approach

# LOS ANGELES COUNTY REDISTRICTING 2021

- Solicit their involvement and support to help engage the diverse communities in Los Angeles County
- Explore how these organizations can support the public outreach efforts:
  - Coalition building
  - Digital, print, media outreach
  - Conducting redistricting mapping workshops
  - Building redistricting maps for LA County CRC consideration
  - Providing language translation support services
- Identify the organizations' reach in terms of communities of interest, Supervisorial Districts, racial/ethnic groups, and other demographic factors
- Pinpoint ways that residents who are not affiliated with an organization can locate organizations that align with their interests and that they might opt to work with
- Identify coverage gaps to pinpoint other organizations to recruit and involve in the redistricting activities

These gaps may be based on a variety of factors, such as:

- Age groups (e.g., young people, seniors, and older adults)
- Racial/ethnicity groups
- Geography (Supervisorial Districts or County regions (Note: The County has 8 Service Planning Areas (SPAs).))
- People with disabilities
- LGBTQ individuals and families
- Households with Limited English Proficiency (LEP)
- Addressing digital divide issues by enabling residents to work with trusted CBOs

## Email Lists

To date, the LA County CRC Executive Director has compiled some emails lists for promoting the 7 public hearings in the Spring 2021 and subsequent LA County CRC activities, including the 2 public hearings in the Fall 2021:

Email Lists	Size
Current Distribution of LA County CRC Bulletins through GovDelivery	1,200
Los Angeles County 2020 Census	1,900
LA County CRC sign-ups	<100
Los Angeles City 88 Neighborhood Councils (DONE)	
▪ Neighborhood Council Board members	1,800
2011 Border Redistricting Committee outreach	1,100
Media outlets	721

The LA County CRC will continue to use GovDelivery for distributing bulletins, flyers, updates, and notices via email. Commissioners may reinforce the communications by forwarding such LA County CRC information through their contacts and networks.

The assumptions are that:

- The database will grow as the 7 public hearings are launched this Spring 2021.
- If the participate levels in the 7 public hearings are low, the LA County CRC will consider other strategies to bolster involvement (e.g., stipends to CBOs to get the word out, increases to the media buy budget)
- The networks include a diverse cross-section of Los Angeles County, including cities, residents of cities and unincorporated areas, CBOs, special interest groups (e.g., voter rights, ethnic focus, community focus, handicapping conditions), business chambers, and others

## **Media Outlets and Media “Buys”**

### Approach to Media

The proposed approach to media for the LA County CRC involves a mix of traditional and non-traditional media to:

# LOS ANGELES COUNTY REDISTRICTING 2021

- Build awareness among Los Angeles County residents
- Drive residents to the website to learn about redistricting
- Motivate residents to attend public hearings and submit input into the redistricting maps
- Generate awareness about redistricting among residents, including residents who may be learning about redistricting for the first time
- Educate the community on the importance of providing fair and effective representation on the Board supervisors for the people residing in the County
- Leverage multi-cultural media to reach Los Angeles County's diverse populations

Rather than a scatter approach, the Public Outreach Plan focuses on a “zero in” approach within the community where our target audience works, lives, and plays. This approach allows the LA County CRC to increase messaging and expand our limited advertising budget.

## Media Platforms Overview

Because of Los Angeles County's diverse demographics and fragmented media, the county's market is unique with different media consumption patterns and habits. Consumer patterns have also shifted during the pandemic. Residents are spending more time on their phones, computers, and tablets so digital promotion will be important. Similarly, residents are more apt to see promotional materials at grocery, convenience, and pharmacy stores versus malls and other popular venues of the past.

LA County CRC has budgeted \$100,000 for media buys. Although that dollar amount may seem sizeable, it is not comparison to the actual cost of radio, TV, and social media. Therefore, a tactical approach for leveraging these dollars is vital. To leverage the available dollars, the LA County CRC will need to vary the advertising media mix depending on the needs.

Some of the media platforms that may or may not be included in the mix are described next.

## Television

Television is the most trusted form of advertising, generating mass target audience reach. Television allows an organization to convey the message with sight, sound, and motion, which gives instant credibility. According to recent studies on media consumption habits of average Americans and despite the internet's steady rise in popularity during the last few years, television remains a dominant medium in most U.S. households. On average, the general population spends more than 3.5 hours per day in front of their television, making TV watching one of the most common modern leisure activities.

# LOS ANGELES COUNTY REDISTRICTING 2021

## Radio

Radio is a frequency building medium when used in conjunction with visual mediums. Radio reinforces messaging and helps increase frequency levels. Besides the typical radio spots, digital (mobile/desktop), social media (Facebook and Instagram), and community affairs on-air interviews will be considered.

## Outdoor Advertising

Outdoor advertising is a branding reinforcement delivery vehicle, which is highly geographically targetable and reinforces other media platform messages. Outdoor advertising reinforces the message when viewers are away from their homes during the course of daily activities and when combined with TV and radio, reaches a mobile audience, and can offer a layer of sight and sound.

## Newspapers

Newspapers have a longer shelf-life medium. Local newspapers help add credibility and legitimacy to any brand or messaging. Newspaper supports outdoor and online platforms to provide further details about redistricting messaging. Some key values of newspaper are that the ads can be saved for future reference and discussion. Newspapers also provide a visual channel that increases message frequency and target reach among those residents not already reached by other media platforms. Newspapers can potentially reach stakeholders, city officials, and community influencers.

## Social Media Networks

In addition to leveraging the social networks of the various CBOs, County departments, and cities, the LA County CRC may want to build its own social networks, such as: LA County CRC Facebook page, LA County CRC Instagram, or Hashtags (e.g., #redistrictinglacounty2021 or #redistrictinglacounty).

The LA County CRC could also explore other forums and platforms (e.g., Next Door, Zócalo Public Square) as a means to reach County residents through other vehicles.

# LOS ANGELES COUNTY REDISTRICTING 2021

## III – PUBLIC INVOLVEMENT

### Overview

Seven public hearings will occur before the LA County CRC begins any remapping of the Supervisorial Districts. Once the 2020 Census data and mapping software are available, the public can develop maps for submission and consideration by the LA County CRC. On the basis of this input, the LA County CRC will develop its proposed redistricting map(s) for further feedback. Two public hearings will occur prior to the LA County CRC's final adoption of a Los Angeles County 2021 Decennial Redistricting Plan by December 15, 2021.

A listing of all scheduled LA County CRC meetings and Public Hearings, as well as recordings and summaries of them, will be posted on the LA County CRC website at: [www.redistricting.lacounty.gov](http://www.redistricting.lacounty.gov)

LA County CRC meetings and public hearings will be conducted virtually and broadcasted live on YouTube because of COVID-19 until further notice: <https://www.youtube.com/LACountyRedistricting/> Because the public hearings will be virtual, we can conduct survey polls of attendees to identify how many attended, by Supervisorial District.

### Threshold Languages

County of Los Angeles commissions request 72-hours notification for translation services for regular and special meetings.

# LOS ANGELES COUNTY REDISTRICTING 2021

The Election Code requires that the LA County CRC provide translation services within 24-hours notification for the 7 public hearings in the Spring 2021 and the 2 public hearings in the Fall 2021. The threshold is “a language for which the number of residents of the County of Los Angeles who are members of a language minority is greater than or equal to 3 percent of the total voting age residents of the county.” As a result, the threshold languages in Los Angeles County are:

1. Armenian	7. Tagalog/Filipino
2. Chinese	8. Vietnamese
3. Cambodian/Khmer	9. Hindi
4. Farsi	10. Japanese
5. Korean	11. Thai
6. Spanish	12. Russian

In Los Angeles County, approximately 25% of the population is characterized as Limited English Proficiency (LEP). These 12 threshold languages represent 96% of Los Angeles County’s LEP population. The remaining 4% of the LEP population speak more than 100 different languages and represent approximately 97,000 residents.

The Webinar platform allows the capability to provide links to interpreters who can simultaneously translate the public hearings: 80% volume for the interpreters and 20% volume for the speakers so individuals can listen to both if they like.

Similarly, if requested, the LA County CRC will retain American Sign Language (ASL) interpreters with magnified screens to provide simultaneous interpreting during the LA County CRC Zoom virtual meetings, workshops, and public hearings.

## Timetable

With the latest update from the U.S. Bureau of the Census will not be releasing the 2020 Census data until September 30, 2021, the LA County CRC will have more time to hold the initial 7 public hearings, but a compressed timeline for the public to submit plans, the LA County CRC to review them, and the Commissioners to prepare their proposed LA County CRC Redistricting Mapping Plan.

## Redistricting Map Submissions

### Criteria for Redistricting Maps

District lines will be adopted using the following criteria in order of priority:

1. Each district shall be reasonably equal in total resident population to the other districts, except where deviation is required to comply with the Federal Voting Rights Act of 1965 or allowable by law.

# LOS ANGELES COUNTY REDISTRICTING 2021

2. Districts shall comply with the Federal Voting Rights Act of 1965.
3. Districts shall be geographically contiguous.
4. The geographic integrity of city, local neighborhood, or community of interest shall be respected in a manner that minimizes its division.
5. To the extent practicable, and where it does not conflict with numbers 1-4 above, districts shall be drawn to encourage geographic compactness.

