CITY OF SAN DIEGO FY 2007 INDUSTRIAL AND COMMERCIAL STORM WATER INSPECTIONS

1.1 BMP AND STORM WATER KNOWLEDGE ASSESSMENT

As in previous years, each inspected facility was assigned a rating to reflect the level of BMP implementation noted at the site, and a separate rating to reflect the facility manager/responsible party's level of storm water knowledge. These assessment procedures were used in 2004-2005, 2005-2006, and continued through 2006-2007.

The knowledge assessment ratings were designed to gauge knowledge of storm water pollution prevention and implementation of effective BMPs; they were assigned based on how many of the following questions were answered correctly:

- *What is storm water?*
- *What is the difference between the storm drain system and the sanitary sewer system?*
- *Where does storm water flow?*
- *Is storm water treated prior to discharge?*
- *What are examples of pollutants?*
- *Is sediment a pollutant?*
- *Do you know what good house keeping or best management practices are?*
- *Do you know what NPDES is or means?*

Individuals who answered all of the aforementioned questions correctly and demonstrated an in-depth knowledge of storm water pollution prevention measures and the NPDES Storm Water Program were rated "Level 5". Individuals who answered four or more of the aforementioned questions correctly, and had a strong basic understanding of storm water pollution prevention but did not know or understand what the NPDES Storm Water Program was received a "Level 4" rating. A "Level 3" rating indicated an individual who answered three questions correctly, "Level 2" indicated one or two correctly answered questions, and a "Level 1" rating indicated that the individual was not able to answer any of the questions correctly.

At the conclusion of each inspection, the inspector evaluated his or her notes and corrective actions and assigned each facility a BMP assessment rating. The following provides a breakdown of how BMP assessment ratings were designated:

- "Level 5": All required general and activity specific BMPs had been implemented effectively. If available, monitoring results indicated that all constituents sampled were below established benchmarks.
- "Level 4": BMPs had been implemented effectively but the dumpster lid was observed open and/or oil stains were noted in the general parking lot not associated with the business' activities. If available, the monitoring data indicated that one or two constituents were slightly above the established benchmarks.

- "Level 3": BMPs had been implemented with the exception of two corrective actions noted, aside from dumpster lids being open or oil stains in the general parking lot. If available, monitoring data indicated that one constituent consistently exceeded the established benchmarks.
- "Level 2": Minimal BMP implementation was in place. Three or more corrective actions were noted, with the exception of dumpster lids being open or oil stains in the general parking lot. No illegal discharge or illicit connection was noted. If available, monitoring data showed concentrations of two or more constituents well above the established benchmarks.
- "Level 1": A violation of one or more of the City's Storm Water Ordinances (illegal discharge, illicit connection, failure to properly implement required BMPs, and/or significant littering) was noted. BMP implementation was poor.

Table 5-1, provides a breakdown of information from the inspections stating the average and median ratings for BMP and knowledge assessments for 2006-2007, as well as rating frequencies, from both the 2004-2005 and 2005-2006 inspection programs for comparison.

TABLE 5-1
STATISTICAL SUMMARY OF KNOWLEDGE AND BMP ASSESSMENT SCORES

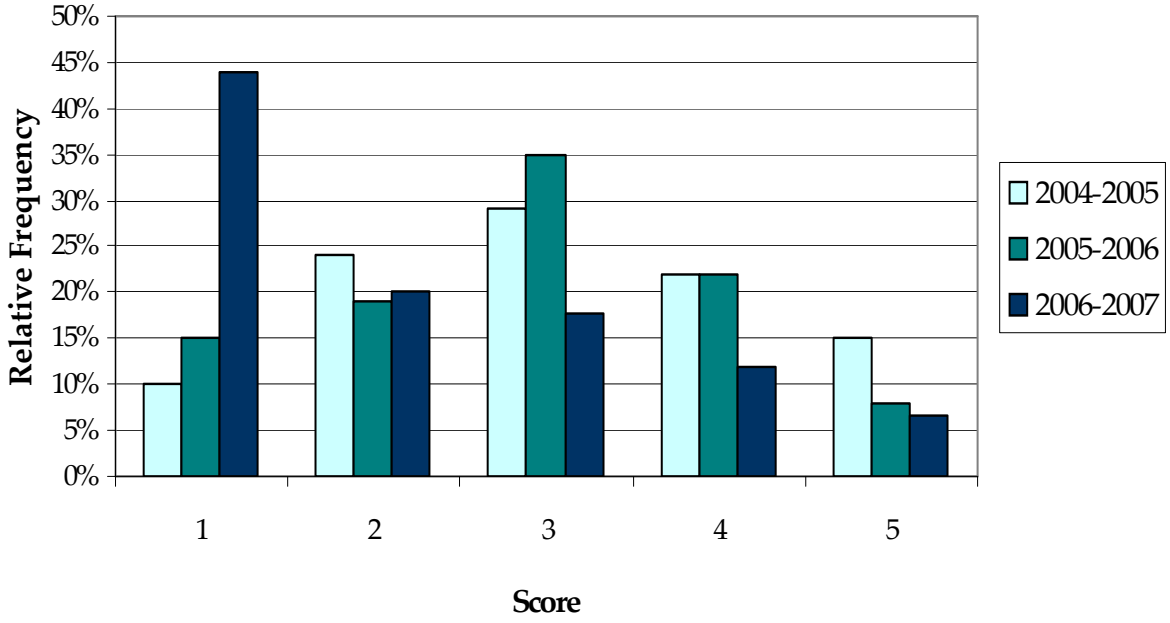
Overall Program Scores:	2004-2005	2005-2006	**2006-2007**	2004-2005	2005-2006	**2006-2007**
	Knowledge Assessment			**BMP Assessment**		
AVERAGE Rating	3.00	2.90	**2.17**	2.25	3.13	**2.65**
MEDIAN Rating	3	3	**2**	2	3	**3**
Relative Percent* of Total Scores that were:						
"Level 1" Ratings	10%	15%	**44%**	21%	15%	**23%**
"Level 2" Ratings	24%	19%	**20%**	15%	20%	**15%**
"Level 3" Ratings	29%	35%	**18%**	30%	23%	**42%**
"Level 4" Ratings	22%	22%	**12%**	27%	20%	**14%**
"Level 5" Ratings	15%	8%	**6%**	7%	21%	**6%**

*The data regarding individual score ratings in the table above is based on relative frequencies so that the three years' inspection programs, which did not include the same number of inspections, can be more directly compared. Many of the attached graphs are designed to show relative frequencies as well, which lends to better assessment of data.

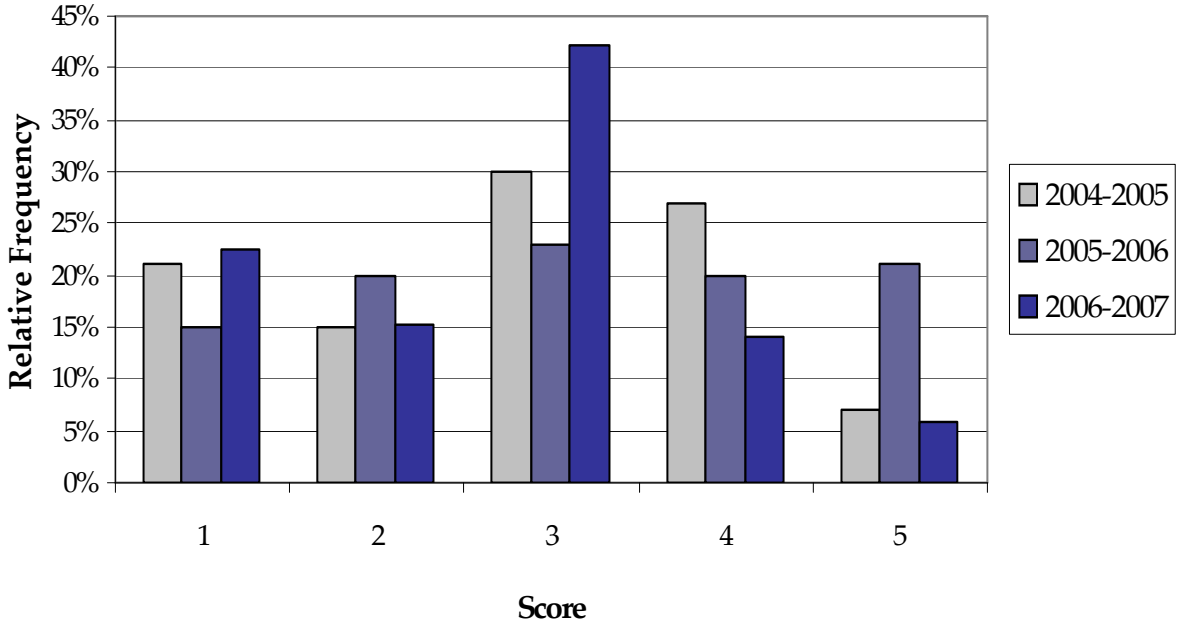
The overall average and median scores for storm water knowledge have decreased somewhat since the 2004-2005 and 2005-2006 inspection programs. During the 2006-2007 inspection program a number of businesses were visited that had not previously received storm water compliance inspections. Additionally, a decreased or similar knowledge score at a previously inspected business may be attributed to different people's knowledge being assessed than in previous years. BMP implementation scores have also decreased somewhat since the 2004-2005 and 2005-2006 inspection programs. Similar reasons for the decrease in the average knowledge assessment score may also be attributed to the decrease in BMP implementation scores. Additionally, a greater number of high priority areas were selected for inspection, which potentially contributed a greater number of lower BMP scores to the overall assessment.

