#### **EXECUTIVE SUMMARY**

The purpose of this rulemaking is to define reasonable reimbursement methodology terms and clarify conditions expressed in Government Code section 17518.5 so that the Commission can successfully adopt reasonable reimbursement methodologies for parameters and guidelines.

The Notice of Proposed Rulemaking was mailed on April 13, 2007, which is more than 45 days prior to the close of the public comment period on May 31, 2007. The proposed text was made available to the public from April 13, 2007, through May 31, 2007, but no comments were received. No public hearing was requested on this matter.

Staff finds that no alternative would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons than the proposed regulation.
