Section 4 – Please identify all code sections (include statutes, chapters, and bill numbers; e.g., Penal Code section 2045, Statutes 2004, Chapter 54 [AB 290]), regulatory sections (include register number and effective date; e.g., California Code of Regulations, title 5, section 60100 (Register 1998, No. 44, effective 10/29/98), and other executive orders (include effective date) that impose the alleged mandate pursuant to Government Code section 17553 and don't forget to check whether the code section has since been amended or a regulation adopted to implement it (refer to your completed WORKSHEET on page 7 of this form):

Statute 2017, Chapter 687, AB No. 10, Ed. Code 35292.6, effective date 1/1/2018

Test Claim is Timely Filed on [Insert Filing Date] [select either A or B]: 12/ 7 / 2018

A: Which is not later than 12 months following [insert the effective date of the test claim statute(s) or executive order(s)] 1 / 1 / 2018, the effective date of the statute(s) or executive order(s) pled; or

B: Which is within 12 months of [insert the date costs were *first* incurred to implement the alleged mandate] / / , which is the date of first incurring costs as a result of the statute(s) or executive order(s) pled. *This filing includes evidence which would be admissible over an objection in a civil proceeding to support the assertion of fact regarding the date that costs were first incurred.*

([Gov. Code § 17551\(c\)](#); [Cal. Code Regs., tit. 2, §§ 1183.1\(c\)](#) and [1187.5.](#))

Section 5 – Written Narrative:

Includes a statement that actual and/or estimated costs exceed one thousand dollars (\$1,000). ([Gov. Code § 17564.](#))

Includes all of the following elements for each statute or executive order alleged pursuant to [Government Code section 17553\(b\)\(1\)](#) (refer to your completed WORKSHEET on page 7 of this form):

Identifies all sections of statutes or executive orders and the effective date and register number of regulations alleged to contain a mandate, including a detailed description of the *new* activities and costs that arise from the alleged mandate and the existing activities and costs that are *modified* by the alleged mandate;

Identifies *actual* increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate;

Identifies *actual or estimated* annual costs that will be incurred by the claimant to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed;

- Contains a statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed;
Following FY: 2018 - 2019 Total Costs: \$5,000,000.00
- Identifies all dedicated funding sources for this program; State: None
Federal: None Local agency's general purpose funds: None
Other nonlocal agency funds: None
Fee authority to offset costs: None
- Identifies prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate: Williams Cost Implementation
- Identifies a legislatively determined mandate that is on the same statute or executive order: _____

Section 6 – The Written Narrative Shall be Supported with Declarations Under Penalty of Perjury Pursuant to Government Code Section 17553(b)(2) and California Code of Regulations, title 2, section 1187.5, as follows (refer to your completed WORKSHEET on page 7 of this form):

- Declarations of actual or estimated increased costs that will be incurred by the claimant to implement the alleged mandate.
- Declarations identifying all local, state, or federal funds, and fee authority that may be used to offset the increased costs that will be incurred by the claimant to implement the alleged mandate, including direct and indirect costs.
- Declarations describing new activities performed to implement specified provisions of the new statute or executive order alleged to impose a reimbursable state-mandated program (specific references shall be made to chapters, articles, sections, or page numbers alleged to impose a reimbursable state-mandated program).
- If applicable, declarations describing the period of reimbursement and payments received for full reimbursement of costs for a legislatively determined mandate pursuant to Government Code section 17573, and the authority to file a test claim pursuant to paragraph (1) of subdivision (c) of Government Code section 17574.
- The declarations are signed under penalty of perjury, based on the declarant's personal knowledge, information, or belief, by persons who are authorized and competent to do so.

Section 7 – The Written Narrative Shall be Supported with Copies of the Following Documentation Pursuant to Government Code section 17553(b)(3) and California Code of Regulations, title 2, § 1187.5 (refer to your completed WORKSHEET on page 7 of this form):

- The test claim statute that includes the bill number, and/or executive order identified by its effective date and register number (if a regulation), alleged to impose or impact a mandate. Pages DSUSD000017 to DSUSD000019.

- Relevant portions of state constitutional provisions, federal statutes, and executive orders that may impact the alleged mandate. Pages _____ to _____.
- Administrative decisions and court decisions cited in the narrative. (Published court decisions arising from a state mandate determination by the Board of Control or the Commission are exempt from this requirement.) Pages _____ to _____.
- Evidence to support any written representation of fact. *Hearsay evidence may be used for the purpose of supplementing or explaining other evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions.* (Cal. Code Regs., tit. 2, § 1187.5). Pages DSUSD000025 to DSUSD000033.

Section 8 –TEST CLAIM CERTIFICATION Pursuant to Government Code section 17553

- The test claim form is signed and dated at the end of the document, under penalty of perjury by the eligible claimant, with the declaration that the test claim is true and complete to the best of the declarant's personal knowledge, information, or belief.

Read, sign, and date this section. Test claims that are not signed by authorized claimant officials pursuant to California Code of Regulations, title 2, section 1183.1(a)(1-5) will be returned as incomplete. In addition, please note that this form also serves to designate a claimant representative for the matter (if desired) and for that reason may only be signed by an authorized local government official as defined in section 1183.1(a)(1-5) of the Commission's regulations, and not by the representative.

This test claim alleges the existence of a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution and Government Code section 17514. I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this test claim is true and complete to the best of my own personal knowledge, information, or belief. All representations of fact are supported by documentary or testimonial evidence and are submitted in accordance with the Commission's regulations. (Cal. Code Regs., tit.2, §§ 1183.1 and 1187.5.)

Test Claim: Public School Restrooms
Feminine Hygiene Products
Claimants: Desert Sands Unified School District
5. Written Narrative

**BEFORE THE
COMMISSION ON STATE MANDATES
STATE OF CALIFORNIA**

Test Claim of:

Desert Sands Unified School District
Claimants.

No. CSM _____
Public School Restrooms
Feminine Hygiene Products
Assembly Bill No. 10
Statutes 2017, Chapter 687
Education Code Section 35292.6

STATEMENT OF THE CLAIM

This test claim alleges reimbursable costs mandated by the State for school districts to provide Feminine Hygiene Products for a public school maintaining any combination of classes from grade 6 to grade 12, that meets the 40-percent pupil poverty threshold required to operate a school wide program, pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code, shall stock at least 50 percent of the school's restrooms with feminine hygiene products ("Feminine Hygiene Products") at all times pursuant to the requirements in Statutes 2017 Chapter 687, A.B. No 10.

Desert Sands Unified School District ("Claimant") allege that the test claim statutes impose a reimbursable state mandated program for school districts under Article XIII B, section 6 and Government Code section 17514. It was the intent of the Legislature in enacting the test claim statutes and regulations to require school districts to provide school restrooms with feminine hygiene products at all times.

AUTHORITY FOR THE CLAIM

The Commission on State Mandates has the authority, pursuant to Government Code section 17551, subdivision (a), to hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the State for costs mandated by the State, as required by section 6 of Article XIII B of the California Constitution. (*Kinlaw v. State of California* (1991) 54 Cal.3d 326, 331-334; Government Code sections 17551 and 17552.) The determination of whether a statute or executive order imposes a reimbursable state-mandated program is a question of law. (*County of San Diego v. State of California*, (1997) 15 Cal.4th 68,109.)

Claimant is a school district as defined in Government Code Section 17519. This test claim is filed pursuant to Title 2, California Code of Regulations section 1183.1.

A. California Constitution requires the State to reimburse schools

Article XIII B, section 6 of the California Constitution states:

Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the state shall provide a subvention of funds to reimburse such local government for the costs of such programs or increased level of service.

The purpose of Article XIII B, section 6 is to [p]reclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are ‘ill equipped’ to assume increased financial responsibilities because of the taxing and spending limitations that article XIII A and XIII B impose. (*County of San Diego v. State of California* (1997) 15 Cal.4th 68, 81.) Thus, the subvention requirement of section 6 is “directed to state-mandated increases in the services provided by [local government]...” (*County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56.) Reimbursement under Article XIII B, section 6 is required when the following elements are met:

1. A state statute or executive order requires or “mandates” local agencies or school districts to perform an activity. (*San Diego Unified School Dist. v. Commission on State Mandates*, (2004) 33 Cal.4th 859, 874.)

2. Under the first alternative test set forth by the California Supreme Court, a "new program or higher level of service" is established by "programs that carry out the governmental function of providing services to the public." (*San Diego Unified Sch. Dist. v. Comm'n on State Mandates*, 33 Cal. 4th 859, 874 (2004) (quoting *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56).

3. Under the second alternative test set forth by the California Supreme Court, a "new program or higher level of service" is established by "laws which, to implement a state policy, impose unique requirements on local governments and do not apply generally to all residents and entities in the state." (*San Diego Unified Sch. Dist. v. Comm'n on State Mandates*, 33 Cal. 4th 859, 874 (2004) (quoting *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56).

4. The mandated activity is a new law when compared with the legal requirements in effect immediately before the enactment of the test claim statute, and it increases the level of service provided to the public in enforcing a state policy. (*San Diego Unified School Dist.*, supra 33 Cal.4th 859, 874-875, 878; *Lucia Mar Unified School District v. Honig* (1988) 44 Cal 3d 830, 835.)

B. The new program is mandated when the schools incur increased costs.

Government Code section 17514 provides that [c]osts mandated by the state means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

Government Code section 17564 provides that: [n]o claim shall be made pursuant to Sections 17551, 17561, or 17573, nor shall any payment be made on claims submitted pursuant to Sections 17551, or 17561, or pursuant to a legislative determination under Section 17573, unless these claims exceed one thousand dollars.

Claimant alleges increased costs exceeds the \$1,000.00 minimum claim amount articulated in Government Code section 17564(a). Government Code section 17556(e) states that there are no costs mandated by the state, if additional revenue specifically intended to fund the costs of the mandated activities, in an amount sufficient to fund the cost of the state-mandated activities, has been appropriated in a Budget Act or other bill.

There is no evidence that additional on-going revenue has been appropriated, specifically to fund the costs of the mandated activities in this claim. Thus, Government Code section 17556(e) does not apply to deny this claim. Accordingly, the evidence in the record supports the finding that the claimant has incurred increased costs mandated by the state, pursuant to Government Code section 17514. However, to the extent a district receives any funding or grant funding and applies those funds to the mandated activities, those funds are required to be identified as offsetting revenue and deducted from the costs claimed by the district.

A. Statutes 2017 Chapter 687, A.B. No 10.

Existing law, with certain exceptions, requires every public and private school, as provided, to have restroom facilities that are open as prescribed during school hours, and at all times to keep every restroom maintained and cleaned regularly, fully operational, and stocked with soap and paper supplies.

SECTION 1, section 35292.6 is added to the Education Code, to read:

(a) Pursuant to this new legislation, a public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a school wide program, pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code, shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.

(b) A public school described in subdivision (a) shall not charge for any menstrual products provided to pupils, including, but not limited to, feminine hygiene products.

(c) For purposes of this section, "feminine hygiene products" means tampons and sanitary napkins for use in connection with the menstrual cycle.

Activities

School districts have incurred or will incur costs implementing the following activities:

- (i) Developing and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products.
- (ii) Train certificated, classified and other personnel to administer the availability of feminine hygiene products in the district’s restrooms.
- (iii) Purchasing and installing dispensers in the schools’ restrooms.
- (iv) Stocking the schools’ restrooms with feminine hygiene products at all times.

B. A detailed description of existing activities and costs that are modified by the mandate

There were no existing activities that were modified by the test clam statute.

B. The actual increased costs incurred by the claimant during the fiscal year for which the claim was filed to implement the alleged mandate.

January 1, 2018-June 30, 2018

- (i) Developing and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products. (supported by declaration)

(v) Total Expenses \$39,629.38

E. A statewide cost estimate of increased costs that all local agencies or school districts will incur to implement the alleged mandate during the fiscal year immediately following the fiscal year for which the claim was filed.

\$5,000,000.00.

F. Identification of all of the following funding sources available for this program:

(i) Dedicated state funds¹

Claimant is unaware at this time of any other dedicated state funds available for this program.

(ii) Dedicated federal funds

Claimant is unaware at this time of any other dedicated state funds available for this program.

(iii) Other nonlocal agency funds

Claimant is unaware at this time of any other dedicated state funds available for this program.

(iv) The local agency's general purpose funds

Claimant is unaware at this time of any other dedicated state funds available for this program.

(v) Fee authority to offset costs

Claimant is unaware at this time of any other dedicated state funds available for this program.

¹ Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service. (Cal. Const. art. 13B, § 6)

G. Identification of prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate

Education Code Sections 14501, 33126(b), 35186, 41020 and 42127.6 required students be provided with decent, clean and safe facilities that was maintained to ensure good repair, along with providing sufficient instructional materials and qualified teachers. (Williams Cost Implementation I, II, III; 05-TC-04; 07-TC-06; 08-TC-01)

Claimant is unaware at this time of any other prior mandate determinations made by the Board of Control or the Commission on State Mandates that may be related to the alleged mandate.

H. Identification of a legislatively determined mandate pursuant to Government Code section 17573 that is on the same statute or executive order

Claimant is unaware at this time of any other dedicated state funds available for this program.

CHAPTER 687

A.B. No. 10

SCHOOLS AND SCHOOL DISTRICTS—RESTROOMS AND TOILETS—FEMININE HYGIENE PRODUCTS

AN ACT to add Section 35292.6 to the Education Code, relating to feminine hygiene products.

[Filed with Secretary of State October 12, 2017.]

LEGISLATIVE COUNSEL'S DIGEST

AB 10, Cristina Garcia. Feminine hygiene products: public school restrooms.

Existing law, with certain exceptions, requires every public and private school, as provided, to have restroom facilities that are open as prescribed during school hours, and at all times to keep every restroom maintained and cleaned regularly, fully operational, and stocked with soap and paper supplies.

This bill would require a public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets a 40% pupil poverty threshold specified in federal law to stock 50% of the school's restrooms with feminine hygiene products, as defined. The bill would prohibit a public school from charging for any menstrual products, including feminine hygiene products, provided to pupils. By imposing additional duties on public schools, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

The people of the State of California do enact as follows:

SECTION 1. Section 35292.6 is added to the Education Code, to read:

<< CA EDUC § 35292.6 >>

35292.6. (a) A public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.

(b) A public school described in subdivision (a) shall not charge for any menstrual products provided to pupils, including, but not limited to, feminine hygiene products.

(c) For purposes of this section, "feminine hygiene products" means tampons and sanitary napkins for use in connection with the menstrual cycle.

SEC. 2. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

West's Ann.Cal.Educ.Code § 35292.6

§ 35292.6. Public school restrooms; feminine hygiene products; when required

Effective: January 1, 2018
Currentness

(a) A public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.

(b) A public school described in subdivision (a) shall not charge for any menstrual products provided to pupils, including, but not limited to, feminine hygiene products.

(c) For purposes of this section, "feminine hygiene products" means tampons and sanitary napkins for use in connection with the menstrual cycle.

Test Claim: Public School Restrooms
 Feminine Hygiene Products
 Claimants: Desert Sands Unified School District
 Section: 6 Declaration – Jordan Aquino, Chief Business Officer, Desert Sands Unified School District

SECTION NUMBER: 6
Heading: DECLARATION

I, Jordan Aquino, Chief Business Officer, Desert Sands Unified School District, (“District”) declare as follows:

1. I am employed with the District and I have personal knowledge of the actual and estimated costs incurred by the District for the Feminine Hygiene Products program commencing on January 1, 2018. The information contained in my declaration is from reviewing District business records and my personal knowledge pertaining to the Feminine Hygiene Products program.

2. The new activities performed, or to be performed, to implement provisions of the new statute alleged to impose the reimbursable mandate, Assembly Bill No. 10; Statutes 2017, Chapter 687; Education Code Section 35292.6 include the following:
 - (i) Developing and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products;
 - (ii) Train certificated, classified and other personnel to administer the availability of feminine hygiene products in the schools’ restrooms;
 - (iii) The cost of purchasing and installing dispensers in the schools’ restrooms;
 - (iv) The cost of stocking the schools’ restrooms with feminine hygiene products at all times.

3. Total Feminine Hygiene Products estimated 2017-2018 costs are as follows:
 - (i) Developing and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products. These costs represent labor costs for Maintenance & Operations Director, Purchasing Director and Purchasing Buyer in the amount of \$ 374.16.

Labor Costs

Description	Qty (hours)	Avg Hrly Rate (incl. Fixed Charges)	Total Cost
M&O Director	2	\$67.71	\$135.42
Purchasing Director	2	\$82.23	\$164.46
Purchasing Buyer	2	\$37.15	\$74.30
		Total	\$374.16

Test Claim: Public School Restrooms

Feminine Hygiene Products

Claimants: Desert Sands Unified School District

Section: 6 Declaration – Jordan Aquino, Chief Business Officer, Desert Sands Unified School District

- (ii) Train certificated, classified and other personnel to administer the availability of feminine hygiene products in the schools' restrooms. These costs represent labor costs for Principals and Custodians in the amount of \$2,110.51.

Labor Costs

Description	Qty.	Avg Hrly Rate (incl. Fixed Charges)	Total Cost
Principals	34 at .5 hours	84.46	\$1,435.82
Custodians	49 at .5 hours	27.13	\$ 664.69
		Total	\$2,110.51

- (iii) The cost of purchasing and installing dispensers in the schools' restrooms in the amount of \$19,501.67. (DSUSD000026)

Equipment Costs

Description	Qty	Unit Cost (including installation)	Total Cost
Dispensers	115	\$156.74	\$19,501.67

(DSUSD000028)

DECLARATION OF SERVICE BY EMAIL

I, the undersigned, declare as follows:

I am a resident of the County of Sacramento and I am over the age of 18 years, and not a party to the within action. My place of employment is 980 Ninth Street, Suite 300, Sacramento, California 95814.

On December 17, 2018, I served the:

- **Notice of Complete Test Claim, Schedule for Comments, and Notice of Tentative Hearing Date issued December 17, 2018**
- **Test Claim filed by the Desert Sands Unified School District on December 7, 2018**

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

by making it available on the Commission's website and providing notice of how to locate it to the email addresses provided on the attached mailing list.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration was executed on December 17, 2018 at Sacramento, California.

Re: Decision

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

Dear Ms. Li and Mr. Palkowitz:

On May 24, 2019, the Commission on State Mandates adopted the Decision approving the Test Claim on the above-entitled matter.

Sincerely,

Heather Halsey
Executive Director

BEFORE THE
 COMMISSION ON STATE MANDATES
 STATE OF CALIFORNIA

<p>IN RE TEST CLAIM</p> <p>Education Code Section 35292.6</p> <p>Statutes 2017, Chapter 687 (AB 10)</p> <p>Filed on December 7, 2018</p> <p>Desert Sands Unified School District, Claimant</p>	<p>Case No.: 18-TC-01</p> <p><i>Public School Restrooms: Feminine Hygiene Products</i></p> <p>DECISION PURSUANT TO GOVERNMENT CODE SECTION 17500 ET SEQ.; CALIFORNIA CODE OF REGULATIONS, TITLE 2, DIVISION 2, CHAPTER 2.5, ARTICLE 7.</p> <p><i>(Adopted May 24, 2019)</i></p> <p><i>(Served May 24, 2019)</i></p>
---	---

DECISION

The Commission on State Mandates (Commission) heard and decided this Test Claim during a regularly scheduled hearing on May 24, 2019. Arthur Palkowitz appeared on behalf of the Desert Sands Unified School District. Susan Geanacou, appeared on behalf the Department of Finance (Finance).

The law applicable to the Commission’s determination of a reimbursable state-mandated program is article XIII B, section 6 of the California Constitution, Government Code sections 17500 et seq., and related case law.

The Commission adopted the Proposed Decision to approve the Test Claim by a vote of 7-0, as follows:

Member	Vote
Lee Adams, County Supervisor	Yes
Jeannie Lee, Representative of the Director of the Office of Planning and Research	Yes
Gayle Miller, Representative of the Director of the Department of Finance, Chairperson	Yes
Sarah Olsen, Public Member	Yes
Carmen Ramirez, City Council Member	Yes
Andre Rivera, Representative of the State Treasurer	Yes
Yvette Stowers, Representative of the State Controller, Vice Chairperson	Yes

Summary of the Findings

This Test Claim alleges that Statutes 2017, chapter 687, which added section 35292.6 to the Education Code, effective January 1, 2018, constitutes a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution. The test claim statute requires any public school maintaining any classes from grade 6 to grade 12, inclusive, that meets the 40 percent pupil poverty threshold required to operate a Title I, Part A schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code, to stock at least 50 percent of the school's restrooms with feminine hygiene products, defined as “tampons and sanitary napkins,” at all times. In addition, the test claim statute prohibits schools from charging for any menstrual products, including feminine hygiene products, provided to pupils.

This Test Claim was filed on December 7, 2018, which is within 365 days of the date the test claim statute became effective on January 1, 2018, and is therefore timely filed pursuant to Government Code section 17551 and California Code of Regulations, title 2, section 1183.1(c).¹

The Commission finds that Education Code section 35292.6, as added by Statutes 2017, chapter 687, constitutes a reimbursable state-mandated program under article XIII B, section 6 of the California Constitution, beginning January 1, 2018, for school districts with schools identified below to stock 50 percent of such schools’ restrooms with feminine hygiene products (defined as tampons and sanitary napkins) at all times at no cost to pupils. This mandate applies to those schools that

- Maintain any combination of classes from grade 6 to grade 12, inclusive; *and*
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families.

The mandated activity is new. Prior to the enactment of the test claim statute, school districts were required to ensure that every school restroom is maintained and cleaned regularly, and is fully operational and stocked at all times with toilet paper, soap, and paper towels or functional hand dryers.² In addition, prior law requires that school restroom facilities be evaluated as to whether they meet the “good repair” standard.³ Schools are also required by prior law to permit students to use facilities consistent with their gender identity, irrespective of the gender listed on the pupil’s records.⁴ However, there is no requirement in prior law to stock 50 percent of the school's restrooms with feminine hygiene products at all times at no cost to students.

In addition, the mandated activity is uniquely imposed on public schools, as specified in the test claim statute, and provides a service to the public. According to the legislative history, the test claim statute is needed to remove a barrier to girls’ educations because “[n]ot having access to

¹ Exhibit A, Test Claim, page 1.

² Education Code section 35292.5; Education Code section 17002(d)(1); Education Code section 33126(b)(8).

³ Education Code section 17002(d)(1).

⁴ Education Code section 221.5.

these vital medical necessities creates an additional barrier to a young girl’s education. Young girls sometimes miss school because of a lack of access to these products.”⁵ Public education is an essential governmental function.⁶ Thus, the test claim statute imposes a new program or higher level of service.

Finally, based on evidence in the record, the Commission finds that the test claim statute results in increased actual costs mandated by the state within the meaning of Government Code section 17514, and that no exceptions in Government Code section 17556 apply to deny this Test Claim.

COMMISSION FINDINGS

I. Chronology

01/01/2018	The effective date of the test claim statute.
12/07/2018	The claimant filed the Test Claim. ⁷
12/17/2018	Commission staff issued the Notice of Complete Test Claim, Schedule for Comments, and Notice of Tentative Hearing Date.
01/16/2019	The Department of Finance (Finance) filed comments on the Test Claim. ⁸
02/15/2019	The claimant filed rebuttal comments. ⁹
03/05/2019	Commission staff issued the Draft Proposed Decision. ¹⁰
03/26/2019	The claimant filed comments on the Draft Proposed Decision. ¹¹
03/26/2019	Finance filed comments on the Draft Proposed Decision. ¹²

II. Background

This Test Claim addresses Statutes 2017, chapter 687, which added section 35292.6 to the Education Code. Section 35292.6 requires public schools to stock at least 50 percent of the schools’ restrooms with feminine hygiene products (defined as tampons and sanitary napkins), if the school maintains any combination of classes from grade 6 to grade 12, inclusive, and meets a 40 percent pupil poverty threshold specified in federal law for schoolwide Title I program eligibility.

¹² Exhibit F, Finance’s Comments on the Draft Proposed Decision.

A. Prior Law Established Requirements for School Restroom Maintenance and Reporting, and Requires that School Restrooms Be Kept in Good Repair and Stocked at All Times with Toilet Paper, Soap, and Paper Towels or Functional Hand Dryers.

Prior law requires school districts to keep facilities and school restrooms in good repair, and to report any needed maintenance on those facilities as follows:

Restroom Maintenance: Education Code section 35292.5 requires every public and private school enrolling students from kindergarten through grade 12 to ensure that restrooms are kept open during school hours, maintained and cleaned regularly, be fully operational and stocked at all times with toilet paper, soap, and paper towels or functional hand dryers.¹³

Good Repair and the Facilities Inspection System: Education Code section 17002 defines the “Good Repair” standard for school facilities,¹⁴ including school restrooms, to mean that they are clean, safe, and functional as determined pursuant to the Facility Inspection Tool (FIT) created by the Office of Public School Construction (OPSC) or a local evaluation instrument that meets the same criteria.¹⁵ The minimum evaluation criteria for the restrooms require that the restrooms and restroom fixtures (i) are functional, (ii) appear to be maintained and stocked with supplies regularly, (iii) appear to be accessible to pupils during the schoolday, and (iv) appear to be in compliance with Section 35292.5.¹⁶ The FIT developed by the OPSC in 2007 includes the evaluation of the degree to which restrooms are maintained and cleaned regularly; are fully operational; are stocked with toilet paper, soap, and paper towels; and are open during school hours.¹⁷

School Accountability Report Card (SARC): Education Code section 33126 requires that the safety, cleanliness, and adequacy of school facilities, including school restrooms, including any needed maintenance to ensure good repair as specified in sections 17014, 17032.5, 17070.75(a), and 17089(b), be reported on the SARC.¹⁸ “Good repair” for the purpose of SARC has the same

¹³ Education Code section 35292.5 was pled in *Clean School Restrooms*, 04-TC-01 and was withdrawn by the claimant on March 25, 2010.

¹⁴ Education Code section 17002 was pled in *Williams Case Implementation I, II, III*, 05-TC-04; 07-TC-06; 08-TC-01 and was denied by the Commission on the ground that the requirement to maintain schools in good repair is not new, but is a longstanding requirement of statutory and common law, and the statute’s definition of “good repair” is only clarifying the existing law. In addition, all the activities claimed in relation to school facilities programs utilizing the section 17002 good repair definition were voluntarily assumed activities.

¹⁵ Education Code section 17002(d)(1).

¹⁶ Education Code section 17002(d)(1)(M).

¹⁷ Exhibit G, Office of Public School Construction (OPSC), Facility Inspection Tool (FIT) https://www.documents.dgs.ca.gov/opsc/Forms/Worksheets/FIT_rev.pdf (accessed on January 30, 2018).

¹⁸ Education Code section 33126(b)(8). Education Code section 33126(b) (as amended by Stats. 2004, ch. 900 § 10 (SB 550)) was pled in *Williams Case Implementation I, II, III*, 05-TC-04; 07-

meaning as specified in Section 17002(d).¹⁹ The SARC's must be prepared annually and disseminated to the public.²⁰

Local Control Accountability Plan (LCAP): As a part of the new Local Control Funding Formula (LCFF),²¹ Education Code section 52060 incorporated the requirement to maintain schools in “good repair” as defined in Education Code section 17002(d)(1) into one of the eight state priorities, the “Priority 1/Basic Services,”²² and requires, to the extent practicable, that the data in the LCAP be reported in a manner consistent with how information is reported on the SARC.²³

Use of Facilities Consistent with Gender Identity: Education Code section 221.5 requires that a pupil be permitted to participate in sex-segregated school programs and activities, including athletic teams and competitions, and to use facilities consistent with his or her gender identity, irrespective of the gender listed on the pupil’s records.

B. The Test Claim Statute

Statutes 2017, Chapter 687, added section 35292.6 as follows:

- (a) A public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40- percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.
- (b) A public school described in subdivision (a) shall not charge for any menstrual products provided to pupils, including, but not limited to, feminine hygiene products.
- (c) For purposes of this section, "feminine hygiene products" means tampons and sanitary napkins for use in connection with the menstrual cycle.

TC-06; 08-TC-01 and was partially approved by the Commission, including the activity to report any needed maintenance to ensure good repair on the SARC.

¹⁹ Education Code section 17014(d).

²⁰ Education Code section 33126.

²¹ Education Code section 42238.02. The formula establishes grade span adjusted base grant funding for average daily attendance for school districts with supplemental and concentration grant add-ons for each school district’s percentage of unduplicated count for English Learners (EL), free and reduced-price meal eligible students and foster youth students.

²² Education Code section 52060(a)-(d). The governing boards of school districts are required to adopt a three-year LCAPs, using a template adopted by the state board, describing annual goals for all pupils and each subgroup, including the low-income subgroup, and specific actions the districts will take each year to achieve the goals identified in the LCAP for each of the state priorities

²³ Education Code section 52060(f).

The schools required to comply with this statute in accordance with subdivision (a) are analyzed in the Discussion below.

The Senate Floor analysis, quoting the author of the bill, states:

This bill seeks to increase access to menstrual products to girls and young women who need it most by providing them for free in public schools grade 6 to grade 12 that receive Title 1 funding.²⁴

The test claim statute is needed, according to the analysis, to remove a barrier to girls' education by providing access to feminine hygiene products, and may result, as evidenced by other jurisdictions, in increased school attendance:

Not having access to these vital medical necessities creates an additional barrier to a young girl's education. Young girls sometimes miss school because of a lack of access to these products. A pilot project to provide menstrual products for free in New York City was done last year in 25 middle schools and high schools and the schools saw a 2.4% increase in attendance. Providing tampons and pads is about equity and social justice. We provide toilet paper in the bathrooms of schools and tampons should be no different.²⁵

The analysis further notes that access to female hygiene products is vital for health, well-being, and full participation, but is limited for vulnerable populations stating:

According to a June 20, 2016 committee report by Committee on Women's Issues for the Council of the City of New York, ". . . Feminine hygiene products are vital for the health, well-being and full participation of women and girls. Inadequate menstrual hygiene management is associated with both health and psycho-social issues, particularly among low-income women. It has been reported that a lack of access to feminine hygiene products can cause emotional duress, physical infection and disease, and can lead to cervical cancer. Access to feminine hygiene products has proven to be limited for vulnerable populations. Currently the cost of feminine hygiene products (FHP) are not included in health insurance or flexible spending accounts, nor in public benefits programs such as the Supplemental Nutrition Assistance Program (SNAP) or Women, Infants, and Children (WIC) benefits."²⁶

The Assembly Floor Analysis, concurring in Senate amendments, and quoting the Senate Appropriations Committee analysis, indicates that the bill is expected to result in reimbursable state-mandated costs as follows:

²⁴ Exhibit G, Senate Rules Committee, Office of Senate Floor Analyses, Third Reading Analysis of AB 10, (2017-2018), as amended September 1, 2017, page 3.

²⁵ Exhibit G, Senate Rules Committee, Office of Senate Floor Analyses, Third Reading Analysis of AB 10 (2017-2018), as amended September 1, 2017, page 2.

²⁶ Exhibit G, Senate Rules Committee, Office of Senate Floor Analyses, Third Reading Analysis of AB 10 (2017-2018), as amended September 1, 2017, page 3.

FISCAL EFFECT: According to the Senate Appropriations Committee:

- 1) *One-time state reimbursable mandated costs*, ranging from the millions to tens of millions of dollars in Proposition 98 General Fund, for the bill's requirement for Title I schools serving grades 6 to 12 to stock at least 50% of their restrooms with feminine hygiene products. The precise cost will depend on the actual number of bathrooms that will require dispensers to be installed as well as the installation cost for each dispenser, which can vary from anywhere as low as several hundred dollars to as high as two to three thousand dollars.
- 2) *Ongoing state reimbursable mandated costs*, likely in the hundreds of thousands of dollars in Proposition 98 General Fund, to stock the dispensers at no charge.²⁷

III. Positions of the Parties

A. Desert Sands Unified School District

The claimant alleges that the test claim statute constitutes a reimbursable state-mandated program²⁸ and requires the claimant to perform the following new activities to implement the test claim statute:

- (i) Developing and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products.
- (ii) Train certificated, classified and other personnel to administer the availability of feminine hygiene products in the district's restrooms.
- (iii) Purchasing and installing dispensers in the schools' restrooms.
- (iv) Stocking the schools' restrooms with feminine hygiene products at all times.²⁹

The total increased costs alleged by the claimant to perform these activities for the 2017-2018 fiscal year amounted to \$61,615.72 for the cost of labor and supplies, including \$39,629.38 for stocking the schools' restrooms with feminine hygiene products at all times.³⁰ The total estimated costs alleged for the 2018-2019 fiscal year, based on the 2017-2018 costs, amounted to \$43,988.22, including the \$39,629.38 for stocking the restrooms with feminine hygiene

²⁷ Exhibit G, Assembly Concurrence in Senate Amendments Analysis of AB 10 (2017-2018), as amended September 1, 2017, page 1, emphasis added.

²⁹ Exhibit A, Test Claim, page 11 (Narrative).

³⁰ Exhibit A, Test Claim, pages 11-13 (Narrative).

products.³¹ To support its claim, the claimant filed a declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District³² and invoices.³³

The claimant filed rebuttal comments on February 15, 2019 in response to Finance’s argument “questioning the validity of the claimant’s ongoing labor costs claimed in the Test Claim and that the new activities implemented by the Test Claim, as it relates to labor costs, may be “absorbed into existing activities of the school district therefore not resulting in increased labor costs to that district.”³⁴ The claimant disagrees with Finance’s statement that the Test Claim asserts “a massive overhaul of school policies and procedures” and states that the claimed “labor costs are very reasonable based on the time estimated to perform the tasks.”³⁵

On March 26, 2019, the claimant filed comments on the Draft Proposed Decision disagreeing with the recommendation that the proposed activities to update policies and procedures and to purchase and install dispensers are not mandated by the plain language of the test claim statute.³⁶ The claimant argues that “[l]egislative history acknowledges that the mandate would result in school districts incurring costs to purchase and install dispensers and the claimant has filed evidence supporting that cost.”³⁷

B. Department of Finance

Finance argues that “[e]xisting law (Education Code section 35292.5) requires all schools, with few exceptions, to maintain clean, fully operational restrooms, stocked at all times with toilet paper, soap, and paper towels or functional hand dryers”, and, therefore, the activities related to implementation of the test claim statute may “simply be absorbed into existing activities of a school district, therefore not resulting in increased labor costs to that district.”³⁸

Alternatively, Finance argues that, to the extent that the test claim statute establishes new responsibilities, the requirement to stock feminine hygiene products in 50 percent of certain public school’s restrooms, already maintained as required by section 35292.5 and 17002, “should not require massive overhaul of school policies and procedures, nor should it result in significant increased labor costs.”³⁹

³¹ Exhibit A, Test Claim, pages 13-15 (Narrative).

³² Exhibit A, Test Claim, pages 20-24 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

³³ Exhibit A, Test Claim, pages 25-33.

³⁴ Exhibit C, Claimant’s Rebuttal Comments, page 1.

³⁵ Exhibit C, Claimant’s Rebuttal Comments, pages 1-2.

³⁶ Exhibit E, Claimant’s Comments on the Draft Proposed Decision.

³⁷ Exhibit E, Claimant’s Comments on the Draft Proposed Decision, page 2.

³⁸ Exhibit B, Finance’s Comments on the Test Claim, page 1.

³⁹ Exhibit B, Finance’s Comments on the Test Claim, page 2.