Graph 5-1 and 5-2, on the following page, display relative score frequencies for storm water knowledge and BMP implementation, respectively. Graph 5-1 shows that the bulk of facilities inspected in both 2004-2005 and 2005-2006 tend to have knowledge assessment scores distributed around the peak at "3" and knowledge assessment scores from 2006-2007 distributed closer to "1". Graph 5-2 shows that the bulk of the facilities inspected during 2004-2005, 2005-2006, and 2006-2007 tend to have knowledge assessment scores distributed around the peak at "3." This suggests that many facility personnel that may not know about storm water regulations are keeping their facilities moderately clean and implementing some BMPs.

GRAPH 5-1
STORM WATER KNOWLEDGE ASSESSMENT SCORE FREQUENCIES, 2004-2005, 2005-2006, AND 2006-2007



GRAPH 5-2
BMP IMPLEMENTATION SCORE FREQUENCIES, 2004-2005, 2005-2006, AND 2006-2007



In comparing only the group of businesses that were inspected last year with the same group that was inspected this year, essentially, the businesses that received follow-ups and annual inspections, Graph 5-3 indicates a slight shift of the scores to "1" and "2." As previously mentioned, this may be due to the fact that different individuals were assessed during each inspection. It has been D-MAX's experience that because employees and managers often change from year to year, inspectors often have to introduce the storm water program anew each time an inspection is conducted at such facilities.

BMP implementation scores at facilities inspected in both 2005-2006 and 2006-2007 has increased, however. Graph 5-4 indicates a shift from lower to higher scores. While a number of facilities were observed to have a BMP score of "1," a greater number of facilities were observed have a BMP implementation score of "3," "4," and "5." Because many of the businesses inspected two consecutive years typically have a problem, either with paperwork or BMP issues, an overall shift to higher scores is positive.

Differences among businesses in different WMAs were also noted for both BMP score and knowledge score. Because San Diego Bay is a large WMA, for data analysis purposes it was broken into its Pueblo, Sweetwater, and Otay components. No inspections in the Sweetwater Watershed were conducted in 2006-2007. In general, the Pueblo and Otay watersheds tended to have the lowest knowledge scores; around 80 percent of the surveyed personnel in these areas had knowledge scores of "1" or "2". Automotive shops that had not been inspected before made up a large portion of the inspections in the Pueblo watershed, while inspections in the other watersheds were largely at industrial businesses, many of which had been inspected before. This is likely a major explanation for the low level of storm water knowledge recorded for the Pueblo Watershed. In the Otay Watershed, most of the inspected businesses were auto recyclers (wrecking yards), which have also been noted to have low knowledge scores in previous years. Many of the auto recyclers in Otay Mesa have storm water programs run by a consultant, but the facility personnel themselves tend to have low levels of storm water knowledge. About 40 percent of the businesses inspected in each of the Pueblo, Otay, and Tijuana watersheds had BMP scores of "1" or "2". Graphs 5-5 and 5-6, respectively, present the relative frequencies of knowledge and BMP scores by WMA. Please note that only three inspections were completed in the San Dieguito WMA, so results from that area carry substantially less certain than results in the other areas. Fourteen sites were inspected in the Mission Bay/La Jolla WMA and 20 in the Tijuana WMA; all other WMAs had at least 38 facilities with BMP and knowledge scores.

Station ID	Station Type	Location	Watershed	HSA	Latitude	Longitude	TBPage	TBGrid	LandUse_1	LandUse_2	Convey_Type
DW001	DWM	Interstate 15 north, exit Pomerado Rd (Near W Bernardo-not Miramar), go east, left on Highland Valley, park at San Dieguito River Park dirt lot. Walk south on the east side of Pomerado Rd; the large sized storm drain is located behind trees and shrubs.	San Dieguito River	905.21	33.05223	-117.06648	1150	B5	Residential	None	Outlet
DW002	DWM	Interstate 15 north, exit Pomerado Rd (Near W Bernardo-not Miramar) southeast on Pomerado Rd, right on Mirasol Dr, park just before Via Alta Mirasol. Walk along golf course access road, found between 17940 and 17930 Mirasol Dr. The med sized storm drain outlet is located 25 yards from street, just to the left if entering the golf course from pathway.	San Dieguito River	905.22	33.03711	-117.06806	1150	B7	Residential	None	Outlet
DW003	DWM	Interstate 15 north, exit Pomerado Rd (Near W Bernardo-not Miramar) Pomerado Rd south, left on Bernardo Trails Dr, park near 18849 Bernardo Trail Dr. Walk carefully down embankment to open drainage area with small pipe outlet.	San Dieguito River	905.21	33.04601	-117.04611	1150	D6	Residential	None	Outlet
DW004	DWM	Interstate 15 north, exit Pomerado Rd (Near W Bernardo-not Miramar) Left on Bernardo Trails Dr, south on Avenida Cordillera, park between 17832 and 17822 Avenida Cordillera. Walk between houses on lawn (let people know who you are, if necessary) and down embankment, the large pipe outlet is located at bottom of slope, approx. 25 yards from street.	San Dieguito River	905.21	33.04155	-117.05460	1150	C7	Residential	None	Outlet
DW005	DWM	I-15N, exit W. Bernardo Dr, Right on Aguamiel Rd, park ASAP. Walk 10 yards north on W Bernardo Dr on west side of road. Walk on trail though rock piles (westward). The large pipe outlet is found against property line and fence. Do not sample outlet next to road (DW006).	San Dieguito River	905.21	33.04143	-117.07826	1150	A7	Residential	None	Outlet
DW006	DWM	I-15N, exit W. Bernardo Dr, Right on Aguamiel Rd, park ASAP. Walk 10 yards north on W Bernardo Dr on west side of road. Site is located at the beginning of the trail used to access DW005. This storm drain transports water from the other neighborhood across the street.	San Dieguito River	905.21	33.04130	-117.07782	1150	A7	Residential	None	Outlet
DW008	DWM	I-15N, exit W. Bernardo Dr, Aguamiel Rd south, Right on Duenda Rd/ Poblada Rd , North on Moon Song Ct, park at cul-de-sac at end of Moon Song Ct. Open gate with gate key, walk to left on dirt trail to small bridge with small pipe underneath. This is a small creek-like drainage from the neighborhood above.	San Dieguito River	905.21	33.04445	-117.08939	1149	H6	Residential	None	Outlet
DW010	DWM	I-15N, west on Camino Del Norte, go south on Paseo Montanoso, left on Avenida de Los Lobos. At the end of Avenida de Los Lobos park near sharp left turn in road. Walk down paved service road, follow left (turn into dirt) Large pipe outlet is located to the right. This site is about 25 yards off main road.	San Dieguito River	905.12	32.99879	-117.09812	1169	G6	Residential	None	Outlet
DW011	DWM	I-15N, exit Rancho Bernardo Rd, drive east. The site is located at the northeast corner of RB Rd and Bernardo Center Dr. The large pipe outlet is located just behind bus stop.	San Dieguito River	905.22	33.02299	-117.07363	1170	A2	Commercial	Residential	Outlet
DW012	DWM	I-15N East on RB Road, park at corner of RB Rd and Bernardo Oaks Dr. The site (open culvert) is located on the south side of RB Rd, approx 25 yards east of Bernardo Oaks Dr. The site is not accessible on the north side of RB Rd	San Dieguito River	905.22	33.01872	-117.06439	1170	B3	Residential	None	Concrete Channel
DW013	DWM	I-15N, East on Camino Del Norte, North on Pomerado Rd, West on Heath Dr (other side Nazas Dr), make a quick left on La Manda, then left on Malabar Dr. Park at end of Malabar Dr in cul-de-sac. Walk east on dirt path. The sample site is located approx 15 yards east of cul-de-sac. The outlet is actually 25 yards up hill but not accessible due to vegetation.	Penasquitos	906.2	32.98750	-117.06604	1170	B7	Residential	Industrial	Outlet
DW014	DWM	I-15N, west on Camino Del Norte, right on Carmel Mountain/Paseo Lucido, left on Avenida Venusto. Park on curve located at golf course near Calle Paracho. Walk westward through golf course; the site is located on the west side of the greens beyond pond and below the I-15, approx 100 yards from vehicle. Sample the merged flows.	San Dieguito River	905.12	33.00043	-117.08155	1170	A5	Residential	None	Concrete Channel
DW015	DWM	I-15N, Southwest on Carmel Mountain Rd, Right on Cuca St, left on Bernabe Dr. Park at 10691 Bernabe Dr (corner lot). Walk down embankment at corner of property line. The pipe outlet is located at bottom of hillside in cage. Use caution with loose cobbles.	Penasquitos	906.2	32.96984	-117.09883	1189	G3	Residential	None	Outlet
DW016	DWM	I-15N, Take either 56 West or West on Carmel Mountain Rd, North on Black Mountain Rd, right on Oviedo St. Park on street at Sunset Hills School. The site is located at the bottom of embankment opposite side of street as school. Use caution on hillside.	Penasquitos	906.1	32.96948	-117.12744	1189	D3	Residential	None	Outlet
DW017	DWM	I-15N, West on Carmel Mountain Rd, north on Sparren Ave. Park at intersection of Sparren Ave and Greenberg Way. The site is located at bottom of embankment just west of Greenberg Way. There is a 3.5-foot high fence w/ two locks, none of my keys worked.	Penasquitos	906.1	32.96954	-117.13830	1189	C3	Residential	None	Outlet
DW018	DWM	I-15N to Rancho Penasquitos Blvd , west on Paseo Montril. Park at Ridgewood Park. The site is located 25 yards off street at the southwest area of park just beyond exercise area. Large pipe outlet.	Penasquitos	906.2	32.94497	-117.11653	1189	F6	Residential	None	Outlet
DW019	DWM	I-15N, to Pomerado Rd, (near Miramar, not W Bernardo) south on Semillion Blvd. Park ASAP. The pipe outlet is located on the southwest side of the Pomerado Rd and Semillion Blvd intersection. Site is approx 20 yards down embankment. Use caution w/ loose hillside. Hint: Follow open culvert to the bottom at site.	Penasquitos	906.1	32.91495	-117.07055	1210	B3	Residential	None	Outlet
DW020	DWM	I-15N, to Pomerado Rd, (near Miramar, not W Bernardo) south on Semillon Blvd, right on Spruce Grove Ave (turns into Kingspine Ave.). Park at Kingspine Ave and Barrywood Way. Pipe outlet is located west of Barrywood Way and Spruce Grove Ave approx 15 yards down embankment.	Penasquitos	906.1	32.90893	-117.07196	1210	B4	Residential	None	Outlet
DW021	DWM	I-15N, to Pomerado Rd, (near Miramar, not W Bernardo) Pomerado Rd west, north on Avenida Magnifica. Park ASAP. The pipe outlet is located 5 yards southwest of Mesa Madera Dr and Avenida Magnifica.	Penasquitos	906.1	32.90593	-117.08503	1209	J4	Residential	None	Outlet
DW022	DWM	I-15N, east on Carroll Canyon Rd drive south on Business Park Ave, quick left on Willow Creek. Park at 10100 Willow Creek. The site is located on the southeast corner of building (10100) in front lawn.	Penasquitos	906.1	32.90155	-117.10818	1209	G5	Industrial	None	Outlet