Besides the above criteria, districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party.

## Submission Time Frame

The LA County CRC will be reviewing submitted Redistricting Plans beginning in late August 2021.

- Redistricting Plans may be submitted electronically using the County-provided redistricting software or by other means.
  - The redistricting software will review plans to ensure they conform with the redistricting criteria, legal requirements, and quality checks. If they plans have an issue, the software will alert the user regarding the problem area(s) to address before submitting.
- Redistricting Plans submitted not using the County's redistricting software will require LA County CRC staff time to review to ensure the maps conform to the redistricting criteria and legal requirements. Proposers may resubmit Redistricting Plans that have been revised as a result of the LA County CRC analysis.

The LA County CRC will review the majority of the submitted redistricting maps during September 2021.

## Review Process

- Any Redistricting Plans submitted will remain available for LA County CRC consideration.
- Redistricting Plans submitted to the LA County CRC are subject to the deliberations of the LA County CRC and may be revised or modified as the Commissioners deem appropriate.
- Proposers may request to rescind submitted Redistricting Plans; rescinded Redistricting Plans will be noted to the LA County CRC.
- Redistricting Plans must be submitted in advance of a scheduled LA County CRC meeting to be properly noticed, reviewed, and placed on the LA County CRC agenda. Redistricting Plans submitted at a meeting of the LA County CRC cannot be considered at the meeting.
- All Redistricting Plans submitted to the LA County CRC will be made available for public review after a reasonable time following submittal.

# LOS ANGELES COUNTY REDISTRICTING 2021

- Specific Redistricting Plans may be considered at LA County CRC meetings. Proposers may wish to attend the meetings and testify on their Redistricting Plans. Attendance by proposers, however, is not required.

## IV – REDISTRICTING PLAN OPTIONS

On the basis of the public's input:

- The LA County CRC will then develop their proposed Redistricting Plan option(s).
- Two Public Hearings are scheduled for Fall 2021. The purpose of these Public Hearings will be for the purpose of public input on the LA County CRC's Redistricting Plan option(s).

## Other Community-Based Census 2020 Initiatives

The State of California provided special funding for CBOs to do the grassroots outreach. California Community Foundation (CCF) received the funding for Los Angeles County to coordinate the outreach.<sup>20</sup> The focus of the Census 2020 outreach effort was on the “Hard-to-Count” communities in Los Angeles County. The outreach effort evolved eight regions (not the 5 supervisorial districts) with different organizations as the “leads.” A map of these eight regions and a list of the involved CCF CBOs are available at: <https://wecountla.org/our-partners/>

Region	Lead Organization
1. Metro LA	Advancement Project CA
2. Antelope Valley + Santa Clarita Valley	Antelope Valley Partners for Health
3. South LA + South Bay	Community Coalition
4. San Gabriel Valley	LA Voice
5. Long Beach	Long Beach Forward
6. San Fernando Valley	Pacoima Beautiful
7. Pomona Valley	Pomona Day Labor Center
8. Southeast LA	SELA Collaborative

## Other CBOs Identified

The Commissioners have begun to identify gaps in the Census 2020 listing, including:

- Brotherhood Crusade
- Calvary Baptist Church of Hawthorne
- Central Lutheran Church – Van Nuys
- Christ Liberation Ministries
- Church One Long Beach
- City of Refuge LA Church
- Ezrach Foundation
- Faith and Community Empowerment (FACE LA)
- Faith Central Bible Church
- Faithful Central Bible Church
- Holman United Methodist Church
- Jobs Create Peace

<sup>20</sup> Other funders of “We Count LA” included the Weingarten Foundation, James Irvine Foundation, Balmer Group, California Endowment, SMIDT Foundation, Libra Foundation, Mind and Gene Stein, California Wellness Foundation, State of California, City of Los Angeles, Roy and Patricia Disney Family Foundation, and California Community Foundation.

This list will grow as this Public Outreach Plan is implemented and word gets out about the upcoming workshops, public hearings, and opportunities to submit redistricting maps.

### State-Level Coalitions

For the upcoming 2021 California redistricting process, the State of California has at least three coalitions forming. For example, CA Common Cause is partnering with other organizations to co-convene the Redistricting California Collaborative: [click here](#). Their initiative builds on their 2011 work and involves the relaunching of ReDrawCA.org to help residents understand and navigate California's redistricting process.

## APPENDIX C.6 – SUMMARY OF COI HYPOTHESES

Executive Director Gayla Kraetsch Hartsough, Ph.D., prepared a report on the COI hypotheses developed by the Commissioner Teams. This report was discussed as part of Agenda Item 6a for Wednesday, October 6, 2021, at a special meeting.

### INTRODUCTION

The LA County CRC is in charge of drawing the lines for the five supervisory districts for the Board of Supervisors (BOS). At this point, the Commissioners are only developing hypotheses – speculations of what are commonly held Communities of Interest (COI). These COI hypotheses are based on input to date and may not reflect the full range of public sentiment.

The LA County CRC listened to public testimonies, reviewed submitted COI forms, and have received letters from cities, governmental entities, councils of governments, nonprofit organizations, and community-based organizations (CBOs) who represent large numbers of stakeholders. For example, the South Bay Council of Governments alone represents 16 cities and all of their residents.

The Commissioners also know that they have received limited or no input from some communities who may be interested in supervisory redistricting in Los Angeles County. The LA County CRC wants them to know that the Commissioners want to hear from them. Therefore, these hypotheses will be subject to updates and changes, based on additional input from the public.

The COI hypotheses are an important starting point for the next mapping phase of the LA County CRC. Review of the COI hypotheses can be:

- Reviewed and commented on by the public (add/delete community names or adjust boundaries)
- Further tested to see if the public agrees
- Refined based on public input
- Drawn by ARCBridge on a map
- Used as possible building blocks for redistricting maps
- Used to guide further review of redistricting maps submitted

# LOS ANGELES COUNTY REDISTRICTING 2021

## PUBLIC HEARING ZONES

BETWEEN JUNE AND SEPTEMBER 2021, THE LA COUNTY CRC HELD 12 PUBLIC HEARINGS, INCLUDING ON-SITE, HYBRID PUBLIC HEARINGS IN EACH OF THE 5 SUPERVISORIAL DISTRICTS AND ON IN SPANISH WITH TRANSLATORS FOR ENGLISH-ONLY SPEAKERS.

THE LA COUNTY CRC SOLICITED INPUT AROUND GEOGRAPHIC CLUSTERS, REFERRED TO AS ZONES, DISPLAYED IN THE ZONE MAP. **THESE ZONES IN NO WAY REFLECT HOW THE FINAL SUPERVISORIAL DISTRICTS MAY BE DRAWN. THE ZONES WERE MERELY ESTABLISHED FOR CONVENIENCE SO THAT WE COULD GROUP INPUT FROM SMALLER GEOGRAPHICAL AREAS.**

THE PUBLIC CAN IDENTIFY THEIR ZONES BY ENTERING THE NAMES OF CITIES, UNINCORPORATED AREAS, NEIGHBORHOODS, OR STREETS BY USING THE BLUE TAB “FIND YOUR PUBLIC HEARING ZONES” ON THE LA COUNTY CRC WEBSITE: [HTTPS://REDISTRICTING.LACOUNTY.GOV/PUBLIC-HEARINGS/](https://redistricting.lacounty.gov/public-hearings/)

# LOS ANGELES COUNTY REDISTRICTING 2021

## COI INPUT TO DATE

The LA County CRC website displays all the COI information received to date, by zone and zip codes:

<https://redistricting.lacounty.gov/public-hearings/>

The **ORANGE BAR** "CLICK HERE TO DOWNLOAD THE ENTIRE CATALOG OF COMMUNITIES OF INTEREST (COI) **INPUT** allows Commissioners and the public to download the catalog of all comments as an Excel spreadsheet for sorting and analysis purposes.