On March 26, 2019, Finance filed comments on the Draft Proposed Decision expressing concerns “regarding some of the costs in the Draft Proposed Decision.”⁴⁰ Finance argues that “certain costs, such as development and implementation of policies, and purchase and installation of dispensers, are one-time costs which should not need to be repeated in ongoing years.”⁴¹ And, Finance continues to dispute the significant labor cost alleged to refill dispensers, given that the claimant “has not identified the number of schools in its district required to comply with the measure or the number of restrooms in each school.”⁴²

IV. Discussion

Article XIII B, section 6 of the California Constitution provides in relevant part the following:

Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the state shall provide a subvention of funds to reimburse such local government for the costs of such programs or increased level of service...

The purpose of article XIII B, section 6 is to “preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are ‘ill equipped’ to assume increased financial responsibilities because of the taxing and spending limitations that articles XIII A and XIII B impose.”⁴³ Thus, the subvention requirement of section 6 is “directed to state-mandated increases in the services provided by [local government] ...”⁴⁴

Reimbursement under article XIII B, section 6 is required when the following elements are met:

1. A state statute or executive order requires or “mandates” local agencies or school districts to perform an activity.⁴⁵
2. The mandated activity constitutes a “program” that either:
 - a. Carries out the governmental function of providing a service to the public; or
 - b. Imposes unique requirements on local agencies or school districts and does not apply generally to all residents and entities in the state.⁴⁶

⁴⁰ Exhibit F, Finance’s Comments on the Draft Proposed Decision, page 1.

⁴¹ Exhibit F, Finance’s Comments on the Draft Proposed Decision, page 1.

⁴² Exhibit F, Finance’s Comments on the Draft Proposed Decision, page 1.

⁴³ *County of San Diego v. State of California* (1997) 15 Cal.4th 68, 81.

⁴⁴ *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56.

⁴⁵ *San Diego Unified School Dist. v. Commission on State Mandates* (2004) 33 Cal.4th 859, 874.

⁴⁶ *San Diego Unified School Dist. v. Commission on State Mandates* (2004) 33 Cal.4th 859, 874-875 (reaffirming the test set out in *County of Los Angeles* (1987) 43 Cal.3d 46, 56).

3. The mandated activity is new when compared with the legal requirements in effect immediately before the enactment of the test claim statute or executive order and it increases the level of service provided to the public.⁴⁷
4. The mandated activity results in the local agency or school district incurring increased costs, within the meaning of section 17514. Increased costs, however, are not reimbursable if an exception identified in Government Code section 17556 applies to the activity.⁴⁸

The Commission is vested with the exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6 of the California Constitution.⁴⁹ The determination whether a statute or executive order imposes a reimbursable state-mandated program is a question of law.⁵⁰ In making its decisions, the Commission must strictly construe article XIII B, section 6 of the California Constitution, and not apply it as an “equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities.”⁵¹

A. This Test Claim Was Timely Filed.

Government Code section 17551(c) provides that test claims “shall be filed not later than 12 months following the effective date of a statute or executive order, or within 12 months of incurring increased costs as a result of a statute or executive order, whichever is later.”⁵² Section 1183.1(c) of the Commission’s regulations, in turn, defines “12 months” as 365 days.⁵³

The test claim statute became effective on January 1, 2018, and the Test Claim was filed on December 7, 2018, within 365 days following the effective date of the statute.⁵⁴ The Test Claim was therefore timely pursuant to the first prong of Government Code section 17551(c) and California Code of Regulations, title 2, section 1183.1(c).⁵⁵

⁵⁴ Exhibit A, Test Claim, page 1.

⁵⁵ Based on the filing date of December 7, 2018, the potential period of reimbursement would begin July 1, 2017. (Gov. Code, § 17557(e).) However, since the test claim statute did not

B. Education Code Section 35292.6, as Added by Statutes 2017, Chapter 687, Imposes a Reimbursable State-Mandated Program on School Districts with Specified Schools Within the Meaning of Article XIII B, Section 6 of the California Constitution.

As described below, the Commission finds that Education Code section 35292.6, added by the test claim statute (Stats. 2017, ch. 687) imposes a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution.

1. Education Code Section 35292.6 Imposes a State-Mandated Program on School Districts with Schools Maintaining Any Combination of Classes from Grade 6 to Grade 12, Inclusive, That Meet a 40 Percent Pupil Poverty Threshold Required to Operate a Schoolwide Title I Program Pursuant to Federal Law, to Stock 50 Percent of Such Schools' Restrooms with Feminine Hygiene Products at All Times at No Cost to Pupils.

The plain language of Education Code section 35292.6 requires specified schools maintaining any combination of classes from grade 6 to grade 12, to stock at all times at least 50 percent of the schools' restrooms with feminine hygiene products, defined as "tampons and sanitary napkins for use in connection with the menstrual cycle." In addition, the statute prohibits these schools from charging for any menstrual products provided to pupils, including, but not limited to, feminine hygiene products. Section 35292.6 states the following:

- (a) A public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40- percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code *shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.*
- (b) A public school described in subdivision (a) *shall not charge for any menstrual products provided to pupils*, including, but not limited to, feminine hygiene products.
- (c) For purposes of this section, "feminine hygiene products" means tampons and sanitary napkins for use in connection with the menstrual cycle.

Based on the plain language of the statute, the activity to stock 50 percent of the school's restrooms with "feminine hygiene products" (defined as tampons and sanitary napkins) at all times, is mandated by the state.⁵⁶ Although the statute suggests that a school can stock more than 50 percent of the restrooms with feminine hygiene products (with the language requiring schools to stock "at least 50 percent of the school's restrooms"), there is no mandate to do so. It is within the discretion of a school district or the school site to stock more than 50 percent of the school's restrooms with feminine hygiene products.

In addition, the test claim statute prohibits schools from charging for any "menstrual products provided to pupils, including, but not limited to, feminine hygiene products." The term

become effective and operative until January 1, 2018, then the period of reimbursement begins January 1, 2018.

⁵⁶ Education Code section 75 states that "[s]hall is mandatory and 'may' is permissive."

“menstrual products” is not defined. However, the phrase “menstrual products” is broader than “feminine hygiene products” (defined as tampons and sanitary napkins), since the plain language states that “menstrual products” includes, “but is not limited to,” “feminine hygiene products.” The test claim statute only mandates that schools stock tampons and sanitary napkins. The state has not mandated schools to provide or stock any other menstrual product. Therefore, to the extent a school stocks other menstrual products, it does so at its own discretion and cost.

Moreover, the test claim statute mandates that 50 percent of the school’s restrooms be stocked with feminine hygiene products, but does not define the term “restrooms.” A “restroom” is commonly understood as “*a room or suite of rooms in a public space provided with lavatory, toilet, and other facilities . . .*”⁵⁷ Accordingly, no matter how many lavatories or toilets are in a room or suite of rooms, the mandate is to stock with feminine hygiene products, 50 percent of the rooms provided for that purpose at a school site. Thus, for example, if a school has two sets of restrooms, one for men or boys and one for women or girls, it would be required to stock one restroom with tampons and sanitary napkins – and that would be the one for women or girls consistent with the spirit of the law.

Finally, the test claim statute provides that only “a public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code” is mandated to comply with the test claim statute. Section 6314 of Title 20 of the United States Code is part of federal statutory scheme known as Title I, Part A, authorized under the Elementary and Secondary Education Act (ESEA) of 1965⁵⁸ and most recently reauthorized by the Every Student Succeeds Act (ESSA) of 2015,⁵⁹ to provide federal financial assistance to local educational agencies (LEAs) and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards.⁶⁰ Any state desiring federal funds from Title I, Part A, is required to submit to the federal government a state plan that outlines the state’s challenging academic standards and student academic achievement standards; establishes a single, statewide accountability system that will be effective in ensuring that all LEAs and schools make adequate yearly progress to meet the state’s student academic achievement standards; and establishes statewide annual measurable objectives.⁶¹ The Act also requires each state to produce an annual

⁵⁸ Public Law No. 89-10, Title I, Part A has been codified in Title 20 United State Code, Sections 6301-6339, 6571-6578.

⁵⁹ Public Law No. 114-95, 129 Statutes 1802 (2015).

⁶⁰ Exhibit G, U.S. Department of Education, Programs, Improving Basic Programs Operated by Local Educational Agencies (Title I, Part A) <https://www2.ed.gov/programs/titleiparta/index.html> (accessed on January 30, 2018).

⁶¹ 20 United States Code, section 6311.

report card that summarizes student achievement data statewide, disaggregated by student subgroups, including low-income student subgroups.⁶²

Local educational agencies (LEAs) allocate funds received under the federal Title I, Part A program to schools in “eligible school attendance areas” in rank order on the basis of the total number of children from low-income families in each area or school, using certain measures of poverty.⁶³ Section 6314(a)(1)(A) of Title 20 of the United States Code, which is referenced in the test claim statute, authorizes the LEA to consolidate and use federal Title I, Part A funds, together with other federal, state, and local funds, to upgrade the entire educational program of a school that serves an eligible school attendance area in which not less than 40 percent of the children are from low-income families, or not less than 40 percent of the children enrolled in the school are from such families. Federal regulations clarify that a school is eligible to operate a schoolwide program pursuant to section 6314(a)(1)(A) if it meets two requirements—(i) it is eligible to receive Title I, Part A funds, and (ii) has at least 40 percent level of poverty, ascertained with one of the two poverty tests, identified in subsections (A) and (B), as follows:

- (i) The school’s LEA determines the school serves an eligible attendance area or is a participating school under section 1113 of the ESEA; *and*
- (ii) For the initial year of the schoolwide program -
 - (A) The school serves a school attendance area in which not less than 40 percent of the children are from low-income families, *or*
 - (B) Not less than 40 percent of the children enrolled in the school are from low-income families.⁶⁴

The test claim statute, however, states that it applies to a school that meets the “40 percent *pupil* poverty threshold” required to operate a schoolwide program. The phrase “40 percent *pupil* poverty threshold” is not defined in the test claim statute, and is not a phrase used in federal law. Section 6314(a)(1)(A) of Title 20 of the United States Code instead uses the phrase “*children from low-income families*” and sets out two poverty tests to see if a school that qualifies for Title I, Part A funding also meets the 40 percent threshold required to operate a schoolwide program. The first test, described in subsection (A) of the federal regulation discussed above, is that “the school serves a *school attendance area* in which not less than 40 percent of the children are from low-income families.”⁶⁵ This test looks at the “school attendance area,” which is the geographical area in which the children who are normally served by that school reside.⁶⁶ Thus,

⁶² 20 United State Code, section 6311.

⁶³ 20 United States Code, section 6313(c). The measures of poverty are identified in 20 United States Code, section 6313(a)(5). For an LEA with an enrollment of less than 1,000 students, the ranking and serving requirements based on poverty percentages are not applicable. 20 United States Code, section 6313(a)(5).

⁶⁴ 34 Code of Federal Regulations section 200.25(b)(1).

⁶⁵ 20 United States Code, section 6314(a)(1)(A); 34 Code of Federal Regulations, section 200.25(b)(1)(ii)(A), emphasis added.

⁶⁶ 20 United States Code, section 6313(a)(2)(A).

this test looks at the income level of the families that reside in the area served by the school, regardless of whether the children from these families are actually enrolled in the school. The second test, described in subsection (B) of federal regulation discussed above, is a narrower approach, and looks at the income level of the families whose children are actually enrolled in the school. This test states that schools where “not less than 40 percent of the *children enrolled* in the school are from low-income families,” are eligible to operate a schoolwide program.⁶⁷

The Commission finds that the phrase in the test claim statute requiring that a school meet the “40 percent *pupil* poverty threshold required to operate a schoolwide program” means only those schools that are eligible for Title I, Part A funds and meet the second test identified in section 6314(a)(1)(A) of Title 20 of the United States Code, in which not less than 40 percent of the children *enrolled* in the school are from low-income families.

The Legislature is deemed to be aware of existing laws in effect at the time legislation is enacted⁶⁸ and, thus, it presumably was aware of the two poverty tests allowed by section 6314(a)(1)(A) of Title 20 of the United States Code when it enacted the test claim statute. The Legislature did not use the phrase “40 percent poverty threshold,” which would suggest that a school meeting either test identified in section 6314(a)(1)(A) (based on the income levels of the families in the school attendance area, or on the income level of the families whose children are actually enrolled in the school) is required to comply with the test claim statute.

Instead, the Legislature expressly used the word “pupil” in the phrase “40 percent *pupil* poverty threshold.” Under the rules of statutory construction, “the statutes should be construed to give meaning to every word in a statute and to avoid constructions that render words, phrases, or clauses superfluous.”⁶⁹ Webster’s Third New International Dictionary defines “pupil” as “a child or young person in school or in the charge of a tutor or instructor: STUDENT”⁷⁰ Thus, the word “pupil” refers only to children enrolled in school.

Therefore, the Commission finds that the Legislature intended that a public school maintaining any combination of classes from grade 6 to grade 12, inclusive, is mandated by the state to stock 50 percent of the school’s restrooms with feminine hygiene products at all times at no cost to pupils, if the school is eligible to receive Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families.

This interpretation is consistent with the legislative history of the test claim statute, which focuses on the education of girls enrolled in school. According to the Assembly floor analysis, “this bill . . . [r]equires public schools *enrolling pupils* in grades six through twelve, inclusive,

⁶⁷ 20 United State Code, section 6314(a)(1)(A); 34 Code of Federal Regulations, section 200.25(b)(1)(ii)(B), emphasis added.

⁶⁸ *People v. Licas* (2007) 41 Cal.4th 362, 367, citation omitted.

⁶⁹ *Klein v. United States of America* (2010) 50 Cal.4th 68, 80, citation omitted.

⁷⁰ Webster’s Third New International Dictionary, Merriam-Webster, Inc. Massachusetts 1993, page 1844. The courts use the dictionary as a proper source to determine the usual and ordinary meaning of a word or phrase in a statute. “If there is no ambiguity in the language, we presume the Legislature meant what it said and the plain meaning of the statute governs.” (*Murphy v. Kenneth Cole Productions, Inc.* (2007) 40 Cal.4th 1094, 1103, citation omitted).

that qualify to operate a schoolwide Title I program based upon a 40% pupil poverty threshold, to stock at least 50% of the school's restrooms with feminine hygiene products at all times.”⁷¹ The Senate floor analysis states that “[n]ot having access to these vital medical necessities creates an additional barrier to a young girl’s education. Young girls sometimes miss school because of a lack of access to these products,” and that as a result of a pilot project in New York City to provide menstrual products for free in schools “the schools saw a 2.4% increase in attendance.”⁷² Thus, “[t]his bill seeks to increase access to menstrual products to girls and young women who need it most by providing them for free in public schools grade 6 to grade 12 that receive Title 1 funding.”⁷³ The Senate floor analysis also states that the costs are expected “. . . for the bill's requirement for Title I schools serving grades 6 to 12 to stock at least 50% of their restrooms with feminine hygiene products.”⁷⁴

Accordingly, the test claim statute imposes a state-mandated program on school districts with schools that (1) maintain any combination of classes from grade 6 to grade 12, inclusive, *and* (2) meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families, for such schools to:

- Stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.

In addition, the claimant requests reimbursement for the costs of training, updating policies and procedures, and for purchasing and installing dispensers in the schools' restrooms.⁷⁵ Although the legislative history of the test claim statute acknowledged that the mandate would result in school districts incurring costs to purchase and install dispensers and the claimant has filed evidence supporting that cost,⁷⁶ these activities and costs are not mandated by the plain language of the test claim statute. Nevertheless, these activities and costs may be proposed for inclusion in the Parameters and Guidelines if they are supported by evidence in the record showing they are “reasonably necessary for the performance of the state-mandated program” in accordance with

Government Code section 17557(a), and California Code of Regulations, title 2, sections 1183.7(d) and 1187.5.

2. Education Code Section 35292.6 Imposes a New Program or Higher Level of Service.

For the test claim statute to be subject to subvention pursuant to article XIII B, section 6 of the California Constitution, the statute must impose a new program or higher level of service. First, the mandated activity must be new when compared with the legal requirements in effect immediately before the enactment of the test claim statute.⁷⁷ In addition, the program must carry out of the governmental function of providing services to the public, or, be a law which, to implement a state policy, imposes unique requirements on local government that does not apply generally to all residents and entities in the state:

Looking at the language of section 6 then, it seems clear that by itself the term “higher level of service” is meaningless. It must be read in conjunction with the predecessor phrase “new program” to give it meaning. Thus read, it is apparent that the subvention requirement for increased or higher level of service is directed to state mandated increases in the services provided by local agencies in existing “programs.” But the term “program” itself is not defined in article XIII B. What programs then did the electorate have in mind when section 6 was adopted? We conclude that the drafters and the electorate had in mind the commonly understood meanings of the term – *programs that carry out the governmental function of providing services to the public, or laws which, to implement a state policy, impose unique requirements on local governments and do not apply generally to all residents and entities in the state.*⁷⁸

The Court further held that “the intent underlying section 6 was to require reimbursement to local agencies for the costs involved in carrying out functions *peculiar to government*, not for expenses incurred by local agencies as an incidental impact of laws that apply generally to all state residents and entities.”⁷⁹

Finance argues that the implementation of the test claim statute may “simply be absorbed into existing activities of a school district, therefore not resulting in increased labor costs to that district,” because “[e]xisting law (Education Code section 35292.5) requires all schools, with few exceptions, to maintain clean, fully operational restrooms, stocked at all times with toilet paper, soap, and paper towels or functional hand dryers.”⁸⁰

The Commission, however, finds that the activity to stock 50 percent of the school's restrooms with feminine hygiene products (defined as tampons and sanitary napkins) at all times is new. As discussed in the Background, prior state law requires schools to have restrooms open during school hours, and kept in good repair and stocked at all times with toilet paper, soap, and paper

⁷⁷ *San Diego Unified School Dist.* (2004) 33 Cal.4th 859, 874-875, 878; *Lucia Mar Unified School District v. Honig* (1988) 44 Cal.3d 830, 835.

⁷⁸ *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56, emphasis added.

⁷⁹ *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56-57, emphasis added.

⁸⁰ Exhibit B, Finance’s Comments on the Test Claim, page 1.

towels or functional hand dryers.⁸¹ In addition, prior law requires that school restroom facilities be evaluated as to whether they meet the “good repair” standard in accordance with the Facility Inspection Tool (FIT) created by the Office of Public School Construction (OPSC) or a local evaluation instrument that meets the same criteria,⁸² with the findings to be annually reported on the SARCs,⁸³ and addressed in the LEAs’ LCAPs.⁸⁴ Schools are also required by the prior law to permit students use facilities consistent with their gender identity, irrespective of the gender listed on the pupil’s records.⁸⁵ No prior law, however, required schools to stock restrooms with feminine hygiene products. Thus, the requirement “to stock at least 50 percent of the school’s restrooms with feminine hygiene products at all times” at no cost to pupils, is new. Although some schools may have been stocking school restrooms with feminine hygiene products prior to the test claim statute, they were not mandated by the state to do so until after the operative date of the mandate. Government Code section 17565 states that “[i]f a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for those costs incurred after the operative date of the mandate.”

In addition, the activity mandated by the test claim statute is unique to government and applies only to *public* schools. Moreover, it provides a peculiarly governmental service to the public. The test claim statute “seeks to increase access to menstrual products to girls and young women who need it most by providing them for free in public schools” as not having access to these products “creates an additional barrier to a young girl’s education.”⁸⁶ Providing access to education is a core governmental function and mandatory and free public education is required by the California Constitution.⁸⁷

Accordingly, the test claim statute imposes a new program or higher level of service.

3. Education Code Section 35292.6 Results in Increased Costs Mandated by the State Within the Meaning of Article XIII B, Section 6 of the California Constitution and Government Code Section 17514.

The mandated activity must also result in increased costs mandated by the state. Finance argues that the requirement to stock feminine hygiene products in 50 percent of the school restrooms, which are already maintained as required by Education Code sections 35292.5 and 17002,

⁸¹ Education Code section 17002; Education Code section 35292.5.

⁸² Education Code section 17002(d)(1).

⁸³ Education Code section 33126

⁸⁴ Education Code section 52060(a)-(d).

⁸⁵ Education Code section 221.5.

⁸⁶ Exhibit G, Senate Rules Committee, Office of Senate Floor Analyses, Third Reading Analysis of AB 10, (2017-2018), as amended September 1, 2017, pages 2-3.

⁸⁷ *Long Beach Unified School Dist. v. State of California* (1990) 225 Cal.App.3d 155, 172.

“should not require massive overhaul of school policies and procedures, nor should it result in significant increased labor costs.”⁸⁸

Article XIII B, section 6 of the California Constitution and Government Code section 17561(a) require reimbursement for all costs mandated by the state. Government Code section 17514 defines “costs mandated by the state” as any increased cost that a local agency or school district incurs as a result of any statute or executive order that mandates a new program or higher level of service. Government Code section 17564(a) further requires that no claim shall be made nor shall any payment be made unless the claim exceeds \$1,000. In addition, a finding of costs mandated by the state means that none of the exceptions in Government Code section 17556 apply to deny the claim.

Here, the claimant alleges that it has incurred increased costs of \$61,615.72 to comply with the mandate in fiscal year 2017-2018. This amount includes costs for developing and implementing policies and procedures, training, purchasing and installing dispensers, purchasing sanitary napkins and tampons, and labor to stock the products.⁸⁹ The claimant supports these assertions with invoices⁹⁰ and a declaration from Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District.⁹¹ The claimant identifies the following actual costs incurred in fiscal year 2017-2018 to stock middle and high schools’ restrooms with feminine hygiene products:

- \$374.16 to develop and implement policies and procedures.⁹²
- \$2,110.51 to train certificated and classified staff.⁹³
- \$19,501.67 to purchase and install dispensers.⁹⁴
- \$6,186.14 in purchase price for feminine hygiene products—pads and tampons.⁹⁵

⁸⁸ Exhibit B, Finance’s Comments on the Test Claim, page 2.

⁸⁹ Exhibit A, Test Claim, pages 11-13 (Narrative).

⁹⁰ Exhibit A, Test Claim, pages 25-33.

⁹¹ Exhibit A, Test Claim, pages 20-24 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹² Exhibit A, Test Claim, pages 11 (Narrative) and 20 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹³ Exhibit A, Test Claim, pages 11-12 (Narrative) and 21 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹⁴ Exhibit A, Test Claim, pages 12 (Narrative), 21 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018), and 26 (Invoice).

⁹⁵ Exhibit A, Test Claim, pages 12 (Narrative), 21 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018), and 27-33 (Invoices).

- \$32,387.04 in labor costs for school custodians to refill dispensers (based on \$27.54 hourly rate X 0.13 minutes per day X 180 instructional days).⁹⁶
- \$1,056.20 in labor costs to order and maintain stock for feminine hygiene products (based on \$35.21 hourly rate X 30 hours).⁹⁷

The total estimated costs alleged for the 2018-2019 fiscal year, based on the 2017-2018 costs, amounted to \$43,988.22, including the \$39,629.38 for stocking the restrooms with feminine hygiene products.⁹⁸ The claimant also asserts that the statewide cost to implement the alleged mandate is estimated at \$5,000,000.⁹⁹

The claimant has not identified the number of schools in its district required to comply with the mandate or the number of restrooms in each school and Finance, in comments on the Draft Proposed Decision argues that the costs alleged are not sufficiently supported and that some of them (including the installation of dispensers) should be one time only.¹⁰⁰ However, based on the information contained on the claimant's website,¹⁰¹ and in the publicly available SARC reports for the middle and high schools operated by the claimant, the Commission takes notice that the claimant has a number of Title I schools, serving grade 6 to grade 8 for middle schools, and grade 9 to grade 12 for high schools, that receive Title I funds and meet the 40 percent pupil poverty threshold under Section 6314(a)(1)(A) of Title 20 of the United States Code to operate Title I, Part A schoolwide programs, which are, therefore, required to perform the activity mandated by the test claim statute.¹⁰² Thus, the record contains sufficient evidence that the claimant's cost to comply with the mandate in fiscal year 2017-2018 exceeded \$1,000. Whether reasonably necessary activities that have not yet been approved, since they are not required by the plain language of the statute and must be proposed for consideration in the Parameters and Guidelines, should be on-going or one-time costs is an issue for the Parameters and Guidelines.

Additionally, no law or facts in the record support a finding that the exceptions specified in Government Code section 17556 apply to this claim. There is, for example, no law or evidence

⁹⁶ Exhibit A, Test Claim, pages 13 (Narrative) and 22 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹⁷ Exhibit A, Test Claim, pages 13 (Narrative) and 22 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹⁸ Exhibit A, Test Claim, pages 13-15 (Narrative).

⁹⁹ Exhibit A, Test Claim, page 15 (Narrative).

¹⁰⁰ Exhibit F, Finance's Comments on the Draft Proposed Decision, page 1.

¹⁰¹ Exhibit G, Desert Sands Unified School District, State and Federal Programs, <https://www.dsusd.us/SFP> (accessed on February 4, 2019), page 1 (stating that Title I funds support district's programs for five (5) middle schools, and two (2) high schools).

¹⁰² Exhibit G, Indio High School 2016-17 School Accountability Report Card (SARC), published January 2018 (stating that in 2016-17, Indio High School, serving grades 9 through 12, qualified for Schoolwide Title I funding, and at the beginning of the 2016-17 the school year, the school enrolled 2024 students, including 90.8% socioeconomically disadvantaged —students qualifying for free and reduced price lunch).

in the record that additional funds have been made available for the new state-mandated activity.¹⁰³ In addition, school districts have no fee authority to pay the costs of the alleged mandate since the statute expressly prohibits schools from charging pupils for feminine hygiene products.¹⁰⁴

Based on the foregoing, the Commission finds that the test claim statute results in increased actual costs mandated by the state within the meaning of article XIII B, section 6 and Government Code section 17514.

V. Conclusion

Accordingly, the Commission approves this Test Claim and finds that Education Code section 35292.6, as added by Statutes 2017, chapter 687, imposes a reimbursable state-mandated program under article XIII B, section 6 of the California Constitution, beginning January 1, 2018 on school districts with schools that (1) maintain any combination of classes from grade 6 to grade 12, inclusive; *and* (2) meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families, for such schools to:

Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

All other activities and costs alleged in the Test Claim are not mandated by the plain language of the test claim statute, but may be proposed for inclusion in the Parameters and Guidelines pursuant to Government Code section 17557(a), and California Code of Regulations, title 2, sections 1183.7(d) and 1187.5.

¹⁰³ Government Code section 17556(e).

¹⁰⁴ Government Code section 17556(d).

RE: **Decision**

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

On May 24, 2019, the foregoing Decision of the Commission on State Mandates was adopted on the above-entitled matter.

Heather Halsey, Executive Director

Dated: May 24, 2019

DECLARATION OF SERVICE BY EMAIL

I, the undersigned, declare as follows:

I am a resident of the County of Sacramento and I am over the age of 18 years, and not a party to the within action. My place of employment is 980 Ninth Street, Suite 300, Sacramento, California 95814.

On May 24, 2019, I served the:

- **Draft Expedited Parameters and Guidelines, Schedule for Comments, and Notice of Hearing issued May 24, 2019**
- **Decision adopted May 24, 2019**

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

By making it available on the Commission’s website and providing notice of how to locate it to the email addresses provided on the attached mailing list.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration was executed on May 24, 2019 at Sacramento, California.

Re: Decision and Parameters and Guidelines

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

Dear Mr. Palkowitz and Ms. Sidarous:

On November 22, 2019 the Commission on State Mandates adopted the Decision and Parameters and Guidelines on the above-captioned matter.

Please keep Decision and Parameters and Guidelines together as one document, as it together constitutes the entire decision of the Commission and the "Decision" portion informs the interpretation of the "Parameters and Guidelines." It is hoped that by providing the entire Decision and Parameters and Guidelines with the claiming instructions that claimants will be better equipped to correctly claim reimbursement, resulting in fewer reductions upon audit and fewer incorrect reduction claims.

Sincerely,

Heather Halsey

DECISION

The Commission on State Mandates (Commission) heard and decided the Decision and Parameters and Guidelines during a regularly scheduled hearing on November 22, 2019. Arthur Palkowitz appeared on behalf of the Desert Sands Unified School District. Daniel Hanower appeared on behalf the Department of Finance (Finance).

The law applicable to the Commission’s determination of a reimbursable state-mandated program is article XIII B, section 6 of the California Constitution, Government Code section 17500 et seq., and related case law.

The Commission adopted the Decision and Parameters and Guidelines, as modified, by a vote of 7-0, as follows:

Member	Vote
Lee Adams, County Supervisor	Yes
Mark Hariri, Representative of the State Treasurer	Yes
Jeannie Lee, Representative of the Director of the Office of Planning and Research	Yes
Gayle Miller, Representative of the Director of the Department of Finance, Chairperson	Yes
Sarah Olsen, Public Member	Yes
Carmen Ramirez, City Council Member	Yes
Jacqueline Wong-Hernandez, Representative of the State Controller, Vice Chairperson	Yes

I. Summary of the Mandate

These Parameters and Guidelines address the mandated activities arising from Education Code section 35292.6, added by Statutes 2017, chapter 687 (AB 10), which requires certain Title I-eligible public schools that maintain any combination of classes from grade 6 to grade 12,

inclusive, to stock at all times and at no cost to pupils at least 50 percent of the school's restrooms with feminine hygiene products, which are defined as tampons and sanitary napkins.

On May 24, 2019, the Commission on State Mandates (Commission) adopted the Decision finding that the test claim statute imposes a reimbursable state-mandated program on school districts within the meaning of article XIII B, section 6 of the California Constitution and Government Code section 17514. The Commission approved the Test Claim for school districts with schools that (1) maintain any combination of classes from grade 6 to grade 12, inclusive; *and* (2) meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families, for such schools to:

- Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

II. Procedural History

On May 24, 2019, the Commission adopted the Test Claim Decision.¹ On May 24, 2019, Commission staff issued the Draft Expedited Parameters and Guidelines.² On June 11, 2019, Reynolds Consulting Group, Inc., (interested person)³ filed comments on the Draft Expedited Parameters and Guidelines.⁴ On June 14, 2019, the claimant filed comments on the Draft Expedited Parameters and Guidelines.⁵ On June 14, 2019, the State Controller's Office (Controller) filed comments on the Draft Expedited Parameters and Guidelines, recommending no changes.⁶ On June 18, 2019, the Department of Finance (Finance) filed late comments on the Draft Expedited Parameters and Guidelines.⁷ On June 19, 2019, the claimant filed rebuttal comments.⁸ On June 25, 2019, Finance filed revised late comments on the Draft Expedited Parameters and Guidelines to replace the June 19 comments which were inadvertently filed

¹ Exhibit A, Test Claim Decision.

² Exhibit B, Draft Expedited Parameters and Guidelines.

³ California Code of Regulations, title 2, section 1181.2(j) defines "Interested person" as "any individual, local agency, school district, state agency, corporation, partnership, association, or other type of entity, who has an interest in a matter before the Commission, but is not a party or interested party with respect to that matter."

⁴ Exhibit C, Interested Person's (Reynolds Consulting Group, Inc.'s) Comments on the Draft Expedited Parameters and Guidelines.

⁵ Exhibit D, Claimant's Comments on the Draft Expedited Parameters and Guidelines.

⁶ Exhibit E, Controller's Comments on the Draft Expedited Parameters and Guidelines.

⁷ Exhibit F, Finance's Late Comments on the Draft Expedited Parameters and Guidelines.

⁸ Exhibit G, Claimant's Rebuttal Comments.

without being certified and signed under penalty of perjury.⁹ On June 26, 2019, the claimant filed rebuttal comments.¹⁰ On July 17, 2019, Commission staff issued the Draft Proposed Decision and Parameters and Guidelines.¹¹ On August 1, 2019, the claimant filed comments on the Draft Proposed Decision and Parameters and Guidelines.¹² On September 11, 2019, Commission staff issued the Proposed Decision and Parameters and Guidelines for the September 27, 2019 hearing.¹³ On September 18, 2019, the claimant filed late comments on the Proposed Decision and Parameters and Guidelines.¹⁴ On September 20, 2019, the claimant filed Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District.¹⁵ This matter was then postponed to the Commission's November 22, 2019 hearing in order to prepare a Revised Draft Proposed Decision and Parameters and Guidelines for comment. On October 2, 2019, Commission staff issued the Revised Draft Proposed Decision and Parameters and Guidelines.¹⁶ On October 18, 2019, the Controller filed comments on the Revised Draft Proposed Decision and Parameters and Guidelines, recommending no changes.¹⁷ Neither the claimant nor Finance filed comments on the Revised Draft Proposed Decision and Parameters and Guidelines.

III. Positions of the Parties

A. Desert Sands Unified School District

The claimant's comments on the Draft Expedited Parameters and Guidelines propose several changes to the Proposed Parameters and Guidelines which include reimbursement for purchasing and installing dispensers, and for developing policies and procedures.¹⁸

The claimant proposes the following amendments to Section IV. of the Proposed Parameters and Guidelines describing reimbursable activities (with amendments in bold italics):

⁹ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines.

¹⁰ Exhibit I, Claimant's Rebuttal Comments.

¹¹ Exhibit J, Draft Proposed Decision and Parameters and Guidelines.

¹² Exhibit K, Claimant's Comments on the Draft Proposed Decision and Parameters and Guidelines.

¹³ Exhibit L, Proposed Decision and Parameters and Guidelines.

¹⁴ Exhibit M, Claimant's Late Comments on the Proposed Decision and Parameters and Guidelines.

¹⁵ Exhibit N, Claimant's Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District.

¹⁶ Exhibit O, Revised Draft Proposed Decision and Parameters and Guidelines.

¹⁷ Exhibit P, Controller's Comments on the Revised Draft Proposed Decision and Parameters and Guidelines.

¹⁸ Exhibit D, Claimant's Comments on the Draft Expedited Parameters and Guidelines, pages 1-2.

1. Stock (*employee time and cost of materials*) 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.) Reimbursement is not required to stock more than 50 percent of the school's restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins).¹⁹
2. Purchasing and installation of dispensers, (employee time and cost of materials) serving grades 6 to 12 to stock at least 50% of their restrooms with feminine hygiene products.²⁰

The claimant's proposed language does not address the claimant's request for reimbursement to develop policies and procedures referred to on page 1 of its comments.²¹

On June 19, 2019, the claimant filed rebuttal comments objecting to comments filed by Finance as untimely and not signed under penalty of perjury and to comments filed by the Controller as not signed under penalty of perjury.²² The claimant requests that the comments be stricken from the record.²³ On June 26, 2019, the claimant filed rebuttal comments objecting to Finance's revised late comments as untimely and not signed under penalty of perjury and requesting that these comments be stricken from the record.²⁴

¹⁹ Exhibit D, Claimant's Comments on the Draft Expedited Parameters and Guidelines, page 2.

²⁰ Exhibit D, Claimant's Comments on the Draft Expedited Parameters and Guidelines, page 2.

²¹ In addition, the claimant's comments and rebuttal comments on the Draft Expedited Parameters and Guidelines do not request reimbursement for training, which was requested in the Test Claim. (Exhibit Q, Test Claim, pages 11-12.) The Commission's Test Claim Decision notes that "training" may be proposed for inclusion in the Parameters and Guidelines if it is supported by evidence in the record showing it is "reasonably necessary for the performance of the state-mandated program" in accordance with Government Code section 17557(a), and California Code of Regulations, title 2, sections 1183.7(d) and 1187.5. (Exhibit A, Test Claim Decision, pages 15-16.)

²² Exhibit G, Claimant's Rebuttal Comments, page 1.

²³ Exhibit G, Claimant's Rebuttal Comments, page 1.