Station ID	Station Type	Location	Watershed	HSA	Latitude	Longitude	TBPage	TBGrid	LandUse_1	LandUse_2	Convey_Type
DW023	DWM	I-15N, Mira Mesa Blvd west, north on Black Mountain Rd, left on Capricorn Way, right on Bootes St, right on Revelstoke Way. Park at 8890 Revelstoke Way. Walk down embankment/trail. The med pipe outlet is located 25 yards down, to the left in the shrubs, straight down from street inlet. (Difficult to see.)	Penasquitos	906.1	32.93269	-117.13035	1209	D1	Residential	None	Outlet
DW024	DWM	I-15N, Mira Mesa Blvd west, North on Camino Ruiz, west on Zapata Ave. Park at Zapata Ave and Blythe Rd. The pipe outlet is located at the bottom of the gated service road (approx 25 yards down) which is located on the left hand side of the southwest corner of Blythe Rd and Zapata Ave.	Penasquitos	906.1	32.92319	-117.14947	1209	B2	Residential	None	Outlet

DW027	DWM	I-15N, West on Mira Mesa Blvd, south on Parkdale Ave. Park at Port Royale Dr and Parkdale Ave. The med pipe outlet is located directly west of Port Royale Dr. Maneuver around slated fence at vacant lot to access dirt trail down to site, approx 50 yards from vehicle.	Penasquitos	906.1	32.90409	-117.15680	1209	A5	Residential	None	Outlet
DW028	DWM	I-15N, West on Mira Mesa Blvd, south on Flanders Dr, right on Mesa Rim Rd. Park on corner at 9955 Mesa Rim Rd. Walk down dirt access road approx 15 yards then through bush to the med pipe outlet located in canyon at a eucalyptus tree approx 80 yards further down.	Penasquitos	906.1	32.89912	-117.17652	1208	H6	Industrial	None	Outlet
DW029	DWM	I-15N, West on Mira Mesa Blvd, (or I-805 N, east on Mira Mesa) north on Pacific Heights Blvd, right on Pacific Mesa Blvd, right on Pacific Center Blvd., Left on Pacific Center Court. Park at end of road at 10455 Pacific Center Court. Walk up right-hand side entrance to parking lot of "Trex Enterprise + etc", walk two lots over to the top of bluff w/ white irrigation pipes and small culverts running down hillside. Walk to the bottom of the bluff, approx 150 yards. Med pipe outlet is located at the bottom of this large hill.	Penasquitos	906.1	32.91006	-117.18832	1208	F4	Industrial	None	Outlet
DW030	DWM	I-805N, East on Mira Mesa Blvd, south on Oberlin Dr, left on Youngstown Way. Park at the end of Youngstown Way and Carroll Canyon Rd. The med pipe outlet is located approx 15 yards down embankment across from the end of Youngstown Way. Approach storm drain from the left-hand side, stay wide!	Penasquitos	906.1	32.89081	-117.19461	1208	F7	Industrial	None	Outlet
DW031	DWM	I-805N, East on Mira Mesa Blvd, S on Scranton Rd, east on Carroll Canyon Rd, turns into Carroll Rd. Park near the 6500-block area of Carroll Rd. The site is located at the bottom of the hill on the east side of the road 45 yards south of Fenton Rd (not marked/open gate/a back entrance to the cemetery). The large pipe outlet is located 5 yards off of Carroll Rd in the bush and trees. LOTS of poison oak!	Penasquitos	906.1	32.89174	-117.18453	1208	G7	Industrial	None	Outlet
DW032	DWM	I-5 N to Sorrento Valley exit. At stop sign at end of off-ramp, turn right, onto Roselle. Park at 10581 Roselle St. Site is located at the end of the driveway in the back of the building.	Penasquitos	906.1	32.89707	-117.22001	1208	C6	Industrial	None	Outlet
DW033	DWM	5 north, east on Via de La Valle, South on San Andres Dr. The medium pipe outlet is located on southwest end of San Andres Dr.	San Dieguito River	905.11	32.97831	-117.24773	1187	H2	Commercial	Residential	Outlet
DW034	DWM	5N, Del Mar Heights Rd east, south on High Bluff Dr. Pull into service road just before the corner of El Camino Real and High Bluff Dr. Park ASAP. Large pipe outlet is located 10 yards down service road. The gate was open and my key did not work.	Penasquitos	906.1	32.94366	-117.24016	1187	J7	Commercial	Residential	Outlet
DW035	DWM	I-5N, East on Via de la Valle, South on El Camino Real, east on San Dieguito Rd, right on Derby Farms Rd. Park ASAP. Medium pipe outlet is located behind shrubs, on east side of road(?). Approach site from the south, up Derby Farms approx 20 yards. Do not approach from the intersection- there is another outlet that is more "creek-like."	San Dieguito River	905.11	32.97880	-117.20628	1188	C7	Residential	None	Outlet
DW036	DWM	There are two different ways to get to DW 36. 1) 5N, 56 East, Carmel Country Rd S. South on Carmel Country Rd, drive over highway 56… make 1st left into gated Community (Palacio Del Mar), left on Caminito Exquisito, left on Caminito Prospero, left again on Ruette de Mer. Park at the west end of Ruette de Mer. Walk down service road to the large pipe outlet (DW36). 2) The other way to access service Rd is to park above on Carmel Country Rd at gate. (my key did not work)	Penasquitos	906.1	32.94300	-117.21310	1188	C7	Commercial	Residential	Outlet
DW037	DWM	5N, 56 East, Carmel Country Rd S. make 1st left into the gated Community on the left "Palacio Del Mar" on Caminto Classico. Left on Caminto Exquisito. Park near 4860 Cmto Exquisito. Walk down cement path between 4860 & 4870. Outlet is on golf course straight from path. (Old directions: The medium pipe outlet is located on the opposite side of creek of DW36, and southeast by approx 25 yards. There is another smaller pipe outlet a bit further east; this is not the sample site. There was a running storm drain under bridge.)	Penasquitos	906.1	32.94293	-117.21227	1188	C7	Residential	None	Outlet
DW038	DWM	I-5N West on Carmel Valley Rd, left on McGonigle/Del Mar Scenic Pkwy. Park ASAP in notch off to the right. The sample site is located at the southwest corner of intersection. Two sets of med/small pipe outlets, sample the pipe that is perpendicular to Carmel Valley Rd. thus points toward the ocean. Coastal Pena 11.	Penasquitos	906.1	32.93580	-117.25762	1207	G1	Residential	None	Outlet
DW039	DWM	I-5N, West on Carmel Valley Rd, park near "Roberto's Taco Shop." The med outlet is located approx 50 yards north of "Roberto's". Not the small outlet in front of "Roberto's." The site is located just inside of a service gate. Coastal Pena 08.	Penasquitos	906.1	32.93458	-117.25631	1207	G1	Residential	None	Outlet
DW041	DWM	I-5N, East on Carmel Valley Rd. Jump the curb and park just before El Camino Real. Walk along fence line westward. The small pipe outlet is located approx 30 yards west of intersection. Beware of ticks…	Penasquitos	906.1	32.93350	-117.23712	1208	A1	Commercial	None	Outlet