- Comments in **white** reflect public input between December 2020 and August 2021, including the first 10 public hearings.
- Some individuals made two or more public testimonies, frequently making the same points at each public hearing.
- Comments in **grey** were made in Spanish. Both the original Spanish and English interpretations are listed.
- Comments in **blue** were compiled from the California CRC public hearings by Commissioner Mary Kenney.
- Comments in **lilac** reflect public input between September 1, 2022, and September 21, 2021, including the second to last public hearing.
- Comments in **green** reflect public submitted between September 22, 2022, and September 29, 2021, including the last public hearing

## North Country: AV and SCV

Zone	Community Name	Hypothesis	Team
B	North County/ AV	Keep North LA County together: Lancaster and Palmdale share overlapping services	1
B	North County/ AV	Divide the North County area into three north-south “stripes” (regions) per “Three Stripes Keeping Spheres of Influence (SOIs) Whole” plan prepared in Redistricting Online by Comm’r Holtzman (see provided shape map). Roughly, one stripe would include Santa Clarita, Stevenson Ranch and Newhall, and areas to the north; a second stripe would include Lancaster and Palmdale and their official “Spheres of Influence,” extending south to the hills northeast of San Fernando and north of La Cañada Flintridge; and a third stripe would include areas to the east-southeast of the second, extending to the hills above Claremont. <sup>27</sup>	3
B	North County/ AV	Keep Lancaster, Palmdale, and entire North County area with Santa Clarita	3
B	North County/ AV	Keep Littlerock + Pearblossom + Sun Village + Southeast Antelope Valley together, as distinct from incorporated Palmdale, but not necessarily placed in a different district.	3
B	North County/ AV	Put into a North County region not only Santa Clarita, but also some of the western SF Valley areas including Sylmar, communities along the 118 (Granada Hills, Porter Ranch), and further south but West of Topanga Canyon Blvd (Chatsworth, West Hills, Hidden Hills, Calabasas, Agoura Hills, Westlake Village, Malibu)	3
A	North County/ AV, SCV, West SFV	Keep the North LA County Cities together: Lancaster, Palmdale, Santa Clarita, West SFV	1
A	North County/ SCV & AV	Keep the Santa Clarita Valley with the Antelope Valley and the rest of the North County. This includes Castaic, Castaic Lake, Lancaster, Palmdale, Agua Dulce, and Canyon Country, Santa Clarita, Stevenson Ranch, Acton, Hasley Canyon and surrounding unincorporated areas.	5
A	North County/SCV + SFV	If it is necessary to include more people than North County, add portions of the northern San Fernando Valley, maybe including Chatsworth, Granada Hills, Porter Ranch, and maybe even including Burbank and Glendale.	5

<sup>26</sup> Note: Cities in more than one area are underlined.

<sup>27</sup> This hypothesis would allow including each stripe in a separate supervisorial district, to ensure that North County is represented by more than one supervisor, as several commenters desire. See Illustration 1.

A	North County/ SCV & AV	Keep the Santa Clarita Valley with the Antelope Valley and the rest of the North County. This includes Castaic, Castaic Lake, Lancaster, Palmdale, Agua Dulce, and Canyon Country, Santa Clarita, Stevenson Ranch, Acton, Hasley Canyon and surrounding unincorporated areas.	5
A	North County/SCV + SFV	If it is necessary to include more people than North County, add portions of the northern San Fernando Valley, maybe including Chatsworth, Granada Hills, Porter Ranch, and maybe even including Burbank and Glendale.	5
A	North County/SCV, Not SFV	If it is necessary to include more people than North County, do not include parts of the San Fernando Valley.	5
B	North County/ AV	Keep North LA County together: Lancaster and Palmdale share overlapping services	1
B	North County/ AV	Divide the North County area into three north-south “stripes” (regions) per “Three Stripes Keeping Spheres of Influence (SOIs) Whole” plan prepared in Redistricting Online by Comm’r Holtzman (see provided shape map). Roughly, one stripe would include Santa Clarita, Stevenson Ranch and Newhall, and areas to the north; a second stripe would include Lancaster and Palmdale and their official “Spheres of Influence,” extending south to the hills northeast of San Fernando and north of La Cañada Flintridge; and a third stripe would include areas to the east-southeast of the second, extending to the hills above Claremont. <sup>72</sup>	3
B	North County/ AV	Keep Lancaster, Palmdale, and entire North County area with Santa Clarita	3
B	North County/ AV	Keep Littlerock + Pearblossom + Sun Village + Southeast Antelope Valley together, as distinct from incorporated Palmdale, but not necessarily placed in a different district.	3
B	North County/ AV	Put into a North County region not only Santa Clarita, but also some of the western SF Valley areas including Sylmar, communities along the 118 (Granada Hills, Porter Ranch), and further south but West of Topanga Canyon Blvd (Chatsworth, West Hills, Hidden Hills, Calabasas, Agoura Hills, Westlake Village, Malibu)	3
C	SFV	Lake Balboa and Northridge request to be with East San Fernando Valley	1
C	SFV	Keep the entire SFV together from the westernmost parts of the County (Hidden Hills, Calabasas, Agoura Hills, Westlake Village, Malibu) all the way across to Burbank and Glendale on the East, with the southern boundary being Mulholland Drive	3
C	SFV	Keep together the communities of Agoura Hills, Westlake Village, Calabasas, Hidden Hills, Malibu, and associated unincorporated areas (the Las Virgenes-Malibu area)	3
C	SFV	Keep working class communities of the SFV together, including Sylmar, San Fernando, Mission Hills, Pacoima, Arleta, Panorama City, Sun Valley, Van Nuys, Reseda, Winnetka, North Hills, Northridge	3
C	SFV	Entire SFV. Keep as much of SFV as possible, including West Hills, <u>San Fernando</u> , <u>Sylmar</u> , <u>Pacoima</u> , <u>Canoga Park</u> , Woodland Hills, <u>Northridge</u> , <u>North Hollywood</u> , <u>North Hills</u> , <u>Reseda</u> , <u>Van Nuys</u> , Sun Valley, <u>Studio City</u> , <u>Sherman Oaks (all of it)</u> , <u>Encino</u> , <u>Chatsworth</u> , <u>Porter Ranch</u> , <u>Granada Hills</u> , <u>Lake View Terrace</u> , <u>Sunland</u> , <u>Shadow Hills</u> , <u>Tujunga</u> , <u>Kagel Canyon</u> , <u>Lake Balboa</u> , <u>Tarzana</u> , <u>Valley Glen</u> , <u>Valley Village</u> , Burbank,	5

### I – BACKGROUND

#### I.A – Introduction

The County of Los Angeles Citizens Redistricting Commission (LA County CRC) is charged with drawing the lines for Los Angeles County supervisorial districts (SDs) after the Federal decennial census and in compliance with:

- U.S. Constitution
- Federal Voting Rights Act (VRA) of 1965<sup>96</sup>

Additional information about the LA County CRC is available at: <https://redistricting.lacounty.gov/>, which also contains links to the mentioned legal and other related documents under “Want to Know More?”.

The LA County CRC issues this Request for Proposal (RFP) to retain Demographic and Mapping Consulting Services – from either an individual consultant or consulting firm (Proposer). The Proposer will serve as the lead demographer to draw redistricting maps for the LA County CRC in accordance with Commissioners’ instructions.

The Proposer, in partnership with the LA County CRC’s independent legal counsel and Executive Director, will play a crucial role in the LA County CRC’s work to establish five single-member SDs for Los Angeles County pursuant to a process that incorporates significant public input.

#### I.B – Key Entities Referenced in this RFP

Several entities are referenced in this RFP and represent entities that the Proposer will be interfacing with:

## APPENDIX C.9 – RACIALLY POLARIZED VOTING ANALYSIS

# Los Angeles County Racially Polarized Voting Analysis for 2021 Redistricting

Bruce Adelson, Esq., and Jonathan N. Katz, Ph.D.

## 1 Introduction

This report presents results of a racially polarized voting analysis of elections for the Los Angeles County Board of Supervisors. We analysed all contested Board of Supervisors elections between 2012 and 2020, both the top-two primaries and general elections.

The election analysis reveals some statistical evidence of racially polarized voting (RPV). However, the RPV is not legally cognizable because cohesion is inconsistent and non-minority voters do not vote as a bloc to usually defeat minority preferred candidates.

The next section reviews the methods for estimating voting behavior from aggregate data. This is referred to as ecological inference in the statistics and social science literature. The next section then discusses the results of the analysis of the Board of Supervisor selections. The final section discusses the implications of this analysis.

## 2 Methods for Ecological Inference

The problem of inferring voting behavior from aggregate information is known as ecological inference. We are interested in estimating how groups of voters, say Latinos and Others (i.e., non-Latinos), voted in a given election when all we observe are the precinct-level returns and the demographic make-up of the precincts.

### 2.1 Homogenous Precincts and the Method of Bounds

A common starting point is to consider only homogeneous precincts. That is, we could examine the election results from precincts that are closest to racially/ethnically homogeneous in character. For example, if a precinct were completely homogeneous, say with a population that was 100% Latino, then we know what fraction of Latinos that voted for a given candidate in the precinct: it is just the share the given candidate got in the precinct. While this might be a useful starting point, as a statistical procedure it is problematic since it throws out most of the data unless most of the precincts are homogeneous.

However, we can use the intuition from the homogeneous precincts to place bounds on the level of support each group gives a candidate. Consider the following equation, which is true by definition, that relates the vote share of given candidate to the voting behavior of Latinos and Others (i.e., non-Latinos):

$$V_i = \lambda_i^L X_i + \lambda_i^O (1 - X_i), \quad (1)$$

where  $V_i$  is the share of the vote a given candidate received in precinct  $i$ ,  $X_i$  is the fraction of Latinos in the precinct and therefore  $(1 - X_i)$  is the fraction of Other voters, assuming for the moment that there are only two groups in the electorate.  $\lambda_i^L$  is the fraction of Latinos voting for the given candidate and similarly  $\lambda_i^O$  is the fraction of Others voting for the given candidate. In other words, the equation states the fact that the total vote share for a candidate must equal the proportion of Latino voters who support them multiplied by the proportion of the electorate that is Latino plus the proportion of the Other voters who support the candidate multiplied by the proportion of the electorate which is Other.