²⁴ Exhibit I, Claimant's Rebuttal Comments. Finance's comments and revised comments were not filed within 21 days of service of the Draft Expedited Parameters and Guidelines as required and were, therefore, late. (Cal. Code Regs., tit. 2, 1183.9(b).) However, written comments received at least 15 days in advance of the meeting [i.e. late filings], shall be included in the Commission's meeting binders. (Cal. Code Regs., tit. 2, § 1181.10.) Several claimants have asserted, in a number of matters, that late comments should not be considered in Commission decisions as is permitted by the Commission's regulations (See Cal. Code Regs., tit. 2, §§ 1183.6(d), 1183.13(c), 1183.17(k), 1184.1(k), 1185.7(e), 1190.5(a)(3)(A)), but given that late filings, up to 15 days before the hearing, shall be included in the Commission's meeting binders, that the same testimony may be submitted at the hearing, and that this Draft Proposed Decision had not yet been issued at the time that the late comments were filed, staff is including these comments in the analysis to ease the decision making process for the Commission Members.

On August 1, 2019, the claimant filed comments on the Draft Proposed Decision Parameters and Guidelines, arguing that proposed activities to purchase and install dispensers for feminine hygiene products are supported by substantial evidence in the record, in the form of “legislative history acknowledging that the mandate would result in school districts incurring costs to purchase and install dispensers” and the claimant’s evidence supporting these costs; and asserting that “Commission staff has ignored the Commission members statements supporting the reimbursement of the dispenser costs at the Commission hearing when the test claim was approved.”^{25,26} On September 18, 2019, the claimant filed late comments on the Proposed Decision and Parameters and Guidelines, reiterating the same arguments.²⁷

On September 20, 2019, the claimant filed Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, explaining why the feminine hygiene products dispensers purchased by the claimant were necessary to comply with the mandated activities.²⁸ The declaration also appears to reassert claimant’s request for the cost of training, which was originally requested by the claimant in the Test Claim and denied by the Commission in the Test

Furthermore, contrary to the claimant’s assertion, Finance’s revised comments were signed under penalty of perjury. (See Exhibit H, page 3.) As to the Controller’s comments, they were not signed under penalty of perjury, as required, but also do not contain any substance other than the Controller’s agreement with the Draft Expedited Parameters and Guidelines. The claimant is correct, however, that if assertions of fact are made which are not supported by evidence in the record, they will not be considered. (Cal. Code Regs., tit. 2, §§ 1183.7, 1187.5.).

²⁵ The claimant appears to refer to the discussion that took place at the test claim hearing in response to the claimant’s request that the Commission approve the activity to purchase and install dispensers. The claimant was advised that this activity was not approved in the Test Claim Decision because it is not required by the plain language of the test claim statute; but that it could be proposed for inclusion in the Parameters and Guidelines as a reasonably necessary activity, to be considered in a separate proceeding. Commission member Stowers then commented that she would be looking forward to reading the Parameters and Guidelines and having “a reasonableness to include the dispensers.” Exhibit Q, CSM Public Hearing (May 24, 2019), transcript of proceedings, pages 18-21.

²⁶ Exhibit K, Claimant’s Comments on the Draft Proposed Decision and Parameters and Guidelines, page 1.

²⁷ Exhibit M, Claimant’s Late Comments on the Proposed Decision and Parameters and Guidelines.

²⁸ Exhibit N, Claimant’s Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District.

Claim Decision.²⁹ The claimant did not file comments on the Revised Draft Proposed Decision and Parameters and Guidelines.³⁰

B. State Controller's Office

On June 14, 2019, the Controller filed comments on the Draft Expedited Parameters and Guidelines and recommends “no changes.”³¹ The Controller did not comment on the Draft Proposed Decision and Parameters and Guidelines. On October 18, 2019, the Controller filed comments on the Revised Draft Proposed Decision and Parameters and Guidelines, recommending no changes.³²

C. Department of Finance

Finance filed late comments on the Draft Expedited Parameters and Guidelines expressing several concerns and proposing a change.³³

First, Finance states that it “only supports the cost of the feminine hygiene products as reimbursable costs, based on the plain language of the test claim statute” and that “[a]ll other activities, such as the cost and installation of dispensers, training of personnel, and developing policies and procedures, must be supported by evidence showing that they are ‘reasonably necessary for the performance of the state-mandated program.’”³⁴ Finance reiterates its position that, based on the plain language of the test claim statute, the activities of training personnel and developing policies and procedures are not reasonably necessary to implement the mandate.³⁵ Finance further states that only actual costs for the state-mandated activity, that are traceable and supported by source documents that show the validity of the costs, are eligible for reimbursement.³⁶

²⁹ Exhibit N, Claimant's Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District, page 1 (stating that the new activities to implement the mandate by the claimant include (i) developing and implementation of internal policies, training, and procedures, and (ii) training personnel to administer the availability of feminine hygiene products in the school's restrooms).

³⁰ Exhibit O, Revised Draft Proposed Decision and Parameters and Guidelines.

³¹ Exhibit E, Controller's Comments on the Draft Expedited Parameters and Guidelines, page 1.

³² Exhibit P, Controller's Comments on the Revised Draft Proposed Decision and Parameters and Guidelines.

³³ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines.

³⁴ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 1.

³⁵ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 1.

³⁶ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines, pages 1-2.

Finally, Finance continues to dispute the cost estimates submitted by the claimant with the Test Claim and notes the following additional concerns:

- As stated in the Senate Floor analysis, and emphasized in the Commission’s decision, the intent of the test claim statute is to provide female pupils with access to free feminine hygiene products (defined only as tampons and sanitary napkins). The reimbursable activities should specify pupil restrooms, not all restrooms, in line with the intent of the test claim statute.
- The claimant purchased 115 dispensers for seven eligible schools and purchased an additional 12 in the second year of the mandate. To determine the reasonableness of the cost estimate, Finance has requested the number of restrooms at each eligible school. The test claim statute states "50 percent of the school's restrooms" shall be stocked with feminine hygiene products, which necessitates information on the number of restrooms at each eligible school to determine whether the claimant is meeting or exceeding the mandated program. The number of restrooms is not available on the school's websites.³⁷

Finance did not file comments either on the Draft Proposed Decision and Parameters and Guidelines or on the Revised Draft Proposed Decision and Parameters and Guidelines.

D. Interested Person, Reynolds Consulting Group, Inc.

In its comments on the Draft Expedited Parameters and Guidelines, the Reynolds Consulting Group, Inc., recommends that the Commission address the following issues in relation to the reimbursable activities:

- The use of a time-study for labor costs to meet the mandate requirements beginning January 1, 2018, and forward.
- The cost of the feminine hygiene dispensers as well as any repairs/replacements of dispensers from January 1, 2018, and forward.
- Stock 50 percent of **the girl's restrooms** with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.³⁸

No comments have been filed by the Reynolds Consulting Group, Inc., either on the Draft Proposed Decision and Parameters and Guidelines or on the Revised Draft Proposed Decision and Parameters and Guidelines.

IV. Discussion

A. Eligible Claimants (Section II. of Parameters and Guidelines)

In the Test Claim Decision, the Commission found that Education Code section 35292.6, as added by Statutes 2017, chapter 687, imposes a reimbursable state-mandated program under

³⁷ Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 2.

³⁸ Exhibit C, Interested Person’s (Reynolds Consulting Group, Inc.’s) Comments on the Draft Expedited Parameters and Guidelines, page 1.

article XIII B, section 6 of the California Constitution, beginning January 1, 2018, on school districts with schools that (1) maintain any combination of classes from grade 6 to grade 12, inclusive; *and* (2) meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families.³⁹

The test claim statute states:

A public school maintaining any combination of classes from grade 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a schoolwide program pursuant to Section 6314(a)(1)(A) of Title 20 of the United States Code shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.⁴⁰

The Commission found that the requirement that a school meet the “40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code” means that the school must meet two conditions:

- 1) The school is eligible for Title I, Part A funds by either servicing an eligible school attendance area⁴¹ or be a participating Title I, Part A school,⁴² *and*
- 2) Meet the second test identified in section 6314(a)(1)(A),⁴³ requiring that not less than 40 percent of the children enrolled in the school are from low-income families.⁴⁴

Any school that meets only one of the above conditions is not required by the test claim statute to perform the mandated activities.

The term “eligible school attendance area” means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families served by the local educational agency as a whole.⁴⁵ This means, for example, if a school district has 80 percent of children from low-income families, then the costs for a school in that district with 75 percent of children from low-income families would not be reimbursable because that percentage is not “at least as high as the percentage of children from low-income families served by the local educational agency as a whole,” and the school,

³⁹ Exhibit A, Test Claim Decision, page 21.

⁴⁰ Education Code section 35292.6(a).

⁴¹ The term “eligible school attendance area” means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families served by the local educational agency as a whole. 20 United States Code, section 6313(a).

⁴² See 20 United States Code, section 6314(a)(1)(A); 34 Code of Federal Regulations, section 200.25(b)(1)(i).

⁴³ See also, 34 Code of Federal Regulations, section 200.25(b)(1)(ii)(B).

⁴⁴ Exhibit A, Test Claim Decision, pages 14-15.

⁴⁵ 20 United States Code, section 6313(a).

therefore, does not meet the first condition described above. Conversely, in a district with 38 percent of children from low-income families, the costs for a school in that district with 39 percent of children from low-income families would not be reimbursable because, although it meets the first condition, it does not meet the second condition.

Accordingly, Section II. of the Parameters and Guidelines addressing the “Eligible Claimants,” states the following:

Any "school district" as defined in Government Code section 17519, except for community college districts, is eligible to claim reimbursement for increased costs incurred as a result of this mandate for the district’s schools that meet the following criteria:

- Maintain any combination of classes from grade 6 to grade 12, inclusive; *and*
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that:
 - 1) the school is eligible for Title I, Part A funds, by either servicing an eligible school attendance area or by being a participating Title I, Part A school, *and*
 - 2) not less than 40 percent of the children enrolled in the school are from low-income families. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

B. Period of Reimbursement (Section III. of Parameters and Guidelines)

Government Code section 17557(e) states that a test claim shall be submitted on or before June 30 following a given fiscal year to establish eligibility for reimbursement for that fiscal year. The claimant filed the Test Claim on December 7, 2018, establishing eligibility for reimbursement for the 2017-2018 fiscal year, beginning July 1, 2017. However, Statutes 2017, chapter 687, the test claim statute that imposes the mandate, became effective on January 1, 2018. Therefore, the period of reimbursement begins January 1, 2018.

C. Reimbursable Activities (Section IV. of the Parameters and Guidelines)

The parties have filed comments addressing the scope of the reimbursable activities, and the claimant and the interested person comments request reimbursement for activities alleged to be reasonably necessary to comply with the mandate.

The comments are addressed below.

1. Requests limiting the restrooms required to be stocked with feminine hygiene products to “pupil” restrooms or to “girl’s” restrooms are inconsistent with the test claim statute and are, therefore, denied.

For the approved activity to stock 50 percent of school’s restrooms with feminine hygiene products, Finance requests that the activity be limited to “pupil” restrooms as follows:

As stated in the Senate Floor analysis, and emphasized in the Commission's decision, the intent of the test claim statute is to provide female pupils with access to free feminine hygiene products (defined only as tampons and sanitary napkins). The reimbursable activities should specify pupil restrooms, not all restrooms, in line with the intent of the test claim statute.⁴⁶

Interested person, Reynolds Consulting Group, Inc. also urges the Commission to consider that the reimbursable activity be stated to “[s]tock 50 percent of **the girl's restrooms** with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.”⁴⁷

These requests are not consistent with the test claim statute. The activity approved by the Commission tracks the statutory language in Education Code section 35292.6. The plain language of the test claim statute states that a public school required to comply with the mandate “shall stock at least 50 percent of the school's restrooms with feminine hygiene products at all times.”⁴⁸ In addition, CDE’s K-12 Toilet Requirement Summary states that the California Plumbing Code does not require specific toilets for staff and students, and, although CDE recommends that separate toilets be provided for staff for safety and liability concerns, some schools may not have separate restrooms for pupils and staff.⁴⁹ Furthermore, schools may have single occupancy restrooms designated as all-gender toilet facilities. Thus, limiting the restrooms required to be stocked with feminine hygiene products to only “pupil” restrooms or to “girls” restrooms is not consistent with the plain language of the test claim statute.

Accordingly, these requests are denied.

2. In order to support the actual costs incurred for labor and materials, Section IV. A. of the Parameters and Guidelines is revised to require that claimants identify the schools required to comply with the mandated activity, the number of restrooms in each of these schools, and each school’s total enrollment of female pupils in grades 6 to 12 in the claim year.

For the approved activity to stock 50 percent of school’s restrooms with feminine hygiene products, the claimant proposes to add in Section IV. of the Parameters and Guidelines specific language that employee time and cost of materials is reimbursable (in bold and italic):

Stock (***employee time and cost of materials***) 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)
Reimbursement is not required to stock more than 50 percent of the school’s

⁴⁶ Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 2.

⁴⁷ Exhibit C, Interested Person’s (Reynolds Consulting Group, Inc.’s) Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁴⁸ Education Code, section 35292.6(a).

⁴⁹ Exhibit Q, CDE, K-12 Toilet Requirement Summary, <https://www.cde.ca.gov/ls/fa/sf/toiletrequire.asp> (accessed on July 8, 2019).

restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins).⁵⁰

The “boilerplate” language in Section V. of the Parameters and Guidelines for direct cost reporting already authorizes reimbursement for the actual costs of employee time and materials for the approved reimbursable activity, as follows:

The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.⁵¹

Thus, the claimant’s proposal to add the same information in Section IV. of the Parameters and Guidelines is not necessary.

However, in comments on the Draft Expedited Parameters and Guidelines, Finance continues to dispute the claimant’s cost estimates for labor and materials and reiterates that “only actual costs—those incurred to implement the mandated activity— are eligible for mandated cost reimbursement,” and that these “costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities.”⁵² During the test claim proceedings, and again in comments on the Draft Expedited Parameters and Guidelines, Finance argued that “the Claimant has not identified the number of schools in its district required to comply with the measure or the number of restrooms in each school,”⁵³ and that “the required costs may be overstated in the test claim.”⁵⁴ Thus, Finance has requested the number of restrooms at each eligible school to determine if the costs claimed are reasonable:

⁵⁰ Exhibit D, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, page 2.

⁵¹ Exhibit B, Draft Expedited Parameters and Guidelines, page 6.

⁵² Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, pages 1-2.

⁵³ Exhibit Q, Finance’s Comments on the Draft Proposed Decision, page 1; Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 2.

⁵⁴ Exhibit Q, Finance's Comments on the Test Claim, page 2.

To determine the reasonableness of the cost estimate, Finance has requested the number of restrooms at each eligible school. The test claim statute states "50 percent of the school's restrooms" shall be stocked with feminine hygiene products, which necessitates information on the number of restrooms at each eligible school to determine whether the claimant is meeting or exceeding the mandated program. The number of restrooms is not available on the school's websites.⁵⁵

Section IV. of the Parameters and Guidelines contains the following boilerplate language:

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities.⁵⁶

The Commission agrees, however, that to support the actual labor and materials costs incurred as a result of this mandate, eligible claimants must identify the schools required to implement the mandated activity, the number of restrooms in each of these schools, and each school's total enrollment of female pupils in grades 6 to 12 in the claim year, in order to show the relationship between the reimbursable activity and the costs claimed. The sufficient amount of tampons and sanitary napkins necessary to comply with the mandate may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year. In addition, the identification of the schools in the reimbursement claim will make it easy to access information to determine whether those schools meet the two conditions of eligibility for this program.

Thus, Section IV. A. of the Parameters and Guidelines is revised to reflect this clarification as follows:

- A. Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

To support actual cost for labor and materials incurred as a result of this mandate, claimants must identify in their reimbursement claims the schools required to implement the mandated activity, the number of restrooms in each of these schools, and each school's total enrollment of female pupils in grades 6 to 12 in the claim year. The sufficient amount of tampons and sanitary napkins necessary to comply with the mandate may be determined based on the total enrollment of female pupils in grades 6 to 12 in the claim year.

⁵⁵ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 2.

⁵⁶ Exhibit B, Draft Expedited Parameters and Guidelines, page 5.

Reimbursement is not required to stock more than 50 percent of the school's restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins.

3. The request by interested person, Reynold's Consulting Group, Inc., to allow a time study to support the labor costs claimed is denied because, although the Commission is authorized to adopt a reasonable reimbursement methodology (RRM), the Government Code does not authorize the Commission to approve the use of a time study for claiming actual costs.

Interested person, Reynolds Consulting Group, Inc., requests "[t]he use of a time-study for labor costs to meet the mandate requirements beginning January 1, 2018, and forward."⁵⁷

Although the Controller has allowed time studies in limited circumstances under the Controller's audit authority,⁵⁸ the Government Code does not provide the Commission any authority to authorize reimbursement for actual costs based on a time study.

The Government Code only provides two methods of reimbursement: actual cost claiming, and claiming based on a proposed reasonable reimbursement methodology (RRM).⁵⁹ An RRM can be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs.⁶⁰ The Commission, however, is not authorized to develop an RRM. Rather, an RRM may be developed by (1) Finance, (2) Controller, (3) an affected state agency, (4) a claimant, or (5) an interested party⁶¹ and proposed to the Commission for inclusion in the Parameters and Guidelines.⁶² The parties have not filed a request to adopt an RRM in this case.

Accordingly, the request is denied.

4. The activities to purchase and install a sufficient number of suitable dispensers, or repair or retrofit existing dispensers, for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms are supported by substantial evidence in the record, and are, therefore, reasonably necessary to comply with the mandate.

The Test Claim Decision approved the following reimbursable state-mandated activity for school districts with qualifying schools:

⁵⁷ Exhibit C, Interested Person's (Reynolds Consulting Group, Inc.'s) Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁵⁸ Government Code sections 12410, 17558.5, and 17561.

⁵⁹ Government Code sections 17557(a) and (b), 17560(a), and 17518.5.

⁶⁰ Government Code, section 17518.5.

⁶¹ California Code of Regulations, title 2, section 1181.2(i) defines "Interested party" as a local agency, school district, or state agency, with a beneficial interest in the matter.

⁶² Government Code, section 17518.5; California Code of Regulations, title 2, section 1183.12.

- Stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

The claimant requests that the Commission approve the following additional activity, which is quoted below, as reasonably necessary to comply with the mandate:

*Purchasing and installation of dispensers, (employee time and cost of materials) serving grades 6 to 12 to stock at least 50% of their restrooms with feminine hygiene products.*⁶³

Interested person, Reynolds Consulting Group, Inc., also requests that the Parameters and Guidelines authorize reimbursement for the cost “of the feminine hygiene dispensers as well as any repairs/replacements of dispensers”⁶⁴

Finance opposes these requests, stating that installation of dispensers is not mandated by the plain language of the test claim statute and that the claimant’s request for the additional activities to purchase and install dispensers must be supported by evidence showing that they are reasonably necessary for the performance of the state-mandated program.⁶⁵ Finance further notes that the claimant only showed that it purchased 115 dispensers in the first year and an additional 12 in the second year of the mandate, but that it did not specify the number of restrooms at each eligible school, making it impossible to determine the number of dispensers reasonably necessary to comply with the mandate.⁶⁶

Pursuant to Government Code section 17557(a) and section 1183.7 of the Commission’s regulations, the Parameters and Guidelines must identify the activities mandated by the state and “may include proposed reimbursable activities that are reasonably necessary for the performance of the state-mandated program.” “Reasonably necessary activities” are defined in the Commission’s regulations as follows:

Reasonably necessary activities” are those activities necessary to comply with the statutes, regulations and other executive orders found to impose a state-mandated program. Activities required by statutes, regulations and other executive orders that were not pled in the test claim may only be used to define reasonably necessary activities to the extent that compliance with the approved state-mandated activities would not otherwise be possible. Whether an activity is reasonably necessary is a mixed question of law and fact. All representations of fact to support any proposed reasonably necessary activities shall be supported by

⁶³ Exhibit D, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, page 2, emphasis in original.

⁶⁴ Exhibit C, Interested Person’s (Reynolds Consulting Group, Inc.’s) Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁶⁵ Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁶⁶ Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 2.

documentary evidence submitted in accordance with section 1187.5 of these regulations.⁶⁷

Any proposed reasonably necessary activity must be supported by substantial evidence in the record explaining why the proposed activity is necessary for the performance of the state-mandated activity in order for the Commission’s approval of that activity to be correct as a matter of law.⁶⁸ “[I]nstance is insufficient to support a legal conclusion.”⁶⁹

The claimant relies on the following documents to support the request for reimbursement to purchase and install dispensers. As part of the Test Claim filing, the claimant submitted a declaration from Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, and invoices for the cost of the dispensers.⁷⁰ The declaration states that to implement provisions of the test claim statute in 2017-2018 fiscal year the claimant expended \$19,501.67 for the purchase and installation of 115 dispensers at the cost of \$156.74 per unit,⁷¹ and that the claimant’s estimated 2018-2019 fiscal year costs include \$2,034.96 for the purchase and installation of 12 additional dispensers at \$169.58 per unit.⁷² This did not show *why* the dispensers were necessary to comply with the mandate to stock 50 percent of the school’s restrooms with feminine hygiene products, but only that the claimant had incurred costs.

On September 20, 2019, the claimant filed another declaration of Jordan Aquino, explaining why the purchase and installation of dispensers is necessary to comply with the mandate.⁷³ The declaration states in relevant part the following:

[¶]

4. In deciding on the method to comply with the mandated activities to stock the feminine hygiene products at all times in the school's restrooms with feminine hygiene products an objective was that the feminine hygiene products be secured to avoid the waste I experienced with toilet paper and

⁶⁷ California Code of Regulations, title 2, section 1183.7(d).

⁶⁸ Government Code section 17559; California Code of Regulations, title 2, sections 1183.7(d), 1187.5; Code of Civil Procedure section 1094.5(b), stating that “[a]buse of discretion is established if the respondent has not proceeded in the manner required by law, the order or decision is not supported by the findings, or the findings are not supported by the evidence.”

⁷¹ Exhibit Q, Test Claim, pages 20-24 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁷² Exhibit Q, Test Claim, pages 20-23 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁷³ Exhibit N, Claimant’s Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District.

towels. The dispensers require the handle to be turned releasing the feminine hygiene products one at a time discouraging pupils from turning the handle multiple times and receiving an excessive quantity of the products. Additionally, the dispensers are secure and have been proven to be effective in safely storing the feminine hygiene products.

5. Additionally, the feminine hygiene products had to be readily available to avoid the need for female students to request from District staff the feminine hygiene products. A delivery method that involved tokens to access the feminine hygiene products was not an effective option.
6. After considering the options of self-storage plastic drawers and toilet tank storage baskets[,] installing dispensers in the school restrooms was the most reasonable, efficient and economic method for stocking and maintaining the feminine hygiene products in the school restrooms.⁷⁴

Thus, based on the evidence in the record, the Commission finds that using appropriately configured dispensers is reasonably necessary for the performance of the state-mandated activity.

However, some schools may already be equipped with a sufficient number of suitable dispensers in their restrooms to comply with the mandate and, thus, would not need to incur increased costs to buy new dispensers. In addition, based on information publicly available, some schools may have existing dispensers, including coin dispensers, that can be repaired or modified to provide the feminine hygiene products at no cost to the pupils and at a fraction of the cost to purchase new dispensers.⁷⁵ Under these circumstances, it would only be necessary to repair or retrofit the dispensers to comply with the mandate, and would not be necessary to incur increased costs to buy all new dispensers.

⁷⁴ Exhibit N, Claimant's Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District.

⁷⁵ California Code of Regulations, title 2, section 1187.5(c). For example, some colleges have successfully retrofitted existing dispensers in order to provide students with free feminine hygiene products. See e.g. Exhibit Q, Project Tampon Overview, Brown University UCS, page 6 (stating that since 2018 all dispensers in the school's women's and gender inclusive bathrooms have been converted to dispense at no cost to students), <http://www.brownucs.org/project-tampon> (accessed on September 25, 2019). In addition, some dispensers have a universal coin mechanism that allows switching between coin and free (no coin) operation and some dispensers may be retrofitted to operate in free (no-coin) release mode with the help of a conversion kit. See e.g., Exhibit Q, ASI 0468-2 Napkin/Tampon Vendor Description, <https://americanspecialties.com/product/dual-napkin-tampon-vendor-semi-recessed-25%C2%A2-50%C2%A2-or-free-operation-0468-2/> (accessed on September 23, 2019); Exhibit Q, Recessed Napkin / Tampon Vendor Description, Bobrick, page 2 (stating that part No. 3706-250 should be ordered for a free vend conversion kit to satisfy free menstrual product requirements in schools), www.bobrick.com/products/washroom-accessories/restroom-accessories-catalog/sanitary-napkin-tampon-vendors/product/de-b-4706-25/ (accessed on September 20, 2019).

Thus, the proposed activity to purchase and install new dispensers is only reasonably necessary to comply with the mandate for a school that does not already have a sufficient number of suitable dispensers or cannot repair or retrofit a sufficient number of existing dispensers to stock 50 percent of the school's restrooms with feminine hygiene products at all times and at no cost to pupils. At the hearing, the Commission clarified that reimbursement for the activity to purchase and install new dispensers is reasonably necessary to the extent it is more cost effective than to repair or retrofit existing dispensers, and modified the proposed language of the Parameters and Guidelines as follows:

Reimbursement to purchase and install new dispensers is required ~~only~~ to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate (as stated in Section IV. C. of these Parameters and Guidelines), whichever is more cost effective.

The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times may be determined based on the total number of the school's restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Accordingly, section IV. B. of the Parameters and Guidelines therefore provides as follows:

- B. Purchase and install (or retrofit or repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms.

The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate (as stated in Section IV. C. of these Parameters and Guidelines), whichever is more cost effective.

5. The proposed activity to develop policies and procedures is not supported by any evidence in the record to explain why the activity is reasonably necessary to comply with the mandate and is, therefore, denied.

The claimant's Test Claim included a request for reimbursement to develop a school's policies and procedures, which was denied by the Commission as not required by the plain language of the test claim statute, and, accordingly, was not included in the text of the Draft Expedited Parameters and Guidelines.⁷⁶ In comments on the Draft Expedited Parameters and Guidelines, the claimant objects to the exclusion of costs for policies and procedures as follows:

⁷⁶ Exhibit Q, Test Claim, pages 11, 21.

However, Commission Staff Draft Parameters & Guidelines has rejected the Test Claim requesting reimbursement of the new activities that included costs and labor related to the purchase and installation of dispensers *as well as school policies and procedures*.⁷⁷

Finance opposes the inclusion of this activity in the Parameters and Guidelines, stating that based on the plain language of the test claim statute, developing policies and procedures is not reasonably necessary to implement the mandate.⁷⁸

Any proposed reasonably necessary activity must be supported by substantial evidence in the record explaining why the proposed activity is necessary for the performance of the state-mandated activity.⁷⁹

The Commission denies the claimant's request for costs to develop policies and procedures because the claimant provides no evidence explaining why the proposed activity is reasonably necessary to comply with the mandate.

In the Test Claim, the claimant asserted that “[s]chool districts have incurred or will incur costs” for “[d]eveloping and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products” to implement the alleged mandate.⁸⁰ In the rebuttal to Finance’s comments on the Test Claim, the claimant further argued that the “Test Claim does not assert ‘a massive overhaul of school policies and procedures,’” that the costs “are very reasonable based on the time estimated to perform the tasks,” and that accordingly “claimant requests that the Test Claim activities be approved as a reimbursable mandate.”⁸¹ To support these requests the claimant submitted a declaration from Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District identifying the cost of developing policies and procedures.⁸² The declaration, however, only states that to implement provisions of the test claim statute in the 2017-2018 fiscal year, the claimant expended \$347.16 on “[d]eveloping and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products” and that “[t]hese costs represent labor costs for Maintenance & Operations Director, Purchasing Director and Purchasing Buyer”.⁸³ The declaration further states that the claimant’s estimated 2018-2019 fiscal year costs

⁷⁷ Exhibit D, Claimant’s Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁷⁸ Exhibit H, Finance’s Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁷⁹ Government Code section 17559; California Code of Regulations, title 2, sections 1183.7(d), 1187.5.

⁸⁰ Exhibit Q, Test Claim, page 11.

⁸¹ Exhibit Q, Claimant’s Rebuttal Comments, pages 1-2.

⁸² Exhibit Q, Test Claim, pages 20-24 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁸³ Exhibit Q, Test Claim, page 20 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

for policies and procedures would amount to \$191.40, based on the previous year costs.⁸⁴ Thus, while the declaration provides evidence of costs, it does not provide any evidence that developing policies and procedures is reasonably necessary to comply with the mandate.

On September 20, 2019, the claimant filed another declaration of Jordan Aquino, reiterating that the “new activities performed, or to be performed” to implement the mandate include “[d]eveloping and implementation of internal policies, training, procedures relating to the purchase, installation, stocking of feminine hygiene products[.]”⁸⁵ Mr. Aquino’s declaration does not show *why* the activity to develop policies and procedures is reasonably necessary to comply with the mandate to stock 50 percent of the school’s restrooms with feminine hygiene products.

The Commission did not approve the development of policies and procedures as a mandated activity in the Test Claim Decision because the activity is not required by the plain language of the test claim statute. For this activity to be approved as reasonably necessary to comply with the mandate pursuant to Government Code sections 17557 and 17559, and sections 1183.7 and 1187.5 of the Commission’s regulations, the claimant must explain and support with substantial evidence in the record and in accordance with the Commission’s regulations, why developing policies and procedures is reasonably necessary to comply with the mandate. The record does not contain this evidence.

Accordingly, the Commission denies this request.

6. The activity to train personnel is not supported by any evidence in the record to explain why the activity is reasonably necessary to comply with the mandate and is, therefore, denied.

The claimant’s Test Claim included a request for reimbursement to “train certificated, classified and other personnel to administer the availability of feminine hygiene products in the district’s restrooms,” which was denied by the Commission as not required by the plain language of the test claim statute, and, accordingly, was not included in the text of the Draft Expedited Parameters and Guidelines.⁸⁶ The claimant did not propose training as a reasonably necessary activity in response to the Draft Expedited Parameters and Guidelines, or Draft Proposed Decision and Proposed Parameters and Guidelines.

However, on September 20, 2019, the claimant filed a declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, which states in relevant part that the new activities performed, or to be performed by the claimant to implement the mandate include the following:

⁸⁴ Exhibit Q, Test Claim, page 22 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁸⁵ Exhibit N, Claimant’s Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District, page 1.

⁸⁶ Exhibit Q, Test Claim, pages 11-12, 13.

(ii) Train certificated, classified and other personnel to administer the availability of feminine hygiene products in the schools' restrooms[.]⁸⁷

Finance generally opposed the inclusion of training in the Parameters and Guidelines, stating that based on the plain language of the test claim statute, training of personnel is not reasonably necessary to implement the mandate.⁸⁸

The Commission denies the claimant's request for the costs to train personnel because the claimant provides no evidence explaining why the proposed activity is reasonably necessary to comply with the mandate, as is required by law.⁸⁹

In the Test Claim, the claimant asserted that “[s]chool districts have incurred or will incur costs” to “[t]rain certificated, classified and other personnel to administer the availability of feminine hygiene products in the district's restrooms” to implement the alleged mandate.⁹⁰ In its rebuttal to Finance's comments on the Test Claim, the claimant further stated that with respect to labor costs for the period from January 1, 2018, through June 30, 2018 “the costs for training certificated, classified and other personnel to administer the availability of feminine hygiene products in the district restrooms is estimated for principals to be at 34.5 hours, and custodians 49.5 hours for a total of \$2,110.51,” and that in 2018-2019 fiscal year, “the costs for training certificated, classified and other personnel to administer the availability of feminine hygiene products in the district's restrooms totals \$2,132.48, and concluded that these labor costs are “very reasonable based on the time estimated to perform the tasks,” and that accordingly “claimant requests that the Test Claim activities be approved as a reimbursable mandate.”⁹¹

As part of the Test Claim filing, the claimant submitted a declaration from Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District,⁹² which states in relevant part that the “new activities performed, or to be performed” by the claimant to implement the mandate include activity to “[t]rain certificated, classified and other personnel to administer the availability of feminine hygiene products in the schools' restrooms,” and identifies the cost of training at \$2,110.51 for 34 principals and 49 custodians at 0.5 hours each in 2017-2018 fiscal year,⁹³ and at \$2,132.48 for 34 principals and 49 custodians at 0.5 hours each in 2018-2019 fiscal

⁸⁷ Exhibit N, Claimant's Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District, page 1.

⁸⁸ Exhibit H, Finance's Revised Late Comments on the Draft Expedited Parameters and Guidelines, page 1.

⁹⁰ Exhibit Q, Test Claim, page 11.

⁹¹ Exhibit Q, Claimant's Rebuttal Comments, pages 1-2.

⁹² Exhibit Q, Test Claim, pages 20-24 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹³ Exhibit Q, Test Claim, pages 20-21 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

year.⁹⁴ While this declaration provides evidence of costs, it does not provide any evidence explaining why training is reasonably necessary to comply with the mandate. Finally the declaration filed by the claimant on September 20, 2019 simply reiterates that the “new activities performed, or to be performed” to implement the mandate include activity to “[t]rain certificated, classified and other personnel to administer the availability of feminine hygiene products in the schools' restrooms,” but provides no further information or explanation why training is necessary.⁹⁵

The Commission did not approve training as a mandated activity in the Test Claim Decision because the activity is not required by the plain language of the test claim statute. For this activity to be approved as reasonably necessary to comply with the mandate pursuant to Government Code sections 17557 and 17559, and sections 1183.7 and 1187.5 of the Commission’s regulations, the claimant must explain and support with substantial evidence in the record and in accordance with the Commission’s regulations, why training of certificated, classified, and other personnel is reasonably necessary to comply with the mandate.

Accordingly, the Commission denies this request.

D. The Remaining Sections of the Parameters and Guidelines

Section V. of the Parameters and Guidelines (Claim Preparation and Submission) identifies the following direct costs that are eligible for reimbursement: salaries and benefits, materials and supplies, fixed assets, and contracted services. However, travel and training costs were not included in the Draft Expedited Parameters and Guidelines because those activities were not approved in the Test Claim Decision and the claimant did not request these costs as reasonably necessary to perform the mandated activity or submit substantial evidence to support such a request.

The remaining sections of the Parameters and Guidelines contain standard boilerplate language.

V. Conclusion

Based on the foregoing, the Commission hereby adopts the Revised Draft Proposed Decision and Parameters and Guidelines.

PARAMETERS AND GUIDELINES

Education Code Section 35292.6, Statutes 2017, Chapter 687 (AB 10)

Public School Restrooms: Feminine Hygiene Products

18-TC-01

Reimbursement for this program begins January 1, 2018.

⁹⁴ Exhibit Q, Test Claim, page 23 (Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, December 6, 2018).

⁹⁵ Exhibit N, Claimant’s Late Filing, Declaration of Jordan Aquino, Desert Sands Unified School District, page 1.

I. SUMMARY OF THE MANDATE

On May 24, 2019, the Commission on State Mandates (Commission) adopted the Test Claim Decision finding that Education Code section 35292.6, as added by Statutes 2017, chapter 687, imposes a reimbursable state-mandated program under article XIII B, section 6 of the California Constitution, beginning January 1, 2018, on school districts with schools that meet specified criteria to stock 50 percent of such schools' restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.

II. ELIGIBLE CLAIMANTS

Any "school district" as defined in Government Code section 17519, except for community college districts, is eligible to claim reimbursement for increased costs incurred as a result of this mandate for the district's schools that meet the following criteria:

- Maintain any combination of classes from grade 6 to grade 12, inclusive; *and*
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that:
 - 1) the school is eligible for Title I, Part A funds by either servicing an eligible school attendance area or by being a participating Title I, Part A school, *and*
 - 2) not less than 40 percent of the children enrolled in the school are from low-income families. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

III. PERIOD OF REIMBURSEMENT

Government Code section 17557(e) states that a test claim shall be submitted on or before June 30 following a given fiscal year to establish eligibility for reimbursement for that fiscal year. The claimant filed the Test Claim on December 7, 2018, establishing eligibility for reimbursement for the 2017-2018 fiscal year, beginning July 1, 2017. However, Statutes 2017, chapter 687 became effective on January 1, 2018, establishing the period of reimbursement beginning January 1, 2018.