Station ID	Station Type	Location	Watershed	HSA	Latitude	Longitude	TBPage	TBGrid	LandUse_1	LandUse_2	Convey_Type
DW042	DWM	I-5N, Sorrento Valley Rd exit. Head Northwest on Sorrento Valley Rd. This site is located on the southwest corner of Sorrento Valley Rd (west end) and Carmel Mountain Rd.	Penasquitos	906.1	32.91579	-117.23705	1208	A4	Commercial	Residential	Outlet
DW043	DWM	I-5N, to Sorrento Valley exit. At end of off-ramp/stop sign, turn left onto Roselle St. Stay on Roselle until you pass Dunhill St, you'll see an open culvert that runs underneath Roselle St. Park ASAP. Sample at the end of this culvert as it flows into estuary behind bldgs 11055-11065.	Penasquitos	906.1	32.90553	-117.22895	1208	B5	Industrial	None	Concrete Channel
DW044	DWM	I-5N, to Sorrento Valley exit. At end of off-ramp/stop sign, turn left onto Roselle St. Stay on Roselle until Dunhill St, park. This med size pipe outlet is located (NE) across from Dunhill St on Roselle St. behind bldgs 11035-11045. This site could potentially become buried under sand.	Penasquitos	906.1	32.90424	-117.22714	1208	B5	Industrial	None	Outlet
DW045	DWM	I-5N, to Sorrento Valley exit. At end of off-ramp/stop sign, turn left onto Roselle St. Stay on Roselle until you reach the "Food-shop area" near the I-5 freeway onramp, park. There are two pipes that outlet on the west side of the channel, sample the pipe that is located further away from the overpass.	Penasquitos	906.1	32.90200	-117.22498	1208	B5	Commercial	None	Outlet
DW046	DWM	I-5N, to Sorrento Valley exit, make a left at off-ramp stop sign (Roselle St). Make first right (Sorrento Valley Blvd). Cross under I-805, and make a right onto Vista Sorrento Parkway. Turn East on Lusk Blvd. The small pipe outlet is located underneath trees and shrubs on Northwest corner of Vista Sorrento Parkway and Lusk Blvd.	Penasquitos	906.1	32.89904	-117.21762	1208	C6	Industrial	None	Outlet
DW047	DWM	I-5N West on Genesee, this will become N. Torrey Pines Rd, (do not turn left at N. Torrey Pines Rd,) East on Torrey Pines Science Parkway North. Drive down the driveway that is ahead to the right, until you see the sidewalk leading to the tennis courts. Walk down pathway past tennis courts. Small pipe outlet is located behind tennis courts and to the right of Helicopter pad. Approx 75 yards away from vehicle. Go early for best parking access. May need sample pole.	Penasquitos	906.1	32.90994	-117.24173	1207	J5	Industrial	None	Outlet
DW048	DWM	I-5N West on La Jolla Parkway (Ardath), North on La Jolla Shores Dr, East on La Jolla Farms Rd. Park at "Scripps Coastal Reserve" (9362 L.J.F.Rd). Walk to the end of wood fence; a small pipe outlet is located on your left, approx 20 yards.	Mission Bay	906.3	32.87575	-117.24674	1227	J2	Residential	None	Outlet
DW049	DWM	I-5N, West on La Jolla Parkway (Ardath), North on La Jolla Shores Dr, west on El Paseo Grande. Park in Scripps Parking lot.. Walk down "beach access" at Discovery Way. Large Pipe outlet is located approx 25-30 yards south. This is a preexisting "Coastal Storm Drain" site.	Mission Bay	906.3	32.86275	-117.25499	1227	H4	Residential	None	Outlet
DW050	DWM	I-5N, West on La Jolla Parkway (Ardath), North on La Jolla Shores Dr, West on Calle Garza, pull into parking lot. Park at the north end of the "La Jolla Shores Beach" parking lot. The large pipe outlet is located 20 yards north of public bathrooms, which is directly west of Calle Del Oro. This is a preexisting "Coastal Storm Drain" site.	Mission Bay	906.3	32.85920	-117.25605	1227	H4	Residential	None	Outlet
DW051	DWM	I-5N, West on La Jolla Parkway (Ardath), North on La Jolla Shores Dr, West on Avenida de La Playa. Outlets are in a vault at the foot of ADLP. This is a preexisting "Coastal Storm Drain" site.	Mission Bay	906.3	32.85461	-117.25896	1227	G5	Commercial	Residential	Outlet
DW052	DWM	I-5N, West on La Jolla Parkway (Ardath), this becomes Torrey Pines, go West on Prospect Pl, to coast Blvd. Park near 1021 Coast Blvd S, this is just north of the "Seal Rock Reserve." The med pipe outlet is located ½ way down Shell Beach access staircase on the south side. The outlet is covered by ice plant.	Mission Bay	906.3	32.84885	-117.27622	1227	E6	Commercial	Residential	Outlet
DW053	DWM	I-5N, West on La Jolla Parkway (Ardath), this becomes Torrey Pines, go West on Prospect Pl, Park at Ravina (Coast Blvd) and Prospect Pl. Walk between apartments at "beach access." The large pipe outlet is located approx 20 yards north on beach. This is a preexisting "Coastal Storm Drain" site.	Mission Bay	906.3	32.83941	-117.28185	1227	E7	Commercial	Residential	Outlet
DW054	DWM	I-5 to La Jolla Pkwy (Old Ardath Rd), north on Torrey Pines Rd, park on dirt at beginning of Pottery Park Drwy. Walk approx ¼ mile up Torrey Pines Rd on west side of Rd. Med pipe outlet is located at bottom of embankment, which is just beyond the street storm drain inlet.	Mission Bay	906.3	32.85757	-117.24586	1227	J5	Residential	None	Outlet
DW055	DWM	I-5N exit to Gilman Dr, east on Via Alicante. Park ASAP after a "Public Bus Stop." Walk down embankment (new trail) just 5 yards east of bus stop, cross creek (at very large pipe outlet=creek). The medium pipe outlet is located 10 yards southwest of "large creek pipe."	Mission Bay	906.4	32.86188	-117.23572	1228	A4	Residential	None	Outlet
DW056	DWM	I-5N Exit to La Jolla Colony Dr, park at the corner of La Jolla Colony Dr. and Rosenda Ct. Cross LJC Dr. and walk northeast 50 yards. There is a manhole lid down the embankment on the service road, immediately downhill from a yellow sign that ways "Porte La Paz". The outlet is straight downhill from this, on the other side of the train tracks. Use a large sycamore tree and a train track mile marker sign for a point of reference to enter the thick brush. See picture for reference.	Mission Bay	906.4	32.85413	-117.22855	1228	B5	Residential	None	Outlet
DW057	DWM	I-5N to La Jolla Colony Dr, East on Palmilla Dr, East on Arriba St, South on Camino Tranquillo. Park at CM Tranquillo and CM LIndo. Walk on lawn at Southeast corner and descend into canyon. The large pipe outlet is below; use trails to hike down.	Mission Bay	906.4	32.85927	-117.21758	1228	C4	Residential	None	Outlet
DW058	DWM	I-5N, East on Nobel Dr to Genesee Ave south. Park at the beginning of service road just south of University City H.S (West side of Genesee). Very large pipe outlet is located 5 yards off to the right at the beginning of the service road. Note: This is a creek, merged w/SD below road prior to outlet sample site.	Mission Bay	906.4	32.86064	-117.20931	1228	D4	Residential	Commercial	Outlet
DW059	DWM	I-5N, East on Nobel Dr, North on Town Center Dr, East on Renaissance Ave. Park ASAP. Small pipe outlet is located approx 100 yards south of intersection on the southeast corner.	Mission Bay	906.4	32.86595	-117.20757	1228	D3	Commercial	None	Outlet
DW060	DWM	I-5N East on Nobel Dr, just east of Towne Center Rd, hop curb to right after the guardrail and go right onto non-gated service road, drive down into canyon. Park before it curves to the left (just at the bottom of the incline). Hike down to large outlet, actually two. DW60=Large Outlet, possible creek. And DW61=Small Outlet located at same location as DW60.	Mission Bay	906.4	32.86404	-117.20791	1228	D4	Residential	Commercial	Outlet