In the case of only two groups — e.g., Latinos and Others — and only two candidates, then racially polarized voting occurs when  $\lambda_i^L$  and  $\lambda_i^O$  are on opposite sides of 0.5 — e.g.,  $\lambda_i^L > 0.5$  and  $\lambda_i^O < 0.5$ . That is, a majority of one group voting for one candidate and the majority of the other group voting for the opposite candidate. If this holds, then the larger the difference between support levels, the greater the level of polarization. Of course, since we are dealing with statistical estimates, this difference must be greater than the statistical uncertainty in the estimates.

Now consider homogeneous Latino precincts again. In these precincts,  $X_i = 1$ , so that the equation simplifies to  $V_i = \lambda_i^L$  as we stated above. However, from these precincts we can not say anything about the voting behavior of Others because any proportion of Others voting for a given candidate is consistent with the observed vote shares in these precincts. We can generalize this idea using Equation 1. Consider, for example, a precinct where  $X_i = 0.6$ , that is sixty percent of voters are Latino (and, therefore, 40% are Other), and the candidates vote share,  $V_i$ , is 0.5.

Since 60% of the voters are Latino and the given candidate got 50% of the vote, then at most  $\frac{5}{6}$ th of the Latino voters could have voted for the candidate. If it were higher than this bound, then the vote share in the precinct would have to be higher. On the other hand, even if all of the Others voted for the candidate, then at least  $\frac{1}{6}$ th of the Latinos would have had to vote for the candidate as well, otherwise the vote share would have been less than 0.5. Thus, we know that proportion of Latinos voting for the candidate,  $\lambda_i^L$ , must be greater than  $1/6$  and less than  $5/6$  and  $\lambda_i^O$  can take on any value between zero and one. We actually know more than this: we know that the feasible values for this district must lie on the line segment, called a constraint line, defined by the bounds  $(\frac{1}{6}, 1)$  and  $(\frac{5}{6}, 0)$ . Using standard algebra by plugging in  $X_i = 0.6$  and  $V_i = 0.5$ , we find that  $\lambda_i^{OW} = -\frac{3}{2}\lambda_i^L + \frac{5}{4}$ .

Duncan and Davis (1953) fully developed the method of bounds outlined above to analyze ecological data. Unfortunately, with a large number of precincts, it is difficult to make much direct use of these bounds since we need a way to combine them to understand typical behavior in the district. These bounds do, however, provide useful information as we will see below.

## 2.2 Ecological or Goodman's Regression

An alternative approach that examines all precincts simultaneously was developed by Goodman (1959) and is perhaps the most commonly used procedure. It is referred to in the literature as ecological regression or Goodman's regression. Like the method of bounds, it is based on the identity in Equation 1. Suppose that the fraction of support for a given candidate for both Others and Latinos was the same across all precincts in the district. A bit more formally, suppose that  $\lambda_i^L = \lambda^L$  and  $\lambda_i^O = \lambda^O$  for every precinct  $i$ . Then we could estimate these fractions by choosing the best fitting line to the precinct-level data. This is just a standard linear regression, the most commonly used statistical procedure in the social sciences. From these estimates we could then compare the voting behavior between groups.

It is important to note that ecological regression can produce widely inaccurate estimates of group voting behavior (King 1997). First, the assumption that the fraction of group support is constant across every precinct is highly implausible. Second, ecological regression does not use the bounds information either at the precinct level (discussed above) nor even the overall bounds that the average fraction of a group's support for a given candidate must be between zero and one. For example, ecological regression analysis can produce negative estimates for the fraction of a group supporting a particular candidate or values greater than 100%

## 2.3 Ecological Inference/EI

King (1997) has developed an alternative approach called Ecological Inference or EI. While the technical details are complex, its advantage is that it uses all available information to generate more accurate estimates of voting behavior from aggregate data. EI is basically a way to combine the regression approach of Goodman (1959) with the bounds from Duncan and Davis (1953). Further, it allows the estimates to vary (systematically) across precincts. The idea is we calculate the constraint lines for every precinct. We then choose as our estimate for a given precinct a point on its constraint line near the center of the intersection of all of the other lines. The actual point chosen is based on a standard statistical model. We can then use these precinct estimates to calculate quantities of interest such as the average support level across the district.

It is important to note that since King's method relies heavily on the bounds information, it works best when at least some of these bounds are informative — i.e., narrower than the entire range from 0 to 1. This will happen when more precincts have large proportions of each of the groups whose voting behavior we want to estimate. In other words, we will need some precincts that are relatively homogeneous for each ethnic group we want to study.

## 2.4 More than Two Groups or Two Candidates

The above discussion on the development of methods for ecological inference assumed that we only had two groups and two candidates (or vote choices). Accommodating more than two groups is rather straight-forward, although notation and intuition become more complicated, especially for the constraint lines. All that is required is adding the additional group fractions to Equation 1.

Allowing for more than two candidates or vote choices, however, is a bit more complicated. In the special case of only two choices, we only need to model the vote share going to one of them

since we then automatically know the fraction going to the other candidate: this is just one minus the first vote share. If, for example, we add a third choice, then we need to model the vote share going to any two of the options and then we get third by subtracting the sum of the other two shares from one. Formally, we need to add an additional equation for each vote choice greater than two. Typically, there will always be more than two vote choices even when there are only two candidates because some individuals will choose not to vote in the election. We need to account for this abstention in order to make proper inferences. However, since what we care about is the share of voters supporting each of the candidates, we need to condition out these non-voters. This is not straight-forward, but can be done once we estimate the full set of options: don't vote or vote for one of the candidates on the ballot.

In the general case of more than two groups and more than two vote choices, racially polarized voting is also a more complicated concept. If we only have two choices, then we get voting cohesion among each group automatically since one of the choices must receive a majority of support from the members (ignoring the unlikely event of an exact tie in the election). However, when we have more than two choices, it is possible that no choice receives majority support of the group. In fact, given the estimation uncertainty, it may not be possible to infer which candidate is preferred by the members of the group.<sup>1</sup> Even if we find that the groups both have a strictly preferred candidates (i.e., they are cohesive), we still need to see if the distribution between the groups is statistically different to find racially polarized voting.<sup>2</sup>

I finally note that adding additional groups and vote choices to King's (1997) EI is not straight-forward. The generalization was first developed by King, Rosen, and Tanner (1999). Unfortunately, their approach was computationally inefficient and was later refined by Rosen, Jiang, King and Tanner (2001). I use the Rosen et al. (2001) approach in my analysis here.<sup>3</sup>

### **3 Results of the Analysis of Los Angeles County Board of Supervisors**

The results of the EI analysis of all 13 contested elections for the Los Angeles Board of Supervisors between 2012 and 2020 are presented in the tables at the end of this report.

The race/ethnicity of voters was obtained by using U.S. Census name matching to the actual voter list for each election. This is generally preferred to using U.S. Census counts at the precinct level because we do not need to separately estimate the turnout rate of each group, which adds considerable statistical uncertainty to the estimates of voter behavior. However, it is not possible to separately identify Black voters using this name match method. Instead, Blacks are grouped into the non-Latino and non-Asian residual group, Others. Given that Blacks make up 9% of the Los Angeles County population, this gain in statistical efficiency is worth the cost of not separately estimating their voting behavior. Finally, as previously noted, the voters who did not cast a valid ballot for this race are conditioned out.

---

<sup>1</sup>Formally, we can not rule out the null hypothesis that the group equally split their votes across two or more choices.

<sup>2</sup>Formally, we need to reject the null hypothesis that the distribution of vote shares across groups is identical.

<sup>3</sup>All the computations discussed in this report were done in R (R Core Team 2012), a statistical computing language, using the eiPack (version 0.2-1) developed by Olivia Lau, Ryan T. Moore, and Michael Kellerman.

To read the tables, consider the results for the first election in the set, the 2020 General election for Supervisor for the 2nd District. The two candidates are Herb Wesson, Jr. and Holly Mitchell. The table shows that the estimated fraction of Latinos voting for Wesson is 45.5% and the parenthetical values underneath that provide the 95% confidence interval of the estimate is (44.5%, 46.6%). These measure our statistical uncertainty; and we can not rule out that true percent is within this interval with high probability. Similarly, it is estimated that 37.3% of Other (non-Latinos/non-Asians) voted for Wesson with a confidence interval of (36.6%, 38.0%). Similarly it is estimated that 54.5% of Latinos voted for Mitchell with a confidence interval of (53.4%, 55.5%) and 62.7% of Other voters with a confidence interval of (62.0%, 63.4%). In this election, a clear majority of all three groups of voters – Latinos, Asians, and Others – supported the same candidate, Mitchell, who won the elections. Given this, there is no evidence of racially polarized voting in this election.

Given the large number of precincts in Los Angeles county, many with relatively homogeneous population of voters, these estimates are precisely estimated. This can be seen in the rather narrow confidence intervals for all estimated vote proportions. However, the confidence intervals are systematically slightly larger for Asian voters because there are fewer precincts that are homogeneously Asian. However, they are still narrow enough that we are confident in our estimates of their voting behavior.