Reimbursement for state-mandated costs may be claimed as follows:

1. Actual costs for one fiscal year shall be included in each claim.
2. Pursuant to Government Code section 17561(d)(1)(A), all claims for reimbursement of initial fiscal year costs shall be submitted to the State Controller (Controller) within 120 days of the issuance date for the claiming instructions.
3. Pursuant to Government Code section 17560(a), a school district may, by February 15 following the fiscal year in which costs were incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
4. If revised claiming instructions are issued by the Controller pursuant to Government Code section 17558(c), between November 15 and February 15, a school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim. (Gov. Code §17560(b).)
5. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement shall be allowed except as otherwise allowed by Government Code section 17564(a).

6. There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

IV. REIMBURSABLE ACTIVITIES

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event, or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant that incurs increased costs, the following ongoing activities ~~is~~ are reimbursable for the district's schools that meet the criteria described above:

- A. Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

To support the actual cost for labor and materials incurred as a result of this mandate, claimants must identify in their reimbursement claims the schools required to implement the mandated activity, the number of restrooms in each of these schools, and each school's total enrollment of female pupils in grades 6 to 12 in the claim year.

The sufficient amount of tampons and sanitary napkins necessary to comply with the mandate may be determined based on the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement is not required to stock more than 50 percent of the school's restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins.

- B. Purchase and install (or retrofit or repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms.⁹⁶

The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate, whichever is more cost effective.

V. CLAIM PREPARATION AND SUBMISSION

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV., Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section IV. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the services that were performed during the period covered by the reimbursement claim. If the contract services are also used for purposes other than the reimbursable activities, only the pro-rata portion of the services used to implement the reimbursable activities can be

⁹⁶ Declaration of Jordan Aquino, Chief Business Officer for the Desert Sands Unified School District, September 20, 2019.

claimed. Submit contract consultant and attorney invoices with the claim and a description of the contract scope of services.

4. Fixed Assets

Report the purchase price paid for fixed assets necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

B. Indirect Cost Rates

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs may include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs; and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the California Department of Education approved indirect cost rate for the year that funds are expended.

VI. RECORD RETENTION

Pursuant to Government Code section 17558.5(a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter⁹⁷ is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described in Section IV., must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

VII. OFFSETTING REVENUES AND REIMBURSEMENTS

Any offsetting revenue the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, service fees collected, federal funds, and other applicable state funds, shall be identified and deducted from any claim submitted for reimbursement.

⁹⁷ This refers to title 2, division 4, part 7, chapter 4 of the Government Code.

VIII. STATE CONTROLLER’S CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558(b), the Controller shall issue claiming instructions for each mandate that requires state reimbursement not later than 90 days after receiving the adopted parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The claiming instructions shall be derived from these parameters and guidelines and the decisions on the test claim and parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561(d)(1), issuance of the claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon parameters and guidelines adopted by the Commission.

IX. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557(d), and California Code of Regulations, title 2, section 1183.17.

X. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The decisions adopted for the test claim and parameters and guidelines are legally binding on all parties and provide the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record. The administrative record is on file with the Commission.

DECLARATION OF SERVICE BY EMAIL

I, the undersigned, declare as follows:

I am a resident of the County of Sacramento and I am over the age of 18 years, and not a party to the within action. My place of employment is 980 Ninth Street, Suite 300, Sacramento, California 95814.

On November 26, 2019, I served the:

- **Decision and Parameters and Guidelines adopted November 22, 2019**

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)
Desert Sands Unified School District, Claimant

By making it available on the Commission's website and providing notice of how to locate it to the email addresses provided on the attached mailing list.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration was executed on November 26, 2019 at Sacramento, California.

Office of the State Controller

State-Mandated Costs Claiming Instructions No. 2020-02

Public School Restrooms: Feminine Hygiene Products – Program No. 374

February 24, 2020

In accordance with Government Code (GC) sections 17560 and 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state-mandated cost programs. This document contains claiming instructions and forms that eligible claimants must use for filing claims for the Public School Restrooms: Feminine Hygiene Products program. SCO issues these claiming instructions subsequent to the Commission on State Mandates (CSM) adopting the program's Parameters and Guidelines (Ps & Gs). The Ps & Gs is an integral part of the claiming instructions and are located at:

www.csm.ca.gov/documents/DecisionandPsandGswebfinalDecisionsPage.pdf

On May 24, 2019, CSM adopted a Statement of Decision finding that the test claim legislation imposes a reimbursable state-mandated program upon school districts within the meaning of article XIII B, section 6 of the California Constitution and GC section 17514.

Exception

There will be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

Eligible Claimants

With the exception of community colleges, any school district, as defined in GC section 17519 that incurs increased costs as a result of this mandate is eligible to claim for reimbursement for increased costs incurred as a result of this mandate for the district's schools that meet the following criteria:

- Maintain any combination of classes from grade 6 to grade 12, inclusive; and
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(l)(A) of Title 20 of the United States Code, in that:
 - 1) the school is eligible for Title I, Part A funds by either servicing an eligible school attendance area or by being a participating Title I, Part A school, *and*
 - 2) not less than 40 percent of the children enrolled in the school are from low-income families. (Education Code section 35292.6, Statutes of 2017, ch. 687.)

Reimbursement Claim Deadline

- **Initial Reimbursement Claims**

Initial reimbursement claims must be filed within 120 days from the issuance date of the claiming instructions. Costs incurred for compliance with this mandate are reimbursable for the period beginning January 1, 2018 through June 30, 2018, for fiscal year 2017-18; and the period beginning July 1, 2018 through June 30, 2019 for fiscal year 2018-19, must be filed with the SCO by **June 23, 2020**.

- **Annual Reimbursement Claims**

Annual reimbursement claims for subsequent fiscal years may be filed by **February 15** following the fiscal year in which costs were incurred. If the deadline falls on a weekend or holiday, claims are due the following business day.

Claims filed more than one year after the specified deadline will not be accepted.

Penalty

- **Initial Reimbursement Claims**

When filed within one year of the initial filing deadline, claims are assessed a late penalty of 10% of the total amount of the initial claim without limitation pursuant to GC section 17561(d)(3).

- **Annual Reimbursement Claims**

When filed within one year of the annual filing deadline, claims are assessed a late penalty of 10% of the claim amount; not to exceed \$10,000, pursuant to GC section 17568.

Minimum Claim Cost

GC section 17564(a), states that no claim may be filed pursuant to sections 17551 and 17561, unless such a claim exceeds one thousand dollars (**\$1,000**), provided that a county superintendent of schools may submit a combined claim on behalf of school districts within their county if the combined claim exceeds **\$1,000**, even if the individual school district's claim does not each exceed **\$1,000**. If the total costs for a given fiscal year do not exceed \$1,000, no reimbursement will be allowed except as otherwise allowed by GC section 17564. The county superintendent of schools will determine if the submission of the combined claim is economically feasible and be responsible for disbursing the funds to each school district. These combined claims may be filed only when the county superintendent of schools is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate will only be filed in the combined form unless a school district provides a written notice of its intent to file a separate claim to the county superintendent of schools and to SCO at least 180 days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating: "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

Audit of Costs

All claims submitted to SCO are subject to review to determine if costs are related to the mandate, are reasonable and not excessive, and if the claim was prepared in accordance with the SCO's claiming instructions and the Ps & Gs adopted by CSM. If any adjustments are made to a claim, the claimant will be notified of the amount adjusted, and the reason for the adjustment.

On-site audits will be conducted by SCO as deemed necessary. Pursuant to GC section 17558.5(a), a reimbursement claim for actual costs filed by a claimant is subject to audit by SCO no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for SCO to initiate an audit will commence to run from the date of initial payment of the claim.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by SCO during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents must be made available to SCO on request.

Record Retention

All documentation to support actual costs claimed must be retained for a period of three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated or no payment was made at the time the claim was filed, the time for SCO to initiate an audit will be from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and must be made available to SCO on request.

Claim Submission

Submit a signed original Form FAM-27 and one copy with required documents. **Please sign the Form FAM-27 in blue ink and attach the copy to the top of the claim package.**

Mandated costs claiming instructions and forms are available online at the SCO's website: **www.sco.ca.gov/ard_mancost.html**.

In accordance with the provisions of Government Code sections 17560 and 17561, I certify that I am the officer authorized by the school district or county office of education to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Article 4, Chapter 1 of Division 4 of Title 1 of the Government Code.			
I further certify that there was no application other than from the claimant, nor any grant(s) or payment(s) received, for reimbursement of costs claimed herein; claimed costs are for a new program or increased level of services of an existing program; and claimed amounts do not include charter school costs, either directly or through a third party. All offsetting revenues and reimbursements set forth in the parameters and guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.			
The amount for this reimbursement is hereby claimed from the State for payment of actual costs set forth on the attached statements.			
I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS CLAIM FOR PAYMENT INSTRUCTIONS	FORM FAM-27
------------------------------	--	------------------------

- (01) Enter the claimant identification number assigned by the State Controller's Office.
- (02) Enter claimant official name, county of location, street or postal office box address, city, State, and zip code.
Note: Only school districts that meet the criteria are eligible to file a claim pursuant to Section II of the Ps & Gs.

(03) to (08) Leave blank.

- (09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.
- (10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.
- (11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.
- (12) Enter the fiscal year in which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate Form FAM-27 for each fiscal year.
- (13) Enter the amount of the reimbursement claim as shown on Form 1, line (11). The total claimed amount must exceed \$1,000; minimum claim must be \$1,001.
- (14) Initial reimbursement claims must be filed as specified in the claiming instructions. Annual reimbursement claims must be filed by February 15, or as specified in the claiming instructions following the fiscal year in which costs were incurred. Claims filed after the specified date must be reduced by a late penalty. Enter zero if the claim was filed on time. Otherwise, enter the penalty amount as a result of the calculation formula as follows:

- Late Initial Reimbursement Claims: Form FAM-27, line (13) multiplied by 10%, without limitation; or
- Late Annual Reimbursement Claims: Form FAM-27, line (13) multiplied by 10%, late penalty not to exceed \$10,000.

- (15) Enter the amount of payment, if any, received for the claim. If no payment was received, enter zero.
- (16) Enter the net claimed amount by subtracting the sum of lines (14) and (15) from line (13).
- (17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.
- (18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.

(19) to (21) Leave blank.

(22) to (33) Bring forward the cost information as specified on the left-hand column of lines (22) through (33) for the reimbursement claim, e.g., Form 1, (04) A. (e) means the information is located on Form 1, block (04), line A., column (e). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. The indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 35.19% should be shown as 35. Completion of this data block will expedite the process.

(34) to (36) Leave blank.

- (37) Read the statement of Certification of Claim. The claim must be signed and dated by the agency's authorized officer, type or print name and title, telephone number, and email address. Claims cannot be paid unless accompanied by an original signed certification. (Please sign the Form FAM-27 in blue ink and attach the copy to the top of the claim package.)
- (38) Enter the name, telephone number, and email address of the agency contact person for the claim. If the claim was prepared by a consultant, type or print the name of the consulting firm, the claim preparer, telephone number, and email address.

SUBMIT A SIGNED ORIGINAL FORM FAM-27 AND ONE COPY WITH ALL OTHER FORMS TO:

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS CLAIM SUMMARY	FORM 1			
(01) Claimant		(02) Fiscal Year 20 ___ /20 ___			
<i>Note: List eligible schools and other required information on Attachment A.</i>					
(03) (a) Total enrollment of female pupils in grades 6 to 12 in each school subject to the mandate.					
(b) Total number of restrooms in each school required to be stocked with the feminine hygiene products.					
(c) Total amount of feminine hygiene products (defined only as tampons and sanitary napkins) purchased.					
(d) Total number of dispensers purchased during claiming period.					
(e) Total number of dispensers repaired or retrofitted during claiming period.					
Direct Costs	Object Accounts				
(04) Reimbursable Activities	(a) Salaries and Benefits	(b) Materials and Supplies	(c) Contract Services	(d) Fixed Assets	(e) Total
<i>(See Form 1, Claim Summary Instructions for additional information.)</i>					
A. Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.					
B.1. Purchase and install a sufficient number of suitable dispensers for feminine hygiene products in 50 percent of the school's restrooms.					
B.2. Retrofit or repair a sufficient number of suitable dispensers for feminine hygiene products in 50 percent of the school's restrooms.					
(05) Total Direct Costs					
Indirect Costs					
(06) Indirect Cost Rate	[Refer to Claim Summary Instructions]				%
(07) Total Indirect Costs	[Line (05)(e) - line (05)(d) - \$ <input type="text"/>] x line (06)				
(08) Total Direct and Indirect Costs	[Line (05)(e) + line (07)]				
Cost Reduction					
(09) Less: Offsetting Revenues					
(10) Less: Other Reimbursements					
(11) Total Claimed Amount	[Line (08) - {line (09) + line (10)}]				

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS CLAIM SUMMARY INSTRUCTIONS	FORM 1
-----------------------	--	------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year in which costs were incurred.
- (03) (a) Enter the total enrollment of female pupils in grade 6 to 12 in each school subject to the mandate.
- (b) Enter the total number of restrooms in each school required to be stocked with the feminine hygiene products.
- (c) Enter the total amount of feminine hygiene products (defined only as tampons and sanitary napkins) purchased.
- (d) Enter the total number of dispensers purchased during claiming period.
- (e) Enter the total number of dispensers repaired or retrofitted during claiming period.
- (04) For the reimbursable activities, enter the total from Form 2, line (05), columns (d) through (g), to Form 1, block (04), columns (a) through (d), in the appropriate row. Total the row.

Notes:

- To support the actual costs for labor and materials incurred, identify the schools required to implement the mandate, the number of restrooms in each school, and the school's total enrollment of female pupils in grades 6 to 12 in the claiming year on Attachment A.
- The sufficient amount of tampons or sanitary napkins necessary to comply with the mandate may be determined based on the school's total enrollment of female pupils in grades 6 to 12 in the claim year.
- The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement is not required to stock more than 50 percent of the school's restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins.

Reimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with mandate, whichever is more cost effective.

- (05) Total columns (a) through (e).
- (06) Enter the approved indirect cost rate from the California Department of Education for the year that funds are expended.
- (07) From the Total Direct Costs, line (05)(e), deduct Total Fixed Assets, line (05)(d) and any other item excluded from the indirect cost distribution base in accordance with the *California School Accounting Manual, Procedure 915*. Enter zero if there are no exclusions. Multiply the result by the Indirect Cost Rate, line (06).
- (08) Enter the sum of Total Direct Costs, line (05)(e), and Total Indirect Costs, line (07).
- (09) If applicable, enter any revenue received by the claimant for this mandate from any state or federal source. Submit a schedule detailing the revenue sources and amounts.
- (10) If applicable, enter the amount of other reimbursements received from any source including, but not limited to, service fees collected, federal funding, and other state funding that reimbursed any portion of the mandated cost program. Submit a schedule detailing the reimbursement sources and amounts.
- (11) From the Total Direct and Indirect Costs, line (08), subtract the sum of Offsetting Revenues, line (09), and Other Reimbursements, line (10). Enter the remainder on this line and carry the amount forward to Form FAM-27, line (13) of the Reimbursement Claim.

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS ACTIVITY COST DETAIL	FORM 2
-----------------------	---	------------------

(01) Claimant	(02) Fiscal Year 20__ / 20__
---------------	---------------------------------

(03) Reimbursable Activities

A. Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.

B.1. Purchase and install a sufficient number of suitable dispensers for feminine hygiene products in 50 percent of the school's restrooms.

B.2. Retrofit or repair a sufficient number of suitable dispensers for feminine hygiene products in 50 percent of the school's restrooms.

(04) Description of Expenses			Object Accounts			
(a) Employee Names, Job Classifications, Functions Performed and Description of Expenses	(b) Hourly Rate or Unit Cost	(c) Hours Worked	(d) Salaries and Benefits	(e) Materials and Supplies	(f) Contract Services	(g) Fixed Assets
(05) Total <input type="checkbox"/> Subtotal <input type="checkbox"/> Page: ___ of ___						

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS ACTIVITY COST DETAIL INSTRUCTIONS	FORM 2
-----------------------	---	------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year in which costs were incurred.
- (03) Check the box which indicates the activity being claimed. Check only one box per form. A separate Form 2 must be prepared for each applicable activity.
- (04) The following table identifies the type of information required to support reimbursable costs. To itemize costs for the activity box checked in block (03), enter each employee name, job classification, a brief description of the activities performed, productive hourly rate, actual time spent, fringe benefits, materials and supplies used, contract services, fixed assets, and training expenses. The descriptions required in column (04)(a) must be of sufficient detail to explain the cost of activities or items being claimed.

Required Documentation to Support Reimbursable Costs								
Object Accounts	Columns							Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	
Salaries and Benefits	Employee Name and Title	Hourly Rate	Hours Worked	Salaries = Hourly Rate X Hours Worked				
	Activities Performed	Benefit Rate		Benefits = Benefit Rate X Salaries				
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost X Quantity Used			
Contract Services	Name of Contractor and Specific Tasks Performed	Hourly Rate	Hours Worked and Inclusive Dates of Service			Cost = Hourly Rate X Hours Worked or Total Contract Cost		Copy of Contract and Invoices
Fixed Assets	Description of Equipment Purchased	Unit Cost X Quantity	Usage				Cost = Total Cost X Usage	Copy of Contract and Invoices

- (05) Total line (04), columns (d) through (g) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the activity costs, number each page. Enter totals from line (05), columns (d) through (g) on Form 1, block (04), columns (a) through (d) in the appropriate row.

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS LIST OF ELIGIBLE SCHOOLS	ATTACHMENT A
-----------------------	---	------------------------

(01) Claimant	(02)	Fiscal Year 20__ /20__
---------------	------	---------------------------

(03) Summary of Schools

(a) School Name	(b) Total Enrollment of Female Pupils (Grades 6 to 12 Only)	(c) Total Number of Restrooms (stocked with feminine hygiene products)	(d) Total Amount of Feminine Hygiene Products Purchased (defined only as tampons and sanitary napkins)	(e) Total Number of Dispensers Purchased	(f) Total Number of Dispensers Repaired or Retrofitted
(04) Total					

PROGRAM 374	PUBLIC SCHOOL RESTROOMS: FEMININE HYGIENE PRODUCTS LIST OF ELIGIBLE SCHOOLS INSTRUCTIONS	ATTACHMENT A
-----------------------	---	------------------------

- (01) Enter the name of the claimant.
- (02) Enter the fiscal year in which costs were incurred.
- (03) (a) List all eligible schools in the district that meet the requirements to stock 50 percent of such schools' restrooms with feminine hygiene products (defined only as tampons and sanitary napkins).
If a County Office of Education is filing combined claims, each school district should fill out an Attachment A.
- (b) Enter the total enrollment of female pupils in grades 6 to 12 in each school subject to the mandate.
- (c) Enter the total number of restrooms in each school required to be stocked with the feminine hygiene products.
- (d) Enter the total amount of feminine hygiene products (defined only as tampons and sanitary napkins) purchased.
- (e) Enter the total number of dispensers purchased during claiming period.
- (f) Enter the total number of dispensers repaired or retrofitted during claiming period.
- (04) Total line (04), columns (b) through (f) and enter the sum on this line.

**Re: Draft Proposed Statewide Cost Estimate, Schedule for Comments,
and Notice of Hearing**

*Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)*

Dear Mr. Palkowitz and Ms. Sidarous:

The Draft Proposed Statewide Cost Estimate for the above-captioned matter is enclosed for your review and comment.

Written Comments

Written comments may be filed on the Draft Proposed Statewide Cost Estimate by **November 12, 2020**. You are advised that comments filed with the Commission are required to be electronically filed (e-filed) in an unlocked legible and searchable PDF file, using the Commission's Dropbox. (Cal. Code Regs., tit. 2, § 1181.3(c)(1).) Refer to http://www.csm.ca.gov/dropbox_procedures.php on the Commission's website for electronic filing instructions. If e-filing would cause the filer undue hardship or significant prejudice, filing may occur by first class mail, overnight delivery or personal service only upon approval of a written request to the executive director. (Cal. Code Regs., tit. 2, § 1181.3(c)(2).)

Hearing

This matter is set for hearing on **Friday, December 4, 2020**, at 10:00 a.m., via Zoom. The Proposed Statewide Cost Estimate will be issued on or about November 20, 2020.

This matter is proposed for the Consent Calendar. Please let us know in advance if you oppose having this item placed on the Consent Calendar.

Please also notify Commission staff not later than the Wednesday prior to the hearing that you or a witness you are bringing plan to testify and please specify the names of the people who will be speaking for inclusion on the witness list. The last communication from Commission staff will be the Proposed Statewide Cost Estimate, which will be issued approximately 2 weeks prior to the hearing, and it is incumbent upon the participants to let Commission staff know if they wish to testify or bring witnesses.

Sincerely,

Heather Halsey
Executive Director

ITEM ____

DRAFT PROPOSED STATEWIDE COST ESTIMATE

\$1,547,455- \$5,576,255 ¹

(For the Initial Claiming Period of 2017-2018 and 2018-2019)

(Estimated Annual Costs for Fiscal Year 2019-2020 and Following Is

\$548,610 - \$2,169,774

Plus the Implicit Price Deflator)²

Education Code Section 35292.6, Statutes 2017, Chapter 687 (AB 10)

Public School Restrooms: Feminine Hygiene Products

18-TC-01

The Commission on State Mandates (Commission) adopted this Statewide Cost Estimate by a vote of [vote count will be included in the adopted Statewide Cost Estimate] during a regularly scheduled hearing on December 4, 2020 as follows:

Member	Vote
Lee Adams, County Supervisor	
Jeannie Lee, Representative of the Director of the Office of Planning and Research	
Gayle Miller, Representative of the Director of the Department of Finance, Chairperson	
Sarah Olsen, Public Member	
Carmen Ramirez, City Council Member	
Andre Rivera, Representative of the State Treasurer, Vice Chairperson	
Jacqueline Wong-Hernandez, Representative of the State Controller	

STAFF ANALYSIS

Background and Summary of the Mandate

This Statewide Cost Estimate addresses the State’s liability for the subvention of costs for the mandated activities arising from Education Code section 35292.6, added by Statutes 2017,

¹ The high end of this range includes potential late and amended claims that may be filed until June 23, 2021, less a 10 percent late filing penalty.

² The high end of this range estimates the maximum cost if all school districts in California with schools required to comply with the mandate file reimbursement claims.

chapter 687 (test claim statute). The Commission found that the test claim statute imposes a reimbursable state-mandated program under article XIII B, section 6 of the California Constitution, beginning January 1, 2018, for school districts with schools that (1) maintain any combination of classes from grade 6 through grade 12, inclusive; *and* (2) meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that the school is eligible for Title I, Part A funds, and not less than 40 percent of the children enrolled in the school are from low-income families, to stock 50 percent of the schools' restrooms with feminine hygiene products (defined as tampons and sanitary napkins) at all times at no cost to pupils.³

The Decision and Parameters and Guidelines for claiming costs incurred beginning January 1, 2018, were adopted on November 22, 2019.⁴

The State Controller's Office (Controller) issued claiming instructions on February 24, 2020.⁵ Eligible claimants were required to file initial reimbursement claims with the Controller for costs incurred in fiscal year 2017-2018, beginning January 1, 2018, and in fiscal year 2018-2019, by June 23, 2020.⁶ Late initial reimbursement claims may be filed until June 23, 2021, but will incur a 10 percent late filing penalty of the total amount of the initial claim without limitation.⁷ Annual reimbursement claims for subsequent fiscal years, starting with fiscal year 2019-2020, must be filed with the Controller by February 15 following the fiscal year in which costs were incurred.⁸ Annual claims filed more than one year after the deadline will not be accepted, and late claims filed within one year of the deadline will incur a 10 percent late filing penalty not to exceed \$10,000.⁹

During the test claim process, the claimant filed evidence to support its alleged increased costs of \$61,615.72 to comply with the mandate in fiscal year 2017-2018. This amount includes costs for developing and implementing policies and procedures, training, purchasing and installing dispensers, purchasing sanitary napkins and tampons, and labor to stock the products.¹⁰ The claimant's estimated costs alleged for the 2018-2019 fiscal year, based on the 2017-2018 costs, amounted to \$43,988.22, including \$39,629.38 for stocking the restrooms with feminine hygiene products.¹¹

⁴ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019.

⁵ Exhibit D, Controller's Claiming Instructions 2020-02 Program No. 374, dated February 24, 2020, page 1.

⁶ Exhibit D, Controller's Claiming Instructions 2020-02 Program No. 374, dated February 24, 2020, page 2.

⁷ Government Code sections 17561(d)(3), 17568.

⁸ Government Code section 17560(a).

⁹ Government Code section 17568.

¹⁰ Exhibit A, Test Claim, filed December 7, 2018, page 3.

¹¹ Exhibit A, Test Claim, filed December 7, 2018, page 3.

The claimant also estimates that the annual statewide cost to implement the alleged mandate is \$5,000,000.¹²

Eligible Claimants and Period of Reimbursement

Any “school district” as defined in Government Code section 17519, except for community college districts, is eligible to claim reimbursement for increased costs incurred as a result of this mandate, for the district’s schools that meet the following criteria:

- Maintain any combination of classes from grade six to grade 12, inclusive; *and*
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that:
 - 1) the school is eligible for Title I, Part A funds by either servicing an eligible school attendance area or by being a participating Title I, Part A school, *and*
 - 2) not less than 40 percent of the children enrolled in the school are from low-income families. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

Government Code section 17557(e) states that a test claim shall be submitted on or before June 30 following a given fiscal year to establish eligibility for reimbursement for that fiscal year. The claimant filed the Test Claim on December 7, 2018, establishing eligibility for reimbursement for the 2017-2018 fiscal year, beginning July 1, 2017. However, Statutes 2017, chapter 687 became effective on January 1, 2018, establishing the period of reimbursement beginning January 1, 2018.¹³

Reimbursable Activities

The Parameters and Guidelines authorize reimbursement for the following ongoing activities:

- A. Stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. (Ed. Code §35292.6, Stats. 2017, ch. 687.)

To support the actual cost for labor and materials incurred as a result of this mandate, claimants must identify in their reimbursement claims the schools required to implement the mandated activity, the number of restrooms in each of these schools, and each school’s total enrollment of female pupils in grades 6 to 12 in the claim year.

The sufficient amount of tampons and sanitary napkins necessary to comply with the mandate may be determined based on the school’s total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement is not required to stock more than 50 percent of the school’s restrooms with feminine hygiene products or to stock any menstrual products other than tampons and sanitary napkins.

¹² Exhibit A, Test Claim, filed December 7, 2018, page 3.

¹³ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 23.

- B. Purchase and install (or retrofit or repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms.

The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate, whichever is more cost effective.¹⁴

Offsetting Revenues and Reimbursements

The Parameters and Guidelines contain the following boilerplate language:

Any offsetting revenue the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, service fees collected, federal funds, and other applicable state funds, shall be identified and deducted from any claim submitted for reimbursement.¹⁵

There are no known sources of offsetting revenues, and no offsetting revenues were identified in the initial reimbursement claims.

Statewide Cost Estimate

Commission staff reviewed the 169 reimbursement claims (97 for 2017-2018 and 72 for 2018-2019) submitted by 115 school districts¹⁶ for 1,140 schools and data compiled by the Controller.¹⁷ The unaudited reimbursement claims request reimbursement for a total \$922,121 for fiscal year 2017-2018, beginning January 1, 2018, and \$625,334 for fiscal year 2018-2019, totaling \$1,547,455 for the initial reimbursement period, with the total cost segregated by activity

¹⁴ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, pages 24-25.

¹⁵ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 26.

¹⁶ Of the 115 school districts that filed claims during the initial claim period, 54 districts filed claims for both fiscal years, 43 districts filed claims for just fiscal year 2017-2018, and 18 districts filed claims for just 2018-2019. (Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 1-2.)

¹⁷ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 1-2; Exhibit X, Excerpt, List of Schools from 2017-2018 Reimbursement Claims; Exhibit X, Excerpt, List of Schools from 2018-2019 Reimbursement Claims. Some claims listed the "District Office" under the list of schools required to comply with the mandate. The total number of schools (1,140) does not include the "District Offices" because the mandate applies only to those *schools* that meet the criteria in Education Code section 35292.6.

as follows:

\$664,260 ¹⁸	Activity A. Stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.
\$827,260	Activity B. Purchase and install, or retrofit or repair, a sufficient number of suitable dispensers for feminine hygiene products in 50 percent of the school’s restrooms. ¹⁹
\$56,750	Indirect Costs
\$0	Offsetting Revenues or Other Reimbursements ²⁰
(\$815)	Less 10 Percent Late Filing Penalty
\$1,547,455	Total Costs Claimed²¹

Initial Reimbursement Period, Fiscal Years 2017-2018, 2018-2019

The statewide cost for the initial reimbursement period is estimated to range from \$1,547,445, the total amount of unaudited filed reimbursement claims, to \$5,577,070, the total estimated cost for school districts with schools subject to the mandate for fiscal years 2017-2018 and 2018-2019, less a 10 percent late filing penalty, based on the assumptions outlined in the analysis, with

¹⁸ The Controller’s Summary of Claims, for 2018-2019, shows total costs claimed for Activity A. of \$448,567. However, this amount does not include the costs claimed for Activity A. by Merced City School District of \$7,704. (The Controller’s Summary of Claims identifies this District as “Merced Elementary School District, but the District’s correct name, as identified on the reimbursement claims filed, is Merced City School District.) Instead, the Controller’s summary mistakenly identifies the total amount of feminine hygiene products purchased by Merced at 7,704 products. (Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 10.) However, the reimbursement claim filed by Merced City School District claims costs of \$7,704 for Activity A., and did not identify the amount of product purchased. (Exhibit X, Excerpt from Merced City School District’s 2018-2019 Reimbursement Claim.) Thus, the total amount claimed for Activity A. for fiscal year 2018-2019 should total \$456,271, instead of \$448,567 (a \$7,704 difference), as indicated on page 12 of Exhibit E. The correct amount claimed for 2018-2019 of \$456,271, plus the costs claimed for Activity A. for 2017-2018 of \$207,989, totals \$664,260.

¹⁹ This amount represents costs actually claimed for Activity B.1. (purchase and install dispensers) of \$826,309 and for Activity B.2. (retrofit and repair dispensers) of \$951, for a total of \$827,260.

²⁰ There are no known or reported offsetting revenues at this time.

²¹ Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, pages 6-8, 10, 12, indicate that a desk review is in progress for the reimbursement claims submitted by Merced City School District, Santa Ana Unified School District, Guadalupe Union Elementary School District, and Yosemite Unified School District; that the summary reduces an amount claimed by Jurupa Unified School District; and that the claims data for Merced City School District was incomplete and that a revised claim would be filed.

costs segregated by activity as follows:

\$664,260 - \$2,610,841	Activity A. Stock 50 percent of the school's restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils. ²²
\$827,260 - \$3,182,154	Activity B. Purchase and install (or retrofit and repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms. ²³
\$56,750 - \$231,720	Indirect Costs ²⁴
\$0	Offsetting Revenues ²⁵
(\$815 - \$448,560)	Less 10 Percent Late Filing Penalty ²⁶
\$1,547,445 - \$5,576,255	Total Estimated Costs

Fiscal Year 2019-2020 and Following

Future statewide annual costs beginning fiscal year 2019-2020 are estimated to range from \$548,610 - \$2,169,774, plus the implicit price deflator, based on the assumptions outlined in the analysis, with the range of costs segregated by activity as follows:

²² The low end of the range represents costs actually claimed for Activity A. of \$664,260. The high end of the range represents all potential costs that could be claimed for Activity A. including in late or amended claims filed by school districts with schools required to comply with the mandate, for a total of \$2,610,841.

²³ The low end of the range represents costs actually claimed for Activity B.1. (purchase and install dispensers) of \$826,309 and for Activity B.2. (retrofit and repair dispensers) of \$951, for a total of \$827,260. The high end of the range represents all potential costs that could be claimed for Activity B. including in late or amended claims filed by school districts with schools required to comply with the mandate, for a total of \$3,182,154.

²⁴ The low end of the range represents the indirect costs actually claimed. The high end of the range is the average of the indirect cost rates claimed in the unaudited initial claims multiplied by the estimated direct costs.

²⁵ The high end of the projected potential costs for the initial reimbursement period makes no assumptions regarding offsetting revenues or reimbursements. There are no known or reported offsetting revenues at this time.

²⁶ The low end of the range represents penalties already recognized by the Controller's Office. The high end includes the penalty based on the estimated costs that may still be claimed in late or amended claims for the initial claiming period (\$6,024,715 in total estimated statewide direct and indirect costs that may yet be claimed - \$1,548,270 in costs actually claimed to date = \$4,476,445 x 10% + (-\$815 penalties imposed on costs actually claimed) = \$448,560).

\$444,784 - \$1,746,260	Activity A. Stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.
\$82,726 - \$340,061	Activity B. Purchase and install (or retrofit and repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school’s restrooms.
\$21,100 - \$83,453	Indirect Costs
(\$0)	Offsetting Revenues ²⁷
\$548,610 - \$2,169,774	Total Estimated Future Costs

Assumptions

Based on the claims data and other publicly available information, staff made the following assumptions and used the following methodology to develop the Statewide Cost Estimate for this program.

- *The total amount claimed for the initial reimbursement period may increase as a result of late or amended initial claims.*

There are 1,037 school districts and 10,588 schools in the State of California²⁸ and, as explained below, there are approximately 5,653 schools in fiscal year 2017-2018; 5,630 schools in fiscal year 2018-2019; and 5,579 schools in 2019-2020 that are mandated to comply with this program because these schools:

- Maintain any combination of classes from grade 6 to grade 12, inclusive; *and*
- Meet the 40 percent pupil poverty threshold required to operate a schoolwide program pursuant to section 6314(a)(1)(A) of Title 20 of the United States Code, in that:
 - 1) the school is eligible for Title I, Part A funds by either servicing an eligible school attendance area or by being a participating Title I, Part A school, *and*
 - 2) not less than 40 percent of the children enrolled in the school are from low-income families. (Ed. Code §35292.6, Stats. 2017, ch. 687.)²⁹

Only 115 school districts filed reimbursement claims (97 filed for 2017-2018 and 72 filed for 2018-2019) with the Controller during the initial reimbursement period, and have identified costs incurred by a total of 1,140 schools within their districts. However, 1,140 schools is just 20 percent of the schools in the State required to comply with the mandated program. Accordingly, several more late claims may be filed. If all eligible school districts file late or amended initial

²⁷ No assumptions are made on offsetting revenues. There are no known or reported offsetting revenues at this time.

²⁸ Exhibit X, California Department of Education, Fingertip Facts on Education in California – *CalEdFacts*, <https://www.cde.ca.gov/ds/sd/cb/ceffingertipfacts.asp> (accessed on June 30, 2020).

²⁹ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 23.

claims, the amount claimed will exceed the lower end of the Statewide Cost Estimate. Late claims for the initial period of reimbursement may be filed until June 23, 2021 but will be reduced by a 10 percent late filing penalty without limitation.³⁰

There may be several reasons why eligible school districts did not file reimbursement claims by the June 23, 2020 deadline, including but not limited to the following: (1) disruptions due to the COVID-19 pandemic prevented the district from preparing and filing a reimbursement claim by the deadline; (2) the district did not incur costs exceeding the \$1,000 minimum threshold; or (3) the district had a relatively low number of schools that meet both the Title I, Part A requirement *and* the requirement that at least 40 percent of the pupils enrolled in the school are from low-income families or relatively low costs and, thus, the district determined that it was not cost-effective to participate in the reimbursement claim process.