DW140	DWM	I-5, to Sea World Dr, Access frontage road on south side of Sea World Dr, at S. Shores Park. The pipe outlet is located 100 yards east of the Mission Bay Dr overpass. Tidally Influenced, grab sample at low tide!	Mission Bay	906.7	32.76026	-117.22339	1268	C4	Commercial	None	Outlet
DW141	DWM	I-8 West, Access frontage road from the W. Mission Bay Drive exit. The frontage road is a dirt road off to the right, before the stoplight. Go East on the frontage road. The large series of pipe outlets are located very close to the pump station on this service road. (This site is below the diversion unit)	San Diego River	907.11	32.75851	-117.21773	1268	C4	Commercial	Industrial	Outlet
DW142	DWM	I-8 West, Access frontage road from the W. Mission Bay Drive exit. The frontage road is a dirt road off to the right, before the stoplight. Drive west on service road, to approx 5-10 yards east of Sunset Cliffs Blvd. Look for the large (capped) pipe outlet. (Not to be confused with DW143 10 yds east of Sunset Cliffs). Sample at extremely low tide if possible.	San Diego River	907.11	32.75659	-117.23478	1268	B5	Residential	Industrial	Outlet
DW143	DWM	I-8 West, Access frontage road from the W. Mission Bay Drive exit. The frontage road is a dirt road off to the right, before the stoplight. Drive west on service road, to approx 5-10 yards east of Sunset Cliffs Blvd. Look for the large (capped) pipe outlet. (Not to be confused with DW142 5 yds east of Sunset Cliffs). (Possible Famosa Slough drainage?). Sample at low tide if possible.	San Diego River	907.11	32.75652	-117.23443	1268	B5	Residential	Industrial	Outlet
DW144	DWM	I-8 West, South to Nimitz Blvd, take Catalina Blvd exit. Catalina Blvd south, enter Point Loma Nazarene College, drive down Loma Land Dr towards beach access. After sharp left watch for Storm Drain outlet in brush on left hand side of road. The small pipe outlet is located in brush, which is north of the lower baseball field.	Pueblo San Diego	908.1	32.71668	-117.25295	1287	H3	Commercial	Residential	Outlet
DW145	DWM	I-8 West to Nimitz Blvd, SouthWest on Rosecrans St. The storm drain grate is located at the corner of Rosecrans Street and Upshur Street. Very deep, sample pole extension needed.	Pueblo San Diego	908.1	32.72086	-117.23223	1288	B3	Commercial	Residential	Catch Basin
DW146	DWM	I-8 West to Nimitz Blvd, SouthWest on Rosecrans St. SouthEast on Garrison, to Scott Street. This manhole lid is located on the corner of Garrison Street and Scott Street on the sidewalk.	Pueblo San Diego	908.1	32.72495	-117.22751	1288	C2	Commercial	Residential	Manhole
DW147	DWM	I-8 West to Nimitz Blvd, West on N Harbor Dr. This grate is located in a pay parking lot between the Best Western and Holiday Inn on N. Harbor Drive. It is just behind handicapped parking space #5.	Pueblo San Diego	908.1	32.72586	-117.22471	1288	C2	Commercial	Residential	Catch Basin
DW148	DWM	I-5 to Garnet Ave. West on Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on Belvedere St, North on Monte Vista Av, West on Vista de la Playa. Park at west end of Vista de La Playa. Walk down access path and go south along sea wall until you reach the large outlet. This is a Coastal Storm Drain routine site. Sample just prior to the diversion unit, approx 3 feet up into the pipe outlet.	Mission Bay	906.3	32.83421	-117.28156	1247	E1	Residential	None	Outlet
DW149	DWM	I-5 to Garnet Ave. West on Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on Bonair. Park at Bonair St parking lot, in dirt if necessary. This is a Coastal Storm Drain routine site. If possible sample upstream of the diversion unit. The diversion unit is located above outlet in the street.	Mission Bay	906.3	32.83368	-117.28172	1247	E2	Residential	None	Outlet
DW150	DWM	I-5 to Garnet Ave. West on Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on La Canada St, North on Camino de la Costa. Park at 5990 Camino de La Costa (Between La Canada and Avenida Cortez) at a parking area. Walk down the stairs and walk south along the beach 200 yards. Sample at low tide to make the walk along the beach easier.	Mission Bay	906.3	32.83217	-117.28161	1247	F3	Residential	None	Outlet
DW151	DWM	I-5 to Garnet Ave. West on Garnet Ave, North on Mission Blvd, to La Jolla Blvd. Park at 5990 Camino de La Costa (Between La Canada and Avenida Cortez) at a parking area. Walk down the stairs and walk south along the beach. DW150 is about 200 yards down beach, DW151 is another 200 yards or so south. Sample at low tide to make the walk along the beach easier. See the picture for visual confirmation and use the GPS point to find it.	Mission Bay	906.3	32.81753	-117.27324	1247	F3	Residential	None	Outlet
DW152	DWM	I-5 to Garnet Ave. West on Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on Midway St, South on Calumet Av. Park at 5445 Calumet Ave (Calumet Park). Walk down trail at north end of park to beach. Outlet is north at base of cliff.	Mission Bay	906.3	32.81183	-117.27011	1247	F4	Residential	None	Outlet
DW153	DWM	I-5 to Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on Sea Ridge Dr, Park at beach access on Sea Ridge Dr.(PB Point). This is a Coastal Storm Drain routine site. Walk south approx 75 yards to med pipe outlet located on bluff.	Mission Bay	906.3	32.80802	-117.26523	1247	G5	Commercial	Residential	Outlet
DW154	DWM	I-5 to Garnet Ave, North on Mission Blvd, to La Jolla Blvd. West on Tourmaline St. Park at Tourmaline Surf Park. This is a Coastal Storm Drain routine site. Sample just upstream of the diversion unit (speed bump), approx 40 yards up large concrete culvert.	Mission Bay	906.3	32.80537	-117.26232	1247	G5	Commercial	Residential	Concrete Channel
DW155	DWM	I-5 to Garnet Ave, North on Mission Blvd, West on Loring St, Park at Loring St at the beach. The large 36" pipe outlet is located south of Loring St.	Mission Bay	906.3	32.80354	-117.26052	1247	G5	Commercial	Residential	Outlet
DW156	DWM	I-5 to Garnet Ave, North on Mission Blvd, West on Missouri St. Park at Missouri St at the beach. Large 48" pipe outlet.	Mission Bay	906.3	32.79984	-117.25853	1247	H6	Commercial	Residential	Outlet
DW157	DWM	I-5 to Garnet Ave, South on Mission Blvd, Park at Yarmouth Ct or Windemere Ct on Mission Bay. The manhole lid is located in the sand on the bay side beach in front of the Catamaran hotel.	Mission Bay	906.3	32.78896	-117.25323	1247	H7	Commercial	Residential	Manhole
DW158	DWM	I-5 to Garnet Ave, South on Dawes St,, Park at Dawes St on Mission Bay. The manhole lid is in the middle of the street just before the end of Dawes St.	Mission Bay	906.3	32.79198	-117.24848	1247	J7	Commercial	Residential	Manhole
DW159	DWM	I-5 to Garnet Ave, South on Fanuel St, Park at Fanuel St on Mission Bay. The grate is at the end of Fanuel St. just prior to the Storm Drain inlet	Mission Bay	906.3	32.79163	-117.24415	1247	J7	Commercial	Residential	Catch Basin
DW160	DWM	I-5 to Garnet Ave, South on Olney St. Park at Olney St and PB Dr on Mission Bay. Crawl through a small hole in the fence and flip the steel plate to access the diversion unit pool. Sample this, not the tidally influenced area in front of the outlet.	Mission Bay	906.4	32.79654	-117.22828	1248	B6	Commercial	Residential	Outlet