Since we have relatively precise estimates of group voting behavior in the Supervisorial elections, which is the focus of this redistricting, there is no compelling scientific reason to analyze non-Supervisorial elections (referred to as exogenous elections in redistricting litigation). Further, from a practical point of view, there are no other elected offices held in the county that are of similar type to the Board of Supervisors, which is for a non-partisan, legislative body. The academic literature is clear that voting behavior differs substantially between partisan and non-partisan elections (see, for example, Schaffner and Streb 2002, Wright 2008, Bernhard and Freeder 2020, or Lim and Snyder 2015). In particular, voters are more likely to use other information cues, such as incumbency status, in making their decisions. Further, they are more likely to abstain in non-partisan elections. Therefore, we did not statistically analyze any other elections for this report. However, we do discuss two recent elections in Los Angeles County that have been suggested are probative in the final section of the report.

Most of the elections analysed show no pattern of racially polarized voting, as we saw in the 2020 General Election for the 2nd District seat discussed above. The lone exception being the 2016 General election for the 5th District seat between Kathryn Barger and Darrell Park. Barger won the election with 57.90% of the vote. If we look at the estimated voting behavior by group, we see that Park was the majority preferred candidate of Latino voters with 63.0% of their vote with a confidence interval of (61.7%, 64.5%). However, Barger was the majority preferred candidate of both Asian and Other voters with 57.1% (54.3%, 59.9%) and 66.1% (65.5%, 66.6%) respectively, estimated vote share of the group. However, given that this is the only example we can find in the last decade, there is not systematic evidence that a majority Others voting in bloc to usually prevent Latinos or Asians from electing their candidates of choice.

Further, if we look at the 2016 Primary for this seat which featured 8 candidates, including both Brager and Park, we do not see evidence of racially polarized voting. For example, while Barger was the plurality preferred candidate of Asian and Other voters with approximately one third of their respective votes each, we would hardly call their voting behavior cohesive. Further, we see

that Barger and Park were statistically tied as the plurality preferred candidate of Latino voters in this primary election. This casts doubt even on the general election result between the top two finishers, Barger and Park, really being racially polarized.

The other notable elections among this set are the 2020 Primary for the 2nd District and the 2016 Primary for the 4th. In the 2nd District race, we see that Jeong was clearly the preferred candidate of Asian voters with an estimated 64.4% of them voting for him with a confidence interval of (61.3%, 66.8%). However, neither Latinos nor Other voters were cohesive in their vote preference given that no candidate in this election even gets close to a majority of their support. Therefore, there is no statistical significant evidence of racially polarized voting.

In the 2016 Primary for the 4th district, Pacheco was the plurality, but not majority, preferred candidate for Latino voters getting about 45.0% of their vote with a confidence interval of (44.4%, 45.6%). Further, about 36.8% of Latino voters chose Hahn, the ultimate winner of the election, with a confidence interval of (35.9%, 37.6%). This lack of cohesion by Latinos means that this race also does not show evidence of statistically significant racially polarized voting.

Overall, we find that there is no legally cognizable racially polarized voting in elections for Los Angeles Board of Supervisors because cohesion is inconsistent and White/Other voters do not vote as a bloc to usually defeat minority preferred candidates.

## **4 Implications for Redistricting for the Los Angeles County Board of Supervisors**

In redistricting, compliance with the Voting Rights Act of 1965 (VRA) is one of the non-negotiable tasks for the Los Angeles County Citizens Redistricting Commission (LA CRC). To enable and inform such compliance, the LA CRC tasked us, its Voting Rights consultants, to analyze relevant election results, as the Voting Rights Act and federal courts require, to determine if voting in County Board of Supervisors (BOS) elections is racially polarized.

The U.S. Supreme Court, in its key decision of *Thornburg v. Gingles*, 478 U.S. 30 (1986), decided that one of the most important factors in a VRA analysis of redistricting plans is “the extent to which voting in the elections of the state or political subdivision is racially polarized.” We determine after analyzing more than one dozen Los Angeles County Board of Supervisors elections from 2012-2020 that legally significant racially polarized voting does not exist in such elections since White (i.e., Other) voters do not vote as a bloc to usually defeat minority candidates of choice. *Thornburg v. Gingles*, 478 U.S. 30 (1986).

Furthermore, the Voting Rights Act does not choose winners among minority groups or favor one minority over another. A preferred candidate of a minority group may win and defeat the preferred candidate of another minority group. In addition, the candidate of choice of two of three (Latinos, Blacks, and Asians) minority groups may similarly prevail as the candidate of choice in an election.

In determining the presence of legally significant racially polarized voting, the courts overwhelmingly recognize the significant value of elections involving candidates of different races. The non-partisan Los Angeles County local elections analyzed and reviewed for our report virtually all

feature candidates of multiple races. “Elections between white and minority candidates are the most probative in determining the existence of legally significant white bloc voting.” *Old Person v. Cooney*, 230 F.3d 1113, 1123-24 (9th Cir. 2000). Single race elections are not typically entitled to the same evidentiary weight as those elections involving minority candidates. *U.S. v. City of Euclid*, 580 F.Supp.2d 584 (N.D. Ohio 2008) and *Rural West Tenn. African-Am. Affairs Council v. Sundquist*, 209 F.3d 835, 840 (6th Cir.2000).

Section 2 of the Voting Rights Act of 1965 prohibits, among other things, any electoral practice or procedure that minimizes or cancels out the voting strength of members of racial or language minority groups in the voting population. This phenomenon is known as vote dilution. Redistricting plans cannot crack or pack a geographically concentrated minority community across districts or within a district in a manner that dilutes their voting strength.

In *Thornburg v. Gingles*, 478 U.S. 30 (1986), the Supreme Court set out the framework for challenges to such practices or procedures. In *Brnovich v. Democratic National Committee*, 141 S. Ct. 2321, 2337 (2021), the Supreme Court described *Gingles* as “our seminal § 2 vote dilution case” and recognized that “[o]ur many subsequent vote-dilution cases have largely followed the path that *Gingles* charted.”

Analysis begins by considering whether three *Gingles* preconditions exist.

1. The minority group must be sufficiently large and geographically compact to constitute a majority of the voting age population in a single-member district.
2. The minority group must be politically cohesive.
3. **The majority must vote sufficiently as a bloc to enabled it usually to defeat the minority group’s preferred candidate** (emphasis added).

Our analysis and report focus on Los Angeles County BOS elections also known as “endogenous elections” with minority and white candidates running for the same as the most probative in assessing whether white bloc voting exists to satisfy the third *Gingles* precondition. BOS elections are non-partisan. In examining election results and behavior in Los Angeles County over the past decade, we also assessed the 2018 County Sheriff and 2019 County District Attorney elections from secondary sources, both of which are also non-partisan as are the BOS elections. In both elections, minority and White candidates were on the ballot for sheriff and district attorney. In both elections, the minority candidates of choice won, Alex Villanueva (Latino) and George Gascon (Latino).

In Villanueva’s election, he beat a longtime White incumbent, “marking a stunning upset for a seat that hasn’t seen an incumbent lose in more than a century” (Los Angeles Times, 11/8/18).

In 2019, George Gascon defeated incumbent Jackie Lacey (Black) for County District Attorney. Gascon was the candidate of choice of minority voters. Lacey had been the first Black person and the first woman to hold the office (see KCRW, 9/17/20 and *Los Angeles Times*, 11/6/20).

A *Los Angeles Times* analysis of the Gascon victory over Lacey general election results shows how Gascon assembled a winning coalition. His political path to victory came from uniting the progressive opposition in the densely populated core of the county, while winning over areas where Lacey once enjoyed strong support.

A block-by-block map of the neighborhood precincts provides the most detailed view available of the election. It shows that Gascon gained support all across the L.A. Basin, racking up the biggest margins in East and South Los Angeles. Majority-Latino neighborhoods remained opposed to Lacey's reelection, with Gascon claiming most of those precincts. Perhaps the biggest upset came from areas where Black people make up the largest share of the population. In a drastic shift from the primary, Gascon won the vast majority of plurality-Black precincts, 58% to 42%. In the City of Los Angeles, wealthier precincts still gave many of their votes to Lacey. Gascon performed strongly in lower-income areas (*Los Angeles Times*, 11/6/20: "How George Gascon unseated L.A. County Dist. Atty. Jackie Lacey")

As we know, the race of the candidate does not necessarily determine whether or not they are the minority candidate of choice. Legally significant RPV did not exist in these two elections because the minority candidates of choice won, thus exemplifying that Whites did not bloc vote to prevent their elections.

Thus, these elections align with our analysis of BOS elections, that White bloc voting does not prevent minorities from usually electing their BOS candidates of choice, the standard set by the U.S. Supreme Court in *Thornburg v. Gingles*.

In addition, *Gingles* does not even apply to the two above elections because of the candidates' electoral success. Electoral success confirms there is no white bloc voting and no legally significant RPV.