It is likely that there will be an unusually high number of late initial claims for this program due to the challenges in filing timely reimbursement claims during the COVID-19 pandemic, with many employees taking sick and family leave and most who are primarily teleworking without regular access to any paper documentation that may have been maintained for claiming purposes and with other, higher priority, duties to attend to.

Thus, the total amount claimed for the initial reimbursement period may increase as a result of late or amended initial claims.

- *The future annual costs for this program may increase or decrease based on the number of schools within a school district that are Title I, Part A eligible and meet the 40 percent pupil poverty threshold mandating them to comply with the reimbursable activities, the number of enrolled females, and the increase or decrease in the cost of materials and employee salaries.*

There are several factors that drive the future annual costs of this program, and dependent upon their correlation, the program costs may increase or decrease. If more students in the future become eligible for free or reduced priced meals under federal law, or are otherwise determined to meet the pupil poverty threshold, then more schools may have to comply with the mandate, resulting in increased statewide costs. As a measure of pupil poverty, schools can participate in Community Eligibility Provision (CEP) if their Identified Student Percentage (ISP) for the school, group of schools, or district is at least 40 percent.³¹ Eligibility to participate in the CEP is based on the percentage of students receiving benefits from the Supplemental Nutrition Assistance Program (formerly food stamps) or other specific means-tested programs, which is known as the ISP. Based on its streamlined application process and goal to increase access to school meals for children in low-income areas while reducing the burden associated with collecting household applications, the CEP allows these schools to offer free meals to *all*

³⁰ Government Code sections 17561(d)(3), 17568.

³¹ Exhibit X, *Characteristics of School Districts Offering Free School Meals to All Students Through the Community Eligibility Provision of the National School Lunch Program*, by Stephanie Rogus, Joanne Guthrie, Katherine Ralston, <https://www.ers.usda.gov/webdocs/publications/89948/err255-summary.pdf?v=1215.1> (accessed on August 17, 2020).

students,³² thereby potentially increasing the likelihood that more schools may be required to comply with the mandated program.³³

Future program costs also depend on the increase or decrease in female pupil enrollment in grades six through 12. According to the Department of Finance (Finance), K-12 enrollment is projected to decline by 2028-2029 as follows:

State enrollment has experienced the fifth consecutive decrease in total public K-12 enrollment in the 2018-2019 school year (-25,000 students), enrolling 6,185,200. . . Over the next ten years, if current trends in fertility and migration hold, a further decline of 425,700 in total enrollment is projected, resulting in total enrollment of 5,759,500 by 2028-29.³⁴

The Public Policy Institute of California cites to Finance which projects an enrollment decline in K-12 of seven percent between 2020-2021 and 2027-2028.³⁵ For purposes of this analysis, it is assumed that the projected enrollment decline is spread evenly across grades. Thus, a one percent yearly decline is assumed in each future year beginning fiscal year 2020-2021.

In addition, as a result of COVID-19, there were school closures during the spring of the 2019-2020 school year and through at least the fall of the 2020-2021 school year for most districts, which will likely result in a temporary reduction of costs claimed, particularly for the 2020-2021 school year. These particular temporary savings are not included in the costs estimates, but should be noted as an explanation for the likely reason that the 2020-2021 claims may be lower than even the low end of the estimate.

Statewide costs may increase if the cost of materials and supplies and labor increases. For

³³ Exhibit X, *Characteristics of School Districts Offering Free School Meals to All Students Through the Community Eligibility Provision of the National School Lunch Program*, by Stephanie Rogus, Joanne Guthrie, Katherine Ralston, <https://www.ers.usda.gov/webdocs/publications/89948/err255-summary.pdf?v=1215.1> (accessed on August 17, 2020).

³⁴ Exhibit X, *California Public K-12 Graded Enrollment and High School Graduate Projections by County — 2019 Series*, Department of Finance, http://www.dof.ca.gov/Forecasting/Demographics/Projections/Public_K-12_Graded_Enrollment/ (accessed on June 30, 2020).

³⁵ Exhibit X, *Declining Enrollment in California Schools: Fiscal Challenges and Opportunities in the Coming Decade*,” Public Policy Institute of California, February 2020 (Citing to the Department of Finance), <https://www.ppic.org/wp-content/uploads/declining-enrollment-in-california-schools-fiscal-challenges-and-opportunities-in-the-coming-decade.pdf> (accessed on October 1, 2020), page 7.

example, a google search for the cost of dispensers shows a wide variation in costs, depending on the size and brand purchased. Costs can range from what the test claimant paid (\$157 to \$170 per unit), to as high as \$508 (for the EVOGEN Sanitary Napkin/Tampon Dispenser).³⁶ The assumption is that the newer, advanced dispensers that have a modern, streamlined design, provide an Americans with Disabilities Act compliant push button dispenser, and have a front adjustable tampon channel to accommodate future product opportunities, are more expensive and will increase program costs. Moreover, employee salaries may increase or decrease in the future, thereby increasing or decreasing labor costs to comply with the mandate.

Therefore, the assumption is that future annual costs for this program may increase or decrease based on the number of schools within a school district that are Title 1, Part A eligible and meet the 40 percent pupil poverty threshold mandating them to implement the reimbursable activities, the number of enrolled females in grades six through 12, and the increase or decrease in the cost of materials and supplies and labor.

- *The total amount for this program may be lower than the Statewide Cost Estimate based on the Controller's audit findings.*

Pursuant to Government Code section 17561, the Controller may conduct audits and reduce any claim it deems to be excessive or unreasonable. Therefore, costs may be lower than the Statewide Cost Estimate based on the Controller's audit findings.

- *The future annual costs for this program may be lower than the Statewide Cost Estimate if this program is added to the K-12 Mandate Block Grant and school districts voluntarily participate in the Block Grant.*

If this mandated program is added to the K-12 Mandate Block Grant *and* a school district voluntarily participates in the block grant program, then costs cannot be claimed through the state's reimbursement process.³⁷ A school district that receives block grant funding is not eligible to submit claims to the Controller for reimbursement pursuant to Government Code section 17560 for any costs of any state mandates included in the statutes and executive orders identified in Government Code section 17581.6(c)(3).³⁸ The block grant allows school districts to receive a per pupil allocation to carry out reimbursable mandated activities. As a result, the future annual costs of this program may be lower than the Statewide Cost Estimate.

- *The estimated number of schools, statewide, required to comply with the mandate is 5,653 for fiscal year 2017-2018; 5,630 for fiscal year 2018-2019; and 5,579 for fiscal year 2019-2020.*

³⁶ Exhibit A, Test Claim, filed December 7, 2018, pages 21, 23 (Declaration of Jordan Aquino, Chief Business Officer, Desert Sands USD), and 26 (purchase order for the 2017-2018 purchase of dispensers); Exhibit X, Google search for feminine hygiene dispensers, https://www.google.com/search?q=ab+10+dispensers+for+feminine+hygiene+products&rlz=1C1CHBF_enUS891US891&source=univ&tbm=shop&tbo=u&sa=X&ved=2ahUKEwj-wOiTy-bpAhUWIDQIHdXXBwIQsxh6BAgMECs&biw=1920&bih=969 (accessed on July 1, 2020).

³⁷ Government Code section 17581.6(b).

³⁸ Government Code section 17581.6(c)(3).

The actual number of schools, statewide, that maintain any combination of classes from grade six to grade 12, inclusive, which meet both threshold requirements mandating them to implement the reimbursable activities (the school is eligible for Title I, Part A funds and at least 40 percent of the children enrolled in the school are from low-income families) is unknown.

The legislative history for the test claim statute estimated that 3,093 schools are required to comply with the mandated program.³⁹ However, the analysis does not explain how that number was estimated.

California Department of Education (CDE) publishes a list of all K-12 schools in California receiving Title 1, Part A funds, which shows that a total of 6,949 K-12 schools received Title 1, Part A funds in 2017-2018⁴⁰ and 7,068 K-12 schools received these funds in 2018-2019.⁴¹ These numbers, however, do not identify which of these schools also have at least 40 percent of the children enrolled from low-income families or what grade levels the schools maintain. The mandate applies to all schools that maintain grades six to 12 and, therefore, the mandated program applies to elementary schools that go up to grade six, middle schools, and high schools.

Thus, a better measure can be taken from CDE's Student Poverty Free and Reduced Price Meals (FRPM) reports.⁴² These reports contain the data pertaining to students who are eligible for Free or Reduced Price Meals, which is certified by local educational agencies as part of the California Longitudinal Pupil Achievement Data System (CALPADS) Fall 1 data submission.⁴³ Under federal law, local educational agencies can use several measures of poverty to determine a school's eligibility for Title 1, Part A funds, one of which is the number of students enrolled and eligible for the free or reduced price lunch program.⁴⁴ CDE's Student Poverty FRPM reports provide unduplicated data for fiscal years 2017-2018, 2018-2019, and 2019-2020, by school, with the grade levels identified, and the percentage of students enrolled on Census Day (the first Wednesday in October) eligible to receive free or reduced price meals under federal law which were filtered to exclude non-public, nonsectarian schools; preschool, kindergarten, and adult schools; schools that do not maintain grade levels six to 12, inclusive; and schools in which less than 40 percent of the students are eligible for free or reduced price meals.⁴⁵ The data was then

⁴⁴ 20 United States Code section 6313(a)(5)(A).

⁴⁵ Exhibit X, California Department of Education, 2017-18 (Filtered) Unduplicated Student

totaled and shows that 5,653 schools in fiscal year 2017-2018; 5,630 schools in fiscal year 2018-2019; and 5,579 schools in fiscal year 2019-2020 maintained grades six to 12 and had at least 40 percent of the children enrolled eligible for free or reduced price meals.⁴⁶

Therefore, based on CDE's Student Poverty FRPM reports, the estimated number of schools statewide that are required to comply with the mandated program, and may still file late or amended claims for the initial reimbursement period and a claim for 2019-2020, is estimated to be 5,653 for fiscal year 2017-2018; 5,630 for fiscal year 2018-2019; and 5,579 for fiscal year 2019-2020.

- *The estimated number of female pupils enrolled in grades six to 12 in the schools mandated to comply with the program is assumed to be 938,276 for fiscal year 2017-2018; 924,742 for fiscal year 2018-2019; and 919,084 for 2019-2020.*

The annual cost of this program has a direct correlation with the number of female pupils in grades six through 12, who are enrolled in the schools required to comply with the mandated program. The actual number of female pupils in the schools required to comply with the mandated program is unknown.

However, CDE's Student Poverty FRPM reports identify total enrollment in those schools that have students eligible for the FRPM program, and when filtered to exclude non-public nonsectarian schools; adult schools; schools that do not offer grades six to 12; and schools that have less than 40 percent of the students eligible for free and reduced price meals, the *total enrollment* in the schools required to comply with the mandated program is as follows:

In fiscal year 2017-2018, total enrollment in the schools required to comply with the mandate is 3,475,098.⁴⁷

Poverty – Free or Reduced Price Meals Data (XLSX; 2MB; Revised 25-May-2018), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020); Exhibit X, California Department of Education, 2018-19 (Filtered) Unduplicated Student Poverty – Free or Reduced Price Meals Data (XSLX; 2MB Posted 28-Mar-2019), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020); Exhibit X, California Department of Education, 2019-20 (Filtered) Unduplicated Student Poverty – Free or Reduced Price Meals Data (XSLX; 2MB; Posted 13-Apr-2020), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020)

⁴⁶ Exhibit X, California Department of Education, 2017-18 (Filtered) Unduplicated Student Poverty – Free or Reduced Price Meals Data (XLSX; 2MB; Revised 25-May-2018), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020); Exhibit X, California Department of Education, 2018-19 (Filtered) Unduplicated Student Poverty – Free or Reduced Price Meals Data (XSLX; 2MB Posted 28-Mar-2019), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020); Exhibit X, California Department of Education, 2019-20 (Filtered) Unduplicated Student Poverty – Free or Reduced Price Meals Data (XSLX; 2MB; Posted 13-Apr-2020), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020).

⁴⁷ Exhibit X, California Department of Education, 2017-2018 (Filtered) Unduplicated Student Poverty - Free and Reduced Price Meals Data (XLSX; 2MB; Revised 25-May-2018),

In fiscal year 2018-2019, total enrollment in the schools required to comply with the mandate is 3,424,969.⁴⁸

In fiscal year 2019-2020, total enrollment in the schools required to comply with the mandate is 3,404,015.⁴⁹

These reports, however, do not identify enrollment by grade level or by the number of *female* students in grades six to 12 in schools required to comply with the mandate.

Thus, to determine the estimated number of female pupils in grades six to 12 in the schools mandated to comply with the program, we calculate the percentage of total statewide enrollment comprised of female pupils in grades six to 12 in fiscal years 2017-2018, 2018-2019, and 2019-2020, and then multiply that percentage by the total enrollment in the schools required to comply with the mandate as follows:

Fiscal Year	Total Statewide Enrollment	Statewide Female Enrollment in Grades 6 to 12	Percentage of Total Statewide Enrollment Comprised of Females in Grades 6-12	Total Enrollment in Schools Required to Comply with the Mandate	Estimated Number of Female Pupils in Grades 6 to 12 in Schools Required to Comply with the Mandate (i.e. 27% of total enrollment)
2017-2018	6,220,413 ⁵⁰	1,650,276 ⁵¹	27%	3,475,098	938,276

<https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020).

⁴⁸ Exhibit X, California Department of Education, 2018-2019 (Filtered) Unduplicated Student Poverty - Free and Reduced Price Meals Data (XSLX; 2MB; Posted 28-Mar-2019), <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020).

⁴⁹ Exhibit X, California Department of Education, 2019-2020 (Filtered) Unduplicated Student Poverty - Free and Reduced Price Meals Data (XSLX; 2MB; Posted 13-Apr-2020) <https://www.cde.ca.gov/ds/sd/sd/filessp.asp> (accessed on July 2, 2020).

⁵⁰ Exhibit X, California Department of Education, DataQuest, 2017-2018 Statewide Enrollment by Grade (with county data), <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdLevels.aspx?cds=00&aggllevel=state&year=2017-18> (accessed on July 2, 2020).

⁵¹ Exhibit X, California Department of Education, DataQuest, Female Statewide Enrollment Multi-Year Summary by Grade, <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdYears.aspx?cds=00&aggllevel=state&year=2019-20> (accessed on July 2, 2020).

Fiscal Year	Total Statewide Enrollment	Statewide Female Enrollment in Grades 6 to 12	Percentage of Total Statewide Enrollment Comprised of Females in Grades 6-12	Total Enrollment in Schools Required to Comply with the Mandate	Estimated Number of Female Pupils in Grades 6 to 12 in Schools Required to Comply with the Mandate (i.e. 27% of total enrollment)
2018-2019	6,186,278 ⁵²	1,647,704 ⁵³	27%	3,424,969	924,742
2019-2020	6,163,001 ⁵⁴	1,646,066 ⁵⁵	27%	3,404,015	919,084

Thus, the estimated number of female pupils in grades 6 through 12 in the schools mandated to comply with the program is assumed to be 938,276 for fiscal year 2017-2018; 924,742 for fiscal year 2018-2019; and 919,084 for 2019-2020, and these estimates are used throughout this Statewide Cost Estimate.

- *The estimated cost of feminine hygiene products could increase if each pupil enrolled in grades six to 12 uses three products per day for five days a week for each month of the school year, or 138 products per pupil per year, assuming each product costs \$.11 per pupil.*

The actual number of products needed per year and the annual cost of tampons and sanitary napkins per pupil is unknown. However, based on the following information, it is estimated that each female pupil in grades six through 12 could use 138 products per school year.

Education Code section 46100 provides that the “governing board of each school district shall, subject to the provisions of this chapter, fix the length of the school day for the several grades

⁵² Exhibit X, California Department of Education, DataQuest, 2018-2019 Statewide Enrollment by Grade (with county data), <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdLevels.aspx?cds=00&aggllevel=state&year=2018-19> (accessed on July 2, 2020).

⁵³ Exhibit X, California Department of Education, DataQuest, Female Statewide Enrollment Multi-Year Summary by Grade, <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdYears.aspx?cds=00&aggllevel=state&year=2019-20> (accessed on July 2, 2020).

⁵⁴ Exhibit X, California Department of Education, DataQuest, 2019-2020 Statewide Enrollment by Grade (with county data), <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdLevels.aspx?cds=00&aggllevel=state&year=2019-20> (accessed on July 2, 2020).

⁵⁵ Exhibit X, California Department of Education, DataQuest, Female Statewide Enrollment Multi-Year Summary by Grade, <https://dq.cde.ca.gov/dataquest/dqcensus/EnrGrdYears.aspx?cds=00&aggllevel=state&year=2019-20> (accessed on July 2, 2020).

and classes of the schools maintained by the district.” However, as a condition of apportionment, each school shall offer 180 school days per year and is required to maintain the following minimum number of instructional minutes in a school year: 54,000 minutes for grades four to eight, and 64,800 minutes for grades nine through 12.⁵⁶ However, recess, lunch, and other breaks are not included as instructional time and are assumed to account for an average of an additional hour per day. With these numbers, it is estimated that the average school day for grades six through eight is six hours⁵⁷ and the average school day for grades nine through 12 is seven hours.⁵⁸ However, with after-school activities, especially in middle school and high school, the hours when pupils are on campus and the restrooms remain open may be longer than six or seven hours per day.

According to the Food and Drug Administration (FDA) and Planned Parenthood, tampons should be changed every four to eight hours, or as often as needed to prevent toxic shock syndrome.⁵⁹ Sanitary pads should be changed at least every three or four hours.⁶⁰ Therefore, assuming a six to seven hour school day, it is estimated that a sufficient amount of product used by female students in grades six through 12 could be three products for each day for five days each month during a school year.⁶¹

Generally, California schools have set their academic calendars to begin sometime in August and conclude sometime in June. Thus, it is estimated that each female pupil in grades six through 12 could need approximately 138 products per full school year in fiscal years 2018-2019 and 2019-2020 (three products per day for five days equal 15 products per month, multiplied by 9.2 months, totals 138), and half that amount, or 69 products per pupil is estimated, for fiscal year 2017-2018, since the program was effective beginning January 1, 2018.

The total cost of feminine hygiene products can vary depending on the vendor and the product

⁵⁶ Education Code section 46200 et seq., 46207.

⁵⁷ 54,000 minutes divided by 60 minutes equals 900 hours per year; 180 minimum days per year divided by 900 hours per year equals five hours per day for grades six through eight.

⁵⁸ 64,800 minutes divided by 60 minutes equals 1080 hours per year; 1,080 hours divided by 180 minimum days per year equals six hours per day, plus one hour for lunch, recess and other breaks equal seven hours per day for grades nine through 12.

⁵⁹ Exhibit X, *The Facts on Tampons – and How to Use Them Safely*, Federal Food and Drug Administration, <https://www.fda.gov/consumers/consumer-updates/facts-tampons-and-how-use-them-safely> (accessed on June 29, 2020); *How do I use tampons, pads, period underwear, and menstrual cups?*, Planned Parenthood, <https://www.plannedparenthood.org/learn/health-and-wellness/menstruation/how-do-i-use-tampons-pads-and-menstrual-cups> (accessed on July 1, 2020).

⁶⁰ Exhibit X, *Kids Health, Pads and Tampons*, Nemours, <https://kidshealth.org/en/kids/pads-tampons.html#:~:text=You%20might%20wonder%20how%20often,may%20get%20saturated%20more%20quickly> (accessed on June 29, 2020).

⁶¹ Exhibit X, *Kids Health, All About Periods*, Nemours, “Periods usually last about 5 days. But a period can be shorter or last longer.” <https://kidshealth.org/en/teens/menstruation.html> (accessed on June 30, 2020.)

purchased. However, the purchase orders provided in the Test Claim show that sanitary pads were purchased in a box of 250 pads at \$24.62 per box, which makes each pad roughly \$0.10 per pad; tampons were purchased in a box of 500 at \$52.50 per box, which makes each tampon roughly \$0.11 per tampon.⁶² Two of the reimbursement claims filed with the Controller's Office include invoices that are consistent with these estimates. For example, ABC Unified School District attached an invoice to its fiscal year 2017-2018 reimbursement claim showing a purchase of 1,000 tampons at \$103, or \$.10 per tampon.⁶³ An invoice attached to the claim filed by Anaheim Union High School District shows the purchase of 250 sanitary pads at \$27.51, or \$.11 per pad.⁶⁴

At \$0.11 per product, the cost of tampons and sanitary napkins for each pupil in fiscal year 2017-2018 can reach \$7.59 (if each pupil uses an estimated 69 products from January 1, 2018, to June 30, 2018 multiplied by \$0.11 equal \$7.59), and \$15.18 per pupil for a full fiscal year beginning in fiscal year 2018-2019 (if each pupil uses an estimated 138 products per year multiplied by \$0.11 equals \$15.18). This amount does not account for the labor costs to purchase and stock the product.

Thus, if all female pupils in grades six to 12 in the schools required to comply with the mandate use 69 products in fiscal year 2017-2018, and use 138 products in a full fiscal year beginning 2018-2019, total statewide costs of the feminine hygiene products could increase as follows:

FY 2017-2018 - $\$7.59 \times 938,276$ estimated statewide enrollment of female pupils in grades six to 12 in schools required to comply with the mandate = \$7,121,515

FY 2018-2019 - $\$15.18 \times 924,742$ estimated statewide enrollment of female pupils in grades six to 12 in schools required to comply with the mandate = \$14,037,584

FY 2019-2020 - $\$15.18 \times 919,084$ estimated statewide enrollment of female pupils in grades six to 12 in schools required to comply with the mandate = \$13,951,695

However, as discussed below, the actual costs claimed for feminine hygiene products in the initial claims is far lower than these estimates, although the documentation does support the estimated cost per product. There are several reasons why this might be the case including but not limited to the possibility that the schools have not been actually providing a *sufficient* number of feminine hygiene products *at all times*, many of the female pupils may have and prefer to use their own feminine hygiene products based on brand preference, or other reasons, and so fewer of the products being provided by the schools are actually being used, or, pupils may be using fewer feminine hygiene products than the number recommended by the FDA and Planned Parenthood.

- *Although a sufficient number of suitable dispensers to comply with the mandate is unknown, and will vary by school district, it is assumed that the dispensers purchased*

⁶² Exhibit A, Test Claim, filed December 7, 2018, page 25.

⁶³ Exhibit X, Purchase Order, ABC Unified School District, 2017-2018 Reimbursement Claim.

⁶⁴ Exhibit X, Purchase Order, Anaheim Union High School District, 2017-2018 Reimbursement Claim.

and retrofitted during the initial period of reimbursement was determined to be the number necessary and sufficient to comply with the mandate.

A sufficient number of dispensers to comply with the mandate is unknown. The Parameters and Guidelines state that “[t]he sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school’s total enrollment of female pupils in grades 6 to 12 in the claim year.”⁶⁵ The Test Claim Decision found that a “restroom” is commonly understood as “a room or suite of rooms in a public space provided with lavatory, toilet, and other facilities . . .”⁶⁶ Accordingly, no matter how many lavatories or toilets are in a room or suite of rooms, the mandate is to stock with feminine hygiene products in 50 percent of the rooms provided for that purpose at a school site. If a school has two sets of restrooms, one for men or boys and one for women or girls, it would be required to stock one restroom with tampons and sanitary napkins – and that would be the one for women or girls consistent with the spirit of the law. Likewise, if the school had 10 restrooms, five for men or boys and five for women or girls, it would be required to stock five restrooms. In addition, CDE recommends that separate toilets be provided for staff for safety and liability reasons.⁶⁷

Based on the requirement “to stock 50 percent of the restrooms with feminine hygiene products at all times,”⁶⁸ there are enough dispensers in 50 percent of the restrooms if they can hold a sufficient number of products to make feminine hygiene products available at all times. Dispensers generally hold between 12 and 15 sanitary napkins or pads, and 19 and 22 tampons.⁶⁹ A school may choose to place multiple dispensers in each restroom required to be stocked, if it determines that multiple dispensers are necessary for the school to comply with the mandate to stock the feminine hygiene products at all times. If restrooms are stocked multiple times a day, fewer dispensers per restroom would be required. However, if they are only stocked one or two times per day, more dispensers might be necessary, especially in multi-stall restrooms in larger schools.

The reimbursement claims and the Controller’s Summary of Claims identify the number of schools required to comply with the mandate, the number of restrooms in each school required to

⁶⁵ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 26.

⁶⁶ Exhibit B, Test Claim Decision, adopted May 24, 2019, page 13.

⁶⁷ Exhibit X, California Department of Education, K-12 Toilet Requirement Summary – School Facility Design, <https://www.cde.ca.gov/ls/fa/sf/toiletrequire.asp#:~:text=California%20Code%20of%20Regulations%2C%20Title,or%20in%20the%20kindergarten%20complex.&text=CDE%20recommends%20that%20the%20location,the%20campus%20to%20ensure%20access> (accessed January 23, 2020).

⁶⁸ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 25.

⁶⁹ Exhibit X, Google search for feminine hygiene dispensers, https://www.google.com/search?q=ab+10+dispensers+for+feminine+hygiene+products&rlz=1C1CHBF_enUS891US891&source=univ&tbm=shop&tbo=u&sa=X&ved=2ahUKewj-wOiTy-bpAhUWIDQIHdXXBwIQsxh6BAGMECs&biw=1920&bih=969 (accessed on July 1, 2020).

be stocked with feminine hygiene products, and the total number of dispensers purchased or retrofitted to comply with the mandate. For fiscal year 2017-2018, 923 schools were identified by the claimants as having to comply with the mandate.⁷⁰ The Controller's Summary of Claims identifies 9,494 restrooms that were required to be stocked with feminine hygiene products.⁷¹ This number of restrooms needs to be adjusted, however, because the Controller's Summary of Claims for 2017-2018 transposes numbers identified by Little Lake City School District. The Controller's Summary of Claims states that Little Lake City School District reported 750 restrooms.⁷² However, Little Lake City School District actually reported seven restrooms (for two schools required to comply with the mandate), a difference of 743 restrooms.⁷³ Deducting 743 restrooms from the total number of restrooms identified in the Controller's Summary of Claims results in 8,751 restrooms required to be stocked with feminine hygiene products in 2017-2018. In addition, a total of 8,187 dispensers were purchased and installed.⁷⁴ Thus, based on the claims data, the schools have an average of nine and a half restrooms each that are required to be stocked with feminine hygiene products (8,751 restrooms divided by 923 schools = 9.5 restrooms per school); and the claimants purchased and installed almost one dispenser per restroom to comply with the mandate (8,187 dispensers divided by 8,751 restrooms = .9 dispensers per restroom) in fiscal year 2017-2018.

Although it can be presumed that each of the restrooms required to be stocked now has at least one dispenser in place and able to comply with the mandate, the claims data does not identify how many dispensers were already in place and able to comply with the mandate without any retrofitting at all. As indicated in the Parameters and Guidelines, reimbursement to purchase and install new dispensers is required only to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate.⁷⁵

For fiscal year 2018-2019, 891 schools identified as having to comply with the mandate claimed costs to stock 7,547 restrooms with feminine hygiene products;⁷⁶ and 871 dispensers were purchased or retrofitted by these schools to comply with the mandate.⁷⁷ Most of the school

⁷⁰ Exhibit X, Excerpt, List of Schools from 2017-2018 Reimbursement Claims.

⁷¹ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 8.

⁷² Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 5.

⁷³ Exhibit X, Excerpt from Little Lake City School District's 2017-2018 Reimbursement Claim, page 2. Female enrollment in grades six to 12 was reported as 750 pupils.

⁷⁴ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 8. Although 15 dispensers were identified as having been retrofitted in fiscal year 2017-2018 by Little Lake City School District to comply with the mandate, the reimbursement claim filed by Little Lake City School District shows that the district purchased and installed 15 dispensers. (Exhibit X, Excerpt from Little Lake City School District's 2017-2018 Reimbursement Claim, page 2.)

⁷⁵ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, pages 24-25.

⁷⁶ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 12; Exhibit X, Excerpt, List of Schools from 2018-2019 Reimbursement Claims.

⁷⁷ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 12. Although

districts that filed claims for 2017-2018 also filed claims for 2018-2019, and reported roughly the same number of restrooms required to be stocked with feminine hygiene products in the second year of claiming.⁷⁸ But the number of dispensers purchased or retrofitted per restroom decreased significantly in the second year of the mandate: 89 percent fewer dispensers were claimed in 2018-2019 compared to the prior year (871 divided by 8,187 dispensers = 11%).

Accordingly, although a sufficient number of dispensers to comply with the mandate statewide is not known, and will vary by school district, it is assumed that the dispensers purchased and retrofitted during the initial period of reimbursement (8,187 in 2017-2018⁷⁹ and 871 in 2018-2019⁸⁰) was determined to be the number necessary and sufficient for the schools for which costs were claimed to comply with the mandate.

- *The future annual costs for Activity B. will likely decrease after the initial claiming period once a sufficient number of dispensers have been purchased and installed or retrofitted or repaired to comply with the mandate.*

The Commission found that “[r]eimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate, whichever is more cost effective.”⁸¹ Thus, schools will either retrofit or repair, or purchase and install new dispensers, whichever is more cost effective to comply with the mandate. Once the schools have a sufficient number of coin-free dispensers

120 dispensers were identified as having been retrofitted in fiscal year 2018-2019 to comply with the mandate, only the costs for three dispensers were specifically claimed for this activity.

⁷⁸ See Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, pages 1-3. There are some minor differences, however. For example, ABC Unified School District identified 142 restrooms required to be stocked with feminine hygiene products in 2017-2018 and 143 restrooms in 2018-2019. (Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, pages 4, 9.) Antelope Valley Union High School District identified 274 restrooms required to be stocked with feminine hygiene products in 2017-2018 and 273 restrooms in 2018-2019. (Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, pages 4, 9.) Sacramento Unified School District identified 274 restrooms required to be stocked with feminine hygiene products in 2017-2018 and 262 restrooms in 2018-2019. (Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, pages 6, 11.)

⁷⁹ Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 8. Although 15 dispensers were identified as having been retrofitted in fiscal year 2017-2018 by Little Lake City School District to comply with the mandate, the reimbursement claim filed by Little Lake City School District shows that the district purchased and installed 15 dispensers. (Exhibit X, Excerpt from Little Lake City School District’s 2017-2018 Reimbursement Claim, page 2.)

⁸⁰ Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 12. Although 120 dispensers were identified as having been retrofitted in fiscal year 2018-2019 to comply with the mandate, only the costs for three dispensers were specifically claimed for this activity.

⁸¹ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, pages 24-25.

purchased and installed or retrofitted, however, future costs will likely decrease.

The claims data shows an 89 percent decrease in the number of dispensers purchased and installed or repaired or retrofitted in the second year of the mandate. The useful life span of a metal dispenser is estimated at approximately 10 years, if considered as “machinery and equipment.”⁸² However, according to a sanitary maintenance industry magazine article, feminine hygiene “[d]ispensers typically last 20 or more years with very minimal maintenance.”⁸³ The article also indicates theft and vandalism of the dispensers may occur.⁸⁴

Thus, while dispensers will need repair or replacement if vandalized or stolen, it is expected that ongoing costs to purchase or repair dispensers will significantly decrease following the initial reimbursement period. Assuming a 10-year useful lifespan, it is assumed that ongoing annual costs for Activity B. will be approximately 10 percent of the annual costs for the initial claim period.

Estimated Costs and Cost Factors for Each Reimbursable Activity

For the purpose of estimating statewide costs incurred for this program during the initial reimbursement period and the following years, the annual cost of each reimbursable activity has been estimated based on the assumptions discussed above.

A. Activity A.: Stock 50 Percent of the School’s Restrooms with Feminine Hygiene Products (Defined only as Tampons and Sanitary Napkins) at All Times at No Cost to Pupils.

Activity A. requires schools to stock 50 percent of the school’s restrooms with feminine hygiene products (defined only as tampons and sanitary napkins) at all times at no cost to pupils.

Based on the assumptions and methodology discussed herein, the estimated statewide cost for Activity A., for the initial reimbursement period is estimated to be between \$664,260 and \$2,610,841. The cost for fiscal year 2019-2020 and following is estimated to be between \$444,784 to \$1,746,260, plus the implicit price deflator.

FY 2017-2018 and 2018-2019:

\$664,260 = (costs actually claimed for Activity A. in the unaudited claims filed for the initial reimbursement period) to \$2,610,841= (costs actually claimed for Activity A. in the unaudited claims filed for the initial reimbursement period plus all potential costs that may be claimed for this activity in late or amended claims filed by school districts with schools required to comply with the mandate).

⁸⁴ Exhibit X, *Feminine Hygiene: The Untapped Market*, Clean Link, posted June 3, 2009, <https://www.cleanlink.com/sm/article/Feminine-Hygiene-The-Untapped-Market--11000> (accessed September 29, 2020), page 3.

FY 2019-2020 and following:

\$444,784 to \$1,746,260, plus the implicit price deflator = (The low end of the range assumes costs will continue to be claimed only by those school districts that filed claims in the initial reimbursement period, adjusted by a one percent decline in enrollment. The high estimate assumes that costs will be claimed by all California school districts with schools required to comply with the mandated program).

1. *The statewide cost for Activity A. for the initial reimbursement period is estimated at \$664,260 - \$2,610,841.*

For the initial reimbursement period (one and one half fiscal years), 150 school districts claimed costs totaling \$664,260 to stock 50 percent of the schools' restrooms with feminine hygiene products (\$207,989 for 2017-2018 and \$456,271 for 2018-2019).⁸⁵

As discussed above, it is assumed that in fiscal year 2017-2018 (with the mandate beginning January 1, 2018) a sufficient amount of tampons and sanitary napkins necessary to comply with the mandate is 69 products per female pupil in grades six to 12, and 138 products per female pupil in grades six to 12 in fiscal year 2018-2019. The Parameters and Guidelines and the Controller's claiming instructions requested the claimants to identify the total enrollment of female pupils in grades six to 12 in each school subject to the mandate and the total amount of feminine hygiene products purchased for each claim year. However, not all school districts that claimed costs for Activity A. identified these factors, and many claims only identified the total cost of the feminine hygiene products but not the amount purchased. Thus, the actual number of products used by female pupils during the initial reimbursement period cannot be calculated based on the claims data.

Since the claims data does not indicate how many products were purchased or used per pupil during the initial reimbursement period, and the costs of the product may vary, a better estimate of statewide costs can be determined by using the average cost claimed per pupil enrolled in grades six to 12 in the schools that claimed costs for Activity A. (which includes material and labor costs).

For fiscal year 2017-2018, the Controller's Summary of Claims states that \$207,989 was claimed for Activity A. by 84 school districts with 249,980 female pupils in grades six to 12.⁸⁶ However, to determine a per pupil amount, these numbers need to be adjusted. First, the \$2,725 in costs claimed for Activity A. by Merced City School District, are deducted from the total costs claimed for Activity A. because this school district did not report female enrollment.⁸⁷ This leaves the total costs claimed for Activity A. in fiscal year 2017-2018 at \$205,264.

In addition, the following school districts claimed no costs for Activity A. in fiscal year 2017-2018: Anaheim Union High School District (with 10,244 female pupils in grades six through

⁸⁵ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 8, 12.

⁸⁶ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 8.

⁸⁷ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 6. Please note that the Controller's Summary of Claims identifies this district as "Merced Elementary School District," but the reimbursement claim identifies the district as "Merced City School District." This analysis uses "Merced City School District," since that is the name of the district.