Station ID	Station Type	Location	Watershed	HSA	Latitude	Longitude	TBPage	TBGrid	LandUse_1	LandUse_2	Convey_Type
DW161	DWM	I-5, West on Clairemont Dr, North on E. Mission Bay Dr. South on De Anza Rd. Park in lot at De Anza Cove on Mission Bay. Sample the pipe at the foot of De Anza Rd. This pipe drains only the De Anza parking lot and park area; see picture for visual confirmation.	Mission Bay	906.4	32.70687	-117.21555	1248	D6	Commercial	Residential	Outlet
DW162	DWM	I-8 West, to W Mission Bay Dr, North on Mission Blvd, East on Santa Clara Pl. Park at the large Storm Drain Pump Station on the north side of Santa Clara Pl on Mission Bay. Use Streets Division help to access and collect a sample as it flows into the well.	Mission Bay	906.3	32.78298	-117.25088	1267	J1	Commercial	Residential	Catch Basin
DW163	DWM	I-8 West, to W Mission Bay Dr, North on Mission Blvd, East on Island Ct. Park at end of Island Ct on Mission Bay. Sample the pipe outlet at very low tide; the site is often tidally intruded.	Mission Bay	906.3	32.77262	-117.24901	1267	J2	Commercial	Residential	Outlet
DW164	DWM	I-8 West, to W Mission Bay Dr, South on Mission Blvd, East on San Fernando Pl. Park at end of San Fernando Pl on Mission Bay. The storm drain interceptor station (I-13) is located at the south end of the Mission Bay parking lot just to the north of San Fernando Pl. Sample the flow from the southern direction as it enters the well. A 2359 key is needed to access the well; possible streets help necessary.	Mission Bay	906.3	32.76806	-117.24991	1267	J3	Commercial	Residential	Catch Basin
DW165	DWM	I-8 West, to West Mission Bay Dr, South on Quivira Pl, left at the stop sign. Park in the second parking lot and walk down to the rocks. The outlet is located just east of the Bayfront Restaurant.	Mission Bay	906.7	32.76205	-117.23456	1268	B4	Commercial	Residential	Outlet
DW166	DWM	I-8 West, to West Mission Bay Dr, East on Perez Cove Way, Park at the Sea World Staff Parking area at Perez Cove Way on W Mission Bay Dr. The manhole lid is just past the entrance to the parking area; see picture for visual.	Mission Bay	906.7	32.76688	-117.23271	1268	B3	Commercial	Residential	Manhole
DW167	DWM	I-5, East on Clairemont Dr, South on E Mission Bay Dr. Park at public lot on E. Mission Bay Dr, south of the Hilton on Mission Bay. The manhole lid is located at the west side of the public parking lot approx 5 feet from the SD interceptor pump.	Mission Bay	906.4	32.77706	-117.21072	1268	D2	Commercial	Residential	Manhole
DW168	DWM	I-8 West, to Sunset Cliffs Blvd. West on West Point Loma Blvd. North on Abbott St into dirt lot. Cross over trail. The large pipe outlet is located on the south side of "Dog Beach." Sample the easternmost of the 2 outlets. This outlet is always tidally infiltrated, sample at low tide.	San Diego River	907.11	32.75547	-117.24566	1267	J5	Commercial	Residential	Outlet
DW169	DWM	I-8 West, to Sunset Cliffs Blvd. Park at Point Loma Ave at the beach. Use caution approaching the large pipe outlet located on bluff. Sample at low tide and with small surf.	Pueblo San Diego	908.1	32.73666	-117.25539	1267	H7	Commercial	Residential	Outlet
DW170	DWM	I-8 West, to Sunset Cliffs Blvd. Park at Hill St at the beach. The pipe outlet is located just off the street.	Pueblo San Diego	908.1	32.72591	-117.25677	1287	H2	Residential	None	Outlet
DW171	DWM	I-5, to Tecolote Rd exit, North on Morena Blvd. Park at Morena Blvd and Knoxville St. Walk to the "Tecolote Culvert." Walk approx 150 yards west. The med pipe outlet is located on the south side of the culvert near the W. Morena Blvd overpass.	Mission Bay	906.5	32.77145	-117.20434	1268	E2	Commercial	Residential	Outlet
DW172	DWM	I-5, to Tecolote Rd east. Park at the Rec. Center. Enter culvert at the Tennis Racquet Club entrance on bridge. The med pipe outlet is located in culvert just north/west of the bridge, which crosses the culvert.	Mission Bay	906.5	32.77539	-117.20054	1268	E2	Commercial	Residential	Outlet
DW173	DWM	I-5, to Tecolote Rd east. Park at the Rec. Center. Enter culvert at the Tennis Racquet Club entrance on bridge. DW172 is the med pipe outlet located in culvert just north/west of the bridge, which crosses the culvert. DW173 is the med pipe outlet located approx 150 yards east of DW172 on the north side of the culvert. The outlet is located near the tennis courts. Use picture to identify the storm drain.	Mission Bay	906.5	32.77596	-117.19856	1268	F2	Commercial	Residential	Outlet
DW174	DWM	I-5, to Tecolote Rd, North on Morena Blvd, East on Knoxville St, South/east on Gardena Ave. Park at Gardena Ave and Cross St. Walk west in culvert approx 150-200 yards (14-15 houses down). The med pipe outlet is located on the north side of the culvert.	Mission Bay	906.5	32.77514	-117.19411	1268	F2	Residential	None	Outlet
DW175	DWM	I-5, I-8East to Morena Exit. North on Morena Blvd, East on Linda Vista Rd. Enter USD property by driving north on USD's Main Rd, then East onto Santa Ana. Dr, Park at "Mission Crossroads," 5988 San Dimas Ave. This is in the U.S.D. student dorm area. Walk down embankment (into Tecolote Canyon) to the large pipe outlet approx 50 yards below. Use caution walking on the slippery leaves.	Mission Bay	906.5	32.77408	-117.18707	1268	G2	Commercial	Residential	Outlet
DW176	DWM	I-5, I-8 East to Morena Exit. North on Morena Blvd, East on Linda Vista Rd. Enter USD property by driving north on USD's Main Rd, Turn right after the guard house, onto Santa Ana Dr. At the fork in the road, bear right and drive up past the Jenny Craig Pavillion and park in the "Foul Ball Area" at the Cunningham Baseball Field. The entrance to the canyon is back up the hill about 20 yards; DW176 is 100 yards north into the canyon, on the hillside close to USD, surrounded by chain link. DW177 is about another 100 yards north, in among some trees.	Mission Bay	906.5	32.7775517	-117.1839617	1268	G2	Commercial	Residential	Outlet
DW177	DWM	I-5, I-8East to Morena Exit. North on Morena Blvd, East on Linda Vista Rd. DW315	DWM	I-94, South on Euclid Ave, East on Naranja St. North onto 54th St- it is a barricaded dead end. Park and walk up to bridge. Enter Channel on southwest side. Outlet is on north side of channel, west of the bridge.	Pueblo San Diego	908.22	32.70949	-117.07968	1290	B3	Residential	Commercial	Outlet
DW316	DWM	From HWY 52, south on Convoy, East on Convoy Court. Pull into parking lot at 7902-7924. Drive thru lot to NE corner, park in space at 7958. The manhole is in a parking space in front of 7958. This is a very deep manhole, may need 4 poles or yarn basket.	Mission Bay	906.4	32.83581	-117.14904	1229	B7	Commercial	Industrial	Manhole
DW317	DWM	I-15N, west on Rancho Bernardo Rd, N on West Bernardo Rd, W on Matinal Rd, S on Matinal Circle. Site is across the street from 11330 Matinal circle, just past a grassy opening.	San Dieguito River	905.21	32.03057	-117.08524	1169	J1	Residential	Commercial	Outlet
DW318	DWM	I-5 to Dairy Mart Road south. East on Camino de la Plaza. Park at corner. Outlet is in the bushes on north side of Camino de la Plaza about 10 meters east of the curb inlet.	Tijuana River	911.11	32.55441	-117.06191	1350	E4	Residential	Agricultural	Outlet
DW319	DWM	I-805 to Home Ave S. Park near the intersection of Beech St and Home Ave. Sample the large outlet on east side of Home Ave, just south of the large apartment complex.	Pueblo San Diego	908.22	32.72061	-117.1096	1269	G2	Residential	Commercial	Outlet
DW320	DWM	I-15 to Ocean View Blvd. West on Ocean View Blvd, South on 32nd St, East on National Ave. Park at the bridge, which crosses Chollas Creek at 3316 National Ave or in the dirt lot in front of "Moe-Man Truck and Auto Body" just east of the Chollas Creek Bridge. Access the creek on the southeast side of National Ave. Walk up creek underneath bridge to the large pipe outlet located underneath the east side of the bridge.	Pueblo San Diego	908.22	32.69611	-117.12228	1289	F5	Residential	None	Outlet
DW321	DWM	Hwy 56 , N on Camino Del Sur. West on Torrey Meadows Dr, to Via Sabbia. Very large outlet is in canyon, north of Torrey Meadows, in line with the storm drain manhole just east of intersection. Area is under construction. Directions may change. Collect sample from large outlet not small ones that also discharge there.	Penasquitos	906.1	32.9656	-117.15674	1189	A4	Residential	Commercial	Outlet
DW322	DWM	I-805, east on Palm Ave which becomes Ocean View Hills Pkwy. West on Del Sol Blvd. Park at dead end of Del Sol, walk down browditch to outlet. Look for chain link around outlet. GPS is at browditch, not outlet.	Tijuana River	911.11	32.57197	-117.02695	1350	J1	Residential	None	Outlet