The existence of RPV in any given election is not the dispositive consideration. Instead, the key is minority candidates of choice winning elections, as they did in 2018 and 2019 Sheriff and DA and as candidates have for BOS. Candidate of choice victories confirm that there is no legally significant RPV in non-partisan elections for Los Angeles County local offices over the past decade.

**Opinion of the 2021 Redistricting Plan for the County of Los Angeles Board  
of Supervisors' Compliance with the Voting Rights Act**

Dear Ms. Whatley:

We have been asked for our opinion of the 2021 Redistricting Plan for the County of Los Angeles Board of Supervisors' compliance with the Voting Rights Act of 1965.

In summary, the final map does not appear to have the purpose or effect of illegally diluting minority voting strength. Reflecting significant Latino population growth over the past decade, the map creates three Latino majority-minority districts by total population, with two such districts (Districts 2 and 4) majority-minority in CVAP. No other County minority group is large enough and geographically compact enough to constitute a majority in a single district. A majority-minority district is defined as a district where the minority population is a numerical majority (fifty percent plus one or more) of the population in the district. *Easley v. Cromartie*, 532 U.S. 234 (2001).

Latinos are the largest minority group in Los Angeles County. According to the 2020 Census, Los Angeles County has a total population of 10,039,107. Of this total, 48.6% are Latino, 26.1% are Non-Hispanic White, 15.4% are Asian, and 9.0% are Black. the Census reveals that there are 4,804,763 Latinos in Los Angeles County or 47.98% of the total population, of whom 3,562,733 (44.76%) are of voting age. This population increased by 116,953 people (2.49% increase) since the 2010 Census. Latino VAP increased five times more than the total Latino population, with a VAP population increase of 363,395 or 11.36%.

Latinos make up nearly 50% of the County's total population. According to the American Community Survey, Latino CVAP in Los Angeles County is 38%. The two majority CVAP (40% of County Board of Supervisor districts) Latino districts also correspond to Latinos' total County wide CVAP of nearly 40%, reflecting the nature of the County's population as of the 2020 Census.

The only other single race minority group with a population increase since 2010 is Asians, who now number 148,790 more people than in 2010 (11.23% increase) and 162,104 more people of voting age (14.77%), according to the 2020 Census. There are 1,474,237 (14.72%) Asian people in Los Angeles County as the 2020 Census data reveal. By contrast, the non-Hispanic White and Black populations decreased in both total population and VAP.

In its redistricting efforts, the County of Los Angeles Citizens Redistricting Commission (LACCRC) was aware of Census data and population changes in Los Angeles County. The LACCRC emphasized recognizing and preserving communities of interest (COI) while balancing COIs with other redistricting criteria, including Census data and an understanding of who lives in Los Angeles County.

The specific definition of COIs can be amorphous and indefinite. However, COIs can be reliably defined as a neighborhood or community that would benefit from being maintained in a single district because of shared interests, views, or characteristics.

Communities of interest can be identified by referring to many data points, including the decennial Census, American Community Survey, demographic studies, related surveys, and social and economic characteristics that community members. Relevant social and economic characteristics can include Income levels, educational backgrounds, traditional and longstanding housing patterns, cultural and language characteristics, employment and economic patterns, health and environmental conditions. The LACCRC evaluated such data points in drafting the final map and in complying with its stated redistricting criteria, including but not limited to the Voting Rights Act.

Section 2 of the Voting Rights Act of 1965 prohibits any electoral practice or procedure that minimizes or cancels out the voting strength of members of racial or language minority groups in the voting population. This phenomenon is known as vote dilution. Redistricting plans cannot crack (reduce or divide) or pack (overconcentrate) a geographically discrete minority community across districts or within a district in a manner that dilutes minority voting strength.

In *Thornburg v. Gingles*, 478 U.S. 30 (1986), the Supreme Court set out the framework for challenges to such dilutive redistricting practices or procedures. In *Brnovich v. Democratic National Committee*, 141 S. Ct. 2321, 2337 (2021), the Supreme Court described *Gingles* as “our seminal § 2 vote dilution case” and recognized that “[o]ur many subsequent vote dilution cases have largely followed the path that *Gingles* charted.”

Analysis begins by considering whether the three *Gingles* preconditions exist. First, the minority group must be sufficiently large and geographically compact to constitute a majority of the voting age population or a minority coalition with other similarly situated groups in a single-member district. Second, the minority group must be politically cohesive in supporting the same candidates. Third, the majority must vote sufficiently as a bloc to enable it usually to defeat the minority group’s preferred candidate.

While the second *Gingles* precondition asks only whether minority voters generally vote as a cohesive group, the third precondition assesses whether “a bloc-voting [white] majority can routinely outvote the minority, thereby impair[ing] the ability of a protected class to elect candidates of its choice.” *Johnson v. De Grandy*, 512 U.S. 997, 1007, 114 S.Ct. 2647, 129 L.Ed.2d 775 (1994). Critically, the salient inquiry under the third *Gingles* precondition is not whether white candidates do or do not usually defeat minority candidates, but whether minority-preferred candidates, whatever their race, usually lose.

*Gingles* describes a review of the totality of the circumstances that requires a “searching practical evaluation of the past and present reality” of a jurisdiction’s electoral system that is “intensely local,” “fact-intensive,” and “functional” in nature. 478 U.S. at 45-46, 62-63, 79. The commission’s RPV consultant and Voting Rights Act counsel prepared “Los Angeles County Racially Polarized Voting Analysis for 2021 Redistricting,” (the Analysis), which is used herein to inform our opinions.

When evaluating how to create districts with large minority populations, the Commission may not “reach out” to grab a minority community simply to add minority population to a given district. The U.S. Supreme Court has been very clear that such “reach outs” raise suspicions of a racial gerrymander, a redistricting decision based predominantly on race that violates the U.S. Constitution’s 14<sup>th</sup> Amendment and its equal protection guarantee.

For example, the Supreme Court struck down a North Carolina redistricting because the design of a “serpentine” district was nothing if not race-centric, and could not be justified as a reasonable attempt to comply with the VRA. *Shaw v. Reno (Shaw II)*, 517 U.S. 899, 116 S.Ct. 1894, 135 L.Ed.2d 207.

The Supreme Court has clearly stated that a redistricting plan will not be held invalid simply because the “redistricting is performed with consciousness of race” or because a jurisdiction intentionally creates a majority-minority district. Indeed, Race is always part of the redistricting process. *United States v. Hays*, 515 U.S. 737, 745 (1995), *Easley v. Cromartie*, 532 U.S. 234, 253-54 (2001) (quoting *Bush v. Vera*, 517 U.S. 952, 958 (1996)). Race cannot predominate the process.

A plaintiff challenging a majority-minority district for improperly using race to draw the district: must show at a minimum that the legislature subordinated traditional race-neutral districting principles . . . to racial considerations. Race must not simply have been a motivation for the drawing of a majority-minority district, but the predominant factor motivating the legislature’s districting decision. Plaintiffs must show that a facially neutral law is unexplainable on grounds other than race. *Easley v. Cromartie*, 532 U.S. 234, 253-54 (2001) and *Bush v. Vera*, 517 U.S. 952, 958 (1996).

Among the “race-neutral districting principles” are “compactness, contiguity, [and] respect for political subdivisions or communities defined by actual shared interests.” *Miller v. Johnson*, 515 U.S. 900, 916 (1995) and *Shaw v. Reno*, 509 U.S. at 647).

The most legally relevant elections in VRA election and racially polarized voting analysis are “endogenous elections” with minority and white candidates running for the same offices (Los Angeles County Board of Supervisor district elections). Endogenous elections are the most probative in assessing whether white bloc voting exists to usually prevent minorities from electing their preferred candidates.

Board of Supervisor (BOS) elections are non-partisan elections to a County legislative body. Exogenous elections are mostly partisan, such as those for governor, attorney general, and U.S. Senator.

The academic literature in statistical analysis of election results consistently observes that voting behavior differs substantially between partisan and nonpartisan elections (See: Schaffner and Streb 2002, Wright 2008, Bernhard and Freeder 2020, or Lim and Snyder 2015). In non-partisan elections, voters are more likely to use non-partisan election specific information cues, such as incumbency status, in making their decisions than they typically do in partisan elections. In addition, the academic literature holds that voters are likelier to abstain in non-partisan elections than they are for partisan races.

For this opinion, we focus on the BOS non-partisan endogenous election results as the most relevant and probative of voter behavior and minority voters’ history of electing their preferred candidates to the BOS as well as two other non-partisan elections, both elected at-large county wide, the County Sheriff and County District Attorney (DA).

As the analysis attests, minority voters have enjoyed regular success in electing their preferred BOS candidates, Sheriff, and DA over the past decade since the implementation of the last BOS redistricting plan. In our analysis, We analyzed all contested Board of Supervisors elections (endogenous elections) between 2012 and 2020, both the top two primaries and general elections.

The election analysis reveals some statistical evidence of racially polarized voting (RPV). However, the RPV is not legally cognizable because cohesion is inconsistent and nonminority voters do not vote as a bloc to usually defeat minority preferred candidates. In addition, minority voters elected their preferred candidates for Sheriff and DA in 2018 and 2019 respectively.