12), Center Joint Unified School District (with 1,153 female pupils in grades six through 12), Ceres Unified School District (with 3,078 female pupils in grades six through 12), Coachella Valley Unified School District (with 762 female pupils in grades six through 12), Cucamonga Unified School District (with 374 female pupils in grades six through 12), Oroville City Elementary School District (with 351 female pupils in grades six through 12), and West Contra Costa Unified School District (with 2,327 female pupils in grades six through 12).⁸⁸ Thus, the population of female pupils in grades six through 12 reported by these districts (18,289) is excluded from the population count identified in the Controller's Summary of Claims.

Finally, the Controller's Summary of Claims for 2017-2018 transposes numbers identified and claimed by Little Lake City School District. The Controller reports that Little Lake City had 7,403 female pupils enrolled in grades six through 12, had 750 total restrooms, and claimed costs for Activity A. totaling \$728.⁸⁹ However, a review of the fiscal year 2017-2018 reimbursement claim filed by Little Lake City shows that 7,403 was the total dollar amount claimed for that year; and that total female enrollment in grades six through 12 was 750.⁹⁰ Thus, to account for Little Lake City, female pupils enrolled in grades six through 12 in fiscal year 2017-2018 was adjusted by 6,653 pupils (7,403 shown in Controller's Summary of Claims, less 750 actual enrollment = 6,653). With these adjustments, the female enrollment in grades six through 12 in the school districts that claimed costs for Activity A. totals 225,038 (249,980 minus 18,289 = 231,691, minus 6,653 enrollment adjustment for Little Lake City = 225,038).

Thus, for fiscal year 2017-2018, per pupil costs for Activity A. amounts to \$.91 as follows: \$205,264 (total costs claimed, except for Merced City School District) divided by 225,038 females enrolled in grades six through 12 in the districts that claimed costs = \$.91 per pupil enrolled in grades six to 12 in the school districts that claimed costs for Activity A.

At \$.91 per pupil, total statewide costs could be as high as \$853,831 in fiscal year 2017-2018 if all school districts in California with schools required to comply with the mandate claim costs for Activity A. (\$.91 multiplied by 938,276 total estimated female pupils enrolled in grades six through 12 in schools required to comply with the mandate = \$853,831).

Therefore, for fiscal year 2017-2018, statewide costs for Activity A. to stock 50 percent of the school's restrooms with feminine hygiene products at all times at no cost to pupils, ranges from \$207,989 (costs claimed to date) to \$853,831.

Similarly, for fiscal year 2018-2019, \$456,271 was claimed for Activity A. by 67 school districts. The Controller's summary report specifies the total enrollment of female pupils in grades six to 12, as identified in the claims data for fiscal year 2018-2019, to be 243,807.⁹¹ However, to determine an average cost per pupil for Activity A., the data for school districts that did not report female enrollment in grades six-12 and data for schools that did not claim costs for Activity A. are also excluded. Merced City School District is excluded since it did not report

⁸⁸ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 4-8.

⁸⁹ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 5.

⁹⁰ Exhibit X, Excerpt from Little Lake City School District's 2017-2018 Reimbursement Claim, page 2.

⁹¹ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 12.

female enrollment and therefore the costs for the 66 school districts who did claim for Activity A. is reduced by the \$7,704 costs claimed by Merced City (\$456,271 - \$7,704 = \$448,567).⁹² In addition, the data for the following districts that did not claim costs for Activity A. for fiscal year 2018-2019 are excluded from this calculation: Jurupa Unified School District (4,821 female pupils in grades six through 12); Santa Cruz (988 female pupils in grades six through 12); and Westside Union Elementary School District (1,536 female pupils in grades six through 12).⁹³ With these adjustments, the female enrollment in grades six through 12 in the school districts that claimed costs for Activity A. in fiscal year 2018-2019 totals 236,462 (243,807 - 7,345 = 236,462).

Thus, for fiscal year 2018-2019, per pupil cost for Activity A. amounts to \$1.90 as follows: \$448,567 (total costs claimed by the 66 districts that included the number of female pupils in grades six through 12) divided by 236,462 females enrolled in grades six through 12 in the districts that claimed costs= \$1.90 per pupil. It is noteworthy that this represents the estimated cost for less than 18 products per female pupil in grades six through 12 per year (at 11 cents per product, and not accounting for any labor costs), which is far fewer than the estimated 138 products per year that a pupil is estimated to need during school hours over the course of a fiscal year according to FDA and Planned Parenthood recommendations.

At \$1.90 per female pupil in grades six through 12, total statewide costs could be as high as \$1,757,010 for fiscal year 2018-2019 if all school districts in California with schools required to comply with the mandate claim costs for Activity A. (\$1.90 multiplied by 924,742 total estimated female pupils enrolled in grades six through 12 in schools required to comply with the mandate = \$1,757,010).

Therefore, for fiscal year 2018-2019, statewide costs for Activity A. to stock 50 percent of the school's restrooms with feminine hygiene products at all times at no cost to pupils, ranges from \$456,271 (costs claimed to date) to \$1,757,010.

2. *The estimated future annual cost for Activity A. is \$444,784 to \$1,746,260, plus the implicit price deflator beginning fiscal year 2019-2020, and is expected to decrease slightly based on a projected one percent annual decline in enrollment from 2020-2021 through 2027-2028.*

As indicated above, a total of 115 school districts filed reimbursement claims with the State Controller's Office during the initial reimbursement period (97 for 2017-2018 and 72 for 2018-2019), and have identified costs incurred by a total of 1,140 schools within their districts, representing just 20 percent of the schools in the State estimated to be required to comply with this program. In addition, not all of the 115 school districts requested reimbursement for Activity A. for both 2017-2018 and 2018-2019; 84 districts claimed costs for Activity A. for fiscal year 2017-2018, and 67 school districts claimed costs for Activity A. for fiscal year 2018-2019. However, the enrollment of female pupils in grades six to 12 in the school districts that

⁹² Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 10. Please note that the Controller's Summary of Claims identifies this district as "Merced Elementary School District," but the reimbursement claim identifies the district as "Merced City School District." This analysis uses "Merced City School District," since this is the name of the district.

⁹³ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 10-12.

filed reimbursement claims for Activity A. for fiscal year 2018-2019 and the cost of Activity A. per pupil for fiscal year 2018-2019 are higher than the enrollment and cost per pupil in fiscal year 2017-2018, primarily because the mandate was only in effect for the last half of fiscal year in 2017-2018. It is assumed that reimbursement claims for Activity A. will continue to be claimed in the future similarly to those claimed in fiscal year 2018-2019, except that female enrollment in those school districts is projected to decrease by one percent in fiscal year 2019-2020 (assuming a 1% decline of enrollment per year, based on Finance's projection that enrollment will decline by 7% between 2020-2021 and 2027-2028). Therefore, assuming that only the districts that filed claims during the initial claiming period continue to file claims, that the cost of Activity A. per pupil remains \$1.90, and that female enrollment in grades six to 12 in the school districts that continue to file claims in fiscal year 2019-2020 is 234,097 (236,462 - 2,365 = 234,097), then future costs for Activity A. are estimated at \$444,784, plus the implicit price deflator and will decrease with a one percent reduction in enrollment each year beginning 2020-2021.

However, if all school districts with schools required to comply with the mandate file reimbursement claims for Activity A. for fiscal year 2019-2020, then costs could increase to \$1,746,260, plus the implicit price deflator. As indicated above, the estimated number of female pupils in grades six through 12 in all California schools mandated to comply with the program is 919,084 for 2019-2020. If the cost per pupil to stock 50 percent of the schools' restrooms with feminine hygiene products remains at \$1.90 per pupil, then the estimated costs, beginning in fiscal year 2019-2020, is \$1,746,260, plus the implicit price deflator.

Accordingly, the estimated future annual costs beginning fiscal year 2019-2020 for Activity A. is \$444,784 to \$1,746,260, plus the implicit price deflator.

B. Activity B.: Purchase and Install (or Retrofit or Repair) a Sufficient Number of Suitable Dispensers for Feminine Hygiene Products (Defined only as Tampons and Sanitary Napkins) in 50 Percent of the School's Restrooms.

Activity B. provides ongoing reimbursement to purchase and install (or retrofit or repair) a sufficient number of suitable dispensers for feminine hygiene products (defined only as tampons and sanitary napkins) in 50 percent of the school's restrooms. The Parameters and Guidelines further state the following:

The sufficient number of dispensers necessary to stock 50 percent of the restrooms with feminine hygiene products at all times and at no cost to the pupils may be determined based on the total number of restrooms and the school's total enrollment of female pupils in grades 6 to 12 in the claim year.

Reimbursement to purchase and install new dispensers is required to the extent that a school is not already equipped with a sufficient number of dispensers in their restrooms to comply with the mandate, or cannot repair or retrofit a sufficient number of existing dispensers to comply with the mandate, whichever is more cost effective.⁹⁴

Total costs claimed in the initial claim years to purchase and install and repair and retrofit

⁹⁴ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 26.

dispensers is \$827,260 (\$826,309 to purchase and install 8,938 dispensers, and \$951 to retrofit three dispensers).

As recognized in the Parameters and Guidelines Decision, some schools may already be equipped with a sufficient number of suitable dispensers in their restrooms to comply with the mandate and, thus, would not need to incur increased costs to purchase new dispensers.⁹⁵ In addition, based on information publicly available, some schools may have existing dispensers, including coin dispensers, that can be repaired or modified to provide the feminine hygiene products at no cost to the pupils and at a fraction of the cost to purchase new dispensers.⁹⁶ Under these circumstances, it would only be necessary to repair or retrofit the dispensers to comply with the mandate, and would not be necessary to incur increased costs to buy all new dispensers.⁹⁷ The Parameters and Guidelines only allow reimbursement to purchase and install new dispensers if it is more cost effective than to retrofit or repair.⁹⁸

It is assumed that the dispensers purchased and installed or retrofitted in the initial claim years was determined by the claimants to be the necessary number of dispensers sufficient to comply with the mandate to stock the product at all times at no cost to the pupils. It is further assumed that the annual cost to purchase and install, or retrofit and repair dispensers will decrease in future years to ten percent of the annual costs for the first year of the mandate 2017-2018.

Based on the assumptions and methodology discussed herein, the total cost for Activity B., for the initial reimbursement period is estimated to be between \$827,260 and \$3,182,154. The cost for fiscal year 2019-2020 and following is estimated to be between \$82,726 and \$340,061, plus the implicit price deflator.

FY 2017-2018 and 2018-2019:

\$827,260 = (Costs actually claimed for Activity B. in the unaudited timely filed claims for the initial reimbursement period) to \$3,182,154 = (Costs actually claimed for Activity B. in the unaudited timely filed claims for the initial reimbursement period plus all potential costs that may be claimed for this activity in late or amended claims filed by school districts with schools required to comply with the mandate).

FY 2019-2020 and following:

\$82,726 = (Assumes that only those districts that have already filed reimbursement claims will continue to claim 10% of the costs claimed for Activity B. for the initial claim period for fiscal year 2019-2020 and following) to \$340,061, plus the implicit price deflator = (Assumes that all school districts with schools required to comply with the mandate will claim 10% of the average cost of dispensers per pupil in the initial claiming period for fiscal year 2019-2020 and following).

⁹⁵ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 18.

⁹⁶ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 18.

⁹⁷ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 19.

⁹⁸ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 26.

1. *The statewide costs for Activity B. (purchase and install [or retrofit or repair] dispensers) for the initial reimbursement period, fiscal years 2017-2018 and 2018-2019, is estimated to be between \$827,260 and \$3,182,154.*

For the initial claiming period, there were 125 claims submitted by 106 school districts for labor and material costs for 986 schools to comply with Activity B.1. to purchase and install dispensers totaling \$826,309 (\$683,908 for 2017-2018 and \$142,401 for 2018-2019).⁹⁹ The Controller's Summary of Claims shows that the costs of 8,187 dispensers were claimed for fiscal year 2017-2018, and 751 dispensers were claimed for fiscal year 2018-2019, representing a decrease of 92 percent in the number of dispensers claimed for the second year of the mandate.¹⁰⁰

Also, for the initial claiming period, seven school districts indicated that they repaired or retrofitted a total of 120 dispensers, all in 2018-2019.¹⁰¹ However, only one district, Santa Maria Joint Union High School District, properly claimed costs under activity B.2. to repair or retrofit three dispensers for a total of \$951 and all of the other district's costs were either not claimed, were claimed under another activity (such as under B.1.) or were not segregated by activity, as required.¹⁰² Additionally, with respect to retrofitted dispensers, the Controller's Summary of Claims indicates that Santa Maria Joint Union High School District repaired three dispensers, and Santa Maria's claim form states that three dispensers were repaired.¹⁰³ The invoice attached to the claim form shows that 15 hours of labor were claimed for "Stainless Steel Dispensers Labor and additional welding" at a rate of \$58.50 per hour for a total of \$877.50, and three "3/16 x 1 304 SS Strip [stainless steel strips]" were claimed at \$22.53 each for a total of \$67.59, for

⁹⁹ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 8, 12. A total of only 106 school districts claimed costs for Activity B.1. in the initial claiming period: 88 for fiscal year 2017-2018 and 37 for fiscal year 2018-2019.

¹⁰⁰ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 8, 12. Note that although the Controller's Summary of Claims Reported as of June 30, 2020 indicates that Little Lake City School District repaired or retrofitted 15 dispensers in fiscal year 2017-2018, Little Lake City's reimbursement claim indicates that those new Evogen dispensers were purchased and installed and not retrofitted and the costs were claimed under B.1., not B.2. (Excerpt from Little Lake City School District's 2017-2018 Reimbursement Claim, page 2.)

¹⁰¹ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 9-11 (The following districts indicated they repaired or retrofitted dispensers: Beaumont, Ceres, Riverdale, Santa Maria Joint Union High School District, Visalia, Vista, and Westside). Note that although the Controller's Summary of Claims Reported as of June 30, 2020 indicates that Little Lake City School District repaired or retrofitted 15 dispensers in fiscal year 2017-2018, Little Lake City's reimbursement claim indicates that those new Evogen dispensers were purchased and installed and not retrofitted and the costs were claimed under B.1., not B.2.

¹⁰² Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 11.

¹⁰³ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 11; Exhibit X, Excerpt from Santa Maria Joint Union High School District's 2018-2019 Reimbursement Claim, page 1.

grand total of \$950.50; the amount claimed by Santa Maria under Activity B.2.¹⁰⁴ And, as mentioned, none of the other six districts that, together with Santa Maria, indicated they retrofitted or repaired a total of 120 dispensers, correctly claimed costs for that activity under Activity B.2. Thus, we are limited to only Santa Maria's average cost of \$316.83 per unit to retrofit dispensers for purposes of this analysis. Unfortunately, due to a lack of data, it is unclear whether Santa Maria's costs are actually typical. And additionally, since they are the costs to retrofit rather than repair, it is unclear to what extent these costs would be reflective of future costs for repairs on existing dispensers which do not need to be retrofitted.

With \$827,260 in total costs claimed for the initial period of reimbursement to purchase and install (or retrofit or repair) a total of 9,058 dispensers (8,938 purchased and installed and 120 retrofitted or repaired), the average labor and material cost per dispenser during the initial claim period is \$91.33. This is less than expected since the test claimant's costs were \$157 to \$170 per unit, and regular retail prices for such dispensers range from as low as \$187.82 to \$800 or more.¹⁰⁵ Perhaps vendor discounts were provided and perhaps some of the costs to retrofit or repair (which may have been lower than costs incurred by Santa Maria) were inadvertently claimed under Activity B.1. instead of Activity B.2.

Overall, however, a total of 112 school districts identified 9,058 dispensers which were either purchased and installed or retrofitted or repaired during the initial claiming period.¹⁰⁶ And, because of the claiming issues and the uncertainty regarding whether it will be most cost effective to repair or to purchase and install dispensers as they become damaged, this analysis combines the costs for Activity B.1. and Activity B.2. for purposes of calculating the average cost per pupil for Activity B. to use for estimating the potential costs for late and amended initial claims and future costs.

As indicated above, it is estimated that 5,653 schools in fiscal year 2017-2018 and 5,630 schools in fiscal year 2018-2019 are required to comply with the mandate, and may still file late claims. The Parameters and Guidelines and claiming instructions require school districts to report the total number of restrooms in the schools required to comply with the mandate, and the number of dispensers purchased or retrofitted or repaired. Although there is no information about how many dispensers the schools already had and were able to use for this mandate, the number of dispensers repaired, retrofitted or purchased and installed provides some indication of how many dispensers the schools determined were sufficient to comply with the mandate and what the cost for those dispensers was.

¹⁰⁴ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 11; Exhibit X, Excerpt from Santa Maria Joint Union High School District's 2018-2019 Reimbursement Claim, page 1.

¹⁰⁵ Exhibit A, Test Claim, filed December 7, 2018, pages 21, 23 (Declaration of Jordan Aquino, Chief Business Officer, Desert Sands USD), and 26 (purchase order for the 2017-2018 purchase of dispensers); Exhibit X, Google search for feminine hygiene dispensers, https://www.google.com/search?q=ab+10+dispensers+for+feminine+hygiene+products&rlz=1C1CHBF_enUS891US891&source=univ&tbn=shop&tbo=u&sa=X&ved=2ahUKEwj-wOiTy-bpAhUWIDQIHdXXBwIQsxh6BAgMECs&biw=1920&bih=969 (accessed on July 1, 2020).

¹⁰⁶ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, pages 4-12.

To estimate statewide costs for Activity B., the average cost claimed for Activity B. per female pupil enrolled in grades six through 12 in the school districts that filed reimbursement claims was multiplied by the estimated number of female pupils in grades six through 12 in schools statewide that are required to comply with the mandate. Thus, for fiscal year 2017-2018, the Controller's Summary of Claims shows that \$683,908 was claimed for Activity B. for 8,187 dispensers.¹⁰⁷ For fiscal year 2017-2018, the total enrollment of female pupils in grades six to 12 in the districts that filed reimbursement claims was 243,327.¹⁰⁸ With costs totaling \$683,908 claimed for Activity B. for fiscal year 2017-2018, a per pupil amount to purchase and install dispensers totals \$2.81 (\$683,908 divided by 243,327 = \$2.81).

At \$2.81 per pupil, total statewide costs could be as high as \$2,636,556 for fiscal year 2017-2018 if all school districts with schools required to comply with the mandate claim costs for Activity B. (\$2.81 multiplied by 938,276, total estimated female pupils enrolled in grades six through 12 in schools required to comply with the mandate in fiscal year 2017-2018). Therefore, for fiscal year 2017-2018, statewide costs for Activity B. range from \$683,908 to \$2,636,556.

Similarly, for fiscal year 2018-2019, the Controller's Summary of Claims shows that \$143,352 was claimed for Activity B. for 871 dispensers, and that the total enrollment of female pupils in grades six to 12 in the districts that filed reimbursement claims was 243,807. With \$143,352 claimed for Activity B. for fiscal year 2018-2019, a per pupil amount to purchase and install or repair or retrofit dispensers totals \$.59 (\$143,352 divided by 243,807 = \$.59).

At \$.59 per pupil, total statewide costs could be as high as \$545,598 for fiscal year 2018-2019 if all school districts in California with schools required to comply with the mandate claim costs for Activity B. (\$.59 multiplied by 924,742, total estimated female pupils enrolled in grades six through 12 in schools required to comply with the mandate in fiscal year 2018-2019.) Therefore, for fiscal year 2018-2019, statewide cost for Activity B. is estimated to be between \$143,352 to \$545,598.

Accordingly, the statewide cost for Activity B. for the initial reimbursement period, fiscal years 2017-2018 and 2018-2019, is estimated to be between \$827,260 to \$3,182,154.

2. *The estimated future annual costs beginning fiscal year 2019-2020 for Activity B. to maintain a sufficient number of dispensers to comply with the mandate, is estimated to be between \$82,726 and \$340,061, plus the implicit price deflator.*

As indicated in the assumptions above, it is expected that the costs for Activity B. (to purchase and install, or retrofit and repair a sufficient number of dispensers) will decrease significantly after the initial reimbursement period. The useful life span of a metal dispenser is estimated at 10 years and can last significantly longer, thus, the ongoing costs will be limited to minimal

¹⁰⁷ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 8.

¹⁰⁸ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 6. Note that the Summary of Claims shows the enrollment of female pupils in grades six to 12 at 249,980 due to a transposing of the numbers for Little Lake City School District to indicate that there were 7,403 female pupils enrolled in grades six through 12, 750 restrooms required to be stocked, and costs for Activity A. of \$728, when actually it should say that there are 750 female pupils enrolled in grades six through 12, 728 restrooms, and cost of \$7,403 claimed for Activity A.

repairs or the occasional replacement if that is more cost effective.¹⁰⁹

Given the estimated long life of a metal dispenser, and that school districts purchased and installed or retrofitted and repaired a sufficient number of dispensers to comply with the mandate in the initial years of the mandate, it is expected that costs claimed for Activity B. in future fiscal years to maintain a sufficient number of dispensers to comply with the mandate beginning in fiscal year 2019-2020 will decrease to ten percent of the total costs claimed for Activity B. in the initial claim years. Thus, assuming that ten percent of the costs will be claimed in the future, that reimbursement claims for Activity B. will continue to be claimed by the same school districts that filed reimbursement claims for the initial claims years, and that the costs to purchase and install or retrofit or repair dispensers remains the same as the initial claim years, then future costs are estimated at \$82,726, plus the implicit price deflator (total costs of \$827,260 x 10% = \$82,726). The decrease in the number of dispensers claimed for under B. in the second claim year is consistent with and supports the assumption that once a sufficient number of dispensers have been retrofitted, repaired or purchased and installed, the on-going cost per pupil for repair or replacement will constitute approximately 10 percent of the cost per pupil to initially retrofit, repair, or purchase and install a sufficient number of dispensers.

However, if all school districts with schools required to comply with the mandate file reimbursement claims for Activity B. in fiscal year 2019-2020, then costs could increase to \$340,061, plus the implicit price deflator. As indicated above, the estimated number of female pupils in grades six through 12 in all schools mandated to comply with the program is estimated at 919,084 for 2019-2020. If the average cost claimed to purchase and install or retrofit and repair dispensers in the initial claiming period remains at \$91.33 per dispenser (\$827,260 total costs claimed for Activity B. divided by 9,058 dispensers purchased and installed or retrofitted and repaired); and that .04 dispensers per pupil is sufficient to comply with the mandate as determined by the school districts that claimed costs (9,058 total dispensers purchased and installed or retrofitted or repaired, divided by 243,807 female pupils enrolled in grades six to 12 in fiscal year 2018-2019 in the school districts that filed reimbursement claims)¹¹⁰; then the cost per pupil for a sufficient number of dispensers to comply with the mandate in the initial claiming period is \$3.65 (\$91.33 x .04). Assuming that future costs to maintain a sufficient number of dispensers to comply with the mandate is ten percent of the cost per pupil in the initial claiming period, the cost would be .37 cents per pupil (\$3.65 x .10). With 919,084 female pupils in grades six to 12 in all schools mandated to comply with the program in fiscal year 2019-2020, the high end of the cost range is estimated at \$340,061 to purchase and install, or retrofit or repair a sufficient number of dispensers to comply with the mandate in 2019-2020 and future years.

Accordingly, the statewide cost estimate for Activity B. for the fiscal years 2019-2020 and following, is estimated to be between \$82,726 and \$340,061.

¹¹⁰ Exhibit E, Controller's Summary of Claims Reported as of June 30, 2020, page 12.

C. Indirect Costs

The Parameters and Guidelines authorize claimants to claim reimbursement for indirect costs as follows:

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs may include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs; and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the California Department of Education approved indirect cost rate for the year that funds are expended.¹¹¹

Based on the assumptions and methodology discussed herein, the estimated indirect costs for the initial reimbursement period between \$56,750 to \$231,720, and for 2019-2020 and following is \$21,100 to \$83,453.

FY 2017-2018 and 2018-2019:

\$56,750 to \$231,720 (The low estimate includes total indirect costs claimed in the unaudited timely filed reimbursement claims. The high estimate assumes indirect costs will be claimed by all California school districts with schools required to comply with the mandate at a rate of 4%).

FY 2019-2020 and following:

\$21,100 to \$83,453 (The low estimate assumes costs claimed in fiscal year 2018-2019 per pupil will continue to be claimed in future annual years, adjusted by a 1% decline in enrollment, and that indirect costs will continue to be claimed at an average rate of 4%. The high estimate assumes that the average direct cost per pupil claimed in fiscal year 2018-2019 will be claimed in 2019-2020 by all school districts with schools required to comply with the mandate and that the indirect costs of 4%, the average indirect cost rate claimed in the timely unaudited initial claims, are claimed).

1. *The statewide indirect costs for the initial reimbursement period, fiscal years 2017-2018 and 2018-2019, are estimated to be between \$56,750 to \$231,720.*

During the initial period of reimbursement, fiscal years 2017-2018 and 2018-2019, \$56,750 was claimed as indirect costs, which constitutes an average indirect cost rate of four percent (\$56,750 divided by total direct costs of \$1,491,520 claimed for Activities A. and B.). If all school districts with schools required to comply with the mandate file late or amended reimbursement claims for fiscal years 2017-2018 and 2018-2019, then statewide indirect costs will increase.

¹¹¹ Exhibit C, Decision and Parameters and Guidelines, adopted November 22, 2019, page 27.

This increase can be determined by calculating the average indirect cost rate claimed by the school districts that filed timely claims and multiplying that by the estimated direct costs of the program if all school districts with schools required to comply with the mandate filed reimbursement claims for fiscal years 2017-2018 and 2018-2019 ($\$5,792,995 \times 4\% = \$231,720$).

Accordingly, statewide indirect costs for the initial reimbursement period, fiscal years 2017-2018 and 2018-2019, are estimated to be between \$56,750 and \$231,720.

2. *The estimated future annual statewide indirect costs beginning fiscal year 2019-2020 are estimated to be between \$21,100 and \$83,453.*

As indicated above, total estimated future annual statewide direct costs beginning fiscal year 2019-2020 are between \$527,510 (based on the assumption that the costs for Activities A. and B. will continue to be claimed in the future only by those school districts that filed claims in the initial reimbursement period, adjusted by a 1% decline in enrollment) and \$2,086,321 (assuming that the average direct cost per pupil claimed for Activities A. and B. in fiscal year 2018-2019 will be claimed in 2019-2020 by all school districts with schools required to comply with the mandated program). Assuming the average indirect cost rate remains at four percent, then future annual indirect costs are estimated to be between \$21,100 ($\$527,510 \times 4\%$) and \$83,453 ($\$2,086,321 \times 4\%$).

D. Late Claim Penalties for Fiscal Years 2017-2018 and 2018-2019 Are Estimated to Be Between \$815 and \$448,460.

Government Code section 17561(C)(3) states that “Any claim for initial reimbursement filed after the filing deadline shall be reduced by 10 percent of the amount that would have been allowed had the claim been timely filed.” In fiscal year 2017-2018, the Controller’s Summary of Claims shows that penalties amounting to \$523 were taken for the following late claims:

Enterprise Elementary School District - \$24 (.5% late claim penalty on \$4,170)¹¹²

Golden Plains Unified School District - \$331 (10% late claim penalty on \$3,310)¹¹³

Reef Sunset Unified School District - \$168 (10% late claim penalty on \$1,675)¹¹⁴

The late claim penalty imposed on Enterprise Elementary School District is unusual, since the amount is much less than the ten percent required to be taken pursuant to Government Code section 17561 and this claim was dated July 15, 2020, later than the other late claims - though perhaps there were extenuating circumstances.

For fiscal year 2018-2019, Golden Plains Unified School District received a late claim penalty of \$292, based on the \$2,921 claimed. Thus, during the initial claim period, late claim penalties totaled \$815.

As indicated above, the reimbursement claims filed by 115 school districts represents just 20 percent of the schools in the State estimated to be required to comply with this program during the initial period of reimbursement and, thus, late claims are likely to be filed. Thus, estimated

¹¹² Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 4.

¹¹³ Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 5.

¹¹⁴ Exhibit E, Controller’s Summary of Claims Reported as of June 30, 2020, page 6.

late claim penalties are based on the estimated statewide direct and indirect costs for those school districts with schools required to comply with the mandate that may still file late or amended claims for the initial claiming period, less the costs that have been claimed, times ten percent, resulting in \$448,460 total estimated late claim penalties for fiscal years 2017-2018 and 2018-2019 (\$6,024,715 in estimated statewide direct and indirect costs that may yet be claimed - \$1,548,270 in costs claimed = \$4,476,445 x 10% = \$447,645+ \$815 in penalties already assessed).

Thus, late claim penalties for the initial reimbursement period are estimated between \$815-\$448,460.

Staff Recommendation

Staff recommends that the Commission adopt this Proposed Statewide Cost Estimate of \$1,547,455 - \$5,576,255 for the initial reimbursement period of fiscal years 2017-2018 and 2018-2019, and the estimated cost for fiscal year 2019-2020 and following of \$548,610 - \$2,169,774 plus the implicit price deflator.

DECLARATION OF SERVICE BY EMAIL

I, the undersigned, declare as follows:

I am a resident of the County of Sacramento and I am over the age of 18 years, and not a party to the within action. My place of employment is 980 Ninth Street, Suite 300, Sacramento, California 95814.

On November 2, 2020, I served the:

- **Draft Proposed Statewide Cost Estimate issued November 2, 2020**

Public School Restrooms: Feminine Hygiene Products, 18-TC-01
Education Code Section 35292.6; Statutes 2017, Chapter 687 (AB 10)

By making it available on the Commission’s website and providing notice of how to locate it to the email addresses provided on the attached mailing list.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration was executed on November 2, 2020 at Sacramento, California.

SENATE COMMITTEE ON EDUCATION

Senator Benjamin Allen, Chair
2017 - 2018 Regular

Bill No:	AB 10	Hearing Date:	June 28, 2017
Author:	Cristina Garcia		
Version:	May 30, 2017		
Urgency:	No	Fiscal:	Yes
Consultant:	Brandon Darnell		

Subject: Feminine hygiene products: public school restrooms

SUMMARY

This bill requires a public school maintaining any combination of grades 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a federal Title I schoolwide program, to stock at least 50 percent of the school's restrooms with feminine hygiene products at all times and to provide those products at no charge.

BACKGROUND

Existing law:

- 1) Requires public and private schools enrolling students from Kindergarten through 12th grade to ensure that every restroom is maintained and cleaned regularly, fully operational and stocked at all times with toilet paper, soap and paper towels or functional hand dryers. (EC § 35292.5)
- 2) Requires school districts, as a condition of participation in the school facilities program, to establish a facilities inspection system to ensure that each of its schools is maintained in good repair, as defined, through the use of the Facility Inspection Tool created by the Office of Public School Construction or a local evaluation instrument that meets the same criteria. (EC § 17002)
- 3) Defines "Good Repair" for school facilities to mean that, among other items, restrooms and restroom fixtures are functional and appear to be maintained and stocked with supplies regularly. (EC § 17002)
- 4) Requires that the safety, cleanliness, and adequacy of school facilities, including any needed maintenance to ensure good repair, be reported on the School Accountability Report Card. (EC § 33126)
- 5) Requires that a pupil be permitted to participate in sex-segregated school programs and activities, including athletic teams and competitions, and use facilities consistent with his or her gender identity, irrespective of the gender listed on the pupil's records. (EC § 221.5)

ANALYSIS

This bill requires a public school maintaining any combination of grades 6 to grade 12, inclusive, that meets the 40-percent pupil poverty threshold required to operate a

federal Title I schoolwide program, to stock at least 50 percent of the school's restrooms with feminine hygiene products (FHPs) at all times and to provide those products at no charge. The bill defines FHP to mean tampons and sanitary napkins for use in connection with the menstrual cycle.

STAFF COMMENTS

- 1) ***Need for the bill.*** According to the author, "Menstrual products, tampons and pads, are a medical necessity for all people that menstruate. There is no other set of products that one gender has no choice, but to use once a month for forty years of their life. Menstrual products are legally recognized in a court case in Illinois in 1989. In recognition of their necessity, the state of California provides menstrual products for free in correctional facilities. As a state we need to do more. Not having access to these vital medical necessities creates an additional barrier to a young girl's education. Young girls sometimes miss school because of a lack of access to these products. A pilot project to provide menstrual products for free in New York City was done last year in 25 middle schools and high schools and the schools saw a 2.4% increase in attendance. Providing tampons and pads is about equity and social justice. We provide toilet paper in the bathrooms of schools and tampons should be no different. This bill seeks to increase access to menstrual products to girls and young women who need it most by providing them for free in public schools grade 6 to grade 12 that receive Title 1 funding."
- 2) ***Access to female hygiene products for vulnerable populations.*** According to a June 20, 2016 committee report by Committee on Women's Issues for the Council of the City of New York, "Globally, approximately 52% of the female population (26% of the total population) is of reproductive age. Most of these women and girls will menstruate each month for between two and seven days. Menstruation is a natural part of the reproductive cycle, in which blood is lost through the vagina. However, in most parts of the world, it remains taboo and is rarely addressed. As a result of the stigmas associated with menstruation, the practical challenges of menstrual hygiene are made even more difficult by various socio-cultural factors. To manage menstruation hygienically, it is essential that women and girls have access to feminine hygiene products. Feminine hygiene products are vital for the health, well-being and full participation of women and girls. Inadequate menstrual hygiene management is associated with both health and psycho-social issues, particularly among low-income women. It has been reported that a lack of access to feminine hygiene products can cause emotional duress, physical infection and disease, and can lead to cervical cancer. Access to feminine hygiene products has proven to be limited for vulnerable populations. Currently the cost of feminine hygiene products (FHP) are not included in health insurance or flexible spending accounts, nor in public benefits programs such as the Supplemental Nutrition Assistance Program (SNAP) or Women, Infants, and Children (WIC) benefits."
- 3) ***Dangers of toxic shock syndrome.*** While some pupils who menstruate may choose to reduce the cost of FHPs by reducing the time between changing the product, this choice can have deathly health consequences caused by Toxic Shock Syndrome. In 1980 the Center for Disease Control established a close

association between incidents of Toxic Shock Syndrome (TSS) and tampon use. The potentially fatal disease causes fever, shock, low blood pressure, skin rashes and liver and kidney abnormalities. In 1982 the Federal Drug Administration (FDA) required that menstrual tampon packages contain a brief statement alerting consumers to the dangers of TSS, including the risk to all women using tampons during their menstrual period, especially the reported higher risks to women under 30 years of age and teenage girls. The package warnings were also to include information on the incidence of TSS of 6 to 17 per 100,000 menstruating women and girls per year and the risk of death from contracting TSS.

- 4) **Other jurisdictions.** New York City adopted legislation in July 2016 requiring the Department of Education (CDE) to make free feminine hygiene products (FHPS) available to students in the bathrooms of school buildings, in which there are female students in grades 6 to 12. The intent of the legislation was to ensure that students have the support they need to focus on learning and feel comfortable in the classroom. Supporters also pointed out that increasing access to basic FHPs demonstrates a commitment to advancing gender equity. This legislation followed a successful pilot program during the 2015-16 school year, in which the City placed 380 dispensers in 25 middle and high schools. The City reported a 2.4 percent increase in school attendance during the pilot program year. Other jurisdictions have proposed legislation to provide free menstrual hygiene products in public buildings and/or schools, including New York State in 2015 and Wisconsin in 2015. Neither of these bills was successful. Five states currently have similar measures pending before their legislative bodies, including Illinois, Maryland, Connecticut, Tennessee, and South Carolina.
- 5) **Fiscal impact.** According to the Assembly Appropriations Committee, there would be “minor and absorbable costs to the CDE to update the Office of Public School Construction Facility Inspection Tool” and “cost pressures in the hundreds of millions annually, due to reimbursable mandate costs to schools,” as “there are approximately 3,093 schools that will need to stock at least 50 percent of restrooms with free feminine hygiene products.”
- 6) **Related and previous legislation.** AB 9 (C. Garcia, 2017), would exempt the sale of tampons, sanitary napkins, menstrual sponges, and menstrual cups from sales taxes.