DW303	6/12/2006	Dissolved Copper	4.95 ug/L	11/13/2006	Above action level	Investigation ongoing
DW303	6/12/2006	MBAS	16.6 mg/L	11/13/2006	Above action level - ICID	Investigation ongoing
DW303	6/12/2006	Total coliform	30000 MPN/100mL	11/13/2006	Above action level - ICID	Investigation ongoing
DW304	6/12/2006	Total coliform	300000 MPN/100mL	11/13/2006	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW304	6/12/2006	Turbidity	118 NTU	11/13/2006	Below action level	No action necessary
DW307	9/21/2006	Temperature	19.9℃	11/2/2006	Below action level	No action necessary
DW310	7/21/2006	Temperature	28.8℃	10/26/2006	Below action level	No action necessary
DW312	6/7/2006	Turbidity	538 NTU	11/14/2006	Below action level	No action necessary
DW320	7/13/2006	MBAS	4.37 mg/L	11/14/2006	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW320	7/13/2006	Total coliform	900000 MPN/100mL	11/14/2006	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW320	7/13/2006	Enterococcus	120000 CFU/100mL	11/14/2006	Below action level	No action necessary
DW320	7/13/2006	Fecal Coliform	130000 MPN/100mL	11/14/2006	Below action level	No action necessary
DW320	7/13/2006	Turbidity	476 NTU	11/14/2006	Below action level	No action necessary
DW321	7/3/2006	Turbidity	153 NTU	11/16/2006	Dry	No action taken
DW325	7/17/2006	Total coliform	50000 MPN/100mL	6/25/2007	Below action level	No action necessary
DW326	9/21/2006	Turbidity	8.28 NTU	3/8/2007	Below action level	No action necessary
DW327	5/10/2006	Turbidity	954 NTU	3/28/2007	Below action level	No action necessary

* Site was resampled in the 2007 dry weather season and was below action level

Appendix E - DWM 2006 Exceedance Table - Exceeds Eliminated by Resample

Site ID	Routine Sample Date	Analyte Exceeded	Exceed Result	Resample Date	Resample Result	Action Taken
DW010	8/22/2006	Enterococcus	13000 CFU/100mL	11/20/2006	Below action level	No action necessary
DW010	8/22/2006	Total coliform	50000 MPN/100mL	11/20/2006	Below action level	No action necessary
DW011	8/22/2006	Enterococcus	100000 CFU/100mL	11/20/2006	Below action level	No action necessary
DW011	8/22/2006	Turbidity	13.3 NTU	3/5/2007	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW014	6/8/2006	Turbidity	144 NTU	11/6/2006	Below action level	No action necessary
DW016	7/5/2006	Turbidity	137 NTU	10/31/2006	Below action level	No action necessary
DW020	8/8/2006	Enterococcus	70000 CFU/100mL	2/27/2007	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW020	8/8/2006	Fecal Coliform	50000 MPN/100mL	11/6/2006	Below action level	No action necessary
DW020	8/8/2006	Orthophosphate (PO4-P)	2.12225 mg/L	12/6/2006	Below action level	No action necessary
DW020	8/8/2006	Total coliform	220000 MPN/100mL	2/27/2007	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW021	8/14/2006	Ammonia (NH3-N)	1 mg/L	3/5/2007	Above action level	Investigation continued into 2007 dry weather season and will be reported on in the 2009 JURMP Annual Report*
DW021	8/14/2006	Enterococcus	30000 CFU/100mL	11/20/2006	Below action level	No action necessary
DW021	8/14/2006	pH	3.31 pH unit	10/25/2006	Below action level	No action necessary
DW021	8/14/2006	Temperature	14℃	10/25/2006	Below action level	No action necessary
DW024	5/2/2006	Enterococcus	14000 CFU/100mL	11/16/2006	Below action level	No action necessary
DW024	5/2/2006	Total coliform	110000 MPN/100mL	11/16/2006	Below action level	No action necessary
DW025	5/2/2006	MBAS	1.76 mg/L	10/25/2006	Below action level	No action necessary
DW034	8/14/2006	Enterococcus	12000 CFU/100mL	12/5/2006	Below action level	No action necessary
DW034	8/14/2006	Oil and Grease	225 mg/L	11/7/2006	Below action level	No action necessary
DW036	7/25/2006	Enterococcus	62000 CFU/100mL	11/6/2006	Below action level	No action necessary

* Site was resampled in the 2007 dry weather season and was below action level

Site ID	Routine Sample Date	Analyte Exceeded	Exceed Result	Resample Date	Resample Result	Action Taken

☐ Routine Investigation ☑ IC/ID Follow-Up For DW 64 06

GENERAL SITE DESCRIPTION (NAD 83 decimal degrees to 5th place)

Site ID	DW 64	**Latitude**	(e.g., 33.41174)	**Watershed**	**Hydrologic Unit**	(e.g., 7.00)
Location		**Longitude**	(e.g., -117.35213)		**Hydrologic Area**	(e.g., 7.10)
Date	6/28/07	**TB Page**			**Hydrologic Subarea** (Optional)	(e.g., 7.11)
Time	0913	**Observer**	JF/JS		**Discharge Area** (Optional)	

Land Use (Primary) (Check one only): ☐ Residential ☑ Commercial ☐ Industrial ☐ Agricultural ☐ Parks ☐ Open

Land Use (Secondary) (Optional, greater than 10%): ☐ Residential ☐ Commercial ☑ Industrial ☐ Agricultural ☐ Parks ☐ Open

Conveyance (Check one only): ☐ Manhole ☐ Catch Basin ☐ Outlet ☐ Concrete Channel ☐ Natural Creek ☐ Earthen Channel

ATMOSPHERIC CONDITIONS

Weather ☐ Sunny ☐ Partly Cloudy ☐ Overcast ☐ Fog

Tide ☐ N/A ☐ Low ☐ Incoming ☐ High ☐ Outgoing **Tide Height:**_____ft.