In pertinent part, the analysis states:

In determining the presence of legally significant racially polarized voting, the courts overwhelmingly recognize the significant value of elections involving candidates of different races. The non-partisan Los Angeles County local elections analyzed and reviewed for our report virtually all 6 feature candidates of multiple races. “Elections between white and minority candidates are the most probative in determining the existence of legally significant white bloc voting.” *Old Person v. Cooney*, 230 F.3d 1113, 112324 (9th Cir. 2000). Single race elections are not typically entitled to the same evidentiary weight as those elections involving minority candidates. *U.S. v. City of Euclid*, 580 F.Supp.2d 584 (N.D. Ohio 2008) and *Rural West Tenn. African Am. Affairs Council v. Sundquist*, 209 F.3d 835, 840 (6th Cir.2000).

Since we have relatively precise estimates of group voting behavior in the Supervisorial elections, which is the focus of this redistricting, there is no compelling scientific reason to analyze non-Supervisorial elections (referred to as exogenous elections in redistricting litigation). Further, from a practical point of view, there are no other elected offices held in the county that are of similar type to the Board of Supervisors, which is for a non-partisan, legislative body...

Most of the elections analyzed show no pattern of racially polarized voting... Overall, we find that there is no legally cognizable racially polarized voting in elections for Los Angeles Board of Supervisors because cohesion is inconsistent and White/Other voters do not vote as a bloc to usually defeat minority preferred candidates...

In examining election results and behavior in Los Angeles County over the past decade, we also assessed the 2018 County Sheriff and 2019 County District Attorney elections from secondary sources, both of which are also nonpartisan as are the BOS elections. In both elections, minority and White candidates were on the ballot for sheriff and district attorney. In both elections, the minority candidates of choice won, Alex Villanueva (Latino) and George Gascon (White). In Villanueva’s election, he beat a longtime White incumbent, “marking a stunning upset for a seat that hasn’t seen an incumbent lose in more than a century” (Los Angeles Times, 11/8/18). In 2019, George Gascon defeated incumbent Jackie Lacey (Black) for County District Attorney. Gascon was the candidate of choice of minority voters. Lacey had been the first Black person and the first woman to hold the office (see KCRW, 9/17/20 and Los Angeles Times, 11/6/20)...

As we know, the race of the candidate does not necessarily determine whether or not they are the minority candidate of choice.

Legally significant RPV did not exist in these two elections because the minority candidates of choice won, thus exemplifying that Whites did not bloc vote to prevent their elections. Thus, these elections align with our analysis of BOS elections, that White bloc voting does not prevent minorities from usually electing their BOS candidates of choice, the standard set by the U.S. Supreme Court in *Thornburg v. Gingles*.

In addition, *Gingles* does not even apply to the two above elections because of the candidates' electoral success. Electoral success confirms there is no white bloc voting and no legally significant RPV.

The existence of RPV in any given election is not the dispositive consideration. Instead, the key is minority candidates of choice winning elections, as they did in 2018 and 2019 Sheriff and DA and as candidates have for BOS. Candidate of choice victories confirm that there is no legally significant RPV in nonpartisan elections for Los Angeles County local offices over the past decade.

Creating majority-minority districts arbitrarily, for the erroneous, unsupported presumption of the minority population needed to elect preferred candidates without analytical supporting data and evidence, is uniformly considered to be constitutionally infirm, especially here given the RPV analysis showing minority electoral success since 2012, as the Supreme Court repeatedly held during last decade's redistricting cycle. See: *Bethune-Hill v. Virginia State Board of Elections* (Docket #15-680, 2017), *Cooper v. Harris*, 137 S. Ct. 1455, 197 L.Ed.2d 837 (2017), and *Alabama Legislative Black Caucus v. Alabama*, 135 S. Ct. 1257 (2015).

Indeed, in the absence of consistent white bloc voting and the presence of minority electoral success, majority-minority districts can only be legally justified by examining the actual population of the County and the inclusion of compact, historic, geographically discrete minority communities and communities of interest in districts to adhere to "traditional districting principles such as maintaining communities of interest and traditional boundaries." *League of United Latin Am. Citizens v. Perry*, 548 U.S. 399, 433, 126 S.Ct. 2594, 165 L.Ed.2d 609 (2006). Keeping such compact minority communities together is permissible while also respecting the U.S. Constitution's 14<sup>th</sup> Amendment one person, one vote and equal protection requirements.

In addition, the Supreme Court’s redistricting jurisprudence provides further support for applying race-neutral, traditional redistricting criteria, such as preserving communities of interest. The Court has regularly held that “[a]ny number of consistently applied legislative policies” can be used in redistricting and can justify population deviations such as making districts compact, respecting municipal boundaries, preserving the cores of prior districts *Reynolds v. Sims*, 377 U.S. 533 (1964). *Mahan v. Howell*, 410 U.S. 315 (1973), *Brown v. Thomson*, 462 U.S. 835 (1983), and *Voinovich v. Quilter*, 507 U.S. 146 (1993), *Karcher v. Daggett*, 462 U.S. 725 (1983) and *Harris v. Arizona Independent Redistricting Commission*, 136 S. Ct. 1301, 194 L. Ed. 2d 497 (2016).

Creating new majority-minority districts reflecting minority group population growth can also be legally sustainable. *Abbott v. Perez*, 138 S. Ct. 2305 (2018) and see the lawsuit filed by the U.S. Department of Justice in *USA v. State of Texas*, Civil Action No. 3:21-cv-29, filed December 6, 2021.

To avoid racial predomination, the LACCRC maintained geographically compact, concentrated, traditional minority communities. Uniting them through geography, shared culture, language, and community rather than race-based criteria and assumptions is a traditionally accepted practice where the LACCRC avoided what the Supreme Court disapproved of here:

a reapportionment plan that includes in one district individuals who belong to the same race, but who are otherwise widely separated by geographical and political boundaries, and who may have little in common with one another but the color of their skin, bears an uncomfortable resemblance to political apartheid. *Shaw v. Reno – Id*

... to draw ... a district connecting concentrations of Georgia’s dispersed minority population would require us to subordinate Georgia’s traditional districting policies and consider race predominantly, to the exclusion of both constitutional norms and common sense. *Miller v. Johnson*, 515 U.S. 900 (1995)

The Voting Rights Act does not choose winners among minority groups or favor one minority over another. A preferred candidate of a minority group may win and defeat the preferred candidate of another minority group. In addition, the candidate of choice of two of three (Latinos, Blacks, and Asians) minority groups may similarly prevail as the candidate of choice in an election.

## Final Map

The final map does not appear not to impair or dilute Black, Asian, and Latino voters in purpose or effect.

District 1 is majority Latino in total population, VAP, and CVAP: 58.16%, 54.80%, 51.51%. This district is reflective of the LACCRC's COI focused approach to redistricting. In this district, several traditional, geographically related, compact, minority communities are preserved and included in D1. For example, Boyle Heights (Latino population of 73,112 (93%) out of total population of 79,020) is kept whole. Several other traditional, compact predominantly Latino communities on the east side of the City of Los Angeles and east of the City of Los Angeles itself, including unincorporated East Los Angeles (Latino total population of 113,434 (95%) out of total population of 119,284), El Sereno (Latino total population of 29,869 (78%) out of total population of 38,310) and Lincoln Heights (Latino total population of 19,730 (67%) out of total population of 29,526) are included in this district.

Multiple historic, compact, geographically connected Asian communities are included whole in this district: Chinatown, Little Tokyo, Filipino Town (HiFi), West San Gabriel Valley, which includes Monterey Park and Alhambra all are kept whole in this district. This area also includes what is sometimes referred to as new Chinatown which has a significant Vietnamese population. Most of historic Thai Town is included in D1.

Such a COI, traditional community and neighborhood focus complies with U.S. Supreme Court precedent. For example: The recognition of nonracial communities of interest reflects the principle that a State may not “assum[e] from a group of voters’ race that they ‘think alike, share the same political interests, and will prefer the same candidates at the polls.’” *LULAC v. Perry*, 548 U.S. 399 (2006) and *Shaw v. Reno*, 509 U. S. 630, 647 (1993). Such community based, race neutral redistricting also avoids setting arbitrary percentages of minority voters to be assigned to any given district. Such racial considerations are disfavored by the Supreme Court. *Cooper v. Harris*, 137 S. Ct. 1455, 197 L.Ed.2d 837 (2017)

District 2 is a central urban majority minority coalition district reflective of the area's compact, traditional communities of interest. This district is comprised of CVAP in the following amounts: Latino 37.97%, Non-Hispanic White 20.30%, Asian 11.19%, and Black 28.91%. This district features the largest Black population of all five supervisor districts and retains and keeps whole the district's historic core of traditional Black communities, in response to public comments. These communities include: Crenshaw, Baldwin Hills, View Park, Ladera Heights, West Adams, Jefferson Park, Inglewood, Hawthorne, and South Los Angeles including Watts and Compton. Koreatown and Gardena, which has a large, compact Japanese population, are also included in D2.