AB 1561 (C. Garcia) of the 2015-2016 Session, which was vetoed by the Governor, would have exempted the sale of tampons, sanitary napkins, menstrual sponges, and menstrual cups from sales taxes during the period from 2017 through 2022.

SB 971 (Huff, Chapter 923, Statutes of 2004) eliminated the requirement, established by SB 892 in 2003, for schools to submit reports to the Office of Public School Construction on the responses to restroom maintenance complaint forms.

SB 550 (Vasconcellos, Chapter 900, Statutes of 2004) authorized school districts to use the uniform complaint process to help identify and resolve any deficiencies

related to instructional materials, the condition of a facility that is not maintained in a clean or safe manner or in good repair, and teacher vacancy or misassignment.

SB 892 (Murray, Chapter 909, Statutes of 2003) established the requirement that every public and private school have restroom facilities that are open as prescribed during school hours, and at all times to keep every restroom maintained and cleaned regularly, fully operational, and stocked with soap and paper supplies.

Report of various statistics about California's public schools and districts for the 2018–19 school year.

Enrollment and number of school districts by type: 2018–19

District Type	Number of Districts
Unified	345
Elementary	528
High	76
Other	88
Total	1,037

Enrollment and number of public schools by type: 2018–19

School Type	Enrollment	Number of Schools
Elementary	3,010,015	5,887
K-12	252,162	362
Middle	985,135	1,293
Junior high	31,441	50
High	1,738,225	1,323
Continuation	51,045	427
Alternative	60,000	267
Community day	3,265	153
Special education	20,207	138

Other	34,783	621
Total*	6,186,278	10,521

*The total enrollment count includes students enrolled in charter schools.

Enrollment and number of charter schools by type: 2018–19

School Type	Enrollment	Number of Schools
Elementary	224,701	546
K-12	228,837	323
Middle	56,168	134
Junior high	622	5
High	136,093	281
Continuation	0	0
Alternative	955	5
Community day	1	1
Special education	0	0
Other	5,556	18
Total	652,933	1,313

Number of students in public schools by grade range: 2018–19

Grade Level	Number of Students
Kindergarten through grade five	2,799,322
Grades six through eight	1,435,870
Grades nine through twelve	1,951,086
Ungraded programs	0
Total	6,186,278

Ethnic distribution of public school students: 2018–19

Ethnicity	Number of students	Percentage
African American not Hispanic	334,652	5.40%
American Indian or Alaska Native	31,358	0.50%
Asian	573,925	9.30%
Filipino	149,680	2.40%
Hispanic or Latino	3,374,921	54.60%
Pacific Islander	28,085	0.40%
White not Hispanic	1,417,055	22.90%
Two or More Races Not Hispanic	223,967	3.60%
None Reported	52,635	0.90%
Total	6,186,278	100.00%

Number of Regular HS Diploma Graduates: 2017–18

Total: 418,205

Number of teachers in public schools: 2017–18

School Type	Number of Teachers
Elementary schools	148,288
Middle and junior high schools	47,635
High schools	83,029
Other (includes continuation schools)	36,850
Total	315,802

*Data has duplicate count of teachers if they teach at multiple agencies.

Ethnic distribution of public school teachers: 2017–18

Ethnicity	Number of Male Teachers	Number of Female Teachers	Total
------------------	--------------------------------	----------------------------------	--------------

American Indian or Alaska Native	455	1,069	1,524
Asian	4,145	13,515	17,660
Pacific Islander	269	646	915
Filipino	1,238	3,437	4,675
Hispanic or Latino	17,256	46,124	63,380
African American	3,684	8,234	11,918
White (not Hispanic)	50,325	139,687	190,012
Two or More Races Not Hispanic	821	2,044	2,865
No Response	3,607	9,705	13,312
Total*	81,800	224,461	306,261

*Some totals in the Public School Teachers table may not match due to difference in reporting strategy.

Student Poverty FRPM Data

Downloadable data files pertaining to students eligible for Free or Reduced Price Meals (FRPM).

This page contains the complete data files pertaining to students who are eligible for Free or Reduced Price Meals (FRPM). FRPM data are collected annually. Beginning in 2012–13, the data reflect Fall Census Day (first Wednesday in October) data certified by local educational agencies as part of the California Longitudinal Pupil Achievement Data System (CALPADS) Fall 1 data submission. Because the source of data has changed over the past few years, it is important to refer to the file structure for further details regarding the file's content.

School Level Data Files

Year of Data	Data File	Information about the File	File Structure
2019–20	Unduplicated Student Poverty – Free or Reduced Price Meals Data 2019–20 (XLSX; 2MB; Posted 13-Apr-2020)	Unduplicated Student Poverty Data 2014-2019	File Structure: Unduplicated Student Poverty – FRPM Data 2014-2019

K-12 Toilet Requirement Summary

A summary of K-12 toilet requirements by grade level and male/female.

Schools are considered an Educational (E) occupancy for determining the number of toilets, urinals, lavatories, and drinking fountains within the *California Plumbing Code*.

2013 and 2016 California Plumbing Code

All Grades and Staff	Toilets and Urinals	Lavatories	Drinking Fountains
Male	1 toilet per 50 1 urinal per 100	1 per 40	1 per 150
Female	1 toilet per 30	1 per 40	1 per 150

The figures shown are based upon one fixture being the minimum required for the number of persons indicated or any fraction thereof.

The total number of required toilets for females shall not be less than the total number of required toilets and urinals for males. This requirement shall not apply when single occupancy toilet facilities are provided for each gender in an E occupancy with an occupant load of less than 50. Either:

1. The required urinal shall be permitted to be omitted or
2. If installed, the urinal shall not require a second toilet be provided for the female.

California Department of Education (CDE) Notes:

California Code of Regulations, Title 5, Section 14030, requires that toilets for kindergarten students be provided in the kindergarten classroom or in the kindergarten complex. These fixtures should be mounted at a height appropriate for student use.

The California Plumbing Code does not require specific toilets for staff and students. However, for safety and liability concerns CDE recommends that separate toilets be provided for staff.

CDE recommends that the location of toilets and water fountains be distributed throughout the campus to ensure access.

The entrance to toilet rooms must be able to be supervised.

Footnotes

³ Drinking fountains shall not be installed in toilet rooms.

⁵ For each urinal added in excess of the minimum required, one water closet may be deducted. The number of water closets shall not be reduced to less than two-thirds (2/3) of the minimum requirement.

¹⁰ General. In applying this schedule of facilities, consideration shall be given to the accessibility of the fixtures. Conformity purely on a numerical basis may not result in an installation suited to the needs of the individual establishment. For example, schools should be provided with toilet facilities on each floor having classrooms.

- a. Surrounding materials, wall and floor space to a point two feet in front of urinal lip and four feet above the floor, and at least two feet to each side of the urinal shall be lined with non-absorbent materials.
- b. Trough urinals shall be prohibited.

¹² Where food is consumed indoors, water stations may be substituted for drinking fountains. Offices or public buildings for use by more than six persons shall have one drinking fountain for the first 150 persons and one additional fountain for each 300 persons thereafter.

¹³ There shall be a minimum of one drinking fountain per occupied floor in schools, theaters, auditoriums, dormitories, offices, or public buildings.

¹⁴ The total number of water closets for females shall be at least equal to the total number of water closets and urinals required for males. This requirement shall not apply to retail or wholesale stores.

¹⁸ A drinking fountain shall be required in occupancies of 30 or less. When a drinking fountain is not required, then footnotes 3, 12, and 13 are not applicable.

Note

Please be aware these are minimum requirements; more fixtures or toilet rooms may be required to adequately serve students and staff in some facility layouts.

Toilets are to be provided based on the population of each gender at each school site. As new facilities (with additional students and staff) are added, including portables, additional toilet facilities should be added to meet building code requirements.

Prior to 1994 Code Reference *Uniform Building Code Section 805*

Grade/Staff	Male	Female
Kindergarten	No reference	No reference
Elementary	1 urinal per 30 1 toilet per 100	1 toilet per 35
Secondary	1 urinal per 30 1 toilet per 100	1 toilet per 45
Staff	No reference	No reference

Characteristics of School Districts Offering Free School Meals to All Students Through the Community Eligibility Provision of the National School Lunch Program

Stephanie Rogus, Joanne Guthrie, Katherine Ralston

What Is the Issue?

The Community Eligibility Provision (CEP) of the National School Lunch Program was established to increase access to school meals for children in low-income areas while reducing the burden associated with collecting household applications. The provision allows eligible schools to provide USDA school meals at no charge to all students in high-poverty schools. Eligibility to participate in the CEP is based on the percentage of students receiving benefits from the Supplemental Nutrition Assistance Program (formerly food stamps) or other specific means-tested assistance—this is known as the Identified Student Percentage, or ISP. Schools are eligible to participate in CEP if the ISP for the school, group of schools, or district is at least 40 percent.

In schools that adopt CEP, USDA reimburses meals according to a formula based on the ISP. Any costs for serving these meals in excess of the Federal reimbursement must be paid by the district from non-Federal sources. The decision as to whether an eligible school participates in CEP is made at the district level. The share of participating districts has increased steadily from the first year of national implementation in 2014-15, with 47 percent of eligible districts and 55 percent of eligible schools participating in 2016-17. Examining the characteristics of districts nationwide that have chosen to participate in CEP will inform policymakers regarding program acceptance.

What Did the Study Find?

This report examined the characteristics of school districts electing to implement the CEP option in the second year of nationwide availability, school year 2015-16, by estimating unadjusted participation rates by school district characteristic and a multivariate logit model. Characteristics included the highest school-level ISP in the district; whether the district was urban, rural, suburban, or in a town; district size; region; and the year that CEP became available in the State during the phase-in period before school year 2014-15.

After adjusting for other factors, school districts were more likely to adopt CEP in at least one school if at least one school in the district had an ISP between 60 and 90 percent. This is consistent with incentives faced by districts under the meal reimbursement formula, since all school meals served would be reimbursed at the free rate if the ISP were 62.5 percent or more.

- This pattern was reversed for smaller districts with at least one school at 90 percent ISP or above. Districts under 20,000 students were significantly less likely to adopt CEP at this highest ISP category after accounting for other factors. Smaller, high-ISP districts

ERS is a primary source of economic research and analysis from the U.S. Department of Agriculture, providing timely information on economic and policy issues related to agriculture, food, the environment, and rural America.

may have less incentive to adopt CEP since almost all students are already directly certified and the remainder could be easily certified via application.

- The year CEP became available in the State was also a significant factor. School districts in States where CEP was available in 2011-12 or 2012-13 were significantly more likely to adopt CEP in at least one school, compared to districts in States where CEP was available in 2014-15, other factors equal.
- Districts in the Southeast were more likely to adopt the CEP (compared to the Northeast reference region) while suburban districts were less likely (compared to the rural reference category), after accounting for other factors.

How Was the Study Conducted?

The study estimated unadjusted CEP participation rates and a multivariate logit model to identify characteristics associated with the probability that at least one school in the district participated in the CEP option. The multivariate model included interactions between district size and ISP category to explore differences in associations with ISP for districts of different sizes. The sample included 5,148 school districts comprising the universe of districts that were eligible to participate in CEP from 47 States for which data were available.

Participation at the district level was defined as participation by at least one school in the district. Data on the participation decision for each district were obtained from district election data for September 2015 from USDA's Food and Nutrition Service. Data on the highest school-level ISP for each school were obtained from reports posted (as required by law) by each State in May 2015. For seven States, ISP data were not available for 2015 and data for 2014 were used as an approximation for the 2015 value. Data on locale type and district size were matched from the Common Core of Data Public School Universe Survey for 2013 from the National Center for Education Statistics.

California Public K-12 Graded Enrollment and High School Graduate Projections by County — 2019 Series

January 2020

- [California Public K-12 Graded Enrollment Projections Table, 2019 Series](#)

Highlights

State Enrollment

California experienced the 5th consecutive decrease in total Public K-12 Enrollment in the 2018-19 school year (-25,600 students), enrolling 6,185,200 students. Over the next ten years, if current trends in fertility and migration hold, a further decline of 425,700 in total enrollment is projected, resulting in total enrollment of 5,759,500 by 2028-29.

County Enrollment

The largest increase in county enrollment across the projection period is expected in Placer County, which will gain 8,900 students between 2018-2019 and 2028-29. The biggest decline in enrollment is expected in Los Angeles County which will fall 242,000 students by the end of the projection. Overall, 27 counties will have increased public K-12 enrollment by 2028-29.

High School Graduates

Graduates are expected to increase slowly to a historical peak of 456,400 in 2023-24 after which they decline through the end of the projection period. The largest increase in graduates is expected in San Bernardino County, which will add 2,539 graduates between 2018-2019 and the end of the projection. Overall 38 counties will see an increase in the number of high school graduates by 2028-29.

Data Sources

Enrollment data used to produce this report were obtained from the [California Department of Education](#). Actual births were obtained from the [California Department of Public Health](#) while projected births were produced by the Demographic Research Unit.

Methodology

Enrollment projections are developed using a grade progression ratio (GPR), cohort-survival, projection model to project enrollment in kindergarten through twelfth grade and high school graduates. The GPR is the result of dividing the enrollment in one grade level by the enrollment in one lower grade from the prior year. The GPR represents the proportion of students expected to progress from one grade to the next. The most likely progression model is chosen based upon analysis of historical trends and incorporating the migration trends and demographic characteristics of each county. Entering cohorts of kindergartners and first graders are projected using actual and projected births. The best fitting progression ratios are chosen independently for the projection of each grade including high school graduates. The state total by grade is the result of the summation of the projections by grade at the county level.

User Notes

Actual enrollment and high school graduates may not match prior years' series due to revisions to the California Department of Education enrollment files. Enrollment projections exclude California Education Authority, state special schools, and ungraded students.

Changes to the kindergarten age of admission impact elementary enrollment patterns making the 2019 series inconsistent with projections series produced prior to the 2010 series. Kindergarten enrollment includes students enrolled in transitional kindergarten.

Suspension of the California High School Exit Exam continues to increase high school graduates compared to previous series.

Demographic projections from the California Department of Finance (DOF) suggest that California’s public K–12 school system is entering a long period of declining enrollment. By 2027–28, statewide enrollment is projected to fall nearly 7 percent (compared to 1.5% over the past decade). Enrollment is projected to shrink in about half of all counties, and declines are expected in more of the state’s larger counties.

Districts with declining enrollment face fiscal pressures, as state funding is tied to the number of students they serve. Declining enrollment also has important implications for the state budget. To help policymakers understand the effects of declines over the coming decade, we looked at recent district-level enrollment declines and assessed their consequences for districts as well as the state budget.

- **Most district-level declines in student enrollment are large and long lasting.** The typical multi-year decline persists over a decade or more and is greater than 20 percent. Enrollment does not generally rebound, so most districts must adjust to lower enrollment levels.
- **District downsizing in response to enrollment declines does not necessarily lead to budget savings.** District revenues often decrease each year as enrollment declines, but it is difficult to shed costs at the same rate. Some costs are fixed and districts lose economies of scale in some services (e.g., capital, maintenance, debt service) and staffing (e.g., administrative positions).
- **Shrinking districts are cutting total expenditures but spending more per pupil.** The state budget includes a “declining enrollment adjustment” that shields a district from a funding reduction for one year after a decline. This results in higher levels of per pupil spending in districts experiencing long-term declines, and helps districts maintain staffing ratios despite retaining a more experienced—and therefore more expensive—teaching staff.
- **State spending on the declining enrollment adjustment will continue to increase.** The state spent \$925 million on these adjustments in 2018–19. As the K–12 population shrinks in the coming years, the cost of this adjustment will take up a growing share of the total K–12 budget.
- **Declining enrollment could boost statewide per pupil funding.** There is at least one silver lining: with continued economic growth, lower enrollment could result in funding increases for K–12 schools of up to \$100 per student in each of the next several years. The reduction in the K–12 population will increase per pupil funding under Proposition 98, giving state policymakers additional resources to help districts facing multiple fiscal challenges.

Though most enrollment declines cannot be prevented, early awareness and planning can help districts adjust gradually and avoid larger, more difficult spending cuts. The state should provide technical assistance in enrollment planning and the longer-term operational changes that may be required in districts that experience significant declines. The state could also use additional funding generated by statewide declines to increase the base grant that districts receive for each student. This would help all districts address core funding challenges.

[Click here](#) to explore an interactive map showing enrollment trends and projections for all California counties.

Introduction

For most of its history, California’s K–12 system has faced the challenge of accommodating rapid growth. In the mid-1990s, statewide enrollment increased by more than 2 percent a year. After peaking at about 6.3 million, enrollment has declined slightly but remained around 6.2 million students. But the Department of Finance (DOF) projects declines over the next decade of 6.9 percent, to about 5.75 million students.

However, statewide trends only tell part of the story, and can mask important differences at the county and district level. The late 1980s and early 1990s were a period of growth in many districts; more than half experienced five-year growth rates above 10 percent from 1987 to 1994 (Figure 1). This growth slowed considerably, and roughly half of all districts have been in decline since 2007. Many districts have been shrinking for more than a decade. Other districts continue to grow—sometimes at significant rates. In the next decade, it is likely that a majority of students will be in districts with declining enrollment: K–12 enrollment is projected to decline in 53 percent of counties, which currently serve 75 percent of the state’s students.¹

FIGURE 1
A majority of districts are now in decline

SOURCES: California Department of Education and authors’ calculations.

NOTE: Figure shows five-year enrollment changes, by fiscal year. Districts with fewer than 250 students are excluded. See [technical appendix Figure A1](#) for student-weighted version, which shows the percent of students in growing/shrinking districts.

¹ Declines do not appear to have disproportionately affected students of any particular racial, ethnic, or socioeconomic group (see [Technical Appendix A](#) for more information).

Many of California’s roughly 1,000 school districts are quite small—445 districts (43%) enrolled fewer than 1,000 students in 2018–19.² The loss of small numbers of students can translate into large percentage reductions in enrollment in these districts. However, many of the state’s largest districts also lost significant numbers of students over the past five years (Figure 2). Los Angeles Unified shrank by more than 12 percent (more than 66,000 students), as did Santa Ana. San Francisco Unified, the only large northern California district to experience a decline, lost 1.1 percent of its enrollment.

FIGURE 2

Eight of the state’s ten largest districts experienced enrollment declines in the past five years

SOURCES: California Department of Education and author’s calculations.

NOTE: District enrollment includes locally funded charters but not direct-funded charter schools.

Enrollment declines lead to declines in total revenues and spending, as a direct consequence of having fewer pupils to educate. The state budget includes a declining enrollment adjustment that shields districts from revenue declines in the first year, but they must find ways to balance their budgets in subsequent years. Districts cannot directly raise local property taxes for operational expenses, but they can levy parcel taxes or find alternative revenue streams using existing assets (e.g., renting out unused facility space). The most common approach is to cut expenditures.

To help policymakers better understand the challenges districts are facing, this report begins by assessing the DOF projections and the factors that are driving statewide declines. These projections do not include district-level trends, so we instead examine the size and duration of expected declines at the county level. In addition, we look at how districts have addressed the funding challenges created by falling enrollments, and report on our discussions on declining enrollment with district and county office staff. We close by recommending steps the state can take to help districts navigate a difficult fiscal terrain.

² Excludes both direct and locally funded charter schools.

Declines Will Accelerate in the Next Decade

In the next 10 years, the DOF projects a larger decline in statewide K–12 enrollment. The share of counties with shrinking enrollment will remain at about half, but declines will occur in more of the larger counties. Enrollment in some declining districts may stabilize, but declines are likely to continue in others. By 2028–29, state enrollment totals are projected to fall 6.9 percent (compared to 1.5% over the past decade), or 426,000 students (Figure 3).

FIGURE 3
Declines are projected to accelerate over the next decade

SOURCE: California Department of Finance.

NOTES: Actual statewide enrollment is shown up to 2018–19. Enrollment counts for 2019–20 to 2028–29 are projections calculated by the California Department of Finance. Enrollment counts exclude ungraded enrollment, CEA schools, and special schools. Projections are based on analyses of birth rate, migration, and grade progression trends.

Fertility Rates and Migration Are Key Factors in Statewide Declines

California’s fertility rates have fallen considerably over the past 12 years, after a decade of slight growth in the late 1990s and early 2000s (Figure 4). Historically, fertility rates were higher in California than in the rest of the United States. Since 2013, however, the trend has reversed: California’s fertility has fallen below the rest of the country and has continued to decline at a faster rate. Consistent with a general downward trend over the past three decades, the DOF projections assume a slow decline in future fertility rates.

FIGURE 4
Fertility rates have fallen considerably over the past decade

SOURCE: California Department of Finance.

NOTE: The total fertility rate (TFR) represents the average number of children per woman the current group of mothers would bear if they lived their entire reproductive lives and bore children at the given age-specific rates.

Migration patterns are also important factors, although these trends have been roughly constant and have not accelerated over the past decade ([technical appendix Figures C1–C5](#)). More children leave to other states than come from other states, but this is partially mitigated by a large number who come from outside the country. Over the past five years, these migration flows, combined with declining birthrates, contributed a net 0.5 percent average fall in the number of children ages 5 to 18. Within the state, there is also a general flow of population from coastal to inland regions, affecting local but not statewide enrollments ([technical appendix Figure C5](#)).

Charter schools contribute to enrollment declines in some districts

Charter schools have grown considerably over the past decade, and non-district charters have had large impacts on enrollment in some districts. Charters enrolled 645,000 students in 2018–19, or about 10 percent of all students. This is an increase of 130,000 from 2013–14, when charter schools accounted for 8.2 percent of K–12 students. They are a large and growing part of the public school sector in some, but not all districts throughout the state. In particular, charters in Los Angeles, San Diego, Capistrano, and Oakland appear to play a significant role in these districts' enrollment declines. Existing research shows that charter growth in California has led to declines in spending and fiscal health in some districts, but its effect on district finances has been modest and somewhat smaller than in other states (Bruno 2019).

There is also some evidence that charter schools have attracted students from private schools or home schooling: data on private school enrollment suggest that up to a quarter of the increase in charter enrollment may have come at the expense of private schools. Private school enrollment declined by 32,000 students between 2013–14 and 2018–19, according to data from the California Department of Education. (Private schools that enroll five or more students are required to submit information, including enrollment data, to the department each year.) Thus, while charter schools have drawn students from traditional public schools, they have also slightly expanded the overall size of the public K–12 student population.

Evolving demographic trends make projections uncertain

There is considerable uncertainty in the DOF projections. Past forecasts have overstated enrollment because of underestimated declines in birth rates and net migration. The 2020 DOF forecast builds in a greater though still modest fall in fertility rates. However, if fertility rates continue to fall at their recent rate—faster than what is projected—the DOF numbers might overstate K–12 enrollments in years 6 through 10 of the projection, when these children reach kindergarten age. The DOF has better information about the number of children born in the past five years, which affects the projections for years 1 through 5. The assumptions about intra- and inter-state migration and international immigration are critical to these years.

The causes of the persistent decline in birth rates are not well understood. And many factors affect migration, including the economy, home prices, and federal immigration policy. Given these uncertainties, state and district policymakers ought to consider future scenarios in which enrollment declines are even greater in magnitude than anticipated.

Most Counties Are Projected to Lose Students or See Modest Growth

From 2008–09 to 2018–19, 30 counties lost enrollment (230,000 students in total), and 11 counties lost more than 10 percent of their student base. Projected county-level declines over the next decade are larger: 31 counties are projected to see enrollment declines, losing 478,000 students. However, the state forecast also projects slower growth in *growing* counties—only 50,000 additional students in the 27 counties with growing enrollment over the next 10 years, compared to about 165,000 over the past 10 years.

Significant declines are projected for several of the state’s larger counties. Six counties—Los Angeles, Marin, Santa Clara, Santa Cruz, Sonoma and Ventura Counties—are expected to decline by more than 15 percent over the decade. Almost all Bay Area county enrollments are expected to fall; the exception is Contra Costa County, where enrollment is expected to grow 0.7 percent (Figure 5).

FIGURE 5
Future declines projected in most coastal regions

SOURCE: California Department of Finance.

NOTE: Figure shows percent change in enrollment for each county. The left panel shows the change over the past decade, from 2008–09 to 2018–19, while the right panel shows the projected change in the coming decade, from 2018–19 to 2028–29.

Implications of Declines for Districts

The DOF’s forecast for K–12 enrollment does not include district-level projections. This is in part because district-specific changes are harder to predict: given that roughly 1,000 districts enroll anywhere from more than 600,000 to fewer than 10 students, there are a host of local influences that may not be reflected in state- or county-level trends. For instance, families often move from one neighborhood to another within the same county. Indeed, *local* migration is much more common than migration between counties or to other states. Projecting district enrollment trends requires more data and an in-depth knowledge of local economic and social forces. Below, we look at districts that have experienced declining enrollment to gauge the size and duration of those declines and the size and type of district budget cuts in response to lower state funding.

District-level declines tend to be large and long lasting

To better understand the average district in decline, it is useful to zoom in to the time a district first began experiencing declines.³ On average, three years after the beginning of a decline, district enrollment decreases almost 15 percent (Figure 6).⁴ Districts with short-term declines—which do not continue for four consecutive years—see permanently lower levels of enrollment, and tend to experience additional declines several years later. In districts with long-term declines, which continue unabated for four or more years, enrollment typically does not stabilize; eight or more years after declines begin, enrollment levels are more than 30 percent below pre-decline levels, and most continue to decline.

FIGURE 6

The typical multi-year decline is large and long lasting

SOURCES: California Department of Education; author calculations.

NOTES: "0" is the year prior to a decline, and "1" is the first year of a decline. Shaded areas show 95 percent confidence intervals of estimated effects. Estimates use district-level data from 1996–97 to 2017–18. Coefficients are estimated according to equation (2) in [Technical Appendix B](#). Districts with fewer than 250 students are excluded.

Revenue loss exceeds direct savings from fewer classrooms

A simple example can help illustrate the fiscal difficulties faced by districts with declining enrollment (Table 1). Suppose a district's average daily attendance (ADA) falls by 100 students.⁵ With per pupil funding of \$12,600 annually, this translates into lost revenues of \$1.26 million in one year. With 100 fewer students, the district can eliminate four teaching positions,⁶ generating savings of \$556,300. Factoring in the savings on books and supplies for that classroom brings the total to \$611,000, slightly less than half of the total revenue loss.

³ The figure looks at districts that experience three consecutive years of 1 percent or greater reductions in enrollment, following at least two consecutive years with stable or growing enrollment.

⁴ Figure 6 plots "event study" estimates of the percentage change in enrollment relative to the year prior to the district's first substantial decline. Estimates use district-level data from 1996–97 to 2017–18. See [Technical Appendix B](#) for further detail on the data and empirical specifications.

⁵ The Local Control Funding Formula (LCFF) is based on average daily attendance, which differs slightly from enrollment in that it excludes students who are enrolled but absent from school.

⁶ Here we consider class sizes of 25 students, about average for the state in 2017–18. For students in kindergarten through grade 3, class sizes are around 23 students but are above 27 on average in grades 4–6. (California Department of Education n.d.)

TABLE 1

Classroom savings from lower enrollments represent only about half of the revenue loss in this hypothetical scenario

Per pupil funding reduction	Average funding per pupil	\$12,600
	ADA decline	100
	Total funding reduction	\$1,260,000
Savings from fewer classrooms	Students per classroom	25
	Teachers laid off	4
	Teacher compensation reduction	\$556,300
	Books and supplies for 4 classrooms	\$54,700
	Total cost savings	\$611,000
Additional cuts required		\$649,000

SOURCES: California Department of Education and authors' calculations.

NOTES: Per pupil revenues and cost data derived from the Standardized Account Code Structure as displayed on the Ed-Data website.

Of course, districts can cut other variable costs: pupil services and classified instructional positions can be eliminated, or staff hours can be reduced in proportion to the reduced workload. However, some costs are fixed in the short run (e.g., capital, maintenance, debt service), and others—such as administrative positions—cannot easily be proportionally reduced due to economies of scale.

Moreover, this example comes close to a “best case” scenario: in many cases, declines occur across several classrooms, grades, and schools, making it more difficult for a district to reduce the number of classrooms in direct proportion to the reduction in the number of students. To make additional cuts, district fiscal officers may need to look at other possibilities. Can the district reduce support service staff, such as counselors, nurses, or teachers’ aides? Can it increase efficiency in central office operations? Or will the district have to increase class sizes? We can gain some insights by looking at how districts have responded to past declines.

District declines lead to large spending cuts, but *per pupil* spending increases

When we examine district-level changes in spending in the midst of a declining enrollment spell, we find that overall spending declines while *per pupil* spending actually increases slightly ([Technical Appendix B](#)).⁷ This is primarily due to the one-year adjustment that ensures current-year funding levels based on prior-year ADA if enrollment declined. For districts with sustained declines, this leads to persistently higher levels of per pupil spending. In those with more short-lived declines, per-pupil spending reverts to pre-decline levels. There is also some evidence of increases in other local (non–funding formula) revenues, but their extent is limited: compared to the five years prior to the district’s decline, these revenues increase by about \$150 per student (7%).

⁷ Changes are estimated relative to a district’s financial or staffing levels prior to its first decline, relative to all other (non-declining) districts in the state in a given year. See [Technical Appendix B](#) for more detail.

Districts retain experienced teaching staff while maintaining teacher-pupil ratios

When districts make staff cuts, they are required to follow a “last in, first out” (LIFO) policy; this often requires them to release their least-experienced (and least-expensive) teachers, independent of quality.⁸ We find that on average, the share of novice teachers in a district declines by more than 2 percentage points (or 13 percent), while average teacher experience increases by one year (relative to a baseline of 13 years on average). Districts eliminate teaching, pupil services, and other staff positions, but typically maintain pre-decline pupil-staff ratios, despite retaining a more experienced (and more expensive) teaching force.

Districts tend to downsize across schools rather than close them

We find evidence that declines lead to smaller average school sizes but do not reduce the number of schools in a district ([technical appendix Figures B6 and B7](#)). While large declines may eventually make school closures inevitable, research shows that the short-run savings from closures are often smaller than most expect because the cost of maintaining closed facilities eats into the savings from reductions in school staff (Dowdall 2011). Moreover, schools are often highly valued by their local communities; many closures are contentious and vigorously opposed by students, parents, and educators.

Declining Enrollment Has State Budget Implications

Declining enrollment is tied to the state budget in two important ways. First, the state K–12 budget includes a declining enrollment adjustment that shields districts from the negative financial impact of enrollment changes for one year. Second, declining enrollment affects the calculation of the Proposition 98 minimum funding guarantee for K–12 schools; for the next several years, it will lead to a modest increase in per pupil funding.

Funding for the Declining Enrollment Adjustment Is Increasing

As the number of districts in decline has increased, the declining enrollment adjustment has risen (Figure 7). In 2014–15, the one-time attendance adjustment totaled about \$600 million. By 2018–19, the adjustment reached approximately \$925 million, a 53 percent increase.⁹ The DOF demographic projections for the next decade suggest that many more counties (and hence, districts) will be in decline, so it is likely that expenditures for the adjustment will continue to increase.¹⁰

⁸ California is one of a handful of states that require school districts to follow a “last in first out” (LIFO) policy. This policy includes exceptions for teachers with specialized math/science credentials, special education credentials, English language development credentials, or specialized training in other high-need programs. See Legislative Analyst’s Office 2012 for a detailed review of the teacher layoff process in California.

⁹ Interestingly, the average per-student amount of the declining enrollment adjustment increased only 2 percent over this time, as the mix of losses shifted to younger, less expensive grades. LCFF funding rates are higher for grades 9–12 and K–3 than for grades 4–6 and 7–8. Over the five years, for instance, enrollment declines in the high school grades (the highest rate) were fairly consistent while declines in the 4–6 grades (the lowest rates) increased 250 percent. Thus, the rising impact of the declining enrollment adjustment was caused almost entirely by the larger decline in the number of students from 2013–14 to 2018–19.

¹⁰ An exact estimate of this cost increase depends on the enrollment trends in all districts, not just counties, which we do not estimate in this report.

FIGURE 7

Expenditures to pay for the declining enrollment adjustment have increased

SOURCES: California Department of Finance and author calculations.

NOTES: Figure shows calculations of the total sum of the declining enrollment adjustment, based on district ADA and funding rates. Charter schools are excluded.

The funding adjustment has helped districts avoid significant fiscal woes. The Fiscal Crisis Management Assistance Team (FCMAT) recently reported that, out of hundreds of districts experiencing falling enrollments, only six were certified in 2018–19 as unable to meet their financial obligations over the next three years. Another 26 districts were at risk of being unable to meet their financial obligations over the next three years. This is a small number—during the Great Recession, as many as 176 districts were financially at risk. (Financial Crisis and Management Assistance Team 2019).

But the path forward may be more difficult. District and county fiscal staff we interviewed reported that the large increases in state and local funds over the past decade softened the fiscal impact of enrollment declines. Funding increases are likely to be more modest in future years, however; this will make it more challenging for districts to cope with a shrinking revenue base.¹¹

Declining Enrollment Leads to Higher Per Pupil Funding under Proposition 98

One of the budgetary consequences of falling enrollment will be positive: it will increase in Proposition 98’s per pupil funding levels.¹² Proposition 98 uses one of three formulas—known as “tests”—to set yearly minimum guaranteed funding levels for K–12 schools and community colleges. For most of Proposition 98’s history, enrollment has been growing and funding levels have been determined by Tests 2 or 3, both of which factor in attendance. But given the continuing decline in enrollment, it appears that Test 1 will be used to set the minimum guarantee in the near future.

¹¹ From 2013–14 to 2018–19, state and local Proposition 98 funds increased 5.9 percent annually. Over the next five years, the Legislative Analyst’s Office projects Proposition 98 funding will increase 3.8 percent each year on average. The difference represents about \$1.6 billion a year, or \$270 per student.

¹² Proposition 98, approved by voters in 1988, guarantees a minimum amount of state spending on K–12 schools and community colleges. Proposition 98 bases funding in part on average daily attendance, which excludes students who are enrolled but absent from school.

Test 1 sets funding at roughly 38 percent of the General Fund plus local property taxes. This results in a modest increase in per pupil revenues for schools. The Legislative Analyst’s Office (LAO) anticipates that Test 1 will be the operative Proposition 98 test for the next four years. Its forecast assumes attendance declines of about 3 percent from 2019–20 to 2023–24; as a result, K–12 schools and the community colleges would have about \$2.8 billion in additional discretionary funds, or about \$100 per student each year on average (Legislative Analyst’s Office 2019).¹³ Even if a recession hits, it is likely that Proposition 98 funding will continue to be based on Test 1, with the minimum guarantee adjusted downward to reflect the drop in state revenues. But there would be no downward adjustment to reflect declining enrollment.¹⁴ (For more information, see [Technical Appendix D.](#))

The State Can Take Steps to Help Districts Adjust

The state’s one-year fiscal protection for declining enrollment has allowed most districts the time to make needed adjustments. Looking forward, however, districts are facing several fiscal strains, including falling enrollment, and it is likely that state funding increases under Proposition 98 will be smaller than they have been in the past five years. The governor and legislature can make two budget changes that would help districts that face enrollment declines.¹⁵

Increase technical assistance to districts. Districts need to get an early read on enrollment trends and take actions to prepare for any future budget pressures. The state can assist districts by creating and distributing information on best practices for tracking enrollment trends and managing declines. FCMAT plans to provide training on the topic to districts that are willing to pay for it. The state could increase the FCMAT budget so that districts can receive free or subsidized training.