Last Rain ☑ > 72 hours ☐ < 72 hours

Rainfall ☐ None ☐ < 0.1" ☑ ☐ > 0.1"

RUNOFF CHARACTERISTICS

Odor	☐ None	☑ Musty	☐ Rotten Eggs	☐ Chemical	☐ Sewage	☐ Other _____
Color	☑ None	☐ Yellow	☐ Brown	☐ White	☐ Gray	☐ Other _____
Clarity	☑ Clear		☐ Slightly Cloudy	☐ Opaque		☐ Other _____
Floatables	☑ None	☑ Trash	☐ Bubbles/Foam	☐ Sheen	☐ Fecal Matter	☑ Other Beer Cans
Deposits	☐ None	☐ Sediment/Gravel	☑ Fine Particulates	☐ Stains	☐ Oily Deposits	☐ Other _____
Vegetation	☐ None	☐ Limited	☐ Normal	☑ Excessive		☐ Other _____
Biology	☐ None	☐ Insects	☑ Algae	☐ Snails/Fish	☐ Mussels/Barnacles	☐ Other _____

Flow Observed ☑ Yes ☐ No ☐ Ponded ☐ Tidal

Does the storm drain flow reach the Receiving Water? ☐ Yes ☐ No ☑ N/A

Evidence of Overland Flow? ☐ Yes ☐ No ☐ Irrigation Runoff ☐ Other: _____

Photo Taken ☐ Yes ☑ No **Photo #** _____

Field Screening Samples Collected? ☐ Yes ☑ No

Water Temp (°C)		**NH_3-N** (mg/L)		**NO_3-N** (mg/L)		**React PO_4** (mg/L)	
pH (pH units)		**TURB** (NTU)		**COND** (mS/cm)			

Analytical Lab Samples Collected? ☑ Yes ☐ No

FLOW ESTIMATION WORKSHEETS

Flowing Creek or Box Culvert

Width		ft
Depth		ft
Velocity		ft/sec
Flow		gpm

Filling a Bottle or Known Volume

Volume	250	mL
Time to Fill	1.5	sec
Flow		gpm

Flowing Pipe

Diameter		ft
Depth		ft
Velocity		ft/sec
Flow		gpm

From: Christina Rodrigues
To: Jessica Erickson
Date: 4/16/07 3:13PM
Subject: 3333 National Avenue

Hi Jessica,

FYI,
A gentleman by the name of Jack might be calling you in regards to the above address. Tony and myself walked the canal next to Roadone towing on National Avenue.

Jack made a complaint regarding grease, trash, slime in the canal. I referred this site to Environmental Services and Street Divisions--- Tony stated that Chris Zirkle referred this complaint to your section. If you have any questions call me or email me.

SAN DIEGO MUNICIPAL CODE VIOLATION
Article 3: Water Quality Controls
Division 3: Stormwater Management and Discharge Control

- [X] §43.0304 – Prohibited Discharges — Substance(s): Waste Water (Soapy)
- [ ] §43.0306 – Illegal Connections Prohibited
- [ ] §43.0307 – Reduction of Pollutants in Storm Water — Substance(s):
- [ ] §43.0308 – Containment and Notification of Spills
- [ ] §43.0309 – Storm Water Conveyance System Protection — Substance(s):

Required Corrective Actions

- [X] Cease all discharges into the storm drain conveyance system
- [X] Remove discharged material using appropriate methods
- [X] Ensure no further discharges occur; Implement BMP's (see Fact Sheets)
- [X] Educate employees / contractor / service provider
- [X] Other: Utilize Best Management Practices To Control Contain Capture Sewage Type Pollutant Waste Water From Related Business Activity

Required corrective actions above are required immediately. The violation(s) may be subject to further legal and/or administrative action.

COMMENTS: Assisting E.B. To locate Source of flow & check pH. pH OK, earthen Box w/grated inlet at left side gate has 2 pipes, presumably the 2 that drain to curb. Not Sure What Chewed up curbside gutter Owner in house for approx 1.5 yrs. Neighbor States flow ongoing for at least 10 yrs. Similar water chars at cul-de-sac Jayneswood - curb OK. Suspect groundwater intrusion or possible irrigation pipe leak, but not conclusive.

COMMENTS: Weston concluded that Costco may have been hosing lot, contributing to high total col. form. Disagree. Located mid-slope, 1 ft suspect ground water intrusion. low gradient system - ponding in receiving area lot. Some roof drain/ac condensation flow to storm drain. Spoke to Recvng Mgr Cheryl Clinton. She confirms that they have ceased all powerwashing/other washing activities and have an aggressive sweeping/cleaning program. No further Action.

COMMENTS: Follow-up on Weston's determination that Cintas was source of exceedance at DW207. Photos they had show a discharge on lot 1/25/05. On 1/18/07 I spoke to Luis Herrera about washing activities. He said they wash their vehicles on Saturdays w/no BMP's. I advised him that it is illegal to allow any non-prohibited flows to drains. I gave suggestions on how to prevent discharges (BMPs, 3C's, Private Mobile/Commercial Vehicle Washing, Wash Bay on site). - left educational materials:

- muni code
- Spills
- Imperv-Surf.
- Car Washing
- Dumpsters
- Think Blue
- BMP's for Business
- Automotive Fluids

Depth		ft
Velocity		ft/sec
Flow		gpm

COMMENTS: Ponded area below outfall & Downstream of outfall for a distance of about 10 meters was milky and discolored compared to rest of creek. Algal die-off present. See Photos. No evidence of discharge in outfall, looks like it has all been washed down into creek. Not sure what was discharged, or if this is caused by inadequate flushing below outfall. Mix of Commercial/Industrial & Residential upstream, many potential sources. Recommend continued surveillance.

Environmental Waste Water Recovery and Disposal Procedure

This S.O.P. (standard operating procedure) covers the basic set-up, retrieval and disposal of waste water from high pressure cleaning operations. Specific jobsites may require additional set-up procedures and protection as dictated by the requirements for that specific job.

Basic Five step waste water retrieval and disposal method used by Jaybright Co.

1. Search for all affected storm drains in the area, Cover Storm Drains with plastic sheeting and secure with sand bags. (This is secondary overflow protection for the drain in case the primary containment overflows.)

2. Create the dam and containment area using a combination of soft rubber berms and sand bags.

3. Set Recovery pump in position inside containment Area, connect power chord to Honda Generator , Start generator turn on pump perform 30 second pump test. Turn off pump.

4. Connect recovery hose to pump, layout recovery hose in uniform manner with opposite end placed inside opening of water recovery tank. Secure hose to tank to avoid hose jumping out of tank under pressure from pump.

5. Haul waste water from jobsite to Jaybright Facility or City of San Diego Waste Water Discharge Plant for proper disposal. Use San Diego Industrial User Discharge Permit # 0790-60-P1-001. Copy of permit must be presented at time of disposal. The industrial user discharge permit also allows for disposal at customer jobsite if the customer has a permitted oil water clarifier system used for the purpose of waste water discharge.

If you have question's about this S.O.P. please contact Mr. Ken Scofield, General Manager @ (619) 427-8694 Office or (619) 247-8282 Cell

Jaybright Environmental High Pressure Cleaning Company. The Largest locally owned Environmentally Safe High pressure Cleaning Company in San Diego County.

We also handle hazmat in small amounts for disposal under Jaybright California E.P.A. I.D. #0163156.

We guarantee all of our work, if you are not satisfied for any reason we will re-work the Job until you are satisfied.

COMMENTS: Revisited site based on Turbidity exceedance. This site should not have been included as an exceedance for 3 reasons:
① Turbidity was below 300 NTU (BPJ limit used by for ponded water. Weston used 100 NTU
② Samples collected via syringe from shallow ponds frequently result in false high turbidity readings due to collection of bottom sediments.
③ Outfall is below ground level. Sediment in drain due to elevation and marsh conditions - Not an illegal discharge.

Surrogate: Toluene-d8	*49.0*			"	*50.0*		*98*	*80-120*			

The results in this report apply to the samples analyzed in accordance with the chain of custody document. This analytical report must be reproduced in its entirety.

Notes and Definitions

J	Detected but below the Reporting Limit; therefore, result is an estimated concentration (CLP J-Flag).
ND	Analyte NOT DETECTED at or above the reporting limit (or method detection limit when specified)
NR	Not Reported
dry	Sample results reported on a dry weight basis (if indicated in units column)
RPD	Relative Percent Difference
MDL	Method detection limit (indicated per client's request)

The results in this report apply to the samples analyzed in accordance with the chain of custody document. This analytical report must be reproduced in its entirety.