The unincorporated area of Florence-Firestone is included in this district. According to the 2020 Census, Florence-Firestone has total population of 62,456, of whom 56,566 (91%) are Latino. Unincorporated Florence-Firestone is today predominantly Latino, although some public commenters contend that this area has been a historically Black community. However, public

comments also reveal that recent migration patterns have changed its demographic composition to what it is today.

There were public comments that opposed extending D2 to encompass several beachfront communities. Opponents claimed that doing so would dilute Black voting strength in this district where Blacks have traditionally elected their candidates of choice.

We do not agree. The D2 Black population changes are legally insignificant, given the findings of the analysis, and do not dilute the voices of Black voters. In addition, in the absence of white bloc voting and given minorities', including Black voters, success in electing candidates of choice to non-partisan offices (BOS, Sheriff, and DA) throughout the past decade, Blacks have had and continue to have under the final map the ability to elect preferred BOS candidates.

District 3 is a majority White district in Northwestern Los Angeles County. The minority CVAP populations follows: Latino 28.68% Black 5.29%, and Asian 12.18%. Total minority CVAP among the three largest single race minority groups is 46.15%.

District 4 is a majority Latino district in total population, VAP, and CVAP (50.01%). Asian and Black CVAP in this district exceeds 21%. D4 has 13.72% Asian CVAP.

District 4 also includes traditional, compact Asian communities of Long Beach, with a large Cambodian community, and Torrance, with a traditional Japanese community is kept whole in D4.

As discussed herein, the Commission prioritized race neutral redistricting priorities such as keeping communities of interest together, uniting and preserving historic, and traditional neighborhoods and compact minority communities.

This district also brings together historic, traditional, and compact Latino communities in Southeast Los Angeles, including but not limited to: Huntington Park, South Gate, Bell, and Bell Garden. Pico Rivera (91% Latino), and Commerce (94% Latino), two traditional, compact Latino communities, were added to D4 from D1. The gateway cities of Whittier, Santa Fe Springs, and La Mirada are kept whole in this district in response to public comments and also geographic and COI compactness considerations.

District 5 is mainly a North County, plurality White district whose minority CVAP populations consist of; Latino 26.7%, Black 7.48%, and Asian 14.32% for a total CVAP of the County's three largest single race minority groups of 48.5%.

In California and in other states that comprise the jurisdiction of the U.S. Court of Appeals for the Ninth Circuit, coalition districts may be used to evaluate compliance with Voting Rights Act Section 2 through the *Gingles* factors. *Romero v. City of Pomona*, 883 F.2d 1418 (9th Cir. 1989) and *Badillo v. City of Stockton, Cal.*, 956 F.2d 884 (9th Cir. 1992).

The LACCRC legally had the option to create coalition districts, consisting of Latino, Black, and Asian people, as seen herein. However, *Gingles* appears not to apply to the final map

because of minority voters' success in electing BOS candidates of choice and the absence of white bloc voting to prevent minorities from usually electing their referred candidates. As we opined in the analysis: Overall, we find that there is no legally cognizable racially polarized voting in elections for Los Angeles Board of Supervisors because cohesion is inconsistent and White/Other voters do not vote as a bloc to usually defeat minority preferred candidates.”

### **One Person, One Vote**

“Substantial equality of population” in state or county-level redistricting has come to mean that a legislative plan with an “overall range” of less than ten percent may survive an equal protection attack, unless there is proof of intentional discrimination within that range. *Gaffney v. Cummings*, 412 U.S. 735 (1973), *White v. Regester*, 412 U.S. 755 (1973), and *Reynolds v. Sims*, 377 U.S. 533 (1964)

However, redistricting plans within the “ten percent” standard are not immune from attack. The attacking plaintiffs must present compelling evidence that the plan ignores legitimate reasons for population disparities (such as VRA and 14<sup>th</sup> Amendment compliance) and creates the deviations solely for the benefit of certain persons to the constitutional detriment of others.

In the last redistricting cycle, the Supreme Court spoke clearly about population deviations and the extreme deference given to redistricting bodies' decisions regarding population in their redistricting.

The Fourteenth Amendment's Equal Protection Clause requires States to "make an honest and good faith effort to construct [legislative] districts ... as nearly of equal population as is practicable." *Reynolds*, 377 U.S., at 577, 84 S.Ct. 1362.

The Constitution, however, does not demand mathematical perfection. In determining what is "practicable," we have recognized that the Constitution permits deviation when it is justified by "legitimate considerations incident to the effectuation of a rational state policy." *Id.*, at 579, 84 S.Ct. 1362. In related contexts, we have made clear that in addition to the "traditional districting principles such as compactness [and] contiguity," *Shaw v. Reno*, 509 U.S. 630, 647, 113 S.Ct. 2816, 125 L.Ed.2d 511 (1993), those legitimate considerations can include a state interest in maintaining the integrity of political subdivisions, *Mahan v. Howell*, 410 U.S. 315, 328, 93 S.Ct. 979, 35 L.Ed.2d 320 (1973), or the competitive balance among political parties, *Gaffney v. Cummings*, 412 U.S. 735, 752, 93 S.Ct. 2321, 37 L.Ed.2d 298 (1973).

We have further made clear that “minor deviations from mathematical equality” do not, by themselves, “make out a prima facie case of invidious discrimination under the Fourteenth Amendment so as to require justification by the State.”

We have defined as "minor deviations" those in "an apportionment plan with a maximum population deviation under 10%." *Brown*, 462 U.S., at 842, 103 S.Ct. 2690. And we have refused to require States to justify deviations of 9.9%, *White v. Regester*, 412 U.S. 755,

764, 93 S.Ct. 2332, 37 L.Ed.2d 314 (1973), and 8%, Gafney, 412 U.S., at 751, 93 S.Ct. 2321...

In sum, ... those attacking a state-approved plan must show that it is more probable than not that a deviation of less than 10% reflects the predominance of illegitimate reapportionment factors rather than the "legitimate considerations" to which we have referred in *Harris v. Ariz. Indep. Redistricting Comm'n* 136 S. Ct. 1301 (2016) Reynolds and later cases.

...see also *Vieth v. Jubelirer*, 541 U.S. 267, 284, 124 S.Ct. 1769, 158 L.Ed.2d 546 (2004) (plurality opinion) (listing examples of traditional redistricting criteria, including "compliance with requirements of the [Voting Rights Act]").

**Given the inherent difficulty of measuring and comparing factors that may legitimately account for small deviations from strict mathematical equality, we believe that attacks on deviations under 10% will succeed only rarely, in unusual cases. And we are not surprised that the appellants have failed to meet their burden here. Emphasis Added**

The final map has a 9.32% deviation, which is under the Supreme Court's 10% figure. There is no evidence to suggest, prove, or indicate that the Commission's deviation was caused by going beyond traditional redistricting criteria and other "legitimate [local] interests." There is nothing in the LACCRC's record to meet the Court's *Harris* standard of indicating problematic decision-making to justify a one person, one vote challenge to the final map being one of the "unusual cases" that "rarely" succeed in proving a one person, one vote violation.

### **Conclusion:**

In their final map, the Commission preserved and united historic, geographically discrete majority-minority communities and communities of interest to adhere to "traditional districting principles such as maintaining communities of interest and traditional boundaries." *League of United Latin Am. Citizens v. Perry*, 548 U.S. 399, 433, 126 S.Ct. 2594, 165 L.Ed.2d 609 (2006).

The final map does not appear to have the purpose or effect of diluting minority voting strength or discriminating against people based on race, color, or membership in a language minority group.

Reflecting significant Latino total and voting age population growth over the past decade, the map creates three Latino majority-minority districts by total population, with two such districts (Districts 2 and 4) majority-minority in CVAP. No other County minority group is large enough and geographically compact enough to constitute a majority in a single district.

Latinos make up nearly 50% of the County's total population. According to the American Community Survey, Latino CVAP in Los Angeles County is 38%. The two majority CVAP (40% of County Board of Supervisor districts) Latino districts correspond to Latinos' total County wide CVAP of nearly 40%, reflecting the nature of the County's population as of the 2020 Census.

The only other single race minority group with a population increase since 2010 is Asians, who now number 148,790 more people than in 2010 (11.23% increase) and 162,104 more people of voting age (14.77%), according to the 2020 Census. There are 1,474,237 (14.72%) Asian people in Los Angeles County as the 2020 Census data reveal. By contrast, the non-Hispanic White and Black populations decreased in both total population and VAP.

In its redistricting efforts, the County of Los Angeles Citizens Redistricting Commission was aware of Census data and population changes in Los Angeles County. The Commission emphasized recognizing and preserving communities of interest (COI) while balancing COIs with other redistricting criteria, including Census data and an understanding of who lives in Los Angeles County.

Finally, the final map's 9.32% deviation complies with the 14<sup>th</sup> Amendment's one person, one vote requirement. There is no evidence to suggest, prove, or indicate that the Commission's deviation was caused by going beyond traditional redistricting criteria and other "legitimate [local] interests," such as complying with the Voting Rights Act of 1965.

We are always available to answer any questions or concerns.

Sincerely,