Given that many districts have successfully addressed declining enrollment, the state could also pay FCMAT to develop a guide to planning and operational practices used by district fiscal officers in different types of communities and districts.¹⁶ The guide would cover enrollment forecasting, early planning, and working with teachers, principals, and communities to find operational savings (including school closures).

Use Proposition 98 funds to increase base funding. We see no alternative to reducing total funding to districts when enrollments decline (after the one-year adjustment). We considered whether the state should base the declining enrollment adjustment on the average of the past three years of attendance (as some other states do). But the small number of districts currently in fiscal trouble suggests that the one-year adjustment is sufficient in most cases. Filling budgetary holes in districts that have permanently lost enrollment would give them an even larger per pupil funding advantage than they currently receive from the one-year declining enrollment adjustment.

¹³ These numbers are based on the LAO’s November 2019 “growth” forecast, which projects attendance declines over the next four years that are somewhat larger than the DOF’s enrollment projections. We estimate that the DOF’s projections would generate a per pupil increase of about \$90 a year.

¹⁴ Per pupil amounts for schools would fall because of lower General Fund, but the situation would be slightly better for schools than if Tests 2 or 3 were in effect.

¹⁵ We considered other policy changes that could help shrinking districts but decided against recommending them. For instance, we considered a “sparsity adjustment” to acknowledge the higher average costs—and reduced financial flexibility—that make falling enrollment especially challenging for most small rural districts. However, sparsity is not a product of declining enrollment. We also considered suggesting exceptions to the LIFO layoff rules that would give declining districts greater flexibility in staffing reductions. This area of state policy is highly contested, however, and districts have other tools (such as retirement incentives) to manage their workforce.

¹⁶ This agency is funded by the state to provide fiscal support to districts and county offices of education. It also conducts studies of district fiscal issues, and has conducted in-depth audits of several districts that are struggling to cope with declining enrollment.

That goes against the state’s objective of equal funding for similar districts. Moreover, increasing the adjustment beyond one year would only provide temporary relief, delaying future cuts at significant cost to the state.

A more sensible option would be to use the extra funds generated by the Proposition 98 Test 1 increase to boost the LCFF base grant for all districts.¹⁷ Under current law, the LCFF formulas are revised each year to account for changes in enrollment and inflation (and to calculate any declining enrollment adjustment). Increasing base grants would give shrinking districts more resources without deviating from the current funding structure. It would also help districts with other fiscal stresses, such as rising special education and pension costs.

The governor and legislature could consider some changes to the existing declining enrollment adjustment. Extending declining enrollment protection to charter schools would give these schools the same one-year protection as regular district schools. The state could also provide greater protections when district enrollment drops are large and sudden. This would place a percentage floor on the loss of attendance in any one year.

Conclusion

The past 10 years have demonstrated that most districts are able to cope with declining enrollment. But in the coming decade districts may face a stiffer financial test, as a faster decline in enrollments coincide with slower revenue growth and other cost increases. We have outlined state actions that can help all districts deal with these challenges. However, future drops in enrollment may be larger than forecast by DOF, and we suggest that policymakers monitor the impact of district declines and ensure that faltering districts receive the attention and assistance needed to return to financial health.

While declining enrollment poses many challenges, there is a silver lining: the reduction in the K–12 population will increase per pupil funding under Proposition 98, giving state policymakers additional resources to help districts facing multiple fiscal challenges, including budget cuts due to falling enrollment. The declining K–12 population also reduces Proposition 98’s share of the General Fund, freeing up funding for program priorities in any part of the budget. With some long-range planning and continued economic growth, the decline in K–12 enrollment could allow the state to rethink its budgetary priorities and make significant investments in new programs.

¹⁷ The LCFF is distributed using three formulas: one is designed to support the base cost of educating all students. The other two—known as supplemental and concentration grants—provide additional support for students with greater educational needs, and are distributed based on the number and share of low-income, English Learner, and/or foster care students.

ABOUT THE AUTHORS

Paul Warren is a PPIC research associate who focuses on K–12 education finance and accountability. Before he joined PPIC, he worked in the California Legislative Analyst’s Office for more than 20 years as a policy analyst and director. He primarily analyzed education policy, but he also addressed welfare and tax issues. Prior to that, he was chief consultant to the state Assembly’s committee on education. He also served as deputy director for the California Department of Education, helping to implement testing and accountability programs. He holds a master’s degree in public policy from Harvard’s Kennedy School of Government.

Julien Lafortune is a PPIC research fellow who specializes in K–12 education. His primary areas of focus include education finance, school capital funding policy, and educational tracking and stratification. He has published research on the impacts of school finance reforms on student achievement in the *American Economic Journal: Applied Economics*. He holds a PhD in economics from the University of California, Berkeley.

ACKNOWLEDGMENTS

The report benefitted from many helpful conversations, comments, and critiques. The authors wish to thank Deborah Gonzalez, Laura Hill, Hans Johnson, Robert Miyashiro, and Sean Tanner for their insightful comments and suggestions on earlier drafts. We also thank Vicki Hsieh and Mary Severance for outstanding editorial assistance. We are especially grateful for helpful conversations with Mike Fine, Paul Hill, Sara Bachez, John Gray, and staff at the Calaveras County Office of Education, the Los Angeles County Office of Education, and Long Beach Unified School District. This research would not have been possible without the public data provided by the California Department of Education and the California Department of Finance. Any errors are our own.

The Facts on Tampons—and How to Use Them Safely

Tampons—shown within an applicator on the left and outside of an applicator on the right—are regulated by the U.S. Food and Drug Administration as medical devices.

[Español \(/consumers/articulos-en-espanol/informacion-sobre-los-tampones-y-como-usarlos-con-seguridad\)](#)

If you use tampons during your period (also called a “menstrual cycle”), it’s important to know the basics for how to use them safely. Consider this important information from the U.S. Food and Drug Administration—and please share it with friends and loved ones who may use these products.

What are tampons—and what are they made of?

You may be surprised to know that the FDA regulates tampons as medical devices. Tampons are inserted into the vagina to absorb menstrual flow when people have their periods. They are cylindrical in shape and made of cotton, rayon, or a blend of the two. Tampons are either

designed to be inserted using a plastic or cardboard applicator or to be directly inserted, without an applicator.

What should you know about different types of tampons? And are tampons safe?

Tampons are available in “organic” and standard varieties. Tampons are also available in “scented” and “unscented” options. But before *any* tampons can be sold, they must go through FDA review to determine whether they are substantially equivalent to, including as safe and effective as, a legally marketed tampon.

As part of this FDA review, manufacturers submit, among other information, the results of testing to evaluate the safety of the materials used to make tampons and applicators (if present); tampons’ absorbency, strength, and integrity; and whether tampons enhance the growth of certain harmful bacteria or alter normal bacterial growth in the vagina.

The absorbent fibers used in tampons sold today are made with a bleaching process that is free from elemental chlorine, which also prevents products from having dangerous levels of dioxin (a type of pollutant found in the environment).

The bottom line: The FDA views any marketed tampons that comply with FDA requirements, including FDA premarket review, to be safe and effective when used as directed.

What do consumers need to know in order to use tampons safely?

You may want to ask your health care provider if you have questions about whether tampons—or other FDA-regulated products such as menstrual pads or cups—are right for you. If you decide to use tampons, consider the following general advice.

1. **Follow all labeled directions.** Even if you’ve used tampons before, refresh yourself on best practices, including any information on washing your hands before and after use. (Note: A tampon cannot get “lost” in your body when used as directed.)
2. **Only use tampons when you have your period—and only use them as directed.** Tampons are not intended to be used at any other time.
3. **Change each tampon every 4 to 8 hours.** Never wear a single tampon for more than 8 hours at a time.
4. **Use the lowest absorbency tampon that you need.** Consider how heavy or light your period is and how often you need to change your tampon. If you can wear one tampon up to eight hours without changing it, the absorbency may be too high.
5. **Consider which period products are best for different activities.** For example, if you need coverage for longer than 8 hours, such as when sleeping, choose

^
Top ()

a pad instead.

- 6. Beware of pain or other unusual symptoms.** Tell your health care provider if you ever have discomfort, pain, or other unusual symptoms like unusual discharge when trying to insert or wear a tampon. (Note: You shouldn't feel a tampon when it is inserted properly.) These symptoms may mean that you need to take a break from using tampons. Symptoms such as a sudden fever (usually 102°F or more) and vomiting, diarrhea, fainting or feeling like you are going to faint when standing up, dizziness, or a rash that looks like a sunburn may be signs of toxic shock syndrome (TSS). If you have any of these symptoms during your period, remove the tampon and seek medical attention immediately. And if you have these symptoms soon after your period, seek medical attention immediately. If you ever have an allergic reaction or irritation from using tampons, stop using tampons and talk with your health care provider.

Finally, if you ever have a problem with a tampon, consider also reporting it to MedWatch ([/medwatch-fda-safety-information-and-adverse-event-reporting-program](https://www.fda.gov/medwatch)), the FDA's safety information and adverse event reporting program.

What should you know about toxic shock syndrome (TSS)?

One safety issue associated with using tampons is toxic shock syndrome (<https://medlineplus.gov/ency/article/000653.htm>), a rare disease caused by a toxic substance that is produced by certain kinds of bacteria (<https://medlineplus.gov/ency/article/000653.htm>). The toxic substance can cause organ damage (including kidney, heart, and liver failure), shock, and even death.

Rates of reported TSS cases associated with tampons have declined significantly over the past 20 years. One reason is that, as part of the premarket review, the FDA evaluates whether a tampon enhances the growth of the bacteria that causes TSS before deciding whether the product can be marketed. The FDA also believes that more informative tampon labeling, as well as educational efforts by the FDA and manufacturers, have contributed to this major reduction in TSS cases.

While TSS is rare today, the risk is higher if you:

- use more absorbent tampons than needed, or
- wear a tampon for longer than recommended.

So remember to follow the safety instructions on the tampon labeling and consider the advice outlined above.

Pads, tampons, period underwear, and cups – sometimes called “feminine hygiene products” – absorb or collect the blood and tissue that comes out of your vagina during your period.

Problems with your period?

FIND A HEALTH CENTER [➔ \(/HEALTH-CENTER\)](/HEALTH-CENTER)

What are pads, tampons, period underwear, and menstrual cups?

Pads, tampons, period underwear, and cups let you go about your normal life during your period, without getting blood on your clothes or sheets. Tampons and cups go inside your vagina, pads are worn in your underwear, and you can wear period underwear instead of regular underwear on the days you have your period.

Pads (sometimes called sanitary pads) are narrow pieces of material that you stick to your underwear. Some have “wings” or flaps that fold over the sides of your underwear to protect against leaks and stains. Some pads are made out of disposable materials – you use them once and throw them away. Other pads are made from fabric, and can be washed and reused.

Tampons are little plugs made of cotton that fit inside your vagina and soak up menstrual blood. Some tampons come with an applicator that helps you put in the tampon. Tampons have a string attached to the end, so you can easily pull them out.

Period underwear (AKA period panties) are just like regular underwear, except they have extra layers of fabric that absorb your menstrual blood during your period. There are different kinds of period underwear for light, medium, or heavy flow days. You can wear period panties on their own, or with a tampon or menstrual cup.

Menstrual cups are shaped like little bells or bowls, and they're made of rubber, silicone, or soft plastic. You wear the cup inside your vagina, and it collects menstrual blood. Most cups are reusable – you just empty it when you need to, wash it, and use it again. Other menstrual cups are disposable – you throw it away after one use or one period cycle.

If you have an IUD, don't use a menstrual cup. Using a menstrual cup can cause your IUD to move out of place.

Tampons and cups can't get stuck, get lost inside you, or move to another part of your body. The muscles in your vagina hold them in place (without you even knowing!), and they stay inside your body until you take them out. Most people can't feel tampons or cups at all when they're in the right spot. You can wear tampons and cups in the water, and during all kinds of sports and activities.

What type of period protection is right for me?

It's totally up to you! Think about your lifestyle and what will best fit your needs. It's also helpful to try different products, or ask a friend or family member what works for them.

It's common to use different things at different times during your period. For example, someone may use tampons during the day and pads at night. You can also wear period underwear, a pad, or a pantyliner (a thin pad) while you're using a tampon or cup, for backup protection in case of leaks.

Some people think wearing a tampon or cup inside your vagina is more comfortable and convenient, because it's out of the way and you usually can't feel it. Others feel like period underwear and pads are more comfortable than tampons or cups, or they prefer period underwear or pads because they don't want to put an object in their vagina. But you can't wear period underwear or a pad in the water, and pads can move out of place or feel awkward during some activities. So use a tampon or cup when you're swimming or playing sports during your period.

Many people like the convenience of products that you use once and throw away, like tampons and disposable pads. These are usually easier to find in stores, too. Others choose reusable protection, like menstrual cups, period underwear, or fabric pads, because they can save money and they're better for the environment.

Don't use scented tampons or pads, vaginal deodorants, or douches – they can lead to irritation or infection. Some people worry about the way their period smells, but chances are that no one will be able to tell that you have your period. Just make sure to change your pad, tampon, period

underwear, or cup often.

How to use pads

Pads come in different sizes – they can be thin for when you're not bleeding much (pantyliners), regular, or thick for heavier bleeding ("maxi" or "super" pads). You can use whichever kind feels most comfortable to you.

- Stick the pad in your underwear using the sticky strip on the back. Some reusable pads are held in place with snaps or the elastic in your underwear.
- Change your pad every few hours, or when it's soaked with blood.
- Wrap used pads in the wrapper or toilet paper and throw them in the trash. Flushing used pads or wrappers down the toilet will clog it up.

How to use tampons

Tampons come in different "sizes" (absorbencies), like light, regular, and super. It's best to use the lowest or lightest absorbency that lasts you a few hours. Some tampons come with applicators – small sticks made of cardboard or plastic that help you put the tampon in your vagina. And some tampons don't have an applicator, so you just put them in with your finger.

- Wash your hands and get into a comfortable position. You can squat, put one leg up, or sit on the toilet with your knees apart.
- Push the tampon into your vagina using the applicator or your finger, depending on what kind of tampon you have.
 - Inserting a tampon in your vagina is more comfortable if you're relaxed. Using tampons with smooth, rounded applicators may make it easier. You can also put a little bit of lubricant on the tip of the tampon or applicator. If you're having trouble, ask someone you trust (like your mom, sister, or another person you trust who has used tampons) to show you how to put the tampon into your vagina.
- Throw the wrapper and applicator in the trash – don't flush them.
- It's best to change your tampon every 4-8 hours. Don't leave your tampon in for more than 8 hours. You can wear a tampon overnight, but put it in right before bed and change it as soon as you get up in the morning.
- Tampons have a string at one end that hangs out of your vagina. You take the tampon out by gently pulling the string. It's easier to take your tampon out when it's wet from absorbing the max amount of period flow it can.
- Wrap used tampons in toilet paper and throw them away in the trash – don't flush them.

If a tampon is in your vagina for a long time it can cause an illness called toxic shock syndrome (TSS). TSS is really rare, but dangerous. If you're using a tampon and have vomiting, a high fever, diarrhea, muscle aches, a sore throat, dizziness, faintness or weakness, and a sunburn-type rash, take the tampon out and call your doctor right away. To help prevent TSS, use the lowest absorbency tampon you can and change your tampon every 4-8 hours or as often as needed.

Putting in a tampon usually doesn't hurt, but it may take some practice in the beginning. Try different kinds until you figure out what you like best, but don't wear tampons unless you're actually having your period.

If putting in a tampon is very painful, talk with a doctor or nurse about it. You may have a medical condition, or it may be that your hymen is covering the opening to your vagina. Either way, a doctor or nurse can help you figure out why it's causing pain and figure out what to do about it.

How to use menstrual cups

There are different kinds of cups, and they all come with specific step-by-step instructions and pictures. Cups may look kind of big, but most people can't feel them once they're in.

- Wash your hands and get into a comfortable position. You can squat, put one leg up, or sit on the toilet with your knees apart.
- Squeeze or fold the cup so it's narrow, and slide it into your vagina with your fingers. Use the directions that came with your cup to figure out the best way to squeeze it and how to place the cup.
 - Putting a cup in your vagina is more comfortable if you're relaxed. If you're having trouble, ask someone you trust (like your mom, sister, or another person you trust) to show you how to put it in your vagina.
- Some cups need to be put high into your vagina, near your cervix. Others sit in the lower part of your vagina. If your cup is uncomfortable or in the wrong spot, take it out and try again.
- You wear a menstrual cup for 8-12 hours at a time, or until it's full.
- Some menstrual cups have a little stem that you pull on to take it out. Others are removed by hooking a finger around the rim, squeezing it, and pulling it out.
- Most cups are reusable: you use the same cup over and over. Empty it into the toilet, sink, or shower drain, and wash it out before reusing it. If you're in a place where you can't wash your cup, just empty it and put it back in. You can wash it later when you're in a private bathroom or at home. Always follow the cleaning and storage directions that came with your cup.
- Other cups are disposable: you throw them away after one use, or one period. Wrap these cups in their wrapper or toilet paper and throw them away – don't flush them down the toilet.

Putting in a cup shouldn't hurt, but it may take some practice in the beginning. It may even take a couple of periods until you feel like you've gotten the hang of it. You can wear a pad as a backup in case your cup leaks, but you can't wear a tampon and a cup at the same time.

If putting in a cup is very painful, talk with a doctor or nurse about it. You may have a medical condition, or it may be that your hymen is covering the opening to your vagina. Either way, a doctor or nurse can help you figure out why it's causing pain and figure out what to do about it.

How to use period underwear

Wear your period underwear on days when you're bleeding. You can wash your period underwear in the washing machine, the same way you wash the rest of your underwear. Your period underwear will come with instructions that explain the best way to wash them.

If you have a heavy flow or you're wearing light-flow period underwear, you may need to change your period underwear more often than once a day, or get some extra help from a tampon, pad, or menstrual cup.

Which Is Right for You?

Once you get your period, you'll need to use something to soak up the [menstrual blood](#). Your choices are a pad or a tampon. If you've ever seen them on the store shelves, you know there are many varieties to choose from. How do you know which one is right for you?

en español

[Compresas y tampones](#)

Let's start by explaining exactly what each one is.

Pads are rectangles of absorbent material that you stick to the inside of your underwear. Some have extra material on the sides (called "wings") that fold over the edges of your underwear to better hold the pad in place and prevent leakage. Sometimes, pads are called sanitary pads or sanitary napkins.

Tampons (say: TAM-ponz) also absorb menstrual blood, but they work from inside the vagina. A tampon is also made of absorbent material, but it's pressed tight into a small cylinder shape. The question all girls wonder is — how do you put them in? Some tampons have applicators, which are plastic or cardboard tubes that help put the tampon in place. Other tampons can be inserted using your fingers.

Many girls start out using pads, but might want to use tampons when they do sports or go swimming. You'll want to talk to your mom or another woman you trust when you are trying to decide which is right for you.

Light or Heavy Flow?

Pads come in different sizes for heavier and lighter periods. They also come in deodorant varieties, but these can irritate the vagina. Simply changing pads often can cut down on any odor.

You might wonder how often pads must be changed. It depends on how much menstrual blood you have, but it's a good idea to change pads at least every 3 or 4 hours even if you're not menstruating much. Naturally, if your period is heavy, you should change pads more often because they may get saturated more quickly.

Once you've removed your pad, wrap it in toilet paper and put it in the trash can (or if you're in school or another public restroom, use the special disposal box that's found in most stalls). If you have a pet at home, make sure you throw pads away in a trash can that your pet can't get into. Don't try to flush a pad down the toilet — they're too big and may back up the toilet and make a huge (embarrassing!) mess.

Like pads, tampons come in different sizes for heavier and lighter periods. "Super" generally means that variety is for heavy flow. Try to use the least-absorbent tampon that you need. Using one that's too absorbent can cause problems. Like pads, tampons also

Tampons Can't Get "Lost"

Many girls worry the tampon might get lost inside them. Luckily, that can't happen. The opening of the cervix (located at the top of the vagina) is just too tiny for a tampon to get through. It can't travel to other parts of your body, like your stomach.

Tampons typically have a string attached to one end that stays outside a girl's body and can be used to remove the tampon at any time. If you have trouble finding the string at first, don't worry. Relax and you'll be able to find it. If you're having trouble, tell a parent.

It's possible to forget you have a tampon in and insert another one. But they still can't get lost in your body. If this happens, just remove them as soon as possible.

A tampon needs to be changed every 4 to 6 hours or when it's saturated with blood. Because you can't see it as you would with a pad, you'll need to remember when it's time to change, or spotting and leakage will occur on your underwear. Pull gently on the string that is attached to the end of the tampon, pull it out, wrap it in toilet paper, and throw it in the trash. If you have a pet at home, make sure you throw tampons away in a trash can that your pet can't get into. Don't flush it in the toilet — even tampons that say they're flushable can still cause problems in some toilets.

Preventing Toxic Shock Syndrome

It's **very** important that you change your tampon every few hours, even if your period is light. Why? Because leaving one in too long — like all day or all night — puts you at risk for a rare but very dangerous illness called toxic shock syndrome (TSS). That's why it's a good idea to use the least-absorbent tampon you need. That may sound weird. You might think the most-absorbent one would be best because you wouldn't have to change it as often.

But when you keep a tampon in too long, [bacteria](#) can grow. Girls who use very absorbent tampons are most at risk for this especially if the tampons are kept in for a long time, giving the bacteria plenty of time to grow. These bacteria can grow within the tampon, enter the body from inside the vagina, then invade the bloodstream, releasing toxins that can cause a very severe, and occasionally life-threatening, illness.

Symptoms of TSS include high fever, vomiting or diarrhea, severe muscle aches, a feeling of extreme weakness or dizziness, and a rash that looks like a sunburn. If you ever have these symptoms while wearing a tampon, remove it and tell an adult **immediately**. Have someone take you to the nearest emergency department as soon as possible.

But remember that this problem is very rare and most women never become ill from using tampons. When deciding whether to use pads or tampons, it's really up to you. Some girls like tampons because they can go swimming with no problem, and they are easy to store in a purse or pocket. Another advantage to tampons is that they can't be felt because they're inside the body. A pad may feel bulky to some girls.

Other girls like pads because they're easy to use, and it's easier to remember when to change them since you can see them getting soaked with blood. Many girls switch back

Even if you haven't started your period yet, it's a good idea to be prepared by carrying a few pads or tampons with you, just in case. Then, if today is the day, you'll be ready!

All About Periods

for Parents

for Kids

for Teens

For Educators

Reviewed by: [Krishna Wood White, MD, MPH](#)

A period is a release of blood from a girl's [uterus](#), out through her vagina. It is a sign that she is getting close to the end of [puberty](#).

en español

[Todo sobre la menstruación](#)

There is a lot to learn about periods. Here are some common questions that teens have.

When Do Most Girls Get Their Period?

Most girls get their first period when they're around 12. But getting it any time between age 10 and 15 is OK. Every girl's body has its own schedule.

There isn't one right age for a girl to get her period. But there are some clues that it will start soon:

- Most of the time, a girl gets her period about 2 years after her breasts start to develop.
- Another sign is [vaginal discharge](#) fluid (sort of like mucus) that a girl might see or feel on her underwear. This discharge usually begins about 6 months to a year before a girl gets her first period.

What Causes a Period?

A period happens because of changes in [hormones](#) in the body. Hormones are chemical messengers. The ovaries release the female hormones [estrogen](#) and [progesterone](#). These hormones cause the lining of the uterus (or womb) to build up. The built-up lining is ready for a fertilized egg to attach to and start developing. If there is no fertilized egg, the lining breaks down and bleeds. Then the same process happens all over again.

It usually takes about a month for the lining to build up, then break down. That is why most girls and women get their periods around once a month.

How Does Ovulation Relate to Periods?

Ovulation (pronounced: ov-yoo-LAY-shun) is the release of an egg from the ovaries. The same hormones that cause the uterus lining to build up also cause an egg to leave one of the ovaries. The egg travels through a thin tube called a fallopian tube to the uterus.

[Irregular Periods](#)

[Tampons, Pads, and Other Period Supplies](#)

[Vaginal Discharge: What's Normal, What's Not](#)

[Female Reproductive System](#)

[View more](#)

For the first few years after a girl starts her period, it may not come regularly. This is normal at first. By about 2–3 years after her first period, a girl's periods should be coming around once every 4–5 weeks.

Can for Parents for Kids **for Teens** For Educators

Yes, a girl can get pregnant as soon as her period starts. A girl can even get pregnant right before her very first period. This is because a girl's hormones might already be active. The hormones may have led to [ovulation](#) and the building of the uterine wall. If a girl has sex, she can get pregnant, even though she has never had a period.

How Long Do Periods Last?

Periods usually last about 5 days. But a period can be shorter or last longer.

How Often Does a Period Happen?

Periods usually happen about once every 4–5 weeks. But some girls get their periods a little less or more often.

Should I Use a Pad, Tampon, or Menstrual Cup?

You have [many choices](#) about how to deal with period blood. You may need to experiment a bit to find which works best for you. Some girls use only one method and others switch between different methods.

- Most girls use **pads** when they first get their period. Pads are made of cotton and come in lots of different sizes and shapes. They have sticky strips that attach to the underwear.
- Many girls find **tampons** more convenient than pads, especially when playing sports or swimming. A tampon is a cotton plug that a girl puts into her vagina. Most tampons come with an applicator that guides the tampon into place. The tampon absorbs the blood. Don't leave a tampon in for more than 8 hours because this can increase your risk of a serious infection called [toxic shock syndrome](#).
- Some girls prefer a **menstrual cup**. Most menstrual cups are made of silicone. To use a menstrual cup, a girl inserts it into her vagina. It holds the blood until she empties it.

How Much Blood Comes Out?

It may look like a lot of blood, but a girl usually only loses a few tablespoons of blood during the whole period. Most girls need to change their pad, tampon, or menstrual cup about 3–6 times a day.

Will I Have Periods for the Rest of My Life?

When women reach menopause (around age 45–55), their periods will permanently stop. Women also won't have a period while they are [pregnant](#).

What Is PMS?

PMS (premenstrual syndrome) is when a girl has emotional and physical symptoms that happen before or during her period. These symptoms can include moodiness, sadness, anxiety, bloating, and acne. The symptoms go away after the first few days of a period.

What Can I Do About Cramps?

Should I Watch for Any Problems?

Most girls don't have any problems with their periods. But call your doctor if you:

- [for Parents](#) or [for Kids](#) **for Teens** [For Educators](#)
- have had your period for more than 2 years and it still doesn't come regularly (about every 4–5 weeks)
- have bleeding between periods
- have severe cramps that don't get better with ibuprofen or naproxen
- have very heavy bleeding (bleeding that goes through a pad or tampon faster than every 1 hour)
- have periods that last more than about a week
- have severe PMS that gets in the way of your everyday activities

Looking Ahead

Periods are a natural, healthy part of a girl's life. They shouldn't get in the way of exercising, having fun, and enjoying life. If you have questions about periods, ask your doctor, a parent, health teacher, school nurse, or older sister.

For many entities, capital assets represent a significant investment of resources. As such, to make the most of your investment, these assets need to be actively accounted for and managed. Depreciating assets over their useful life is not only beneficial to your organization but is required by GASB 34. This overview is intended to get you started on your way to understanding these topics and more.

What is Depreciation?

Depreciation is “the systematic and rational allocation of the acquisition cost of an asset, less its estimated salvage value or residual value, over the assets estimated useful life.”¹ Simply said, it’s a way of allocating a portion of the cost of an asset over the period it can be used.

What is Useful Life?

Useful life is “an estimate of the average number of years an asset is considered useable before its value is fully depreciated.”¹

According to GASB 34, to estimate useful life, "governments can use (a) general guidelines obtained from professional appraisers, (b) information for comparable assets of other governments, or (c) information from other sources. Following guidelines obtained from an organization, you may find it helpful to consider an asset's current condition, the quality of the asset, or how the asset will be used when estimating its useful life. Regardless, we recommend that all organizations have guidelines in place

[GET A DEMO](#)

Useful Life Estimates

What is the useful life of a computer? How about an automobile? What about athletic equipment? Here are some examples of the useful life estimates recommended by AssetWorks.

CATEGORY	DESCRIPTION	USEFUL LIFE (yrs)
Machinery and Equipment	Books and Multimedia Materials	5
Machinery and Equipment	Computer Equipment	5
Licensed Vehicles	General Automobile	8
Machinery and Equipment	Science and Engineering Equipment	10
Machinery and Equipment	Audiovisual Equipment	10
Machinery and Equipment	Athletic Equipment	10
Machinery and Equipment	Grounds and Maintenance Equipment	15
Land Improvements	Fencing	20
Machinery and Equipment	Playground Structures	20

How is Depreciation Calculated?

While there are several forms of depreciation including straight-line and various accelerated methods, many entities choose to apply straight line depreciation. Below is an example of how straight-line depreciation can be calculated for a playground structure.

1. To calculate depreciation, we must first identify the acquisition cost, salvage value, and useful life. For our playground structure, let's say the cost was **\$21,500**. We'll use a salvage value of 0 and based on the chart above, a useful life of **20 years**.

2. If we apply the equation for straight line depreciation, we would subtract the salvage value from the cost and then divide by the useful life.

The result would look something like this: **$(\$21,500 - \$0) / 20 \text{ years} = \$1075 \text{ annual depreciation}$** .

Of course, there are many software programs out there that will not only help you track your organizations assets but will also calculate depreciation and produce reports for you.

How does your organization currently calculate depreciation and account for capital assets? Stay tuned for a more in depth look at topics like GASB 34, useful life and depreciation.

Feminine Hygiene: The Untapped Market

BY BECKY MOLLENKAMP

Beyond the walls of a women's restroom, feminine hygiene products get very little attention. While jan/san distributors and facility managers may not think much of this low-volume product category, it's very important to 50 percent of the population.

"Frankly, I think this issue gets ignored," says Louis Salazar, CEO of [American Chemical and Sanitary Supply](#) in Anaheim, Calif. "It's just not something we guys think of naturally. Consciousness needs to be awakened to make business owners more sensitive to women's needs."

Many businesses don't offer dispensing or disposal devices for tampons and sanitary napkins. Some have never considered the option, while others expect women will bring their own supplies and dispose of them in the regular trash. Businesses that do offer the items often consider only price (not quality or selection) when choosing products.

and feminine hygiene products are a low-volume, low-profit category. Because of this, jan/san salespeople often fail to suggest the items to customers. Also problematic: The industry is still dominated by men, who don't entirely understand women's issues.

"Men don't realize the inherent problems that women have for obvious reasons," says Harvey Hiller, president of [Liberty Paper and Janitorial Supply](#) in Bayonne, N.J. "It's a matter of educating the customer on the importance of this and letting them know these items are available. They think about everything else but not this."

Distributors say dispensers are often installed only after female employees band together and demand them. And the increasing number of women in purchasing positions has also helped.

"As women get in those buying positions they are making a statement that they are going to use better products and better practices," says Mike Wright, owner of Upstate Facility Solutions in Rochester, N.Y.

While feminine hygiene products will never be a big moneymaker for distributors, they can go a long way in creating goodwill with half of a building's users or occupants. That's why it's important that everyone in the jan/san industry, particularly men, learn what's available.

Dispensers

There isn't great variety in the coin-operated dispensers that distribute tampons and sanitary napkins. Most are wall-mounted stainless-steel cabinets that include one or two slots for tampons and one or two slots for pads.

Distributors also provide the product that goes in the dispenser because retail packaging does not fit in the units. While not a profit center, facilities typically break even on their purchases from the coins collected by the machine.

Despite this return on investment, many facility managers still purchase refills based solely on price. Instead of national retail brands most women are comfortable with, many machines offer proprietary brands from jan/san manufacturers.

"As women enter the procurement industry, they are starting to take a look at the quality and going with brands that they would buy on the shelf of the retail

Dispensers typically last 20 or more years with very minimal maintenance. The most common problem is theft, which tends to increase during a weak economy.

“We see a lot of vandalism in high schools and colleges,” says Ron O’Brien sales representative for [Eagle Maintenance Supply Inc.](#) in Pennsauken, N.J. “The older units you couldn’t get into but some of the new ones are made out of cheap metal that you can get into. It’s important to secure them well with locks to avoid vandalism.”

Dispensers are commonplace in restrooms at large businesses. Companies with fewer than 50 employees, however, typically don’t offer dispensers. For a small investment of just a few hundred dollars, these businesses could offer a customer convenience that creates goodwill.

“I do believe that there’s a market that could be tapped,” Salazar says. “I just don’t think it comes naturally to business owners to think of it.”

Disposal Units

The most important feminine hygiene product is the disposal unit, which collects used and discarded materials until a janitor can remove them from the restroom.

There are a few basic types of disposal units available (most come in stainless-steel, chrome or baked white-enamel finishes). The first option is a recessed receptacle that is installed in the restroom stall partition, either as a single-stall unit or a double unit shared by users on either side of the partition. These units, favored by high-profile buildings, are sleek and inconspicuous, but repairs can be costly.

Another option is a single- or double-stall unit that sits on the floor. Some floor units are able to be opened using a foot-pedal or motion-activated sensor. These units can eliminate the need for hand contact but they take up floor space, which can be unattractive and makes cleaning more difficult.

The most affordable receptacle is the wall-mounted unit designed to service an individual stall. While they are affordable and slim, the units can service only one stall and require the user to touch the lid.

Units typically use anti-leak plastic or wax-coated paper liners to collect waste. The wax option sits up straight in the unit and looks tidier, however, it can’t be

and perfume-impregnated varieties. Some units themselves even feature a deodorizer.

Not surprisingly, popularity of disposal units is related to price; wall-mount receptacles are most widely used and in-wall units are least common. What is surprising, however, is how few buildings offer disposal units at all. To avoid plumbing issues, disposal units should be available in every women's restroom, but many companies (even those that offer dispensers) skip it.

"A commissioned sales guy stands to gain \$1 to \$2 of profit off selling an item like this so it's not something they focus on," says Salazar, who reports as few as 40 percent of his customers have the units. "But conscientious salespeople will look for items like that for credibility."

Facility managers often assume women will dispose of sanitary products in the regular waste receptacle. But in reality, many women flush them down the toilet, potentially leading to clogs. The distributor salesperson should help customers understand that a \$20 receptacle can save hundreds or thousands of dollars in plumbing bills.

After a recent \$300 plumbing bill for snaking out sanitary napkins, an Upstate Facility Solutions customer finally decided to put in a disposal unit with signage.

Next time customers ask about restroom care products, think beyond the towels, soap and chemicals. Feminine hygiene products are integral to overall cleanliness and should not be left out of the mix.

Becky Mollenkamp is a freelance writer based in Des Moines, Iowa. She is a frequent contributor to Sanitary Maintenance.

Safe Clean Up

Although feminine-hygiene waste includes blood, their cleanup does not fall under the **Occupational Safety and Health Administration** (OSHA) bloodborne pathogens standard. Red-bagging is not required, however, OSHA does "expect products such as discarded sanitary napkins to be discarded into waste containers, which are lined in such a way as to prevent [janitor] contact with the contents."

To avoid odor problems, waste should be collected at least once a day. Janitors should wear gloves when collecting the liners from disposal units. Those bags

“Many years ago I cleaned the ladies’ room and we found syringes and stuff in those disposal units,” says Ron O’Brien of Eagle Maintenance Supply Inc. in Pennsauken, N.J. “If you have a clear bag you can see what’s there.”

The disposal units should be cleaned, inside and out, with a neutral disinfectant before the liner is replaced. Likewise, dispensing units should be cleaned daily with a disinfectant; they are touch points that can cause cross-contamination problems if overlooked.
